## LOCAL MAN MEETS DEATH AT SEA

### Prompt Action of Two Companions Saves Lad From Suffocation

#### BELLEVILLE BOY DROWNED WHEN SHIP FOUNDERED

Stanley Hammett, Former Conductor On Old Grand Trunk Loses Life

##### BROTHER HERE

Traveller For Pure Oil Co. Met An Untimely Death

Stanley Hammett, a former Belleville boy who left this city fourteen years ago, was drowned on June 20th somewhere north of Maracaibo, Central America, when the ship on which he was enroute home encountered a heavy storm and sank, according to word received this morning by his brother, T. George Hammett, 18 Stone Street, City.

The cable to Mr. Hammett here did not give any particulars of the sinking of the ship, nor did it say what the name of the ship was, except that it was one of the Pure Oil Company's fleet. Two of these tankers were travelling together and one foundered and the other was badly damaged. Stanley Hammett was formerly a conductor on the old Grand Trunk Railroad, but fourteen years ago secured a position as traveller for the Pure Oil Company and had been with them ever since. He was thirty-nine years of age at the time of his death.

Besides his brother in Belleville he has another brother, T. H. P. Hammett, a florist in Toronto. He was a member of the Mott Lodge A. F. and A. M. in Belleville before leaving this city and was of the Church of England faith. He was unmarried and his father lives in England, his mother being dead. Two weeks ago George Hammett received a letter here from his brother saying that he was passing Guatemala, Central America, for home in a few days, but that was the last word he had had from him. Mr. Hammett will leave for Chicago directly to bring the remains back to Toronto for interment.

#### RESIDENT FACES SERIOUS CHARGE

Hilton Storms Alleged To Have Permitted Intoxication In Home

Hilton Storms, St. Paul Street, was charged today with permitting drunkenness in his home on the afternoon of June 7th last, and after Magistrate Mikel had heard both sides of the story, he reserved judgment. Constable Howard swore that he had seen Storms and his wife at their home about five-thirty in the afternoon of June 7th and both were in an intoxicated condition. He also saw Benjamin McConnell at the house and he was intoxicated as well. As soon as the police arrived, McConnell left the house and was arrested on the street. He later paid a fine.

Sergeant Booth corroborated this evidence and Ben McConnell admitted having been intoxicated at Storms' home, but declared that the latter did not know he had taken the wine. He absolutely declared that Storms did not give him anything to drink. Mr. J. D. O'Flynn appeared for the accused and B. C. Donnan for the prosecution.

#### COMING EVENTS

DR. MALOTT FAREWELL SERMON Tomorrow, 10 a.m., St. George's Church. Dr. Malott will conduct the closing service of his ministry in Belleville. Helen Hunt Allen, violinist will play at the evening service. 12-21

Come to the garden party on St. Andrew's Mansie Lawn, Friday June 28 from 4-9 o'clock. Afternoon tea served, also music and supper, weather being unfavourable it will be held inside. Music during evening. 12-22

John St. Church Lawn Supper Mr. J. B. Findlay's residence, 338 Charles St., Tuesday, June 25th, 6 to 8 p.m. A good supper in beautiful surroundings. Don't miss it. Tickets 50 cents, children under twelve 25 cents. In case of rain come to the church. 12-24

Principal In Interesting Event.

Miss Elizabeth Boyd, younger daughter of Dr. and Mrs. Geoffrey Boyd, and granddaughter of the late Sir John Boyd, former chancellor of Ontario, whose marriage to Mr. James Edward Dunning, son of Mr. James Dunning, well-known merchant banker in London, Eng., will be an interesting event in London at the end of July. It will be remembered that the bride-elect's sister, Miss Nancy Boyd, was married in 1921 to Mr. Hugh Kindersley, son of Sir Robert Kindersley, G.B.E., of Plaw Hatch, Sussex, Eng., governor of the Hudson Bay Company, and Mrs. Boyd and Miss Boyd are at present abroad.—Photograph by Ashley and Crippen.

#### DISTRICT ANNUAL MEETING EAST HASTINGS WOMEN'S INSTITUTE

Mrs. G. N. Beatty Of Latta Named President For Ensuing Year

The district annual meeting of the East Hastings Women's Institute was held in the Cannifton Town Hall on Wednesday afternoon, June 19th. The meeting opened with the District President, Mrs. G. N. Beatty presiding and by the singing of O Canada.

The minutes of last year's meeting were read by the Secretary and after community singing led by Mrs. H. Harrison, Mrs. Beatty gave an address. The election of officers then took place and were as follows:

President—Mrs. G. N. Beatty, Latta  
1st Vice-Pres.—Miss Annie Hamilton, Plainfield  
2nd Vice-Pres.—Mrs. Earl R. Sayers, Holloway  
Sec.—Mrs. Miss Carrie M. Reid, R.R. 4, Belleville  
Auditors—Mrs. (Dr.) H. E. Welch, Roslin; Mrs. Fred Gray, Latta.  
Convention Delegate—Mrs. Chas. Raeve, Roslin.

A quartette composed of Mrs. H. Harrison, Mrs. F. S. Parrott, Mrs. G. Purcell and Miss E. M. Duncan entertained the audience.

District and Branch financial reports were given and the remainder of the afternoon was given to Mrs. J. A. Deviney of Vernonville, representative of the Federated Institute of Ontario, who gave an interesting and instructive address on Federal and Institute Work in General and stressed local community charitable work as work is more important and the helping of other causes as a secondary consideration.

Relief work of Northern Ontario was needed and aid given by a member of branches was much appreciated.

A new project of the Institute is that of assisting with medical treatment for crippled children.

Mrs. Deviney believed in the superiority of the noon hour at public school and asked the members to consider it a duty to have recreation supervise.

The speaker thought that Institutes tend to benefit the social life of the community and finished her address by quoting an uplifting stanza of poetry.

The meeting was brought to a close by the singing of the national anthem.

##### ARRIVE AT ABORES

Lisbon, Portugal, June 22.—Major Ramon Franco, Spanish trans Atlantic flyer and his three companions, arrived at Azores this morning from Cartagena, Spain, and will leave for New York tomorrow afternoon.

#### LAD ESCAPES AS DEBRIS CAVES IN AT NEW SCHOOL

Jackie McCabe Was Almost Completely Buried By Gravel

##### PROMPT ACTION

James Black And Harold Cowan Saved Young Play-Mate

Due to the plucky action of nine-year-old James Black, assisted by Harold Cowan, aged fourteen, little five-year-old Jackie McCabe, son of Mr. and Mrs. J. McCabe, 280 John Street, was saved from a horrible death by suffocation.

About seven o'clock last evening Jackie was playing on the sidewalk near St. Michael's Academy. The men had been excavating there to build a new school and Jackie located a hole which he considered an ideal playing ground. He was at the bottom playing around with a stick when suddenly, the sides collapsed and sand, mortar and gravel poured in upon him. He had just time to give one frightened cry for help before the entire upper portion of his body including his head, shoulders and stomach, were covered up with the debris.

Jimmy Black was playing nearby and heard the call for help. Rushing over and noting what had occurred, he called to Harold Cowan, who was walking down the street. The two boys hurriedly scraped the debris from the imprisoned boy and catching his legs, pulled him out. Jackie was not seriously injured, fortunately but had a small cut on his forehead that was bleeding profusely.

Speaking to The Intelligencer this morning, Mrs. McCabe stated that the two boys' action was one of the pluckiest things she had ever heard of. "It had not been for Jimmy Black," she said, "Jackie would have been dead in a few minutes. Jimmy certainly was prompt in his action for a boy of his age. He is perfectly good health and spirits. It would be advisable if children would stay away from the Academy while excavating is proceeding, otherwise a serious accident may occur."

#### ARRESTED MAN IN BRUSH AFTER EXCITING CHASE

Joseph Harrison Held On Two-Year Charge Of Stealing Car

Oshawa, June 22.—Following an exciting chase in automobiles and then over a field and through dense brush, Joseph Harrison, formerly of Oshawa and working in the United States, was arrested in Bowmanville at two o'clock yesterday afternoon by Chief Vinton of Bowmanville and Detective Sergeant Plintoff of Oshawa. The police have been searching for Harrison since the warrant was issued for his arrest in 1927, when Harrison is alleged to have stolen a Chevrolet sedan owned by Samuel Edwards of this city.

Chief Vinton who received the tip that his man was in the vicinity of Bowmanville driving a Ford Sedan with an American license, with Detective Plintoff and Provincial Officer Noble, of Cobourg, went in search and located the car in Bowmanville on the lake road headed for Whitby where a brother of Harrison is staying. Although the cars were going in the opposite direction at the time, Harrison was recognized, the big police automobile was turned around. Harrison provided the police with a merry chase for some minutes around back alleys and through narrow lanes. When the chase was over for a few seconds it was surmised that the wanted man would make a run for liberty, and this he did. A small underbrush was combed for him but Detective Plintoff succeeded in outwitting him as he emerged into the road.

An effort was made to run the lunch ashore when a sunken log was struck, thus making any chance of landing impossible. Realizing the imminent danger that threatened them the passengers not daring to risk a moment in trying to save any personal effects, jumped overboard.

##### THE WEATHER

Light to moderate winds, fine and warm. Sunday, moderate winds, partly cloudy, probably local thunderstorms.

##### TO RACE HORSE

Indian Pit Strength Against Equine In 100 Mile Race

Pecos, Texas, June 22.—Andrew Chimoni, Zuni Indian, from the New Mexico reservation, pitted his speed and endurance against "General" a thoroughbred West Texas ranch horse, in a hundred mile race that started here at 6:30 a.m. today.

#### PASTOR HONORED ON DEPARTURE TO NEW FIELDS

Dr. and Mrs. Malott And Miss Eleanor Recipients Of Gifts

At Bridge Street Church last night, four hundred members of the congregation gathered to do honour to the departing Pastor, Rev. Dr. F. E. Malott, who leaves Belleville shortly for his new pastorate in Young United Church, Winnipeg.

Although the congregation of Bridge St. Church is sorry to see Dr. and Mrs. Malott and Eleanor leave Belleville, best wishes from every member will speed them on their way to their new field of endeavour in the West. Mrs. Blakely on behalf of the women of the church read an address and presented a beautiful tea and coffee service to Mrs. Malott, who responded in a few words of gratitude for the gift and especially for the words of love and respect contained in the address.

Miss Eleanor Malott was then presented with a suitable gift, after which Mr. H. W. Ackerman read an address to Mr. Malott and then presented him with a purse containing some six hundred dollars in gold from the men of the congregation of the Church. Dr. Malott spoke very feelingly of his seven years in Belleville, and how he had come to love and cherish his flock in that seven years. He declared that departing from the beautiful surroundings and many friends was more keenly felt now than it would have been had he left Belleville at the expiration of the usual term, but wanted all his Belleville friends when in Winnipeg to come and see him and his family.

Mr. Fred Deacon was Chairman of the meeting and a splendid program was given. Rev. Farnsworth opened the meeting with prayer following which Fred Sprague sang two beautiful solos. Mrs. McKinnon and Mrs. Stobie rendered a diat in splendid fashion, and Mrs. Ralph Morden a reading. Mr. A. Stillman was the last singer on the program, he being heard in a solo and encore.

#### YOUNG PEOPLE CONGREGATE AT NATIONAL PARK

Community Problems Will Be Discussed At The Western Rally

Jasper, June 22.—Representing the universities and colleges of the Western Provinces 65 young people are gathered today at the Y. M. C. A. camp on the shore of Lake Edith, Jasper National Park attending the West Conference of the Student Christian Government. Community problems such as immigration, the oriental question, internationalism and the place of the church in the life of the nation, will form a large part of their programme. Prominent men will lead their discussions and deliver addresses.

Dr. Ernest Thomas, of Toronto, Secretary of the Board of Social Service in the United Church, who delivered the opening address, J. S. Woods, M.P., who will deal with social problems, Dr. R. C. Wallace, President of the University of Alberta; Dr. A. D. Miller, of Edmonton; Prof. W. L. Phelps, of Wesley College, Winnipeg; K. Shimizu, Japanese graduate of the University of British Columbia; A. E. Ottewill, Registrar of the University of Alberta and Miss Gertrude Rutherford, Associate Secretary of the Canadian Government, will take the lead in the forum discussion. The delegates during the seven days of their conference will alternate their meetings with hikes, climbs and rides in which they may get the full benefit of the Mountain of Jasper as well as their communication with each other.

Major W. R. Kingsford

formerly of Toronto and an Upper Canada College old boy who was held in a Mexican prison in Autlan in the state of Jalisco, Mexico, according to advice received by his brother George E. Kingsford.

#### FLOWER DISPLAY WELL ATTENDED

Choice Exhibits By Horticultural Society Elicit Commendation

Beautiful displays of Iris, Peonies, and seasonal spring flowers featured the Belleville Horticultural Society's attractive exhibition which was held yesterday in the Y.M.C.A. rooms and which will be continued today and this evening. Flower lovers who visit the exhibition will receive a real treat as the display is one of rare charm and beauty.

Perhaps the most striking table of the whole exhibition is the one directly in front of the main entrance, draped with the Union Jack and upon which there are three large single peonies, red, pink and white. These blooms were grown from prize bulbs a gift to the Society from His Royal Highness the Prince of Wales, and measure about six inches in diameter.

Given's & Son also have a beautiful display of three varieties of peonies. Mrs. C. J. Symons contributes a dainty basket of violets, in mauve and yellow, and a basket of seasonal blooms with 34 different varieties, which captured 1st prize. A special prize was awarded to Mr. A. R. Symons for the most attractively arranged basket of seasonal flowers. He received a prize Iris bulb "Souvenir de Mde Gaudichau", donated by Mrs. Bonisteel. The Belleville Nurseries have a splendid display of Iris and Peony blooms. Mrs. C. J. Symons was awarded 1st prize for her beautiful collection of Iris. Mrs. Bonisteel's table is one of the most attractive, with its fine collection of Iris, Peony and painted Daisy. A basket made up of Baby Breath, Larkspur and Deep Purple Iris delighted the eye of the flower lover with its exquisite daintiness, and is one of the most attractive baskets of seasonal spring flowers on exhibit.

##### OSHAWA ROTARIANS NAME NEW OFFICERS

Oshawa, June 22.—The recently elected directorate of the Oshawa Rotary Club has named these men as officers for the year:

Past President—G. D. Conant.  
President—George Hart.  
Vice-President—D. F. Johnston.  
Secretary—Leon Fraser.  
Treasurer—R. S. Morphy.  
The directorate for the ensuing year included: Past President Conant, President Hart, Vice-President Johnston, and C. E. Cannon, E. G. Hodges, W. M. Gilbert, D. M. Tod and C. E. McTavish.

##### TODAY'S MARKET

A tremendous business was conducted at Belleville's market this morning. Prices were reasonable and the variety offered was large. Eggs, being cheap, were bought in large quantities, for prices ranging from twenty-four to twenty-eight cents a dozen. But few remains at its old price—forty-five cents a pound roll. Vegetables have not changed in price, but there were many sold. Lettuce sold for ten cents a bunch, radishes a bunch, green onions ten cents a bunch, excellent asparagus three bunches for a quarter and rhubarb was five cents a bunch. Potatoes were \$1.00 a bag and turnips \$0.25 a bag. A large number of cut flowers were also offered for sale.

#### EXPECT FIFTEEN THOUSAND WILL ATTEND PICNIC

Hon. R. B. Bennett Will Be Supported By Federal Members

##### LAUD SPEAKERS

Due To Courtesy Of Local Member No Charges Will Be Attached

Indications point to the fact that the huge Conservative Picnic and Rally which will be held here next Wednesday will be the greatest that has ever been held in this district, no less than fifteen members of the Opposition in the Dominion House having already signified their intention of being present to support Hon. R. B. Bennett, leader of the Conservative Party in Canada.

Officials in charge of the Rally are preparing for the reception of fifteen thousand people next Wednesday, which will be the largest crowd ever to have been assembled at a political gathering in Belleville in one day. Mr. Bennett will be the principal speaker, and every person in the large assembly should be able to hear his speech clearly, due to the elaborate arrangements which have been made by Canadian General Electric engineers with regards to amplifiers.

Following the speeches which will commence at two o'clock (Daylight Saving Time), and which will be completed at four o'clock, the Belleville Nationals will play a scheduled League fixture with the Oshawa General Motors team, which is free to everyone. In fact, everything at the Fair grounds will be free, there being no admission to the grounds and no admission to the grandstand. Undoubtedly a large number from Belleville and this district will be on hand at two o'clock next Wednesday afternoon.

#### STREET DANCE WEDNESDAY EVE.

Conservatives Plan Merry Evening To Follow The Big Picnic

Mayor Greenleaf announced today that a street dance would be held on Wednesday evening next between Bridge street and Campbell street starting at nine-thirty o'clock, providing the weather was favorable. This dance will terminate the visit of Mr. R. B. Bennett, Conservative leader, who will speak here in the afternoon and will be held after the annual inspection of the Argyle Light Infantry, which is being held at seven o'clock on Wednesday evening.

The Argyle Band will supply the music while the street will be roped off for the benefit of the dancers. If the weather is unfavorable the dance will be postponed indefinitely.

#### TOURIST TRAFFIC IS INCREASING

Toronto, June 22.—An increase of 50 per cent in the tourist traffic to Ontario this year as compared with 1928 is predicted by C. C. Hales, director of the Ontario Government Publicity Bureau. Mr. Hales estimates that 2,500,000 visitors and 700,000 motor cars will tour the province. This estimate is based on the number of tourists who used the Peace River Bridge at Fort Erie, Ont., during May, when 559,269 persons and 179,797 automobiles crossed. This was an increase over May, 1928, of 183,447 persons and 53,333 motor cars.

Tourists in Ontario last year spent \$103,000,000, and the Publicity Bureau anticipated an increase in expenditure this year by the visitors of \$50,000,000, or a total of \$153,000,000. According to the bureau's statistics, Ontario was visited by 72 per cent of the total tourist traffic to Canada last year.

### "WHO WON THE WAR?"

Col. G. A. Drew has been lecturing at Simpson on the question "Who Won the War?" It would be an idle question were not so many misrepresentations made by writers eager to capitalize the patriotic demand in the United States for material which satisfies the instincts of vanity by which some people pay tribute to their love of country. So much of this reading matter comes over into Canada that Col. Drew felt justified in alluding to some of these productions on account of the false impressions they make. General Riley, for example, declared after a trip to England to gather information, that Britain had stuck to the channel ports and kept her men at home. The astonishing thing that the United States did in the war according to some of these writers are somewhat amusing to those who know the facts. The French held the foe for the first hundred days. The last hundred days the British predominated, as shown by the prisoners taken. On the day of the armistice the British had 6900 field guns in action. The United States had 2200 guns in action. Of these 220 only 130 were made in the United States. The others were supplied by Britain and France. The British had 22,000 airplanes in action that day. The United States machines were not represented at all. The U. S. Senate report of August 18, 1918, stated that 640 millions had been voted for planes and wasted, and not a single American plane got to the front. The British artillery fired 170 million rounds. The Americans fired eight and a half million rounds. The part played by British shipping in carrying American troops across the ocean is well known. Only five of the 280 Allied ships were American in the flotilla to which the German fleet surrendered. It is unfortunate the United States writers make it necessary to speak of these things. We are all only too grateful for the assistance rendered by the United States to wish to make any comparisons in the degree of service rendered by one nation or another. It was by the united co-operation of all that the final result was achieved. The United States should be satisfied with that without calling forth comparisons which are invidious.

### SLOW DRIVERS

Another motorist has been fined for driving too slowly. It is interesting to note that Hon. G. S. Henry, minister of highways, is in complete accord with the county magistrate who first imposed a fine. Such convictions are everyday occurrences in the big cities of the United States. The assertion of the member of the Toronto Safety League in protest of the decision that the slower a vehicle moved the safer it was will be disputed by motorists. There is a speed limit of 35 miles an hour on Ontario highways. If all other rules of the road are observed by motorists the risk of 35 miles an hour is not of itself dangerous. But on days when traffic on the highways is fairly heavy, the driver who idles leisurely along at a pace of 10 or 15 miles an hour is not only guilty of discourtesy to his fellow motorists, but he constitutes a dangerous obstruction. He makes it necessary for drivers of following cars to swing to the left to pass him and it is deviation from the traffic line that is one of the major hazards of the highways. There are times when a speed of 35 miles an hour would be excessive and the minister of highways, in fixing that as the maximum pace, reasonably expected

that common sense would have precedence over the statutory regulation. A motorist driving at a speed of 20 miles an hour in congested traffic is not immune from prosecution for reckless driving just because he keeps within the speed limit. It was pointed out to Hon. Mr. Henry by an interviewer, that there is no law that a man must drive above a certain speed, and he is reported to have made the following reply: "There are many things in the conduct of life that are not prescribed by written law, but acquire almost the same status through long usage. We are seeking to impress habits of courtesy upon motorists and it can hardly be called courteous, from which or obnoxiousness or any such cause, a motorist holds up a long line of traffic. He should be made to realize that other people's desires call for consideration besides his own." And that seems to fit the case of leisurely drivers completely.

### BLISS CARMAN

Kind friend! Dear singer of sweet songs in praise  
Of Nature's every charm! Their soul-appeal  
Re-echoes in our saddened hearts; we feel,  
Again, Thy presence, who hath passed the rays  
Of life's last sunset; passed Death Valley's haze  
And shadowed twilight, to that glorious west—  
Eternal Day! All humbly do we kneel  
Before Thy genius shrine, with flow'ers, abase!  
Thy Nature-songs; Thy love inspired lines  
Shall live, as long as Canada shall be  
Or scarlet maple leaves afford cool shade!  
May we, who love Thy songs, when life declines  
And Autumn-tide approaches, pass, like thee—  
With music in our hearts — and unafraid!

—KILBEE GORDON.

Victoria, B.C., June 10, 1929.

### HAVE YOU HEARD THESE?

A retail dealer in lumber, doing business in Baltimore, wrote to a firm in southern Massachusetts, ordering a carload of merchandise. The firm wired him:  
"Cannot ship order until last consignment is paid for."  
"Unable to wait so long," telegraphed the merchant. "Cancel the order."  
Teacher: Willie, where is Toronto?  
Willie: Right between Davenport and Pittsburgh.  
Teacher: Where did you get that answer?  
Willie: On our radio set.

Passenger (to lady sitting on his hat): Excuse me, Miss, do you know what you're sitting on?  
Lady: I ought to. I've been sitting on it for twenty-five years.

Pat called on the priest one day and said: Father, can I ask a question?  
Sure, Pat, said the priest.  
Well, Father, said Pat, I know all about Shrove Tuesday and Ash Wednesday and Good Friday, but

## THAT BODY OF YOURS

By Jas. W. Barton, M.D.  
FIRST SYMPTOM OF LIVER AFFECTIONS

I speak frequently about the distention of gas in the stomach, and of how bending and twisting exercises will help to dislodge it and give relief. However if you are bothered regularly by this distention it is worth your while to try and find out what is causing it.

I have tried to show that insufficient cleansing of the food was the frequent cause, also eating in a hurry or when tired.

However there is no question but that one of the most frequent causes is because the liver is not doing its work properly.

Unfortunately the patient doesn't suspect the liver because his trouble is all in his stomach.

He gets an X-ray examination of stomach and as it shows no cancer or ulcer attributes his trouble perhaps to nervous indigestion.

In this connection Dr. G. A. Dowling is of the opinion that trouble in the gall bladder should be the first thought when there is any stomach disturbance.

Thus gas distension, belching, inability to eat certain foods, sour stomach, heart burn, bilious attacks, nausea, vomiting, dizziness, headaches, and constipation is about the order in which the symptoms occur.

Stomach gives more relief than taking food.

However as eating is necessary, patients are advised to take small meals, and to avoid roughage in the shape of raw fruits and tough meats, also fats, pastries, greasy gravies, too much pepper, salt, mustard, sauces and alcohol.

Now as you may have this gas distension and have no other symptoms it is likely that you are just overeating or perhaps under exercising.

Watching the food intake following the above suggestions regarding food, and chewing the food well, should not only relieve you from this distress of gas distension, but keep you free from any inflammatory condition of the liver and gall bladder.

If you are willing to go a step farther and do the old-fashioned "liver squeezer" exercise regularly, you should be able to keep ahead of "liver" conditions.

This exercise is simply bending from side to side, extending the right arm down to the right side as far as possible, with knees straight curling the left under the arm pit. Twenty times each side, night and morning, should be sufficient.

## THE BULLETIN BOARD

Mainly About People You Know

### TO ATTEND CHURCH

The Masonic brethren of Belleville will attend Holloway Street United Church tomorrow for their annual church parade. Members of Moira, Belleville and Eureka Lodges will march to the church. The Rev. L. S. Wight will be the preacher.

### PICKED UP IN KINGSTON

Irene Thompson, 13 years of age, who left her home in Belleville over a week ago and had not been heard from since in this city, was found this morning in Kingston, where she had been picked up by the Kingston Police earlier in the week. She had failed to tell them where her home was and accordingly had spent the last four days in the Children's Shelter there. She will be brought back to Belleville today.

### TRAFFIC COURT

Samuel Brooks sped down Coleman Street in a truck at a speed of from forty to fifty miles an hour and when called on by a constable to stop, failed to do so for three blocks. And the reason was that his brakes were absolutely useless. This morning he paid a fine of \$10 and costs and took a severe lecture from the Cadi for endangering other persons' lives and property. Three traffic cases were also on the docket, one where a motorist failed to stop at a Stop Street; one in which the motorist had only one lighted lamp and one where the motorist made a complete turn at Bridge and Front Streets.

### MASONIC CHURCH PARADE

The brethren of Eureka Lodge No. 283, Moira Lodge No. 11 and the Belleville Lodge No. 123 are hereby requested to meet at Masonic Temple Sunday, June 23rd, at 10 a.m. daylight saving time, for the purpose of attending divine worship at Holloway St. United Church. Blue Regalia.

Everett H. Liddle, W.M.  
Alexander Kidd, W.M.  
H. W. Dinnitt, W.M.

### NOTICE

**DECORATING JUNE 26TH**  
Owing to the fact that our City is to be favored with a visit from the Hon. R. B. Bennett, Leader of the Conservative Party in the Dominion House of Commons, and that a large number of persons from outside points will be in Belleville on that day, I would request all citizens to make our City as attractive as possible by a liberal display of flags and bunting.

H. W. Greenleaf,  
Mayor.

## WHOOPEES LOST TO FRONTENACS

Gils Soft Ball League Was Opened Before Crowd At Collegiate Grounds

Girls Softball opened with a bang last night at the Collegiate grounds, indeed it was such a hard bang that it resulted in a home run for the Frontenacs. A good crowd witnessed the game but not as many as the brand of ball played warrants. Score at the end of the game was 9-3 for Frontenacs. Both the Whoopees and Frontenacs played good ball. The game was fast and interesting throughout and a nice one to watch from the sidelines. Both teams made errors but none of a glaring quality and the fielding was excellent, considering this is the first game of the league.

Molly Gray was on the mound for the Whoopees and pitched good ball but the hard-hitting Frontenacs did not find her a hard nut to crack. Every girl on the team is an experienced player and knows how to play the sphere often and hard and this is just what they did in last night's game. The Whoopees did their best to save the day by good fielding but they were needed that were not forthcoming. Gertrude Boulter was put in the box for the last innings without much result.

Great credit is due to Alice Tompkins pitcher for the Frontenacs. This girl is improving rapidly and possesses a good fast ball which her opponent find hard to hit. She struck out a number of players in last night's game and pitched good ball throughout.

Tiny Mary Adams was a familiar figure at third base for the Frontenacs and performed her veteran style. She started off the game by hitting a home-run which made things interesting from the beginning as she was the first man up for the first team to bat. Both Elsen Wilks, Whoopees, and Gladys Knott, Frontenacs, caught good games. Kitty Howie, Audrey Wilkins and Evelyn Howie brought in two counters each and helped to make up the total score for the Frontenacs who won the game 9-3.

Line-up:  
Frontenacs—Mary Adams, 3b; Gladys Knott, catcher; Alice Tompkins, pitcher; Audrey Wilkins, 1b; Kitty Howie, 2b; E. Cooke, r f; E. Smith, l f; H. Smith, c; N. Bly, 2b. Spares—Thompson, Putnam.  
Whoopees—H. McMichael, 2b; A. Wilks, catcher; Gladys Knott, pitcher; P. Tuttle, 1b; I. Thrasher, 3b; M. McMichael, r f; A. Weese, l f; E. Waldron, c; G. Boulter, 2 b.

## U.S. WELL AWARE OF SENTIMENT ON NEW TARIFFS

Full Information Is Given To Washington On Canadian Views

Washington, June 22.—The United States Government is fully informed of Canadian sentiment concerning the tariff, it was said at the State Department today.

Reports of the Dominion's attitude as reflected in the news and editorial columns of the press are continually received here from the office of William S. Phillips, the United States Minister at Ottawa.

The administration is completely cognizant of Canada's attitude and it has been the subject of discussion between Cabinet members and between them and members of Congress.

The possibility of action being taken by the President looking toward limitation of the tariff on farm products is discussed here. It is pointed out that President Hoover's use of the words, "limited revision" has been generally interpreted as referring to rates on manufactured products.

Farm interests are pressing for free entry to the United States of Canadian cedar and shingles, but some manufacturers are demanding that the Senate should maintain the duties of 25 per cent. ad valorem proposed in the House Tariff Bill.

A request has been made of the Senate sub-committee on wood for duty of \$3 per thousand feet on lumber other than Canadian cedar. Frank H. Lamb, Ottawa, Wash., in arguing for the duty, said that the lumber industry of the Pacific Coast States was operating at 75 to 80 per cent capacity.

A. C. Edwards, Editor of Washington, speaking for the shingle industry of the United States, suggested that Canada should also have a tariff on shingles. He said the production in British Columbia during the last few years had increased while that in the United States had declined.

**FAMOUS ACTRESS PASSES**  
New York, June 22.—News of the death in Paris of Edna McCauley, known a generation ago as the "prettiest actress on Broadway" was received by friends today.

**CARD OF THANKS**  
Sisters and brothers of the late Nellie Coulton wish to thank their many friends for their kindness shown them for their loving sister, also for loan of cars.

**BIRTH NOTICE**  
STIVER—Born on June 21, 1929, to Mr. and Mrs. R. R. Stiver, 278 Charles St., a daughter.

## PERSONALS

VISITORS WHO COME AND GO.

Mr. and Mrs. J. Musgrave of this city were recent visitors in Tweed.

Mrs. Mary C. Hawkins, Stirling, has returned to her home after spending the past three months at the McCreary and nephew, Dr. McCoy, of Central Islip, Long Island, N.Y.

Barbara Holton, Charles Street, entertained yesterday afternoon twenty girl friends to a tea and handkerchief shower given for Eleanor Malott, who leaves next week for Winnipeg.

**GREEN-FOX**  
The home of Rev. G. E. and Mrs. Ross, East Dundas Street, Trenton, was the scene of a very pretty wedding on Wednesday morning last, at the hour of 11 o'clock, when Miss Vivian Genevieve Fox, of Redversville, became the bride of Mr. John Kenneth Green, of the same place.

Beautiful garden flowers interspersed with choice and graceful ferns, contributed most effectively in decorating the home alone of the room in which the marriage was solemnized.

The bride who is the second daughter of Mr. and Mrs. Ray Fox, of Ameliasburg, was very becomingly gowned in a beautiful Rose Beige Georgette bridal costume, with hat, scarf, hose and shoes to match and wearing a choked of lustrous pearls which tend to emphasize the natural beauty of the youthful bride. The ceremony was performed by the Rev. G. E. Ross M.A., minister of the Redversville Circuit and pastor of the young people. The groom being the son of Mr. and Mrs. John G. Green, of Rawdon Township, whose gift to his bride was a chest of choice silver.

Leaving couple's bowler and the floral alter at the conclusion of the ceremony, the happy young couple motored away to Toronto, where they shall spend a short honeymoon, and then return to reside near Redversville.

We join with a large circle of friends in wishing them great prosperity and much happiness.

## RAILWAY BOARD NOT CONCERNED WITH TAXPAYER

Argument Advanced By Railways In Appeal Hearing

Ottawa, June 22.—A prompt negative was given by the Canadian railways yesterday morning before the Dominion Railway Board to the proposition contained in the Duncan report and revived recently in connection with the address of the Chief Commissioner, Hon. H. A. McKeown, to the Canadian Manufacturers' Association at Halifax two weeks ago that the Railway Board should be empowered to consider, in rate-fixing, the interests not only of the railways and the users of the railways, but also of the country as a whole.

During his reply argument, yesterday morning, Arthur J. Thompson, K. C., for the Canadian National Railways, which is applying to the board for leave to appeal to the Supreme Court from the board's judgment giving the 18.34-cent grain rate from Armstrong, Ont., to Quebec city, in answer to questions by Deputy Chief Commissioner Thomas Vien, bluntly told Colonel Vien that the board could take cognizance only of the interests of the railways and of the users of the railways; that, under the Railway Act creating the board, that body had no right to consider the interests of the taxpayers or the people as a whole. In the general arguments of Mr. Thompson, E. P. Flintoff, general counsel, concurred for the Canadian Pacific Railway. Judgment was reserved.

## FORMER LOCAL LAWYER RETIRES

T. W. McRae, Chief Claims Agent of C.N.R. Lays Down His Pen

Montreal, Que., June 22.—Honoring T. W. R. McRae, chief claims agent of the Canadian National Railways, whose retirement from that position became effective on May 31st last, a large gathering of officers of the Canadian National System met in the Board room at headquarters of the System this morning when on behalf of the officers of his department, Sir Henry Thornton, Chairman and president of the System presented Mr. McRae with a camera and wished him Godspeed in his newly-acquired life of rest from official duties.

Mr. McRae, said Sir Henry, had served the company well and faithfully and had fully earned the opportunities for enjoyment which retirement from active service would bring. Mr. McRae was not at the end of a career but at the beginning of a new life, he was joining the body of "elder statesmen" of the Canadian National family on whose advice and assistance the executive could always depend when needed.

Beginning with the legal department and by his loyalty and sense of justice in all his dealings has rendered the National System and its predecessor a valuable service, Gerard Ruel, K.C., Vice-Chairman in charge of legal affairs also tendered to Mr. McRae the assurance of regret which all associates felt at the closing of his activities as an officer of the Company. Mr. McRae who declared he was overwhelmed with the kindness of his fellow workers during his period of service he had been associated with a body of friendly fellow workers, all willing and anxious to help each other along and as he had been helped, encouraged and assisted, so also he bestowed their kindness for his successor. Previous to joining the railway service Mr. McRae was for twelve years associated with the legal firm of Bell and Biggar, of Belleville.

## IF THE MODERN CLEANED IT—IT'S C-L-E-A-N! Clothes Can Always Look Well!

DRESS well to succeed" is the popular maxim. Those "in the know" depend upon Modern Cleaning and Pressing Service to always look their best.

Both Ladies' and Gents' Summer Garments—including whitewear of all kinds, is especially well handled by Modern Superior Equipment.

You'll approve both the work and the service—because both are superior.

## STIMSON PROBES BORDER AFFAIR

Extradition Will Result If Culprits Are Arrested In Canada

Washington, June 22.—Secretary Stimson received from the Treasury Department today a report on the case of the alleged Canadian run-running boat which fired upon an American patrol boat in the Detroit River early this week, and immediately began a study of it to determine if the incident called for any diplomatic representation to Canada.

Although the case has been looked upon as somewhat the reverse of the case in which the Canadian run-running schooner of that name was sunk by the American coast-guard in the Gulf of Mexico last March, the Secretary of State declined to disclose the nature of the report from the Treasury Department, or to indicate whether or not he contemplated any action in the circumstances.

Prohibition officials at the Treasury Department said the information they had received thus far of the incident was only general and it was assumed that what was communicated to the State Department was merely a statement of the case in broad outline. Secretary Stimson called upon the Treasury Department for a report of the case when he read of the incident in the newspapers.

Mr. Stimson explained today that the State Department would be interested if a foreign vessel has been into an American official craft, and it was his intention to get the facts.

## Love's Sacrifice By Mildred Barbour

CHAPTER 63  
RESOURCE

Bert looked at Lols as if he thought she had taken leave of her senses. "Elope," he rasped. "You must be why, whoever heard of such a thing?" "Just to save Dr. Randolph," she begged. "You have nothing to lose. In fact, you'll gain."

"That's a thought," said Bert to himself. But he continued to wear a most reluctant expression. All the while he was laughing inwardly at the prospect of making money by being on both sides of the situation at the same time. If Walton were willing to pay him for hatching a plot against his wife, and she were willing to pay him for being helped out of her difficulties, he could see no reason why he should not profit accordingly. But he was careful not to let Lols see how favorably her plan appeared to him.

"Dr. Randolph would raise the deuce with me," he objected finally. "He won't know anything about it until it's all over. And then it will be too late for him to do anything."

Bert appeared to weigh the statement carefully. Then he lit a cigarette and smoked reflectively. Lols watched him in agonized suspense. "I'll think the matter over and let you know," he said at last. "Now I've got to get back to town. I have a deal on that requires some attention. You may stay here, if you like."

"When will you let me hear from you?" asked Lols.

### Garden Seeds

You may sow the following varieties any time in June, with best results:

Swede Turnip, Sweet Corn, Butter Beans, Blood Beets, Tabl Carrot, Cucumber, Squash, Pumpkins, Lettuce, Radish.

"As soon as I've seen my man," he promised, wondering grimly what she would say if she knew who "his man" was.

He breakfasted and called at James Walton's office shortly before noon. "Well," he said significantly, as he strolled into Walton's private room, "how about it?"

Walton, without looking up, reached into a drawer of his desk and drew out a sealed envelope. "You did the thing I wanted you to do," he said shortly. "Here is the amount that we agreed on for your services."

Bert ripped open the envelope and laid the bills on the desk. Then, paying no attention to Walton's frown, he laboriously counted them.

"Correct," he said, after the second count. "Want a receipt?"

Walton shook his head irritably, and Bert left. His thoughts now turned to Sally. Perhaps he had better call on her and see whether she had calmed down. He would promise to take her to the theatre.

Two or three days later, when he had been successfully concluding, as soon as she was released, he would send her away to some place where Lols would not be likely to find her.

Sally, meanwhile, was taking care of herself in an able fashion. Directly after breakfast she managed to get into conversation with one of the nurses, and she mentioned the subject of hospital training that she had had.

When the nurse went off duty, Sally followed her to the nurse's wing on the pretext of borrowing a book on hospital work. She returned to her room with the book and a uniform that she had deftly snatched from a pile of laundry that a maid was distributing.

A few minutes later she emerged from her room wearing the uniform and carrying the book and hat. She hurried to the lower hall and stopped under the stairs to pull the hat low over her eyes. Then she approached the clerk at the desk, murmuring something about having obtained permission to go to the village on a personal errand. She bent low over the register, as she scribbled upon it the first name that came into her head, and the clerk touched the electric button that swung open the door.

At about the time Bert was emerging from Walton's office, Sally was bounding a train. She hadn't a penny, but when the conductor came to take up the tickets, she told him a moving story about having been called home because of her mother's illness and said that she had left the hospital without her purse. The conductor was so impressed by her grief that he paid her fare and offered to loan her five dollars. Sally, with a grateful little smile, accepted.

The little house looked very peaceful in the afternoon sunlight, but it had a deserted air. There was no smoke issuing from the chimney, and the shades were drawn. Sally fumbled with the door-knob, but it refused to yield. She rang the bell until she could hear the sound of it on the porch. Still no answer.

She began to grow angry. The excitement of the day had faded her greatly. She was cold and hungry and there seemed no immediate prospect of food and warmth. In desperation, she looked about for something with which to smash a window pane. Just then there was the sound of footsteps in the drive and she turned to see an undersized, scabby-looking individual approaching. Her heart seemed to stand still as she recognized him.

"Haven't seen you for a while," he said, from one corner of his mouth. "So I thought I'd drop round. Brought you something."

He held out a tiny white box and Sally tried to seize it.

"What's that?" she asked.

"A box of pills," he said. "They'll make you feel better. You look like you need 'em."

"Pills?" she asked, looking at him with a mixture of suspicion and interest.

"Yes, pills," he said. "They're the best I know of. You'll see. They'll make you feel like a new woman."

"Pills?" she asked, looking at him with a mixture of suspicion and interest.

"Yes, pills," he said. "They're the best I know of. You'll see. They'll make you feel like a new woman."

"Pills?" she asked, looking at him with a mixture of suspicion and interest.

"Yes, pills," he said. "They're the best I know of. You'll see. They'll make you feel like a new woman."

"Pills?" she asked, looking at him with a mixture of suspicion and interest.

"Yes, pills," he said. "They're the best I know of. You'll see. They'll make you feel like a new woman."

"Pills?" she asked, looking at him with a mixture of suspicion and interest.

"Yes, pills," he said. "They're the best I know of. You'll see. They'll make you feel like a new woman."

"Pills?" she asked, looking at him with a mixture of suspicion and interest.

"Yes, pills," he said. "They're the best I know of. You'll see. They'll make you feel like a new woman."

## A Warning to Mothers

Watch the Health of Your Little Ones at All Times.

No mother can expect that her child will escape all the ills to which babyhood and childhood are subject, but she can do much to lessen the severity of these troubles. The mother should be constantly on her guard to prevent childhood ailments, or if they come on suddenly as they usually do, to have the means at hand to relieve them.

Thousands of mothers have found Baby's Own Tablets the ideal remedy for little ones—thousands of mothers always keep the Tablets in the house as a safeguard against the sudden illness of their little ones.

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels; sweeten the stomach and thus banish constipation and indigestion; break up colds and simple fever; and make the cutting of teeth easy. The Tablets are absolutely guaranteed free from injurious drugs and may be given to the youngest child with perfect safety. They are sold by medicine stores or by mail at 25¢ a box from The Dr. Williams Medicine Co., Brockville, Ont.

"Wait a minute—wait a minute," the man said, backing away. "Where's the man?" he rubbed his thumb and forefinger together and grinned.

"Tomorrow," said Sally. "I—I lost my purse. I'll pay you tomorrow, sure."

"Well," he said, "seeing it's you—Sally turned toward the house. 'I can't get in,' she said. 'Lost my keys, too.'"

The visitor laughed. "That's easy," he said. He picked the lock with the ease of an expert and departed.

Sally rushed up to her room. She couldn't wait to give her jangled nerves the relief they craved. Then she sank down upon her bed. What was it that she had intended to do? Something about Lols? Oh, yes. Well tomorrow—tomorrow she would see Dr. Walton. She pictured the interview as a very dramatic affair. She'd tell him that she didn't want to see Lols—

The sound of the telephone bell shrilled through the house, rousing her from the languor that was stealing over her.

(To Be Continued.)

## Some Helpful Hints For Busy Housewives

Handkerchiefs, pillow-cases, towels and so on will keep clean much longer if some thin starch water is added to the final rinsing water.

A piece of old Turkish towelling dipped into hot soapy water and wrung dry is excellent for cleaning velvet on mohair chairs, and it will also remove dog's hairs better than a brush.

## WHAT'S NEW (From A Woman's Standpoint)

Hyacinths have been a smart bouquet for Paris brides this spring.

Flowered chiffon is even being used for bridesmaids' frocks in Paris.

Paris is putting some of her smartest bridesmaids into white this year.

Franklin P. Adams says: "It is easier to avoid marrying the stenographer than the boss' daughter."

One of the seasons most charming bridal veils was from Molyneux and was made of creu tulle with a deep border of white point lace.

The very deep tinted beach coral is being looped in long strands for evening wear, and earrings of exaggerated size and even carved coral "crest-pins" have returned to favor.

The large square of colored chiffon plain, printed and sometimes trimmed with lace, also continues to be used as an accent of color for the evening ensemble.

So foreign to the skirt with an undulating flare from waist to hem is the tiered model that the latter brings an entirely new silhouette to the summer and fall mode, and tiers occupy a most important place and are used without discrimination as to texture of material, although this factor frequently influences the designer as to the type of pleats or whatever turn the tier is to take.

Why?

drive your car with crumpled or broken fenders, waiting until you can afford new ones?

You can now have the old fenders repaired and re-finished like new at a fraction of the cost of new ones.

## Just For The Feminine Reader

### THAT TOUCH THAT MAKES A DIFFERENCE

Often when preparing foods we omit that touch that makes a difference. Flat, uninteresting menus fail to please the appetite and we sometimes wonder after expending much effort on preparing what we consider an appetizing meal, why it is not a success. A good housewife has discovered the reason and tells us how to make our menus more enticing, for instance:

A dash of tarragon vinegar in salad dressing will greatly add to the flavor.

Chopped parsley in veal and ham pie, to be eaten hot, is an improving touch.

Lemon juice in the filling for breasted tart and shreds of green olive in fillets of fish baked in the oven, are both good touches.

A large knob of butter in a baked rice pudding, increases richness of flavor.

Fresh watercress, served with liver and bacon to counteract richness.

Fine rings of spring onions hidden in a green salad are an improvement and a tablespoonful of quince jam in apple pie makes it delicious.

Parsley should be chopped to a powder and put in the soup tureen before Scotch broth is poured in.

ANTITA

HOT WEATHER DISHES

Rhubarb Punch  
1 quart rhubarb, 1 quart water, 1-3 cup orange juice, 4 tablespoons lemon juice, 1-2 cups sugar syrup, few grains salt, 1 pint mineral water.

Cus rhubarb in small pieces cook with water until fruit is soft. Strain through double thickness of cheesecloth, add orange juice, lemon juice, sugar, syrup and salt. When ready to serve pour over a cake of ice in a punch bowl, add mineral water and allow to get very cold. (Makes 8 glasses, 24 punch glasses.)

Fruit Appetizer Salad  
1 cup grated raw carrot, 3-4 cup finely cut celery, 1-2 cup chopped apple, 1-2 cup finely cut orange pulp.

mayonnaise, lettuce  
Mix the vegetables and fruit together and combine with mayonnaise. Serve on lettuce, as an accompaniment to a hot dish. (Serves 6.)

Roman Punch  
2 cups sugar, 4 cups water, 1-2 cup lemon juice, 1 cup orange juice, 1-2 cup strong tea infusion.

Make a syrup by boiling sugar and water twenty minutes, add fruit juices and tea and freeze. Serve in punch or Trappe glasses. (Serves 6-8.)

Apricot Sherbet  
Four cups sugar, 4 cups water, juice of 4 lemons, juice of 4 oranges, 10 apricots, fresh, canned, stewed or dried, 1 beaten egg white. Boil sugar and water for twenty minutes. When cool add juice of lemons and oranges and apricots, mix thoroughly a sieve. Fold in the beaten egg white. Pack in three parts ice to one of salt and freeze.

Moscow Salad  
One cup fresh ripe pears, 1 cup dried orange pulp, 1 cup cooked beets, 1-2 cup celery, 1-2 cup French dressing, mayonnaise, lettuce, 1 tablespoon chopped parsley.

Cut pears in thin slices about one inch long. Dice orange pulp. Cut beets and celery in the same way. Marinate first four ingredients in the French dressing for one hour. Place in a cold and drain thoroughly. Mix lightly with highly seasoned mayonnaise. Place in a lettuce lined bowl and sprinkle with parsley. (Serves 6.)

Oranges Parisian  
Six oranges, 2 fresh pears or 4 canned pear halves, 1-2 cup powdered sugar, 1-4 cup finely chopped fresh mint, 1-2 cup whipping cream. Pare and slice the oranges, reserving all juice that escaped. Cut pears in slices and mix with oranges. Divide into six equal portions and place in sherbet glasses. Mix the juice that has escaped from oranges, the sugar and the mint and pour over the fruit. Set in a cold place until ready to serve. Serve topped with a spoonful of the cream beaten until stiff and sweetened with a tablespoon of powdered sugar. (Serves 6.)

## Notice who own CHRYSLERS — that alone means a lot

WHEN you see the number of Chryslerers in the hands of bankers, lawyers, doctors, manufacturers, engineers, chemists, judges and other leaders throughout the Dominion, you realize more than ever that you travel in the best of company when you own and drive a Chrysler.

Today there is a general recognition of the fact that Chrysler has obsoleted old traditions.

By scientific distribution of car weight, by new utilization of fuel, by advanced carburetion and correctly applied thermo-dynamics, Chrysler engineering has created a new efficiency, a new performance.

A perfectly-balanced chassis, with buoyant vanadium springs anchored in moulded blocks of live rubber instead of ordinary metal shackles, supplemented by hydraulic shock absorbers, means delightful comfort.

Similarly, feature after feature transcends all customary practice and contributes to the thrill and the pride that make every Chrysler owner a Chrysler enthusiast.

Take a demonstration. Learn for yourself the striking difference between Chrysler performance and the performance of other cars.

TAKEN IF THE PARTY WHO WAS SEEN taking the club bag from car in front of 57 Everett St. on Sunday night, does not return same, action will be taken. j20-3d

THE proximity of last night's storm did not improve radio reception to any extent. For the greater part of the evening, in fact, reception was decidedly poor.

Fans who used to dial New York late in the evening in order to hear a snap play program are now picking up Toronto. Ben Bernie and his syncopators dispense about as nice a brand

## ENTRIES FOR DOMINION DAY SWIM START TO POUR IN TO Y. M. C. A.

Greater Number Of Starters Than Ever For Big Holiday Event

Already several entries have been received at the Y.M.C.A. for the annual Dominion Day Swim which the Association sponsors with interest in

swimming races keener than ever this year. It is expected there will be a much larger entry list than heretofore. Many of the former candidates in the various sections of the swim will be back again this year for another try at the silverware and in addition there will be many new faces in the line-up which awaits the starter's gun.

Although their entries have not been received yet, it is fully expected that both George Brown and Elmer LaBar will be out again this year for a repetition of the keenly contested race these two boys staged on the occasion of the initial race four years ago. Joe Miles, who swam to such good purpose in the U. E. L. race at Deseronto may also enter the open section although he is eligible for the junior group this year. It is also expected that Albert College will be represented in the event by several speedy swimmers for the senior event.

The Ladies' section will no doubt provide a keen race as in case of last year. Miss Muriel Rose, last year's champion is expected to take part again this year but rumor has it that she will not have things all her own way as there are quite a number of young swimmers who have designs on the ladies' trophy and will make a valiant endeavor to have their respective names engraved under the 1929.

With the hope of speeding up the entry list, forms have been mailed out to many of the former entrants in this swim but as addresses were not available, this could not be carried out throughout the list of all previous candidates. Persons wishing entry forms, which include a copy of the rules may obtain the same upon application at the office of the Y. M. C. A., Campbell Street.

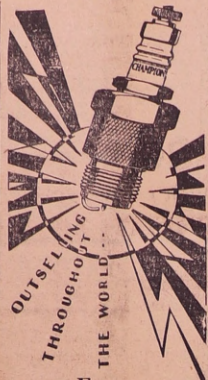

## If Your Eyes Are Normal

—you are to be congratulated. Not many are. There is no way to learn if you have or have not normal vision except by undergoing an examination. Too many guess about their eyes or take too much for granted. Learn the truth whatever it is, then act accordingly. Half an hour spent here would decide the matter for you.

## NATIONALS PLAY OSHAWA TODAY

General Motors Team Will Be Back Here Next Wednesday

Belleville Nationals left by motor this morning for Oshawa where they will meet the 1929 edition of the General Motors team for the first time this season. Last year the Nats had little trouble downing Oshawa whenever they felt in the humor for it, but reports emanating from Oshawa say that things will be different this year. And judging from what the Motors have been doing to the other teams things are different.

According to the Pets, there are only one or two men of last year's team playing this year, most of the players being young fellows and there are lots of them. Whether or not they will stand up under fire on the road is not yet known but unless they are a lot different from other young teams they will not, and the veteran Belleville Nationals will be the first to take advantage of any momentary weakness.

Vinny Utomki will likely be sent right back at the Motors as he has pitched every game this year. Jack Shea is now with the team but he is not yet in good enough shape to take a regular turn on the mound. He declares that his weak flipper is well mended now and that in a few weeks he will be able to toss them over like he used to but time alone will tell whether he can or not.

Oshawa will be back here again next Wednesday afternoon and no doubt a real crowd will be on hand to greet them and their manager, Matt Sutton.

## The Girl and The Game

By Anita

Mary Stinson, who will be remembered by Belleville fans and players alike from her visits to this city when she held down the position of catcher for the Napanee team, sprained her ankle badly in Toronto last week.

Miss Stinson as well as being a stellar catcher is a splendid hitter and she has been doing good work for the Toronto Supremes this season.

The Supremes also have another girl well-known in Belleville softball circles in the person of "Babe" Vincent, smiling little speedball pitcher, who hails from Peterborough.

Miss Vincent captured the heart of Belleville fans with her sunny smile and splendid pitching abilities on the several occasions when she performed in this city.

She was the guest of the Belleville Beavers on three occasions.

It is truly said that feminine softball players are always pulling something unexpected. The other night, a funny incident happened at Sunnyside when a ball was hit to deep centre field. The centre fielder went after it but the right fielder was faster and reached it first.

But the centre fielder possessed a great throwing arm and the other girl could not throw the ball to the plate from such a distance. The right fielder, accordingly, tossed the sphere to her teammate, who made a fine throw to the plate.

It was too late to get the runner out but the effort at combination won both the applause and laughter of the crowd.

Softball games are always attended with amusing incidents and perhaps this is the reason for the game's popularity.

## News of the Movies

### REGENT THEATRE

John G. Adolfi, director of "Prowlers of the Sea," the Tiffany-Stahl production featuring Ricardo Cortez and Carmel Myers which will be seen Monday at the Regent Theatre, comes from the third generation of a family of seamen and his choice to direct this picture, suggested by Jack London's famous story called "The Lancashire Queen," was a foregone conclusion, according to the Tiffany-Stahl organization.

With a grandfather and uncles who were ship owners and his father a captain with the East India company this Scotch-Irish lad knew all there was to know about ships and sailors and foreign climes long before he finished his education and informed his family that he wanted to go on the stage. Travelling back and forth between England and America, never quite the star he had set his heart on becoming, he became acquainted with D. W. Griffith and got his first introduction into pictures under that famous director on the Fine Arts lot, now the property of Tiffany-Stahl.

### BELLE THEATRE

The romantic lives of the "mountain men" of 1840 who fought Indians, killed crazies and made love to eager senoritas with equal enthusiasm, are brought to the motion picture screen in Paramount's gorgeous love-thriller, "Wolf Song," which comes to the Belle

Theatre on Monday for three days.

In this Victor Fleming production, taken from the novel by Harvey Ferguson, Gary Cooper takes the part of a young trapper who has made his way westward from Kentucky to the wild plains and mountains of the South-west.

Lupe Valez, Castilian beauty from Mexico City, has the role of a rich daughter of the Spanish Dons who have established their civilization in the land invaded by the "mountain men."

Louise Wolheim, whose broken nose has made him known as the "man with the million dollar face," has a featured role as Cooper's trapper buddy with Constantine Romanoff, former contender for the heavyweight wrestling championship, playing a burly part as one of the mountaineers.

The versatile and exotic Lupe has plenty of opportunity in the film to exhibit her powers as a dancer and love-maker—and she doesn't let the opportunity slip by. Cooper the handsome and rugged "man among men," extends himself to put everything he has into the part of a "wolf-eating" he-man. There is splendid support from a large group of character actors.

## LAST CANADIAN HOME FROM WAR

Montreal, June 21.—Eleven years after the war ended, the last member of the Canadian Expeditionary Force to be repatriated returned to Canada today on board S.S. Calgarie of the White Star Line.

Major J. N. Gillies, Regina, has spent the last eleven years in England undergoing plastic surgical operations to "rebuild" his lower jaw which was shot away. "Canadian soil feels like the Haven of Rest to me," he said on arrival.

## SOURCE OF DEATH GAS STILL MYSTERY

El Paso, Texas, June 22.—Source of the hydrogen sulphide gas, identified by chemists at the inquest yesterday as gas which took the lives of two children and overcame sixteen other persons at little Mexican settlement of

Ascariete near here yesterday remained a mystery to investigators today.

Miss Eleanor Cochran, of Wiarion, is spending the holidays with her parents, Mr. and Mrs. Alex Cochran.

## PACKARD CABLE IS CHOICE OF RACE DRIVERS

Famous Drivers All Choose Well-Known Ignition Cable

When Fred Frame pulled off of the track at Indianapolis, having been awarded tenth position by the Judges, a new record had been established for Packard Cable. Every car to finish the race was equipped with Packard Lac-kard Ignition Cable—every car that started the race was equipped with Packard Lac-kard Ignition Cable—every car that even made an attempt to qualify for the big race was equipped with Packard Lac-kard Ignition Cable.

In other words, Packard Electric Company had them 100 per cent, and if you only knew how particular these fellows are about the equipment that goes on their cars, you would appreciate something of just what it means for any manufacturer to get 100 per cent representation. Promptly after the race they received telegrams from the late Ray Keesch, Louis Meyer, and Billy Gleason, their cars finishing one, two, three respectively, crediting Pack and Cable with having played a part in their success.

The Company had hopes of being able to add considerably to the knowledge and fame of Packard Lac-kard Cable among the car owners; and general public through the participation in the race of three Packard Cable Special cars so named and painted in the purple and yellow colors. These cars were driven by Leon Duray, Ralph Hepburn, and Anthony Giulatto three of the fastest and most skillful drivers in the country. Duray and Hepburn occupied second and third positions respectively in the start-off, and for the first seven laps Leon Duray thundered around each time ahead of the pack at a clip of about 110 miles per hour. Hepburn was right up to the third position and Anthony Giulatto was driving a beautiful race back about eighth or ninth. Then Duray dropped back for the purpose of letting someone else set the speed during the early stages, with the idea of conserving his car for a couple of

DR. HARVEY ROBB

Appointed organist at the Royal York Hotel, Toronto, effective August 1. Dr. Robb commenced the study of music at the age of six and took up piano and theory with W. O. Forsyth for some years, later studying under Alberto Jones, Spanish virtuoso. He early displayed much ability on the organ and studied the instrument mostly under Dr. Healey Willan. Dr. Robb has played in recitals throughout Canada and United States, and represented Canadian organists at Philadelphia during the sequentennial exposition where he played from Duray organists from all parts of the United States. He conducted a class of students at the Toronto Conservatorium of Music and conducted examinations as a member of the Board of Examiners of Toronto University. He was chairman of the College of Organists in Toronto and played in concerts for many distinguished artists visiting this city.

hundred miles and then going ahead to win the race. You can imagine the excitement as we stood in the pits and watched these beautiful cars making such a good showing. Then things began to happen.

First Ralph Hepburn was eliminated due to a broken pinion gear at about the fifteenth lap. After 1½ miles Duray's car had to be withdrawn due to some foreign material (small piece of rubber) which got into the gasoline lines. Then at the 38th lap, just two laps from the half way point, Anthony Giulatto's car came with a broken supercharger and Packard entries were out of the race.

Had they been so fortunate as to win with one of these cars, or should they have finished the race, the attendant publicity would have been extremely valuable to all their friends and as a matter of fact this is precisely the reason that they made arrangements to have Leon Duray enter these cars under the name and colors of the Company. There is no disgrace for Packard Ignition Cable.

## SUMMER BAKING BY TARLINGTON

How about letting Tarlington be your baker this summer month? If you've never tried any of their high grade home-made cakes, doughnuts, pies, cookies or a hundred and one other varieties of pastry, that they bake fresh, daily, just drop into Tarlington's spick and span store on Front Street, and have them show you the complete line of pastry produced.

Tarlington's have been chosen by the majority of people to do the family baking during the summer months, and you will be sure to make the same choice. The weather is altogether too hot to spend hours in a hot kitchen doing the family cooking, and Tarlington's can provide pastry with the same old home-made flavor, and at a most reasonable price in every case. Try them tomorrow.

## STRAW HAT CLEANING SAVES YOU MONEY

Everyone who wears a straw hat of any kind or a panna should be aware of the fact that these hats may be quickly and easily cleaned for you at Sam Pappas' Shop, by expert, and at the low price of fifty cents.

So why put yourself to the expense of a new straw when the old one may be made look just as good as ever and at a fraction of the cost of a new hat. Next time you're passing the shop on Front Street, just drop the old straw into the shop and have Pappas put it in first class shape for only fifty cents.

or criticism attached to us, of course, nor Duray, nor the other two drivers. It was just a matter of such a tremendous burden being placed on these machines that some little thing goes wrong and very shortly thereafter they eliminate themselves from competition.

Race drivers MUST have the very best to withstand the grueling conditions—and when they unanimously select Packard Lac-kard Cable, "there is a reason."

Quinte Battery Service on Dundas Street, Phone 731, are Local Agents of the Company.

## HAVE THE EYES EXAMINED NOW

Having any trouble with your eyes? Many people who have never worn glasses and imagine that their eyes are alright, are really making a great mistake if they are troubled with eye strain of any sort, for in reality they may be doing their eyes harm which is irreparable.

On the other hand, examination of the eyes by an expert optometrist and the proper correction applied may easily make the vision strong and clear once more and prevent any worse condition which might easily have followed if the attention had not been given to the eyes.

Have W. C. Leybourne, registered Optometrist, examine your eyes and suggest the correction if necessary. Examination will certainly do no harm anyway and will solve the problem as to whether your eyes are in decent shape or not. Do it today; don't put the job off until tomorrow. Have Leybourne make the examination today.

## WONG'S CAFE IS FINE, COOL SPOT

With summer weather here at last, the average hot man and others having occasion to eat down street will be seeking a cool and comfortable restaurant.

Wong's Cafe, on Front Street, next the Intelligence Office, offers you just about all one could desire in the matter of a restaurant. Electric fans and first class ventilation maintain a steady, comfortable temperature and moreover, all food is kept thoroughly fresh by means of the latest and

## BETTER ICE FOR MUCH LESS MONEY

This is the weather you really do need ice. And you need Graham's Ice at that. It's pure, clear, hard and is made in their own plant, and it is germproof and actually cheaper than other ice; don't forget to phone 374 tomorrow and have Graham's place you on their list for immediate and regular delivery.

Do it now and have the benefit of a full season's use of this recognized better ice.

## WATCH CLEANING IS BIG MONEY SAVER

That watch or clock of yours. If it's not functioning as well as usual, don't blame it on the hot weather; just take it in to Rowntree on Bridge Street and have him give it a thorough going over and a cleaning. Probably this is all it requires and it will run as well as ever once again. You can't expect a watch or clock or any other fine piece of mechanism to run for years without service any more than that motor car of yours. Have Rowntree give it the once over now and put it in shape for the holiday trip.

## TAMIL PEOPLE SHOW FAITH IN ALMANAC

Bombay, India (Canadian Press) — The Tamil New Year's Day was celebrated a short time ago wherever Tamilians live, and gods were propitiated for their blessing throughout the year. An important feature of the celebrations was the reading of the almanac for the new year. The custom of New Year's Day is for the villagers to assemble in the village temple or in the house of some prominent person at his invitation and the chief priest reads the almanac and explains the forecasts made in it for the coming year. A number of these almanacs are published every year, and as most follow a common formula they are liable to any interpretation. According to many of the almanacs for the Tamil year Suka 1929-30, the conjunction of the stars, and heavenly bodies guarantees peace and prosperity to the whole world. In India there will be harmony among the various castes and communities, and communal unity will be considerably helped by the propagation of the truth about every religion by its own head.

## SEEKING SCENIC HIGHWAY

Kingston, June 20.—An improved highway from Brighton to Pictou via Concession and Wellington and on to Kingston via Glenora, Bath and Collins Bay is being projected as a scenic route.

Two months ago L. L. Harrison, Toronto, imported the latest thing in the outdoor motor board game—a motorized aquaplane board—but it was not until this week that he found anyone who would try to ride it. Blamed for this, Harrison said, was the fact that this is a six-foot affair to which is attached a racing outdoor motor. The driver—or rider—starts the engine and then stands up and rides—or tries to ride—the outfit a la aquaplane board is a six-foot affair to which is jump and gyvette makes a wild western broncho look like a rocking horse. Best Buy, the hockey and lacrosse player, tackled the outfit the other night and he rode it successfully for half an hour, but just when he was pulling into the dock, in a conquer-

WOOD'S PHOSPHODINE.  
The Great English Preparation.  
Tones and invigorates the whole nervous system. Bares new blood in old veins. Used for Nervous Debility, Mental and Brain Weakness, Loss of Energy, Prostration, etc. Price 1/6 per box. 1/3 for 3 boxes. Sold by all druggists, or mailed for 5/6. Write to W. J. Wood, 10, Abchurch Lane, London, E.C. 4, for full particulars.

## THE WAY TO A MAN'S HEART

## JUST IN PASSING

## SINICAL SADIE SEES

A baby will do much to keep a young couple together, especially if it's a saloon model.

"Shall we go to the Zoo and call on the monkeys again, Doris?" invited her uncle.

Small Doris drew herself up haughtily.

"Why, uncle! It's their turn to call on us."

In "Just in Passing" eight diversities of kisses are talked about. Sinical Sadie says there are other kinds, which the Scriptures do not mention—neither do the young ladies!

ALL YOU NEED

It's easy to be as wise as an owl, the chief qualifications being the ability to stay out all night.

THE VICAR looked across the breakfast table at his wife.

"You know, my dear," he said, "this business of women masquerading as men is very disturbing. Even I am not free from suspicion. Here is a letter addressed to me as 'Dear Sir or Madam'."

SOME COW!

Here is an amusing advertisement which appeared in a Middle West State newspaper:

"I will sell a cow at my dairy farm in Reno. She is of unbounded courage and gives milk frequently. To the man who does not fear death in any form she would be a great boon. She is firmly attached to her present home by a strong chain. She is one-fourth Shorthorn and three-fourths Hyena. I will also throw in my double-barrelled gun which goes with her. Her name is Rose. I would rather sell her to someone who does not reside in the district."

LOVE SONG

I love you,  
If it were your girl,  
I'd steal,  
I'd cheat,  
I'd rob,  
I'd kill.

In every corner of my heart  
The memories of you lurk.  
I love you  
Almost  
Enough to go to work.

PLAIN SCOTCH.

A Scottish guest at a small London hotel discovered that the washstand in his bedroom was minus soap. He rang the bell and a servant appeared. The guest, who was habitually a fast speaker, said:

"Mon, can ye no understand plain Scotch?"

Grasping at the last word, the attendant promptly fled, returning in a minute or two with a bottle and a glass.

CELEBRATING 180TH HALIFAX ANNIVERSARY

Halifax, N.S., June 22.—The one hundred and eightieth anniversary of the founding of Halifax was celebrated today. A parade, Maritime women's track and field competitions and other sports feature the activities.

ESCAPES AFTER BEING IN JAIL SIX DAYS

Toronto, June 21.—Victor O'Donnell, Toronto, sentenced to three months at the jail farm near Langstaff escaped today after serving six days of his sentence. He was convicted of perjury in connection with a marriage certificate, June 14.

SHAW GIVEN 4 YEARS

London, June 21.—Oswald Shaw, was sentenced today to four years in Paris mouth penitentiary.

AN OLD WOMAN WALKING ON THE ROAD

By Louise A. Johnson  
Grey the day! And grey her life!  
Gone, the glory! Past, the strife!

Daughter, she, of chieftains loud,  
Wooded by all with praises loud,  
For her beauty and her grace!  
Princess, she, of noble face,  
Many braves her favor sought,  
But her hand could not be brought,  
It, to him, should given be,  
Who showed most of bravery.

One there was, a warrior tall,  
Whom she loved the best of all.  
Wooded he her with silent glance,  
Oft they met, as if by chance.  
In the dance his hand he tread,  
All the other dancers led.

On the hunt for buffalo,  
He was always first to go,  
Oh, when war-cries echoed shrill,  
He was foremost over the hill.

But the years have sped away,  
Leaving her old, and grey,  
Now the road with iron rail,  
Where was once the blood-stained trail!

And the country all is changed—  
White men's homes where Sioux once ranged.  
Now her children's children go  
To be taught of the white foe.  
To the white man's God they pray,  
She has never learned the way.  
She must potter round and work,  
Doing what the others shirk.  
Bring the wood, and water haul,  
(Clad in faded gown and shawl),  
Make the fires, stir the soup,  
Others rest, but she must stoop  
O'er the kettle, keep it hot,  
Eat the dregs left in the pot.

In a corner she may lie  
Crouching of the life gone by.  
Late I saw her on the road,  
Bending under a heavy load,  
Said a woman, old and grey,  
Trudging, lonely, on her way.

No matter where we live we are all bound to know some Lorenzo Smith, as he is described in these delightful verses recently published in the London Morning Post:

LORENZO SMITH  
By E. V. Knox  
Here in this old sequestered street,  
Removed from London's core and  
pith,  
It does me good, by Jove, to meet  
From time to time Lorenzo Smith.

That Tussock silk should be absolutely dry before it is ironed; if it is not there will be a patchy effect.

That if you want to bake potatoes quickly, let them stand in boiling water for a few minutes before putting them into the oven.

That the whites of eggs will beat to froth much quicker if you add a pinch of salt to them and stand in a draught while beating them.

That instead of using vinegar and sugar for making mint sauce, a pleasant change will be found by mixing the mint with lemon juice and sugar.

SHIRAZ

Shiraz can be very valuable in the diet especially for children. But there are a few points to remember in connection with it.

See that the fruit is not acid because it is unripe. If oranges are sour it is a good plan to peel them, cut them in slices, take out the pips, and remove the thin white skin that covers the fruit. Put the prepared oranges into a deep bowl, cover them with castor sugar and let them lie in the sugar for some hours.

Never eat grapes except at the best meal of the day, for grapes eaten on an empty stomach are often harmful.

A few stewed plums, prunes, figs or apples are very good eaten in the morning before breakfast. Stewed fruit is much more valuable in diet taken this way than after a full meal.

Bananas are good cut into thin slices and put on toast and butter. They are also very wholesome peeled, cut lengthwise and eaten with cream, and they are tasty when peeled, sliced and fried with the morning bacon.

WHY I SERVE HOT POTS

Because

They can be quickly prepared and varied endlessly.

They require very little fuel to keep them going once the contents have come to the boil.

They do not need much attention during cooking.

There is no tedious "dishing" with them and only the one utensil to wash up.

They are an inexpensive dish, being composed largely of vegetables and the cheaper parts of meat.

They can be kept hot for hours without spoiling if the contents are not allowed to boil.

ASPARAGUS

Asparagus is a vegetable which is farm should be without. Few indeed, are the persons who do not like this delicately flavored, easily raised vegetable and coming so early in the spring it is doubly welcomed in most households. Once started, a bed of asparagus is easily cared for, and might be a source of pin money to the woman who has less fortunate—or provident—neighbors.

Asparagus is largely water, ninety-four per cent, according to Atwater, and its fuel value per pound is only 105 calories. Nevertheless it is of value in the diet because of its mineral salts and the appetite which it

helps to give for more hearty foods.

The time for cooking varies with the age of the vegetable. If you raise your own asparagus and know it is young and tender, twenty minutes should be enough. If it is older, it should cook at least a half hour. The best way of cooking is to cut in uniform lengths, snapping off with the fingers all the tough white ends, wash and scale. Tie in bunches, head end up, and cook standing on end in boiling water with the tips out of water. The tips are more tender than the stalk and the steam will cook them sufficiently while the ends are boiling. If the asparagus is fresh, salt may be added while it is cooking and this will help to preserve the green color. If it is older salt added while it is cooking will have a tendency to toughen the fibre.

TRANSPLANTING AND THINNING IMPORTANT

Thinning and transplanting are important jobs in any garden.

As a rule seed is much too fine to be far enough apart so that thinning would be unnecessary, and if one could do that half the seed might kill out, which would leave the plants too far apart. With the flowers this work is particularly important, as one wants a big top with spreading branches and large flowers. With plants of the zinnia, marigolds and scabiosa type, eight inches each way is not a bit too much, and twelve inches is preferable. The calendula, calliopsis, cosmos and similar flowers which may have seeded themselves, must be thinned rigidly. If plants are wanted in another bed, select and move them now.

In the vegetable garden, it will pay in larger plants and higher crops to thin the crop produced in thin lettuce, beans, carrots, beets, spinach, radish; in fact, practically everything. Even where the first beets are to be used for greens, one should thin to about two inches apart.

It all depends on my Health

Never before in all the world's history has there been such a tremendous strain on the nervous system.

This is the real reason why so many business and professional men are dropping suddenly by the wayside.

Whether the immediate trouble may be described as weakness of the heart, the stomach or other vital organs, the foundation cause in most cases is lack of nervous energy—the vital force of the human body.

When such symptoms as sleeplessness, headaches, indigestion, tired, depressed feelings warn you of weakening nerve force, turn to Dr. Chase's Nerve Food with every confidence that it will help you to recover strength and vigor.

For the sake of those who depend on you do not delay until you are a physical bankrupt victims of life, of recovering your grasp on the responsibilities of life.

Dr. Chase's Nerve Food  
The Greatest of Nerve Restoratives

## DIAMOND BUYER USES A SHOVEL

Pretoria, South Africa, June 21 (By the Canadian Press).—A small, neat metal packet bearing the Union Government seal and tied with tape arrived here from Cape Town recently. It contained several beautiful pure white Namaqualand diamonds of considerable value purchased by M. Vanderkar, manager of the United African Diamonds, Ltd., Pretoria.

The stones were sent from Cape Town through a bank and after cer-

## Guard against Vacation Ills

## Conservative Rally and Picnic

### Agricultural Park

Belleville Wed. June 26th 1929

Under the Auspices of the Conservative Associations  
of Hastings South, Prince Edward, Lennox and  
Hastings-Peterboro

Grand Platform Meeting at 2 p.m.—(Standard Time)  
The Chief Speaker will be

**Hon. R. B. Bennett K. C. M. P.**

Leader of the Conservative Party of Canada  
who will be supported on the platform by many  
prominent Members of the Party in the House of Com-  
mons and of the Ontario Legislature.

Loud Speakers will be installed on the grounds  
so that all may be able to hear. In case of unfavor-  
able weather, the meeting will be held under cover.  
At 5.15 (Daylight Saving Time) the Belleville  
Canadian National Baseball Team, Senior Amateur  
Champions of Ontario, will meet the fast Oshawa  
team in a C. O. B. League game.

Music will be furnished by the Belleville Argyl  
Light Infantry Band

Ice Cream and other Refreshments on the grounds  
Everybody Welcome

God Save The King

tain formalities which included a visit  
to the authorities in the company of  
a member of the Transvaal Diamond  
Detective Department, Mr. Vanderkar  
brought the stones to his factory.

This parcel of State diamonds is the  
first to arrive in Pretoria. The stones  
were of different carats, flawless and  
at first glance looked as though they  
had already been cut.

Describing how he bought them, Mr.  
Vanderkar had seen Namaqualand  
diamonds worth many hundreds of  
thousands of dollars on the top floor  
of a building in Adderley street, Cape  
Town. He was not admitted to this  
treasure house until he had answered  
questions through a small window, as  
though he were a member of some  
secret society.

In side, diamonds of various sizes  
were displayed on white paper, and  
Mr. Vanderkar explained the value of  
the parcel he intended buying. A sho-  
vel was unconsciously pushed into  
the stones and drawn out. By adop-  
ting this means the government shows  
no preference to any buyer of its dia-  
monds.

Within 20 minutes the whole trans-  
action was concluded, said Mr. Van-  
derkar and the authorities and the  
bank saw to the safe delivery.

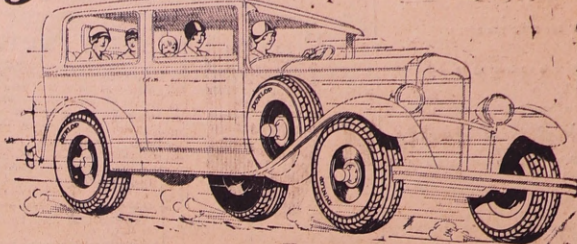

After they have been cut these  
Namaqualand diamonds will be ship-  
ped to the United States, Europe and  
India. None will be sold in South  
Africa.

Requests for high-class stones are  
received ceaselessly by diamond cut-  
ters in South Africa. At present the  
demand seems to be greater than the  
supply. Mr. Vanderkar thinks that  
the stones from the State mines will  
satisfy all overseas buyers.

## RE-QUEENING

A most important operation in the  
bee-yard, is the giving of a new queen  
to a colony, or the requeening of a  
colony. Its importance lies in the fact

# Marquette

## EXTRA VALUE

THAT ONLY MARQUETTE PROVIDES

PRODUCED BY  
McLAUGHLIN-BUICK

HERE is the most complete car  
ever offered in its price class.

Lift the hood and inspect the  
Marquette's power plant. Go over  
every feature of construction in the  
chassis. Fine workmanship every-  
where. Superlative engineering. Ex-  
pert design.

And the Body by Fisher. The very  
latest expression of the finest body  
craftsmen in the world. The up-  
holstery is of the finest plush—and  
there's a special type windshield that  
eliminates glare and gives new plea-  
sure and security to night driving.

It's a marvel in appearance, inside  
and out.

The Marquette proves it is a true  
McLaughlin-Buick product with a  
type of performance never before  
equalled in a car at the price. Get-  
away like a flash! Astonishing pick-  
up—10 to 60 miles an hour in high  
gear in a few seconds! Brakes with  
stopping ability to match such speed  
—positive, easy-operating and as  
smooth as satin.

Drive it today just to prove to  
yourself that there never has been  
anything like it anywhere near its  
price.

## FEATURES

COMBINED ONLY IN MARQUETTE IN ITS PRICE CLASS

The Marquette engine devel-  
ops 57½ horsepower. Top  
speed of 68 to 70 actual miles  
per hour. 10 to 60 miles an  
hour in a few seconds.

The famous GMR (General  
Motors Research) Cylinder  
Head provides high-com-  
pression performance even  
with ordinary fuels.

Extra large crankshaft with  
four main bearings, statically  
and dynamically balanced.

Chassis built low to the  
ground, well balanced and  
rigid. All chassis units,  
such as the frame, axles,

wheels, steering mechanism,  
and springs are especially  
strong.  
Easy, quiet gear changing.

Four-wheel brakes of the  
latest Duo-Servo Internal-  
expanding type.

Long semi-elliptic springs  
and Lovejoy Shock Absorb-  
ers.

Special features include:  
AC gas pump and fuel strain-  
er, AC oil cleaner, AC oil  
filter, crankcase ventilation,  
automatic heat control to  
carburetor, tilt-ray head-  
lights, co-incidental ignition.

Bodies by Fisher of smart  
original styling, finished in  
new Deco color harmonies.

High grade plush-upholstery.  
New exclusive non-glare  
Fisher VV Windshield.

Wide, deeply cushioned  
seats, with adjustable driver's  
seat.

Adjustable steering column  
and effortless steering me-  
chanism.

Complete luxury appoint-  
ments and equipment. \$14,225

## McLaughlin Motor Car Co. Limited

2 Bridge St. W.

Belleville, Ont.

IT'S BETTER BECAUSE IT'S CANADIAN

that the queen is the greatest factor  
in the production of the honey crop;  
that is, she produces all the bees of  
the colony, which in turn produce the  
crop, usually considered as being pro-  
portional in size to the number of  
honey gatherers present.

The queen, therefore, must be vig-  
orous. To secure this quality of vigor,  
some beekeepers make a practice of re-  
queening their colonies each year,  
while others, who think that a queen  
is at her best in her second year, re-  
queen every second year.

Which ever of these methods is used  
the practice in most common use in  
Canada is to requeen the colonies  
towards the latter part of the main  
flow, during the last week in July or  
first week in August. This gives a  
young queen ample time to increase  
the strength of the colony in young  
bees before the winter sets in, and  
does not affect the honey crop.

Besides this wholesale method of  
requeening, there are times through-  
out the season when necessity de-  
mands the giving of a new queen im-  
mediately. In the spring, one some-  
times finds a colony queenless or  
headed by a drone layer. At such a  
time, the beekeeper who has wintered  
a few spare queens for such an  
emergency, can immediately requeen  
his colony, while others, less provid-  
ent, must send to the south for a  
queen.

During the summer also, losses fre-  
quently occur. Much time is saved  
here, too, by the beekeeper who rears  
his own queens, and who has spare  
queens in his mating boxes on which  
he can draw to replace these losses.

For methods of requeening see Bul-  
letin No. 33 issued by the Bee Divi-  
sion, Central Experimental Farm, Ot-  
tawa, Ont.

A. H. W. BIRCH,  
Apiarist,  
Central Experimental Farm, Ottawa.

## WORLD CONFERENCE ON CRIPPLED KIDDIES

Geneva, Switzerland. (By Canadian  
Press).—A world conference of work-  
ers for crippled children, to be attend-  
ed by public officials, scientific men  
and social workers, will be held here  
July 28 to August 2.

Every European country which has  
given thought to helping its crippled  
children, will be represented on the  
conference programme. Delegates  
from all parts of North and South  
America and far eastern countries are  
now making arrangements to attend.  
Indications are that the conference  
will be thoroughly representative in  
every respect.

Edgar F. Allen, of Ellyria, Ohio,  
president of the International Socie-  
ty for Crippled Children, will open  
the conference with an address de-  
tailing The Evolution of the Problem  
of the Crippled Child. Mr. Allen will  
summarize the ground covered by  
those who have had to overcome pre-  
judice, ignorance, indifference and

lack of proper technical knowledge, to  
reach the present stage where govern-  
mental bodies are taking over re-  
sponsibilities and employers are find-  
ing work handicapped persons can do.

Every important phase of the crippled  
children's problem will be thor-  
oughly discussed by experts from all  
countries represented. The general  
subjects to be discussed are: finding  
crippled children, examination and  
diagnosis, hospitalization, care and  
training during convalescence, rela-  
tions of practitioners, institutional  
men and women and lay workers and  
their relation to an organized pro-  
gramme, the education of the crippled  
child, vocational training and  
placement, and the prevention of the  
causes of crippling conditions.

Arrangements have been made  
whereby delegates may visit leading  
European institutions where crippled  
children are cared for, and where  
many of the leading orthopedic sur-  
geons of Europe have been trained and  
are practicing their art.

## CONTROL OF THE OURON MAGGOT

Onion maggot flies have been emerg-  
ing for the last week and will con-  
tinue to lay their eggs on the onion  
crop in a very few days. Control mea-  
sures should be applied before this  
takes place.

Experiments conducted at Ottawa  
have shown conclusively that best con-  
trol is brought about by spraying the  
young seedlings with an oil emulsion  
spray. The oil used is a light lubri-  
cating oil which can be obtained from  
any of the oil companies of this city  
and should have the following speci-  
fications; specific gravity .87-.93 at 20  
degrees centigrade, a viscosity of 90  
seconds at 100 degrees Fahrenheit  
and a volatility of not over two per  
cent. These figures, although per-  
haps confusing to you, will be readily

## Zutoo

Will stop any headache in 30 minutes,  
will nip a cold in the bud,  
will relieve the monthly pains of  
women, and in every case it  
Leaves you Feeling Good

understood by the oil companies.

To prepare the spray, mix a gallon  
of Bordeaux mixture by first dissolv-  
ing two ounces of bluestone in a gal-  
lon of water and then adding two ounces  
of hydrated lime to the solution.  
This should be thoroughly stirred and  
poured into a pail containing a gallon  
of the oil. By means of a bucket  
pump or other sprayer pump the li-  
quid back upon itself until a perfect  
emulsion of the oil and Bordeaux is  
secured. This should take about 3-8  
minutes and can be tested by pouring  
a small quantity into water. If the  
emulsion mixes perfectly with the  
water and leaves no oil droplets on the  
surface it is ready to use but should  
free oil be present further agitation  
will be necessary. When the oil is  
thoroughly emulsified mix the two gal-  
lons with 38 gallons of water and your  
spray solution is ready.

The onions should be sprayed four  
times, the first spray being applied im-  
mediately upon receipt of this letter,  
and subsequent sprays at intervals of  
one week. In spraying, the whole sur-  
face of the ground should be covered  
as well as the tiny plants. Thorough  
work is essential to good control and  
75-100 gallons of spray should be used  
per acre at each application. Put on  
the first spray now; cover the plants  
and ground thoroughly; use plenty of  
material.

This control has given excellent re-  
sults in heavily infested fields of the  
Ottawa district and will increase your  
yields one to two hundred per cent.

If further information is desired, ap-  
ply to the publications branch, depart-  
ment of agriculture, Ottawa, or to en-  
tomologist in charge of vegetable in-  
sect investigations department of agri-  
culture, Ottawa.

## When Food Sours

Sweeten the stomach—instantly

About two hours after eating many  
people suffer from sour stomachs,  
since its invention.

It is the quick method. Results come  
almost instantly. It is the approved  
method. You will never use another  
when you know.

Be sure to get the genuine Phillips'  
Milk of Magnesia prescribed by phys-  
icians for 50 years in correcting excess  
acids. Each bottle contains full di-

## PEACE PREVAILS IN PALESTINE AGAIN

### Fair Set New Attendance Mark--German Occupation Ends in June

#### GIRDLED WORLD UNDER 12 DAYS

Graf Zeppelin Safely Tied At Lakehurst Early This Morning

#### ESTABLISH RECORD

Com. Eckner to Remain a Few Days But Denies He Is Through

Lakehurst, N. J., Aug. 29.—Graf Zeppelin dropped her landing ropes to the ground at 7.07 eastern standard time this morning, thus completing her twenty thousand mile trip around the world in slightly more than 21 days elapsed time. She was sighted at 6.52 a.m.

At 7.13 the Graf was pulled to the ground and preparations were made for immediate debarkation of passengers.

The world journey was stopped only at Friedrichshafen, Germany, Tokyo Japan and Los Angeles, Calif. Although this trip was slightly more than 21 days, the actual flying time was 11 days, 23 hours and 14 minutes.

The Graf set a new world-circling record, the previous one being made in 1928 by John Henry Mears and C. B. D. Collier, who did it in 23 days, 15 hours and 41 minutes. They used aeroplanes over land and seamen across the Atlantic and Pacific.

Eckner To Stay In U. S.  
On completion of his world flight, Commander Hugo Eckner announced he would not return to Friedrichshafen with the Graf Zeppelin. The Graf will sail Saturday evening for Hamburg with Captain Ernst Lehmann in command. Commander Eckner will spend about twelve days in United States before returning to Germany.

Commander Eckner denied a report said to be current in Friedrichshafen that he is about to retire and that the world flight was his last trip in command of the Graf Zeppelin.

#### PLANES STARTED GOOD-WILL RACE

Four Machines Left Toronto To Attend Cleveland's Air Meeting

Toronto, Aug. 29.—Four aeroplanes entered in the Canadian National Exhibition Toronto-to-Cleveland goodwill air race flashed away from the Leaside field sharp at 10 o'clock today on the first leg of their flight.

The planes took off at one minute intervals and hovered over the field awaiting the starting gun. Len Tripps, representing St. Catharines Flying Club, was the first to hop off, followed by Carter Guest, of Toronto Flying Club, Ken Whyte, of Hamilton Flying Club and Norman Irwin, of Toronto Flying Club.

Planes headed directly for the Canadian Exhibition and then set their noses for Hamilton, where they will fly at a low altitude to enable officials to time and check their planes. From there they will head for Buffalo where they land for further checking and refueling. The final hop for Cleveland will then be made, the flight to be completed in from three to four hours, according to officials.

Non-Stop Flight  
Seven commercial aviators, constituting the second section of the Toronto-to-Cleveland goodwill race took off from Leaside field shortly after noon. They made their course for the Exhibition grounds, circled about, and headed in the direction of Hamilton. They will make a non-stop flight to Cleveland via Hamilton and Buffalo.

STILL IN THE AIR  
Chicago, Aug. 29.—"Chicago, we will" endurance plane passed 129 hours of continuous flying at 6.31 a.m.

ARABS THREATEN RELIGIOUS WAR

Beirut, Aug. 29.—Troubles in Palestine have aroused Arab feelings throughout the near East, the unrest assuming the character of a movement for the unity of Arab countries where demonstrations have been held.

Sultan Almarsh, chief of the Druse tribesmen, is reported to be gathering his forces for an invasion of Palestine.

#### JEWISH LEADER

Vladimir Jaslowsky leader of the Zionist Fascist; concerned in present Palestine riots.

#### THIEVES BUSY IN TWEED RECENTLY

Arrest of One Young Man Implicates Two Companions In House-Breaking

Police officers in this district are believed to have practically solved the mysterious break-ins which last Friday and Saturday aroused the citizens of Tweed, and one arrest has already been made, with others likely to follow within a day or so. Joseph Woodcock, a young man who lives near Tweed, was arrested Saturday by Officer Moon, of Tweed, and the Provincial Police on a road a few miles from Tweed, and it is understood that he has confessed and implicated two other young men of that district.

Several homes and one merchant in the village of Tweed had been burglarized, sums of money taken, preserved fruits, guns and ammunition, and only smart work by the authorities brought the culprit to justice. On Friday evening, the home of Edward Wright, piperhanger, was entered, but the intruders were apparently frightened away before taking anything.

Myke's Hardware store was next visited, the back door apparently having been left open, and several guns and ammunition were missing the next day. From the home of S. H. Connor, principal of the Tweed Public School, several jars of fruit were stolen. Mr. Connor and his family being away camping at the time. Mr. J. Luffman, barber, reported the loss of fifteen dollars, while William Brown, a retired farmer, was the heaviest loser of the householders, the thieves taking in the neighborhood of twenty-five dollars from his raid.

The culprits will appear for trial before Magistrate Gawnen within the next two days.

#### OFFICIALLY NOT PRESENT AS YET

Right Hon. Mr. Thomas Refused To Be Interviewed At Toronto

Toronto, Aug. 29.—Rt. Hon. J. H. Thomas, Lord Privy Seal and Minister of Employment in the British Government arrived in Toronto early today. He left shortly afterwards for Niagara Falls and did not leave his private car. Tomorrow he returns to Toronto to address a luncheon gathering arranged by the Ontario Government. Refusing to say anything about the situation in Palestine, the Lord Minister said he was too far away to speak about it. "Any advice I could offer would be of no more value than that of the newspapers," he said. He also declined to discuss any other matters and said he was not "officially" in Toronto until tomorrow.

#### FOREST FIRES STILL BURN IN THE WEST

Prince Albert, Sask., Aug. 29.—Fire fighting crews are actively engaged in suppressing fires at Candle Lake, Whitefish River, Gull and Whitford Lakes and also at Peasants in the Pacific Forest Reserve. Forestry agents declared that unless rain falls soon the situation will be extremely serious.

#### CALM RESTORED BY BRITISH GUNS

Jewish Ships in Jerusalem Timidly Re-Open For Business Today

#### ARABS DEFIANT

Declare Independence of Great Britain and Raise Turkish Flag

London, Aug. 29. (Canadian Press Cable)—British land, sea and air forces have been called into Palestine according to reports reaching here. Out of the welter of reports from the Holy Land yesterday, it has been established that blue jackets from H. M. S. Barham, co-operating with aircraft, quelled a serious riot at Haifa where looters were shot down while aviators fired on Arabs at Ramleh and in the hills in the vicinity of Jerusalem. Trans-Jordan la frontier force repulsed attacks at Bevalpha. Comparative calm prevailed throughout Palestine last night.

Reputable Interview  
The Colonial Office today issued a statement explaining its position on published reports of conversations yesterday on the Jewish situation in Palestine between Dr. Chaim Weismann, president of the Zionist Executive, and Lord Passfield, secretary for the Dominions. The statement declared that reports of the government's policy in this interview "could not be taken as authoritative."

Better Feeling Prevails  
London, Aug. 29.—Strain in the relations between the British and Great Britain was said by high authorities in Jewish quarters today to have been eased and a much better mood is prevailing. Leading Zionists it is stated, feel greatly heartened by the warm response of Lord Passfield, colonial secretary, to their representations.

Chaim Weismann, president of the Zionist Executive, who saw Lord Passfield yesterday, will leave for Geneva Friday. The "Wailing Wall" question is expected to be taken up by the League of Nations at its coming meeting.

Jerusalem, Aug. 29.—Arabs; Moslems continued sporadic attacks against Jewish colonies throughout Palestine today but the situation as a whole, for the first time in five days seemed somewhat easier. In Jerusalem the first Jewish shops timidly opened for business.

Tension was relaxed but the fear persisted that the uprisings in Palestine portended a more far-reaching Islamic disturbance and Bedouin uprisings. Such peace as was obtained in the result of British military repressive measures which clamped authority on Jew and Arab alike.

Defy Great Britain  
Arabs in Nablus, a central Palestine city, were said today to have defied the British independence of Great Britain and to have raised the Turkish flag.

#### CHURCHILL PARTY SEES THE ROCKIES

Banff, Aug. 29.—Right Hon. Winston Churchill and his party yesterday saw the beauty of the Canadian Rockies and enjoyed a day of leisure.

In the morning the party enjoyed a swim and later went by pack horse on a trail that winds along the Spray River. The day's outings were concluded with an automobile trip to points of interest in the district.

#### THREE DAYS OF FLYING

Syracuse, N. Y., Aug. 29.—Empire State standard endurance plane landed off here Monday.

#### TOOK IN \$175.47

St. Julien Girls Worked Hard For Charity All Day Wednesday

\$175.47 was the amount taken in yesterday by the Alexandria Day tappers, under the auspices of St. Julien Catholic Church, for the Empire State standard endurance plane for charitable purposes, such as the Old Folks Home, assisting the Navy League, the Red Cross and other charitable organizations.

The girls worked hard yesterday on Front Street and downtown in the morning and a number of them reported to the Fair Grounds in the afternoon to continue their work there.

#### WINNER OF FLIGHT

Mrs. Louise Thaden

Pittsburg, Pa., who won the women's air derby from Santa Monica, Calif., to Cleveland. Her flying time was 20 hours, 19 minutes and two seconds.

#### PROPOSALS MADE TO HELP TRADE

Rt. Hon. J. H. Thomas Has Made Some Suggestions To Government

#### MADE PUBLIC LATER

Minister in Toronto Today And Leaves For West Saturday

Montreal, Aug. 29.—Empire domestic policies of the Labor Government in Great Britain were outlined yesterday by the Rt. Hon. J. H. Thomas, Lord Privy Seal, and Minister of Employment, who in addressing a special Canadian Club luncheon meeting, asserted that he had made some definite proposals to the Dominion Government which might, in his opinion, make it possible for Canada to help in the solution of Britain's unemployment problem. According to the general tenor of his remarks this would be in the direction of stronger trade relations, rather than in wholesale immigration to this country from the old land.

The minister made it clear that he was not aiming at the abolition of preferential treatment within the Empire. He stressed the need of peace and expressed his satisfaction at the same time with the stand taken by his colleague in the Cabinet, Philip Snowden, at The Hague.

There was a large assembly again at the meeting held in the Windsor Hotel, while thousands were enabled to hear the speech over the radio.

Minister's Itinerary  
Canada and Great Britain may expect to hear something of special importance and interest from the unscheduled lips of Mr. Thomas, on Tuesday, September 10. He will be in Ottawa on that day when it is understood a banquet will be held in his honor. Up to the present, the distinguished visitor has maintained strict silence during (Please turn to Page Three)

#### LINDBERGH TO GO TO SOUTH AMERICA

New York, Aug. 29.—Plans for the two Lindberghs to fly to South and Central America on a pleasure and goodwill tour are described by the New York Times. The Colonel and his bride will start September 20 from Miami, Florida, for Panama, then to Cuzco, and then continue to Buenos Aires across the Andes to Chile and up to coast. Then they will visit Mexico City.

The plane will be dual-control, of course.

#### MARRIED 64 YEARS

Brookville, Aug. 29.—Mr. and Mrs. James Taylor, residents of Brookville, yesterday celebrated their 64th anniversary of their wedding, which took place at Chamby, Que.

#### OVER 10,500 SAW FAIR YESTERDAY

Attendance Set New Record On Citizens' Day—Good Program

#### RAINING TODAY

Tomorrow, Closing Day, Featured by Parade of Livestock Prize Winners

With an attendance of 10,500 the Fair set a new mark yesterday. This was considerably higher than Citizens' Day last year and double that of opening day. It was on to mid-night before the crowd thinned out to any extent and the directors are happy and satisfied that the local fair will go on to bigger things.

There was a good crowd in the grandstand for both afternoon and evening. An especially good program of horse races and athletic events was staged in the afternoon, while the previous evening's performance was repeated even more amply in the night before.

For this afternoon some of the fastest horses in this part of the province will compete in the 218 trotting class. Rain has somewhat kept down the attendance but it is expected that by night last year's total will be reached.

Market Gardeners' Display  
A tribute to a market gardener of Thurrow township, well known in the past, was paid yesterday by a tourist from the United States who attended the Belleville Exhibition.

Looking at Mr. T. Bamford's display of vegetables in the Agricultural building the tourist said that it was the finest display and the finest vegetables he had ever seen in his life. "You won't see an exhibit like this at the Canadian National Exhibition," he stated. "At all the fairs I have seen and I have attended many, never before have I seen such a display of market produce." (Please turn to Page Three)

#### SNOWDEN TO GET WARM WELCOME

Public Reception on a Great Scale Being Planned In London

London, August 29.—Throughout today the metropolis will be placard'd with news bills, "Snowden Wins," "Snowden's Victory," "Snowden's Triumph," as representing the three main divisions of public opinion here, and tonight London will be prepared to give her chief delegate to The Hague conference when he returns home Friday a welcome on a "grand scale" than Britain has accorded any statesman since Benjamin Disraeli brought back "peace with honor" from the famous Berlin conference.

At The Hague today Snowden remarked: "I have heard about that and do not much like it. I told my wife I will detain at some wayside station." The result of Snowden's visit to The Hague cannot be measured here in the terms of the £2,000,000 which Snowden says Britain will now receive out of the £2,400,000 per year (an estimate) that Britain would lose under the proposals of the Young plan, a moral effect. His incursion into continental diplomacy can best be likened to the British mind to one of those sudden treacherous raids by a band of men solely designed to increase the morale of British troops and "put the Peace Turn to Page Three

#### LIKELY FRIDAY

Water Probably Warm Enough For Marathon Swimmers Tomorrow.

Toronto, Aug. 29.—Despite fairly strong north winds, conditions appeared fairly favorable today for the starting of the Canadian National Exhibition Wrigley 15 mile swimming marathon tomorrow. Today's reading gave the water temperature as 58 degrees, while it ranged from 57 to 64 degrees.

#### KILLED GIRL WHEN CAR TURNED OVER

Sawyerville, Que., Aug. 29.—Miss Rose Reel, Brookline, was killed yesterday when she was pinned between the door and frame of an automobile which tipped over on the Clifton road near here. Dr. Rudolph Lineman, also of Brookline, was summoned.

#### RELIEVED MANAGER OF DAY'S TAKINGS

Toronto, Aug. 29.—Two armed men early today held up Lawrence Stubbs, night manager of a local service station and robbed the safe of approximately \$100.00 in cash. The men escaped in a waiting automobile.

#### BAD TENEMENT FIRE

New York, Aug. 29.—Three persons were killed and eleven injured early today in a fire in a four-story tenement house on the lower east side.

#### KILLED IN RIOTS

Henry Frohman

of Hamilton, Ont., who was attending college in Hebron, is reported killed in present Jew-Arab riots.

#### SLIPPERY ROADS MADE ACCIDENTS

Two Women Taken to Hospital For Treatment and Cars Damaged

Due to the slippery condition of the Highway following the rain this morning two accidents occurred, one of which was serious. The first, which happened near the Belleville Cemetery, resulted in two ladies being sent to the Belleville Hospital for treatment, while the other, on East Bridge St., near Blecker Ave., resulted only in property damage.

About ten o'clock this morning H. J. Greenwood, of Quincy, Mass., with a party of five, including his wife and mother, driving west on the Highway near the Cemetery, tried to stop his car behind another driven by Mrs. Jack Allen, of Kitchener, but the road was so slippery that he crashed through the windshield of the latter car, which contained the driver's mother, Mrs. A. Cavanaugh, as well as Mr. Allan and two children, the one a young baby. The Allen car had stopped behind a light touring car, which had been held up by a wagon driven by J. Megginson, of Trenton.

#### Elderly Woman Injured

Mrs. Allan managed to swing her car out onto the left side of the road, just touching the touring in front, or a more serious accident would undoubtedly have been the result. As it was Mrs. Cavanaugh, who is 82 years of age, suffered a severe bump on the head, when she was thrown to the top of the car. After an X-ray at the Belleville Hospital, however, she was able to proceed on her journey.

Mrs. Greenwood, mother of the driver of the car which failed to stop in time, suffered a severe cut on the head when the windshield of their heavy car broke. She was taken to the hospital, where Drs. McGreary and Robertson attended her. Dr. Cronk attended Mrs. Cavanaugh. Highway Traffic officer Fink investigated the accident, which Green admitted was his fault. It is understood that he will settle all damages.

Edward Hays, of Concord, Ont., parked his car on the south side of Bridge St., East, this morning, when Herbert M. Rathburn, of Watertown, N. Y., applied his brakes too quickly, he crashed right into the back of Hays' car. City Traffic Officer Rose investigated and Rathburn will pay the damages.

#### KILLED GIRL WHEN CAR TURNED OVER

Sawyerville, Que., Aug. 29.—Miss Rose Reel, Brookline, was killed yesterday when she was pinned between the door and frame of an automobile which tipped over on the Clifton road near here. Dr. Rudolph Lineman, also of Brookline, was summoned.

#### RELIEVED MANAGER OF DAY'S TAKINGS

Toronto, Aug. 29.—Two armed men early today held up Lawrence Stubbs, night manager of a local service station and robbed the safe of approximately \$100.00 in cash. The men escaped in a waiting automobile.

#### BAD TENEMENT FIRE

New York, Aug. 29.—Three persons were killed and eleven injured early today in a fire in a four-story tenement house on the lower east side.

#### ALL TROOPS OUT BY END OF JUNE

Powers Agree on Details of Evacuation of German Rhineland

#### MUST ACCEPT TERMS

Removal of Armies Depends On Agreement to the Young Plan

The Hague, Aug. 29.—Creditor powers and Germany reached an agreement on the "Young" reparations plan at the Hague conference this afternoon.

The Hague, Aug. 29.—German representatives again early today declined to participate in the compromise of France, Italy, Belgium and Japan with Great Britain to secure British adherence to the Young reparations plan.

The Germans reiterated their feeling that they had made all concessions possible to it in accepting the Young plan at the Paris experts' conference.

All Out By Next June  
The Hague, Aug. 29.—After nearly four weeks of hard labor, the Hague Reparations Conference today reached a definite decision on the rhineland evacuation, which is still dependent however on a final agreement on the Young plan.

On the report of Rt. Hon. Arthur Henderson, Foreign Secretary of Great Britain, the political committee today decided that evacuation of the Rhineland must be begun at once. That it must be terminated as far as concerns the Belgians and British and the second French zone will in three months after the adoption of the Young plan and that the last zone of occupation, the Bridgehead at Mainz must be cleared of foreign troops before the end of June 1930.

Wanted Quicker Move  
This decision falls little short of German desires. The Germans held out long and strongly for the earlier liberation of all occupied territory.

They wanted to celebrate complete evacuation by Christmas but it was physically impossible to get all the French troops away so quickly.

#### CRASHED WAGON COMING ON ROAD

Farmer Killed and Young Son Fatally Injured This Morning

Welland, Ont., Aug. 29.—Joseph Notar, Hungarian, of Humberstone, Ont., died in the hospital today from injuries received in a triple crash between two motor cars and a heavy farm wagon on the provincial highway between Port Colborne and here last night. George Notar, his ten year old son was fatally injured, while several passengers escaped with slight injuries.

The Notar family was coming on the highway from a sidetrack when their wagon was struck by a car driven by Mrs. Grant Black, Humberstone. After hitting the wagon Mrs. Black's car is said to have crashed into a car driven by Kenneth Wills, of Winger, Ont. Both cars were badly damaged and the wagon demolished.

Mrs. Notar and her daughter had just left the wagon before it drove on to the highway.

#### SLEEPING SICKNESS SPREADS IN JAPAN

Tokyo, Aug. 29.—Sleeping sickness prevalent in the southwestern prefectures has continued to spread, particularly in the prefectures of Kaga and Hiroshima. Total of 349 cases, with 136 deaths was reported today.

#### LADY MARY HURT IN PLANE CRASH

Cleveland, Ohio, Aug. 29.—Lady Mary Heath, famous British pilot, was seriously injured here today when her plane crashed. She was unconscious on arrival at the hospital and attendants could not determine fully her condition.

Train Kirk, 28, who was flying with Lady Heath, also was injured but not seriously.

## SECOND DAY WINNERS

### PERFUMES FOR PARIS SHOES ARE INNOVATION

Shoes with delicate perfume are expected in Paris as the result of experiments in French industrial laboratories.

Already returned shoe polish has been perfected; glue was given the

color of violets and axle grease the scent of attic roses. Imitation leather has been given the fragrance of the real Russian leather.

Cumarin, a chemical derived from the tonka bean of Guiana, Bulgarian oil of roses and aromatic compounds of benzene are some of the ingredients used in the process.

### THE WAY TO A MAN'S HEART

#### GRILLED TOMATOES SOUTHERN

The inexperienced cook will welcome a simple method of cooking the tomatoes.

Five ripe tomatoes. Salt, pepper, sugar to season. A sprinkle of flour for each slice. Powdered sugar (optional). Grilling time, six to eight minutes.

While the salad tomato usually is robbed of its skin, the tomato for grilling is permitted to keep the thin outer covering. Even when firm tomatoes are sliced one-half to one inch thick, they tend to liquify under grilling or pan-frying. The skin holds the slices in shape.

## Miss Hard--Boiled" BY JANE DIXON

### CHAPTER 47

For three nights in succession Raquel went to the opera with Alphonse. She lived now only for the night and its song.

On the fourth night Alphonse had to attend to important business. Her appointment was kept. She remained in her room at the hotel. At eleven o'clock she was preparing to retire when the telephone rang.

"Don't be wakened!" Greta called. "I've got everything fixed for a sashay into Montmartre."

"This Greta, it's late!" Raquel pleaded. "She had no taste for Greta's 'high jinks' tonight."

"What do you mean, late?" came the protest. "It's only a little after eleven."

"Yes, and I'm just about to retire for the night."

"Sa-a-y, dearie, forget it, will you? Where do you think you are? This is Paris, not the morgue."

Raquel felt rather than saw the maid Lola come into her room. Funny how Lola always happened to be within listening distance when she was holding conversation with anyone here or over the telephone.

"If you'll excuse me tonight," she said to Greta, "I'm really tired. Standing all day trying new models."

"I know. My feet are worn down to the ankles. That's why I'm taking 'em out for a rest. Come on now, dearie—be a help, will you? I got a hunch in my bank-roll. He's a pal of my friend who wants to get rid of a Bertie Adams. And Bertie's coming too."

Greta really wanted her to accept. Raquel could tell it in Greta's voice. Well then, she must go. Greta was her confidante, her one friend with-out benefit of gain. The boyish girl with the mischievous mind had a sincere liking, an unshakable loyalty for her.

"Very well," she said. "I'll be ready if you'll call in fifteen minutes."

"Atta girl. The fireman's bride," cried Greta with relief.

When she returned from the telephone, Lola the maid was close at her elbow. She bit off the sharp rebuke she wanted to make.

"I'll wait evening things," she ordered sharply.

"Mademoiselle is going out?" It was a protest.

"Yes."

"If Mademoiselle will tell me where she intends going, I shall know what is best to select." The oily gibbness of Lola's tongue!

"You'll find a gown of black net in that second closet. An extremely plain gown. That will do very well."

Lola's long pointed nose poked about the silken lining in the closet until she found the black net.

"Perhaps Mademoiselle will find it too plain, if she is going to a gay place," she suggested, slipping the gown over Raquel's head.

Her inquisitiveness brought no answer. She stood back, her nose twitching like that of a bothered rabbit.

"Mademoiselle has an eye for what becomes her best," she treasured.

"The black wrap with the silver ruff, please," said Raquel, ignoring Lola's obvious attempt to divert suspicion from her prying.

Only Greta was waiting for her in the open corridor outside the lobby of the Continental when she went down.

"I knew old Nosey would be mooching around trying to get an eyeful," Greta explained. "So I made Bertie and Ginger Smith—honest his name's Smith—wait for us at the St. James."

"You mean Lola would watch us?"

"And how! Don't turn around, but she just blew in, behind the pillars by the elevator. She must have slid down seven flights of stairs."

"How does she dare?" Flares in black eyes. The flash of blue-white teeth.

"Hold it," warned Greta. "Why get yourself into an uproar? We'll give old Nosey a treat. Wander out and park ourselves in a taxi like we are all alone in the world. I'll tell the driver where to go after we get under way. Then Nosey'll slip the starter a fistful of francs for the news, and all she'll draw will be a blank."

As the taxi turned the corner of the street, Raquel looked back. A woman was talking with the starter under the street arch in front of the hotel. Lola, the maid.

Bertie Adams and the man Greta called Ginger were waiting for them in the St. James. A rotund, genial fellow was Sandy, with a crop of bright red hair that kinked stubbornly up from his brow and a spattering of freckles that would do credit to a juvenile motion-picture comedian.

"Come on," heralded Greta, eager, as always to be on the wing. "We're off in a cloud of dust."

"It's great to see you again," Bertie told Raquel, when they were once more bowling along the boulevards. "I thought you had changed your mind about being friends."

"Why did you think that?" asked Raquel, suddenly suspicious. She had done nothing to make Bertie reach such a conclusion.

"I've telephoned your hotel at least a dozen times and never had any luck. And I've left messages."

"Oh-h," she would not let him know that neither his calls nor his messages had reached her. "I've been working all day, and going to the opera at night. I'm sorry."

He knew. Her eyes burned against the lids when she closed them to shut out their flashing indignation. That Alphonse should do this thing to her! Surround her with spies. Cut her off

from pleasure, from the world, as if she were his chattel. That he'd dare rob her of her precious freedom! Alphonse must stop it. She would see that he did. Her throat was so tight she could not manage the means of nothing with which she wanted to cover her chagrin, her mounting anger.

"Here we are," called Ginger Smith. "First hop. All out."

They had wound through narrow streets toward the top of a hill. Lights winked. There was a canopy over the sidewalk to the curb. A Cosack at the door. An alien country. A strange city. A Club Divine. All over the face of the earth people played the same games in the same way.

Wherever they went, wealth and pleasure created their own playgrounds. By a pattern.

(To Be Continued.)

## COATS OF LLAMA IN HIGH FAVOR

### Fashion Sponsors, "Travel" Coats of Tweed and Camels' Hair

The fall mode attaches great importance to the travel coat. No, that one has to travel in order to find these coats a suitable garment for the wardrobe. We think in that they must have been termed "travel" coats because they meet the requirements of the inveterate traveler, who, perhaps more than any other person, expects every article of the wardrobe to give good service, be readily recognized as smart, wherever worn, and be suitable for a host of occasions.

Many are fashioned of camel's hair plaid back tweeds and llama cloth, and the fur employed for collars are mainly beaver, fox and wolf. Curfs are not so prominent as heretofore, but the collars are large and face framing, flattering alike to both the coat and the wearer.

Camels' hair coats are available in beige and the darker brown color range, and genuine beaver forms the trimming par excellence. These coats are lined with heavy crepe, and interlined also. The pile of this camel's hair cloth is deep and soft as a Persian rug, and the wearing qualities speak for themselves. As for style value, there is nothing smarter.

Wolf and fox are dyed many new shades that tone up beautifully with the shades and materials being used for fall coats. The beige shades are predominant. Llama cloth travel coats are available in grey, beige, tans and blues. Fringed coats of plaid are expected to be worn this fall, and this type is particularly sporty. The knit, tweed materials in tweed simulacra are notable, and check effects are also shown. This material molds itself to the figure, will not crease, and is obtainable in all the wanted shades.

That New York notes that white is especially good this summer with the Sun Tan mode raging, as it accentuates the copper tints, and white frocks, sports coats, sweaters and hats are frequently seen at fashionable gatherings.

That a very light bluish lavender, similar to an iris shade, is a color shown in many types of garments and in accessories, and shades of this soft color that are more blue than purple are much more wearable and becoming to the majority than the pure purple tones.

## SINCLAIR'S

### WHAT'S NEW

(From A Woman's Standpoint)

That Paris notes that among the colors which came in for accent as the basic ones of the season at this fall presentation in which both fabric houses co-operated with costume creators, were a true capsule, in addition to a rust and terra belonging to the capsule family, a bright navy, spruce green, a deep turquoise and a sulphur yellow.

That one of London's well-known hosts has a dining-room in most attractive peach color and all the table glass is amber, while a special mask made for him by Oliver Messel hangs in the hall, which has brocaded walls and Philip Forbes-Robertson has done for him an imposing painted tapestry and one of the features of this flat are the coral pink, grey and black bathrooms where the curtains and part of the walls are covered with black oilcloth.

DARKNESS MADE PLAY IMPOSSIBLEScore at End of 6th Inning  
Was Tie, 9 To 9

## HARD-FOUGHT GAME

Spectators And Others  
Showed Poor Sportsman-  
ship To Visitors.

In the most disgraceful exhibition of sportsmanship ever witnessed on the Cricket Field in Kingston, on the part of the Kingston fans and management, the Frontenacs girls, as far as they are concerned tied the Kiwanis girls with the score of 9-9. This is not taking in the seventh innings which was played in almost darkness and in which many of the Kiwanis girls crossed the plate, when Bessie Doolittle, who was pitching for the Frontenacs could not see the plate, and the players behind her found it impossible to see the ball. The umpires were in favour of calling the game midway through the seventh, with the score 13-9 in favour of Frontenacs, but seemed to be afraid of the crowd. Had they done so, the score would have reverted back to the 6th, making it 9 to 9.

The Frontenacs were ahead all through the game and played superior ball, as they have done in both previous games with the Kingston team. Bessie Doolittle who did the pitching made a good job of it and the Kiwanis players were kept down in fine style all through the game. Both Audrey and Aileen Wilkins did nice work with the bat, both lengthening three baggers at opportune moments. Mary Adams also did some good clotting and Inez Thrasher at shortstop played like a veteran making every play count and hitting the ball for four safeties out of five times to bat. Helen Smith on second also covered herself with glory, playing her position well and missing no chances. Belleville girls all played well and deserved to win.

Game by innings:  
Frontenacs 115002-9  
Kiwanis 110002-9  
Twigg and Nicolson, bases, Kingston.  
Line-up:

OSHAWA FORCED  
TO TAKE SHORT  
END 2-0 SCOREInky' Woods Pitched Smelt-  
ers To Fine Victory Over  
Motors Team

## KINGSTON SATURDAY

Umpires Colling and Wood-  
ley of Belleville Will  
Handle First Game

By defeating Oshawa yesterday at Peterboro, Deloro Smelters earned the right to play off with Kingston and the winners of that series will meet the Belleville Nationals for the League Championship. Inky' Woods was the pitcher who deserves the credit for putting his team in the play-offs. He pitched Oshawa unless while his team mates clubbed out two runs, more than enough for victory. Matthews opposed him on the mound and although he pitched a good game, he was over-

The Girl and  
The Game  
By Anita

It's a terrible thing when grown-up men can get pleasure out of throwing abuse and tormenting girls, especially visitors, who are trying their best to play a decent ball-game. The writer must say that never before in any game of any sort, has such poor sportsmanship been shown, no matter how close the score nor how ardent the fans appeared.

Such a howling mob of maniacs as call themselves good sports down in Kingston is a disgrace to any community. A player on the Supremes, of Kingston, who is willing to back up her words in front of anybody, said when Kiwanis played their first game in Belleville and were beaten, that Mr. Shaw made the following statement: "We will let Belleville come to Kingston and play the other game for the gate receipts and then protest it and have two more games."

The Kingston paper has had its little say about the game, but we wonder if Mr. Shaw's manner of going about the playing of these games is an everyday occurrence down there. Because as far as we can see everybody in Kingston thinks this was perfectly all right.

The right score at the end of the game as far as Belleville is concerned was 13-9. The last of the seventh was played in darkness, almost and the Belleville pitcher could not see the ball after it left her hand. The plate was invisible from where she stood and we have to hand her credit for the way she stuck in the box when the crowd were yelling and hissing like maniacs.

shadowed by Woods. At times the Oshawa support was not as tight as it could have been, all of which helped make the final score in favour of Deloro. The game was played before one of the smallest crowds of the season. Deloro play Kingston in Kingston on Saturday of this week, the game commencing at three o'clock and being played in the Fair Grounds. Umpires Colling and Woodley have been appointed to handle this game. The return game will be played on Wednesday, September 4th, at Deloro and Umpires Kay and Lovar of Peterboro will look after the game. In case a third game is necessary it will be played off in Belleville on the following Saturday but if the winner is decided in two straight games, the Nationals will book up with that team away from home on Saturday, September the 7th.

directly at her. They did this all through the game, and what's more some of the Kiwanis fans resorted to throwing small stones at her and the catcher in a childish attempt to make them lose their nerve.

When the Kiwanis girls went to bat at the end of the seventh, the score stood 13-9 in favour of the Frontenacs who had played a splendid game throughout and were the best team on the field at all times. Ken Colling, of Belleville, who umpired at the plate, thought it too dark to play any further and consulted with Twigg and Nicolson, of Kingston, as to whether or not the game should be called. And here's something that you never hear of in hardball games, while the Kingston umpires agreed with Colling that it was too dark to play they told him not to call the game as the crowd would mob him.

When over three thousand people are spread all around you waiting to pounce on you if you do anything they don't like, it's no joke, and the Belleville umpire as well as the Kingston men although realizing that the game should be called were helpless.

A small majority of people in Kingston, at least, have some sense of fair play for when coach Woodley and his team off the field at the end of the seventh, more than one of them came over and congratulated Belleville on their sportsmanship in sticking in the game under such disagreeable conditions. Some of them were very indignant at they way the visitors had been treated and said that the Kiwanis management had acted in the same manner all year.

All we want to say is that if this is the way they play sport in Kingston, no decent team should have anything to do with them. The manager of the Frontenacs should have called his players off the field in the early stages of the game as it was no place for ladies to be. It is the popular supposition that men do not bait girls in sport but confine themselves to hard ball, etc., but Kingston last night proved that even girls are not free from their vulgar displays.

This Eastern Ontario Executive is a good joke. The three members are all Kingston people and Miss McCullough, the president, is the most rabid roofer on the Kingston bench. When the meeting was called to decide the protest they took things into their own hands and without anyone to present Belleville there, they calmly barred three of Belleville's players and ordered the game re-played. Of course we know now that they needed the gate receipts, but it didn't matter to them that the Frontenacs had to make two long trips in succession on low funds. As long as they got their money and crowd it was perfectly O.K.

The Kiwanis team will come to Belleville on Friday night and it is up to every fan in the city to turn out and give our girls the support they deserve. After undergoing such treatment as Kingston gave them it will be a treat for the girls to play with a home crowd supporting them. So everybody come and show Kingston that we too have fans who are interested in sport, but unlike them, are good sports.

## GEORGE YOUNG QUILTS BEFORE HALF WAY

### Fair Favored With Fine Weather, Hopes to Set High Record

#### SPECIAL ATTRACTIONS FOR LAST DAY OF FAIR MAKE IT THE BEST

##### CLOCKS SWING AN HOUR BACK SUNDAY

Midnight of August 31st, Zero Hour For Daylight Saving

Tomorrow at midnight the citizens of Belleville will put their clocks back one hour as the city swings into standard time again. September 1st was set by the city council as the day when the city would resume business on standard time.

The question of whether there will be daylight saving or not next summer will be put to the people at election time this winter. The general consensus of opinion in the city is against fall time, especially among employees of the Canadian National Railway, as they are standard time exclusively.

### SKULL CRUSHED BY FALLING TREE

#### Paul Krokosh, Russian, Killed At Long Lake, Near Gilmour

Within an hour of the time when his skull was crushed by a falling tree, Paul Krokosh, Russian labourer, died without regaining consciousness. The accident occurred about 8:30 yesterday morning at Long Lake, twelve miles from Gilmour, where the Timber Products Limited are taking out some of the timber.

Working with three companions felling a huge tree, Krokosh was working on trees in the vicinity. The victim had his back to the falling timber which caused his death, and did not realize his danger until he was struck down. The trunk of one of the heavy branches struck him on the back of the skull and he was knocked unconscious and died shortly afterwards.

#### No Relatives in Canada

The victim of the fatal accident was a native of Ukraine, but had been in Canada for sixteen years, and was employed on railway construction work. So far as is known he has no relatives in this country, but is supposed to have two children in Russia. He is said to be a widower.

Dr. Harper, of Madoc, was called but the man was dead before he could get to the scene. Dr. Harper, who is the coroner, has called an inquest for next Wednesday at Gunter post office, but there appears to be no blame attached to anyone and the verdict will probably be accidental death.

### CHILD SAID TO BE OF UNSOUND MIND

Believed to be of unsound mind, a nine year old Deseronto child was allowed his liberty yesterday afternoon, after pleading guilty before Magistrate Bedford to pouring gasoline over a cat and then setting fire to it. He will be sent away to a mental home as soon as admission can be secured.

### REFUSED NAMES WHEN ARRESTED

Two dangerous characters, who refused to give their names, were picked up in Trenton at 3:30 this morning by the Trenton police. When they were arrested, it was found that the men each had firearms in their possession. When questioned, they admitted that they had stolen the revolvers from a hotel in Wellington some time ago, as well as several other articles. They will be charged with having firearms in their possession illegally.

### POINCARÉ SUFFERS SLIGHT RELAPSE

Paris, Aug. 30.—Former Premier Poincaré has suffered a slight relapse of congestion of the lungs, forcing his doctors to postpone a second operation for the abdominal trouble which had been scheduled for late in August.

#### Attendance Records Sure to Be Broken—Estimated at Over 30,000

##### LIVE STOCK PARADE

#### Grandstand Performance Repeats Success—All Seats Sold Out

With splendid weather today the total attendance for the Belleville Exhibition should go well over the thirty thousand mark this year and set a record for future years to shoot at. Yesterday eight thousand people walked through the gates at the Fair, morning and evening. On Tuesday, the first day there was an attendance of five thousand and Wednesday an attendance of ten thousand five hundred. Today it is expected that Wednesday's mark will be exceeded.

Tuesday	5,000
Wednesday	10,500
Thursday	8,000

Total to date 23,500  
Only six thousand five hundred more need attend to reach the thirty thousand mark, and it is expected that a good many more than that will pass through the gates.

Officials stated that last night saw the biggest grandstand attendance so far this year. All tickets were sold out early.

#### Lights Out Tonight

Today is the last day and night of the 1929 Exhibition and some special attractions were added to the regular programme. This afternoon, in front of the grandstand, there was a grand parade of all livestock which had won prizes in the various classes.

After the wind up of the horseshoe pitching competitions, when active farmers plied off for singles and doubles championships. Two trotting races were run off.

### MOBS DISPERSED WITHOUT FIRING

#### Soldiers and Police Handle Jerusalem Rioters Gently As Possible

Jerusalem, Aug. 30.—Government communiques said the authorities had dispersed 1,500 Bedouins who had been massing quietly at Solih. Seventy Arabs were captured at Qalonia after repeated attacks on the Jewish colony at Motza.

The communiques added that the strictest moderation in the use of firearms had been urged upon all troops and police. Trans-Jordanians was said to be quiet.

#### Only Minor Outbreaks

Beirut, Syria, Aug. 30.—Although minor anti-Jewish incidents are reported at Hama and Deirah today Syria generally remained calm. Most of the bazaars and stores have been reopened here. Djebel Druze region also was reported quiet.

#### Town in Flames

Jerusalem, Aug. 30.—Jewish Telegraphic agency correspondent here today reported receipt of advices that the town of Safed, which was attacked by Arabs yesterday, was in flames. Five Jews were killed and twenty wounded in last night's fighting. Arabs set fire to the buildings but troops finally quelled the trouble.

#### CARRIED OUT DEAD

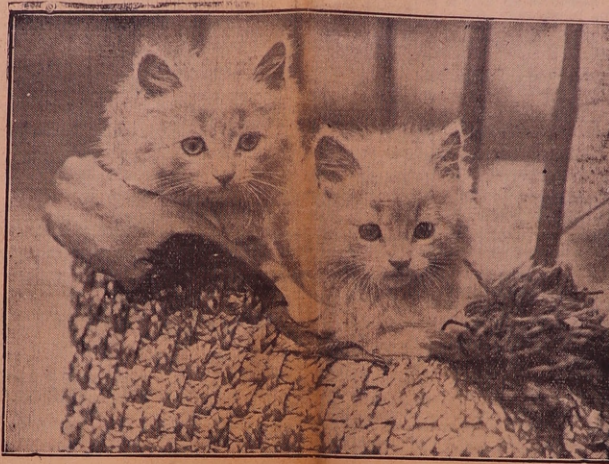

Capreol, Ont., Aug. 30.—Gregory Bertrand, Capreol merchant, was suffocated in his bedroom today when fire destroyed his house. Fire chief J. H. D. Blackwell rescued the man but he was dead when brought out.

### Reckless Driver to Spend a Week in Jail to Wait Victim's Recovery

Richard McCrodan, Sinclair St., was the victim of a peculiar accident last evening at seven o'clock at the main entrance to the Belleville Fair Grounds, in which he received a bad cut on the cheek and left temple, and one tooth knocked out, and various bruises.

Driving up to the gate of the Exhibition last night at a rather fast rate, Abraham Fishman, of Toronto, tossed his ticket out the window instead of handing it to the ticket taker, Mr. McCrodan. The ticket fell between a lug cage carrier and a suitcase on the runner.

#### ARISTOCRATIC VISITORS AT TORONTO EXHIBITION

Absorbing All the Admiration They Are Given

This picture shows two aristocrats of the feline tribe, caught by the cameraman displaying the keenest interest in his movements. The pair are at the Canadian National Exhibition cat shows, Toronto, where prize cats from all over the world are shown. At the moment the picture was taken the kittens had ensconced themselves in a shoe.

### CHEQUE ARTISTS WERE REMANDED

#### Trials Expected To Go On Next Thursday—Crown Investigates

Appearing in Trenton Police Court yesterday afternoon before Magistrate O'Rourke for their preliminary hearing, three of the four alleged cheque artists who have been working this district of which they are accused, and it is not yet known whether or not the cashiers and tellers of the banks swindled will be able to identify them. Failing to do so, the quartette will stand a good chance of gaining their liberty again, according to a prominent lawyer in this city. B. C. Donnan, Crown Attorney is prosecuting and Howard D. Graham of Trenton is acting for the accused.

### LADY MARY NOT FREE OF DANGER

Cleveland, Ohio, Aug. 30.—Lady Mary Heath, of Ireland, famous British aviatrix who was seriously injured yesterday when her plane crashed through a factory roof, was still in danger at the hospital here with the possibility of infection. She showed improvement immediately after a cranial operation was performed last night, and her chances for complete recovery were reported good, provided she escaped infection. No danger of paralysis or blindness was seen.

### QUEER VISITOR

#### Praying Mantles Eats Other Bugs, So Is a Friend to Farmers

A queer green bug, over an inch in length, was brought into this office this morning by a farmer living on the side concession of Thurlock. It appeared to be chiefly on grass. Upon getting in touch with the Entomological Laboratories, on Dundas street, the Intelligence ascertained that the insect was known as the Praying Mantle, and only two or three have been seen in this district.

The insect was introduced into north New York State last year by the authorities there and a few have wandered into Canada. It is beneficial, eating up insects injurious to grain.

### NOT WEAKENING YET

Chicago, Aug. 30.—"Chicago, we will" endurance plane continued today with no indications of either plane or pilot weakening.

### COMING EVENTS

Introducing the Ginger Snaps of Chicago at Riley's tonight. 4:30-10

### HOPE IT'S WARM!

#### Nelson Will Have to Install Good Heating Plants in Their Jails.

Nelson, B. C., Aug. 30.—Nelson's two jails, city and provincial, are crowded, and the police are attempting to cope with an overflow of nude and partly clothed Doukhobors members of the Sons of Freedom sect, who were rounded up yesterday by six provincial and six special police officials, following a nude parade on the provincial highway near South Slogan, thirteen miles from here.

### STAGED PARADE FOR THE POLICE

#### Unappreciative Officers Herded Nude Doukhobors In Cars to Jail

Nelson, B. C., Aug. 30.—When police invaded the Doukhobor camp at South Slogan to arrest four members who were reported to have dined early in the morning, more than 75 per cent, about 115 men and women, removed their clothing and chanted as they marched down the road.

They refused to don their clothes when given thirty minutes to do so by the police. Automobiles, trucks, and buses were sent to the scene and men, women and children were herded into them and taken to Nelson. Many still nude when brought here, refused to don clothes even in jail, although a truck load of clothing was dumped in the prison yards.

### 276 GREASED TO START BIG SWIM

#### One, Byron Summers, Disdains Protection—All Ready But Nervous

Toronto, Aug. 30.—(By Harold Rain, C. P. Staff Writer)—After occupying the limelight for a week, swimming and meteorological experts today surrendered the stage centre to 277 entrants, who will fight it out for the \$5,000 prize money in the Wrigley Canadian National Exhibition 15 mile swim.

The public felt relieved to know this morning as they flocked to the Exhibition lakefront by the thousands that they were finished reading prognostications of "Experts" on the probable weather and were about to witness at eleven o'clock what has become universally known as the World's longest distance swimming championship for professionals.

### BRITISH REPULSE ARABS

Jerusalem, Aug. 30.—Arabs again today attacked the Jewish colony in Teliphoth between Jerusalem and Bethlehem. Attack was repulsed by British troops.

### ROSS BOYS FIRST AND SECOND AT SEVEN MILES OF WRIGLEY'S SWIM

#### Catalina Channel Hero Quits Again Before Getting Half Way

#### VIERKOETTER FOURTH

#### German "Black Shark" Coming Steadily Up With Early Leaders

Toronto, Aug. 30.—After setting the pace for more than seven and a half miles, Clarence Ross, Brooklyny, surrendered first place in Wrigley Marathon to Norman Ross, Chicago, on the fifth lap.

Marvin Nelson, Fort Dodge, Iowa, was third, Ernest Vierkoetter, Fourth, Lyle Hubbard, Toledo, fifth, and Izador Sponder, Port Colborne, Ont., sixth.

Lake Front, Toronto, Aug. 30. (By Harold Rain, Canadian Press Staff Writer)—Three hundred yards in front of his nearest rival, Clarence A. Ross, Brooklyn, N.Y., was leading the pack at the start of the first lap of today's Wrigley Canadian National Exhibition 15 mile swim. In second place was Lyle Hubbard, Toledo, Ohio, who was ten yards ahead of Norman Ross, Chicago. Clarence Ross' time for the first lap was 31 minutes, 26 seconds. More than eight laps have to be traversed before 15 miles are completed.

Byron Summers, Los Angeles, was in fourth with others in this order: Harold Florence, New York, John A. McMahon, New London, Conn., Marvin Vierkoetter, Cologne, Germany, George Young, Toronto, Alfred Sully, Toronto, Edward Keating, New York, William J. Sadle, Jr., New York, David Billington, England, Frank E. Pritchard, Buffalo, Maurice Hume, Seattle and Mendel Burditt, Toronto.

### NATIONS SIGNED AT NOON TODAY

#### Complete Details of Evacuation and Reparations—Adjourn Tomorrow

The Hague, Aug. 30.—Letters and documents recording the agreement of France, Great Britain, Italy, Belgium, and Germany on the evacuation of the Rhineland and the final questions incident to the acceptance of the Young Reparations plan were signed at 12:15 p.m. today by representatives of those nations.

The protocol and other documents in which will be registered the results of the Hague conference of governments will be ready for approval this evening and the conference will adjourn nine o'clock tomorrow.

### Take Two Years to Drive our 3000 Reindeer to their New Artic Home

Ottawa, Aug. 30.—A. E. Forsyth, of the Northwest Territories Branch, Department of the Interior, will leave Vancouver this week for Nome, Alaska, in order to complete the arrangements for herding 3,000 head of reindeer from the western coast of Alaska to the eastern fringe of Mackenzie River delta.

At the last session of Parliament the sum of \$100,000 was voted for this purpose, and several weeks ago an initial payment of \$30,000 was paid to the Lomen Brothers Corporation of New York, from whom the animals are being bought. The contract calls for the delivery of the reindeer in good condition on the eastern side of the Mackenzie.

This means that the animals will have to be herded between 1,000 and 1,500 miles along the north coast of Alaska. It is expected that the task will take from eighteen months to two years.

### THE WEATHER

Light to moderate winds, fine today and Saturday, becoming warmer.

#### Catalina Channel Hero Quits Again Before Getting Half Way

#### VIERKOETTER FOURTH

#### German "Black Shark" Coming Steadily Up With Early Leaders

Toronto, Aug. 30.—After setting the pace for more than seven and a half miles, Clarence Ross, Brooklyn, N.Y., was leading the pack at the start of the first lap of today's Wrigley Canadian National Exhibition 15 mile swim. In second place was Lyle Hubbard, Toledo, Ohio, who was ten yards ahead of Norman Ross, Chicago. Clarence Ross' time for the first lap was 31 minutes, 26 seconds. More than eight laps have to be traversed before 15 miles are completed.

Byron Summers, Los Angeles, was in fourth with others in this order: Harold Florence, New York, John A. McMahon, New London, Conn., Marvin Vierkoetter, Cologne, Germany, George Young, Toronto, Alfred Sully, Toronto, Edward Keating, New York, William J. Sadle, Jr., New York, David Billington, England, Frank E. Pritchard, Buffalo, Maurice Hume, Seattle and Mendel Burditt, Toronto.

### WOMEN GOLFERS TOO GOOD FOR KINGSTON

#### Entertained Visitors From Limestone City and Won Match

Women golfers of the Bay of Quinte Country Club defended the Prestige of their club yesterday in a golf tournament and soundly trounced a visiting delegation of women from the Kingston Country Club. The final score was twenty-four to twelve.

The following is the Belleville team:—Miss G. Cooke, Mrs. O'Flynn, Miss Mary O'Leary, Mrs. Branscombe, Mrs. Porter, Mrs. Bishop, Miss Ann Schuster, Miss Helen Sutherland, Mrs. A. Gillan, Mrs. Williams, Mrs. Torrance and Miss L. Stafford.

Before the tournament the visitors were tendered a luncheon in the clubhouse and in the afternoon tea was served.

### FEARED DEATHS WILL TOTAL 74

#### Only 35 Out Of 100 Accounted For After Collision At Sea.

San Francisco, Aug. 30.—Revised figures on the number of passengers aboard the steamer "San Juan" showed that seventy four persons remained unaccounted for and may have perished. Steamship officers said there were 45 passengers aboard while the crew numbered 45.

San Francisco, Aug. 30.—Radio report at 8:45 a.m. said the steamer "Munam" had nine survivors of the sunken "San Juan" aboard with 27 being brought here by tanker "Dodd", making a total of 36 known survivors.

San Francisco, Aug. 30.—At least thirty of the one hundred persons who were cast into the sea by the sinking of the coastwise passenger ship "San Juan" thirty miles south of here at midnight, remained unaccounted for this morning. Quick work by the Standard Oil Tanker "Set Dodd" the other ship in the collision resulted in the picking up of a majority of passengers and crew.

### JUST QUIT ?

Lake Front, Toronto, Aug. 30.—George Young, Toronto, winner of the 1926 Catalina Channel swim, headed for the pier at the end of the third lap of today's 15 mile swim and was hailed from the water. Young was given first aid and appeared to be in a daze. He appeared to be swimming strongly when he struck out for the pier where he hung on until pulled out. He was then in fourth place.

Young had been in water two hours and fifty minutes. He was quite conscious when taken to the National Yacht Club hospital.

### FELL 27 FEET TO HARD PAVEMENT

Falling twenty-seven feet to the pavement from a scaffolding, Clarence Orser, a plumber, of Trenton, at two o'clock this afternoon missed death by a miracle. Several people saw him fall and he was rushed to Dr. Johnson's office where his injuries were attended to. He will be x-rayed to determine if his injuries are serious.

### HANGED FOR KILLING OF OLD SWEETHEART

Montreal, Aug. 30.—Ernest Messier, truck driver, was hanged this morning for the murder of his former sweetheart, Rose Anna Faquin, nee Paquette.

### TODAY'S THOUGHT

Patience is weakness, though we do not call it by that name. There is strength in the ability to wait for the fulfillment of the good for which we have worked.

### DEATH REFORMS THE "TORY" SENATE

The Senate has been reformed, not by Premier King but by the angel of death. The Tory majority has slipped away to the cemetery. If and when "persons" can be found to fill the five existing vacancies the standing in the Red Chamber will be Liberals 50, Conservatives 44 and Progressives 1. However, it is doubtful if this style of reform will be altogether to the liking of Premier King. As a politician his favorite sport is "passing the buck." Many a bill has gone through the House and on to the Senate in the full knowledge and belief that the latter would kill it. Then with virtue covering his face like a mask the Premier could say: "You see, I did what I could, but I had no control over the wicked Tory Senate."

Now Mr. King has control of the Senate and will have to take responsibility for what it does. He may not like it so much and will have to be more careful—there will be no place to "pass the buck."

### PLENTY OF PEACE TALK; LITTLE PEACE

Is this the era of peace or is it simply the open season for peace talk? True it is that the League of Nations is enjoying itself at Geneva and that all or nearly all the civilized and semi-civilized nations signed the Peace Pact. Also that Premier MacDonald is billed for Washington to talk disarmament with President Hoover. But elsewhere human nature seems much the same. Russia and China are snarling and snapping at each other in the Far East. The Arabs are busy killing Jews in the immediate vicinity of the tomb of the Prince of Peace. Also the Chinese feel that the Japs are trying to keep the kinks out of their language as they endeavour to apportion the cost of the last unpleasantness.

That there is no great war in sight, is the pleasing assurance that comes from the men who occupy the towers that overlook the world. But the bickering and backbitings show that the average individual has not changed. And after all nations are just aggregations of average individuals, ruled by exceptional people who hold their power by finding out what the ordinary people want and giving it to them.

### CANADIAN PORTS GETTING THE BUSINESS

Long continued agitation for the use of Canadian ports for export of Canadian grain is bringing results. Millions of bushels that were formerly handled through the ports of U.S. cities are now finding an outlet there. Vancouver and St. John and it is expected that Halifax will soon enter the lists, increased and improved facilities being provided in preparation.

Until a few years ago no grain of any consequence was shipped from Vancouver. For the year ending July 31, 1929, the total export through that port was 95,000,000 bushels, 15,000,000 more than the previous year. The order of the Dominion Railway Board in 1925 helped materially to bring about this condition. The railways were obliged to reduce rates on grain and flour to Pacific ports for export to the same rates, proportionate to distance, as the rates on grain and flour moved

eastward for export. St. John, N.B., has also experienced increased business during the past few years. The Harbor Commissioners of that city report a total of 22,622,964 bushels of grain handled in the first four months of 1929. This constituted an increase of 7,000,000 bushels over the corresponding period of the preceding year.

This year's decreased grain crop may cause a falling off in the business of all Canadian ports, but the general policy of using Canadian in preference to U.S. ports now apparently well established, is a big gain for the country as a whole and will aid materially in establishing a sound prosperity.

### CANADA NEEDS AN IMMIGRATION MINISTER

The number of young men from Britain who are seeking deportation shows that the various immigration experiments of the King Government have left the whole situation in a horrible muddle.

One hesitates to criticize Hon. Robert Forke. He is a decent old farmer whom the King Cabinet wanted because of his Progressive following. Hon. Robert did not want to be Minister of Immigration, but he did want to get into the Cabinet. He finally accepted the immigration portfolio as the only way of satisfying his ambition.

Knowing as little of immigration as immigration did of him, he accepted advice and assistance whenever it was offered. He had at one time or other the railways, the colonization associations, the Salvation Army and a flock of philanthropic individuals and societies all devising ways and means to fill the waste places of this our nation.

It has been the old story of "too many cooks." And it is a beautiful broth the outfit have been preparing. It leaves a terrible taste in the mouth. It sends back to the Old Land scores of the worst advertisements any new land ever issued.

The Senate yawns for Honest Robert. And in his place should come a man of affairs—a man who will put a stop to interested concerns, shipping to Canada people unsuited to its needs; a man who with strong Government backing should decide who and what Canada wants and put in force an immigration policy that will give Canada who and what she wants.

### THOMAS TALKS GOOD BUSINESS TO US

The statements of Rt. Hon. J. H. Thomas to the Trades and Labor Congress at Saint John, N.B., make it absolutely clear that he is not in Canada on a begging expedition. He is talking straight business, as British statesmen have a habit of doing. "I'd like to point out," he said, "that for every pound you spend with us you spend five pounds with other people. .... I don't ask you to buy anything from us you can produce yourselves, but I do plead for those who are in sore straits in the Old Country."

In other words, Mr. Thomas just wants to sell Canada goods that might just as well be bought in Britain as in the United States.

It may be that there is no sentiment in business. But when one country buys largely of Canadian products while another practically bars them from its markets, business, not sentiment, should prompt Canada to buy from the country that buys from her.

It is true, nevertheless, that the average individual is not influenced by the national or international aspect of things. He buys the thing that is advertised to fit his needs. To get more Canadian trade Britain must bring her products more prominently before the Canadian people. In other words, the British manufacturer must advertise more. And in doing that he should receive every encouragement and help from the Canadian Government, whose business it must be to do to others as others do to it.

### OTHER MEN'S THOUGHTS

"There is no young man nor grown man living who cannot do more than he thinks he can." Henry Ford.

"I dare say that in no country of the western world are men so isolated

from the world of women as in America today."—Mrs. Sinclair Lewis.

There is some agitation on how to take the "love" out of tennis. We can play polo.—Kitchener Record.

Lady Driver: Tell me, George, quick! Which is the right side of the road to keep on when you're running down a hill backward like this?—Punch.

A fourteen year old schoolboy has been expelled because his teachers claim that he is incapable of telling the truth. If this young man doesn't mend his ways he's likely end up in the weather bureau.—Life.

### PASSING YEARS

From The Intelligencer Of This Day 30 Years Ago

Mr. Edgar Green left today to attend the Toronto Fair.

Mrs. W. F. Jones is in Toronto visiting friends.

Messrs. R. Gernien and C. McKeown left today for Toronto.

Mr. R. Applebee left today for Belle Ewart, Ont. to visit his mother.

Mrs. Weese and Miss Kate Weese left today to visit friends in Toronto.

Mrs. Sils of Zion Hill in the guest of Mrs. Will Sils, Bleeker Ave.

Master Harry McCreary returned home after spending his holidays at Marsh Hill.

Messrs. Cecil Hopkins and J. P. Moutt of Chicago are visiting relatives in the city.

Mr. F. E. O'Flynn and family have returned to the city after spending some weeks at Glen Island.

Master Harry McCreary returned home yesterday from the country where he has been the guest of his married sister.

Mrs. George Ferris left this morning on the early train to visit her son Bert, who is at present residing in Toronto.

### HAVE YOU HEARD THESE?

The newlyweds were dining in the West End. In the middle of the meal a tall, slim young woman passed through the restaurant and smiled rather dangerously at Newswed.

"George!" gasped his wife, "who is that woman?" And she watched the retreating figure with a suspicious frown.

Her husband held up his hand in protest.

"Darling, for heaven's sake, don't ask me who she is," he replied. "I shall have trouble enough explaining to her who you are, as it is."

The earnest fishermen rowed energetically toward the far shore of the lake.

"Are the whiskey and cigars aboard?" asked one.

"Yes," replied the other.

"The lunch?"

"You bet."

"The hooks and lines?" Search revealed that the tackle had been left behind.

"Well," said the first speaker, after due reflection, "we'll just have to get along as best we can."

### Kismet

Now the end of all your troubles Is a lonely little mound, And you won't live any longer Just by keeping on the ground.

### MAKE RATE REDUCTION

Santiago, Chile. (By The Canadian Press).—From November 1st U.S. State Railways will make a general reduction of 10 per cent. in all rates. Lately the income of the State Railways has been growing steadily and the administration wishes to reduce its surplus as much as possible in order that the nation in general may be benefited. The present condition of the State Railways in Chile is regarded as a refutation of the argument that state enterprises cannot be efficient and self-supporting.

**BANDITS ROB SERVICE STATION**  
Toronto, August 30. Two armed men early yesterday held up Lawrence A. Sturbers, night manager of a local service station, and robbed the safe of approximately \$100 in cash. The men escaped in a waiting motor car.

### PEACE

There is calm, and quiet and forgetfulness  
Where the fire  
Are black against the evening sky;  
When the wind stirs  
The twilight, roaming by  
In search of sleep.  
The winds are cool as death,  
And dark and deep.  
Then, all time hesitates and stands.  
Peace comes again.  
Like shadows to a pool  
Lately disturbed. Soft hands  
Or darkness touch the brow  
And soothe the brain.  
I want to go there now.  
To rest, and dream again.

—BY EDWARD F. MILLER.  
(From The Chateleine)

## THAT BODY OF YOURS

By James W. Harmon, M.D.

### HOW CITY LIFE FATIGUES

A recent newspaper article told of a country couple who journeyed some days to reach a large city to spend some time sight seeing.

One day was all they could stand and they departed for home. The noise, the hurry, the confusion proved too fatiguing.

Now what about folks who live in the city all the time?

Well there is no question but that living beside noises with which you become familiar, gradually educates your nervous system to become used to these noises, and your brain and your body gradually loses much of its tenseness.

Although your brain and your body becomes accustomed to the many other little annoyances of the city, does this mean that there is not waste of energy in overcoming them?

No. You can't live in a city with its motor cars, buses, street cars, traffic rules and regulations, the noise of fire engines, sirens, the jostling of people, the crowding, the hurrying, without being "alert" all the time. This alertness is good for you if you are in good average health.

If, however, you are troubled in spirit, have aching eyes, teeth or feet, have a little more work to do than you feel capable of doing, perhaps

something or something near you that is a constant annoyance, and in addition have to endure noise, bustle and confusion, then indeed your strength and energy is being sapped.

What is needed? Something that will remove this tenseness, something that will relax you in mind.  
And his relaxation of mind can best be obtained by securing relaxation of body.  
How?

By doing the thing that you find relaxes you best.

Perhaps a picture show, a theatrical performance, a baseball game, an hour of devotion.

Best of all is to lie down and relax your body, breathing deeply as if exhausted.

This should induce sleep, and sleep is Nature's perfect method of securing relaxation.

## 25% REDUCTION On All USED CARS

August 28th, 29th, 30th and 31st

If you are in the market for a good used car, visit our Sales Rooms during Belleville Fair Week. Cars from \$25.00 and upwards. Time Payments if desired.

## Belleville Motors

211 PINNACLE ST.

"They told me the car would do 70. . . . I tried to prove it."

## 7 RULES for SAFETY

You must observe each one scrupulously all the time

- 1 Have your car in perfect mechanical shape—particularly Brakes, Steering Gear and Headlights.
- 2 Give your undivided attention to your driving. In passing traffic, be sure there is a place for you in the traffic line ahead.
- 3 When other motor vehicles try to pass you—let them pass.
- 4 In entering main streets or highways, or in approaching a railway crossing where a full view of the track is obscured—stop and look.
- 5 Don't "Loaf" where traffic is heavy.
- 6 Always signal before you slow down, stop, or change your course.
- 7 Never back up before ascertaining that the road behind is clear.

His was a lame though frank excuse. The traffic officer told how the car's speed had quickly mounted from 35 to 45 miles an hour, and then to 50 and on to 60.

But a curve was ahead. The motorist admitted that it only seemed a second till he was upon it.

The screech of brakes. A car hurtling over the ditch. A crash into a tree. Another highway accident. Wounded people. A joyous holiday spoiled because one man wanted to show off—to prove something.

It is utter recklessness to see how fast your car can go. You can fully realize its reserve power at moderate speeds or on hills.

Remember that the speed limit is 35 miles an hour in the open country, and twenty miles an hour in cities, towns and villages. Same, careful driving within these speeds is a matter of circumstances. Taking a curve at 35 miles an hour is reckless driving. Passing a crowd of children at 20 miles an hour may be reckless driving. The traffic patrols are alert to apprehend those who drive carelessly.

By avoiding excessive speeds on crowded highways this week-end, by having your car under control at all times, you will help prevent accidents. We urge your assistance, particularly during this week-end when traffic will be heavier.

## Highway Safety Committee

## THE BULLETIN BOARD

Mainly About People You Know

### NO BABY CLINIC

No well baby clinic was held in the council chambers at the city hall this afternoon, on account of the fair. The next clinic will be held on Friday afternoon next, at four o'clock.

### WILL VISIT MARMORA

Mr. W. C. Leybourne, R. O., optometrist, will be at the Royal Hotel, Marmora, all day Friday, August 30th, from 9 a. m. to 6 p. m. Consult him regarding all your optical troubles.

### NEW RADIOS

Today Carl Read and Company, Limited, announce a special radio offer which will interest all who are in the market for a first class radio set at a price and on terms which are exceptionally reasonable. The sets placed on sale are the New Model De Forest-Crosley "Remo" electric receivers priced at \$225.00—a new low price for a high grade cabinet set—and now of force on easy terms. A deposit of only \$15.00 will place one of these sets in your home and the balance may be paid in easy monthly installments.

This special introductory offer for the 1930 De Forest-Crosley models lasts but two weeks, and is an excellent chance to select an up-to-date radio on easy terms.

### EXPERT AT MARMORA

Mr. W. C. Leybourne, expert optometrist, will visit the Royal Hotel at Marmora tomorrow, August 30th. He will be there all day and will be glad to advise you regarding your optical troubles. See him about your eye troubles.

### TRENTON POLICE COURT

Fred and David Smith, of Trenton, were yesterday afternoon sentenced to not less than six months and not more than twelve months in the Ontario Reformatory at Guelph. The two men had been stealing lead ingots from the Trenton Copper Company for some time. Mrs. Fred Smith was sentenced by Magistrate O'Rourke yesterday to six months in Mercer Reformatory on a charge of vagrancy.

### DROPPED DEAD AT WORK

While working in the cotton mills at Trenton yesterday morning, Joseph Bedore, having only come to Trenton three weeks ago from Virginia, dropped dead in the factory. Dr. Farley Jr., who was called and Coroner D. Crowe decided that an inquest was unnecessary as it was discovered the man had died from a heart attack. Bedore was married to a woman in good health, before his death. Sergeant White, investigated for the Trenton police.

### DEATHS & FUNERALS

**MRS. ABIGAIL THOMPSON**  
The funeral of the late Mrs. Abigail Thompson took place yesterday afternoon from her late residence, Foxboro, the services were conducted by the Rev. I. Snell. Interment took place in Foxboro cemetery. The bearers were S. Siro, J. Elliott, I. Simmons, W. Clarke, G. Wickett, B. Rosebush.

## TODAY'S MARKET

EXCHANGE RATES  
New York, Aug. 30.—Foreign exchange easier, demand rates. Great Britain 48 1-4. Canadian dollar 7-10 discount.

WINNIPEG GRAINS  
Winnipeg, Aug. 30.—Wheat, Oct. 2-4 lower to unchanged at 152 3-4 to 153 1-2. Dec. 1 to 3-8 lower at 152 to 152 3-4. May, 5-8 lower to unchanged at 157 7-8 to 158 1-2. Oct. 1, 1-4 to 3-8 lower at 68 1-8 to 68. Dec. 1, 1-4 to 3-8 lower at 68 1-8 to 68. May, 3-8 to 1-4 lower at 71 to 71 1-8.

MARKET STRONG  
New York, Aug. 30.—Disastering the increase of \$32,000,000 federal reserve brokers loan to another gave another impressive demonstration of strength. Call money renewed unchanged again at nine percent, apparently sufficient supply available to hold the rate at that figure despite heavy month end and holiday demand for funds.

## ROSS BOYS FIRST

Continued from Page One

ly forward. He was containing his three hundred yard advantage over Hubbard, Norman Ross and Summers. At the end of the second lap Clarence Ross maintained three hundred yard lead. Lyle Hubbard, Toledo, second, Norman Ross, Chicago, third, 15 yards behind Hubbard. Byron Summers, Harold Florence and John McMahon were absent at the turn onto the third lap. They were previously in fourth, fifth and sixth positions.

### Cold Gets Many

Many had dropped out from cold and cramps and taken to National Yacht Club hospital or had gone to the dressing tent.

Marvin Nelson, Fort Dodge, Iowa, was in fourth position, George Young fifth, and Ernest Vierkoetter, Alfred Sully and Mendell Burdett following in order.

### At Five Mile Mark

Standing of the 15 mile championship swimming race at the end of five miles was:

- 1—Clarence Ross, Brooklyn, N.Y.
- 2—Lyle S. Hubbard, Toledo, Ohio.
- 3—Norman Ross, Chicago, Ill.
- 4—Marvin Nelson, Fort Dodge, Iowa.
- 5—George Young, Toronto, Ont.
- 6—Ernest Vierkoetter, Toronto, Ont.
- 7—Edward F. Keating, New York.
- 8—Mendell Burdett, Toronto, Ont.
- 9—William J. Sully Jr., New York.
- 10—Byron Summers, Los Angeles, left the water during the second lap while in fourth place.

### George Young Out

George Young headed for the pier and was pulled from the water at the end of the third lap. He was fourth when he quit.

Two namesakes, Clarence A. Ross, Brooklyn, and Norman Ross, Chicago, were in the lead at the commencement of the fourth lap, Norman Ross having forged ahead of Lyle S. Hubbard, Toledo, Ohio, who had fallen back to third place after being in second place for three laps.

George Young, winner of 1926 Catalina Channel Swim, was in fourth place when without warning he left the water and Ernest Vierkoetter, who had been trailing his Toronto rival by thirty yards went into fourth place.

Alfred Sully, Toronto was fifth.

Three minutes after the commencement of race, only one of 23 swimmers were still in the water struggling forward in quest of a share of the \$3,000 prize money.

Mrs. Armstrong was taken out at 2:30 this afternoon, leaving Ruth

## PERSONALS

VISITORS WHO COME AND GO.

Mr. and Mrs. Leonard Armstrong and little daughter, New York City, are spending their vacation with their grandmother, Mrs. Ellen Gunn, Trenton Road.

Mrs. Jos. Murray and children have returned to Edmonton, Alta., after spending the summer with their grandmother, Mrs. Ellen Gunn, Trenton Road.

Miss Hannah E. Golden and Miss Hannah M. Golden left this morning for Toronto to visit friends for two weeks.

Miss Margaret Smith, 66 Church St., who has been visiting in Campbellford for the past two weeks, returned home today accompanied by Mrs. Harry Hoard and little daughter Mary, who will visit Mrs. Harry Smith Church Street.

Mr. Maurice Waterbury, of this city, Mr. James Waterbury and Mrs. McKendry, of Deseronto, were guests of Mrs. Waterbury and son Fred, Sophiasburg, Monday.

Mrs. George Gibson, Belleville, also Mrs. Will Christie, Smiths Falls and two children, Jack and Jean, and Mrs. E. Galloway, of South Carolina, are the guests of the latter's sister, Mrs. James Bowers, Picton.

Miss Margaret Christie, has left the city for a week's vacation in Toronto. She will be a guest at the home of Mr. and Mrs. Morley Hart.

Mrs. J. M. Platt, of Picton, is spending a short time, a guest at the home of Dr. and Mrs. M. E. Branscombe.

Mrs. Annie Ingram, of Toronto and Miss Minnie Fleming, of Belleville are guests at the home of Mr. and Mrs. W. S. Martin, Stirling, for the week.

Mr. Arthur Mills accompanied by Frank and Margaret, left yesterday to visit relatives and friends in Detroit.

Miss Fossie Lawrence, of the Canadian Industrial Alcohol Co. staff has returned from Detroit, where she spent her vacation.

Mrs. F. Homan of Foxboro, is spending the week end with Mrs. Blakely, East Moira street.

Mrs. M. L. MacPherson and Miss Kathleen returned on Tuesday from a two months' visit to the Bermudas. While there they were the guests of Mr. and Mrs. G. F. Grills of Hamilton, Bermuda.

Mr. and Mrs. R. Patterson, of Niagara Falls, and little daughter, Ida Jean, were the guests of her mother and sister, Mrs. Martin Mills and Mrs. E. Ryan, Oroonook, this week. Mr. and Mrs. Duff, of Inverkip, are guests at the home of their daughter Mrs. Franklin Bennett, Point Anne.

Mrs. Albee, C. Hasenave, of Rochester, New York, is visiting at the home of her grandfather, Mrs. Mary A. Wilder, Green street.

Miss Elsie Smallhorn, Corbyville, has returned home after spending her vacation in Albion, N. Y.

Mr. and Mrs. J. S. Rolling, and Mrs. H. H. Huley Rollins, and Miss Gladys Rollins, of Ivanhoe, spent yesterday in the city.

Mrs. Harman is having a special Millinery showing of new Fall Models, and will remain open on Wednesday afternoon for the convenience of the visitors.

42 1/2 Bridge St. (upstairs)  
a27-3td Opposite Post Office.

## WEDDINGS

### REYNOLDS-SMITH

Christ Church yesterday afternoon was the scene of a quiet, pretty wedding, when Georgina Grace, daughter of Mr. and Mrs. George Henry Smith of Belleville, was united in marriage to Richard Reynolds, son of Mr. and Mrs. R. Reynolds, of Detroit, Michigan. Rev. A. L. Green officiated. The bride who was given in marriage by her father made a charming picture in her attractive gown. She was attended by Miss Doris Smith. Mr. Henry Smith acted as groomsman. The flower girls were little Lorna DeShane and Eileen Smith.

Mr. and Mrs. Reynolds left for the ceremony for a brief honeymoon and upon their return will reside in Detroit.

Towers the only woman in the swim. She was well back when she was forced to quit.

Clarence Led From Start  
Toronto, Aug. 30.—More than two hundred entrants took the plunge shortly after eleven o'clock this morning in the Wright Canadian National Exhibition fifteen mile world's championship swim.

When the first swimmer made the first turn at the end of about 1/2 mile Clarence Ross, Brooklyn, N.Y., was leading by more than fifty yards.

There was much confusion as the large cluster of rowboats attempted to follow their charges, and Ross had started the third leg before the second and third swimmers had been picked up.

## LIVERPOOL HOLDS ALL GRAIN RECORDS

Washington, Aug. 30.—Liverpool will be with a rival as the great grain discharging port in Europe when the Liverpool Grain Storage and Transportation Company completes the installation of its new elevators next month. Vice-Consul Cyril L. Thiel, at Liverpool, reported today to the Commerce Department.

Hamburg, Liverpool's greatest rival, recently discharged 3,000 tons of heavy grain in a day, while, to compete with this record, Liverpool discharging in an ordinary eight-hour working day, during May 4,000 tons, and in the case of one ship an additional 1,200 tons were discharged in four hours' overtime work.

## YORKSHIRE SETTLERS MAKE NO COMPLAINT

Montreal, Aug. 30.—There are no disgruntled immigrants among those who came out to Canada from Yorkshire under the auspices of the Yorkshire Voluntary Migration Committee, according to J. Henry Hough, Hon. Secretary of the committee, who with Richard Thorpe, Vice-Chairman of the committee, and A. E. Shields, a member of the committee, arrived here today for the purpose of continuing and completing their studies of Canada's opportunities for the Yorkshire immigrants. So far this year the visitors have devoted their attention to the Maritime Provinces and Quebec. Last year the Western Provinces and Ontario were covered.

## FLAMES THREATENING TO ENGULF VILLAGES

Winnipeg, Aug. 30.—Three Manitoba settlements are threatened with destruction by forest fires. Beattie, in the south, Burnside River in the north and the little mining town of Flin Flon in the far north, are in the wake of the flames, while rangers and villagers are staging a desperate attempt to curb the forward rush of various fires at each point.

## THIRTY FAMILIES IN RUINS OF BUILDING

Algiers, Algeria, Aug. 30.—Unknown number of persons were buried early today in the crash of an old building, some estimates placed the number of victims between fifty and seventy. Five persons were taken alive from the ruins of the building that shattered thirty families, two hours after the collapse.

## POLICE COURT

Ratsa Gavranitsky, Serbian, of Point Anne, charged with a serious offence against a married woman, was found not guilty this morning by Magistrate Mikel, there being insufficient evidence to convict him. Mrs. Melika Kenisevic was the woman in the case, but there were no witnesses to back up her statements. Harry Yanover acted as interpreter for the court.

John Richardson, 17, and a fifteen-year-old companion, both address of unknown, charged with the theft of two lap dogs and two pairs of eyeglasses, were remanded until tomorrow morning, owing to the length of the court. They gave a false address to the Riggs gawge after having some repair work

done on a car, and tendered payment by cheque. They were arrested by Sergeant Booth this morning.

# Just For The Feminine Reader

**FEET REQUIRE SPECIAL CARE IN SUMMER**  
Take care of your feet in the summer time, and be sure that your hosiery and shoes are comfortable. If you want comfort, do not wear shoes with high heels; do not have them too tight; have the inner border of the shoe straight and the fore part of the shoe sufficiently rounded not to crowd or cramp the toes. Exercise the feet by raising the body slowly on the toes for a dozen times when the shoes and stockings are off. It is very beneficial to exercise in this way if the arch is losing its strength.  
Bathe the feet every day during summer, dry them thoroughly and expose them to the air and sunshine for at least five or ten minutes daily. If the perspiration is acid and causes itching between the toes, dust with powder and borax acid every morning and this trouble will disappear.

## WHAT'S NEW (From A Woman's Standpoint)

Chenille hats are to be an autumn vogue.  
Pale and powdery blue and primrose yellow led all other colors at the first day at Cowes.  
Yellow still persists in Paris for autumn in the new evening frocks in flat crepe, white, brown and yellow take first honors for sports attire.  
Dame Nellie Melba and Lady Bridge have arrived in Salaburg for the Salaburg Music Festival.  
During Cowes week a number of women were elbow-length gloves, in beige or white, while colored bags were to the fore—especially beige and scarlet—large ones, and big raffia pouches to

## Was In Bed All Summer

"I have to work in the store and do my own housework, too, and I got nervous and run-down and was in bed nearly all summer. The least noise would make me nervous. I was told to take Lydia E. Pinkham's Vegetable Compound and I have taken seven bottles. It has made me stronger and put more color into my face. I am looking after my store and housework and my four children and I am getting along nicely now."  
—Mrs. J. Main, R. R. No. 5, Barton St. East, Hamilton, Ontario, Canada.

## Miss Hard-Boiled BY JANE DIXON

No sooner were they settled in one of these jazz-mad places, it seemed to happen. Do you know who that blinbo is? The one Bertie opened fire on? Nobody but the Prince de Rochelle. The biggest gun in Paris.  
"I don't care if he is the President of France," said Raquel. "He deserved it."  
"And that, dame with him. She was probably the Duchess of Kakiki. You gave her rough treatment, dearie."  
"I should have said, 'my dear,'"  
"Listen who says so. 'The little old cold cucumber' broadcasting. Maybe you're right, but I haven't heard the half of it. It doesn't get into the papers. It's just in the papers."  
"It can't be helped," Raquel's voice was matter of fact.  
"Gosh," said Greta, shaking a puzzled head. "I don't get you, dearie. One'd think you'd just won a hand at bridge instead of a battle in Montmartre."  
"What can no longer be cured, must be endured," said Raquel. "The thing has been done. We must make the best of it. It is useless to waste strength on vain regret. I wish Bertie would come. It must be nearly morning."

### CHAPTER 48

"Tony" Johnson's night-club was no different from the others Raquel had visited in Montmartre—except that it was more so. Things seemed to be at a faster tempo. It was more feverish. The small dance floor had been encroached on by the service department until only a tiny square remained free of tables. In this square men and women from all strata of life in every clime danced without seeming to move out of their tracks.  
Darting in and out among them was "Tony" herself, her back and shoulders a gleaming sheen of copper under the dim lights. Her bodice, if so slight an attempt at the conventions could be dignified with the term, was of gold sequins. Her full tulle skirt of a ballet-dancer was the exact bronze shade of her skin. Her black hair was parted, plastered to her head, and brought out over her cheeks in long "hooks" after the style of a bold Carmen.  
"In a minute, she'll hop up on a chandelier and begin tossing coconuts," Greta predicted.  
Another table was picked out from somewhere and placed on the already cramped floor. Bertie and Raquel were known in Tony's.  
They tried to dance. It was impossible. Raquel gave it up. The close pressure of other dancers choked her. Greedy eyes. Stale tobacco. Strong drink.  
They watched the fun. Now "Tony" was darting among the tables, greeting patrons, passing out handfuls of small spheres that looked like snowballs from great baskets. A waiter followed with miniature papier mache tennis rackets.  
Guests began battling the "snowballs" back and forth in the crowd.  
Soon Raquel noticed that a man at a table directly to her left had singled her out as a mark and was hitting her with unfailing regularity. She saw, too, that the woman with him was no admirer of his skill. The woman meant Bertie. Toward her, falling, she showed pique. Then temper. He ignored both.  
The man, Raquel could tell, was French. So was the woman. She frowned, turned her shoulder with a gesture of displeasure. The unerring aim was now directed at the point of her shoulder.  
She hoped Bertie and Raquel would not notice the man's persistence, and "snowballs" were pelted at a steady rate. She turned, gave the man the full benefit of her stormy black eyes. He smiled at her, twirled the ends of his tiny black mustache.  
"Le Nez," he said in a voice that could be heard plainly by the others at her table.  
"He called you 'The Balck Lily'—beautiful," Greta giggled. "There's a name for you!"  
The next moment her amusement changed to concern. Bertie had risen, thrown back his chair with a force that sent it hurtling across the dance floor, temporarily deserted. For a moment Bertie looked above the man with the black mustache, whose smirk was frozen on his face. Then there was a sharp report as Bertie's open hand slapped the other full in the face.  
Raquel saw the woman reach for her glass, half-filled with wine. She was going to hurl the glass at Bertie. Raquel leaped forward. Her hand darted for the woman's wrist. She could feel the soft flesh where her nails dug into it. A cry of pain. The woman dropped the glass. She heard Greta saying close to her ear, "This way." Greta held her hand, was dragging her through the clamor that followed the first rush following the blow.  
The woman, a taxi-cab in a dark street, with Greta. The taxi was standing still.  
"Well wait here," Greta said.  
"What for?" Raquel's voice was low, even.  
"For Bertie and Raquel. You didn't think we were going to leave them flat in that howling mob, did you?"  
"Will anything happen to them?" Coolly.

## NEW EDUCATION METHOD PLANNED

Dr. Little Suggests Curriculum Embracing Problems Of Childhood

A new plan of education for women adapted to their peculiar needs and powers is proposed by Doctor Clarence Cook Little, former president of the University of Michigan, in an article in the August Scribner's Magazine.  
Doctor Little cites evidence to show that women students are more conservative and more conscientious than men students.  
"If we tentatively agree that the woman student is more conservative and more conscientious than the male student we may then consider what constructive steps must be attempted," he says. "Obviously it will make a great deal of difference whether we begin to build first on her conservatism or on her conscientiousness. It would seem from every angle that the latter was the more proper qualification for major emphasis."  
"The curriculum for all undergraduate women students should in my opinion be built around the recognition of woman's supremacy in the field of intimate human relations."  
"The field itself has, as I have said, been vastly increased by modern scientific knowledge. It provides immeasurable outlet and opportunity for women to expand their influence on civilization beyond their widest horizons."  
"The preference of women in choosing elective subjects already shows that they are appealed to strongly by intangible values and ideals. In a large number of cases they focus about courses in music and the fine arts as opposed to chemistry and physics. If male scientists are at present more interested in and better fitted for collecting research information on the nature of matter, women are best fitted to work out the human relationships and the contact between childhood and its environment."  
"To devise a curriculum which would familiarize women students with our present knowledge of childhood and its problems and of its development and adjustment to growth, and education could do more to stabilize our civilization than would, in my opinion, any other reform in education."  
"Man will continue to play with the toys he has made—cities, bridges, railroads, armies, and banks—but woman may, I believe,—and must—be more than she is at present to adopt toward man and his fables the quiet, strong consolidating point of view that has subconsciously been her heritage through the ages. In a program planned solely for her best development—as a woman—would greatly aid."

"She is her role from being an inferior bit of work that it is becoming increasingly clear that unless she accepts her obligation to acquire leadership in the broad field of human relations, there are many signs that we shall go the way of all other civilizations that have failed to utilize her to her real capacity and in her full strength."

## THE WAY TO A MAN'S HEART

**Fruit Rolls**  
2 cups flour.  
4 tsp. baking powder.  
1-2 tsp. salt.  
2 tbsp. sugar.  
1-4 cup butter or other fat.  
2-3 cup milk.  
1-3 cup raisins cut in small pieces.  
1-2 tsp. nutmeg or cinnamon.  
Sift the flour, baking powder, salt and sugar together. Work in the butter and add the milk all at once. Stir quickly together, but not more than is necessary to make the ingredients hold together. Turn out on a flat board, sprinkle with flour and roll out to 1-4 inch in thickness. Brush with melted butter, sprinkle with raisins, citron, nutmeg and sugar. Roll up like a jelly roll. Cut slices 3-4 inch in thickness, place in oiled pan and bake fifteen minutes in a hot oven. Serves four.  
**Lamb Chuck and Cabbage**  
Corned beef and cabbage is a usual dish, but lamb chuck with cabbage is decidedly original. Such a departure from the usual demands some answers regarding the how and why. The how is simple enough. Simply cook the cabbage and lamb in slightly salted water just below the boiling point until both are done. The why of the matter is that some people like lamb and cabbage prepared this way. The lamb is said to possess an unusually attractive flavor and the cabbage loses

Pure Linen Table Cloths with borders in gold and green. Large size 52 x 70. Special at \$1.50.

## SINCLAIR'S

nothing, but gains something.  
Lamb chucks are not considered ordinary food any more, judging from their position in the lamb price scale, compared with what they once sold for. People are coming to realize more and more that one of the most difficult things in the meat line to use with satisfaction is good or choice grade lamb, no matter what part of the carcass the meat comes from. They fully realize in many specific cases that lamb chops provide nice, tender, flavorful roasts, stews and boiling pieces. They also know that while lamb chuck sells well, it is never as high in price as chops or roasts.  
The particular family that inspired this discussion believes that plenty of butter should be used with the cabbage when lamb and cabbage are cooked together by the most cooking process. Since butter is a pleasant seasoning to use and possesses high caloric value, there is no gain in saying the fact that it adds to the satisfaction to be expected from the combination.  
FEM a16, 29

# Special Introductory Terms for Two Weeks Only

THROUGH a special arrangement with De Forest Crosley, we are offering for two weeks only, the famous 1930 Renown model at the remarkable terms of only \$15 down and thirteen months to pay the balance.

### A Real Chance

to Secure the Latest and Finest in Radio

You can enjoy this newest and finest of radios right now—without waiting until the season is half over to "save up".

### De Forest Crosley's Finest

Leading the outstanding De Forest Crosley line, the Renown offers radio quality which challenges comparison with anything you can hear in musical reproduction. Back of this challenge stands the Largest Radio Manufacturer in the British Empire, and the resources of 5,000 radio engineers. But you will fully appreciate this when you hear the De Forest Crosley Renown. Let us give you a demonstration in your home and full details of this generous offer. But don't delay until it is too late! Come in to-morrow!

The DE FOREST CROSLEY  
RENOWN

\$225<sup>00</sup> COMPLETE

AC receiver utilizing radio's finest standard circuit—the 8-tube Hazeltine Neutrodyne; push-pull audio, using two UX 171A tubes; the remarkable, new Inductor Dynamic Speaker, which gives exceptional volume and rich, natural tone; single control; phonograph jack; illuminated dial; superb walnut cabinet in two-tone black and grey, with bird's eye maple inlays.

ONLY

\$15 Down

Thirteen Months to Pay Balance

### Don't Wait Too Long To Trade in That Old Radio!

These sound reasons say "Trade in that old radio now!"—

1. Actual Money Saving through the better allowance for your old set now than you will get later. Every day's delay makes your old set harder to dispose of. We can handle it NOW.
2. Real radio enjoyment now—and for years to come.
3. You get the "newest" model when it's new—not after it's been on the market for six months—and the price is just the same.
4. If you buy NOW, your set is a "new model" for 12 months and there's no depreciation by "new model" release during that time.

DELAYING THAT TRADE-IN WILL COST  
YOU MONEY—DO IT NOW!

Mr. Bill Jose spent Sunday at Mr. Gordon Boyle's.

Mrs. R. McCurdy spent Saturday evening at Mrs. E. Humphrey's.

Mr. Roy Dempsey of Toronto is visiting at Mr. M. Carrington's.

### HENRY FORD ASKED TO SOLVE PROBLEMS

New York, N.Y., Aug. — Henry Ford has been asked by Borough President Harvey of Queens to help solve the problem of disposing of abandoned cars.

"We have yet to find an effective method to combat this Frankenstein monster," Mr. Harvey wrote.

"You have personal knowledge of the conditions caused in most of the nation's towns and cities by the profuse discarding of old cars. I think your company should bear a large part of the responsibility for the elimination of the abandoned car problem."

## GALSWORTHY HIT LIKED BY CRITIC

Speaks Highly of "The Skin Game"; Are Some Defects

London, Eng.—(By The Canadian Press).—"The long deep silences of the audience, unbroken by any flutter of inattention, bear witness to the play's solidity and to the brilliance of its craftsmanship," says the Times' critic of the recent presentation of J. M. Galsworthy's play, "The Skin Game," at Wyndham's Theatre. "When the curtain falls on an act," the Times continues, "your first thought is: 'Thank heaven for a man who can still tell a story, and can tell it in such a way that it holds the stage by the integrity of its main narrative being under no necessity to throw out scraps.' This is a necessity to throw out scraps, and a battle between an old family and a new, between the Hillier and the Hornblowers, this poisoned feud between tradition and usurpation that brings beyond any man's intention, growing with its uncontrollable consequences of suffering and dishonor is one of Mr. Galsworthy's most successful treatments of a theme very near his heart.

"Almost every phase of the battle is good to watch. The scene in which the disputed land is sold by auction is admirable; 'Theatre' Edward Irwin playing his part so well that the stalls cease to be stalls and become a crowd, and auction-room, spellbound by the mad bidding of the opposed factions. Young Mrs. Hornblower, whose happiness is a pawn in the game, fighting to preserve the secret of her dead life is something more than a prop to melodrama; Miss Joyce Kennedy communicates her suffering, reveals her character, draws imaginative sympathy towards her. The closing encounter between Hornblower and Mrs. Hillier when she, being merciful, has him at her mercy, is a high climax, but a natural one; Mr. Gwynn's wrath in defeat and Miss Terry-Lewis's scornful triumph are in the nature of the man and the woman whose portraits they have drawn. Finally, the humiliation of Hillier in the moment of his victory, has a genuinely tragic quality for which Mr. Hannen's restraint and tenderness and dignity have prepared the way.

"So, at the end of each act, we are grateful for that strangely rare thing in the theatre—a straight and full story told with austerity and judgment. "But, when all is done, the old ungracious criticism reasserts itself. Has

not Mr. Galsworthy laid it on a little thick? Effect springs from cause; there are no gaps in the play; the logical sequence is complete. And yet—is it possible to accept, with complete acceptance, quite so neat an arrangement of disaster? And is it possible to be quite comfortable—Miss Jean Shepard evidently was not—in the restlessness, the slangy asperity, the determination to be modern at all costs of J. M. Hillier. Why did she not learn a department from her mother? (It would be so much easier to be interested in her character if she would more often be still, if she would forget her and forget our little excursions in melodrama into which Charles Hornblower leads him. The play stands or falls by its central content, and the content never fails to command the playhouse."

## U S STANDING ARMY STARTS FOR HOME

Washington, D. C. — For the first time in more than two years, half the enlisted strength of the marine corps is in the continental limits of the United States or homeward bound from duty in foreign lands.

Disturbances in China, Nicaragua and other lands have kept more than two-thirds of the enlisted personnel of 11,000 in distant lands for a long time to fight bandits and otherwise protect American interests. Quieter conditions have come to prevail, however, and the forces abroad have been gradually reduced in recent months. Has

## A PROPOSED BYLAW

A by-law for closing the road leading from the south side of Oak Lake eastward across Lot No. 26, Con. 8, Sidney Township to the Foxboro-Stirling Highway.

whereas owing to the depth of the cut at the place where this road joins the Provincial Highway obstructing the view in either direction and whereas the Sidney Township Council deem the approach to the Highway at this point to be a menace to the safety of the travelling public.

Therefore be it enacted and it is hereby enacted by the Municipal Council of the Corporation of the Township of Sidney that the said road be and is hereby closed and another road in a more suitable location be opened as a means of safeguarding the lives and property of those using these Highways it being understood that the old road reverts to the adjacent owners.

W. H. NOBES, Clerk.

## VOTER'S LIST NOTICE

Clerks notice of First Posting of Voters' Lists 1929 Municipality of Sidney, County of Hastings.

Notice is hereby given that I have complied with section 9 of the Voter's Lists Act and that I have posted up at my office at Wallbridge on the 26th day of August, 1929, the list of all persons entitled to vote in the said Municipality for members of parliament or as the case may be at Municipal elections, and that such list remains there for inspection. And I hereby call upon all voters to take immediate proceedings to have any errors or omissions corrected according to law the last day for appeal being the 16th day of Sept., 1929.

Dated this 28 day of August, 1929. W. H. NOBES, Clerk of Sidney.

Driving a locust from automobile caused car to crash into pole killing Mrs. C. Macintosh at Toboyhanna, Pa.

SPORTING  
SECTIONKIWANIS SQUARE  
WILL MAKE THEIR  
2ND APPEARANCE

Frontenacs Will Use Same  
Line-Up As in Last  
Kingston Game

We have with us today the Kiwanis Square girls of Kingston who will play the Frontenacs in the second of the postponed Eastern Ontario League games. Every fan who wishes to see a good game of softball should be present. A real game is promised.

We hope it is nothing like the exhibition put up in Kingston although it would do the precious Easterners a lot of good to receive a dose of their own medicine. It would be interesting to note how the Kiwanis endowments would perform with two or three thousand fans continually howling at them and their pitcher, and then if a few small stones were added, the performance at Kingston would be perfectly copied.

Belleville fans would be fully justified in doing the above, but the city possesses good sporting instincts, and visitors to Belleville are always treated courteously. Cheering for your side is all well and good and we hope that Belleville fans will give the Frontenacs all the support they can. They certainly deserve it after the treatment they have come through, and it is to be hoped that the umpires will be allowed to exercise their authority when they think it advisable.

It is not known yet who will do the pitching tonight but likely Bessie Doolittle will get the call. Bessie endowments herself splendidly on Wednesday night, considering the circumstances, and she will do even better on familiar grounds with sympathetic rooters.

Glady Knott will be on the receiving end of the three infielders who were barred by the Kingston executive will be again placed by Helen Smith, Bessie Doolittle and Pearl Tuttle.

In using Helen Smith on second base the Frontenacs management have lost nothing by the change. This girl, although it is her first year in city League softball, turned in a lovely game in Kingston on Wednesday, with practically no errors to mar her record.

Inez Tharsher is deserving of credit as she fills the position of shortstop in

The Girl and  
The Game  
By Anita

Tonight on the Amouries Lawn, the Kiwanis Square girls of Kingston will play the Frontenacs in the second of the postponed Eastern Ontario League games. Every fan who wishes to see a good game of softball should be present. A real game is promised.

We hope it is nothing like the exhibition put up in Kingston although it would do the precious Easterners a lot of good to receive a dose of their own medicine. It would be interesting to note how the Kiwanis endowments would perform with two or three thousand fans continually howling at them and their pitcher, and then if a few small stones were added, the performance at Kingston would be perfectly copied.

Belleville fans would be fully justified in doing the above, but the city possesses good sporting instincts, and visitors to Belleville are always treated courteously. Cheering for your side is all well and good and we hope that Belleville fans will give the Frontenacs all the support they can. SCHNEIDER CUP  
RACE AT COWES

Seaplanes of Four Nations  
Will Compete in Famous  
Flying Event

Cowes, Isle of Wight, Aug. — Seaplanes of four nations with the speed of bullets built into them, will hurdle through the air here September 6 and 7 in an international assault on existing speed records.

To the swiftest will go the Schneider trophy for seaplane speed, first offered by the French sportsman and pioneer in aviation, Jacques Schneider. It is to become the permanent property of the nation which wins it three times in succession. So far no nation has been able to win it more than twice.

Twice in 1920 and 1921, Italy captured the trophy, only to lose it the following year to Great Britain. Twice in 1923 and 1925 it went to the United States. In 1927 when the race was held in Venice, Flight Lieutenant Webster won it for Great Britain with a speed of 281.49 miles an hour.

This year speeds will over 300 miles an hour are expected. The speed of Schneider trophy winners has increased remarkably since the first race in 1913, when Prevost won for France with an average of 44.7 miles an hour.

The course to be flown this year is a quadrilateral, extending roughly from Ryde, on this island to a point off Seaview to Southsea to Cowes and back to Ryde. Altogether the contestants will cover about 220 miles in their seven laps around the 31.05 mile course.

Half a million spectators thronged the Lido when the race was in Venice. Twice as many are expected to see it here. Already all hotel accommodations in Cowes have been reserved.

One ocean liner has been reserved for the Royal Art Club in whose hands are the arrangements for the contest, and several other liners will be turned into grandstands for the event.

France, Italy and Great Britain will have full quotas of three planes each in the race. The United States has only one plane to enter. It will be piloted by Lieut. Al. Williams of the navy.

perfect style. Inez has improved wonderfully this last year and she is easily the best shortstop in the city League and for that matter in the Eastern Ontario League.

The game will be at 6.30 and not 7 o'clock as heretofore. The earlier time is necessary as the days are getting shorter and darkness stops the game before the nine innings are concluded. So remember to come early if you want a good place and don't forget to contribute as much as you can when the hat is passed around.

HORSE RACES AT  
FAIR YESTERDAY

Fast Times Made, With  
Grand Stand Comfortably Filled

Yesterday afternoon's programme at the Belleville Fair was one of the best so far presented, the racing especially being well worth seeing. As usual, a large turnout saw the special acts of vaudeville, judging of horses, and races the Grand Stand being comfortably filled all afternoon.

Hughie Grattan, one of the fastest horses in Eastern Ontario today, showed the way home to all the others in the 2.18 class, the winning three straight heats. Without a doubt this horse will make a fine showing at the Toronto Exhibition where he will be racing next week. In the 2.30 class, Jean Gannon was the best, winning

three heats to take the first prize money. This was more of a race than the 2.18 class, for all the horses were quite evenly matched, and every heat, though won by Jean Gannon, was a race all the way through. Fast times were made in each event.

Between races judging of horses took place, and the animals on exhibition were well worth looking over. Heavy draught stallions and brood mares seemed to predominate, but the lighter horses were there in abundance as well. The prize list appears elsewhere.

2.30 Class—Purse \$300

PICKEREL CULTURE  
IN LAKE MANITOBA

Ottawa, Ont.—For several years past the Ottawa Fish Culture Branch carried on investigations to ascertain as to whether or not a sufficient supply of pickerel eggs were available in Lake Winnipeg to warrant the construction of a hatchery for the artificial propagation of this species of fish for the purpose of rehabilitating and extending the fishery. The investigations were successful, and the

Federal Department constructed a modern hatchery at the mouth of Sault Lake, and it was ready for operations in the spring of the present year. Approximately 84,000,000 vigorous pickerel fry were hatched and planted on the natural spawning areas. In addition about 75,000,000 fertilized eggs were deposited.

Struck by interurban car while riding in truck Mrs. A. O'Malley killed at Cleveland, Ohio.

Excellent for dining room, living room, and bed rooms. About 20" wide. Would ordinarily sell for about 29c yard. Special Feature price, Saturday—Yard **21c** Third Floor.

## DOKEYS NET IN WESTERN CENTRE

### Dramatic Order of Knights Of Khorassan Held Convention

Winnipeg, Man. (By Canadian Press)—Winnipeg, in welcoming the 20,000 Dokeys of the United States and Canada for their great convention here did not forget the women accompanying husbands, brothers and fathers. These are the Nomads of Arudaka, the name by which the ladies' auxiliary of the Dramatic Order of Knights of Khorassan are known. A Santha or Chapter, of the Nomads of Arudaka was formed during the convention.

It was in 1915 that these women were successful in establishing this sisterhood, working in complementary fashion with the aims and ideals of the D. O. K. K., a branch of the Knights of Pythias.

The titles used by the Nomads are all Arabic names, and the ritual is that of Nala, Rajah of Nishada, and his loyal wife, Dama yanti. The beauty of this love story is the wife's wonderful loyalty to her husband, who has been reduced to almost poverty, because of his great extravagances. Thus, the keynote derived by the Nomads is that of the loyalty of wife to husband, of sister to brother, and of member to member. Loyalty is the keynote motto of this order.

The sisters, wives, or daughters of Dokeys in good standing are eligible for membership in the Nomads, and they all have an equal voice in their own Santha.

The honor of past regent is conferred on any Nomad who serves to the end of an official term as either Rani or Rajah; upon four members of a new Santha, who are elected and receive such honor, and on any member who has served as scribe or treasurer.

In order to establish a subordinate Santha, there must be at least 50 applicants, of which at least 30 are women. The official costumes for the dramatic portion of the initiation ceremony are furnished by the Imperial Santha.

Mrs. Minnie Perkins, of Boston, Mass., succeeded to highest honors this year, being elected Maharani. An Indian Princess of the Sioux accompanied the party, "Princess Moonflower" niece of Chief Kettle of Devils. She was the mascot of the Denver cowboys, and delighted to hear that her birthday was to be celebrated, they arranged a party. She announced that she was 24 and did not mind at all telling her age. A gifted soprano, she hopes to sing in opera some day.

COMPANIES JOIN FORCES  
London, Ont., August 30.—Announcement is made that McConnell and Ferguson, Ltd., and Federal Advertising Agency, Limited, have joined.

#### KEATING TAKES CASH AND GLORY IN GREAT FIFTEEN MILE CRAWL

PRESIDENT C. D. A.

Dr. Fred J. Conboy

President of the Canadian Dental Association, who will address the first annual convention of the Optometrical Association of Ontario at Toronto, September 6.

#### SHOWMAN GIVEN MONTH IN JAIL

Companion Escaped and Got Away With Troupe Last Night

Wilfred Ripley, a member of the Motor Drome Show at the Belleville Fair, was arrested last night at the Fair Grounds and charged with indecent assault on a young girl under the age of sixteen years. He pleaded guilty to the charge this morning and was given one month in jail. A companion, who was also said to have committed a like offence on the girls companion escaped, and although police officers searched for most of the night, they were unable to locate him. Noticing a girl walking along the midway last evening crying, Sergeant of Detectives Truhalch stopped her and asked her what the trouble was. Although reluctant at first, the girl finally told the officer her story and along with Sergeant Booth, Sergeant Truhalch Ripley as one of the men involved in the case.

Ripley readily pleaded guilty to the charge this morning, but refused to let anything about the other man. The two officers searched all over the grounds last night and also watched all trains which left the city, but no trace of the other man could be found. He having likely been "tipped off" by the members of the show. The two girls concerned were only fourteen years of age and belong to respectable Belleville families.

#### RT. HON. THOMAS SEEKING FACTS

Minister of Unemployment Spends Morning Discussing Trade Problems

Toronto, Aug. 31.—Rt. Hon. J. H. Thomas, Lord Privy Seal of Great Britain, spent the whole of this morning in his apartments at the Royal York Hotel in conference with a number of personal friends came in, but the most of Mr. Thomas' time was occupied in discussions, seeking information with regard to the labor conditions in Toronto and Canada, what were the prospects for increasing the purchasing of British manufacturers without disturbing the stability of internal trade here, and a frank talk about unemployment arising out of unwise immigration. This afternoon the conferences will continue. Mr. Thomas has an appointment with Mrs. Bradshaw, president of the Massey-Harris Co. and of the Canadian National Exhibition. Mr. Bradshaw is finding time in his busy day to turn his attention from exhibition matters for a while. Mr. Thomas expects also to meet other industrial leaders.

**NO PAPER MONDAY**  
As next Monday, September 2nd, is Labor Day and a Dominion Holiday, there will be no issue of the Intelligencer.

Flash of Bad Feeling Shown At the End of Big Race

#### VIERKOETTER HAPPY

No Sympathy Expressed For Young, Former Idol, In Defeat

Edward Keating, of New York, crawled over the finish line the winner of the great Wrigley Marathon swim, with Vierkoetter, the "back shark" about 250 yards behind and steadily gaining. Third came Norman Ross, badly tired but game, and then Isador Spencer, the 15 year old lad from Port Colborne, who received a most enthusiastic acclamation as winner. He appeared to be dejected, the Toronto motorman, was fifth, and Myron Cox, of California, was the sixth man to share in the prize money.

Keating gets \$25,000 to his afternoon's work, and Vierkoetter \$5,000 for coming second. Third place takes \$3,000, 4th, \$1,500, 5th, \$1,000, and sixth man, Mr. Cox, receives \$500 to pay his fare back to California.

Unpleasant Incident  
The first six men to finish were asked to speak through the microphone as soon as they had recovered sufficiently from their effort. Evidently something rankled in Mr. Keating's mind, for his only remark to his unseen audience was "I suggest that Vierkoetter now apologize for what he said about me after the Lake George swim." Vierkoetter is alleged to have suggested that Keating was towed on the historic occasion in 1927 when he beat the German before.

The Black Shark was not disturbed. He refused to take any notice of the preceding speaker and simply said, "I did the best I could and am happy. I hope everyone else is." With less than two taps to go Norman Ross was swimming along holding the lead but behind him, swimming a stronger race than the leader, came Edward Keating. Vierkoetter was moving at a threatening clip and at that stage looked to have as good a chance as any of being the ultimate winner. He appeared to be stronger than the two men ahead of him. Ross tired badly in the closing mile and at one time it was doubtful if he would be able to finish. He had enough left however to take third place.

No Sympathy for Young  
It was a money-faced crowd which looked at the news bulletin announcing that George Young had been taken from the water. A short, low, round, then silence, greeted the announcement. A few voices spoke out, "That's the end of him," "Reddy Oke has lost his bet," or just "Gee." Not one sympathetic word was heard. A leader throughout all the early laps, Clarence Ross, of Brooklyn, N. Y., was forced to quit a short while after he had yielded the lead to his namesake, Norman Ross, of Chicago. The fast pace he set in the earlier stages of the race eventually told on him. His rival of the same surname had conserved his strength better and forged to the front in the fifth lap.

Appeared To Tire  
Lapping Bill Erickson, the Bronx floater, just before reaching the press enclosure, Norman Ross, started out into the lake on the sixth lap, still in the lead but he looked very tired, and was stroking only 45 to the minute. His strokes seemed to be dragging badly.

#### Best Cornet Performer For Canada Plays in Our Salvation Army Band

Mr. Jack Green, 66 Murray street, was yesterday awarded the cornet championship of all Canada at the Canadian National Exhibition. Mr. Green, who was contesting the best talent in the Dominion at this "Ex", is a member of the local Salvation Army band. When he entered the cornet solo championship at the Exhibition his friends and fellow bandmen expected him to do well but did not think that he would take first place. Today they realize that he has no peer in Canada.

Mr. Green was awarded a gold medal for his feat. In the competition he was awarded fifty-six percent, an exceptionally high mark. Sharing congratulations with Mr. Green today is Mr. Alec Gordon, Bay street, who accompanied the cornetist in the competition. It was undoubtedly Mr. Gordon's perfect accompaniment that helped Mr. Green to carry off first honors.

#### WILL PROBE USE ETHYL CHLORIDE

Dr. Hon. Forbes Godfrey, Minister of Health, Starts Investigation

Toronto, Aug. 31.—Dr. Hon. Forbes Godfrey, Minister of Health, has started an investigation into the use of ethyl chloride.

"We are conducting a very quiet investigation based on the facts brought out last night," said Dr. Godfrey to The Telegram. "We intend to look into every phase of the question in this important matter."

"There is no need for the public to be stampeded, but I am going to see if there is not something absolutely as safe as we can get it. There are many things to be gone into and it will be done without any display of trumpets."

The investigation by the Provincial Department of Health was started this morning and Dr. Godfrey pointed out that the provincial authorities had no control over the use of ethyl chloride. That came under the Federal Government.

#### TAKE-OFF IN NO STOP AIR RACES

Los Angeles to Cleveland Flyers Try for \$10,000 In Prizes

Los Angeles, Aug. 31.—Seeking the victor's share of \$10,000 prize money offered winners of a no-stop flight to Cleveland in connection with the national air races there, Major John Wood and Captain Roscoe Turner were speeding their monoplane eastward today. The former took off at one a. m. and the latter forty-five minutes later. They hope to better the mark of Lee Shonover who completed the flight last Monday in thirteen hours, 51 minutes, 10.8-12 seconds.

#### UNHURT IN RIDE

Grimsby, Ont., Aug. 31.—John Greer, age three, drove his father's motor truck yesterday down a hill over an embankment and ended his ride by reversing into a dry creek bed. He escaped with scratches. His dad, who has for a week been playing with a toy motor car, climbed into the truck standing on the side of a hill and undid, released the brakes.

#### TIME CHANGES

Go to Church Sunday by Daylight Saving But Monday is Different

There is some slight doubt in some quarters as to exactly when Daylight Saving time does end. According to the By-Law enacted in June and to the official notices posted by City Clerk Holmes, citizens of Belleville will go to church on Sunday to Daylight Saving Time, but will spend Labor Day on slow time.

That of course is not to say that anyone is expected to have a "slow time" on Sunday but standard time will be in vogue on Monday. To be correct, turn your clocks back at midnight on Sunday night.

#### NINE WINS WITH ONLY 10 ENTRIES

Charles Saunders, Belleville Poultry Fancier Has Success at Toronto

Charles Saunders, Baldwin St., Belleville, again has had marked success with his Light Brahmas at the Toronto Exhibition. For the past several years Mr. Saunders has been a consistent winner at this important exhibition with his poultry, as well as at the Royal Winter Fair held in Toronto. His record of wins is indeed impressive, and again this year he has done exceptionally well.

Out of ten entries at the Toronto Exhibition, Mr. Saunders has nine winners, taking first and second cock, 1st, 2nd and 3rd pullet, 1st, 2nd and 3rd cockerel, and 1st pen. To win so many events at the Toronto Exhibition shows that Mr. Saunders' birds must be in the pink of condition and well looked after, for the cream of the poultry of Ontario is there to be competed against. Belleville citizens will join with us in congratulating Mr. Saunders on his success as a poultry fancier.

#### LOOK FORWARD TO EARLY NOMINATIONS

Perth, Ont., Aug. 31.—Lanark County's voters are looking forward to early nomination of candidates for vacancy in the Provincial Legislature created by the resignation of T. A. Thompson, Almonte. Mr. Thompson, who resigned to contest the Dominion by-election for Lanark as official Conservative nominee, was an unsuccessful candidate.

Liberals are to hold their convention within three weeks, but no decision has been reached on the date for the Conservative meeting.

#### COMING EVENTS

Dr. Gordon Caldwell, Dentist, wishes to advise that he has opened a dental office at 209 Albert St. Office and residence phone 372. a31-1td

Mrs. Wilkin's tiny school for tiny tots open Wednesday, Sept. 4th. Prim ary public school course taught. 307 Charles St. Phone 1353-J. a31-1td

#### FELL ASLEEP AT CONTROLS TO DIE

Pilot Reid Established New Record But Crashed 2 Hours Later

Cleveland, Aug. 31.—Pilot Thomas Reid crashed to earth and was killed before early today, a short time after he had established a new record for solo endurance flights, exceeding by at least two hours the old mark of 36 hours, 58 minutes and 36 seconds.

The plane, disappeared about three a. m. and watchers at the airport found the wreckage at daylight, in Fairview village, where the plane had crashed into a tree. Reid's body was found 25 feet away. It is thought he had fallen asleep at the controls.

#### RED-SKIN DROVE CAR WHILE INTOXICATED

Wilfred Brant, an Indian residing in the Tyendinaga Reserve, faces a charge of driving a car while intoxicated as the result of an automobile accident yesterday afternoon near Deseronto. The Brant car was travelling west on the Highway and a United States car driven by James McGrath, of Toledo, Ohio, was going east, when Brant, swerving from side to side, on the road, crashed into the McGrath car. Brant will appear before Magistrate Bedford at Deseronto this afternoon. Both cars were badly damaged but no one was seriously injured.

#### TENNIS TOURNAMENT AND DANCE MONDAY

Monday afternoon will be a busy one at the Bay of Quinte Country Club for the first Invitation Tournament of the Belleville Tennis Club will be held on that date. Representatives from Kingston, Gananoque, Tweed, Campbellford and various other tennis centres in Central and Eastern Ontario have signified their intention of competing, and good games should be the result.

Following the tournament, dinner will be served in the Club House and in the evening the second Tennis Club dance will be held, to which all members and their friends are invited.

#### STOCK EXCHANGES CLOSED

Toronto, Aug. 31.—Toronto Stock and the Standard Mining Exchanges were closed today and will not re-open until Tuesday, in observation of Labor Day.

#### BARBA WON BOUT

Hollywood, Calif., Aug. 31.—Fidel Barba, former flyweight champion of world, hooked his way to a technical knockout victory over Jack Mandell in a scheduled ten round bout here last night.

#### JUST BARELY, BUT ACTUALLY FAIR SET HIGHER ATTENDANCE RECORD

Figures Announced Are Few Hundred Over The 1928 Totals

#### EXHIBITS BETTER

Directors Look For Healthy Steady Growth For Succeeding Shows

Just over but still over last year's record, Belleville's big Fair closed yesterday with a total attendance of 28,000. Last year's figures were 27,199. The closing day attendance yesterday of 5,000 was not quite up to the expectations of the directors who had set 30,000 for their objective for this year's Fair.

The comparative figures for the two years are—

Totals	1928	1929
Tuesday	4,732	5,000
Wednesday	10,000	10,000
Thursday	7,746	8,000
Friday	4,721	5,000

At eleven o'clock last night the booths of the exhibitors in the merchant's and manufacturer's building were rapidly being stripped away by midnight both buildings were practically clear. The midway kept the bright lights going for a little longer but finally it too closed and the great Fair was over for another year.

Speaking to Mr. C. E. Hanna, president of the Fair, this morning, he expressed himself as much pleased. The exhibits generally were more numerous and of a higher quality than former years. "In fact," Mr. Hanna said, "our Fair is showing a healthy growth from year to year and there seems no reason to doubt that it will be the outstanding Fair of Eastern Ontario, second only perhaps to that of Ottawa."

This morning the Exhibition grounds were an air of neglect. The busy scenes of the last two days are deserted and even the fountain has been turned off for its Fall and Winter sleep.

#### 42 RESCUED OUT OF 116 ON BOAT

Loss of Life on "San Juan" Appears to be Fixed At 74

San Francisco, Aug. 31.—Possibility that the coastwise passenger steamer "San Juan" carried 116 persons instead of 110 as previously reported, indicated today that the loss of life in its sinking, 55 miles south of here early yesterday day, may have been as high as 74 persons.

Albert Gillespie, manager of the Los Angeles and San Francisco Navigation Company, owners of the boat, admitted that there may have been as many as 66 passengers aboard and that the crew may have numbered as high as fifty. Previous list had been based on the supermarine made several hours before the ship sailed. The number of rescued person remained at 42.

#### FLIER THRILLS HOLIDAY CROWD

Calshot, Eng., Aug. 31.—Holiday makers here had a thrill this morning when flying officer Acherly took the supermarine for a practice spin. The Italian team here for the Schneider cup contest watched from the top of Calshot castle. After Acherly had flown in the direction of the Isle of Wight for 20 minutes he dived from a great height, flattened out and drove his airplane screaming over the three kilometer course with a throaty wail open at 350 miles an hour.

#### THE WEATHER

Moderately southerly winds, fair and warm today and Sunday.

#### EXPECTED TO LIVE

Lady Mary Heath

Noted English aviator, was seriously injured in an aeroplane crash, at Yarmouth. Her condition is reported as favorable.

#### POULTRY SHOW ONE OF FEATURES

Many Complementary Remarks Heard About This Part of Fair

Although the Belleville Fair has again passed into history, many citizens will recall the 1929 Exhibition, as the best ever held in this city. Exhibits and entries in practically every class were better than in former years and the buildings themselves never looked better.

The Poultry Building in particular deserves special mention. Due to the untiring efforts of Mr. Jack Holley, Chairman of the Poultry Committee and to Director Richard Philbin, the Poultry Show this year had more entries than ever before. The fowl were all well taken care of during their four day stay in the Poultry building and not one case of sickness was reported all through the Fair, which is a record to be proud of indeed.

Chief among the exhibitors of poultry at the Belleville Fair this year were the Hutchinson and Curtis exhibits from Warkworth, which carried off many of the prizes. Mr. C. H. Curtis exhibited a fine display of light and dark brahmas, leghorns, waterfowl and bantams of all breeds.

Mr. W. C. Denney, of Ameliasburg, showed Light Sussex, bantams and waterfowl while Mr. George Roblin of Belleville had a fine exhibit of Sussex fowl as well as penguins. Mr. Andrews, of Woodrow, showed waterfowl, Chinchilla rabbits, leghorns and single combs both white and brown, and his many exhibits were the object of favorable comment. The special prize for having the best hen in the show went to Mr. A. Smith of "dessa", with a Jersey Black Giant. Best cock in the show went to Mr. Andrews of Woodrow with his Buff Orpington rooster. Mr. Vance of Tweed, also had an interesting exhibit of black Giants and Campines.

One of the best exhibits of Barred rocks ever seen at the fair came from Prince Edward County. They being owned by Mrs. H. Keeble and the Prince Edward Poultry Yards, Gerald Vance, Belleville showed Leghorns, Rhode Island Reds, and Anconas, while the largest exhibit of game fowl ever shown in Belleville was also on display. Truly the Belleville Fair is going ahead and the poultry show is advancing with it.

#### CHOCOLATES BY AIR FOR LOCAL MOTHER

Swapping love over home of Mrs. G. H. Brown, 38 Elmer Street, a few days ago, the Toronto-Montreal plane delivered to that lady a box of chocolates and a letter from her son, Jordon, who lives in Toronto. He was a passenger on the plane from Toronto to Montreal, and the pilot evidently flew as near as possible to the Brown home so that the box could be dropped. The missile was picked up by a man named Neal, who, on seeing no address, turned it over to Mrs. Brown.

#### School Bells Ring Again Tuesday For Hundreds of Unhappy Children

There are hundreds of glum-looking children walking around the streets today. Why this morose school goes in on Tuesday? After more than two months of care-free vacation, the public schools and collegiate institute will resume operations on September 3rd, the first day after Labor Day.

Janitors are busy today sweeping the class-rooms, cleaning off the black-boards and getting the school ready for the general once over. Children were buying new school books. Vacation days are over and the scholars face another nine months of work.

### TODAY'S THOUGHT

For everyone that doth evil  
hate the light, neither come  
to the light, lest his deeds should  
be reproved.—St. John 3:21.

### TRUST GREAT BRITAIN TO HANDLE TROUBLE

At a recent mass meeting of Jews in New York, protests were passed, alleging inefficiency on the part of the British police in Palestine, and even hinting at the favoring of the Arabs in their massacres of the Jews. The Toronto Globe, in commenting on the meeting, expressed the hope that Jews would not follow the mistaken lead of their brethren in New York, remarking: "The Jews living elsewhere are better informed and more appreciative than these New York brethren."

In the same issue the Globe carried a report of a Toronto meeting of Jews in which charges even more ignorant than those of the New York meeting were made. One, for instance, was that "the trouble in Palestine might be construed as an attempt to provoke difficulties for the present Labor Government." Parliament may run pretty mad at times, but no one familiar with British institutions ever before pictured it as stooping to the provocation of murder to gain its ends.

In strong contrast with the utterances at the New York and Toronto meetings were the comments of Rev. Dr. Arthur A. Feldman, rabbi of the Anshe Sholem synagogue, Hamilton. "I am confident," he said, "that the Canadian Jews will not demonstrate against the handling of the situation by the British government; for the government officials have done their best to act as impartial judges and to restore order. Reports that American Jews will mobilize are exaggerated. I have heard no sensible criticism in Hamilton of the British government in the handling of the trouble. Other cities are talking of mobilizing armies. We know it will not be needed, though the very existence of the Jewish race in Palestine is at stake."

### CRIME A POOR WAY TO GATHER WEALTH

Mr. Punch's advice to young men about to be married is well known. But Mr. Punch is a facetious gentleman and young men have been getting married ever since he gave it and he has grinned benevolently at them.

But there is another class of young men to whom Mr. Punch's "Don't" should go straight to the heart. The youth who thinks he can make an easy living by preying on honest people rather than by working should hear that "Don't" as though it were a thunder clap preying a storm.

Of all follies there is none worse than the belief that an easy living can be made in criminal ways. Crime is the poorest paid of all activities, and the young man who has an inclination to take something that belongs to another should remember that he might cause that other great inconvenience or hardship. But if he lacks this humaneness he should at least show common sense and realize that most so-called smart men who thought they could outwit the law have fallen into the hands of that law.

Those who think of making the false step should think again and don't.

### TEACH CHILDREN IMPARTIAL HISTORY

Complaints about history books which we have heard from other provinces of the Dominion are happily not warranted in Ontario. Those edu-

cational authorities elsewhere who choose to adopt United States school books because they are offered cheap should be disciplined by the rate-payers and school trustees in their jurisdiction. There is no excuse whatever for choosing United States text books when there are so many excellent Canadian ones to be had. Nor is there any monopoly.

In the matter of history it is particularly shameful that Canadian boys and girls should be imbued with views of our past which are written from the point of view of those who could not appreciate our motives or ideals nor estimate without bias their importance. It is said that one of these books devotes nineteen words to the part played by Canada in the World War.

Such a book would probably inform us that the telephone was invented at Boston and that we are overborne with the taxes we pay to Britain, and would leave the impression that our climate is normally always near a zero temperature. Those who have read these books know that it is not necessary to exaggerate, however. They are utterly misleading for children of the Dominion.

We do not desire that Canadian children should grow up without knowledge of other nations and particularly of our great neighbor. But our neighbour has often peculiar individuals to serve her, and they often think that distortion is admirable service. We could wish that impartial and accurate narratives of the notions of the world could be compiled for use internationally, books upon which all could agree.

But as this is not possible at present it is only right that we should write our own history as impartially as may be, but truthfully and fairly, so that our children may know our virtues as well as our faults and our ideals as well as our lapses. If our children are to be taught that the British burned Washington, let them also know that the Americans first came and burned the Ontario Parliament house and all its records in an unfortified town. There are better things than these to tell about, but at least we should be impartial.

### OTHER MEN'S THOUGHTS

It is perfectly all right for a woman to wait to hold on her youth, but she should not do it while he is dying. —Montreal Gazette.

Eight women finished the big swim at the C.N.E. on Friday and only one was a bona fide Canuck. Despite our lakes and rivers our girls don't seem to take to the water as they should. —St. Thomas Times-Journal.

Even very wise men, as their years have increased, have suffered from the evil habit of fearing the worst. —Bruce Barton.

Despatches say that Berlin's beer consumption last year exceeded 100,000,000 gallons, or about 24 gallons per head of the population, an increase of 11,000,000 gallons in three years. As numerous infants and young boys do not drink beer, it would seem that some of the older male consumers have got back to the gallon, or more a day glass. —Montreal Gazette.

### PASSING YEARS From The Intelligencer Of This Day 30 Years Ago

Mr. Charles Simmonds who has been ill for some time is convalescent.

Prof. Rabbits and family left today for Glen Island to spend a few days.

Mr. H. C. Hunt and family left today for Montreal and other places of interest in the east.

Mr. D. B. Laidler who has been spending the summer in Kingston has returned to this city.

Miss Basil Miller of this city is visiting her sister, Mrs. Jas. Waugh Kingston.

Mr. Kirkgarde, Superintendent of the Canada Gold Fields Co., Deloro, was in the city yesterday.

Mr. and Mrs. Geo. B. Warham, West Bridge St., left last evening for Buffalo, Niagara Falls and Toronto to visit relatives.

### HAVE YOU HEARD THESE?

tunes and all about your future husband for a shilling."

"No, but you can tell me about the past of my present husband for future use."

John Philip Sousa has given us many splendid marches and not a few good stories as well. The famous baton wielder loves to tell one about two members of his famous band, or rather about their wives.

One a bride of a year, was pushing a pram-burn or in which were three little girls, triplets. The other had been married only for a few weeks.

"What beautiful babies!" exclaimed the new bride.

"Yes," replied the proud mother, and let me tell you the funniest coincidence. At our wedding Mr. Sousa and some of the band serenaded us and they played "Three Little Maidens from the Mikado." Isn't that funny?"

At this the other bride turned pale. "Good heavens!" she gasped. "They serenaded too, and they played the Sextette from 'Lucia.'"

## THAT BODY OF YOURS

By James W. Bar-on, M.D.

### VARICOSE VEINS VERY COMMON

I have written more than once about varicose veins of the legs. For the reasons given, a systematic examination of recruits for the army, and since that time, the number of casts is certainly more than was formerly suspected.

You will remember that the treatment before and during the war was to remove these outer or superficial veins by operation and depend upon the deeper veins to carry the blood back to the heart.

Then research men discovered that by injecting these veins they could cause them to dry up and look like pieces of string.

At first there were a few "accidents" from this method as some of the fluid injected got into the tissue surrounding the vein and caused ulcers that took a long time to heal.

And so, many members of the profession have been waiting to see how successful this injection treatment would prove to be, and if the "cure" would be permanent.

With over fifty thousand cases treated by the injection method, compared with the record cases where the veins were removed by the knife, there is no question but that the injection method has proven its superiority.

While deaths from the operation are not common, the chance of such an occurrence is sixteen times more likely by the use of the knife than by the injection method.

Another point that means much to the patient and to the physician also, is the chances of other veins in the leg becoming varicose after the treatment.

It was found that this happened much more frequently after the operation by the use of the knife, than by the injection method.

This means then that in suitable cases, and the majority are suitable, that the safe and simple injection method will now be the choice of physicians.

Remember, there are cases, where for various reasons, one method would be superior to the other, and some cases where neither of the methods could be used.

However, as mentioned before, a light band is placed around the leg above the veins, and the patient is required to walk a little distance. If the working of his muscles by walking keeps the vein or return circulation going properly, despite the tight band, it is felt that the underneath veins are in good condition and an operation may be performed either by the knife or injection method.

Cultivation of radishes followed by a cotton crop enabled farmers in Arkansas to reap double harvest.

### AFTER SORROW

Her ways are grave as the sea in grave When sorrow has passed. Where a slow swell rises and falls and rises.

Over a mast.

Her works are as grave as the winds of Winter That blowing over The fields where the flowers were trace out only The frozen clover.

By RONALD EVERSON.  
From The Chetelaine

## ARAB AND JEW CLASH IN PALESTINE

Warfare between the Jews and the Arabs, who latter race through centuries of occupation have come to consider Palestine their own land, and the Jewish immigrants, recalls to the world the famous Telegram from El Kantara, near the Red Sea, across the desert to Jerusalem.

A stinging standstill, such as the Children of Israel must have accounted when they fled from the hosts of Pharaoh, lashed our faces as Jew and Gentile, sat, waited for the train. Travelers were thankful to clamor aboard the "Milk and Honey Express" which traversed the strategic line laid down by Lord Allenby during the Great War. The coaches were filled to repletion with the passengers being a young Jewish doctor in the employ of the Palestine Government, who told us that his wife was a Winnipeg girl. By dawn we had passed the worst of the desert to enter a fertile tract where Jewish farmers grow grain and lucious Jaffa oranges. Presently the train was climbing the gorges of bare limestone mountains of which the Psalmist sang with scant grass and lovely red, white and blue anemones large as poppies. On the high plateau we pulled into Jerusalem railway station.

Camels and Autos  
Mid-March it was still raw and cold and the American stove in the little hotel lounge gave grateful heat. We at a strange mixture of ancient and modern the Holy City—holy alike to Jew, Christian and Moslem—which has been making history for 3,500 years or more. Trolley cars run on its wider streets where one sees an agency of the Canadian National Railways. But hard by the Jaffa Gate, where looms the grim medieval fortress, a traffic cop in smart uniform and fez directs not only automobiles but laden donkeys, camels and groups of fierce Bedouins from the desert sitting wily Arab horses. Near this gateway thronged to two Jewish men in 1917, since a long row of fixed bookshelves ringing brass bells to attract custom.

Old Testament Types  
But for the most part the streets of Jerusalem, with its ancient walls and Biblical gates, the Jaffa, Damascus and other towns through which sheep are herded are too narrow and tortuous for vehicular traffic. Here in the narrow alleyways move a conglomerate mass of humanity, chaplains at the little booths of the merchants. Bearded Jewish rabbis in flowing robes and turbans who might have stepped from the pages of the Old Testament, fat Greeks, veiled women, peddlers, Arabs, Christian priests of various denominations and heavy-laden beasts of burden. Gen jostle in that throng. Noisome smells assail the nostrils in streets where gutters do the work of drains and workmen laying sewers and water pipes have to blast into solid masonry. Age old houses and stone walls line these ancient thoroughfares, pitch dark by night.

The Walling Jew  
Down in the heart of Jerusalem's old quarter one sees the Walling Wall whose huge stones are reputed to be part of Solomon's Temple. Scholars have questioned its authenticity, but surely those massive blocks might well have been laid in the great king's reign. Leaning against them at the line of the day one will see men and women walling that immortal prayer to the Almighty for the return of the Kings of Judah. But has not that prayer been already partly answered? Great Britain's soldiers drove out the Turk 12 years ago and made Palestine a Jewish State after 2,000 years of subjection to Romans, Arabs and Turks.

Zangwill and the Arab  
Back in 1917 we heard Israel Zangwill, the novelist, give a more or less private talk on the future of Zionism. Mr. Zangwill, one of the commentators appointed by the British Government to report on the matter, was rather pessimistic. He thought Palestine agricultural possibilities somewhat limited, and finally declared that the Arabs, long dominated there who dominated the country districts would make trouble if not given land elsewhere. His prediction regarding the economic Arab, who has for centuries been a nomad, who has for centuries and farmed and grazed his herds in and around the desert, now finds himself cut off from large blocks of land. He finds new colonies of Jewish farmers reaping the crops on the fertile tracts which he could not or would not utilize scientifically. The industrious Jewish emigrant from Europe and elsewhere has literally made the desert blossom like the rose with grain and alfalfa, figs, oranges, grapes and all the other good things which rejoiced the children of Israel in the Promised Land. It is of a line with the white man's encroachment upon the prairie Indian of pioneer America. And the Arab is as belligerent as the Indian of old.

Glad to Get Home  
To the average prosperous Jew whose ancestors have lived for hundreds of years in the Jewish world, Palestine makes monthly a sentimental appeal. He rejoices to see the land of Abraham rejuvenated and free but he is apt to find the eastern Jews regard him as a foreigner—as Paddy sometimes treated the Americanized Irishman. The Jewish colonies have

been successful, but as best Palestine which, 160 miles long and from 70 to 100 miles wide, is actually smaller than the Niagara-Lake Erie district of Ontario, could accommodate a mere fraction of the Jewish race. Mr. Zangwill remarked rather dully that while his sights as the well from which Rebecca drew the water thrilled him, he for his part, would sooner live in London and write books than reside in Palestine. Perhaps that is the attitude of the average well-to-do western Jew. Usually he seems glad after seeing the places of immense historic interest in the land of his forefathers to return to the comfort of his home where he has taken root.

### WALL STREET SEEMS A GIANT COMBINE

New York, Sept. 3.—Barring threatened restrictive legislation Wall Street seems in the recent grouping of public utility companies a giant combine. It forces one company eventually controlling all the leading power and light producers from Bangor, Me., to Pensacola, Fla., within 150 miles of the Atlantic seaboard.

Many observers feel that this development is likely within the next five years. While it is still too early to forecast how this grouping will be arranged, it is considered likely that either the United Corporation or the American Superpower corporation will form the nucleus of this combine.

Bankers had others engaged in these consolidations decline to discuss their plans beyond the immediate future, probably because premature publication of their ultimate aim would increase their difficulties in trying to bring it about.

The current market situation in the public utility industry has become so complicated that most statisticians frankly confess their inability with the limited information available to arrive at any definite conclusion regarding the value of various stocks in many stocks of other companies, which in turn are owners of so many other companies, that trying to figure values is almost an impossible task.

Fears are felt that in some quarters that the recent broad trend toward mergers, might arouse congressional opposition and lead to another era of so-called trust busting. Supporters of public utility consolidations are attemping to forestall such action by reducing rates through operating economies effected through consolidations, removing the "price fixing"

## More SEDAN VALUE THAN EVER BEFORE! Whippet

SIX  
DE  
LUXE  
SEDAN  
\$1070  
f.o.b. Factory,  
taxes extra

WHIPPET Sedan value has always "led the field," but when you see the new De Luxe Whippet Six Sedan you'll have a new idea of what "full value" really means—

It now has a new and larger body, designed by a creator of custom cars. Trim smart lines, rich color harmonies. A roomier interior, comfortably upholstered and well appointed.

The new Whippet's increased wheelbase, shock absorbers, overdrive ball joints and longer springs both front and rear, all combine to effect superb riding qualities.

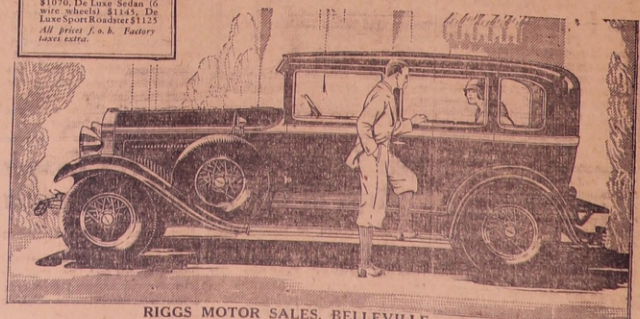

Extra cross-members in the frame of the new Whippet, together with the advanced type of frame construction

and heavier materials, give greater strength and rigidity.

### Many Important Features

The new Whippet is the only low-priced car with all these vital advantages: full force-feed lubrication, silent timing chain, "Finger-Tip Control," intra-strut pistons, big four-wheel brakes, and, in the six, a heavy seven-bearing crankshaft.

See and drive the Whippet at your earliest opportunity. You will find its beauty instantly appealing, its performance remarkably brilliant. And long service will prove Whippet's dependability and operating economy.

## THE BULLETIN BOARD

Mainly About People You Know

### HOLIDAY POSTAL SERVICE

Monday, Labour Day, being a holiday, there will be no mail delivery, but the general delivery and postage stamp wicket will be open from 8:30 a.m. until 10:30 a.m. The Public Lobby will be open from 8 a.m. to 6 p.m. while there will be one evening collection of Mails. All mail posted at the office up until twelve o'clock noon will be dispatched as usual.

### EGGS ARE HIGH

Eggs were still selling high today at thirty-five cents a dozen, as against thirty cents last week. The market did an excellent business this morning. Vegetables had not changed in price. Carrots, beets and onions sold at five cents a bunch, cabbage was five and ten, narrows, ten and fifteen, lettuce, five cents, celery ten cents and golden bantam corn twenty cents a pound.

### LOCAL ARTISTS FEATURED

A special Sunday noon musical programme will be offered patrons tomorrow at Wong's new upstairs Dining Room, when Mr. James Backler, of Belleville, will be featured. Backler is a number of vocal selections, with Jack Denmark accompanying on the piano. During the supper hour, from 5 o'clock until 8 p.m., another musical programme will be presented with Mr. M. Young, violinist, being featured. Jack Denmark again being the accompanist.

### INTER-CITY VISIT

The St. Lawrence Kiwanis Club of Montreal plans to visit the local club on Tuesday, September 24th, and return the inter-city visit made to Montreal by the Belleville Club a short while ago. Belleville Kiwanians are planning a real entertainment for the visitors on that day.

### ISOLATION HOSPITAL OPEN

The Isolation Hospital, long opened again yesterday after being closed for some time, they being a case of diphtheria now in quarantine there, according to the local Health authorities.

## CRAMPS BLAMED FOR BIG FIASCO

Toronto, Aug. 31.—George Young, after covering seven m.b.s. of the swim, was practically unconscious when brought to the hospital.

"I just dozed up," he said feebly when he regained his faculties enough to speak.

"He had a bad cramp right in the pit of the stomach," Doctor Barton corroborated.

Johnny Walker, his former trainer, leaned over the bed. "Tell them George," he pleaded. "He's just my little boy," said Walker.

"He was swimming wonderfully," continued the former trainer, with almost a sob in his voice. "He was swimming 48 beats to the minute."

"I felt alright when the cramp suddenly got me," George said. "I had taken in food during the swim, but that had nothing to do with it."

Dr. Barton said, "It was unfortunate but a man couldn't help it when that kind of a cramp seized him."

After speaking for about a minute George lay back on the bed, apparently utterly exhausted. He was raised up long enough to take a sip of coffee, and then again lay back—his eyes closed.

He was swathed in blankets and covered with hot water bottles. A con- stable kept off the crowd that immediately began to surge around the bed, and Dr. Crawford kept off reporters who wished to speak to him.

## FRONTENAC GIRLS LOST GAME AND SERIES TO KINGSTON LAST NIGHT

Held Kiwanis Visitors Well Until That Unlucky Seventh Innings

### PITCHER FADED

Final Score 18 to 8—Victors Will Now Play Brockville

By winning the second straight game in the Eastern Ontario play-offs, Kingston Kiwanis, rightly or wrongly, secured the right to meet Brockville in the second round and the Belleville Frontenac girls were eliminated last night on the Armoures lawn, by the score of 18-8.

A large crowd was on hand to see these two snappy teams perform and to lend their support. They certainly did the latter and every good play was rewarded by loud applause, regardless of which side made it. The collection was also good, and here again the Kingston aggregation showed their poor sportsmanship, for when the hat was passed around, out of about 100 Kingston fans, lining the railing, not one put in a nickel, but flatly refused any contribution.

Kiwanis Start Heavy Clouting The game was a nice one to watch until the unlucky (at least for the Frontenacs) seventh, when the Kiwanis girls started to pound the ball to all parts of the field in their characteristic last innings' rally and scored five runs, breaking the 7-7 tie and taking the lead by four runs. They were held down in the eighth but their heavy hitting and helped along by Bessie Doolittle's free passes they scored six more runs, which practically put the game on ice, as the Frontenacs were unable to score in the ninth, going out of the one, two, three, four, five, six, seven, eight, nine, ten, eleven, twelve, thirteen, fourteen, fifteen, sixteen, seventeen, eighteen, nineteen, twenty, twenty-one, twenty-two, twenty-three, twenty-four, twenty-five, twenty-six, twenty-seven, twenty-eight, twenty-nine, thirty, thirty-one, thirty-two, thirty-three, thirty-four, thirty-five, thirty-six, thirty-seven, thirty-eight, thirty-nine, forty, forty-one, forty-two, forty-three, forty-four, forty-five, forty-six, forty-seven, forty-eight, forty-nine, fifty, fifty-one, fifty-two, fifty-three, fifty-four, fifty-five, fifty-six, fifty-seven, fifty-eight, fifty-nine, sixty, sixty-one, sixty-two, sixty-three, sixty-four, sixty-five, sixty-six, sixty-seven, sixty-eight, sixty-nine, seventy, seventy-one, seventy-two, seventy-three, seventy-four, seventy-five, seventy-six, seventy-seven, seventy-eight, seventy-nine, eighty, eighty-one, eighty-two, eighty-three, eighty-four, eighty-five, eighty-six, eighty-seven, eighty-eight, eighty-nine, ninety, ninety-one, ninety-two, ninety-three, ninety-four, ninety-five, ninety-six, ninety-seven, ninety-eight, ninety-nine, one hundred.

After speaking for about a minute George lay back on the bed, apparently utterly exhausted. He was raised up long enough to take a sip of coffee, and then again lay back—his eyes closed.

He was swathed in blankets and covered with hot water bottles. A con- stable kept off the crowd that immediately began to surge around the bed, and Dr. Crawford kept off reporters who wished to speak to him.

### SENSIBLE BURGLARS WILL TRY ELSEWHERE

London, Aug. 30.—The \$25,000,000 reconstructed Bank of England, which was opened in 1925, will be the most impenetrable fortress in the world. Each of the 50 underground vaults will have walls of steel and concrete eight feet thick. The lowest vault will be 50 feet underground. Each door leading into a vault weighs 12 tons and yet so finely will they be adjusted that when they are unlocked electrically a child can swing them back and forth on their hinges. An intricate system of cables and electric wires will be controlled by a single button in the bank, another somewhere in London and the third ten miles out of London. Detectives will be stationed every few yards in the underground corridors.

### KEATING

Continued from Page One "Looks as if he has hardly strength enough to lift his arm," commented a well known amateur swimmer. Many in the crowd remarked that Ross didn't look as if he would finish.

Eddie Keating, the Lake George swimmer, moved up to second position passing Marvin Nelson, of Port Washington, Iowa, just in front of the press stand.

Vierkoetter Looms Keating was 300 yards behind Ross and also looked a bit tired, as well he might be, for they then had only three laps to go, plus the short leg inside the breakwater, up to the finish line. Keating did the last two miles seven minutes faster than Ross.

Five minutes behind Nelson was Ernest Vierkoetter who most of the spectators are calling to win.

Mendell Burdette, the Toronto hero, passed on the sixth lap in sixth position and appeared likely to stay right there or even move up. And a big cheer he got from the crowd encouraged this courageous stalwart. He went by the press enclosure at 4.50 p.m. doing 50 strokes to the mile.

Many Drop Out Many had been forced to quit before this. At 4.15 there were 42 left in the race, many of the swimmers taken from the water at different points along the course.

Among those eliminated were the two swimmers, Mrs. Evelyn Armstrong and Ruth Tower. The former quit first owing to a chill, while Ruth Tower was taken from the water about 3 p.m.

Ernest Vierkoetter was caught by Eddie Keating, the Lake George swimmer, just in front of the press enclosure, but the phlegmatic Teuton did not let himself be slighted. He seemed satisfied to get his own pace and had no advantage over Keating, in that he was much closer to the breakwater, while Keating had to go much further to turn out into the lake. Vierkoetter passed the press stand at 2.23 p.m., with Keating 25 yards ahead of him.

George Young Quits At 2.04 George Young, one of Toronto's two major hopes in the men's Wrigley Marathon, was taken out of the water.

The news came as a terrific shock to the thousands of people lining the shore. Young was apparently swimming as well as ever just as he finished the third lap, but suddenly headed for the breakwater and hung on to the edge of the pier. His handlers at first thought he had mistaken his direction and yelled at him to change, but he went right on until he reached the breakwater.

Teddy Oke, Young's backer, did not even place a bet at his boy's showing. "He quit," was his only comment.

It was stated on good authority this afternoon that Oke lost \$9,300 betting on Young.

Deal To Coasting Whether Young quit, or whether he climbed on to the breakwater wall because he thought that he couldn't possibly win will never be known. Anyway, the fact remains that, despite much coaxing from Teddy Oke and Tommy Bell, who with tears in his eyes, entreated him to continue, George refused to follow his boat. He climbed out and quit.

"It's yellow!" the cry came from a hundred throats as the people on the shore opposite to where he stopped, noticed the number of his boat against the seawall. He was able to climb out and then fell exhausted.

George was ahead of Vierkoetter about twenty yards or so right along as he was finishing the third lap. He began his fourth lap still with the lead of twenty yards. When about thirty yards up the stretch he quit.

## Just For The Feminine Reader

### LET IT RAIN

Umbrellas this season close adherence to the Paris styles as to the use of colors and borders. More attention is being placed on the centres and some unusual treatments are resulting. One consists of wide strips of varying widths, in plain or fancy effects, covering the centre to about six inches from the edge of the umbrella, where the salvage repeats in miniature some part of the centre pattern. In some, also, the salvage is left plain.

Colors advanced for the Fall models give the lead to navy blue, then brown and black with white or gray to go with the new gray tweeds. Purple, red and green follow, and a new combination is being made of two shades of gray.

Most of the new umbrellas are about twenty inches in length; they are considered more graceful, easier to carry and more serviceable when made this size.

Handles are made in countless styles and materials. New compositions are being constantly introduced to repre-

sent amber, tortoise shell, glass and semi-precious stones. They are made to represent animals of birds or perhaps merely in fancifully shaped knobs. One new handle is of a conical position in a pale lemon shade and has a crooked end like the cane on a riding crop. Others of composition represent long-necked birds, such as the crane, duck and swan. The heads serve as finish for the ends and the backs as handles. The bills and heads usually come in to meet the handle, forming a complete loop. Some of the birds are in natural colors, while others match or form attractive contrasts with the covering.

An umbrella for carrying with a costume of gray tweeds this fall and winter is made of steel gray silk with a deep centre decorated with ombre and light gray stripes in jaquet patterns. The handle is of composition in slate gray and has an inlay of black finishe with a silver edge. Another model that appears to be of the solid black and gray proves, when held to the light, to have a navy blue finishe inside. The handle is crooked and carved. A brown silk umbrella has a sunburst design for the centre and a handle of composition in a very modern, artistic treatment, partly straight and partly angular.

Silk cords are widely used even on the sports models where leather was at one time the type of loop considered.

## 'After the birth of my baby--'

TO gain thirty pounds in three months, and win back health and strength was the happy experience of Mrs. Margaret Brethour of Cornwall, Ont., who gives all the credit for it to Dr. Williams' Pink Pills.

"After the birth of my baby, I was in the hospital four months," she wrote, "and came home weighing only sixty-five pounds. I began taking Dr. Williams' Pink Pills and it wasn't long until I weighed ninety-five pounds and my general health was of the best. Every Spring since then I take the pills as a tonic, and wouldn't be without them, no matter what they cost; I strongly recommend them to all mothers."

Buy Dr. Williams' Pink Pills now at your druggist's or any dealer in medicine or by mail, 50 cents, postpaid, from The Dr. Williams' Medicine Co., Brockville, Ont.

## ADVOCATES MORE DISH WASHING

"There Should Be a Training For Parenthood" Declares Judge

"If some women had more dishes to wash and less time on their hands, there might be fewer problems for themselves and their families," said Judge M. S. Mott, judge of the Juvenile Court, Toronto, in an address at the Exhibition meeting arranged by the Child Welfare Committee of the National Council of Women of Canada yesterday in the Women's Building.

"There should be a training for parenthood," said Judge Mott. "A man is forced to learn any trade before entering it, but on every hand we see women who are utterly untrained in the greatest of professions—the rearing of children."

Nearly every case of juvenile delinquency can be traced to wrong home environment, said Judge Mott. He cited a case which had recently come before him. A boy of six years was found by a policeman in the act of stealing a flashlight from an automobile. When questioned by Judge Mott, the child admitted that he spent his time on the streets.

"Where is your father?" "He is at home sleeping." "And your mother?" "Oh, she works at night and early in the morning, cleaning shops." "Who keeps house?" "Father does when he isn't sleeping," replied the child, who appeared exceptionally intelligent. In such a case of one parent being very inferior, the child was badly handicapped, and from such comes the majority of the cases for the Juvenile Court.

Judge Mott emphasized in his discussion of the social provisions for treatment of the child's behavior problems the necessity for parents making use of the methods afforded by modern psychology in their study of their children. The child must be carefully studied and adjusted to his environment.

Robert E. Mills, chairman of the section on the Child in Need of Special Care, Canadian Council of Child Welfare, and director of the Children's Aid Society, spoke of the alienable rights of every child, first to adequate guardianship, and second to home life and upbringing. Mr. Mills spoke of the inadequacy of the institution as a home for the child. "It is the duty of the Children's Aid Society to see that each child is secured these rights. Upon this depends the whole basis of our national welfare and progress," said he.

R. W. Hopper, of the Ontario Society for Crippled Children, was a speaker. A film was shown by Mr. Hopper, giving an account of the good work that is being done in the hospitals for the 10,000 crippled children of Ontario. Children who are victims of tuberculosis or infantile paralysis are a community responsibility. Those who are engaged in this work are hopeful, said Mr. Hopper, that children who are so handicapped may all be enabled, in as far as possible to overcome this handicap.

Miss Charlotte Whitton, convenor on the Child Welfare National Council of Women of Canada, presided, and introduced the speakers. The meeting was held in the Women's Building at the C. N. E. Miss Whitton spoke of the work which is being done by over 54 countries. In the League of Nations, and of the wide-spread interest in it. Mrs. J. A. Wilson, president of the National Council of Women, was on the platform and gave the address of welcome.

Stricken with apoplexy while driving automobile, Wm. Laubach, 46, Bethlehem, Pa., died as machine overturned.

## When Babies CRY

Babies will cry, often for no apparent reason. You may not know what's wrong, but you can always give Castoria. This soon has your little one comforted; if not, you should call a doctor. Don't experiment with medicines intended for the stronger systems of adults! Most of those little upsets are soon soothed away by a little of this pleasant-tasting, gentle-acting children's remedy that children like.

It may be the stomach, or may be the little bowels. Or in the case of older children, a sluggish, constipated condition. Castoria is still

## Miss Hard-Boiled" JANE DIXON

Raquel did not sleep. When the faint flush of reluctant dawn turned into the thin gold light of day, she rang a bell and sent for the morning papers.

"All that are printed in English," she ordered.

The first paper she opened proved her presence. She had known all along it would carry an account of the affair in Montmartre. But she had not foreseen this.

"PRINCE TO CHALLENGE POLO SPIES"

"Following brawl in Montmartre, young French noble declares he will avenge on field of honor."

"Prince de Rochelle soundly slapped by Robert (Bertie) Adams for alleged affront to woman companion. 'Tony' Johnson's night-club scene of trouble."

"Woman, said to be beautiful young Spanish visitor in Paris, escapes without identity being learned."

"Prince de Rochelle, with duel dueling record, France's most sensational swordsman."

"Adams is expert polo player and horseman."

"Authorities will take steps to prevent meeting."

CHAPTER 49  
Raquel walked to the window of Greta's room in the Ritz and looked down into the street.

People were hurrying past, and from there, happy innocent people, the world wagged on as if this dreadful thing had not happened.

Bertie Adams, that irresponsible, happy-go-lucky boy with the bright blond hair, was about to meet injury—death, even—if what the papers said was true. Because of her.

Raquel turned from the window and watched Greta, shaking her nose too gently to rouse her.

"What's the matter? Where's the fire?" Greta muttered, fighting off sleep with an effort. Her drowsy blue eyes met the black ones of Raquel, wide and swimming with the intensity of her emotions.

"Holy cats, dearie, you look as if the landlord had just called for his rent," added Greta.

"Look!" Raquel handed her the paper, and pointed to the headlines.

"Suffering kittens!" gasped Greta. "A duel! I thought they only happened in the cinema."

"But it cannot happen," said Raquel. Her tone was crisp—final. "We must make sure it doesn't."

"How?" Greta wanted to know, "with a crazy Frenchman waving his sword and shouting 'Gloria'?"

"Call Ginger Smith," ordered Raquel. "At once. Compel him to tell you exactly what has happened."

Greta obeyed with a will.

"It's true," she said when she had hung up the receiver. "The noble prince sent Bertie his card. Fine way to invite a fellow to get killed—sending him your calling card."

"I must see Bertie now, before—" "You cannot," Greta interrupted.

"You mean he's gone away—" "Oh no, not that way. Bertie ain't the runaway kind. He's been kidnapped."

"Surely that detestable Frenchman hasn't dared play such a trick."

"No. It was not the sword-waver. He was too busy writing sweet little notes. Ginger says that Bertie wanted to fight, but that some of his friends in Paris got wind of what happened. They notified the family lawyer here and the next thing Bertie knew he was all bundled up and on his way to an unknown port."

"Thank goodness!" breathed Raquel. "Years of relief were in her eyes."

"Ginger said Bertie fought like Dempsey never did and insisted on seeing you. He's threatened to give them the slip and come back the first chance he gets."

"He shall not. I forbid him," said Raquel.

"You'll have to find him first," Greta reminded. "And he's dizzy about you. Why don't you nab him, dearie? His old man's got big money. Bertie has class himself, and is a darn good

egg besides. And look at the high hat you could wear, with the Adames for in-law."

Raquel returned to the window. "It is quite impossible," she said. "She did not say why the idea of marriage and Bertie Adams appeared to her in the light of the impossible. She herself did not know."

As a friend was a pal. Like Ginger Smith was a pal. As for the closer relation, it would not do. Bertie was too young. True, he was older than she by several years. But that was measuring by time. Actually, she felt as if she might very well be his mother. His irresponsibility. His

careless race after pleasure. His indifference toward the things she valued most, the things the Adams money and position had robbed of all value for him.

"Hop into the apparel, old dear," Greta advised. "You can find what you want among my clucks and suits. We've got to face the big boss this morning and it may not be anything trivial."

"Of course he'll know," said Raquel. "He knows you've been A. W. O. L. all night. Nosey will see to that. But whether he's heard about the swords at twenty paces—we'll see. And it won't be long now."

In the Champs Elysees atelier of Chez Alphonse, business was pursuing the even tenor of its way.

Georgette, the little Frenchwoman with her funny way of speaking English, and who had taken a fancy to the American models, much to the disgust of her French compatriots in the atelier, was laying out the first of the gowns to be exhibited that day when Raquel and Greta arrived.

"Those girls have made supper in these room last night," she explained indignantly. "I arrive today, and find these room dishabille with what those girls are not eat. Peeas."

"With two dozen rooms in the dump they would choose this one," grumbled Greta. "Oh, cookie, if I had only caught them!"

Alphonse appeared shortly before the luncheon hour.

He was suave. Smiling. He had tickets for the opera that night. For Greta too, if she cared to accompany Mademoiselle Raquel and him.

"I'm crazy about bases when they bel low," said Greta, but don't send me any tenors. I can't use 'em."

"Gosh, I believe he's muffed it—the sword stuff," she whispered to Raquel. "He knows," Raquel said. "Everything."

"What makes you think so? He hasn't let out a sign of a squawk."

## Pullover Sweaters

\$2.49

Some wonderful values in Pullover Sweaters, in fancy lace weaves, are offered in a range of good shades in long sleeved or sleeveless styles. There are also a number in medium weight with striped trimming. Regular to \$4.00, for \$2.49.

## Ginghams 15c

A clearing lot of 32 inch English Ginghams, in checks and plain shades. Good colorings in a quality that will wash well. Specially priced at 15c Yd.

## Clearance of Dresses \$10.95

A rack of Dresses, marked for clearance. Includes are Celanese Frocks, in sleeveless styles; flat and canton crepe, in colors; a few sports dresses, and a few large sizes, in black and many canton. Some good values, to clear at \$10.95.

## Socks 19c

A few dozen pairs of Short Socks in broken sizes. To clear at 19c.

## Linen Cloths \$1.50

Pure Linen Table Cloths with borders in gold and green. Large size 52 x 70. Special at \$1.50.

## SINCLAIR'S

"No. He has other plans."

"How do you know?"

"Watch him when he smiles."

"I gotchu, dearie. Like the cat

pleading not guilty with a canary

feather on its nose."

QUOTATIONS

ABILITY  
The world means something to the capable.

GOETHE.  
They can because they think they can.

VIRGIL.  
Out of my lean and low ability I'll lend you something.

SHAKESPEARE.  
The pilot cannot mitigate the billows or calm the winds.

SYRUS.  
They who plough the sea do not carry the winds in their hands.

SYRUS.  
Everyone excels in something in something in which another fails.

SYRUS.  
We can be more clever than all, But not more clever than all.

LA ROCHEFOUCAULDE.  
He (Hamper) had a head to contrive, a tongue to persuade and a hand to execute any mischief.

CLARENDON.  
You are a devil at everything and there is no kind of thing in the world but what you can turn your hand to.

CERVANTES.  
A traveller at Sparta, standing long upon one leg, said to a Lacedaemonian, "I do not believe you can do as much."

True," said he. "But every goose can."

Themistocles said that he certainly could not make use of any strangled instrument; could only, were a small and obscure city put into his hands, make it great and glorious.

PLUTARCH.  
Sure, he that made us with such large discourse, Looking before and after, gave us not That capability and godlike reason To rust in us unused.

SHAKESPEARE.

## Poems Old And New

THE HAPPIER THING  
For eight hot hours I face a brim  
And type "Dear Sirs, We cannot yet  
And type "Dear Sirs, We cannot yet

For eight dull hours with rough dis-  
cordant sound  
I type "Dear Sirs, We are Yours faith-  
fully."

But when, long after noon,  
The interfering sun  
Pokes a thin finger through the win-  
dow-pane

And runs it swiftly over the stiff keys,  
Why then I see a narrow high-bank-  
ed lane,  
That leads me to a cliff where I can  
lie

Between green springing corn and the  
grey sea,  
Where I can hear the merry lisp-  
ing waves.

Teasing the lark in careless rivalry  
It seems more beautiful  
To be a singing lark or blade of corn  
It is a happier thing it seems to be a tree

Than just a woman sitting by a wall  
Typing all day, "Dear Sirs, Yours  
faithfully."

—Florence Lacey in the London Ob-  
server.

## THE PEBBLE

There's nothing unimportant  
In this wondrous world of ours,  
From its mountains and its rivers  
To its butterflies and flowers;

So you need not be disheartened,  
And the gods of chance impeach.  
If you're very undistinguished—  
Just a pebble on the beach.

You may long to be a mountain,  
Or a cliff or towering crag,  
Or a bright and radiant jewel,  
Quite the biggest in the bag;

But the least and oft the lowliest  
Great lessons have to teach,  
And the stormy waves are baffled  
By the pebbles on the beach.

Perhaps life never meant you  
For a place of rank and power,  
For a mighty, moving century,  
But only for an hour;

But it gave you form and beauty,  
And a place a child can reach,  
When it made you just a pebble,  
One of many on the beach.

A. B. COOPER.

## Save the Children

In Summer When Childhood Ailments  
Are Most Dangerous

Mothers who keep a box of Baby's  
Own Tablets in the house may feel  
that the lives of their little ones are  
reasonably safe during the hot weath-  
er. Stomach troubles, cholera infantum  
and diarrhoea carry off thousands of  
little ones every summer, in most  
cases because the mother does not  
have a safe medicine at hand to give  
promptly. Baby's Own Tablets relieve  
these troubles, or if given occasionally  
to the well child they will prevent  
their coming on. The tablets are guar-  
anteed to be absolutely harmless even  
to the newborn babe. They are espe-  
cially good in summer because they  
regulate the bowels and keep the stom-  
ach sweet and pure. They are sold  
by medicine dealers or by mail at 25  
cents a box from the Dr. Williams  
Medicine Co., Brockville, Ont.

## GOLD UNCOVERED

Auckland, New Zealand, Aug. — The  
terrible landslides in the Matukitaki  
valley in the South Island of New  
Zealand, caused by earthquakes and  
leaving death and destruction in their  
wake, have been found and John Spence,  
geologist of the Matukitaki District  
Council, says that a thorough search  
of a split that has appeared in the  
ridge of the valley may reveal untold  
for the lure of gold.

With the momentary danger of be-  
ing engulfed in vast masses of ter-  
rifying earth and trees, only the most  
venturesome have sought the golden  
prizes. Precautions have been taken  
to keep back fool-hardy and unauthor-  
ized persons from risking their lives.

per. Dip the celery in this and then  
roll in fine bread crumbs. Sauté in  
butter or other cooking fat until  
brown.

Lemon Crumb Pudding  
Ingredients: Two cups milk, two  
cups bread crumbs, quarter teaspoon  
ful salt, quarter cup sugar, one egg,  
grated rind of one lemon, three table-  
spoonsful lemon juice, one tablespoon-  
ful melted butter. Pour the milk over  
fine dry bread crumbs; add salt and  
sugar, well beaten egg, grated lemon  
rind, lemon juice and melted butter.  
Pour into buttered baking dish and  
bake in slow oven 40 minutes. Serve  
with a sauce made from one egg,  
three-quarters cup powdered sugar,  
one cup cream, two table-spoonsful of  
orange juice and one table-spoonful  
lemon juice. Beat egg until light, beat  
in powdered sugar and cream whipped  
until stiff and fruit juices. Serve cold.

Ham Roll  
Two and three quarter cups flour, 6  
Teaspoons baking powder. One tea-  
spoon salt. Six table-spoonsful shortening.  
One cup bottled or diluted evaporated  
milk. Two cups chopped ham.  
Prepare a baking powder biscuit  
dough. Roll dough into a rectangle,  
three-eighths inch thick. Spread ham  
over top, and roll like a jelly roll. Cut  
slices two inches thick. Place  
cut end down, in a greased pan. Bake  
in a hot oven. Serve with tomato  
sauce.

Over-Salted Soup  
If soup should be over-salt, peel and  
wash one or two potatoes, cut them up  
small and boil them in the soup for ten  
minutes, adding more water as it boils  
away.

A New Baking Tin  
If before using a new tin you rub it  
well with fresh lard, heat it in the oven  
thoroughly and then wash and dry it,  
it will not rust.

Your Kitchen Stove  
To prevent a stove getting greasy,  
rub it over with whips of old news-  
paper as soon as you are done using it.  
This also applies to a gas cooker.

When Jellies Break  
Jellies so often break when they are  
wanted to look their best. Should this  
happen, chop the jelly very finely, and  
then whisk hard until it is frothy.  
Set in glasses with whipped cream  
on top.

When Making Lemonade  
Sugar may be economized and a  
sweeter flavour given to lemonade if a  
table-spoonful of golden syrup is added.  
It is softening and sweetening in effect,  
and improves the flavour if the lemon  
happen to be the "shuddry" variety.

Stained Flower Vases  
When narrow flower vases are stain-  
ed, push small pieces of newspaper into  
the vase with a stick. Pour on water,  
so that the paper is quite sodden, and  
then leave for forty hours. Then stir

## PLYMOUTH

CANADA'S LOWEST-PRICED  
FULL-SIZE CAR 286With its many vital Betterments  
PLYMOUTH becomes an Even More Remarkable CARFULL  
SIZE

Long noted for its amazingly  
smooth performance, the  
Chrysler-built Plymouth now  
takes a new and more commanding lead  
among low-priced cars.

Features of vital importance added by  
Chrysler engineers to Plymouth's modern  
high-compression engine, enable this great  
power plant, to attain a new degree of oper-  
ating efficiency, with still greater smooth-  
ness, silence and flexibility.

Lengthened piston stroke,  
larger crankshaft with bigger  
bearings, larger connecting rods

and camshaft bearings, full-pressure lubri-  
cation of new design, an advanced system  
of manifold and improved crankcase  
ventilation are among the innovations  
which assure added excellence in perfor-  
mance with an attendant increase in economy.

Not have improvements in Plymouth  
been confined solely to the power plant.  
Plymouth now offers self-conforming  
cushions that insure actual "easy-chair"  
repose. A refinement of the  
steering mechanism creates an  
even quicker and more sensitive  
response to the driver's will.

\$820  
and upwards,  
F.O.B. Windsor

FULL-SIZE PLYMOUTH DE LUXE COUPE (with rumble seat), \$870

THE Plymouth — product of  
Chrysler engineering and crafts-  
manship — has been so named  
because its endurance and  
strength, ruggedness and freedom from limi-  
tations so accurately typify that high ideal  
of British people who have the Atlantic three  
hundred years ago in pursuit of new highlands.

Here — there — everywhere — you will note  
other touches of superiority which com-  
bine to give the full-size Plymouth a qual-  
ity and poise that formerly characterized  
only much higher-priced cars.

Add to these other costly features  
as aluminum alloy pistons, rubber engine  
mountings, and a scientifically engineered  
chassis with 4-wheel hydraulic brakes of the  
famous Chrysler weatherproof internal-  
expanding type. Then you will quickly  
understand why Plymouth is unapproached  
in value among low-priced cars.

Coupe, \$820; Roadster (with rumble seat),  
\$850; 2-Door Sedan, \$860; Touring, \$870;  
De Luxe Coupe (with rumble seat), \$870;  
4-Door Sedan, \$890. All prices f. o. b.  
Windsor, Ontario, including standard factory  
equipment (fringe and taxi extra).

THE WAY TO A  
MANS' HEART

Fluffy Hard Sauce  
one quarter cup butter, half  
cup powdered sugar, egg white, quarter  
teaspoon vanilla, quarter cup cream.  
Work butter until creamy, add sugar  
slowly, egg white beaten stiff, add  
vanilla, and fold in cream beaten  
stiff.

Apples Stuffed with Sweet Potatoes  
Three sweet potatoes, four medium  
sized apples, four marshmallows.  
Cook sweet potatoes, peel, put  
through ricer and season. Hollow out  
apples and stuff with sweet potato.  
Place a marshmallow on top of each.  
Bake in a moderate oven until apples  
are soft.

Baked Bananas  
Served with orange dressing these  
are really delicious. Peel the desired  
number of bananas, put them with  
flour and sugar, bake in a moderate  
oven for 30 minutes. For the orange  
dressing strain the juice of three  
oranges and one lemon and add  
slightly in a small saucepan, then add  
one cupful of sugar, and one table-spoon-  
ful cornstarch mixed smooth with a  
little water. Stir well; cook for five  
minutes; pour it over the baked ban-  
anas, replace in the oven for a few  
minutes, and serve hot.

Fried Celery  
Clean tender, white stalks of celery  
and cut them in one and one-half  
inch pieces. Cook in boiling, salted  
water for fifteen minutes, drain, and  
dry on a food cloth. Beat an egg  
slightly, add a tablespoon of stock or  
water, and season with salt and pep-  
per.

When the fifth firm bought it, over  
2,000,000 copies of it were sold, and  
their income, then \$600 a week, rose  
to over \$10,000 a week.

"Sex Appeal" is a vulgar phrase po-  
larized by the publicity fellows in  
the film world. When life was decent  
we were content to say that a woman  
was sweet and a man good-looking.  
Now, zoologists of the Elinor Glynn  
type write blarney about "it" (And  
I don't mean that contraption that

Anne Hastings

## JUST IN PASSING

A sacred burden in this life ye bear!  
Look on it bear it solemnly.  
Stand up and walk beneath it stead-  
fastly.  
Fall not for sorrow, falter not for sin,  
But onward, upward, till the goal ye win.

Right and Wrong  
One may go wrong in many differ-  
ent ways, but right only in one; and  
so the former is easy, the latter dif-  
ficult, easy to miss the mark, but  
hard to hit it.

Shavian Views on Driving  
There are few subjects upon which  
George Bernard Shaw has not com-  
mented. Recently he opened up on  
"The other fellow on the highway."  
Mr. Shaw frankly confessed that he  
regarded everyone's driving except his  
own as dangerous.

"My chauffeur," Shaw says, "has a  
tendency to regard my driving as  
dangerous. When he drives I return  
the compliment."

Two Black Crows  
Moran and Mack, the well-known  
black-faced comedians, because fam-  
ous after their first record for the  
gramophone was made. They asked  
\$6,000 for it and a six per cent royalty.  
So four firms threw them down stairs.  
"It is our living—our only sketch,"  
they said. "We are risking all we  
have."

When the fifth firm bought it, over  
2,000,000 copies of it were sold, and  
their income, then \$600 a week, rose  
to over \$10,000 a week.

SINICAL SADIE  
SEES

Little (put in corner by his mgh,  
ey)—"I can't stand young married  
women!"

New car for immediate sale. One  
used. Purchaser should bring his own  
crane.

Now You Tell One  
Snake skins may make excellent  
shoes but banana skins make the best  
slippers.

Inconsistent  
She applied her complexion,  
And painted her eyes,  
Then her lips with deft touch were em-  
bellished.

I then popped the question  
And got a surprise.  
For that girl could not "make-up"  
her mind.

Mrs. Nevech had just arrived  
from a tour of Europe and her long-  
suffering acquaintances had no oppor-  
tunity to forget the fact.

"And Paris!" she gushed. "Paris is  
just wonderful. The people are all so  
well-dressed—not at all like they  
are in this crude country, my dear!  
Why, even the street cleaners can  
talk French!"

Here lies the body of poor Peter  
Brand.  
Who departed this life late one  
night.  
When a lady driver put out her right  
hand  
And immediately turned to the right.

Pedestrian Exercise  
An old Scotsman, on a visit to Lon-  
don, boarded a crowded tram car and  
had to stand. The car started on its  
way and a little later pulled up to  
permit another passenger to get on.  
The conductor told MacDonald to hold  
up a bit, which he did. A few minutes  
later the car stopped again. This time  
an old lady stepped on. MacDonald  
was suddenly requested to stand up  
and a little later pulled up to  
permit another passenger to get on.  
The conductor told MacDonald to hold  
up a bit, which he did. A few minutes

Extensive forest fire burned 3300 acres valuable timber attributed to arson at Wabeno, Wis.

GIRDLED RUBBER BANDS

Mystery of Mackerel Caught With Rubber Bands on Stomach Explained

Ottawa. - The story of the mackerel recently captured off the Atlantic Coast with a rubber band encircling its body, has been received here as a joke on the mackerel or on the public and the mystery becomes the more pronounced by the further report that for a number of years past an occasional mackerel has been captured around the world with a rubber band. Some of the theories advanced have been ingeniously humorous. The true explanation may be found in connection with the experiments by the "North American Commission of Fisheries Investigation" which have been carried on in Canadian and American waters to ascertain if possible the movements or migrations of mackerel.

Beginning about 1925, it was arranged that a number of these fish be secured each year from the mackerel traps along the coast and a numbered tag, attached to a celluloid band, fastened to the tail of each fish and the fish liberated. In addition the number each tag bore the name "Canada" or "U.S." to more clearly identify the location of the waters and country of origin where the fish were captured and liberated. Publicity was given to experiments, the fishermen being advised in the recapture of such tagged fish to forward the tag with date and place of capture to the proper officials in charge.

In June, 1925, over 600 mackerel were secured from a trap set at Cranberry Head, Yarmouth County, N. S. and duly tagged and liberated. The experiment was continued each succeeding year at Cranberry Head and other points along the Nova Scotia coast and also at the Magdalen Islands. Similar experiments were conducted by the United States Commission. A number of the tagged fish were recaptured at different points along the Canadian coast and also in United States waters. For instance last year mackerel bearing the "Canada" tag were captured off Block Island, Rhode Island and other Massachusetts waters.

It is quite probable that the rubber bands were placed on a number of mackerel by persons doing the tagging at one of the tagging points.

Breaking 100 targets straight for 100th time is proud achievement of Mrs. A. Toepfer in San Antonio, Texas.

Schools reopen Sept. 3 and as usual The James Texts have everything required and plenty for all. Their stock is new and only the best has been selected. They may in such large quantities that students save money in their store. 429 & 31

Do as Mr. Gard

Mr. Anson A. Gard, the well known Litterateur of Ottawa, called the Wandering Yankee, says in an unsolicited testimonial for ZUTOO Tablets:  
"Zutoo Tablets stop my headaches so completely that I do not mind having them any more."  
No need for any one to suffer from headache if they do as Mr. Gard does

and take Zutoo

## SIX CYLINDERS TOP PRODUCTION FOR FIRST TIME

Promise to Lead Field Production First Time In History

Oshawa, Aug. 1. — For the first time in the history of the automobile industry, six cylinder cars promise to lead the field production this year, according to a survey by the Chevrolet Motor Company completed today. Up until this year four cylinder cars ranked first in annual production volume.

Comparative production figures for the first six months of this year, offered in support of the forecast. During this period there were produced approximately 1,900,000 sixes as compared with approximately 1,265,000 fours an indication of what the total for the year is apt to be.

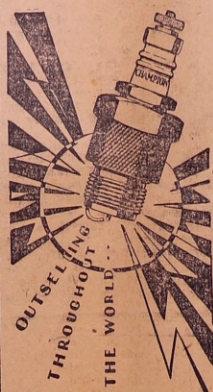

How the change comes about is illustrated in the survey. Chevrolet's manufacturing goal for the year is 1,350,000 cars. Chevrolet's change-over from a four to a six means a deduction of this enormous total from the four cylinder field and adds it to the six cylinder field.

How the automobile picture has changed almost overnight will be noted in an inspection of the 1928 showing. Last year when Chevrolet was producing a four cylinder car, four cylinder manufacturers built approximately 2,000,000 cars, with one large manufacturer of four cylinders on a limited production due to model change, while six cylinder manufacturers were making 1,617,000 cars.

As it now stands the year 1929 should show approximately 3,000,000 six cylinder units as compared to only 2,250,000 four cylinder units.

Consequently this significant development which will make the current year an epochal one in the annals of the automobile business, comes about chiefly as a result of the entrance of Chevrolet into the six cylinder field. In lay circles, this even is seen as a tribute to the automobile industry and the newest step which this gigantic business has taken in the patrons more automobile per dollar.

Great volume production, coupled with expert direction in the engineering, manufacturing and selling branches of the business are given as reasons that are making it possible for the automobile industry to lead all others in giving the public the utmost for its money.

Exclusive structural and operative superiorities have definitely established Champion as the better spark plug. That is why Champion outsells all others throughout the world.

**HAT CLEANING**  
Now that the fall season is being ushered in take a look around and dig out that old felt hat of yours and have Maraskas clean it for you; this firm will give it a thorough cleaning and return it to you, looking like new—and all at a very slight cost. Do it now—then you'll be all ready for the coming season.

**A MONEY SAVER**  
Did you know that Spragues, the Cleaners on Front street will French clean and press any gent's suit or overcoat, ladies' suit, gown, long coat or dress, accordion, knife, or fine plating only excepted for just one dollar. Try Sprague's for that next cleaning job. You'll like the work and the money saving rate.

**TIME FOR SHOE REPAIRS**  
One of the necessary jobs in preparing the children for school is the question of proper shoe repairs. Take those shoes around to Bert Adams at the Footbridge gangway and have him put them in proper shape right now in time for school opening.

**BATTERY CARE WISE**  
It may at times seem troublesome to bother having the battery looked at regularly, but it will prove economical in the long run. Your battery is the life of your car and if it fails to function you'll regret not having it attended to. Have City Battery Service on Coleman at Moira inspect the battery regularly and keep it in good shape for you.

## TWENTY - FIFTH ANNIVERSARY OF FORD MOTOR CO.

Nine Hundred Thousand Fords Made Within Dominion

Windsor, Ont. — At a ceremony commemorating the silver anniversary of the Ford Motor Company of Canada, Limited, Wallace R. Campbell, president, stamped the serial number on the 900,000th Ford motor manufactured within the Dominion.

The ceremony was attended by other officers of the Company and was witnessed by the large number of workers in the motors assembly unit at the plant at East Windsor. It was arranged as a means of signifying 25 years of participation by the company in the growth of Canada and the general prosperity of the Empire. In connection with the observance Mr. Campbell made this statement:

"The past quarter of a century which witnessed the founding, strengthening and extension of this company to a place where it is now one of the most far flung businesses in the world, will be remembered also as an era of the highest importance to Canadian industry and commerce generally. We feel that Canada is just entering the major position destined for her world trade. We take this occasion to express our confidence in the economic security and future prosperity of the Dominion."

"Canada's wealth of natural resources remains virtually untouched. Our raw materials increasingly will dominate the world market. More and more Canada has come to realize the value of manufacturing her own products. Our exports are large and they show healthy increase."

"With the accomplishments of a quarter of a century behind it, the Ford Motor Company of Canada finds keen satisfaction in surveying the future business of the Dominion with which its own interests are so closely interwoven."

It required about twenty-three years for the Ford Motor Company of Canada to manufacture approximately 750,000 Model T Ford automobiles. In the period of little more than a year and a half Model A Ford production has aggregated approximately 150,000 units. The anniversary was celebrated August 19.

Model A's are on display at Green's Motor Sales on Front street for your inspection and a glance will convince you that Studebaker is keeping well to the fore in the automotive world. The 1930 Studebaker models offer greater refinements than ever and at generally lower prices.

**NEW CAFE POPULAR**  
Wong's new cafelet is proving immensely popular with an increasing number of patrons. Opened this week it has already favorably impressed all who have seen the place. The Harmony Kings Orchestra is dispensing good dance music and an excellent dance floor makes Wong's new dining room unique in cities of this size.

**CAR REPAIRS**  
Gerow's garage on Dundas street just off Front is the handiest and most efficient place of its kind you would hope to see. Expert mechanics will look after all your car repair problems, and you'll receive prompt and efficient service.

## BIG CHRYSLER EXPANSION PLAN

New Parts Department To Be Opened On Monday

On September 1st a new Parts Department to supply Chrysler, Plymouth, Dodge, De Soto and Fargo parts for Western Canada, will be opened at Regina.

This new enterprise is another important step in the Chrysler Expansion program for Canada. Its purpose is to render even more prompt parts service to owners of Chrysler Motor cars than ever before. The new Depot brings every dealer west of the Great Lakes within 48 hours shopping time.

The building is of modern construction and is especially adapted for its purpose. The equipment is of the very latest—every device that will facilitate accuracy and prompt despatch of part

ON VIEW IN TORONTO

If you are going to Toronto during the next few weeks you have the opportunity of seeing one of the world's greatest masterpieces which is on view in Toronto.

A huge painting measuring over 23 feet across which was painted by the order of Emperor Franz Joseph of Austria by Theodore Hilder can be seen in the Commerce and Transportation Building at the corner of Bay and Front streets, Toronto. This painting has recently been brought to Toronto by Dr. H. M. Thomas, Director of G. A. Stimson & Co. Limited Canada's Oldest Bond House. The title of this picture is "The Fall of Nineveh" and the picture depicts a wonderful scene in the Palace where the King and his court attendants are terror stricken by fire which is destroying the City of Nineveh.

This picture can be seen by the residents of the Province of Ontario without charge by gazing at the offices of G. A. Stimson & Co. Ltd. 159 Bay St., Toronto.

**Too Much ACID**

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians for 50 years in correcting excess acidity. One spoonful in water neutralizes many times its volume in stomach acids, and at once, The symptoms disappear in five minutes.

## BUSINESS NOTES

**TARLINGTON MOVES**  
Now that construction work on the New Steele Store has begun, Tarlington's business will be moved from its well known stand on Front street to Murney street where a wholesale and retail business will be continued. It is understood that no down town store will be utilized for the present by this firm. Thus Tarlington's popular lines of cake, pies, doughnuts etc., will still be available to residents of Belleville and district.

## MONTREAL C.N.R. HERE ON MONDAY

Belleville Nationals Play Montreal City League Leaders Labour Day.

Montreal C.N.R. baseball team, leaders of the Senior City League will be the guests of Belleville on Labour Day, next Monday afternoon. The Belleville Nationals are waiting for a winner to be decided in the race between Montreal and Kingston, and they will take on either one of the aforementioned teams for the Championship of the Central League and the right to go into the play-offs for the Ontario Championships.

The Montreal team will be one of the hardest teams Belleville has been up against in some time, and they will have to be on their toes to take a win from them. The game will start at 3 o'clock Standard Time and the Grandstand should be packed with fans who have not had the opportunity of seeing the Nationals in action for a week or so. The Belleville Fair Grounds is the place and 3 o'clock is the time, so let's all go.

## The Girl and The Game

By Anita

Kings' on Press in their two by four sport column seem to be slightly peeved by Belleville's criticism of the Keweenaw Frontenac game. We suppose this is because it is the impression that he is a second Lou E. Marsh so we will not rob him of his fond illusions but just offer him a little friendly advice, viz—When somebody gets your goat, never let on, because it gives your enemies a nice satisfied feeling; they know you've got the worst of the argument.

Well fans, the struggle is all over and Kingston now that they have succeeded in defeating Belleville in two straight games are no doubt satisfied even if the methods employed were rather shabby and nothing to be proud of.

The splendid support given to the local girls last night by Belleville fans was much appreciated by the home team. We were glad to note that no unduly razzing was employed towards the visitors and no doubt they were agreeably surprised to play with a crowd that cheered each good play in part, no matter which team it came from.

Bessie Doolittle did her best but she is not a nine-innings pitcher as she has not the staying power and towards the seventh starts to weaken at which time her opponents begin to gather in the runs.

Helen Wilson is a dandy little player and we cannot say too much in her favour. Although her hitting was not all that it could have been, still this defect was made up for by her sterling playing on second base. She covered a lot of ground and fielded some balls that certainly were not hers, but which were left for her to get.

## AIKEN'S PICNIC ON WEDNESDAY LAST

The Aikens Mission Band held their annual picnic on the church lawn on Wednesday, August 28th.

A tempting dinner was laid in the dining hall and just as was certainly done to it.

The afternoon was spent in races and games for which appropriate prizes were awarded.

About forty were present and all agreed that they spent a very pleasant day.

#### UNITED STATES REDUCE DUTIES ON DRIED FISH

Senate Committee Explain  
Increase In Dairy  
Tariffs

#### RETARD DEPLETION

Lumber And Shingles Restored To Free Lists

By Ken Clark

(Canadian Press Staff Correspondent)  
Washington, Sept. 3.—Report of the senate finance committee on the Hawley Smoot tariff bill made public today explains its revision of the bill as in the interest of the United States producers and consumers.

For example commenting on the fish schedule committee, the report explains the seasonal change is made in one rate "in order that the larger supply may be available during the winter months." This rate as changed is half a cent a pound instead of one cent upon fish other than halibut, salmon, mackerel and sword fish, from Oct. 1 to May 1.

Report continues the "duty on fish dried and unsalted cod, haddock, hake pollock and cusk has been reduced from 2½ cents per pound to 1½ cents because the higher rate imposes an unnecessary tax on consumers.

Lumber and shingles are restored to the free list because the costs of production in Canada and the United States are about equal and Canadian shingles are better and as mills in Puget Sound are without supplies.

#### WELCOME PUPILS AT COLLEGIATE

Student Body Swelled With  
Influx Of The Rural  
Graduates

Inaugurating the second year of Belleville's \$500,000 Collegiate Institute and Vocational School, of which there is no finer in the Dominion of Canada, a simple ceremony was held in the auditorium of the collegiate this morning with a student body of nearly seven hundred present.

Devotional exercises were conducted by the Rev. L. S. Wright, of Holyway Street United Church. Mr. Wright conducted the invocation and read the scriptures. In a short address he stressed the point that "Canada could take care of her own people. There is no need of migrating to the United States of America. There are many opportunities in this country of ours."

Mr. G. A. C. Weir, representing the Board of Education, chairman of the collegiate committee, on that, also spoke briefly. Mr. Weir welcomed the scholars to the school on behalf of the Board of Education. A warm welcome, particularly, was extended to those students who are entering their first year in the new school.

Mr. P. C. McLaughlin, as principal, assigned the curriculum for the coming year to the students and introduced the two new teachers, Miss E. Croute and Mr. W. P. Youdale.

#### GROCERS VISIT QUINTE DISTRICT

Belleville will pay his tomorrow to six apprentice grocers from the Quinte district to see conditions in Canada and how business is carried on in Canada. Messrs. Arthur Brooks Howard G. Capon A. C. Crook, William L. Maion, Leonard Audus and C. L. T. Beecher, are the apprentice grocers who are touring Ontario at present. They are all from London, England, and won their trip to this country in an essay contest.

While in Belleville, and they will remain here tomorrow and Thursday they will be under the guidance of J. L. Irwin, Dairy Produce Grader. He will show them one of Hastings main industries, the cheese industry. They will be shown through several factories in Prince Edward and Hastings counties.

#### INDIAN SENT TO HASTINGS GAOL

Aftermath Of Highway Accident Heard In The Police Court

Wilfred Brant of the Tyendinaga Reserve was on Saturday before Magistrate Bedford at Deseronto, convicted of driving an automobile while in an intoxicated condition, and was sentenced to serve seven days in jail. In addition to this, he was fined one hundred dollars and costs for having liquor without a permit, and in default of full payment will serve another six months.

George Brant, a companion in the car at the time of the arrest was fined ten dollars and costs for consuming liquor in a public place. Both men were arrested after an accident on the highway two weeks ago when they struck a United States tourist's car.

#### COMING EVENTS

#### KIDDIES FLOCKING BACK TO SCHOOL AFTER VACATION

Few Changes On Staffs Of  
City Schools—Many  
Beginners

#### REPAIRS COMPLETED

Student Body At Collegiate  
Will Be Composed Of  
Eight Hundred

Vacation days are over and this morning children of all ages trooped back to "the little red school house." Except there are no "little red school houses" in Belleville, as when St. Michael's Academy is completed, six of the most modern and up-to-date school buildings in Canada will be situated in this city.

It appeared this morning as though there would be a record attendance at school this term. The new collegiate institute is accommodating more students than ever and the lower schools will be well filled. During the vacation the Board of Education say that all necessary repairs were completed at the various schools, and when the pupils returned this morning all was in readiness for them.

About eight students will attend the collegiate institute and vocational school this year. Last week alone there were five hundred registrations, and all day today the pupils kept pouring in. Many of the new students were amazed at the splendid new half-million dollar building, its beautiful bright classrooms and elaborate technical department.

There are few changes on the collegiate staff this year. The only two changes, the Intelligencer was told this morning, were Miss E. Groat to replace Miss T. Sutherland in charge of Domestic Science Department and Mr. Youdale has been engaged in the technical department. Otherwise, all the old staff was on hand this morning and Mr. P. C. McLaughlin, the principal, looks for the best year in the history of the school.

##### Good Attendance

The grade schools all reported good attendance. There does not appear to be much sickness among the pupils and practically all were ready to report back to their studies this morning.

King George school will have a total attendance this fall of approximately three hundred and seventy-five students, of which thirty are beginners. The only changes in the staff are—Miss Totton, Mr. Brown and Mr. Kels have been engaged on the permanent teaching staff.

Queen Mary has a class of thirty-eight as beginners. The total attendance this fall will run about five hundred pupils, about the largest in the city. Mr. McMullen has been engaged to succeed Mr. Harry Redford on the teaching staff and Miss Marjorie Ketchum will replace Miss Moore.

Queen Victoria will also have a large attendance this year, between five hundred and five hundred and fifty pupils. There is one change on the staff, Mr. Edgar Bateman to take Mr. Youdale's position. Mr. Youdale has been added to the collegiate teaching staff. There are about fifty new students.

Queen Alexandra this year will have no staff changes. There are thirty-five new pupils and an attendance of over four hundred pupils.

St. Michael's, the separate school, will hold classes this year, for the present, in St. Agnes Manor. The classes of the St. and St. Joseph, will be held in the collegiate.

#### PROMPT ACTION SAVED BIG LOSS

Smelling smoke as he passed the gangway leading to the rear of the E. F. Dickson 2000 on Front street about six o'clock Sunday morning, Constable Thomson investigated and found an Essex sedan parked in the gangway, with all doors locked and filled with smoke.

The constable shattered a window of the car and opened the door from the inside, pulling out the front chuck which was smoldering. A hole about six inches in diameter had been burned in it, and had it not been for the prompt action of the policeman, the automobile would have likely been burned. It was owned by a Toronto man who left for that city yesterday without leaving this message.

#### RECOVER BOYS' BODY FROM TORONTO RIVER

(Canadian Press)  
Toronto, Sept. 3.—The body of nine year old Charles Freeman, who disappeared from his east end home Thursday afternoon was today recovered from the Don river. Identification was made by the boy's father.

#### NEAR FATALITY IS REPORTED AT RAIL CROSSING

Driver Claims Gates Were  
Not Lowered By The  
Watchman

When he ran his car in between the gates and the railway crossing on South Front street, at Saturday afternoon, Frank Cousins, 64 57 South George street, narrowly escaped serious injury, and had his automobile badly damaged. The car was struck by a passenger train, which was fortunately not travelling at a fast rate of speed, when it stalled on the tracks.

Mr. Cousins claimed that the gates did not close until the front wheels of his car were on the tracks and when he saw the train coming, he stalled the car.

Mr. Walter Ferguson, who operates the gates, however, claims that there was no car in sight when he closed the north gates and that he saw the car after he had closed the south gates. As soon as he saw the car which had crashed the gate he raised it again but the car did not move out of the way of the advancing train.

Miss Grace Calberry from street, an eye-witness to the accident, declares that the gate was lowered directly in front of the car and that the driver did not have any chance what on the tracks.

A full investigation into the accident will be made.

#### HEAVY TRAFFIC ON THE HOLIDAY

Cars From Every State  
Thronged The King's  
Highway

Seldom this summer has traffic been so heavy over highways leading into Belleville as it was on the past weekend. Yesterday most especially, the world and his wife were out in automobiles, and from Belleville to Trent and Belleville to Napanee stretch of one long, unbroken string of cars or the greater part of the day.

Cars from every state of the Union must have passed the traffic signal at the corner of Front and Bridge streets—at least that is how it looked to a casual observer. New Mexico, Arizona, and Texas may have been missed but California and Florida were represented.

The past week-end is the first taste of real summer that has struck eastern Ontario in some time. For a wonder it was hot and a suit-coat was not a necessary adjunct to a drive. The Bay of Quinte was well patronized by swimmers.

Fortunately, there were no serious accidents over the long week-end. No fatalities from automobile accidents were reported in Hastings county, at least, this morning. Driving in Prince Edward county, however, one could see dead chickens literally strewn the highway. Between Bloomfield and Wellington one driver reported seeing five chickens that had done battle with automobiles and come off second best.

Inspector Rustin of the C.A.S. informed the Intelligencer this morning that he counted an average of 80 cars every five minutes while driving to Toronto yesterday. So it would seem that another record is broken.

##### ATTENDING CONVENTION

Major R. D. Ponton, K.C., and Charles A. Payne, two of Belleville's successful practicing attorneys left on Sunday to attend the annual meeting of the Canadian Bar Association which will be held at this week at Quebec City, Quebec. Colonel W. N. Ponton, K.C., and A.B. Collins will probably attend the convention later this week.

#### MINOR ACCIDENTS MARRED LABOR DAY ON HIGHWAYS HEREABOUTS

Ernst Vierkoetter

Toronto, who came in second in the fourth Wrigley marathon at the Canadian National Exhibition, Toronto, on Aug. 30.

#### R. P. WHITE IS GIVEN CONTRACT FOR NEW STORE

Work On Reconstruction Of  
Steele Premises To Start  
At Once

The general contract for the work of reconstructing the Dominion Store on Front Street to be occupied as a Steele's 50 to \$100 store was awarded today to R. P. White, prominent Belleville contractor and builder by Major Matthew Hansen, vice-president of Steele's Consolidated, Limited, who is in the city in connection with the company's plans for its new store here. Other contracts in connection with the work of the present building is to be let to R. P. White, prominent Belleville contractor and builder by Major Hansen, these contracts will include heating equipment, plumbing painting and electrical work and undoubtedly will be awarded to local concerns.

Extensive alterations are to be made in the premises in order to meet the requirements for Steele's Store. The property to be occupied is just opposite Campbell Street on Front Street and formerly was occupied by Dominion's Fruit Store and the Tarrington Bakery. The combined frontage of the two stores is 40 feet and the present depth of the building is 70 feet. A part of the present building is to be razed and a new addition constructed.

#### KIWANIS CLUB KARNIVAL SOON

Annual Affair Will Take  
Place In Armouries  
As Usual

The local Kiwanis Club members are busy these days preparing to stage their 4th Annual Kiwanis Carnival in the Armouries September 16th to 21st. Since the annual Kiwanis idea was introduced here by the Belleville Club four years ago, and has since been conducted each year with growing popularity, many other Ontario Clubs have been running similar events with unqualified success. Last year the local made approximately twenty-five hundred dollars, all of which is used for charitable and educational purposes; this fall the Kiwanis promises to be better than ever, with new features galore and new forms of entertainment. As usual the merchants will take display space in the Armouries, and the Kiwanis will, as in other years include a presentation of the style trend for the coming season.

In the presence of President George Lee, Kiwanian Joe Imlah, occupied the chair at today's luncheon meeting. Rev. Mr. Farnsworth addressed the club, dealing with the advantages to a community of the type of men in such clubs as Kiwanis, and the value of their service work.

Mr. Ross Hunter was introduced today as the newest member of the local club.

Ambulance Driven By Chief  
Kidd Killed Farmer's  
Cow

#### AUTOS WRECKED

Two Tourists In Hospital  
Following Crash Near  
Trenton

Several accidents marred the holiday in this district although fortunately for those concerned none proved serious. While returning from a trip with the Belleville ambulance into Tyendinaga with a patient for the hospital, Chief Kidd, driving the ambulance, struck a horse owned and driven by J. Greatrix, who lives along the highway and the horse was instantly killed. Mr. Greatrix admitted full responsibility for the accident and although the car was damaged to some extent, it was able to proceed under its own power to Belleville.

Greatrix was driving out of his yard and had returned to shut the gate behind him, leaving the horse unattended for the moment. The animal wandered on out on the highway just as the ambulance came along and due to a turn in the road at this point the chief of police was unable to see the horse until it was too late to avoid the accident. The windshield of the car was shattered and two fenders were badly crushed. Only expert driving on the part of Chief Kidd saved the ambulance from crashing in the ditch, and no one was injured. Michael Naphan of Tyendinaga was riding with the driver on the front seat while Mrs. Naphan and a nurse were in the back of the ambulance.

Mrs. Fred Weir of Detroit is lying in the Belleville General Hospital with a broken wrist, cuts about the face and forehead and a cut on the lower limb while Mr. Weir was discharged from the hospital last night with a small cut on the forehead as the result of a crash on the highway about two miles east of Trenton yesterday afternoon.

Mr. and Mrs. Weir, as well as their two children aged five and two and a half respectively were riding in Mr. Frank Shinn's automobile. Mr. Shinn, coming from Detroit, was in order to avoid another car, according to Shinn, it took the ditch and wrecked his car, injuring the Weirs at the same time. Police claim that there was no necessity of Shinn going into the ditch.

The two injured persons were rushed to the Belleville General Hospital where they were placed under the competent care of Dr. S. R. McCrory, this city, and Dr. Driscoll of Trenton.

When Lawrence Allen, of Picton, driving a large car turned out sharply in front of S. Barky's of Toronto, about two miles west of Trenton, yesterday afternoon, the car was badly smashed although no one was injured. Police investigated and the blame for the crash was laid to Allen.

A truck from the province of Quebec was driving slowly along the highway two miles east of Trenton, yesterday afternoon, when it struck a taxi cab driven by H. A. Weeks, of Trenton. Not much damage was done to either car. The case was settled out of court.

Accident At Holloway  
Sunday afternoon about 3 o'clock, a car driven by Mrs. Percy McGart, 56 Geddes street, struck another driven by Mr. M. Mullen of Niagara Falls, Ont., near Holloway on the Macdonald Road. Beverly McGart, year old son of Mrs. McGart, suffered severe cuts about the head and face, while the other occupants of the car received minor injuries from flying glass. In the McGart car with the driver was Miss Emma McGart, of Montreal and Mr. and Mrs. A. Chabot.

#### DAYS OF FLYING ENDED BY CRASH

(Canadian Press)  
Cleveland, Ohio, Sept. 3.—Lady Mary Heath, Irish aristocrat, injured in a test landing here Thursday during the National Air Races, has improved chances of recovery, but the probability is, that she will never fly plane again, her physicians said today.

Lady Mary, distinguished for long distance flights, suffered a severe fracture of the skull when her plane plunged through the roof of a factory.

### TODAY'S THOUGHT

All true work is sacred; in all true work, there is something of heaven. Labor, wide as the earth has its summit in heaven. Sweat of the brow; and up from that to sweat of the brain, sweat of the heart; which includes all Kepler calculations, Newton meditations, all sciences, all spoken epics, all acted heroisms, martyrdoms, —up to that agony of bloody sweat which all men have called divine!—Thomas Carlyle

### FOREIGN VIEWPOINT STARTLES CANADA

We are prepared for surprises when given a glimpse of ourselves as others see us, but no amount of preparation could save the average Canadian from astonishment at the view given of Canadians at the meeting of the Institute of Politics, an international gathering that is being held at Williams town, Mass. It was Professor Andre Siegfried, described as economic expert for the French foreign office, who furnished the surprise. After declaring that the "Canadian point of view of foreign politics is likely to be more American in its inspiration than it is British," he went on to draw the following conclusion:

This state of affairs tends to attract the center of gravity of the British Isles. Great Britain is so desirous not to alienate Canada's goodwill that she nearly always gives way in matters of discussion. Concessions, which, in appearance are granted to Canada, are in reality granted to the United States whose point of view imposes itself.

Thus Great Britain is drifting apart from Europe, because she occasionally follows American trends rather than European. The French foreign policy can only be headed straight for the rocks if it is built up on that kind of expert advice. In 1914 Canada gave rather a striking illustration of the extent to which the United States point of view of foreign policies was imposed on her an illustration of which a Frenchman even though not a foreign office expert may have heard.

Canadians are not likely to take much stock in the flattering phrases about her great influence with the Mother Country when they remember they were uttered by the same mouth as pictured Canada being used as a cat's paw for the United States. If Great Britain is drifting apart from Europe, nothing is more certain than it is not because Canada is, consciously or unconsciously, allowing herself to be used by the United States to impose United States views on the Mother Country.

### LEAVE NO DOUBT IN PUBLIC MIND

Investigation into the deaths of young children under anaesthetics in Toronto hospitals should provide the answer to three questions:

Was the anaesthetic given of a pure or of a poisonous nature?  
Were the doctors who administered the anaesthetic competent?  
Were the operations contemplated of a strictly necessary nature?

Six children have expired within the past few weeks while being anaesthetized in preparation for operations or while being operated on under anaesthetics. For the sake of the good name of Toronto hospitals, for the safety of children who must undergo operations in the future, and for the exposure of negligence, if there

has been negligence, the investigation how under way should be thorough. If there has been neglect let it be known. If all due precaution and skill were exercised, let that also be known. The public should not be left in doubt on the matter.

### INTELLIGENT AIDES TO EXPORT BUSINESS

Although Canada's tremendous natural advantages enable her to compete in business successfully across the seven seas, yet both the Dominion and its products need advertising. The fact that her resources are so great is evidence of the need of full publicity. In the past her trade has made great strides, but greater things lie before. New markets must be opened, local conditions studied and business men assisted.

Through advertisements inserted in the leading papers, the Department of Trade and Commerce at Ottawa is directing special attention to the facilities offered to the Canadian exporters through the Commercial Intelligence Service. In these advertisements facts and figures set forth and the names and duties of Canada's 32 trade commissioners abroad indicated. This service in the past has been of great assistance to the Canadian trader dealing abroad. It is bound to be of even greater service in the future as the country's foreign trade grows. Business men are invited to take full advantage of the opportunities afforded.

### GHOST STORIES ON THIN FOUNDATION

Recently a story went the rounds of the papers containing a circumstantial account of the appearance of the ghost of a Dominican priest in the Holy Cross Priory at Leicester. The London Tablet of August gave an categorical denial to the story and declares that the whole thing was a fabrication. No Father or Brother at Holy Cross Priory had claimed or imagined he had seen such an apparition either by day or night, of the late Robert Wylie.

The prior did not make the statement in the pulpit attributed to him says the Tablet, and the interviews said to have been given by members of the community did not take place, and the members of the order whose names were mentioned in connection with the reporter's visits were away on holiday when the supposed apparition took place.

Many who read the story must have recalled the story published of the apparition of a priest at the Carmelite chapel at Ardoyne, at the junction of the Crumbar and Woodvale roads, Belfast, Ireland. This was at the close of the last century and the story was from the pulpit and never contradicted. One of the Fathers, recently deceased had been seen on several occasions in the corridors and in the chapel and at last was challenged by another priest. The "dead" priest stated that he had undertaken to say masses for the soul of one of the parishioners and his death had interrupted this duty and he could not rest till it was discharged. The priest who heard the recital undertook to say the masses, when the apparition disappeared and was seen no more. This story was the talk of Belfast at that time, and was never contradicted.

### OTHER MEN'S THOUGHTS

They have entirely lost patience with the unnecessary noises caused by motor cars in London and the ministry of transport has issued an order which will give magistrates very useful guidance on what they are to consider legal offences. They are to include:

Unnecessary honking of horns.  
Grinding and squeaking brakes.  
Flapping of loose solid tires.  
Excessively loud horns.  
The clatter of badly packed loads on trucks.  
Backfiring engines.  
Unnecessary grinding on shifting gears.  
Indecent silencers.

This is the list as the London Magistrate will get it. Of course it might be prolonged considerably. Might it not be a good idea if our local magistrates posted this list up on their desks? So far, they have nothing very definite to go on in deciding what is unnecessary noise and in the lack of it Montreal is rapidly becoming a bedlam.—Montreal Star.

There are 7,000,000 fewer horses in U. S. now than there were ten years ago.

### PASSING YEARS From The Intelligencer Of This Day 30 Years Ago

Mr. John Frost, Jr., of St. John's, N.B., is in the city visiting his nephews.

Mr. and Mrs. J. Fritz Jeffers are in Toronto the guests of Hon. Geo. E. Cox.

Mr. Alex. Gault will arrive home tomorrow. He has been on a visit to the old country.

Mr. Thos. Newton of Woodstock, a former resident of Moira is in the city visiting his cousins, the Misses Clepp, West Bridge St.

Mrs. Wilkins, Albert St., returned home this morning by the Alexandria from Montreal.

Mr. Alex Ray and Mr. Robt. Wells left today for a few days visit in Toronto.

Mr. Wm. Embury of this city is visiting his cousin, Dr. Embury in town.

### HAVE YOU HEARD THESE?

"I say, I've heard you can't meet your creditors! Is it true?"  
"Unfortunately, no! My trouble is

I can't avoid them!"

He was spending his first term at a boarding school and his parents anxiously awaited the arrival of his first letter.

It was not received for more than a week and it was short and to the point.

"Dear People—I don't think I shall be able to send you many letters while I'm here. You see, when things are happening I haven't time to write, and when they aren't happening, I haven't anything to tell you—With love to all, Harry."

Mother (who is rather romantic): "I often wonder what happens to the stars in the day time."  
Her son (absently): "I have heard that quite a number of them sleep until midday."

He had joined a golf club and on his first hole made it in one. At the second tee came another miracle. Another awkward swing and he made the second in one. Turning around, while trembling, he said:

"Gosh! I thought I'd missed it that time."

### TO AN ADMIRABLE LADY

We loved as well as any  
The little girl could boast,  
And sweeter you than many,  
But truer I than most;  
But that was in the Spring, my dear,  
And now, though memories cling, my dear,  
The Spring's a vanished ghost.

Her leaves are brown and falling,  
Her happy fields are seen,  
And, down the shrill winds calling,  
Wild geese farewell the year;  
And in these chill November days  
Love's flame has found his summer days  
And flickers low, I fear:

But where the need for mourning,  
The sad Autumnal cry?  
We know not tears and mourning,  
Or talk of dreams gone by  
When Sundered ways we start again—  
For you can kiss and part again  
Light heartedly as!

—JOSEPH SCHULL.

### OTTAWA DOCTOR DIES

Ottawa, Sept. 3.—Dr. William Alexander Graham, of Ottawa, died in Prescott, Arizona, early this morning according to word received today.

## THAT BODY OF YOURS

By James W. Bar-on, M.D.

### YOUR WEAKEST LINK

You heard the expression that a chain is only as strong as its weakest link.

Now your hold on health, often on life itself is only as strong as the weakest organ in your body.

And yet Nature is so kind to you that you could live year in and year out with but one kidney, one lung, one half the liver not doing any work, a leaky heart and other deficiencies.

On the other hand, you may not have any of those outstanding deficiencies and still not be a real healthy individual.

For you are made up of what you have inherited from your ancestors, and what you've done with your body since you were born.

In some are found conditions where the glands are overactive or deficient in action which means activity or sluggishness, mental and physical.

Some are very short and others very tall, due to gland action.  
Some are sensitive to certain foods such as butter, eggs, sugar, honey, milk, and even small quantities cannot be eaten without causing distress, internally and externally, while others can eat anything without any disturbance.

Some are more prone to certain diseases than others. Thus we speak of the diabetic type, the tuberculous type, rheumatic and other types. And so with our bodies as also with our minds. One individual is quiet, and thoughtful, calm in spirit and another is excitable, talkative and given to outbursts of temper.

The thought is that just as you estimate your assets and liabilities in business, estimate the needs of your body, or other possessions, so also should you size yourself up candidly and carefully.

Further, you should consult your family doctor, and tell him the things about yourself that he cannot find out for himself.

With what he can learn about you from a careful examination from head to foot, and what you tell him honestly about yourself, he can lay out a course in life from the health standpoint.

## THE BULLETIN BOARD

Mainly About People You Know

### TOURISTS REGISTER.

Registrations at the Chamber of Commerce over the past long week-end included: M. D. Coughlin, Cross Island block on Dundas Street according to the latest rumors. Negotiations for the block were recently completed. There is also a current rumor that the Metropolitan Store will open a branch in the premises vacated by Mr. C. Weaver.

### TO OPEN NEW STORE.

Loblaw's will shortly open one of their chain stores at Toronto in the Ireland block on Dundas Street according to the latest rumors. Negotiations for the block were recently completed. There is also a current rumor that the Metropolitan Store will open a branch in the premises vacated by Mr. C. Weaver.

### VALUABLE DOG LOST.

"Peter," a valuable sheep dog, has been missing from his home, 60 W. Bridge street, since the 22nd of August last, and nothing has been heard of his whereabouts since then. His master, Frank C. Maynard, employed in the local office of the Bank of Montreal, would appreciate immediate notification, if the dog is found.

### HASTINGS COUNTY EXHIBIT

Hastings county has one of the most beautiful displays of all the Ontario counties at the Canadian National Exhibition this year. The exhibition is the first one as you enter the Govt. building and has attracted considerable attention. Mr. Wilson, agricultural representative from Stirling, is in charge.

### WOODWORKING ATTRACTION

Olen W. Elliott, of this city, has an extremely interesting exhibit at the Exhibition this year. Mr. Elliott, who is a woodworker of note, has an interesting display of his handicraft on show.

### STANDARD TIME NOW

At midnight on Sunday Belleville swung back into Standard time. There was absolutely no confusion at the change, citizens putting their clocks back one hour before they went to bed. In December a vote will be taken on the question at the municipal elections.

### NOT OPENING YET

Two of Belleville's most important educational centres will not be open for some time yet. Albert College is due to open on the 17th of this month. Thursday, while the Ontario School for the Deaf will open a week from tomorrow, the 11th of September.

### IN CHARGE OF EXHIBIT.

Mr. Arthur Hill, Foster avenue, a popular employee of the Government Fish Hatchery here, is in charge of the Government Hatchery exhibit at the Toronto Exhibition this year. Mr. Hill has been engaged by the Government for some time in this capacity and is well qualified to answer the numerous queries on this industry. The exhibit is one of the most interesting at the "Ex."

## TODAY'S MARKET

## LOCAL PLAYERS SUCCESSFUL IN TENNIS TOURNAMENT

### Splendid Dance At Country Club Wound Up Affair

Belleville players were signally successful yesterday in the Tennis Tournament which was run off by the City of Quinte Country Club. This Invitation Tournament was one of the best ever staged in this part of the county, and the fact that out of the four events, four Belleville teams were in the finals speaks well for the brand of tennis played in this city. Miss Sylvia Ross, however, was the local entrant to come through with the final win, she taking the ladies' singles after a hard battle with Miss Weston of Campbellford.

Albert Armstrong met M. Perry of Ganarquo in the finals for the men's singles, and was eliminated by the smooth working player. The Ganarquo player is undoubtedly the best ever seen on a Belleville Court, and the shots, drives and placements which he used were admirable. There was no disgrace to lose out to this coming player who without doubt will, in a few years be one of Canada's ranking players.

In the men's doubles, the Black brothers, Alphonse and Twomey, were put out in the finals by Dr. McDonald and Grant McLaughlin of Kingston. The Black boys made their old rivals step all the way, being beaten out only after forcing the issue to the score of 7 to 2.

After the tournament, which lasted from nine o'clock in the morning until six in the evening, the visitors were entertained at the Country Club and in the evening the second Tennis Club dance of the season was held which was enjoyed to the utmost by all who attended.

### DEATHS & FUNERALS

**EDWARD GEORGE LANE**  
The funeral of the late Edward George Lane took place on Saturday afternoon at the Point St. Augustine church. Services were conducted by the Rev. Gregory. The bearers were J. Bell, P. Bennett, W. Annabug, C. Storr, P. J. Hart and J. Fleming. Interment took place in the Belleville Mausoleum.

**WILLIAM R. MACDONALD**  
The funeral of the late William R. MacDonald took place on Monday afternoon. The services were conducted by the Rev. Keough. The bearers were G. Cornell, J. Mosier, A. Smith, H. Van Orden, A. Baxter and J. Bell. Interment took place in Belleville Cemetery.

**MISS OLIVE WICKSON**  
All that was most of the late Miss Olive Wickson was laid to rest in the Belleville Cemetery on Monday afternoon. The funeral took place from the home of the deceased, at St. Thomas. The funeral services were conducted by the Rev. John Lattin. The bearers, all friends of the deceased, included: J. Alexander, Bell Adams, F. Symons, H. Poste, B. Bell and R. Miles.

Mr. Day 18.75, Hollinger 6.25, Howey 1.05, International Nickel 54.75, 90, Pac. 453, Ass. Oil 375, Calg. Edmonton 7.20, Chem Research 14.20, Lake Shore 22.25, Calmorte 5.00, Mining Corp. 4.20, McDougal 45, McIntyre 14.75, Big Missouri 121, Newbec 41, Nipissing 20, Noranda 565.25, Pendergast 15.00, Gordon 7.30, Siscoe 91, Sudbury Basin 600, Tack Hughes 600, Vipond 60, Wright Hargreaves 149.

## BLAZE DESTROYS BIG FRAME BARN

Warner Wood, of the 6th Concession of Sidney, had had hard luck here last two or three years with his barns and houses. Two years ago a fire barn was burned to the ground and last Christmas he suffered the loss of his house by fire. Early on Sunday morning last his barn was burned to the ground again. Stored in the building was his season's crops and all his farming machinery, which were destroyed by the flames. As well as these, three cows were burned to death in the blaze.

The fire, which was of an unknown origin, started early in the morning and although the neighbors helped to quell the flames it was to no avail. Mr. Wood was insured with the H. P. Richardson Company of this city.

### MINOR ACCIDENTS

(Continued from Page 1)  
per, College Hill. Miss McTaggart was holding the child in the front seat and when the windshield broke, most of the glass fell on the baby. Both the Mullen car and the McTaggart car were badly damaged and it seems probable that no one was more seriously injured.  
Driving through Foxboro on Friday last, Calvin Tanner, address unknown, struck a cow on the highway, wrecking his car completely. The cow was killed instantly by the impact.

## PERSONALS

VISITORS WHO COME AND GO.

Constable William Evans, Mrs. Evans and family are spending a few days in Toronto, taking in the sights at the "Ex."

P. C. C. McLaughlin and daughter Ellen were recent visitors at the Toronto Exhibition.

Mrs. Ellen McCall who has been visiting some weeks with friends in Sault Ste. Marie, Ontario, has returned home.

Mrs. G. Saunders and son Harold of Kingston visited over the week-end with Mrs. F. H. Henry, Charles St.

Mr. Hamilton Lake, accompanied by a number of friends visited Toronto and Niagara Falls on the holiday.

Mr. and Mrs. Glenn Baugh of Schenectady, New York, spent the week-end with the latter's parents, Mr. and Mrs. Orval Crowe, Evans St.

Mr. Wyatt Lent of Chicago, spent the week-end with his brother Mr. G. Lent, Blecker Ave.

Mr. Chas. Hayes of Watertown, N. Y., was a visitor here yesterday en route to the Toronto Exhibition.

Miss Vera Brown spent Sunday in Toronto with friends.

Miss Vera Bonbridge who has been a visitor in Toronto for the past several days has returned home.

Miss Margaret McTavish is holidaying in Toronto.

Mrs. Morley Ward of Toronto is a guest at the home of her father Dr. W. S. McTavish, West Main St.

Mrs. Arnold accompanied by her daughter Grace and son Richard spent the week-end in Toronto.

Misses Palma and Laura Melchior motored to Toronto over the week-end and visited the Exhibition.

Mr. Harry Burke of this city was in Toronto over the week-end visiting friends.

Miss Priscilla Doran spent the holiday visiting in Toronto.

Misses Irene Woodley of the C.D.S. and Theda Mott, spent Labor Day in Toronto.

Mr. William Mowatt of Toronto spent the week-end in Belleville visiting friends and renewing acquaintances.

Mr. Milton Davidson spent the week-end visiting friends in Toronto.

Mr. Arnold Bryant of this city visited in Toronto over Labor Day.

Mr. Angus McFee, Jr., and Mr. Joseph Lee spent the holiday in Toronto.

Mr. Sam Curry of the Intelligencer staff returned home on Saturday after having visited with Mr. Milne Oakes at Sault Ste. Marie for a few days. He was a member of the Editor's party which toured northern Ontario.

Miss Beaulieu Vandewater who was formerly associated with the J. A. McRabb Company in this city returned to Toronto last evening after having spent Labor Day with her mother on Coleman street.

### PEARCE—BARAGER

The marriage took place in Belleville, on Saturday, Sept. 2nd, at the residence of Rev. Dr. J. P. Wilson, Bridge St. East, of Mrs. Mary Jeanette Barager, Belleville, to Mr. Josiah W. Pearce, ex-M.P.P., also of Belleville. Rev. Dr. Wilson officiated.

**McGLASHON—GYMER**  
Yesterday afternoon at four o'clock, Christ Church was the scene of a quiet wedding. When Miss Dorothy M. S. Gymer, daughter of Mr. and Mrs. F. H. Gymer, Anne Street, was united in marriage to Mr. Alex W. McGlashon, of Mr. and Mrs. James D. McGlashon, McDonald Ave., Rev. A. Clarke officiated.

The bride, who was unattended, was charming in a frock of Periwinkle blue georgette with small gold brocade hat, and shoes and hose in a corresponding shade. Her bridal bouquet was of Op-holia roses and Baby's Breath.

Immediately after the wedding a luncheon was served at the home of the bride's parents. Mrs. Gymer assisted the bride couple in receiving the guests who included friends and relatives from the city and out of town, points, Montreal, Rochester, Kingston, Toronto and Evansville, Ind.

Mr. and Mrs. Gymer left last night by motor for a honeymoon trip to Montreal and points east. Upon their return they will reside in Belleville.

**KEIR—RAINBIRD**  
A beautiful midsummer wedding took place yesterday morning in the Tabernacle Church, when Vera Mercey, eldest daughter of Mr. and Mrs. Joseph Rainbird, Pine Street, was united in marriage to Mr. John Arnold Kerr, son of Mr. and Mrs. Simon G. Kerr, Turn-bull street, Rev. A. E. McCutcheon officiated.

The bride, who was given in marriage by her father, was beautiful in a frock of hand painted organdie. Her wide picture hat was of mohair with peach velvet ribbon, and she carried a bridal bouquet of sweethearts, roses and baby's breath. Miss Edith Rainbird, sister of the bride, was bridesmaid and wore a frock of primrose hand painted organdie with wide black mohair hat and carried gladioli. Mrs. Victor White assisted the groom, Mr. Cornell presided at the organ.

Following the ceremony a luncheon was served to a large number of friends and relatives at the home of the bride's parents, Pine Street. Rainbird assisted the bride and groom in receiving the guests many of whom were from distant points.

Mr. and Mrs. Kerr left on the 12 o'clock train for Papineau Falls, where they will spend their honeymoon. The bride travelled in a smart navy blue ensemble, the frock of which was trimmed with sequins. The wrap-around hat was of moire and she wore a small hat to match. Upon their return they will reside in Belleville.

The bride and groom, who were popular members of the younger set, received many beautiful gifts. The bride was presented with a lovely silver service from the Canadian Department stores where she has been employed for the past few years. The bride's employees also gave her couple valuable gifts among which was a purse of gold.

A Thriller of Love, Drama and Comedy

"DANGEROUS CURVES"

with RICHARD ARLEN

News Great Comedy

Thursday—Zane Grey's "Stairs of Sand"

**FARMERS**  
Continued from Page One

"The danger has by no means been eliminated," said Mr. John Woods this morning, "but we hope to prevent the spread to the fields near-by." "The lack of rain," he said, has been the means of the fire's gradual spread. Mr. Woods inferred that unless there is an immediate rain some of the crop will be a total loss particularly the corn which is badly in need of moisture to sustain the roots. The cat crop has been practically all harvested while the outlook for the buckwheat is most too encouraging as it ripened too rapidly. "The ground is parched," he said, "and farmers in this locality are looking for the poorest crop in years if rain does not fall soon."

**R. P. WHITE**  
(Continued from Page One)

so that when completed Steel's Store will have a frontage of 40 feet and a total depth of 113 feet. A complete new front conforming with the standard type of Steel's store fronts will be installed with two front entrances and three large display windows.

Major Hansen stated he could not give any definite date for the opening of his company's store, here. He said that Mr. White who has the general contract, will rush the work through with all consistent speed and, when additional contracts are awarded, it will then be only a question of how soon the workmen can complete the job.

Following the ceremony a luncheon was served to a large number of friends and relatives at the home of the bride's parents, Pine Street. Rainbird assisted the bride and groom in receiving the guests many of whom were from distant points.

Mr. and Mrs. Kerr left on the 12 o'clock train for Papineau Falls, where they will spend their honeymoon. ## WHALING INDUSTRY IN THIS LAND DATES BACK TO 17TH CENTURY

Is Now Only Carried On Off  
Coast of British  
Columbia

Oshawa. — While as early as the seventeenth century whaling was carried on in the Gulf of the St. Lawrence operations have been carried on in by fishermen from France, little or no Canadian, Atlantic waters for some years. With rare exceptions the only whales of any commercial value now frequenting the Canadian North Atlantic are the common Rorqual or Blackfish, and the Beluga or White Whale, which is found in considerable abundance in the St. Lawrence district. No distinct fishery, however has been established for the capture of these two varieties, although it is probable that steps may be taken to encourage the destruction of the Beluga, as they are becoming a heavy menace to the salmon fishery of Quebec.

The industry is at present carried on only from British Columbia, where the Consolidated Whaling Corporation, Ltd., Victoria, has two establishments, one at Rose Harbour, on the south coast of Queen Charlotte Island and the other at Naden Harbor on the north coast of the same Islands.

**Whaling Vessels.**  
The catching of whales is conducted from specially constructed vessels, usually steamships. At the front of the vessels is a gun somewhat like a small cannon, which is fixed on a platform which can be turned around. Instead of a shot, a harpoon is placed in the gun to which a large rope is attached. The harpoon has spring wings on it which are tied down. It is also equipped with a small explosive bomb. On the mast of the ship a barrel-like arrangement is placed, in which a lookout man stands when whales are being searched for. When he sees a whale blowing, the vessel is moved ahead of the direction in which the whale is going so as to get near it as speedily as possible. The whale is followed within shooting distance when a trained gunner fires the gun and if the shot is successful the harpoon strikes the whale when the bomb bursts, which usually kills it and the wrapping on the wings is pulled off so that the wings spring open which prevents the harpoon from being pulled out, even if the whale is not killed at once. When the whale is dead, if there is still time for hunting, the common practice is to place a perforated nozzle of an air pipe into the whale and pump air into the body until the whale readily floats. The puncture is then tightly filled. The whale is marked with a flag, and the vessel goes on hunting until the time comes when it should go back to the wharf where it is to be taken with as many whales as it may capture during the day.

**Commercializing Whales.**  
All parts of whales are now converted into commercial products. The lean meat of the whale in appearance much resembles beefsteak and is quite palatable, when properly cooked and during the war there was a considerable demand for it as a food. It was then canned. There has since, however, been very little demand for whale meat for human food.

On reaching the factory the whale is drawn up on a slip when it is cut into strips, which are drawn into the factory where these strips are cut into small pieces and are then subjected to heat to extract from them the oil, while the solid product, after being thoroughly cooked, has all the oil pressed out of it and is then ground into a fine meal which commands a large market for food for poultry, hogs and cattle. It is a very nutritious food. The oil is collected into casks or tanks and is used for fertilizing purposes.

**Four Varieties.**  
The four chief varieties of whales captured are: The Sulphur Bottom whale, which is the largest of all living creatures, its maximum length reaching 90 feet. The Sperm whale or Cachalot, the largest member of the toothed whale, the males reaching a length of 60 or 65 feet. The females are much smaller. From the blubber which envelopes the body the sperm oil of commerce is prepared. The oil from the fatty tissue contained in a large hollow on the upper surface of the skull, spermaceti is produced. It is from this whale that the valuable ambergris so highly prized for perfumery purposes is secured. About 80 sperm whales are captured annually. The Fin Whale is smaller in size than either of the above named. It is the most numerous about 140 being captured each year. The Humpback Whale reaches a length of about 50 feet. Each adult whale produces some 70 barrels of oil. In addition to these four whales a small number of Sei whales are captured and an occasional Right and Bottlenose whale.

**Four Steamers.**  
The Rose Harbor establishment operates four steel steamers employing eleven men each. The Naden Harbor plant operates two steamers. All these steamers are of the same size and type.

The total number of whales captured during 1928 was 305 and produced 671,914 gallons of oil, valued at \$8,260,593; 754 tons of fertilizers valued at \$45,200; and 376 tons of bone and meat valued at \$12,784. Since the opening of the season in the latter part of May of the present

Lt.-Col. Rodolph Bedard, officer commanding Mount Royal Rifles, Montreal, who with regimental staff accompanies the regimental band, which competes against band of Toronto Regiment at the Canadian National Exhibition.

### News Of Quinte District

#### STIRLING

Mr. E. T. Williams and Miss Lucy Williams spent Thursday the guest of Mrs. W. H. Finkle, Belleville.

Miss Theda Johnson is holidaying with her grandparents, Mr. and Mrs. L. Williams.

ent year over 200 whales have been captured the greater number being taken by the steamers operating from the Rose Harbor establishment.

# NEW MODELS—NEW LOW PRICES

only  
\$15<sup>00</sup> DOWN

A SPECIAL arrangement with De Forest Crosley makes these remarkably easy terms possible for two weeks only—\$15 down and thirteen months to pay the balance. These terms are effective only on the famous "Renown", the leading model of De Forest Crosley's outstanding line.

### Don't miss this opportunity!

Come in to-day. Let us show you the new De Forest Crosley "Renown". Compare it with any radio or phonograph you have heard at any price. Let us give you full details of this special offer.

### Real Reasons Why You Should Buy Now

1. You get the newest model while it is NEW—you have the real thrill of owning radio's "latest".
2. You have a full twelve months' ownership of the NEWEST model without depreciation of your investment by later models.
3. You begin your real radio enjoyment right away—and pay for it as you enjoy it. And you pay the same price as later.

## The DE FOREST CROSLEY RENOWN \$225<sup>00</sup> Complete

AC receiver utilizing radio's finest standard circuit—the 8-tube Hazeltine Neutrodyne; push-pull audio, using two UX 171A tubes; the remarkable, new Inductor Dynamic Speaker, which gives exceptional volume and rich, natural tone; single control; phonograph jack; illuminated dial; superb walnut cabinet in two-tone black and grey with bird's eye maple inlays. The De Forest Crosley "Renown" is radio's outstanding value.

### Bigger Allowance Now for Your Old Radio

Each week, from now until the end of the year, your old radio is rapidly depreciating in value. The trade-in value of your set will go farther now towards paying for a new De Forest Crosley "Renown" than at any later time. Stop in at our showroom to-day.

#### INTER-COUNTRY RADIO

New York, Sept. — Germany has been added to the countries with which the United States plans an exchange of radio programs. Experiments are to be started immediately as a result of the visit to this country by German radio officials. Tests have been under way for some time with the hope that a plan of international programs exchange would be in effect this fall. Last spring these experiments reached the stage where a chain broadcast or two was attempted with more or less success.

Holland also has been included as one of the countries with which it is

expected to arrange an exchange. Experimental work on this side of the Atlantic has been conducted at Riverhead, L. I., where a special R.C.A. short wave receiving station has been in operation some time and in the National Broadcasting laboratories.

Chicago's super-highways are being planned for predicted automobile population of 900,000 by 1950.

Mr. and Mrs. Martin Hickey, of Mansfield, Ohio, were knocked unconscious when lightning struck their home.

Worcester, Mass., man produces potatoes underground and tomatoes above ground on the same plant.

#### PILES GO QUICK

Piles are caused by congestion of blood in the lower bowel. Only an internal remedy can remove the cause. That's why salve and cutting fail. Dr. Leonard's Hem-Roid, a harmless tablet, succeeds, because it relieves this congestion and strengthens the affected parts. Hem-Roid has given quick, safe and lasting relief to thousands of Pile Sufferers. It will do the same for you or money back. J. S. McKtown and druggists everywhere sell Hem-Roid with this guarantee.

## DUELLING FIELD IS NOW A PARK

Famous Cuban Fencing Site Does Not Fulfill That Purpose Now

Havana, Cuba, Aug. — The famous old Plaza de Armas in Havana where Spanish Doncs once took wagers, actual or imaginary, for settlement by duel, is now but a mere park where in the aged bank in the sun and the playing generation play beneath the giant "oak" tree that once filtered early morning light on barred blades or shining pistols.

The Plaza de Armas passed into history as a duelling field some ten years ago when the Cuban government, ruled against settlement of differences between gentlemen on the field of honor and imposed drastic punishment for the violators.

The law reads that there shall be no duelling but the proud blood of Cubans demands personal satisfaction for injuries or insults. The habits of generations of Spanish grandees have not yet been wiped by the swift strides of modernity in Cuba. Duelling remains but is seldom heard of publicly.

Cloaked figures continue to make their stealthy way through the still morning hours to isolated and secluded spots near Havana, there to settle grievances by ball or blade. And automobiles whirling through the streets in the very early morning hours may often convey a privately wounded man who has expiated his wrongs on the field of honor. Entrance into a hospital is under the guise of an operation; death under the report of septic poisoning. So it is said.

There is an occasional report of a duel in Havana newspapers, but not often. It is considered more expedient and sensible to ignore duelling than it is to trace down the protagonists and thereby open wide the official eye now slowly closed to sanguinary settlement of personal quarrels.

Fencing academies flourish in Havana. Young men and old practice there for the express purpose of "keeping fit." One of the most efficient fencing schools in all of Cuba is at Havana. Reporters who are allowed the privilege of personal expression and considerable editorial comment in news stories are often principals in encounters.

Politicians may be classified second for they often enter into heated argument on the street and end in a palm grove with pistol or knife. Just recently two federal senators entered into an impassioned argument which found its release on the field of honor. The demand for personal satisfaction was entered on the floor of the senate. A moment later the incident. Satisfaction had been purchased and the men are now on friendly terms. The law passed up the incident.

Cuba may lay claim to having blotted out duelling but Dame Rumor hath it that it is always wise to know how to parry an insult, sin and fire before offering insult to the true Cuban who, although boyish, blithe and debonair can often become old with the call of the centuries when it comes to blotting out insults in blood.

## Put a "handful of health" in the muffins tonight

IT TAKES only a few minutes to make bran muffins if you use the famous ALL-BRAN recipe. Just try it. You'll get the lightest, fluffiest, best muffins you ever took from the oven. All the family will surely praise your skill that night!

And remember, you'll be helping them to better health at the same time. For so many foods are lacking in bulk or roughage. And it is this lack that so often causes constipation — which in turn steals energy and health and may even cause serious disease.

Kellogg's ALL-BRAN provides bulk in generous quantity because it is 100% bran. By serving it in some form every day you can protect your family. So many ways to serve it too. In waffles, breads. Sprinkled into soups. Mixed with other cereals. And, of course, with milk or cream, fruits or honey

added, it makes a delightful breakfast dish.

Be sure you get genuine Kellogg's — the original ALL-BRAN. Part-bran products, at best, bring part results. Doctors recommend ALL-BRAN. Just eat two table-spoonfuls daily — chronic cases, with every meal.

Sold by all grocers. Served in hotels, restaurants and dining-cars. Made by Kellogg in London, Ontario.

**Guaranteed!**  
Kellogg's ALL-BRAN is sold with this definite guarantee: Eat it according to directions. If it does not relieve constipation safely, we will refund the purchase price.

**WALKERVILLE FARMER BURNED TO DEATH**  
Windsor, Ont., Aug. 31 — John W. McDowell, 53, Walkerville, was burned to death yesterday afternoon when the gas tank of a tractor exploded after the machine had upset, pinning him beneath it. The fatality occurred on a farm in South Sandwich Township, which Mr. McDowell, a retired farmer, had purchased recently.

McDowell had been working for an hour with the new tractor, when the front end of the machine dropped into a ditch, it tipped over with him underneath and burst into flames. McDowell was killed.

**GETTING TOGETHER - AN EMPIRE FAVORITE**  
The general desire for Empire Free Trade, the logical result of foreign tariffs is clearly indicated by the quickly growing popularity in this country of British goods. The "Old Country" is today one of our richest markets, buying annually some \$400,000,000 worth of Canadian goods. Imperial sentiment no less than the balance of trade demands that British goods in turn should find a ready welcome in Canada.

That this is realized is proved by the tremendous popularity of favorite British products such as H.P. Sauce. The rich fruity flavor of H.P. sauce makes it particularly suitable to Canadian tastes and its inherent quality and moderate price have made H.P. the favorite appetizer in this country. People find that all sorts of dishes are made vastly more interesting with a dash of this piquant sauce, while a

## SPORTING SECTION

## NATIONALS DEFEAT MONTREAL

## SPORTING SECTION

## MONTREAL TEAMNO MATCH FOR SLUGGING ONTARIO CHAMPIONS

Belleville Made 15 Hits  
Count For 12 Runs Behind Good Pitching

## A. WEIR'S HOMER

Quebecers Played Poorly  
Behind Fair Pitching Of Frank Deegan

Montreal C.N.R. baseball team, leaders of the Senior City League in that city proved to be no match for the Belleville Nationals, last year's Ontario Champions, who seem to be headed for another pennant, for they lost by the dismal score of 12 to 3 at the Fair Grounds yesterday afternoon.

A fair sized crowd turned out to see the Montreal players perform, the second baseman of the eastern team being Leo Amo, who up until a year or so ago was living in Belleville. He at one time looked to be able to catch a place on the Nationals here but, just failed to make the grade. Unfortunately playing in front of his old friends did not seem to improve his playing a great deal, and he had two unfortunate errors, but came through with a nice hit which partly redeemed him.

Montreal played poorly in the field, but had Frank Deegan, their pitcher, had good support, the game would have been much closer. Although he was touched up frequently for his backing he received at times was terrible, seven errors being recorded against his teammates. They made seven hits off the combined deliveries of Alex Weir and Vinny Utronki, but never were they in danger of tying up the score or of even coming close.

Fifteen lusty hits rang off the bats of the Belleville boys. Alex Weir had a home run, which rolled to the race track fence, Murney Green contributed a nice three bagger, and Harry Blakeley had a field day at bat with two singles, a double and a triple, as well as getting on base on another occasion when the opposition erred. Only one error was made by the locals, this being when Blakeley made a poor throw

to first after a sensational stop.

In the five innings Alex Weir worked on the mound he had seven strikeouts and allowed only four hits, two of them coming in the fifth, as well as the one Belleville error, and Montreal scored two of their three runs in this inning. Utronki allowed three hits for the remainder of the game, and one run was scored on him, although this one came as the result of two bases on balls and a fielder's choice, and not being earned. The Belleville team pulled two double plays, the first being from M. Green in left field to Scott on third to catch a player who left the base before the ball was caught and the other from A. Weir in center field to H. Mills at first on the same kind of a play as the other.

The Belleville scored four runs in the first when V. Weir walked, Scott safe on an error by Amo, H. Mills struck out, W. Mills doubled, scoring Weir and Scott, Blakeley singled, scoring Mills, and A. Weir was safe on an error, Blakeley scoring. In the third, three more counted, H. Mills doubling, Blakeley doubling and Alex Weir coming out with a home run. Again in the fifth, four more runs passed over the plate, Blakeley started it off by getting safe on an error, as was Alex Weir, M. Green tripling, scoring two, E. Green singled, scoring M. Green, Utronki was safe on a fielder's choice, E. Green being out, V. Weir doubled, and scored when Scott singled. In the eighth, another run was added on a single by Blakeley, an error, a base on balls, a sacrifice bunt and a hit by pitcher, Utronki being the unlucky one to get hit on the head. He gamely continued in the game, however, and finished strong.

As Deloro beat Kingston last Saturday in Kingston there is every possibility that the Limestone will be put out of the race on Wednesday at Deloro and if that is the case the Nationals on Saturday and next Wednesday, will stack up against the Smelters. This should be a real fast series, and if Mr. Woods and Mr. They are in good form of those respective days the Nationals will have to get their big guns

## DELORO WON FIRST FROM 21st BATTALION

Second Game Will Be Played In Deloro Tomorrow Afternoon

In the first game of the play-offs for the right to meet Belleville in the Central League finals, played at Kingston Saturday, the Deloro Smelters managed to clinch a 7 to 6 win at the expense of the Kingston crew in a hard fought battle. Deloro now has a big jump on Kingston, as they play tomorrow at their own town in the second game. It is scheduled for four o'clock.

Inky Woods and Fournier, southpaw for the Limestone, opposed each other on the mound, but Fournier was relieved halfway through by Jamieson, who pitched fine ball all the rest of the way. It is likely that they will pitch for Deloro in the return game at the Smelter town tomorrow.

all limbered up to take a fall out of them. It should be a great battle, even though Belleville always seems to take games from Deloro easily.

Montreal

Son and three daughters will divide \$22,000 estate of Thomas J. Frazier, who died at Tiffin, Ohio.

Truck containing 500 gallons of liquor was seized in Appleton, Wis.

The Girl and The Game  
By Anita

Well, the scrapping and wrangling over this Eastern Ontario League business is all over and no doubt Kingston will manage somehow to eliminate Brockville and take unto themselves the championship.

The girls' softball will soon be over for another year. Success has marked the city league and the evening play-offs are looked forward to with a lot of enthusiasm.

The Frontenacs and Clacos will likely look horns in the deciding game this week sometime. The Clacos have defeated the Frontenacs in the last two encounters and have made up their mind to do it again and capture the city trophy.

Clacos have been playing splendid games in the last half of the series, losing one game only and that by a close score, to the Whoopee girls. On Thursday night they proved that this team did not hold any terrors either by defeating them by a substantial margin.

The Frontenacs will be right on their toes and will certainly give the Clacos a good battle. When the former are playing their usual game they are a hard bunch to defeat.

After the fate of these two teams has been decided the girls will no doubt turn their interest to the Nationals. All the girls city teams are strong supporters of the baseball players and some of them were even betting with late Kingston Jans last Wednesday in Kingston, who not satisfied to run down Belleville's softball team, started to cast slurring remarks on the Nationals' power to defeat the Kingstonians.

Kingston really think they can defeat Belleville Nationals after they have put Deloro out of the way. It's funny what notions come people do get.

## WE BELIEVE IN THE BAY OF QUINTE DISTRICT.

Pretty much everyone is thinking of the Belleville Fair this week; it's the one week of the year in which the enormous variety of home grown, home manufactured, and home sold goods are gathered together and exhibited for the benefit of the people.

Truly such a display as one may see at Belleville Fair cannot fail to impress everyone with the extraordinary potentialities of the Bay of Quinte District. Rich in its agricultural products, its grains, its fruits, roots and live stock, the Bay of Quinte District can display in this show window which is the Belleville Fair, as fine an array of products as one could wish to see.

Merchandise, too, and our manufactured products, made in Belleville and sold in Belleville, will be another feature which will help make you realize that quality merchandise and quality manufactures are sold and made right in this city, and are such as to make one feel proud that goods of such diversity and numbers are manufactured in our city.

See these Belleville goods at the Fair and boost your Bay of Quinte District by purchasing them later. Only by thus supporting home trade will the City and the District progress as it should and keep pace with other favored Districts in the Dominion.

## TIMELY NEWS FOR FARMERS FORCING BULBS HONEY SPOILAGE FOR THE WINTER AND ITS CAUSE

Blossoms Will Last From  
Twelve to Fourteen  
Days, Claim

Dep't. Studies Subject of  
Fermentation of Honey  
For Canadian Markets

There are few house plants that reward the grower with a finer display of bloom in such a short time and with so little attention as do the spring-flowering bulbs when forced in winter. Those most commonly forced include tulips, hyacinths, daffodils and crocuses and they come in such variety that the amateur is likely to be bewildered by the long lists of names. However, a careful study of the bulb catalogues enables one to choose a collection that will give a succession of bloom in early December and lasting until the tulips bloom out of doors in late May.

Bulbs should be potted as soon as they are received in September and October. Those intended for very early bloom may be had in September but the main supplies are not on the market until October. A good potting soil consists of equal parts of loam, well decayed cow manure, leaf mould, and sand. The size and style of pot used will depend to some extent on the personal preference of grower, but a six-inch pot will hold six tulips, a five-inch pot will hold six crocuses, a four or five inch pot may be used for a single hyacinth bulb and a seven or eight-inch pot will be required for five or six narcissus bulbs.

In putting, leave the top of the bulb level with the surface of the soil and press it firmly about them but do not have it too compact beneath them since this causes heaving when root growth takes place.

After planting, water the pots and set them in a cellar or darkened room at a temperature of 40 to 50 degrees Fahrenheit. If the pots are plunged in sand they will require less careful watering, and burying to a depth of two inches above the bulbs will help to prevent heaving. After the bulb are well rooted and there is evidence of top growth, they may be brought to the living room to bloom. To encourage in window space a cellar window or any north window may be used until the plants closely approach the blooming period. If kept too long in a dim light the plants become tall and weak-stemmed. If placed in too hot a place the buds will wither, therefore a window too close to a stove should be avoided.

After the plants are in bloom if they are kept in a cool part of the room and not exposed to bright sunshine the blossoms will last for twelve or fourteen days.

At the Dominion Experimental Station, Rothbar, Saskatchewan, the following varieties have been found satisfactory for forcing:

Early Single Tulips. Duc Van Tholl, Prosperine, Brilliant Star, Couleur de Cardinal, Gramscie, Brilliant, Gulliver, Fleming, La Reine, Mon Tresor, Prince of Austria, Prosperity, Rose Grédelin, Rose, Lulante, White Hawk, Yellow Prince, Fred Moore and Iris.

Early Double Tulips. Peach Blossom, Muriel and Bourne d'Or.

Darwin Tulips. Bardigon, Wm. Copeland, and Roi d'Islande.

French Roman Hyacinth, Dutch Hyacinths, Gertrude, Queen of the Pinks, La Victoire, Lady Derby, Marconi, L'Innocence, La Grandesse, Enchantress, Grand Maître, King of the Blues, and Queen of the Blues.

Narcissus or Daffodils. Victoria, Glory of Saxony, Tremble, Prince, King Alfred, Sir Watkin, and Double Von Seion.

Polyanthus Narcissus or Bunch Daffodils. Paper White and Grand Soleil d'Or.

Crocus. Puerpura grandiflora, Mont Blanc and Yellow.

Hen mothers three kittens at Ardmore, Okla.

Spoilage of extracted honey due to fermentation and souring has become particularly of recent years, a matter of concern to Canadian beekeepers and others engaged in the handling and marketing of this product. In former years fermentation, though not unknown to honey producers did not present the menace it now does as long as relatively little of the honey crop was held over from one season to the next. Recent years, however, have witnessed in Canada an increased production of honey, while consumption has become less seasonal in nature, with the result that honey, in general, is now held for longer periods of storage than formerly. Consequently spoilage through fermentation is now being encountered to such an extent that it is one of the most serious problems facing those engaged in the honey industry and the source of considerable financial loss.

For the past two years the Division of Bacteriology, Central Experimental Farm, has been conducting investigations on honey fermentation, the first phases of which have been concerned with the organisms causing the spoilage and their possible sources. In all cases yeasts have been found to be responsible, four different types having been isolated from the samples of fermented honey examined. These yeasts were found to be particularly sugar tolerant varieties, capable of growing in high concentrations of sugar solutions which would prevent the growth of ordinary yeasts.

Examination of the nectar of 34 varieties of flowers commonly visited by bees during the season resulted in the isolation of 11 varieties of yeasts, all capable of fermenting honey. Of these two were identical with yeasts actually found in fermented honey, however a study made of hive nectar from the apiary of the Central Experimental Farm revealed an early and constant infection of the nectar by sugar-tolerant yeasts, some of which corresponded with those isolated from flowers, one being, in addition, a variety found in fermented honey.

That honey may be infected by yeasts at the time of extraction was shown by tests made in the extracting house. From various containers used for handling honey, yeasts causing fermentation were isolated, likewise from the air. It is therefore within the power of the beekeeper to keep out at least a part of the contamination of extracted honey by exercising precautions at the time of extraction and by ensuring that all honey containers and utensils are thoroughly sterilized before use.

Further studies in the subject of fermentation are in progress.

### TRACTOR TRIALS IN ENGLAND IN FALL

London, Eng.—(By The Canadian Press)—It is announced that the Royal Agricultural Society of England proposes to hold a series of World Agricultural Tractor Trials during the summer and autumn of 1930.

The trials, which are to be held near Oxford, will be divided into two parts:—(a) a series of a scientific and practical nature, and (b) public demonstrations, to be held during September, 1930, when machines from all parts of the world will be seen in operation under strict working conditions. Machines may be entered for the trials without an restriction as to their country of origin, weight or horse-power, and for this scientific tests they will be divided into four separate classes:—

(1)—Direct haulage tractors, capable of field operations, road haulage, etc. (2)—Cable-operated ploughing or cultivating implements. (3)—Self-propelled ploughing or cultivating machinery, not necessarily suitable for general haulage. (4)—Special machines not included in the above classes, but which are self-propelled and capable of field operations. Entries must be received not later than 31st December, 1929. The necessary forms and full particulars of the trials may be obtained from the Secretary, Royal Agricultural Society of England, 16, Bedford Square, London, W.C.1.

School teachers, who smoke cigarettes, should be barred from teaching in Warren, Ohio, schools, according to resolution adopted by W. C. T. U.

Aerial survey will be made of Ohio River.

Cash Dealing gives you full value for your money every day at the C. D. S.

### Announcing the Semi-Annual Amateur Dressmaking Contest for Women and Girls

\$80 in Local Cash Prizes \$530 in Grand Cash Prizes Three Silver Cups Other Prizes

All adult structures and schoolgirls are eligible to enter the contest. Local Contest starts Wednesday, Sept. 4th and continues until Tuesday, Oct. 8th.

Local awards will be made in the store on Thursday, Oct. 10th. Winners of 1st prize in local contest for adults will be sent away to compete for the grand prizes which will be awarded Wednesday, Oct. 16th. Winners of 1st prize in local contest for school girls will be sent away to compete for the grand prizes which will be awarded Wednesday, Oct. 16th.

Butterick patterns will be eligible to compete for the Butterick group of grand prizes, the contest for which closes on December 7th. Each entrant is required to fill out a registration card. Schoolgirls' entries are to be accompanied by teacher's certificate or parent's statement that work was done by the contestant. Entries for all contests are to be made from fabrics purchased in the store since August 2nd, 1929, and salescheck in to be attached to the entry. Local awards will be made in points, by three judges. Grand awards for adults will be made by three dress experts and stylists. Grand awards for school girls will be made by Butterick judges.

Adults Group 1. Adult dresses made from fabrics costing 50c to \$1.00 per yard are eligible to this group.

Adults Group 11. Adult dresses made from fabrics costing over \$1.00 per yard are eligible to this group. Schoolgirls Group B. For students in elementary schools, approximately ages 9 to 12, with fabrics costing 35c per yard or over.

Schoolgirls Group C. For students in Junior Grammar grades, Vocational, Continuation or High schools, approximately ages 12 to 15 with fabrics costing 35c per yard or over. Schoolgirls Group D. For students in High School, Continuation or Vocational schools, approximately ages 15 to 18 with fabrics costing 35c per yard or over.

Schoolgirls' entries for local prizes are not required to be made from any special patterns. Schoolgirls' entries intended for grand prizes are subject to special rules, copies of which are obtainable in our store.

#### Local Cash Prizes For Adults

Adults' entries will compete in either one of two groups of prizes.

That honey may be infected by yeasts at the time of extraction was shown by tests made in the extracting house. From various containers used for handling honey, yeasts causing fermentation were isolated, likewise from the air. It is therefore within the power of the beekeeper to keep out at least a part of the contamination of extracted honey by exercising precautions at the time of extraction and by ensuring that all honey containers and utensils are thoroughly sterilized before use.

Further studies in the subject of fermentation are in progress.

Early Single Tulips. Duc Van Tholl, Prosperine, Brilliant Star, Couleur de Cardinal, Gramscie, Brilliant, Gulliver, Fleming, La Reine, Mon Tresor, Prince of Austria, Prosperity, Rose Grédelin, Rose, Lulante, White Hawk, Yellow Prince, Fred Moore and Iris.

Early Double Tulips. Peach Blossom, Muriel and Bourne d'Or.

Darwin Tulips. Bardigon, Wm. Copeland, and Roi d'Islande.

French Roman Hyacinth, Dutch Hyacinths, Gertrude, Queen of the Pinks, La Victoire, Lady Derby, Marconi, L'Innocence, La Grandesse, Enchantress, Grand Maître, King of the Blues, and Queen of the Blues.

Narcissus or Daffodils. Victoria, Glory of Saxony, Tremble, Prince, King Alfred, Sir Watkin, and Double Von Seion.

Polyanthus Narcissus or Bunch Daffodils. Paper White and Grand Soleil d'Or.

Crocus. Puerpura grandiflora, Mont Blanc and Yellow.

Hen mothers three kittens at Ardmore, Okla.

Spoilage of extracted honey due to fermentation and souring has become particularly of recent years, a matter of concern to Canadian beekeepers and others engaged in the handling and marketing of this product. In former years fermentation, though not unknown to honey producers did not present the menace it now does as long as relatively little of the honey crop was held over from one season to the next. Recent years, however, have witnessed in Canada an increased production of honey, while consumption has become less seasonal in nature, with the result that honey, in general, is now held for longer periods of storage than formerly. Consequently spoilage through fermentation is now being encountered to such an extent that it is one of the most serious problems facing those engaged in the honey industry and the source of considerable financial loss.

For the past two years the Division of Bacteriology, Central Experimental Farm, has been conducting investigations on honey fermentation, the first phases of which have been concerned with the organisms causing the spoilage and their possible sources. In all cases yeasts have been found to be responsible, four different types having been isolated from the samples of fermented honey examined. These yeasts were found to be particularly sugar tolerant varieties, capable of growing in high concentrations of sugar solutions which would prevent the growth of ordinary yeasts.

Examination of the nectar of 34 varieties of flowers commonly visited by bees during the season resulted in the isolation of 11 varieties of yeasts, all capable of fermenting honey. Of these two were identical with yeasts actually found in fermented honey, however a study made of hive nectar from the apiary of the Central Experimental Farm revealed an early and constant infection of the nectar by sugar-tolerant yeasts, some of which corresponded with those isolated from flowers, one being, in addition, a variety found in fermented honey.

That honey may be infected by yeasts at the time of extraction was shown by tests made in the extracting house. From various containers used for handling honey, yeasts causing fermentation were isolated, likewise from the air. It is therefore within the power of the beekeeper to keep out at least a part of the contamination of extracted honey by exercising precautions at the time of extraction and by ensuring that all honey containers and utensils are thoroughly sterilized before use.

Further studies in the subject of fermentation are in progress.

#### Special Boys' Long Pants

Another fine gesture for the Wednesday morning shopper. Boys' sturdy slacks trousers—long & yale—finished with cuff bottoms, pockets, and belt loops. End of this season sale. Size 19-32. Reg. price 1.15. Wednesday special—79c. Pair.

—Men's Store.

#### Womens Corselettes

Ordinarily Worth 2.29! Specially featured with inner belt—made from nice fancy material—that gives necessary support. Long style garment—finished with foot hose support. Size 38 to 42. Ordinarily worth 2.29. Special—95c. Wednesday—Second Floor.

### NEW 80-STORY, SKY-SCRAPER TO BE BUILT

New York, Aug. 3.—An 80-story skyscraper, to tower nearly 200 feet above any existing building in Manhattan, is to be built on the site of the old Waldorf Astoria Hotel, at 454th street and Fifth Avenue, former Governor Alfred E. Smith, who will head the corporation company, announced yesterday.

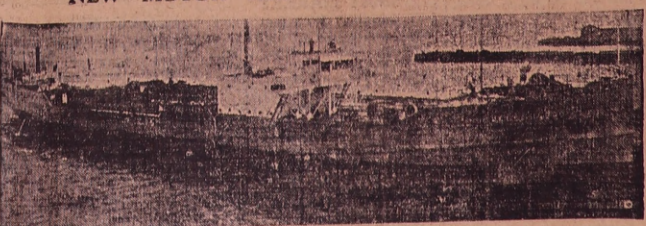

### The structure, the Empire State Building, will be nearly 1,000 feet high, and, as estimated, will cost upwards of \$60,000,000.

The Woolworth Building has 60 stories that rise 792 feet into the air, and the Chrysler Building now under construction will be 808 feet high, with 67 stories, when completed. Mr. Smith said the Empire State Building would be completed in about five years and a half. I will hold at one and one-half years.

### time, 60,000 persons he stated. De molition of the Waldorf Astoria will begin at once, he said.

Publicly controlled colleges and universities in U. S. enroll about 40 per cent. of all students. Rev. John Pennington, Dhamcus (Ohio) Friends minister, and his Building would be completed in about five years and a half. I will hold at one and one-half years.

### NEW MOTOR SHIP IN CANADIAN TRADE

Motor Ship "Blue Sunoco", the latest addition to the Sun Oil Company's fleet of modern tankers, recently docked at the Sun Oil Company's docks in Montreal on its maiden voyage with a cargo of 658,325 gallons of Blue Sunoco Motor Fuel. The "Blue Sunoco" is specially built for Canadian trade. The ship is full canal size of 255 feet. It was built in the Sun Oil Company's own shipyards at Chester, Pa. The Sun Oil Company, Limited, has recently purchased property on the harbor front in Toronto and will be in a position to receive cargoes of oil and gasoline direct by water from the refinery in the very near future.

### FRENCH FARMS YIELD METALS

Thousands of Tons of Copper, Iron and Steel Found in France

Arras, France, Sept. 3.—Farms hereabouts, that were battlefields are yielding a harvest of metal almost as valuable as their harvests of food. Copper, lead and iron, shot by the cannon of all the armies, are gathered by a peace time army of 5000 men and women. Other thousands of boys and girls help out family budgets with their daily load of metal.

For 10 years this has been going on and it probably will continue another five years. Every time a field is ploughed or harrowed more metal comes to the surface. The Government, theoretically, owns all this but contractors have bought the right to it. There are crews of expert workers who pass from farm to farm, some times picking up the metal themselves and sometimes buying the heap already gathered by the farmer and his family.

A million pounds of copper and lead were found last year in one department. Of iron and steel there are seven times as much. The enormous quantity of copper, thousands of tons consist mostly of empty cartridges, an evidence of the millions and millions of shots fired by the armies that fought over this ground for more than four years.

## LOOK FOR NEWS OF ONTARIO ELECTION Saskatchewan Liberal Cabinet Faces Acid Test-House in Session

### GARDINER GOVERNMENT MAY MEET ITS FATE LATE THIS AFTERNOON

GOES TO OTTAWA

Brig.-Gen. A. H. Bell

officer commanding military district No. 2, who will become adjutant-general of Canada, attached to general headquarters at Ottawa, to succeed Major-General H. A. Panet, present adjutant-general, who is retiring.

### GOES TO ORIENT TO TEACH EAST

Popular Young Belleville Man Sent To China By The Y.M.C.A.

As to the possibilities for the advancement of youth in foreign climes, Mr. "Ernie" Taylor, an old Belleville boy, is leaving Toronto tomorrow on the first lap of the journey which will take him to Amoy, China. Mr. Taylor has been selected to represent the Canadian Y. M. C. A. in the Orient, and will become one of the staff at this great institution which is situated on the coast.

"Ernie" Taylor has a legion of friends in Belleville who will be glad to learn of his appointment. He was a visitor here yesterday bidding farewell to old acquaintances.

After graduating from the local high school, he proceeded to Toronto and, on the outbreak of the World War, associated himself with the navy. On his return from active service, he enrolled as an arts student at the University of Toronto and upon graduation was assistant to Mr. Joe Shortt, as the West End Y. M. C. A., Toronto.

Interested in the Trail Rangers, he was popular in boys' work in and around Toronto. Later Mr. Taylor joined the "Y" staff at Montreal and for two years was a department manager after which he acted as general secretary of the International branch.

Mr. Taylor plans to introduce the North American programme to the Orientals and his first assignment will be to attend the Triennial Council of the Chinese Association at Shanghai.

Gerald Birks of Montreal will also attend this conference. Mr. Taylor, accompanied by his wife and two children, will sail from Vancouver next week for his new field. While here, he was a member of the Mu Gamma Kappa Class at John Street church and was actively engaged in "Y" work.

**FIND WRECKAGE  
OF RACE PLANE**  
Needles, Calif., Sept. 4.—Fire swept wreckage of the racing aeroplane of Major John Wood, located 25 miles northwest of here after Ward Miller, his mechanic had been found wandering on the desert, gave an answer to the question of whether the pilot perished.

Opposition Has A Clear Majority Of Seven Over The Liberal

### SUSPECT STRATEGY

Cabinet Has Been Hanging On For Three Months Since Election

Regina, Sask. Sept. 4. (By Thomas Green, Canadian Press Staff writer)—In final caucuses before the battle for supremacy to take place on opening the Legislature this afternoon, Liberal members are foregathered in the Parliament Buildings and the so-called co-operative groups in the leading hotel. Both gatherings were late in starting as members elect had to appear before the clerk of the Legislature to take their oaths. Expectations are that conferences will continue well into the afternoon and may not adjourn until shortly before the opening of the Legislature. Premier James G. Gardiner is present at the Liberal caucus.

It is generally expected that the Gardiner Government will be voted out of office probably late this afternoon. A procedure that appears inevitable in view of the clear majority of seven now claimed by combined Opposition forces.

**Will Accept Decision**  
"The Government is prepared to accept the opinion of the House," Premier Gardiner declared today during a recess at a Cabinet meeting.

Liberal's close to the Government see nothing but defeat for the Gardiner administration. The Gardiner party is the largest group, with twenty-eight members elected. Conservatives, headed by Dr. James T. M. Anderson, and numbering twenty-four, are lined up with eleven Independents and Progressives in their resolve to vote Gardiner out of office.

Conservatives, at least, appear confident that the expected will happen. Dr. Anderson, their leader, ready to cast the early defeat of the Gardiner forces. "I see no reason why the agony should be prolonged," he declared, "no reason why we should not be through by 6 o'clock tonight."

**Secret Strategy**  
There appeared to be some fears that the Government might be secretly planning some strategic move which would delay a definite decision in the Legislature.

For one thing, there is the report of the Saskatchewan Grain Commission. The report is completed and ready to be tabled. But the session has been called only to decide on a Government Parliamentary procedure. It is said, would not permit introduction of the grain inquiry report or any business other than that for which the Legislature has been called. But the opinion persists in some quarters that the Government will continue to play for time. Gardiner forces, in spite of the fact that they met a reverse at the polls on June 6, have continued in office for three months.

### WORLD COURT MEETS IN SECRET SESSION

Geneva, Sept. 4.—First meeting of the conference of signatories of the Permanent Court of International Justice, World Court, convened today under presidency of Jenckheer W. J. M. Van Eysinga, of Leyden University, Holland. It was a secret session at the offices of the secretary of the League.

### Health Department to Step on All Infractions of Sanitary By-Laws

Health authorities are going to step firmly in and prosecute vigorously these householders who do not use the sewage system. They are taking on several of the streets in the city. Maine have been laid on various streets, but some property owners have not connected their properties with these mains.

It is in the interests of health, the Intelligencer was told this morning, that running water be put in homes and that out houses be eliminated. In a city the size of Belleville sanitary practices cannot be permitted. Since 1927 there has been trouble with certain property owners who have neglected to place toilets in their homes. It is not a fact, the press was told by a prominent health officer at this morning, that only homes where it could not be afforded to have no running water. On the contrary, several well-to-do tax pay-

Plane Which Crashed At Oshawa On The Holiday

The photograph here shows the real, was fatally injured when it crashed to earth near Thomas St., Oshawa. The picture also shows how the plane rashed and nosed over.

### PICTON'S THREE DAY FAIR OPENS

Many Belleville Exhibitors Will Be At Prince Edward's Show

Today the Picton annual fair opened and will run for three days. For many years Picton's Fair has been one of the outstanding events of the season. The Exhibition has been in existence for seventy-seven years and has filled a real place in the life of the community. The directors of the Picton Fair claim that this year's programme is the best in its history. The officers and directors have spared no effort to provide an excellent three-days' series of attractions.

This afternoon at 1:30 Senator Horsey officially declared the 1929 Fair open. On Friday night the exhibition will be closed by a big dance. Many who exhibited at the Belleville Fair in tend to have entries in the Prince Edward County Exhibition.

### DIED AT AGE OF 103 AT KINGSTON

Benian Raid Veteran 'Blue-nose' Farmer And Heavy Smoker

Kingston, Sept. 4.—Frederick Gerrier, aged 103 years, and three months, for nineteen years a resident with his wife, who is ninety-one years old, of Brockville, Ont., died here last night. The couple had previously farmed in Tracadie, N.S., but came to the House of Providence here two months ago.

Mr. Gerrier was a veteran of the Fenian Raid. His great age was attributed to the fact that he was always industrious, always sober, though a heavy smoker.

**VISCOUNT PASSES**  
Little Hampton, England, Sept. 3.—First Viscount Mersey died suddenly today at his country residence here. He was aged 89.

### DOING QUITE NICELY Feeling Reasonably Well Just Now For A Young Fellow

West Orange, N.J.—Thomas A. Edison, convalescing from a recent attack of pneumonia, has recovered sufficiently to sit up in bed, smoke his customary cigar and read the newspapers. He celebrated his 82nd birthday recently.

### FARMERS LOSERS FROM DRY SPELL

Drops Suffering Throughout Ontario—East Of Belleville, Worst

Toronto, Sept. 4.—Due to the most extreme dry spell in years, Ontario farmers are facing heavy crop losses according to John A. Connor, Director of Crops and Markets, branch of the Ontario Department of Agriculture. "In some sections of the province," he said, "there has not been a good heavy rain since May 18. Many, many crops have suffered in all sections and are continuing to do so."

East of Belleville, conditions are particularly dry. In the western peninsula, in Middlesex county district, extremely dry weather is being experienced. Pasture lands are being burned to a crisp.

Chief among the present sufferers are "cash crops," beans, beets, tobacco and garden vegetables, situated chiefly along Lake Erie counties. Bean crops are being pulled early in view of the dry season with a consequent loss. Fall seeding is also being retarded due to the condition of the soil with a consequent drop in fall wheat.

"Dry spell losses in dollars and cents to the farmers cannot be estimated," Mr. Carroll said, "but they will be heavy. The situation requires more than a shower to bring relief."

### RELIEF IN SIGHT

Toronto, Sept. 4.—Weatherman held out a little hope to Central Ontario today for some relief from the heat wave that has prevailed in this section during the last few days.

Yesterday's temperature of 91 was the hottest day of 1929. Today the mercury started at 79 degrees and as the day wore on it climbed further.

Weather officials indicated that this region would be visited by thunderstorms and rain towards evening.

**COMING EVENTS**  
Last dance of the season at Oak Lake Wednesday, Sept. 4th. Ace high orchestra. 83-21d  
Special Bus to Picton leaves corner of Bridge and Front Sts at 1 o'clock Thursday and Friday. Fare \$1.50 return. Frank Smith. 84-21d

### P. E. BOY MAKES USEFUL MACHINE

Invention Practical Aid In Building—Will be Worth Money

Prince Edward County has stepped to the fore again with the announcement from Rochester, N. Y., that Orville W. Locklin, of Hillier, has devised and successfully demonstrated a machine which will grind to a knothole surface concrete ceilings and will chip cement walls for waterproofing, operations which up to date have had to be done laboriously by hand.

Mr. Locklin claims that his invention had developed from his own experience as a cement mason. For grinding surfaces the machine carries a set of four carbideum blocks placed on a cross shaped frame lying horizontal, and rotating at the end of an electrically driven shaft. Mr. Locklin is a son of the late J. W. Locklin. His mother at present resides at Smithfield.

### REFUSES TO ADD AN EXPLANATION

MacDonald and Dawes Only Two To Know Of Naval Talks

Geneva, Sept. 4.—Premier Ramsay MacDonald of Great Britain was asked today to clarify his statement that only three points were outstanding of the twenty or more to complete a naval reduction between United States and Great Britain.

The spokesman replied that he was unable to do so and explained that the Premier was the only man in England under General Dawes, United States Ambassador, who actually knew what was going on in the naval conversations.

**FIVE NEW CASES REPORTED**  
Quebec, Sept. 4.—Five cases of infantile paralysis and one death have been reported in Quebec hospitals. All cases except one are from out of town points.

### Display of Affection Between Two Brothers Has Police Court Sequel

Sad as it may seem brothers do not always agree as they ought. This was strikingly manifested last night when a "friendly" argument arose between Edward and Alfred Goddard at the former's home, 121 Station St. There seems to have been only one blow struck but that one blow sent Alfred to the hospital and Edward to the police station.

The cause of the argument was not retailed in police court this morning. Alfred was in no condition to appear to give his evidence the case was laid over for a week and Edward was released on \$500 bail to appear again when his brother is feeling better. There seems to be no animosity but the police have laid a charge of assault against Edward. It must have been a good smash for it took Alfred an hour and a half to regain consciousness and

### ELECTION ANNOUNCEMENT MIGHT COME AT BIG FERGUSON BANQUET

Supporters Plan Monster Demonstration In Honor Of Leader

### GIFT FOR PREMIER

All Ontario To Be Represented — W. H. Ireland Prepares The Plans

Toronto, Sept. 4.—Plans for the Conservative rally on Sept. 19 in honor of Premier G. Howard Ferguson were advanced another stage yesterday when a special committee from the Provincial Conservative members of the Legislature met in session at the Royal York Hotel.

Tentative arrangements call for the entertainment of 2300 men and women representative of all sections of the Province. Premier Ferguson will be the sole speaker at the dinner. From him is expected the opening shot of the next Ontario election campaign.

Although announcement of dissolution of the House and the election of itself is anticipated within ten days of the Prime Minister, it is understood, will reserve his first pronouncement on the various issues of the impending campaign for the Royal York affair.

**Gift to Premier:**  
A valuable gift will be presented to the Premier by his supporters as a token of loyalty and esteem. This form of the gift has not yet been decided but this matter will be settled during the coming week by members of the committee of M. P.'s which held a preliminary meeting at the Royal York Hotel yesterday afternoon.

Arrangements are largely in the hands of M. W. H. Ireland, M. P., of Trenton, Chief Whip of the Conservative party in Ontario.

**All Ontario Represented**  
Blocks of tickets for the dinner are being sold by Conservative out-ride Toronto. Following the enthusiastic support of the plan vouchsafed by all the Conservative members of the house, advice has been received that practically every constituency will be represented. From Fort William there has been received a reservation of large blocks of tickets for a delegation of Conservatives from that district.

**CHURCHMEN MEET  
AT WHITBY TODAY**  
Whitby, Sept. 4.—Special meeting of five conferences of the United Church of Canada in Ontario and Quebec convened here today. The meeting will close tomorrow. In addition to presidents and secretaries of the five conferences, laymen will attend the various sessions.

**BUSH FIRES NEAR  
RENFREW CHECKED**  
Renfrew, Ont., Sept. 4.—Bush fires which swept over miles of crown lands in the vicinity of White Lake village were believed to be under control today.

Forces of close to a hundred men fighting the blaze were given an anxious time yesterday when a high wind drove the flames into settled territory. The blaze was headed back toward an area covered by scrub timber before any buildings fell prey to the red menace.

**MUTINY ON SWIP**  
Mobile, Ala., Sept. 4.—Members of the crew of the tanker ship Paulsboro, badly damaged in a fire August 27, while 300 miles off Mobile, this afternoon bared a story of a mutiny aboard the vessel after the fire was discovered.

### PASSENGER AIR SHIP IS MISSING

Los Angeles, Calif., Sept. 4.—Trans-Continental air transports passenger liner "City of San Francisco," with a crew of three and five passengers aboard, which left Albuquerque, New Mexico, at 10:22 a.m. yesterday, was missing somewhere in storm-swept Arizona or Western New Mexico today. It was last reported over Grants, New Mexico, headed south on the usual course.

### INSPIRES HUSBAND

Mrs. Phillip Snowden

wife of former English Labor Chancellor, to whom her husband attributed his success in recent reparations at The Hague.

### WELCOMED HOME FROM LONG TRIP

Bells And Cannons Greeted "Graf Zeppelin" After Her Triumphs

Friedrichshafen, Germany, Sept. 4.—Waiting its round the world cruise record by more than a full day, the Graf Zeppelin landed here from Lakehurst, N.J. at 8:52 a.m. (2:52 E.S.T.).

Church bells pealed and cannons boomed a salute as the ship, escorted by a squadron of twelve airplanes, approached over the city, circling the town hall before it turned back to its hangar at the Zeppelin works.

With its landing the dirigible completed the round the world trip, Friedrichshafen to Friedrichshafen, in twenty days, four hours and eighteen minutes.

The zeppelin had previously circled the world from Lakehurst to Lakehurst in 21 days, eight hours and 26 minutes a time which was in itself a record.

**More New Records**  
The zeppelin left Lakehurst at 7:18 a.m. eastern standard time Sunday, Sept. 1, consuming 67 hours, 34 minutes in reaching here over an estimated course of 4,595 miles against its own record crossing from Lakehurst of 55 hours, 24 minutes, completed on August 10, over a course of 4,200 miles.

Aboard the ship were 22 passengers and a crew of forty headed by Capt. Ernst Lehmann for the first time in the history of the Zeppelin's major voyages, its master, Dr. Hugo Eckener was not aboard, he having remained in the United States on business.

**No Smoking, Please?**  
Friedrichshafen, Sept. 4.—A passenger said the Graf zeppelin's immutable rule against smoking aboard or about it, was broken during the flight from Lakehurst to Friedrichshafen when Frederick Hogg, an United States passenger, boasted that "rules were meant to be broken" and disappeared into a lavatory to smoke a cigar.

**MUTINY ON SWIP**  
Mobile, Ala., Sept. 4.—Members of the crew of the tanker ship Paulsboro, badly damaged in a fire August 27, while 300 miles off Mobile, this afternoon bared a story of a mutiny aboard the vessel after the fire was discovered.

**PASSENGER AIR  
SHIP IS MISSING**  
Los Angeles, Calif., Sept. 4.—Trans-Continental air transports passenger liner "City of San Francisco," with a crew of three and five passengers aboard, which left Albuquerque, New Mexico, at 10:22 a.m. yesterday, was missing somewhere in storm-swept Arizona or Western New Mexico today. It was last reported over Grants, New Mexico, headed south on the usual course.

**THE WEATHER**  
Moderate and fresh southwest winds, mostly fair and warm today and Thursday, probably local thunderstorms.

## THE BULLETIN BOARD

Mainly About People You Know

### GREETINGS TO HOME CITY

From on board the S.S. "Huron," Mr. John Elliott sends greetings to The Intelligence and its readers. Mr. Elliott, who is on his way west to Calgary and Edmonton, to attend the Dominion Chamber of Commerce convention, scheduled for September 11th, 12th and 13th. Mr. Elliott reports a splendid voyage and good weather. Among those present on board are many prominent Englishmen and Canadians. Dr. H. H. Alger of Stirling accompanied Mr. Elliott and will represent the County of Hastings.

### PRACTICING FAITHFULLY

The relay team which will represent the Belleville Y.M.C.A. at the Pictou Fair on Friday of this week are working hard and practicing faithfully for the competition. They are hoping for revenge on the Victoria team, their conquerors at the local Exhibition. The team going to Pictou on Friday will be composed of the following: Jack Marshall of the University of Toronto track team, Chas. Short, Bert Gilling and Ray "Nig" Ross. The team is being drilled by Ralph Morden, physical director at the local association building.

### PARTY ENDED SADLY

Returning Veterans Lost Five Hundred Bottles of Liquor were seized by Customs inspectors aboard a special train on which Massachusetts delegates were returning from the national convention of the Veterans of Foreign Wars. It was the largest seizure ever made on a passenger train in the Vermont district and the train was detained for an hour during the night while the search was in progress.

The liquor, valued at \$2,500 at Canadian prices, was found hidden in berths, ventilators and wash-rooms of the five sleeping cars. None was found in the baggage of the 144 passengers. Because no one claimed ownership of the liquor and the identity of the persons who concealed it could not be determined by the inspectors, no fines were assessed.

### CARD OF THANKS

Mrs. E. Lane wishes to thank her friends and relatives for kindness and floral tributes during her recent bereavement.

### DEATH NOTICE

JACKSON—Died in Belleville General Hospital, Wednesday, Sept. 4th, 1929. Lottie Hall, widow of the late Joseph Jackson, of Kindersley, Sask., in her 63rd year.

The funeral will take place from the residence of her brother, Walter Hall, Latta, on Friday, Sept. 6th. Service at United Church, 5th Concession of Thurlow at 2 p.m. Interment Old St. Andrew's Cemetery.

### WANDERING IN A DAZE

Seeing a woman wandering around on Dundas street last evening in the Intelligence and its readers. Mr. Geo. Hales, Dundas St., took her into his home and called the police. She was removed to the hospital in the ambulance and it was later found that she was Mrs. Arthur Pope, who resides on Foster Ave. Dr. Faulkner attended the patient.

## TORONTO LOOKS FOR 19 PLANES

### Great Cleveland Race To Exhibition Attracts Well-Known Pilots

Exhibition Grounds, Toronto, Sept. 4.—Thousands of visitors to Canadian National Exhibition, present day, saw this afternoon in anticipation of the arrival of nineteen aviators competing in the \$4,000 handicap race from Cleveland to Toronto. Planes will pass over Buffalo and Hamilton, after which they will follow the Lake Ontario shore route to this city, their arrival being checked as they pass the fair grounds enroute to a landing point at Leaside aerodrome.

The race is an open event with no restriction as to the type of plane used by competitors.

### W.C.A. RESUMES ITS SEASON'S ACTIVITIES

Gratefully Acknowledge Donations Made During Summer

The Women's Christian Association resumed its duties for the Fall term at a meeting held at the City Hall, on Tuesday, September 3rd, with the President, Mrs. W. C. Mikel, in the chair. The ladies on duty at the Home of the Aged were as follows: Mrs. (Dr.) Dolan, for June; Mrs. Talbot Ketcheson, for July; Mrs. Bruce Bottom, for August; Mrs. G. H. French, for September.

Coffee for the Home for May: Mrs. Johnston, cake; Mrs. Lloyd, meat and cake; Mesdames Lodge No. 55 per R. P. O'Neil, cheese, butter, meat, doughnuts, pie, cut bread, oranges and bananas; Mrs. Allison, 11 lbs. of fruit, 1 jar pickles; Mrs. Dunne, (Quintie Laundry) 4 dozen eggs; Mrs. Kelso, literature; Mrs. Baird, cake; Mrs. Chesler, literature and clothing; Mrs. Carre, commode chair, clothing and foot warmer; Mrs. Haines, boots and clothing; Mackey's bakery, 1 dozen loaf bread; Palencia Club, cake, coffee, sandwiches; Y's Men's Club, cake, sandwiches; St. Julian's Chapter I.O.D.E., tobacco and tobacco; A.Y. and A.M. Jam; Mrs. Belman, cake; Mrs. Willis, 2 suits clothes and other clothing; Mrs. Moffat, large box of sealers.

For July: A Friend, 1 dozen egg yolks; St. Julian's Chapter I.O.D.E., candy and tobacco; Mrs. J. H. Moonbeams, beads, carrots; Mrs. Merry, meat and dessert; Mrs. Chandel, clothing; Mrs. S. C. Reid, vegetable; St. Paul's Church, Milling Company, sample beans; Mrs. Allison, cucumbers and apples, often; Mr. Adams, George street, clothing; hot water bottle, air cushion and dishes; Mrs. Kelso, literature, often; A Friend, clothing and yarn; Mrs. H. A. Walker, basket of peaches; Mrs. C. P. Kelly, cake; Mrs. Caverly, Zion's Ed., cucumbers and corn.

For August: St. Julian's Chapter I.O.D.E., candy and tobacco; Mrs. J. H. Moonbeams, beads, carrots; Mrs. Merry, meat and dessert; Mrs. Chandel, clothing; Mrs. S. C. Reid, vegetable; St. Paul's Church, Milling Company, sample beans; Mrs. Allison, cucumbers and apples, often; Mr. Adams, George street, clothing; hot water bottle, air cushion and dishes; Mrs. Kelso, literature, often; A Friend, clothing and yarn; Mrs. H. A. Walker, basket of peaches; Mrs. C. P. Kelly, cake; Mrs. Caverly, Zion's Ed., cucumbers and corn.

For August: St. Julian's Chapter I.O.D.E., candy and tobacco; Mrs. J. H. Moonbeams, beads, carrots; Mrs. Merry, meat and dessert; Mrs. Chandel, clothing; Mrs. S. C. Reid, vegetable; St. Paul's Church, Milling Company, sample beans; Mrs. Allison, cucumbers and apples, often; Mr. Adams, George street, clothing; hot water bottle, air cushion and dishes; Mrs. Kelso, literature, often; A Friend, clothing and yarn; Mrs. H. A. Walker, basket of peaches; Mrs. C. P. Kelly, cake; Mrs. Caverly, Zion's Ed., cucumbers and corn.

CONCESSION DESTROYED

Ocean City, Md., Sept. 3.—A fire of unknown origin destroyed fifteen concessions along the boardwalk of Maryland's only ocean resort early today, causing damage estimated at \$250,000.

CHICAGO EX-MAYOR DIES

Chicago, Sept. 4.—William E. Dever, aged 67, Mayor of Chicago from 1922 to 1926, died yesterday.

## BENNETT URGES TRUE CANADIAN TARIFF POLICY

### Opposition Leader Back In Ottawa From Western Tour

Ottawa, Sept. 4.—Hon. Richard B. Bennett, leader of the Opposition, returned to Ottawa today from his tour of British Columbia, in the course of which he traversed large sections of the Pacific coast province, gathered first hand knowledge of the conditions of the people, met industrial leaders, fruit growers, miners and lumbermen, and made some sixty speeches. Bennett and his health-looking after many days under the blue skies of British Columbia. Mr. Bennett was yet somewhat pessimistic concerning the future of Canada under something is done to encourage the production of goods now largely imported. He was particularly distressed at the sight of fruit growers leaving their ranches south of the Okanagan valley because of the hopelessness of making a living while at the same time fruit from the United States was standing on adjacent railway sidings in refrigerator cars "on consignment." That is, it was shipped from the United States at slaughter prices and kept within easy reach of Canadian cities to menace the price of the home grown produce. Mr. Bennett thought there was nothing so sad as to see Canadian people driven from their farms by economic conditions. The present Government has not the courage to enforce dumping duty, which would prevent the marketing in Canada of American fruit at prices lower than the cost of production.

His remedy would be "a Canadian policy" which would permit the development of Canadian industries and provide work for people in Canada, instead of importing everything from foreign countries. He pointed out that more than 60 per cent of all the imports of Canada last year were wholly manufactured goods, many of which should have been made in Canada, while 15 per cent were partly manufactured, and the remainder of the imports consisted of such products as cotton and rubber, which cannot be produced in Canada.

The Conservative Leader made it a point to visit the great mining industries of the Pacific coast province and spoke enthusiastically of the remarkable development of the Consolidated Mining and Smelters plant at Trail which is now producing seven per cent of the world's supply of lead, giving employment to thousands of Canadians. Workmen and supporting not less than eighty thousand people.

## SLIGHTLY BETTER THAN EXPECTED

### Threshing Is Well Advanced Throughout Western Provinces

Winnipeg, Sept. 4.—With threshing well advanced in Manitoba, reports indicating a "slightly better than expected" yield constitutes the general trend of crop estimates in Manitoba, according to the weekly crop report of the Canadian National Railways. Grains of wheat are generally satisfactory.

Out-turns on the Carberry and Neepawa sub-divisions run from ten bushels. Very few points appear to have anything approaching an average oat crop and barley is frequently reported as fair to poor. With favorable weather threshing in Manitoba except in the north will be pretty well finished by September 10th.

Threshing is generally in Saskatchewan. Returns in the south and central sections are generally low and in the north, owing to the hot weather at maturity are not exceeding previous estimates. Craik subdivision reports wheat yielding from two to fifteen bushels, rye from ten to twenty bushels. Variations from these figures depend on locality and season.

Threshing has started in Alberta and will be general next week. Yields of threshold fields run from four to ten bushels on the unity, Viking, Demay and Canross subdivisions, but this average takes no account of fields which have completely failed or have been pastured.

Ideal harvest weather for the most part has prevailed and rapid progress is evident at most points. In the Peace River Country cutting is two thirds completed with little other damage. Late crops are ripening fast and a good harvest seems almost assured.

MOVIE DIRECTOR DEAD

## PERSONALS

VISITORS WHO COME AND GO.

Miss Florence Skelcher, of the Sun Life Insurance Company, Montreal, is spending a week's vacation at the home of her parents, Mr. and Mrs. G. Skelcher, Chatham Street.

Miss Helen Kemp spent the week-end visiting friends and relatives in Toronto.

Rev. Dr. MacTavish left for Toronto today to attend a meeting of the Executive of the Ontario Prohibition Union in Willard Hall there this evening. Before returning he expects to visit relatives in Western Ontario and also to preach in Coburne, Lakeport and Brighton.

Mrs. A. Sager, Miss Emmie and Master Sager, 60 S. Front St., have returned home after a three week's visit in Detroit and Flint, Michigan.

Mr. and Mrs. Anson Jordan, of East Moira Street, are spending a few days in Toronto and Niagara Falls.

Misses Helen and Mabel Tracey spent the holiday and week-end in Toronto.

Mr. and Mrs. Cecil Giblin, of Detroit, Michigan, are visiting the former's grandmother, Mrs. R. Gibson, 24 Hillcrest Avenue and other relatives in the city.

Mr. and Mrs. C. H. Clow, of this city spent the weekend in Brockville with Mrs. Clow's parents, Mr. and Mrs. F. J. Clutterbuck, 33 King St. West.

Mr. and Mrs. A. Welsh and son, 99 Gladstone Ave., Peterboro, have returned home after spending a holiday with friends in Belleville and Kingston.

Mr. Gerald E. Graham, Assistant at St. Thomas Anglican Church of this city, spent the week-end with his parents, Mr. and Mrs. Frank E. Graham, James St., Brockville.

Mr. and Mrs. William Evans and family of this city are the guests of Mr. and Mrs. G. Chapin, Gladstone Avenue, Peterboro.

Mr. and Mrs. Jack Latchford of Niagara Falls, N.P., spent the week-end the guests of the former's mother, Mrs. B. Latchford, 69 Octavia St.

Mr. Francis Jeffrey of Stirling visited friends in this city yesterday.

Master "Bud" Woodley has returned to his home on Holloway St. after spending the summer holidays visiting relatives in Toronto.

Mr. and Mrs. E. Satterthwaite have returned to their home in Orillia after spending a few days visiting friends in this city.

Mrs. James Christie, Bowtell street, is visiting friends and relatives in Toronto this week.

Misses Mary Wilkie, Madge Howard and Mary Cruik were visitors in Toronto on Labor Day.

Miss Patricia Campbell, Coleman Street, left last week for Toronto where she entered St. Joseph's hospital for a three year's course in the nursing profession.

Mrs. Patterson and family who have been spending the summer at Bayville left for their home in Sarnia on Monday.

Mr. Wesley McConnell of Bayville is ill in the Belleville General Hospital.

Friends of Mrs. Percy Follwell will regret to learn that she was taken to the Belleville Hospital last evening for an appendicitis operation.

Mr. and Mrs. Michael and daughter Vivian spent the week-end and holiday in Toronto.

Misses Helena and Bernice Horgan have returned to the city after spending a few days visiting in Toronto.

Mr. and Mrs. A. Farrell of this city have returned home after spending a few days in Toronto.

Mr. and Mrs. Joseph Oakes and son, left last week for Toronto where they are spending a few days visiting friends in this city.

Miss Emily McGlashan of Rochester, New York is spending a short vacation in this city.

Mrs. B. Burley of Toronto is spending a few days with her mother on Pine St.

Mrs. Hughes and family, Queen St., have returned to the city after having spent the past few months at their summer home at Crow Lake.

Miss Ruth Twining who has been visiting in Toronto and Niagara Falls has returned to her home in this city.

Mr. Wilfred Twining spent the week-end in Toronto and attended the C.N.E.

## WEDDINGS

McCLASKIE—MASON

A pretty wedding occurred on Saturday evening, Aug. 31st, when Miss Annie E. Mason, of this city, was united in matrimony to James McCLaskie, of Trenton. The wedding took place at the home of the bride's mother, Mrs. S. J. Mason, 47 Geddes Street. Rev. Woodgar, of Napanee, performed the ceremony.

Cape May N.Y., mail carrier, has walked 112,000 miles in 25 years.

EXCHANGE RATES

New York, Sept. 4.—Foreign exchange steady, demand rates, Great Britain 484 5-16, Canadian dollar 9-16 ds.

## SHORT CIRCUITS ALONG ST. CLAIR

Windsor, Sept. 4.—Extensive "short circuiting" of liquor along the River St. Clair has been reported by United States customs border patrols to Walter S. Petty acting collector, at Detroit, he told the Canadian Press today. And it is Petty's belief, supported by investigations by his officers, that the bulk of this liquor is being transported into Michigan or other states by aeroplane routes.

Rum runners are moving boldly along the Canadian shore near Point Edward and Sombra, across from Marine City, Michigan according to information reaching, he reported. His men, armed with spy glasses have been observing their achievements for several days past and they have reported much "Short Circuiting" of cargoes under peculiar circumstances.

## DEATHS & FUNERALS

JAMES SHAPPEE

## Just For The Feminine Reader

### ENSEMBLES STILL HIGHLY FAVOURED

The word ensemble, which was originally introduced into our language as a smart name for the one combination of a long coat and matching daytime dress, has now become as much a part of a reporter's equipment as a ball pen. Because the word trips so glibly off the keys it has drifted from its old meaning, and this season will denote, to a large extent, that combination formerly known by the less elegant name of suit.

The short jacket which accompanied two-thirds of the printed frocks this summer has reappeared in a number of variations for different hours of the day, and when it accompanies a matching skirt it is a somewhat elongated edition of the summer jacket.

A number of the new suits, particularly those of the more formal type, will have coats of a seven-eighths length, and a few notable ensembles show a long coat with rounded edges which make it shorter by several inches in the front than the back. But the latest reports indicate that the jacket suit will be of vastly greater importance to those who take their fashion highlights seriously.

Another of the revolutionary developments of the early autumn mode is the manner in which tweed has become accepted as a suitable fabric for the fashioning of suits so formal that they may be expensively worn with fox and worn with elaborate satin blouses.

Tweed, if you remember, was once a straightforward fabric chosen chiefly by the hardier sort of Englishwomen for wear through soggy country lanes. It is now considered the smartest and most suitable material for your daytime town ensemble, and if it appears in black with light fur, so much the better.

There is no telling where the vogue for very dark suits with light fur collar is going to lead, but at the moment, when the models are displayed by the smartest shops, it seems a reasonable and interesting departure.

One collection of early autumn suits, inspired by the efforts of the Paris houses, indicated the great popularity of tweed and the wider variety that seems slated to appear in fur and fabrics. Beside the short-haired gal-yaks, shawl-kids and corded furs that we have come to expect, there are a

number of long-haired pelts, including fox, lynx and a new dyed lynx which answers to the name of snow leopard. Of the medium long fur, lapin, beaver and nutria are all used to make lavish collars and much less lavish cuffs.

### WHAT'S NEW

(From A Woman's Standpoint)

A draped hat is an interesting feature in new evening coats.

Russian goat, a fur which resembles geyak, is a novelty for the coming season.

Effectiveness in fall gowns is heightened by utilizing only the back decoration.

The velvet hat for autumn is being featured by foremost Paris milliners.

Pleats, fringe and pelumps are featured on newest satin and lace gowns at Deauville.

Every second rag-rocker at Goodwood wore fish-net stockings, and colored shoes were much in evidence.

After reading a New York headline: "Poor Food Found More Harmful Than Rum," one eyeing husband inquired: "Why not a 20th amendment prohibiting him from cooking?"

Before any season gets under way and costumes are not all suited, gloves are purchased warily, but if no special color has been chosen for the afternoon ensemble it is wise to get a glove shade that will adapt itself to many colors.

Paris reports that white for evening continues to be exceptionally smart young girls and evening coats or capes and is being chosen especially by as well as frocks are of white and long kid gloves, reaching sometimes almost to the shoulders, are worn with them, while Worth's Paris collection features these long gloves in red, blue or green to be worn with a costume of white or black and the shoes often match the gloves.

One of the collecting fashions of the moment is for miniature pieces of old silver and furniture, and one of its most earnest devotees is the Queen, who is an ardent collector of these charming "toy" specimens of Chippendale and Sheraton chairs, chests-of-drawers, tallboys and tables, to say nothing of the Lilliputian candlesticks, goblets, teapots, platters, porringers, knives, forks and spoons, also made in the 18th century by the Courtaulds and other famous silversmiths.

Although the absence of the King and Queen from Balmoral will naturally affect the splendor of the Balmoral gathering in early September, there is certain to be a great attendance, for the Duke and Duchess of York will be present, and the Princess Royal and her daughters, Princess Arthur of Connaught and Lady Mary Carnegie with their husbands, will make their usual appearance in the Royal enclosure.

The Spanish influence is prominent in evening costumes and accessories, and gowns are designed in silhouettes suggestive of Castilian contours, while wraps are shown in pale gold brocades; evening turbans are wound about the head in the gypsy manner, and in jewelry extremely long ear-rings are worn with the new coiffures and a wide single bracelet is worn to complement the ear-rings.

Increase of \$45,674,000 in value of foreign trade at port of Philadelphia, Pa., during past six months.

CHASE dullness and tarnish from your silver pieces... rejuvenate them with silvo, the perfect Liquid Silver Polish. It's so easy to use—and so efficient... a few drops on an old, soiled cloth... a few rubs... and silver gleams again like new.

## Miss Hard-Boiled" BY JANE DIXON

"So do orchids. But plenty of us are willing to take a chance and wear 'em. I'll admit the bloke who tackled you with the monkey that night in Montmartre was an awful egg, but he had a hovel of an idea. All Paris has taken it up. To Paris you're le lis noir."

"I saw Eric Adams in New York," Raquel's black eyes sought Greta's blue ones with interest.

"Yes, he told me you gave him a hard wallop. But the patient will recover. He's engaged to some little doll who rides to his hounds on Long Island. A debutante, if you know what I mean."

"I'm glad," said Raquel, with the warmth of a smile. "Bertie deserves the best."

"Then he ought to have got you," said Greta, loyally.

"By the way," Greta chuckled, "I saw your rival at Ciro's last night."

"Rival? To who?" Raquel wanted to know.

"Mrs. Dexter. Next to you, she's the top choice of the judges for the Queen's Cup. She certainly is a fast worker, that one. There was a clout of men buzzing around her, too. And the rest of the entries?"

"In the international beauty race that goes on in this burg without ever closing the gates, were giving her the evil eye."

"She's the loveliest looking woman I ever saw," Raquel said ungrudgingly.

"She ought to be," Greta said. "You made her what she is today. You and Alphonse. By the way, what did she do with the appendix?"

"Appendix? I didn't know she was ill."

"Sure, Appendix. Husband. The one who fell for the snake-charmer."

"Greta!" Raquel expostulated. "You get worse instead of better. If you are talking about Mr. Dexter, the last time"

### BELLEVILLE BRIDE-ELECT

Miss Florence Gwendolen Lazier, whose engagement to Mr. Robert McCaughy of Toronto, son of Mr. and Mrs. John McCaughy of Belfast, Northern Ireland, is announced by her parents, Mr. and Mrs. Stephen D. Lazier of this city. The marriage will take place in October.

I heard of him he attempted to jump into the Seine because Mrs. Dexter wouldn't see him."

"Don't tell me the gendarmes went and spoiled the party?"

"Yes, they caught him in time."

"Too bad. Poor Mrs. Dexter. I'm afraid she'll miss him."

Raquel's lips, their giddiness heightened by some sort of cosmetic the color of ripe tangerines, twisted sardonically to show the blue-white glister of her teeth.

"Men!" she said.

Dexter had devoted his wife. The mother of his son. Her devotion, her love, her steadfast loyalty in the face of his ruthless and shameful attempts to shake her off, these counted for nothing when the fire of his passion or his young wife had burned out.

Only beauty, physical beauty, could an that dead passion to flame again. He had been too selfish, too self-centered to awaken a want for beauty in his wife. It was easier to find beauty, ready-made, elsewhere.

When he discovered how he had cheated himself, he yelled like a coyote in a trap.

"And Mrs. Dexter," Raquel thought out loud so that Greta might follow. "She carried about love. She loved him. She must have him. She was poor and mean. Sick in mind and body or all her money. Love was what could save her. But since she's found beauty and power to make men love her, she's stopped crying for toys."

"You mean she's given Dexter and Bunny Cupid the slip?" laughed Greta.

"Exactly," said Raquel. "She's learn-

ing to love."

Vinegar Solution  
3 cups vinegar,  
17 cup water,  
2-3 cup sugar,  
3 tablespoons white mustard seed,  
3 tablespoons calico seed,  
1 tablespoon salt.

Mix the ingredients and add the minutes. Pour into sterilized jars and seal at once.

## New Frocks for Autumn Wear

Every day sees the arrival of New Autumn Frocks, and all the latest style touches are shown among them. Flares and ripples, drapes and shirring mark these dresses as very new. Satins, canton crepes and velvets are the most favored fabrics used in these models. Sizes 14 to 46.

\$9.95 to \$39.50

## SINCLAIR'S

## Colored Towels

Pastel shades in peach, gold, and green, are used in these attractive Towels, made from a good quality of huck with damask border and ends. Colors are fast, of course. Size 18 x 33.

\$1.00 Each

## Colored Bedspreads

There are three combinations of stripes of various widths in these good Krinkle Spreads. Large size, 71 x 100, in rose, blue, mauve, green, and gold. They wash and wear well.

\$2.95

values." The imperative ring of a bell somewhere at the front of the dignified red brick house in the walled garden brought a small man in a black velvet coat hurrying toward the grilled iron gate.

"That must be — Eric," said Raquel, fluffing up the sable collar of her hair.

"Sir Reginald!" exclaimed Greta, so early in the morning? This is curious."

Raquel laughed softly. She had seen and was waiting for an alert figure that hurried along the gravel path to greet her.

Greta saw a man of medium height close knit, blondish, with the ruddy cheeks of the out-door Briton. An air of distinction sat easily on his broad shoulders. His face was grave, yet merry. His sensitive lips seemed bent on retaining a line of firmness that wanted to curve into a smile.

"I've been anticipating this pleasure," he said when Raquel presented him with pride in her voice, Greta thought. "Miss Rojas has been insoluble without you."

"It don't look that way to me," inked Greta, sagely.

### CHAPTER 51

That part of Paris which flashes and froths and whirls giddily in its renized flip toward pleasure rejoiced that Alphonse Courbet had returned from a hurried trip to the States.

Once more the magic carpets in Alphonse's splendid apartment just off the Champs Elysees would transport them to the ultimate heaven of their delight. A savant of all things beautiful, exotic, lavish, he promised to outdo all previous attempts at gratuity and abandon in entertainment.

Not to have been the guest of Alphonse was to admit oneself an outsider in the world of fashion and frivolity.

The centre of these Arabian Nights evils was invariably "le lis noir." The mysterious young woman of black and white loveliness, reputed to be a Spanish lady of high degree, who had come to Paris by way of America—for a reason no one seemed able to discover.

Alphonse had undertaken to establish "le lis noir"—called Raquel Rojas—queen of beauty in the capitol of Venus. He had succeeded magnificent.

There was to be a reproduction of a fête of Louis XVI in the apartment of Alphonse. Fashionable circles buzzed in anticipation of the event. Privately accelerated its pace, preened before mirrors, polishing its jewels.

There was much whispering, too, behind hands in drawing rooms, over dinner tables, at late suppers in smart cafes.

"Le lis noir has captured Eric Starford," one would confide.

PRESENTING THE "GOING TO" FAMILY

Have you ever met the "GOING TO" family?

There's old man "Goingto" who is "going to" be wealthy some day. There is his good wife Mrs. "Goingto" and

Mrs. "Goingto" is going to be a real help to her husband some day when she gets over bridge parties. She's "going to" see that he has a clean handkerchief when he leaves in the morning, yes, indeed!

But she never does. Then there are the two "Goingto" children, boy and girl. The boy is going to college—some day—the girl is going to get married—some day. And so it goes.

Last July the old man was going to remodel the house—it hasn't been done yet.

Three weeks ago the boy was going to wash the car—it hasn't been done yet.

Four weeks ago the girl was going to help her mother with the sewing—she hasn't yet.

They certainly are a great family, these "Goingto's."

Do YOU really know them?

THE AUCTION From all the town they came, the curious. With questioning eyes and swift, forgetting feet.

To see her house be sold—the tremulous Old lady down the quiet deep-corded street.

They peered along the darkened corridors Where candlelight had drifted with the years.

Where love had come and gone, where visitors Had brought their laughter gay, their silver tears.

The lilacs went with it, the yellow rose That wept frail petals now above the door.

Today she moved about on quiet toes, More softly than she ever moved before.

I wonder if, preparing to depart, They knew the auctioneer had sold her heart? —Daniel Whitehead Hicky.

### SOME HELPFUL HINTS FOR BUSY HOUSEWIVES

Watercress should be used while fresh; if kept in water it becomes slimy and if kept out of water it wilts and in either case it is unfit to eat.

One housewife uses a mixture of equal parts of white shellac and denatured alcohol for her linoleum and claims it is cheaper and quite as good as varnish; it also dries more quickly—in fifteen minutes.

If the children find it difficult to keep their towels separated, attach each to a spring clothes pin, which has been enameled white, or the bathroom comb, and have the initial or name on each.

## Millions of Women Wouldn't be Without It

An assured hygienic service at a small cost

Doctors and nurses have no hesitation in urging women to use Kotex, the New and Improved Sanitary Napkin, because they know it will protect against serious consequences that may easily follow times of hygienic distress.

Kotex is really more than a sanitary napkin. It is a hygienic service to millions of women. Besides, it assures peace of mind and comfort.

No embarrassment when buying. Just say Kotex at any drug, dry goods or department store. Regular size 60¢ for box of a dozen. Super-size 75¢. Directions in every package.

MADE IN CANADA

## KOTEX

Sanitary Napkins

### 5 Features of the New and Improved Kotex

1. Softer gauge ends changing. Pliable filler absorbs amazingly.
2. Rounded and tapered. No evidence of sanitary protection.
3. Deodorizes—safely, thoroughly by a new and patented process.
4. Adjust it to your needs—thinner, narrower, as required.
5. It is easily disposed of. No unpleasant laundry.

## "FEEL WELL AND STRONG"

MRS. J. MALIN  
"I have to work in the store and do my own housework and I got nervous and run-down and was in bed nearly all summer. The least noise would make me nervous. I was told to take Lydia E. Pinkham's Vegetable Compound and I have taken seven bottles. It has made me stronger and put more color into my face. I get along nicely now with my work and with my four children. I would like to answer letters."—Mrs. J. Malin.

MRS. FRANK LUKES  
"I had two babies which I lost at seven months. Before my third baby was born my husband advised me to take your medicine and he bought me three bottles of it. When I had taken the first one I began to feel better so I kept on during the whole period. We have a healthy baby boy and we are so proud of him and praise Lydia E. Pinkham's Vegetable Compound for the help it gave me. I feel well and strong."—Mrs. Frank Lukes.

3 cups vinegar,  
17 cup water,  
2-3 cup sugar,  
3 tablespoons white mustard seed,  
3 tablespoons calico seed,  
1 tablespoon salt.

Mix the ingredients and add the minutes. Pour into sterilized jars and seal at once.

Lydia E. Pinkham's Vegetable Compound  
Lydia E. Pinkham Medicine Co., Lynn, Mass; U. S. A. and Cobourg, Ontario, Canada.

## NEW ONTARIO TOWNS RISE FROM ASHES FOLLOWING FOREST FIRES

Editors Royally Entertained  
On Northern Ontario  
Tour

POINTS OF INTEREST  
Story Of Excursion Is Told  
By Intelligencer's Staff  
Writer

(By Samuel R. Curry)  
The Editors' trip to Northern Ontario was arranged jointly through the courtesy of the Canadian National, Canadian Pacific, T. & N. O. and the Algoma Central Railways and the Citizens' Committee of Sault Ste. Marie. The excursion was originally sponsored by James Curran, Editor of the Sault Star, who had all details pre-arranged. In a short series of articles this Intelligencer's representative, Sam R. Curry, will attempt to describe the tour of Northern Ontario for interested readers.

The Editors' trip to Northern Ontario was primarily conceived for the purpose of educating the people of the southern part of the province to the vast potentialities for future development in every phase of natural wealth in the north through the use of what is acknowledged the nation's greatest instrument—the press. The people of that imaginary boundary line separating the two provinces, oftentimes mis-constructed and mistaken ideas of that great tract which is known as "North of the 49th Parallel." The Government has for some years been stressing the importance of the wealth that has hidden in their endless expanses, but it was obviously felt that the one means of informing Old Ontario of the possibilities that lie within this great space was through the columns of the daily newspapers.

The excursion first had its birth in the mind of "Jim" Curran, editor and proprietor of the Sault Ste. Marie Star. "Jim" is for Algoma district, first, last and all the time, and his answer to Algoma's problems, he invited the representatives of twenty-five journals to spend a week with him. "Jim" Curran was a "prospector" in a newspaper sense when he first opened an office in the "Soo" and it was with a feeling of apprehension that he hung out his shingle. He has witnessed the tremendous influx into this striving centre until now it is numbered as one of the leading cities in Northern Ontario. He survived the leaner years and now the Sault Star has all the earmarks of an up to the minute metropolitan daily with its rotary press and its fifty-eight pages. To talk with "Jim" Curran is to know him. His heart and soul is with the Sault and his salient points are reflected in the columns of his paper. He spent weeks in laying the plans for what proved to be one of the greatest press trips ever attempted. Hundreds of pamphlets and letters were mailed in advance and enthusiasm waxed warm when the party gathered at the Union Station, Toronto, for the first lap of the journey which was to take them through

one hundred miles of James Bay. Bertha was assigned and it was a captive party that steamed out toward the north.

Those included in the party were as follows:—Mr. and Mrs. G. Wilson, Lindsay Post; Mr. and Mrs. R. J. Churchill, London Advertiser; Mr. and Mrs. A. Alloway, Ottawa Times; J. O. Beaudry, Ottawa Journal; C. M. Snyder, St. Thomas Times Journal; Mr. and Mrs. M. O. Hammond, Toronto Globe; Roy Greenaway, Toronto Star; H. A. Wilmut, Toronto Telegram; E. B. Wylie, Mail and Empire; Mr. and Mrs. W. E. Elliott, Sentinel Review; Woodstock; Mr. Parrot, La Patrie; Montreal; A. Vezina, La Presse; Toronto; R. K. Carnegie, Canadian Press; Ottawa; D. B. Taylor, C. D. N. A. Toronto; Mr. and Mrs. O. F. Young, New Chronicle; Port Arthur; Mr. and Mrs. J. A. Triller, Stratford Beacon-Herald; Mr. and Mrs. George Jones, Chatham News; Mr. and Mrs. H. R. Moffatt, Owen Sound; P. M. Richards, Toronto Saturday Night; Mr. Robert Turnbull, Toronto; Sam Curry, Belleville Intelligencer; Mr. and Mrs. A. T. Whitaker, Brantford Express; Earl Westlake, Galt Reporter; Mr. and Mrs. R. B. Harris, Hamilton Herald. Miss Constance Harris, Col. C. E. McCough, Hamilton Spectator; S. Strane, Montreal Gazette; Mr. and Mrs. A. H. Lowe, St. John's Record.

### Evidence of Forest Fires

There was little of an eventful nature until the train reached North Bay at 6:20 a.m. on August 19. A few of the active members of the party paid a brief visit to the business section but the majority kept company with the berths until the special was well on its way up the Temiskaming and Northern Ontario Railway. Through a myriad of small lakes bordered by primitive forests the train steamed ahead. It was the first taste of the great north country. On every side were the unmistakable evidences of the ravages of forest fires and the faint, stark trees painted a bleak picture against the waters of the lakes. Here and there, a clearing of the solitary signs of habitation was noted. These people isolated almost from civilization, bore the rigors of winter and the loneliness of summer, in order to have their selves a home out of the forests. Most of them, we learned, were railway employees, others settlers, and a few act as guides to those tourists who visit the country. Some of their forefathers were frontiersmen in the opening of the country.

A brief stop was made at Temagami Lake, a pleasant resort. This body of water is unique in that it has over three thousand miles of shore line and is dotted with numerous islands. It is popular with American tourists. According to the residents, Temagami Lake offers some of the best fishing in the north country and the provincial government have taken definite steps to keep it stocked with lake trout. Cobalt, the home of the original gold rush was reached within a short time and the kodak colony spent a busy few minutes securing some interesting views of this historic centre.

SET IN AN  
ALPINE FLOWER GARDEN  
Ice-land poppies! A  
Raining fringe on a lovely lake lake.  
At one end... a great glacier rears  
its fantastic form. Opposite, stands  
picturesque Chateau Lake Louise.  
Where friendly groups gather around  
the outdoor Grecian pool. Others  
start off for a canter over winding  
mountain trails... or loitering hiking.  
rowing. There's so much to do... so  
much beauty to see... not forgetting  
a motor trip to famous Banff.

## CANADIAN PACIFIC

One of the amazing features of the trip was noted at Halleybury. In 1923 this thriving community was a prey to one of the worst forest fires in history. With five beautiful new schools, splendid churches and stately homes, there is certainly no indications of the tragedy which wiped out this town six years ago. The loss of their homes, with the savings of years invested, meant nothing to those people. Possessed with these characteristics which are pointed in the people of the north the set-back merely inspired them to greater efforts and Halleybury has again been rebuilt until it resembles a modern city in southern Ontario. An overwhelming reception was met at Timmins, the next port of call by the Newspaper Special, of which you will hear more in the next article on the Editors' Trip.

## Here and There

581  
Honorable George, aged ten, and Honorable John, aged nine, sons of Canada's ranching peer, Lord Rodney and descendants of a famous British Admiral, recently travelled 4,000 miles from Port Saskatchewan, Alta., to England, to enter a public school in the Old Country. They took the long journey unaccompanied, travelling on Canadian Pacific lines and by S.S. Montclair. C. P. R. officials looked after them on the long trip.

Re. Hon. L. C. M. S. Amery, secretary for the Dominion in the Baldwin administration, who arrived in Canada from the Express of Australia recently travelled straight across the Dominion by Trans-Canada Limited, orack Canadian Pacific flyer, for Banff and Lake Louise whence he reached his objective and namesake, 11,000-foot peak which he will climb.

Miss Georgia Englehard, daughter of a New York lawyer, is busy scaling peaks and establishing climbing records around Lake Louise. She climbed six peaks up to 12,000 feet in height around Lake O'Hara in one week. In addition to these exploits she has made a three weeks pack train trip.

Adding to an imposing list of winnings gained at leading exhibitions over the prairie circuit earlier in the season, the championship Holstein herd of the Canadian Pacific Railway supply at Strathmore Farm gathered ten firsts, five seconds, five thirds at the Vancouver Fair, made a clean sweep in the bull classes with junior and reserve senior championships in female classes and in group classes won first for exhibitors, first for young herd, first for progeny of cow, second in breeders herd and second in set of sides.

Judges of piping and dancing at the forthcoming Banff Highland Gathering and Scottish music festival to be held August 30, September 2 have been announced. They are, Colonel Alexander Frazer, Donald E. MacPherson, Murdoch McLeod, George Murray, all of Toronto; William Ferguson, of North Bay; Neil Sutherland, of Regina; and Alexander Hosie of Medicine Hat. Coincident with the Festival, the Dominion Field and Track championships will be decided at Banff Labor Day.

Output of creamery butter in Saskatchewan for the first six months of the year is exactly 46% greater than for the similar period in 1928, according to a report of the dairy branch of the provincial department of Agriculture. In the first half of 1929 it was 6,128,044 as against 4,215,349 pounds in the first half of 1928.

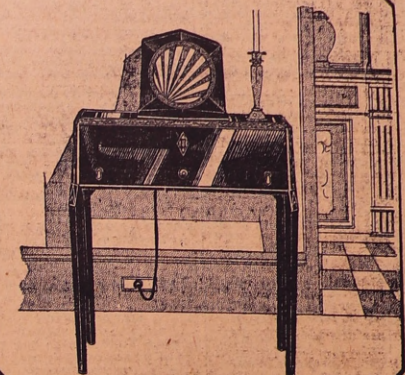

The Canadian Pacific Railway will be represented at Fall Exhibitions in Eastern Canada this year at Toronto, Quebec, Sherbrooke, Saint John and Fredericton by models of the system's scenic, hotel, oriental and general details of the company's travel, express and telegraph activities. There will be a special building devoted to C. P. R. matters at the Toronto Exhibition, while activities dealing with other parts of the country will be shown at other cities. A number of special trains will be run to these Exhibitions.

anda, Quebec, spent a few days with relatives here last week.

Mr. and Mrs. J. D. Campbell returned to her home near Roslin with Mr. Jordan Thursday.

## Radiola 33

NOW  
ONLY  
\$75.  
less Radiotrons  
and Loud-speakers

## Sensational Value!

HERE is the greatest value ever offered in the history of radio... a Batteryless Console of rare beauty and amazing performance... at the phenomenally low price of \$75.

In a few weeks time Radiola 33 has attained tremendous popularity. The large-scale production to satisfy the demand has created big savings which are passed on to you.

At its new low price Radiola 33 will enjoy still greater sales. We urge you to come to our show rooms now... be convinced of Radiola 33's outstanding value... and make sure that you will have no disappointing delay in getting your set.

You will need only one demonstration to reveal the power, keen-edged selectivity and exceptional realistic reception of Radiola 33.

Complete with Radiotrons Radiola 33 costs only \$96.50... and the C.G.E. Loudspeaker 100-B which harmonizes perfectly sells for \$25. Our convenient time payment plan will simplify your purchase.

## RENOVATION OF ST. PAUL'S NEARLY ENDED

London, Sept. 3.—Seventeen years' work of renovating and strengthening St. Paul's Cathedral is gradually nearing an end.

The reinstatement of the huge electric organ, a four months' task has been started while the final finishing touches probably will be complete in a year.

The temporary barriers that have shut off nearly half the historic church from the public will be removed next June and plans are already being made for a Thanksgiving service to be held at the end of the month.

After the installation of the organ, which has been electrified and modernized in every respect, the principal work to be completed is the refacing of the strengthened columns supporting the dome and their recarving.

The Cathedral, the third St. Paul's built on the site was started in 1688 by Sir Christopher Wren. In 1925 city

authorities condemned the structure a unsafe and Dean Inge was informed that the hollow pillars supporting the dome were badly cracked and in serious danger of crumbling.

Constant traffic and excavations for highways and new buildings in the financial neighborhood about St. Paul's, had caused the weakening of the pillars. Steps were taken immediately to strengthen them and the lobby under the dome was shut off. Holes were cut in the columns and liquid cement was poured in them.

The first work of renovation was begun in 1913 and the first public appeal for funds was issued shortly afterward. A total of \$2,000,000 has been raised by public subscription with a result that there will probably be a small surplus after the work is finished.

## WHALING INDUSTRY IS WASTEFUL ONE

Washington, D.C. Aug. 3.—In the exploitation of any natural resource, the policy of obtaining the largest possible returns without regard to methods employed or to its possible depletion by wasteful processes, is too apt to be followed.

The whaling industry has been justly criticized for its wasteful methods of operation. According to the Council for the Conservation of Whales, which was organized by the American Society of Mammalogists, the whaling companies on many of the fields are merely skinning off the cream in the shape of the oil, and are turning aside the bulk of the carcass which could be converted into meal for feeding live stock; the bones make an excellent charcoal which finds

### REGENT THEATRE

Right Chinese long are known to exist in the United States today. They are the On Leong, the Hip Sing, the Four Brothers, the Kun Lan Wai, the Sui Ying, the Bing Kong, the Sui Yee and the Jung Ying societies. Paramount's production, "Chinatown Nights," which will show at the Regent theatre tomorrow, deals with the work of two of these long. William A. Wellman, director of "Wings," made this picture.

## BELLE THEATRE

Whence did they come—these person allies of American films—Wallace Beery, Jean Arthur, Fred Kohler and the others?

Do you know—

That Wallace Beery began his screen career doing minor comedy hits as a Swedish maid in the old Eskayday? That Jean Arthur was born in New York and played small parts for four years in Hollywood before she was signed for the lead in "Warming Up"? That Fred Kohler was on the stage four years before he began his screen career 19 years ago?

That Guy Oliver played leading roles in the first pictures made about twenty years ago by the Lubin Company in Philadelphia?

That Otto Brower, the director of "Stairs of Sand," was an actor doing one and two-night stand in the city before he saved the opportunities of the motion picture business and went to Hollywood eleven years ago?

That "Stairs of Sand," a filmation of the famous Zane Grey novel of the same name, is coming to the Belle Theatre for three days beginning tomorrow and that all the actors mentioned above are in the cast?

a steady market with sugar refineries and the remainder is suitable for fertilizer.

The present rate of killing is far in excess of the normal rate of reproduction. While giving birth to a single young on alternate years and the supply cannot be maintained unless the catch is regulated. When the catch fails to meet the cost of operation, securities of such whaling companies will be worthless. The whaling tackle has been greatly improved in recent years and losses have been reduced to a minimum. In the past year or so some of the companies operating in the southern seas have contemplated using airplanes to spot whales. If this plan is put into use, the field of operation of a whale catcher will be extended and the whale's chance of survival correspondingly reduced. One Norwegian company is testing the use of electrocution in whaling operations. When a whale is hit a strong electric current is sent thru the cable bound in the rope attached to the harpoon and it is expected that this will produce instantaneous death. These new innovations, if successful, will increase the present slaughter. Since 1900, approximately half a million whales have been killed by whaling companies operating in different parts of the world. In the preceding 300 years not more than a million whales were killed.

## RADIO IMPULSE IS TRANSMITTED FROM COMMANDER BYRD

Los Angeles, Calif., Sept. 3.—A Radio impulse, started by Commander Richard Evelyn Byrd from his Antarctic camp at Little America last night blew an automobile horn and drew the curtains from an enlarged picture of Byrd at the Seventh National Radio Exposition here.

## DELORO OR KINGSTON?

## SPORTING SECTION

## DELORO HOPES TO MAKE IT TWO STRAIGHT OVER KINGSTON TEAM

Limestone City Fans Are Sure This Will Be Different

Deloro Smelters with one victory tucked away will attempt to end the series with Kingston 21st Battalion this afternoon. There is little love lost between the clubs and the Smelters are confident that they can take their Limestone rivals into camp for the second successive time. If there be any advantage attached to this afternoon's dynamic struggle it lies with Deloro since they are playing on their own grounds with a home crowd of rooters behind them.

The Smelters have included in their line-up three Kingston boys all of whom played a prominent part in Saturday's win in Kingston. These are Art Quinn, sterling catcher, Bob Elliott who is one of the important cogs of the inner works while Harold Buck is the chief link in the outfield.

Kingston Outlooked  
Kingston however claim they were out-luckied in Saturday's game and have promised their supporters that the series will be extended to three games and if this is the case the third and deciding fracas will be staged at the Basil. The Smelters have two pitchers ready to do the gunning in and the youthful "Inky" Woods. Both of these boys are twirling smart.

ball right now and Manager Bill Regan will likely hand the assignment to Woods. He will probably be opposed by "Yummy" Jamieson who has been the mainstay of the Kingston club in the season's campaign.

The Girl and The Game  
By Anita

There remains but one more City League game to be played in girls' softball and then outside a few exhibition games, the softball season will be over. With the passing of daylight saving time, twilight games are practically impossible as it gets dark too soon.

The remaining game is to decide the City Champions. At first, and in fact until the second half of the league was well under way, it looked as if the Frontenacs were going to capture the championship without much effort, but the Clac girls suddenly came to life and put a crimp in the program.

They won the second half of the league and came second in the first half. The Frontenacs who are winners of the winners of the first half, will play-off with the Clac girls for the splendid trophy donated by Mr. W. C. Leybourne.

It's hard to say which team will come out victors as they are both evenly matched. Both pitchers seem to measure up about the same. Bessie Doolittle for the Clacos has lots of pep but tires around the seventh and Alice Tompkins for the Frontenacs is a times finds it hard to retain her control over the ball.

The Frontenacs have the edge as far as the hitting goes, but with Bessie Doolittle throwing them well, few runs will cross the homeplate. The game is being looked forward to with interest by Belleville fans as this will likely be the last good game of the year.

The two rivals will meet sometime this week and the game will likely start at six o'clock in order to get the nine innings over before darkness sets in.

## LIQUOR EXPORTS LESS AT WINDSOR

Ottawa, September 4.—Liquor exports from the Windsor district to Detroit during the month of August show a decrease as compared with August of last year but an increase compared with July of this year, when the United States preventive forces were more vigilant than they had been.

Petting parties in cemeteries at Torrington, Conn., will be banned.

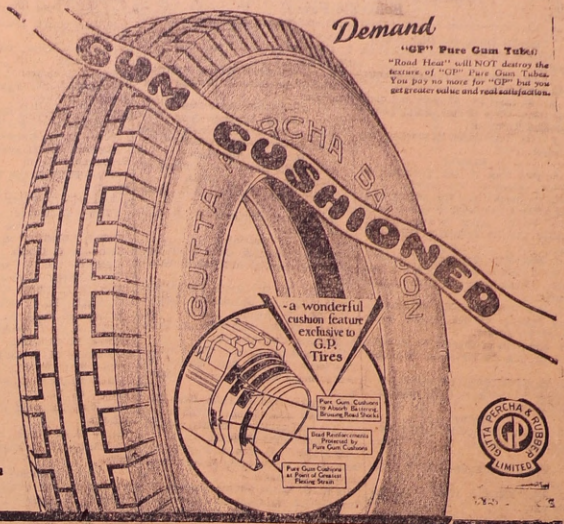

## Shockproof!

GUM Cushioned Tires are described in one word—**shockproof**. The live gum cushions resist and absorb the full force of all jolts met with in modern high-speed motoring. Gum Cushioned Tires go farther, last longer, look better and cost no more than old style tires. Go to Gum Cushion Tire Stations—they'll show you.

## DINGHY SAILORS STACKED AGAINST BEST ON THE LAKE AND THEY DID NOT DO BADLY AT THAT

\*\*\*\*\*  
WANTED—Somebody in the Bay of Quinte District with sufficient of this world's goods and a large bump of enthusiasm, who will get a first class sailing yacht under him and help hang the old B. Q. Y. C. barge, on some of the signal halyards round about the lake.  
\*\*\*\*\*

It was a little sad, steaming into the Royal Canadian Yacht Club on Sunday morning through a fleet fit to make a man's mouth water, to observe every burgee but ours standing out in the breeze from the signal yard. Not a Bay of Quinte yacht in the harbour. The ghosts of some magnificent old ships must have wept if they were watching from the place where good ships go. "Katy Grey" (still living in honoured age) "Alakata" "Comet of Duffin" "Sturges" "White Wings" "Island" Beautiful names borne by beautiful vessels; vessels that carried the white St. George's Cross to victory in gale and zephyr all up and down and round about the lakes.

"You should have seen, man can't tell to you. The beauty of the ships of that, my city. For one may haunt the pier a score of times. Hearing the evening bells ring out the chiming. Yet never see those proud ones away from home. With many-backed and bows a cream of foam. Those bows so lovely curving, cut so fine. Those coulters of the many-bubbled brine."

However, there are some enthusiasts left to carry on the tradition as best they may and Monday morning saw four crews of them cheerfully faring out to do their best against the pick of Lake Ontario's small boat sailormen. The dinghy people were represented by Commodore Proctor, Bob Martin, Eardley Wilmot, "Nip" French, "Mike" Blain and Jack Rooney.

In the first three battles they were pitted against the National Yacht Club. Owing to lack of breeze the initial brush had to be called off half way round and the boats towed in for refreshment. Later on the six picked up a bit and they managed to get round the course, in the following order: National, Proctor, Wilmot, Blain, National, Martin. Ten points for B. Q. Y. C. and eleven for National. Pretty close that, and hopes ran high. However, things did not go so well in the second tilt which finished—National, National, Martin, National, Wilmot Proctor.

Then came the prize show of the whole works, the race for the Darrell Shield, emblematic not of the boat championship (p. but of the club championship of the lake. Entries were in from the Royal Canadian, Rochester, Toronto Canoe Club, Queen City N. Club and Bay of Quinte. Owing to the sad fact, however, that Rochester had to get away off across the lake and the sadder fact that something or other disagreed with the remainder the race finally ended up as a match

\*\*\*\*\*  
between the Royal Canadian and the Bay of Quinte clubs. On paper it looks like a colossal piece of nerve. Here we were, accustomed to sailing older dinghies, most of them dating from the jaff headed period on a bay noted for fresh breezes and honest breezes. We were manning "Flame", Eardley Wilmot's beautiful little red top (beautiful but three or four yards old and a more or less good boat borrowed for the occasion from N.Y.C. On the other side of the line sat Hyland and Bourke, two of the Royal Canadian's best, armed with Bourke's designed boats which had an hour previously won the Douglass and Emerson trophies emblematic of the Great Lakes championship. Wonderful lifts, things and the very latest in stick and string speed.  
\*\*\*\*\*

Think you are describing this situation by way of excuse? No sir. Not by the length of a hank of marlin we meant. They beat us, of course, but not before we had given them, new boats and all a fast hot heat that kept them humming for every one they had in their skipper and boat and crew. In the first place, Wilmot beat them on the starting line, lost the lead on a broad reach, and took it away from them again on the beat to weather. If you know anything about sailing you know what that means. The writer did not see the race so call, not go into details but has been assured by spectators that it was worth the price of admission. The Belleville boats were well up with their rivals at the finish and one R. C. Y. C. member there to go for slinks of wind as the Toronto skipper knew they would have been right on top of the Burtons counters if not better. Wilmot in "Flame" and Proctor and Martin who took turns in handling the N.Y.C. boat sailed a hard fighting race against heavy odds, were right up in the running all the time and are to be warmly congratulated for their good showing as well as for their gameness and pluck.  
\*\*\*\*\*

B. Q. Y. C. also had an entry in the Telegram Trophy race which was sailed in "C" class yachts out in the lake. These "C" boats are a one design class about twenty-five feet over all, cabin and standing keel, masted rigged sparred for all they can carry and as tender as young brook trout. They are smart boats and beautiful boats to handle. Our crew consisted of Mowat as the skipper, Bob Graham (p. on the mainmast and "Vic" Bongard handling the light canvas. Bore were four, ten entries in all, and only eight boats so the engagement had to be on in its heels. Mowat was lucky and drove a "bye". We won't make a long story of it. Our skipper wasn't any bit. Was the last boat over the line at the start, but going harder than any of the others. Bore fired and on the beat out into the lake we pulled on from last place to third. "Cordill" which we were for along lower the breeze and at the end of the second round had walked right up on the leaders, overhauling them in fine style. It looked as though we should be in the money but the air softness and "Cordill" gradually sagged back until she

finally had to hand over her place to some people whose names we don't know but who can sail boats and an up hole sportsman. However, fourth out of an original fourteen starters is little comfort. The keenness of the racing may be judged from the fact that as nearly as we could time it, the first five boats finished within a minute and three seconds. And at that the finish was practically a drifting match. You could have passed a cigarette between any 4 the boats.

The "C" boat crew were entertained at the R. C. Y. C. They were entertained most thoroughly. The sailing season is drawing to a close and unfortunately there will not be any more Labour Days until next year. It is a long time afloat, but gives us something to dream of. If we can have as good a time and as good sailing next year, we are willing to wait.

## PETES DEFEAT PICTON TEAM 5-0

Cole Struck Out Ten Batters But Visitors Won With Rally

Picton Intermediate baseball team were eliminated from the O.B.A.A. by Cornwall's of Peterboro yesterday in the Prince Edward town when they were defeated by a score of 5-0. As the Petes won the first game at home last Saturday 14-1 they will advance into the next round of the play-downs. The one redeeming feature of the contest insofar as Picton was concerned was that all the car-marks of being a heavy pitcher of Cole. This youngster of senior calibre and he struck out ten of the visiting batsmen yesterday while he was accounted little or no support from his teammates. The Picton players, however, threatened at times to down the Petes by the Coss came through with a rally that netted them three runs in the eighth frame and clinched the verdict. Walter Gerow and Ken Colling of Belleville acted as arbiters.

## NEW RECORD SET IN AUTO PRODUCTION

Washington, D.C., Sept. 4.—Commerce Department figures show that the total domestic production of 3,723, 723 motor vehicles, including passenger cars and trucks during the first seven months of 1929, established a new high record in comparison with any similar period on record.  
The July production, counting only factory sales of motor vehicles is placed at 500,331, including 426,159 passenger cars, 73,118 trucks and 1,054 taxicabs. Total vehicles produced in June and July in 1928. The output for the eleven months' period was larger than in any entire year prior to 1923 and exceeded the production to 1924 and 1927. It was nearly eight times as

## FAMOUS TRENTON SWIMMER PASSES Forest Fires Sweeping Through Northern Bush-Jews Help Stricken

### "PAT" JENNINGS NOTED SWIMMER DIES AT TRENTON

Well-Known Figure In  
Sporting Circles Passes  
Today

#### COLORFUL CAREER

Was Expert On Sporting  
Events And Popular As  
A Writer

Patrick Jennings, tailor, swim expert and sport writer and promoter, is dead at his home in Trenton.

Known as the "Human Fish" tales of his exploits in the water, despite the handicap of a withered and deformed leg has spread all over Canada even before the present craze for marathon swimming. Habitués of Twelve O'clock Point looked on it as a common sight to see "Pat" floating in the middle of the Murray canal, a cigar in his mouth and reading the latest sporting edition. He was an early entry in the first Wrigley Marathon at Toronto but owing to the sudden illness of his mother was prevented from swimming on this occasion. He created a furore in Toronto by arriving at that place with a big cask of Trenton Spring water which he used during his training. Another exploit which brought him before the gaze of the public was in 1925, when he started to swim from Belleville to New York by way of Lake Ontario and the Erie Canal. Shortly after starting, however his accompanying launch broke down and the attempt was abandoned.

One of the highlights of Jennings' career occurred in Belleville, when Jack Johnston was heavyweight champion of the world. The two men had met in Toronto before Johnston defeated Jeffries for the title and the former promised Jennings that if he won he would come to Belleville for a dinner and reception. Some time passed and Johnston did not show up until the town "about guys" commenced to kid "Pat" while his friendship with the champion. Finally Jennings waged everything he owned that Johnston would make good and the latter came all the way from Chicago to keep his promise.

### BUSINESS HOUSE CHANGES HANDS

B. D. Harns, Twenty-Six  
Years Here Disposes Of  
Property

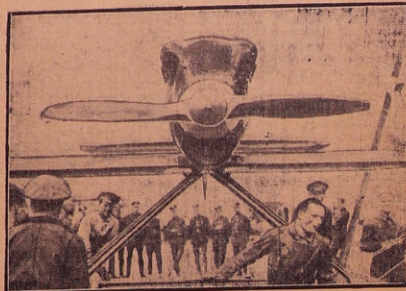

One of Belleville's oldest business establishments has passed into new hands with the sale of the store and property owned by Mr. B. D. Harns, 165 East Bridge St.

Twenty-six years ago Mr. Harns, a Prince Edward boy and a graduate of Albert College acquired the property and through the years he has conducted one of the largest retail houses in Central Ontario. He comes here well-qualified to look after the interests of his customers. His wife and two sons will join him shortly.

### RAIN BADLY NEEDED IN EASTERN STATES

New York, Sept. 5.—Rain to fill the reservoirs, extinguish forest fires and cool blistering city streets was the acute need throughout the eastern states today. Four days of unprecedented heat set new temperature records for September, aggravated water shortage and multiplied the difficulties of forest fire fighters.

### ITALY'S HOPE FOR SCHNEIDER CUP

Like a giant dragon-fly, so appears the Italian entry, the Superbo, in the forthcoming Schneider cup races, photographed on arrival from Italy at Calshot, England. England and Italy will be the only nations represented in races.

### JEWISH COLONY PROTEST ABUSES INFLECTED AT HANDS OF ARABS

#### FIERCE FOREST FIRE IN WESTERN STATES

Rhineland, Wis. Sept. 5.—A heavy rain today sounded requiem for two forest fires in Wisconsin and up per Michigan, drenching the woods dried by three weeks of hot weather. The firefighters declared the situation was well under control, except in one isolated spot.

### PASSENGERS ON GIANT AIR LINER MAY BE ALIVE

Despatchers At Telegraph  
Points Deny Circulating  
False Reports

Los Angeles, Sept. 5.—The Chief Despatcher of the Santa Fe Railroad, told the Associated Press early today that he had just talked via telegraph with the Santa Fe agents at Perea and Gallup, New Mexico and that both denied having circulated the report that the T. A. T. Liner, City of San Francisco had been wrecked in the Black Rock wash country of New Mexico.

New York, Sept. 5.—Officials of the Trans Continental Air Transport after notifying last night relatives of the passengers missing in their plane, the City of San Francisco, that they had a report the plane had been found and the passengers were dead, today notified the relatives that report had not been verified and that there was chance that the report referred to another missing plane rather than the T. A. T. ship. They told them T. A. T. plane was still missing.

### NO NEW BUSH FIRES REPORTED IN NORTH

Sault Ste. Marie, Ont., September 5.—While the woods are as dry as tinder no new bush fires have been reported in this section in the last day or two, and those reported over the week-end are all under control. These fires, none of which are of serious proportions, are at Paden, Sault Lake, Whitefish Lake, Echo Lake and back of Bearmouth. Rain is badly needed and farmers are beginning to feel the effect on the root crops unless it comes soon.

### AMERICAN FLYING FLEET TAKES PART IN FLYING DAY AT THE FAIR

"Dave" Harding Famous  
Canadian Ace Meets  
Visitors

Toronto, Sept. 5.—With a roar that drew all eyes skyward, nineteen planes from the First Pursuit Squadron of the United States Army at Selfridge Field, Michigan, flew into Toronto today in battle formation to participate in aviation day at the Canadian National Exhibition.

After flying around the city the squadron commanded by Major Ralph

### Hebrews Forward Telegram To Canada's Prime Minister

Jewish people, representing Belleville, Picton, Trenton, Madoc and other points in Hastings county held a mass meeting in the new Synagogue here last night, protesting against the Arab outrages against the Hebrews in Palestine. Memorial services, in memory of those who perished at the hands of the Arabs in the Holy Land were conducted by Rabbi Gertzel. About fifty Jews were present at the meeting.

A telegram was sent to Premier W. L. Mackenzie King, requesting that every protection so far as is within his power be given to the Jewish peoples in Palestine. Speaking to the Intelligencer this morning, one of the prominent members of the local Synagogue stated that the Jews of Belleville and Canada were not protesting against the British government and its administration there, but merely against the cruel and barbarous treatment given to the Jews by the Arabs.

"We have every faith in the promises made by the British government that order will be restored in Palestine this Hebrew stated this morning. "We believe that every effort is being made by the British to make the country safe for the Jews who are there."

There are no Jews from Belleville or Palestine living in Palestine at present and no local Hebrews have suffered the loss of relatives in the recent outrages.

At the meeting in the Synagogue well over one hundred dollars was raised for the relief of those suffering in Palestine, and the fund is steadily growing larger. Each person present contributed in some way, and a substantial amount will be sent to the Palestine Relief Headquarters.

The following is a copy of the telegram sent to the Premier today—The Prime Minister,

William Lyons MacKenzie King,

We, the Jewish community of Belleville, Trenton, Picton and Madoc herewith protest against the cruel Arab atrocities in Palestine and fervently hope that Canada will support Britain's attempt to restore safety for our brethren.

TO COMPETE AT MONTREAL.  
Montreal, Sept. 5.—The Herald today said George Young, Toronto, would compete with a large number of prominent swimmers in the Marathon to be held here Sunday for a prize of \$1,500.

### FLAMES DEVOUR TIMBER TRACTS NEAR PEMBROKE

Intense Forest Fires Sweep  
Area In Northern  
Ontario

#### THE HOTTEST DAY

Weatherman Promises Relief  
From Heat Wave Of  
Past Few Days

(Canadian Press)

Pembroke, Ont., Sept. 5.—Flames are devouring valuable timber in close to a score of different areas north of the Ottawa Valley town today. The three weeks drought has left the country as dry as tinder and no prospect of rain in immediate future is reported by the Meteorological office. The fire stretching over about 500 acres is raging in the southwestern area of Alice Township while a smaller one, believed started by lightning is burning ten miles south of Deux Rivières. Three fires are burning out of control in the township of Chisholm, south of North Bay, two of which are burning through the logging slash and are hard to combat. Another south of Whitney in Coyne Township is taxing the efforts of six fire fighters.

Toronto, Sept. 5.—With rain promised for this evening and the temperatures slightly lower today the citizens of Ontario and especially the farmers, were hopeful that the heat wave would be broken in the next twenty-four hours.

The present heat wave started last Friday and reached its peak Tuesday when the temperature in Toronto reached 94 degrees, the hottest day of the summer. Yesterday it was ninety degrees and today early morning readings showed 67 degrees.

The weather today showed a decided improvement and a strong breeze was blowing.

### ACCUSED PASSES ON EVE OF TRIAL

W. N. McDonald Of Manufacturers Finance Corporation Dies

Toronto, Sept. 5.—W. N. McDonald, general manager of the Manufacturers Finance Corporation, who was at liberty on bail of \$100,000 awaiting trial on criminal charges in connection with the failure of the company, died suddenly shortly after midnight from angina pectoris at his home here. Mr. McDonald was charged with theft and false pretenses, involving \$500,000. Yesterday he visited a local lakeside resort and only complained of feeling ill on his return late in the evening.

### COMING EVENTS

The well baby clinic will be held tomorrow afternoon in the City Hall from 2.30 to 4.30.

Special Bus to Picton leaves corner of Bridge and Front Sts at 1 o'clock Thursday and Friday. Fare \$1.50 return. Frank Smith.

"Pat" Jennings of Trenton who died this morning after a short illness at his home. Mr. Jennings was a well-known sporting figure in this district, having been a great swimmer and follower of Trenton times for the past fifteen years.

### News At A Glance

#### DROWNED IN CANAL

Toronto, Sept. 5.—Roland McHugh, 23, was drowned in a canal here early today when he fell from the derrick on which he was employed. His body was recovered by life savers. No one witnessed the tragedy.

#### GANG MURDERS

Chicago, Sept. 5.—A double murder the fifth outbreak of gang wars within a week was committed early today when Cy Conley, well-known westside gangster and Eddie Westcott were killed in Jacob Riss park.

#### FRANCE WILL SIGN

Geneva, Sept. 5.—Premier Briand today declared in a speech to the League of Nations assembly that France would sign the optional clause of the Statute of permanent court of international justice.

#### CAPTORS RELEASED

Harbin, Manchuria, Sept. 5.—Two British insurance inspectors here, who were kidnapped by Manchurian bandits August 22 have been released and are en route to Harbin.

The third member of the party managed to escape recently.

#### NEW AIR SERVICE

Kansas City, Sept. 5.—The new International air rail combination bringing New York and Mexico city within two business days of each other, was announced here today. The service will begin Sunday.

#### P. E. I. TEACHERS UNDERPAID

Charlottetown, P. E. I., Sept. 5.—Witnesses before the Education Committee at St. Peter's and Sault yesterday unanimously agreed that teachers' salaries should be increased.

#### MUSSOLINI TO VISIT COLONIES

Rome, Sept. 5.—The agency "Italy Today" yesterday said that Premier Mussolini would visit Italy's East African colonies next year.

#### SITUATION ALLEVIATED

Sault Ste. Marie, Ont., Sept. 5.—Steady rain throughout night brought some relief from bush fire hazard in the vicinity of the Sault where the situation has been threatening in recent weeks though no serious fires have occurred.

#### FIRE IN BASEMENT

Fire broke out in the basement of the office occupied by the Singer Sewing Machine company on Front St. shortly before three o'clock this afternoon. After considerable difficulty, the fire department succeeded in finding the conflagration and it was extinguished with ease.

### MAY PURCHASE HYDRO SYSTEM

Deseronto is lining up with other Ontario municipalities and is considering the purchase of the local hydro electric distributing system. J. O. Herlihy, manager of the Belleville Chamber of Commerce and secretary of the Central Ontario Power Association, was in Deseronto earlier this week, interviewing the members of the town council with regard to Deseronto taking over the local plant. The matter will be probed and a by-law will be submitted at the January elections, it was stated yesterday.

#### THE WEATHER

Local thunderstorms tonight and Friday, becoming cooler on Friday, moderate southwest winds today, moderate northwest on Friday.

### FRENCH LEADER PLEADS FOR ERA OF PEACE AT THE WORLD COURT

Aristide Briand Makes  
Great Appeal To League  
Of Nations

Geneva, Sept. 5.—(By George Ham, high Canadian Press Staff Correspondent.)—Premier Aristide Briand of France, today made one of the most notable speeches of his career before the assembly of the League of Nations.

With all the eloquence for which he is famous with his animated gestures and tone of intense earnestness he pleaded for a reign of peace.

His declarations brought the assembly to its feet, France had already signed the optional clause of the world

### KINGSTON MOTORIST IS ALLEGED HIT-AND-RUN DRIVER; HELD ON A CHARGE OF INJURING TRUCKMAN

#### JOIN LIFE GUARDS

#### Just Ninety Years Of Age

Mrs. Henry Bushey leaped into the Oswegatchie river, Ogdensburg, N.Y., recently and saved the life of Louis Siegel, 63, Rochester. Four years ago at about the same spot Mrs. Bushey saved two boys.

### COMPLETE PROBE IN FATALITY AT GILMOUR CAMP

Coroner Dr. Harper Of  
Madoc Heard Inquest  
At Gunter

Accidental death with no blame attached to anyone was the verdict of the coroner's jury into the death of Paul Krokrish, a Russian laborer, who was killed on August 29th by a falling tree at Long Lake, twelve miles from Gilmour. The inquest was held at Gunter post office with Coroner Dr. Harper, of Madoc, in charge.

According to the statutes it is obligatory to hold an inquest in case of a violent death on railway or railway construction work, even in cases where there is no doubt as to the accidental nature of the death. Krokrish was struck from behind by a falling tree which some fellow workmen were cutting down.

The names of the coroner's jury were William Kent, foreman; Maurice Gaultier, Dexter Tremble, Chas. Tremble, Lerne Phillips, Hiram Chisholm, Harold Palmatier and A. N. Gunter.

#### BRITAIN AND U.S.A. WILL FOSTER PEACE

Geneva, Sept. 5.—A tremendous desire for peace shared by 85 percent of all the people of the world will enable President Hoover and the British premier to solve the naval powers problem said Rt. Hon. Ramsay MacDonald himself speaking today at a luncheon given by the International Association of Journalists accredited to League.

#### INVITED TO MELBOURNE SEE

Melbourne, Australia, Sept. 5.—Invited to accept the archbishopric of Melbourne.

### FEAR CALL RATE MAY ASCEND ON BULL MOVEMENT

Speculative Interest Shift  
From Copper To  
Utilities

(Canadian Press)  
New York, Sept. 5.—The "Bull" party regained control of the price movement in today's market, but signs of nervousness on the part of the professional traders which have been apparent for the last few days have not entirely disappeared.

New soft spots cropped out from time to time and some of the rallies in the pool favorites were checked by heavy offerings. Speculative interest shifted from the copper to the public utilities and thence to the rails, with motor, steel, electric and mercantile shares also presenting few points of strength.

Call money renewed unchanged at nine percent but there was fairly heavy calling of loans by out of town lenders and rate threatens to go higher.

### Morley Pearson Of Blue Line Transportation In Local Hospital

#### PROBING AFFAIR

Toronto Man In A Serious  
Condition Following Highway  
Crash

Struck by a "hit and run" motorist, who was later arrested in Kingston, Morley Pearson, of Toronto, driver of a Blue Line Transport truck, is lying in the Belleville Hospital today with a fractured skull, concussion and injuries to his legs and other parts of his body. A companion, Max Siderman, was also hit, but was not injured seriously. William Moberly, of Kingston, was the man arrested as the driver of the car which struck the two men.

Parked well over on the right side of the road, the large truck was stopped at Milltown, while the two men went over to a well which they had often used before to get a drink of water. They had just come back from the well and were standing on the left side of the truck when an approaching car suddenly swerved and struck the right side of the road and struck Pearson with terrific force while Siderman escaped the full impact. The car travelled on down the road for some distance and then stopped, and a man got out and came back.

"I'm Sorry—Goodbye"

Hastening up to the dashed Siderman, who was leaning against the truck, he grasped him by the hand and said, "I'm sorry, Mac," and then quickly walked on down the road again to his waiting car, neither asking whom he had struck nor did he inquiring as to the condition of Pearson who was lying in the road, unconscious. When asked his name, he made no reply, out jumped in his car and sped east on the Highway. An eye-witness managed to secure the number of the car which was reported to the police and reached the condition of Pearson who was lying in the road, unconscious. When asked his name, he made no reply, out jumped in his car and sped east on the Highway. An eye-witness managed to secure the number of the car which was reported to the police and reached the condition of Pearson who was lying in the road, unconscious.

Highway Traffic Officer Rose and Provincial Constable Tompkins hastened to the scene of the accident in the Police Ambulance, picking up Dr. Eckard of Charnaville at that place and rushed him to the Hospital where he was attended by Dr. Eckard and Dr. J. J. Robertson of this city. His condition is regarded as serious. Highway Traffic Officers Frink and Gault, went to Kingston this morning to bring back Moberly, the driver of the car, where he will face a charge of having caused the scene of an accident and criminal negligence before Magistrate Dickel tomorrow morning.

#### OLD COMPANY'S HIGH RICH COAL SEMI SOLVAY COKE

THE F. S. ANDERSON CO.  
Sole Distributors for Belleville

## BRITISH GROCERS' APPRENTICES SHOWN P.E. CHEESE INDUSTRIES

Party Of Five From London Guests Of Produce Grader

### LIKED P. E. COUNTY

Were Amazed At Lake-Ontario Mountain Outside Pictou

Five British Grocers' Apprentices arriving in Belleville yesterday noon were shown the cheese making industry in Prince Edward County yesterday. They were under the care of J. E. Irwin, dairy produce grader, of this city, and Harris W. Brighton, Commercial Intelligence Service, Department of Trade and Commerce, at Ottawa. Included in the party were A. Brock, W. L. McNeill, H. G. Capou, A. C. Cook and L. Andros.

The party, in three automobiles, left Belleville yesterday at two o'clock making a general tour of Prince Edward County, visiting four of the world famous cheese factories and attending the annual fair at Pictou, where they saw cheese grading by government experts.

The first cheese factory to be visited was the Quilte, at Redversville. From there the party went to Wellesley Bay factory, at Concession, and later were conducted through the Cloverdale factory at Wellington and the Bloomfield factory at Bloomfield.

The young men, all under twenty-one years of age, were intensely interested in the different steps of making the cheese that are famed in the Old Country for their quality, texture, colour and taste, leading the entire work in the prices that they bring. Each factory happened to be taking different stages in the cheese making yesterday, so a general idea of the entire industry was gained.

After leaving the Bloomfield factory, the party attended the Pictou Fair and were amazed at the number of exhibits and the high quality of animals on show. Most of the young men had never seen a trotting race, and the 2-30 class, in front of the grandstand, made a big hit with them.

Lake in the Mountain, about six miles from Pictou, proved a novel attraction to the Englishmen, who had never seen anything quite like this phenomenon before. After leaving the lake, the party returned to Belleville.

Today the boys were treated to an exhibition of cheese grading by Mr. Irwin, produce grader. This afternoon they left for Brockville.

Route of Exas

The party of British Grocers' Apprentices, coming out from Great Britain under the auspices of the Department of Trade and Commerce, to view the industrial centres of Ontario and Quebec, arrived in Quebec on August 24, on the S.S. "Laurentic". They were officially welcomed at Quebec by Mr. H. W. Brighton, Junior Trade Commissioner of the Commercial Intelligence Service of the Department at Ottawa. Mr. Brighton accompanied the party throughout the tour.

The party was selected as a result of an essay competition, conducted on behalf of the Department by the British Institute of Certified Grocers, and Mr. G. L. E. Borchings, O.B.E., secretary of the Institute, who is acting as conductor. The trip was organized by Mr. D. G. Gerahy, Director of Canadian Publicity Overseas, as a travelling scholarship to give these young men an insight of the quality of Canadian commodities and of the conditions under which they are packed and graded. The party visited pulp and paper mills, dairies (cheese and condensed milk factories), stock farms, livestock yards, abattoirs, cold storage plants, greenhouses, produce and market gardens, fruit farms, canneries, wineries, power houses, stores and warehouses and also the Canadian National Exhibition at Toronto, the Dominion Experimental Farm at Ottawa and the Ontario Agricultural College at Guelph.

After spending two days in Quebec City, the visiting Grocers' Apprentices visited Sherbrooke on August 28; Montreal on August 29 and 30; Toronto on August 31 and September 1; Niagara Falls, September 1; London and Guelph, September 2; Brampton, September 3; Belleville and Brockville, September 4 and 5.

Competition for the Canadian travelling scholarship was very keen and the essays submitted indicated a very high standard of knowledge of Canada and Canadian products.

After spending two days in Quebec City, the visiting Grocers' Apprentices visited Sherbrooke on August 28; Montreal on August 29 and 30; Toronto on August 31 and September 1; Niagara Falls, September 1; London and Guelph, September 2; Brampton, September 3; Belleville and Brockville, September 4 and 5.

## PERSONALS

VISITORS WHO COME AND GO.

Miss Nora Bly is spending her vacation in Flint, Michigan, at the home of her aunt, Mrs. Henry Fringle.

Mr. and Mrs. Charles Hanna and family, accompanied by Miss Adeline Kirkland, have returned to Belleville after visiting the latter's brother Lloyd Kirkland and Mrs. Kirkland, Brockville.

Mrs. Alfred Simmons at Stirling is spending the week with Mrs. Fred Bly 258 Church St.

Mr. and Mrs. George Winter of this city and Mr. and Mrs. Alex Winter and son Theo of Napawa are the guests of Mr. Roy McCall, Emper Hill this week.

Mr. C. L. Powers and daughter who have been visiting his mother and sister, Mrs. James Boyle, have returned to their home in Cleveland, Ohio, accompanied by Mr. Powers' niece, Miss Patricia Boyle.

Mr. and Mrs. T. H. Chalmers and son Gordon of this city, Mr. Albert and Miss Gertrude Chalmers and Mrs. Chalmers returned home on Wednesday from Muskoka Lakes, over the Blue Water Highway to Sarnia and then home by Niagara and Toronto.

Col. and Mrs. C. F. Hamilton left yesterday morning for Cobourg where they will spend a few days and then return home to Ottawa. While in Belleville they were guests of Miss Hamilton, 8 Octavia St.

Miss Lillian Henderson of the Sun Life Insurance Co. head office, Montreal, was the guest of Mr. and Mrs. J. G. Kleicher, Chatham St. over the week-end.

Mr. and Mrs. Fred Dunning motor over from Orillia to spend a few days at the guests of Mr. and Mrs. H. R. Dunning, Cannitton, before leaving for their home at Saskatoon, Sask.

Miss Bernice Dunlop and Miss Mary Morris of this city have returned to their home from Toronto where they spent two days and attended the C. N.E.

Mr. Harry Pomeroy and Mr. Win. Irvin of Port William motored through Belleville yesterday and were the guests of the former's grandmother, Mrs. C. Fox, College Hill.

Messrs. Charles Walters, Charles Moore, E. Ashley and J. Clement, of this city, were visitors in Hastings yesterday.

Mr. and Mrs. G. A. C. Weir have returned from Toronto where they were attending the Exhibition.

Mr. Harry Pearson, Government Seed Inspector, left for Lindsay and Peterborough today.

## LOCAL GOLFERS AGAIN WINNERS

Bay Of Quinte Country Club Team Defeated Gananoque

The Bay of Quinte Country Club had the pleasure of entertaining the Gananoque Golf Club yesterday for golf and a dinner afterwards. The Gananoque Club brought a strong contingent of golfers and the Country Club were fortunate in having most of their best players out, notably R. J. E. Graham, Geo. Faulkner, J. H. W. J. Cook, all registered with the final score was 35 to 23 in favor of the local club.

The visitors were very impressed by the transformation of the course of which so much time and money has been spent during this season under the very able supervision and management of Dr. V. Blackie.

The dinner after the match also impressed the visitors. Mr. Blackie put on a wonderful chicken dinner which was admirably served by her capable staff.

The following is the score: Bay of Quinte: R. J. E. Graham 3, G. Faulkner 3, Dr. Stobie 0, E. Tiley 3, W. J. Cook 2, A. H. McConnell 1, O. A. Porritt 0, Dr. Tennant 2, J. Patterson 2, W. E. Schuster 1, Dr. Blackie 1, Ed. Worth 1, R. J. Wray 0, Bruce Graham 3, Joe Short 3, Jack Belair 3, W. Doyle 0, Walter Belair 0, Roy Stafford 3, S. Robertson 2, J. Fisher 2, Dr. Faulkner 0, Bay of Quinte—35

Gananoque: H. Shortill 0, P. Sampson 0, D. Laing 3, P. Blackie 1, F. Bradley 1, G. Hood 2, H. Byers 1, J. Hay 1, Dr. Bird 2, Little 2, T. G. Mitchell 2, Dr. Fobes 3, Mr. Boyle 0, J. Sampson 0, R. Ray 0, W. F. Jones 2, W. T. Lindsay 0, McMurich 0, T. Gordon 0, Dr. Rogers 0, C. E. Wright 3, Gananoque 23

Bay of Quinte: R. J. E. Graham 3, G. Faulkner 3, Dr. Stobie 0, E. Tiley 3, W. J. Cook 2, A. H. McConnell 1, O. A. Porritt 0, Dr. Tennant 2, J. Patterson 2, W. E. Schuster 1, Dr. Blackie 1, Ed. Worth 1, R. J. Wray 0, Bruce Graham 3, Joe Short 3, Jack Belair 3, W. Doyle 0, Walter Belair 0, Roy Stafford 3, S. Robertson 2, J. Fisher 2, Dr. Faulkner 0, Bay of Quinte—35

## CO-OPERATION IS ESSENTIAL IN DEVELOPMENT OF NEW ONTARIO

Press Party Pay Visit To World's Largest Gold Mine

### BETTER HIGHWAYS

Were Conducted Through Big Paper Plant At Iroquois Falls

(By Sam Curry)

Following is the second of a series of articles depicting the Editors' trip to Northern Ontario, written by the Intelligence's staff writer.

It was a train-weary crowd that reached the town of Timmins in mid-afternoon of August 19. Northern Ontario's rugged beauty in the form of hundreds of lakes, towering hills and unspoiled valleys, was exposed in one gorgeous panorama as the train sped up the T. & N. O. to Porcupine Junction, where a switch was made to the branch line leading to Timmins. As the special approached the town, one was struck by the expanses of virgin forest, the result of the devastating fires. Here and there towered the shafts of deserted mines, all silent evidences of better days. One lake, we were told had been completely filled with cyanide which is used in de-

Lady Greenwood, whose husband Sir Hamar Greenwood, has taken title of Baron Greenwood of Ilandbister in County of Radnor.

composing the ore.

The party was met at the depot by a caravan of cars and the hospitality of the Timmins people will not soon be forgotten by the pressmen and their wives. Timmins is graced by several fine schools, a hockey rink, sec-

ond to none, which has been the home of some of the finest teams to come out of the north, magnificent churches and beautiful homes. The chief brokerage houses have well-equipped board-rooms which are frequented by the miners, all of whom are inveterate "gamblers" on the market.

Timmins is the home of the Hollinger mines, the largest gold producing plant in the world. Three thousand men are employed in the plant which is an impressive structure. After a short ride around the town, the Editors were taken to the Empress Hotel where the Board of Trade, Town Council and Kiwanis Club acted as hosts. The need for better roads, assistance to settlers and greater co-operation from the older part of the province were emphasized by prominent speakers.

#### Co-Operation For North

Mr. McDonald, editor of the Porcupine Advance, and a prominent newspaperman, urged the claims of a direct motor road from Timmins to the town of Sudbury. He pointed out that motor parties coming into the north country had to return by the same road that they came, whereas if a new road was built for the home-ward journey the trip would hold much more interest. It would, he thought, greatly increase the mining district to tourist traffic.

W. Rinn, president of the Kiwanis Club, welcomed the visitors, while Mayor George Drew also extended the hand of fellowship to the tourists. Ex-Mayor Longmore, in a spirited address, pleaded for a greater degree of co-operation toward the building of better roads and providing better facilities for the people of the north. He said it was a debt that the people of Ontario owed to those in the northern section to help wherever possible to make living and travelling conditions more pleasant.

Mr. Chas. Pearce, the first prospector at the Hollinger, related some interesting anecdotes on the early days, telling of the severe forest fires which swept the country. He related having been on a raft to escape from the flames and was the one survivor when the raft finally sank in the lake. His experiences of roughing it in the bush drew rounds of applause from his listeners.

Replies were made by Mr. J. W. Curran, editor of the Sault Star, who conducted the trip; J. A. McPhail, president of the Great Lakes Power Company of the Sault and others, expressing the good wishes of the older part of the province to the men of the north and an appreciation for the reception provided. Mr. McPhail expressed sympathy with the contentions of the North for greater assistance. He described the wealth which the mines of the north were producing, much of which found its way to the development of the larger cities in Canada. It was a pity, he thought, that more of the wealth should not be devoted to the building up of the residential districts of the North.

Mr. Curran stressed the importance to older Ontario of the development of Northern Ontario. He pointed to the purchasing power of the mining districts, the supplies for which come mostly from old Ontario.

Visit To Hollinger  
Early the next morning the party was taken on a personally conducted tour of the Hollinger mine and followed the various processes from the time the ore is taken from the shaft until the tiny specks of gold are decomposed and formed into a solid brick. One brick is manufactured each day and this is worth in the neighborhood of \$30,000. Cyanide is used extensively in the plant and after being drained, it forms into a hard substance much like clay. After another tour around the town the party left for Iroquois Falls, the home of the great Abitibi Pulp and Paper Company, one of the largest plants of its kind in the world.

The characteristic hospitality of the North was showered on the visitors at every point. At the beautiful town of Iroquois Falls, with its crescent streets, its broad lawns, its golf course and its newspapermen, the party was treated to the very limit of the time at their disposal, including a luncheon in which a great number of citizens joined. Mayor A. K. Ebbitt and General Manager T. E. Silver, were in charge of the party. A tour was made through the paper plant, starting from the gigantic piles of pulpwood to the finishing room where the big rolls of paper were numbered ready for shipping to the big metropolitan newspapers. The work was interesting to the Editors, all of whom were hoping that one of the huge rolls might be shipped home as a souvenir of the visit to Iroquois Falls.

Contributors of Paper  
The Abitibi Pulp and Paper Company has a capacity of 550 tons of newsprint a day and 30 tons of wrapper. No less than 700 tons of wood are consumed each day. 17 tons of sulphur, 24 tons of limestone and no less than thirty million gallons of water. Over 1200 employees man the mill while an army of 2000 are employed in the woods each winter, cutting trees to be raised, floated to the mills. \$3,000,000 are distributed annually in wages to the managerial technical and labour staffs of this great concern. Every dollar received by these employees means something to old Ontario.

Th Abitibi people are carrying on extensive experimental work in the growing of stock and tree-planting. They have acquired vast tracts of forest reserves over which a trained staff of fire rangers patrol daily for signs of smoke.

### N. S. PROSPEROUS AS INDUSTRY REVIVES

Sydney, N. S.—With steel mills running at capacity and miners in the various collieries, excepting Sydney Mines, working every day, the island of Cape Breton this summer is experiencing an industrial revival unprecedented in the past ten years, while the present season in the steel plant is the best since five years ago. Prosperity is general, and the so-called "Red talk" of other years has become a thing of the past.

Previous summers meant dull times gradually disappearing. Over fifty per

cent of the local steel mills, but for the past three months they have worked practically at capacity and will probably continue at this rate during the remainder of the season, as a result of rail orders from Newfoundland and the Canadian National Railways.

Building is reviving in Glace Bay and Sydney, permits having established a new record here this year. Shipping of coal up the St. Lawrence increases each week. Waterfront work on are employed twenty-four hours a day loading steamers and schooners. During a recent week, the entire output from the mines for that period was shipped from the piers. More than forty steamers called here for coal during one week. Immense banks of coal seen at the beginning of the season are gradually disappearing. Over fifty per

cent of the local bank has been removed.

The sale of the Broughton collieries has aroused optimism in that district. According to unconfirmed reports, a huge development will be made there in the near future.

All gentlemen may not be honest, but all honest men are gentlemen. Many a kid gets lost nowadays, because he cannot reach his mother's skirt.

As a rule most women get more comfort out of a good coat than out of a good laugh.

If you want a man to remember you, do him an injury. If you want to be forgotten, do him a favor.

## Climbs Mountain Named After Him

Rt. Hon. L. C. M. S. Amery, secretary for the Dominion in the late Baldwin Administration, who arrived in Canada recently on the liner of Australia, had as his objective in this country the climbing of the 11,000-foot Mount Amery, named after him, in the Canadian Rockies. There is no official record of this mountain ever having been climbed before.

## QUEBEC WOMEN SHOW HANDCRAFT

Utility And Art Combined In Exhibit Of Textiles At Exhibition

Toronto, Ont., — (By The Canadian Press) — Visitors to the Canadian National Exhibition have learned to look for the booth in the Women's Building in which the handicrafts of the French and English-speaking rural women of Quebec are shown, knowing that there they will find usefulness and art brought together in a very happy union. This year, however, this exhibit excels even the excellence of former years, the Cercles des Femmes, and the Women's Institutes, having sent their best with Miss Estelle LeBlanc and Miss Hazel McCain, in charge.

"Our object this year," said Miss McCain, "is to demonstrate the three textiles manufactured commercially and in the homes of Quebec—the Institutes are showing the possibilities of elegance; the Cercles are specializing in the beautiful work done by the women on the farms."

Their booth, well lighted from both sides and above, is advantageously placed for the showing of the fabrics that set the crowds that constantly surround it, crying:

"There are always nicer things at home than are sent to exhibitions," said Miss LeBlanc (who wins the hearts of all who meet her) "so I want into the houses and said, 'You must give me that quilt, or those curtains, or that linen you have made to upholster your furniture, and I just took it.' Three of her finest exhibits come from Madame Georges Coderre, Abbotsford; Mrs. E. Chénard, Jean Port Jolles; and Mme. Rioux, Trois Pistoles; and many of those who visit the booth are learning for the first time that there are women in the world clever enough to make beautiful textiles with which to furnish their whole house, from the wool from the back of their own sheep to the flax that grows in their own fields. Others are amazed when they see crepe-backed satins and filmy voiles, made from links, the fibres that cling to the pod after the cotton is plucked out—hitherto a waste product.

Counties represented in the other side of the booth where dresses, frocks, curtains, cushion tops etc., exquisitely fashioned by the women of the Institutes from celanese, are Brome, Mégantic, Bonaventure, Val-de-Fleur, Châteauguay and Huntingdon, Argenteuil, Stanstead, Richmond, Sherbrooke, Compton, Ottawa and Pontiac.

AGED 112: OLDEST SON 85  
Portland, Me.—The father of 33 children and the grandfather and great grandfather of so many more that he has lost count of them, B. Goldman Trannum, 112 years old, whose residence is in the mountains near Westernport, Maryland, is expected to attend the coming national encampment here of the Grand Army of the Republic.

Trannum was born in Richmond, Va., of parents of French and Dutch descent, Nov. 1, 1816. Divorced from his first wife he married (for a second time) at the age of 70. His oldest son is 85.

## News of the Movies

### REGENCY THEATRE

Florence Vidor's new dramatic morning picture role, with Wallace Berry in "Chinatown Nights," which the Regency theatre will feature for three days, starting to-day, rivals her never-to-be-forgotten portrayal of the Russian countess in Emil Jennings' "The Patriot."

In this new Paramount picture, Miss Vidor has the most difficult role she has ever undertaken. Introduced as an imposing and beautiful society woman, she sinks, during the action of the picture, to the gutter of Chinatown's underworld. There is a wealth of dramatic power written into the part and she interprets it in a way that marks her as one of the greatest actresses on the screen.

### BELLE THEATRE

Zane Grey, who is probably the best known American fiction writer, is the author of "Stairs of Sand" the romance of old Arizona, which was recently completed as a moving picture at the Hollywood Paramount studios and which comes to the Belle Theatre for 3 days beginning today.

Zane Grey's first book was a success, as were all of his romantic western stories which followed. The phenomenal popularity of his stories brought the sales of each to over one million copies. Paramount has contracted for the screen rights to all of them.

"Stairs of Sand" is the twenty-first Zane Grey novel to be pictured by Paramount, and is a worthy successor to a long line of successes. Wallace Berry, Jean Arthur, Chester Conklin, Fred Kohler, Guy Oliver and Phillips R. Holmes comprise the splendid cast which will be seen in the picture.

The story deals with the loves of a young girl in an Arizona town. She falls under the influence of a powerful man in the community and is befriended by another who is almost as heavily steeped in villainy as the first. A young Eastern youth comes to the desert town and wins her away from the two menaces after considerable thrills and gun-play.

For those who like a sweet dessert at the end of the meal, this recipe will have a particular appeal.

### Butterscotch Pie

- 2 tablespoons butter
- 1 cup brown sugar
- 2 tablespoons flour
- 2 egg yolks
- 1-4 teaspoonful salt
- 1 teaspoon vanilla
- 1 cup Borden's St. Charles Milk
- 1-2 cup water
- 2 egg whites, beaten stiff
- 4 tablespoons granulated sugar
- Baked pastry shell.

Beat together the brown sugar, butter, flour, egg yolks and salt. Add the milk diluted with the water and cook in a double boiler until thick. Add the vanilla, cool slightly, and pour into the pastry shell. Cover with a meringue made with the egg whites and the granulated sugar. Brown lightly in a very low oven.

### NOTICE TO TENDERS

Sealed Tenders will be received by the undersigned until seven o'clock p.m. on the 16th day of September, 1929, for the construction of a reinforced concrete bridge on the fourth concession Road, Township of Tyndinaga, on lot 26 and known as Doyle's Bridge.

An accepted cheque for 15% of the contract price must accompany each tender which will be returned on the non-acceptance of the same.

The steel to be used for the construction of the bridge has been already procured and will be ready at the commencement of the work.

Plans and specifications for the construction can be inspected at the Office of the Reeve of the Municipality, Wm. MacLennan, Shannville, P. O.

SEPARATE TENDERS WILL ALSO BE RECEIVED AT THE SAME TIME AND ON THE SAME FOREGOING CONDITIONS FOR THE FILLING IN OF THE ROADWAY AND APPROACHES TO THE BRIDGE.

The lowest or any tender not necessarily accepted.

Dated at Tyndinaga this 4th day of September, A.D. 1929.

D. J. Callaghan, Acting Clerk, Cobville, Ont.

pointment, having left the East for Winnipeg to begin the first stage of his 500-mile journey into the wilds.

Nelson Gaudin, son of Rev. S. D. Gaudin, missionary at Norway House, Man., has accepted assignment as missionary teacher at Nelson House. He has a complete mastery of the Cree language, gained as a child among the Indians at various mission houses.

Beginning as teacher at Oxford House two years ago, Mr. Gaudin found that, after 10 years' absence in Winnipeg, for education in English, the Cree was still almost his mother tongue. His knowledge of Indian lore was gained first-hand from older chiefs.

After he returns to Nelson House, after which he was named. His father's missionary career began there forty years ago.

A man may be worth a lot of money and still be a very poor sort of man.

Success is merely a matter of buying our experience cheap and selling it at a profit.

Golf is a game in which you hit little balls at intervals and talk about the rest of your life.

### MISSIONARIES GO TO NORTHERN MANITOBA

Toronto, Ont.—(By The Canadian Press).—Departures of two missionaries for Indian work in the north are announced by Rev. Arthur Barner, superintendent of Indian missions in Canada for the United Church, lately returned from his annual inspection of stations in the western provinces.

Rev. Roscoe T. Chapin, for some years stationed at Island Lake, Man., who has been visiting his family in Essex County, has returned to his ap-

## DELORO ELIMINATES KINGSTON

## SPORTING SECTION

## SMELTERS WON SECOND STRAIGHT GAME FROM LIMESTONE CITY CREW

Inky Woods Opposed By Jamieson On Mound; Many Errors

## SCORE 8 TO 3

Kingston Led By One Run Until The Fifth Innings

(By Staff Writer.)

Deloro made it two in a row from Kingston and well earned the right to meet the Belleville Nationals for the Championship of the Central League yesterday, by taking the second game of the series with the Limestone City crew. The score was 8 to 3. Kingston led up until the fifth innings by one run, but cracked wide open in the fifth and seventh and Deloro took advantage of the breaks to score enough to put the game on ice.

All in all, it was a poor exhibition of baseball, and showed that Kingston suffered from the lack of a little and not stiff enough competition during the year. Errors popped in at critical moments, and of the eight Deloro runs, only three were earned. The Smelters were hitting Jamieson hard but had he had even fair support in the pinches he might have pulled through with flying colours.

Starting off in the first innings, Kingston scored one run when Spoor walked. Vince hit, Lawlor walked and Cherry's easy out went through G. Scott for an error, Spoor scoring. From then on until the fifth, neither team did the rubber, although Kingston had more men on the runways than the ultimate winners.

In the fifth, Deloro came out of the trance, and when they had finished walloping the ball to all corners of the field, they had scored four runs which at that time looked like a can-mauling lead. The Kingston boys got to Inky Woods two innings later, however, and scored two runs, errors and a good hit being responsible. In their half of that same inning, however, Deloro squashed whatever hopes Kingston may have had by going out and scoring four more runs. And that ended that.

Kingston switched their team around several times in an effort to plug the weak spots in their infield, especially at second, where Lawlor had an extremely bad day. Anything he did was wrong, and twice he muffed the ball when it came to him for the start of an almost sure double play. The fielders were none too good, either some of the balls which went for hits could have been caught by school kids. Del Cherry, supplied the fielding sensation in the eighth when he hauled one down after a nice run which was labeled "home run" from the bat of Brown of Deloro.

Inky Woods did not work any too hard to win his game yesterday, probably because he didn't have to, but when he opened up he had all kinds of speed, although his control could have been better. The Deloro management have changed their batting order considerably lately, and it seems to have done them some good, for they are hitting at a much better clip than ever before. Woods, who plays right field when he is not pitching, is their lead-off man, while Harold Buck, centerfielder, and formerly their first man up, is batting in second position. Geo Scott, brother of the Belleville Bob Scott, who this year has turned up in the role of slugger, is third on the list.

and Art Quinn is in the fourth hole. Art is now playing second base where he belongs instead of behind the bat, where he played up until two weeks ago. "Hock" Boudreau is doing the catching and making a good job of it and getting the odd hit too. Bob Elliott, former Kingstonian, has changed over from second base to the hot corner, and is making a good job of his new position. Brown, chunks left fielder, bats after Elliott, with Boudreau and Jimmie Hughes, new Hughes, a notoriously weak hitter, in the Kingston series blossomed forth with four hits, and if he keeps that pace up he will be one of the most valuable players on the team for his wonderful fielding. Bill Scott, right fielder, W. Berry, utility, Bill Regan, manager and third base, and "Tony" Ivey, pitcher, complete the squad which will meet Belleville next for the Championship of the Central Ontario League.

### The Girl and The Game

By Anita

Softball seems to be at a standstill just now and we honestly don't blame the girls with the temperature around 90 degrees these last few days. The highest ambition of anyone seems to be to find a cool spot and the girls are taking a rest from their strenuous pastime.

There was some talk of the Beavers going to Kingston on Labour Day to play the Kiwanis team, but the plans seem to have fallen through and the Beaver players sought other centres in which to enjoy the holiday.

The playoffs for the Leysbourne City trophy seem to be just as far off as ever. It was planned to play the two games on Wednesday and Friday of this week, but one of the teams could not play as four of their players are on holidays. Next week is also out of question as the armories will not be available on account of the Kiwanis Carnival.

The games will very likely be played inside the armories as the evenings are too short for a twilight game, but the date is hard to arrange. They will likely have to be postponed until the Kiwanis Carnival is over.

The City League has had a very successful year and some good ball players have been turned out. The officials were more than satisfied with the way the games were played and plan for a bigger and better league next year.

### NOT ENOUGH HELP TO GATHER FRUIT

Toronto, Ont. — (By The Canadian Press) — J. T. Kels, well known to Women's Clubs throughout Canada for his interest in child adoption has another point to bring before the women of the country, and great is the benefit to the constitution, and general welfare of the community given and obtained by fruit picking. In many orchards in Ontario help at the right moment may not always be got, and cherries and other fruits rot

The above photo shows Clarence Grabbe of the Outrigger Canoe Club of Hawaii, who set a new 100 meter medley world's mark by making the distance in 4 min., 12.5 seconds, 2-2-5 seconds better than the previous record, in the National A.A.U. swimming championships meet in San Francisco.

### PLAN TO START BOXING TOURNEY

Interested Parties Should Forward Entries To Legion

Canadian Legion officials have announced that a series of boxing tournaments will be staged here during the winter months and according to present plans they will start early in October. It is proposed to hold one tournament each month. Last year the bouts were well attended and the general public were well pleased with the entertainment. It is proposed to award each of the boxers with a suitable prize which is sure to stimulate interest among the fight artists.

An entry list has already been opened at the Legion Hall and boys of all weights who wish to take part in these tournaments should immediately get in touch with the boxing committee. This hall will be open for training every night and qualified trainers will be in attendance to take care of any newcomers who wish to learn the art of self defence. It is desired that entries for the various classes be forwarded at the earliest possible date as they must be sent to the Ontario Amateur Athletic Union in order for the officials of that governing body to issue cards. The Legion officials are looking for the support of sporting fans in the Autumn tournaments.

on the trees, and an enormous loss results financially as well as the waste of a most important article of summer diet.

Northern Ontario has an immense blueberry crop that is but slightly harvested. Canning factories suitably located, could easily put up two or three hundred thousand dollars worth of this valuable fruit and parties of young people would find pleasure as well as profit in gathering in the fruit.

It is reported that in the State of Maine there were in operation last year 16 factories putting up blueberries to the value of \$1,250,000. Before long a similarly valuable industry could be developed in this province.

### Sportograms

Kingston's stay in the Central League competition did not last very long but it was long enough to show them that they must have more games of their schedule if they expect to win games from

#### LAST CRIMEAN VETERAN

Wakefield, Mass. — Robert Sutherland Reynolds, who died here a few days ago, was said to be the last veteran of the Crimean War in this country. He was a native of England, but after his war service he taught school in Nova Scotia.

Reynolds enlisted at the age of 15 in the English Army. He was wounded at Sebastopol, and sent back to a hospital in England where he was attended by the famous Florence Nightingale. He was decorated by Queen Victoria for bravery in action.

## BELLEVILLE BOY SCOUTS RETURN HOME AFTER DELIGHTFUL TOUR

Messrs. Jack Carter and Barnett Smith Enjoyed Tour

### THEIR ITINERARY

Were Reviewed By Sir Arthur Currie At Montreal

Messrs. Jack Carter and Barnett Smith, the two Belleville Boy Scouts to the Scout Jamboree at Birkenhead, England, have returned home after a delightful trip abroad and both spent in glowing terms of the reception which they met at every point. The boys were thrilled with their experiences which they will not soon forget. In a letter which is published below they describe their itinerary through the British Isles which followed the Jamboree.

By Jack Carter and Barnett Smith: Preparations for tours to be taken by the Canadian Boy Scouts after the World Jamboree at Arrow Park were made by the various men in charge of the Continent and on Wednesday, August 14th the scouts set out on one of the most eventful weeks of their lives.

There were seven buses to carry these 155 boys and luggage. They left Arrow Park about 9 o'clock in the morning and arrived in Chester which is about 2 hours ride south. Here they saw the old walls of the city which are famous for their age and history. Many old houses of Elizabethan style were seen in this city also. Some of the boys were taken to Chester Cathedral.

Wolverhampton was the next town passed through and then Birmingham where lunch was served to the scouts. After lunch the boys took to the buses again enroute to Stratford-on-Avon and stopped at Kenilworth Castle on the way. This place was a Norman Keep at one time and is mentioned by Sir Walter Scott in some of his novels.

The next stop was Shakespeare's birth place and home in the old Curlew away's cottage with the old Curlew Shop of Shakespeare's in Stratford-on-Avon. About 7.30 the buses arrived in Warwick where the scouts were put up at various hotels and were taken to see Warwick Castle and the arches that form the entrance to that town. Next morning the boys were up bright

Fit-Lt. G. H. Stanforth photographed at Calshot when the British team of pilots continued their training for the Schneider Trophy race.

and early. Directly after breakfast the buses were filled for the second day's run and in an hour Barnbury Cross was reached and a stop was made. Near here was the birthplace of Richard I and the boys were shown other interesting places. About noon the buses stopped at Oxford, the great seat of learning for all the world. After dinner all scouts were shown through several of the twenty-one colleges including Christ Church built by Thomas Wolsey, also Trinity, Exeter, Pembroke and Jesus Colleges. These places interested the boys very much also the 7-12 ton bell that hangs in Christ Church Cathedral College. From here the buses departed for London and passed through Dorchester and Benson on the way.

Visited Metropolis The contingent arrived in London at 7.30 in the evening and stayed at the National Hotel in New Bedford Place near Russell Square. All Scouts were given leave at night.

On Friday, August 16th the Scouts were taken to Windsor by train and shown through Eaton College School in the morning. Here the boys were shown interesting features of the school and the history of the place was explained. The boys had lunch in Windsor and were given books explaining the history of Eaton College and

### Windsor Castle.

About 2.30 they were taken to the Castle and shown several rooms of the main building and also had explained to them outside places of interest. The boys returned to London for tea and in the evening went to Madame Tussauds wax-works.

On August 17th, Saturday, the Scouts were taken on bus tour of London and in the morning visited some places of interest as Piccadilly Circus, Canada House, which is Canada's Immigration Building, Trafalgar Square, Scotland Yard Buildings Admiralty Buildings and 10 Downing Street. The whole contingent was through the House of Parliament and Westminster Abbey where they placed a wreath on the unknown soldiers grave and then were taken down the Mall where they saw the changing of the guards at Buckingham Palace and were allowed inside the Palace gates.

### The Curiosity Shop

After lunch the boys were taken to the Old Curiosity Shop immortalized by Dickens and on tour to see the Tower of London. Here they were shown under Tudor Arch and into the Old White Tower. About 3.30 all the scouts went to Regent Park where they spent the remainder of the day.

On Sunday, August 18th the Canadian Scouts were taken out to the Duke of Connaught's residence where they were addressed by the Duke, his son Prince Arthur and daughter and two grandsons. They were then served

tea and entertained for the afternoon.

Monday morning, August 19th the scouts embarked from Euston station for Edinburgh on the Royal Scot and were served lunch at 10 a.m. on the train. The scenery in Northern England and Scotland was magnificent and only one stop was made on the run and this was at Carlisle in the north of England.

The boys arrived at Edinburgh at 6 p.m. in the evening and proceeded to their various hotels.

On Tuesday, August 20th, the scouts were taken to Edinburgh Castle and explained the history of it including the story of the Clans of Scotland etc. In the afternoon all buses were driven out of Edinburgh to the Royal Scots Gray's Military Barracks, and were given a demonstration of rough riding and trick riding. After this the scouts were taken to see the Forth Bridge. Dinner was served at a large banqueting hall by Edinburgh Scouts. The City Fathers welcomed the Scouts to the city and gave a short address on the importance of scouting. In the evening the Scouts went to a picture show.

### Scottish Tour

On Wednesday, Aug. 21st the Scouts of Edinburgh in the morning by bus to tour through the Trossachs on their way to Glasgow. The weather was dry wet but the mountains and streams were magnificent and some of

the higher peaks were out of sight in the clouds. A half hour's stop was made at Loch Katrine and dinner was served at Callander before continuing towards Glasgow. The main highway towards the mountains was taken and the buses arrived with their human cargo in Glasgow where the boys put up at the Grande Hotel at 5 o'clock.

Thursday morning the 22nd of August was a free day for most of the scouts as it was the last day they had before sailing. A delegation of twenty Canadian Scouts joined with the Glasgow Scouts in Copeland's large steamer and were shown around the various departments after lunch. In the evening at 7 o'clock the scouts boarded the T.S.S. Letitia and made ready to sail by the next day.

On Friday morning, 23rd, the Scouts were addressed by the Scout Commissioner for Glasgow and also John A. Stiles, Chief Commissioner of the Canadian Scouts.

Professor Pugh, commissioner of the Wolf Cubs presented the Officers of the Canadian contingent with a token of remembrance from the Scouts and the boys had their pictures taken on the aft deck of the boat.

### "Homeward Bound"

During the trip home the Canadian Scouts took courses in different branches of Cub and Scout work and pre-

pared the first part of their Glibwell

camp course which leads up to the relieving of the Chief Scouts Glibwell leads for scouting and the A Kela leads for Cubbing. These courses were carried on systematically by the very best instructors possible and the Scouts enjoyed these courses perhaps more than any other part of their extensive experiences since they left Ottawa on their wonderful trip.

The Canadians left Canada with a thought to accomplish many wonderful things and also learn all they possibly could in the short time they had. This they did very successfully and also made a very high standing as Scouts all the world over.

The contingent arrived in Montreal aboard S.S. Letitia where they were received by Sir Arthur Currie and inspected. At this point they disembarked and departed for their own towns, and cities after many good byes were said.

## NEWFOUNDLAND TRAP FISHERY A FAILURE

St. John's, Nfld.—Except for a few localities, the shore trap fishery in Newfoundland up to the beginning of August has been a failure. From Grate's Cove to Cape Race, on the eastern coast, a poor catch is reported both for traps and hook and line. In fact, from

the Fogo district south the fishery has been the worst in years, with hook and line men in Bonaville, Trinity and Conception Bays getting very little for their labor. From Cape Race west, all along the southern shore, with the exception of a few localities in St. Mary's Bay, the catch has been the lightest in forty years.

From Fogo north and on the Newfoundland Labrador the return has been better, a fair catch having been taken at Twillente and a good one at Belle Isle. Excellent fishing with traps and hook and line is reported on the Labrador coast since early in July. The Straits and Canadian Labrador, however, turned out a failure.

The prospects are that the fishing during the latter part of August will be somewhat better, and that the shortage may be retrieved to some extent. There seems to be little doubt, however, that dried shore codfish will be a very scarce article, and that the price will accordingly be higher than usual. The eight dollar per quintal limit set by the Board of Trade is not likely to stand.

Idle rumors are greatly overworked. There are three genders. Male, female and yes-men.

A parking place is somewhere about 10 miles out in the country.

Charity is a cloak that is sometimes used to cover an amateur concern.

## A GREAT SCHOOL SHUTS ITS DOORS

"Glen Mowr" Was At One Time Only for Socially Prominent

Toronto, Aug. — Katherine Hale writing in Saturday Night of the closing of the well known girls' school, Glen Mowr, writes of the "almost terrifying figure of Miss Elizabeth Veals, who founded the school."

"She was an English woman, born in the 40's of the last century, and was for some years a governess in the family of the Marquis of Dufferin. Afterwards she established a private school in Peterboro then a stronghold of aristocratic Canadian families. Later she was encouraged to enter a wider field in Toronto and it was perhaps characteristic that she should choose as the domicile for her select young ladies a gloomy double house on Peter street, which even then was deserted as a residential section by all but a few faithful first families. Toronto was already forging north, but while Government house and the cathedral and St. Andrew's Church and a remnant of old regime remained, Miss Veals felt well established in their midst."

"Earnest mothers brought their daughters from near and far and placed them in this double house, known to its resentful residents as Peter's Prison, with a feeling of satisfaction, not unmingled with triumph. For the school had only accommodation for 35 ladies and these must be select. No lately acquired wealth, no mere social ambition was enough. 'I must interview the mother,' said Miss Veals, before I can decide on the status of her daughter."

"Yet sometimes it happened that the mother was a shade more desirable and charming than the child. Then the child entered upon a course of training in deportment, the like of which has never entered the imagination of the 'K's and Bunnies and Shortys of today. In fact such abbreviations were not often used. If you were baptized Jennie you bore it with fortitude and you turned not into Jane or J. There were few Annes and Margarets, though Annie and Maggie were never considered comely names. Still one did not trifle with them. And this was in the late nineties—no sooner or later."

The direct influence of Queen Victoria was already over. The door was shortly to begin. The first ungainly motor cars—gasoline buggies—they were called—were noisily chugging about the streets and in those educational colleges of which Miss Veals so heartily disapproved, girls were already playing basket and hockey."

"But such rumors of change hardly penetrated the ordered sequence of life at Glen Mowr. It was enough to have transported the Prison to the northern frontier of Upper Spadina Avenue where there was more sunlight and space for games. Sport, as we know the word had not arrived anywhere—certainly not here, where beside tennis there was merely 'exercise'; dumb bells in bad weather and daily walks in good weather about the more melan- choly side streets of the town. It was possible, of course, to matriculate into University. A few daring girls undoubtedly did so, but the advisability of such a step was never emphasized. A professional career was undoubtedly a possibility—but hardly a probability in a school whose roll call each term was apt to include one or two daughters of the Lieutenant-Governor of some province of the Dominion. First the home; second the drawing room; and very thirdly indeed the outer edifice of the industrial world. Good mathematics or geography. To enter a room with a step overture was ostentatious, but to enter awkwardly was impossible and either was a mistake graver than the incorrect conjugation of a French verb. A well modulated voice was a vital factor and so was diction. Had we ventured the use of such distortions of English as fer and becuz and yep or talked about east or boy-friends, in or out of the Presence, something drastic indeed would have followed."

## BORING FOR THE ARIZONA METEOR

Winslow, Ariz., Aug. — One of the great scientific mysteries of modern times—whether a crater nearly a mile wide at Clon Butte, Ariz., was made by a volcano or by a meteorite hitting the earth—is reported to be on the verge of solution.

Miners employed by D. M. Barringer, of Philadelphia, claim to have located 1,400 feet underground a mass of iron, believed to be the meteor. They are down 1,600 feet in a shaft which is being bored to come up underneath this iron so it may be mined. Borings with diamond drills have led to predictions that the buried body is 30 per cent iron, 7 per cent nickel, with slight traces of platinum and iridium.

The present shaft is the culmination of plans begun a quarter of a century ago by Barringer. He is credited with being the first man to cite scientific evidence that the crater is of meteoric origin. It is 44,000 feet from rim to rim, its walls 120 to 160 feet above and its bottom 600 feet below the surrounding plateau.

Since then, many examinations have been made, about 30 different holes drilled in the crater bottom and one 200-foot shaft sunk, but producing only some bits of meteoric iron.

Barringer's workmen say that previous failures to find the meteor are explained by the evidence of their drills that the main body lies not directly beneath the crater but about 1,600 feet south of it.

Astronomers have estimated that the meteorite weighed 10,000,000 tons and was 500 feet in diameter.

## GERMANY PREPARES FOR CHEMICAL WAR

Munich, Germany, Aug. — That chemical warfare on a large scale is certainly coming and the nations of the world had better make up their minds to face facts squarely, was the gist of a resolution passed by the German Society for Protection Against Air Attacks when it met here.

Professors of chemistry, military authorities and fire fighting experts were assembled to consider ways and means for countering the air menace.

Dr. Kern of the Catholician Anti-Air Attack Association, said that there existed about 100 different kinds of war poisons, but only about ten of them were known to the general public: the blister-raising, the corrosive, the nerve-paralyzing and the tear gases. To all of these, he said, there exist antidotes, but the necessity remains to know them all and to be prepared for all.

Prof. Carl Hegler of St. Georges Hospital, Hamburg, related his experiences in treating the case of phosphorus poisoning arising from the catastrophe there a year ago. He said that of the 300 victims only ten died, the others being saved by treatment which must be rapid to be effective.

Major Grosskreutz, air expert of the former imperial navy, said that it was a flight of fancy to imagine enemy bombers coming over "like clouds of locusts." Only a fraction of a country's air force, he argued could be used effectively at the front.

ver was laid to Denver courts and attorneys by District Judge George F. Dunklee.

"There are too many divorces—the courts and attorneys are helping them along," Judge Dunklee told a crowded courtroom.

The court's comment came during hearing of a petition of Elfreda Smith for temporary alimony from Norman B. Smith, train foreman for the Colorado and Southern Railroad.

Smith acting as his own counsel, complained he had been ordered out of his home by the man who served him with notice of a separate maintenance suit.

"It's things like this that break up homes," the court continued. "There have been too many cases where a wife swears out an affidavit and the courts, without looking into the matter, issue orders that bring about conditions as this."

"There has been abuse by attorneys and abuse by the courts. Some women imagine they can sue for divorce and obtain a home and a lot of money. Then comes the result—they wreck their own lives and the lives of their children."

"I have followed the history of these divorce cases. They all turn out the same. The husband pays for a little while and the children remain with the mother. Then the husband leaves the State and alimony payments cease. This is the cause of the over-crowded orphan asylums."

# Victor-Radio Micro-Synchronous

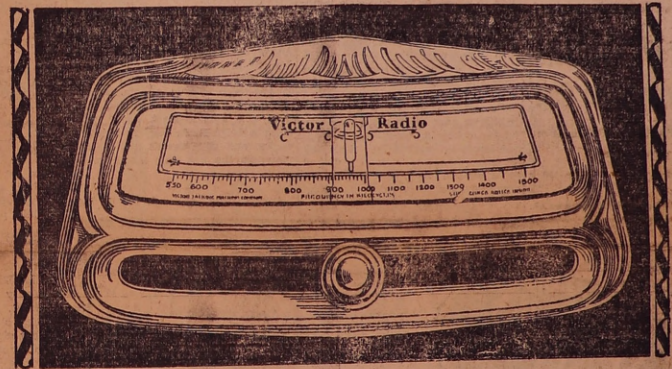

The Greatest Achievement in Radio History!

VICTOR  
RADIO CONSOLE R-32  
\$255  
(Complete with tubes)

VICTOR  
RADIO-ELECTROLA RE-45  
\$375  
(Complete with tubes)

FULL VISION, SUPER-AUTOMATIC STATION SELECTOR: ALL STATIONS PLAINLY AND PERMANENTLY VISIBLE  
... JUST SLIDE THE KNOB TO RIGHT OR LEFT — IN COMES THE STATION YOU WANT!

## Outstanding VICTOR Features

1. Micro-synchronous balance: Every element in micro-exact resonance at any frequency. Condensers automatically harmonized. Unprecedented sensitivity and selectivity. Perfect performance through the entire range of the dial for the first time.
2. Super-automatic, full vision, illuminated station selector ... as illustrated.
3. Improved circuit developed by Victor ... unparalleled stability and fidelity.
4. Push-pull amplification ... introducing the new power Radiotron 245. Greater and undistorted volume with the entire musical scale.
5. Three separate and distinct units—interchangeable ... all accessible ... all parts shielded with scientific thoroughness.
6. Marvelous new improvement in the Victor electro-dynamic reproducer ... re-creates the quality of voice or instrument in all its life-like realism.
7. Compact cabinet design of all-Victor craftsmanship ... exquisite in every line. Harmonizes with the furnishings in the finest homes.
8. A remarkable new improved Electrola that reproduces the new Victor V.E. Orthophonic Records in all their brilliancy.

AN exclusive Victor development which completely revolutionizes radio performance ... the goal towards which acoustical engineers have striven since the birth of radio.

... a radio so utterly new in design ... so radically new in principle ... so astoundingly new in performance that no other instrument can compare with it.

... a radio that Victor has withheld from the world ... until the last detail was tried and approved — and tested under every conceivable condition in every section of the continent.

... a radio which, for the first time, produces acoustic symmetry — the perfection of tone fidelity ... at every point on the scale! Incredibly realistic ... high notes and low notes in their proper proportions ... bass! ... deep and realistic! ... higher notes! brilliant and expressive! A radio that em-

phases two of the new-type Radiotrons 245 which have set the whole world talking.

Victor's own exclusive radio ... built into a console cabinet of exquisite Victor workmanship ... a radio you will be proud to own!

Here's more news ... Victor-Radio can also be had with the new improved Victor Electrola — combined in one handsome compact cabinet ... both attuned to the same electro-dynamic reproducer. Now—for the first time, tone quality from radio to match the marvelous new Victor V.E. Orthophonic Records!

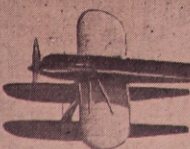

The prices are amazing! Only \$255 for the Victor-Radio Console ... only \$375 for the Victor-Radio-Electrola. No musical instruments in the world offer you so much — at any price! — and on time payments, too!

## Just For The Feminine Reader

### GLASS FOR DECORATIVE PURPOSES IN YOGIE

London, Sept. 4.—Glass is becoming more and more popular as a means of decoration in modern houses. A well-known author who is having his new home in Knightsbridge decorated on very novel lines, has decided on glass panels for the ceiling of his workroom. Behind those will be lights. In his dining room marble dot touch-ed with gold leaf has been pressed into service to make arabesque decorations on glass wall panels, which, with more lights behind them, will provide all the lighting necessary. Lady Ravensdale was the pioneer of the glass fashion when she chose black-looking glass for the pillars of her Chinese hall in Denary street.

### TURBANS AND BERETS LEAD IN FASHION

Berets are being advanced from an occasional semi-sports hat to one for afternoon. They are shown now in velvet, with fine handwork, and shirring, tucking or smocking, by several smart milliners. A charming model of this style from Florence Walton is made with a skull shape of cocoa felt, fitting the head with even edge, over which is a beret of velvet in a lighter shade, stitched and gathered and tilted far to one side. A striking example of the dignified beret turban comes from Mado, who shirs brilliant Capucine velvet on a turban of black felt.

Among the larger hats is a model that suggests a compromise between the cloche and a poke bonnet. It is made of self in beige tulle, a subtle autumn shade with a generous flaring brim over the front and sides of the face, and cut close to the neck at

the back, where a strip of orange velvet ribbon is drawn through a hole, and finished in a loop and ends at each side. Some hats in felt and velvet and in self are made with the closely-fitted front and finished at the back with bows of considerable size.

Other than these a small hat made of grosgrain and satin ribbon is attractive. The hat is made with the coat ensemble, it is predicted that fur will be added in some chic motif in the later small hats, and shaved lamb is already used as a finish about the face line.

A striking model for evening shown by a New York milliner is a hood of black Spanish lace that is held close at the back of the neck and falls in two full gathered scarfs over the shoulders. About the face the lace is sewn to a band of fine black silk jersey.

A turban which may be worn with comfort at the play or for informal dinner is worn like a knitted cap in brown chenille with fine lines of gilt thread. A hat that will undoubtedly be fashionable is of green grosgrain ribbon, with overfitting, and is worn with a short, black nose veil dotted with chenille.

The millinery ensemble—a hat with neck scarf, to be worn together—is promised a wide vogue. One is designed by Agnes, consisting of a turban of black velvet closely shirred and stiffened to form a long leaf extending far over one side. A width of black velvet is made into a short scarf with clusters of gathers and a wide band of blue velvet on one end. Whether the off-the-face hat permits the hair to be seen depends upon the coiffure, and some among the new hats are made especially for the woman to whom the extreme style is unbecoming. Jane Blanchot and Mado are each showing turbans in felt and velvet of more generous lines and with fuller draping of the material, which is drawn well back from the brow and face.

The seeds of quinces should never be thrown away as they are most useful for making an emollient for chapped hands or cracked lips. Soak half an ounce of quince seeds in a pint of water for two hours, then boil for ten minutes and strain through fine muslin. Bottle and use as required.

## Women Why Suffer Periodic Pain?

SILENT will relieve periodic pain, headaches, backaches, weakness, nausea, sleeplessness, irritability, and many other ailments from which few women are entirely free. A wonderful reconstructive Nerve Tonic. SILENT can be obtained in either liquid or tablet form at \$1.00 per bottle or box.

### WHAT'S NEW

(From A Woman's Standpoint)

The jade and lime tints of jade seem particularly good this season.

Miss Constance Collier has just written her autobiography.

Three inches below the knee is the correct length in the new modes, says Paris.

Both blared and straight coats are seen on latest coat models at the French fairs.

One of Miss Vanderbilt has added several very beautiful deep blue chimneys to her Newport place, which she is rechristening "Blue Chimneys."

Almond green and beige and jade green with black were much favored color combinations at Autell.

Paris reports an interesting novelty—a new cream, known as "alki stocking cream," which, when placed on women's legs, produces the effect of silk stockings and it is in all the fashionable colors and can be removed with soapy water.

Envelope shaped bags to match either the dress or shoes are being favored in Paris, and the bag must, as it were, melt into the ensemble, if it has been rightly chosen, and a black suede bag with a jeweled clasp goes well with a black hat; with beige a beige suede bag is a happy choice, and with tweeds and figured materials the bag may match or be plain.

Queen Mary, although she is inter-

## THE WAY TO A MAN'S HEART

Strange, tempting odors are now floating from the kitchen. Spicy odors they are, and appetizing, for it's time to prepare for winter with relish and chutney and Chilli sauce and catsup. If you'd like a new chutney, omit the curry powder and let banana and ginger predominate and you'll get a rare flavor. Use one pound Spanish onions, one-half pound pitted dates, six bananas, one and one-half cups vinegar, one-fourth pound crystallized ginger, one teaspoon salt, one-half pound seeded raisins, two cups sweetened fruit syrup.

Peel the onions and put through the meat chopper with the dates. Dice the banana, add to the first mixture and pour in the vinegar. Simmer for about twenty minutes, add the crystallized ginger minced, salt, and the chopped raisins, and two cups of any fruit syrup. For instance, one and one-half cups of cherry juice, and a little lemon berry juice will make an excellent combination. Cook the mixture until thick and seal in bottles.

Spiced currants will add zest to any winter meal. Use seven pounds currants, five pounds brown sugar, three tablespoons cinnamon, three tablespoons clove and one pint vinegar.

Pick over currants, wash, drain and remove stems. Put in a preserving kettle, add sugar, vinegar and salt, tied in a piece of muslin. Heat to boiling point and cook slowly one and one-half hours. Store in a stone jar and keep in a cool place. These currants will make a delicious accompaniment to cold meat.

A simple beet relish is prepared by mixing ingredients in the following order: One cup chopped cold beets, three tablespoons grated horseradish root, two tablespoons lemon juice, two teaspoons powdered sugar, and one teaspoon salt. Use canned beets in place of fresh ones, if you like, and if you prefer, bottle horseradish, if it is strong-flavored and well drained.

**Fruit Chutney**  
4 Onions seeded raisins, 3 ounces chopped onions, 3 ounces chopped garlic, 2 ounces mustard seed, 14 ounces stoned plums, 2 cups vinegar, 5 ounces sugar, half teaspoon salt, one quarter teaspoon paprika, half teaspoon cinnamon, one quarter teaspoon ground cloves, one quarter teaspoon ground allspice.

Mix the ingredients and cook until the fruit is very soft. Seal in bottles or in half-pint jars. Makes two and one-half pints of chutney.

created in old needlework, does not collect it, in spite of the fact that old needlework pieces, sold in pairs, are very much sought after at the moment, but is particularly fond of mother of pearl, and also likes to add to her already fine collection of 18th century enamel.

London observes that it is remarkable that so many pieces of walnut furniture of the "Queen Anne" period or mahogany "Chippendale" specimens are now in the market, but authentic and pedigreed pieces, however, of the Queen Anne or Chippendale period, in perfect condition, now command high prices.

## SOME HELPFUL HINTS FOR BUSY HOUSEWIVES

If you do a great deal of canning and preserving you will find time will be saved if you weigh your preserving kettles and make a note of them in your cook book. Then you will not have to continually shift the dial of your scales.

Most of the rice curries in the Orient are made with basmati or boiled rice, to which are added other dishes combining many foods and flavors. They are usually served in a curry dish with perhaps eight or ten small compartments. After taking a portion of plain rice, each person chooses as few or as many of the other dishes as desired, spreads them over the rice, then covers the whole mass with curry sauce.

## IN THE MIRROR

"That is my face in the glass," said he.  
"That is the thing the world must see."  
Which friend and enemy glimpse as he.

"How do I look when I smile?" thought he.  
"That is something I'll never see, for it's seldom, if ever, I smile at me."

"Knowing myself and my weight of sin,  
If I smiled as I looked at my face there,  
It would be but a manufactured grin."

"What do they see who eye to eye  
Look in my face as the days go by  
Do they know what manner of man am I?"

"Lord, at this mirror I'm doomed to be  
Face to face, morning and night,  
With me."

Let me not shrink from what I must see."

## Miss Hard-Boiled" BY JANE DIXON

"His fancy, perhaps—not his heart" the other asserted.

"Both. He will make her Lady Stafford if he can."

"Nonsense."

"If these rumors and rumblings reach the ears of Alphonse I've gave no sign."

"Are you seriously thinking of adding a handle to your name?" Greta asked Raquel one evening when they had had tea in the garden and Eric Stafford lingered so long they had to rush into their dinner clothes.

Raquel examined her face closely in the mirror. It showed no trace of the rich foods, the rare wines, the late hours, the swift pace of pleasure. She had taken care of it shouldn't. Without beauty there would be no magic carpet for her to tread.

No, she had lost nothing. She had grown more beautiful. More finely drawn. Her creamy pallor had a transparency, a luminosity it lacked before science took it in hand.

She turned to Greta now, drooping delicate cream lids over thoughtful black eyes until their sable lashes swept her cheeks.

"Perhaps," she said laconically.

"Better think it over," Greta advised. "They tell me these ancestral castles of Jos's girl Raquel? She smiled. The ties have plenty of drafts but no bath-rooms."

Raquel laughed. "I do like my bath!" she said.

"Um, Perfumed. In a sunken tub. They don't have these little novelties on the Left Bank where Eric lives while in Paris."

"No. He lives very simply. I've been told Eric's father, the present head of the Stafford line, believes his sons should stand on their own feet. It's a tradition in the family."

"Well, you can't eat traditions, or wear them, or bathe in them either. The old boy ought to loosen up."

"Eric is clever."

"Then he'd better convert his cleverness into cash before he takes you on old dear. That costume Alphonse is creating for you to wear to the Louise Fete will set the firm back several hundred pounds of guineas, or whatever it is they use for money in dear old London."

"As I freely predicted it is no more proved her undoubted right to reign as queen of beauty at the Louis XVI Fete. The rooms had been transformed into exact reproductions of those Versailles for the event."

Through them moved that Brazilian young woman of mystery, Raquel Rojas—"le lis noir." In creamy satin embroidered so thickly with seed pearls and crystals that the billowing skirts would easily stand of themselves. Her feet, encased in a pair of black velvet slippers, played in and out like

winged things among the priceless lace of her petticoats. She did not affect the powdered wig of the period. The sable cloud of her hair, pulled high, was held with garlands of orange blossoms.

The Queen of Beauty with her courtiers! Following eagerly in her train, begging for as much as a crumb of her favor.

"You are supreme, ma petite!" Alphonse told her. "You are perfect. You cannot be more so." He was startled by the unbelievable skill with which he had wrought.

Raquel gazed down at the billowing skirts, pearls and crystals and creamy satin. For the merest flick of a second her eyes saw a sleazy red silk dress, scuffed, shapeless black shoes. If Lucy—her mother—could see her this night! Lucy. She had not thought of her mother in weeks. Not since she saw the little boy with the wistful eyes playing a violin on the streets. Baby Jose. She gave the boy a handful of francs. For her brother, Baby Jose.

Eric Stafford, a proud courtier in blue and silver, was at her side. Impatient to be off with her. What would the proud Lord Stafford think of Lucy's daughter? Of Pancho Red.

Eric Stafford, a proud courtier in blue and silver, was at her side. Impatient to be off with her. What would the proud Lord Stafford think of Lucy's daughter? Of Pancho Red.

She turned. Someone had touched her arm.

"Princess—Miss Raquel—I have been searching everywhere for you," cackled a creature that was so terrifying she drew back instinctively.

"Have you seen my Elsworth?" "Mrs. Bosart!" breathed Raquel. "I scarcely recognized you—"

"I've been in Vienna for the treatment. It's done wonders. Elsworth can't believe it. He's fallen in love with me all over again."

Raquel thought. If this creature shrinks another ounce, she will crack apart, disintegrate into a little heap of desert dust.

"I must find Elsworth," Mrs. Bosart cackled on. "He'll be delighted to see you—the remarkable resemblance between us, you know—except I've gone back to Titian for the hair. More life in Titian."

"Who is that grisly marionette?" asked Stafford, fascinated, as Raquel had been, by the sheer terror of what science had done.

"That," said Raquel, her eyes peering into distant space and wide with fear of what she saw there. "Is my petter."

"That," said Raquel, her eyes peering into distant space and wide with fear of what she saw there. "Is my petter."

## NO CANCER CURE HAS BEEN FOUND

But Before Long There May Be a Definite Cure

Chicago, Ill., Aug. 31 — Before the world is much older there may be a cure for cancer. But today there is no cure; prevention only.

These three statements have the emphatic support of the Educational Committee of the Radiological Society of North America, whose 1,200 members give much of their time with X-ray and radium to caring for cancer sufferers.

Just how much of that scourge is known and the means taken to learn more will be revealed at the society's annual convention to be held Dec. 2 to 7 at Toronto, Ont. Dr. Maximilian J. Hubay of Chicago, president of the society, announced the date and place and preliminary plans for the convention here. Last year the society met in Chicago and the year before in New Orleans.

Men who have made the study of X-ray and radium, who have grown gray in the service, will gather there with radiology's later practitioners from all the states in the union all the provinces of Canada, Cuba, Porto Rico, Panama and Mexico, to learn the latest progress in the use of these curative agents.

"The cancer problem appears to be approaching a solution," the society's educational committee announced here. "And while there is at this time no specific remedy or means of prevention of cancer, indications point toward the probability of these being discovered."

BELLEVILLE

ered before the world is much older. "At the present time early diagnosis combined with early treatment by means of surgery and X-rays, are the approved methods of treatment, and the removal of suspicious growths which might, or are liable to, develop into cancer, is the approved method of preventing it.

"Some forms of superficial cancer are best treated by means of the X-rays. The most important single element in regard to eradication of cancer and cancer-producing conditions is early diagnosis.

"Carefully made and thorough periodic examinations made by well-trained and qualified physicians, will bring to light cancer and pre-cancerous conditions and will go far towards lessening the death rate from this dread disease. Cancer is apparently on the increase, but this increase is more apparent than real, because more cases of cancer are diagnosed than formerly and as many of these are diagnosed early, more of them are being cured.

"With the present knowledge and facilities it is possible to determine a very high percentage of instances whether malignant disease is present and if it is present and diagnosed early enough, the likelihood of cure is as great if not greater than it ever was before."

## TRADE FOLLOWS MOVIE FILM NOW

Canada Using Pictures To Advertise Her Wealth And Beauty

Ottawa, September 4. — Canadian motion pictures produced in the Dominion Government studio at Ottawa, are being exhibited in many countries throughout the world, and there is direct evidence that they are bringing excellent results. Anglers, who see thrilling pictures of bass fishing, hunters and lovers of the outdoors, who see extraordinary action films of moose in the heart of New Brunswick, alpinists who see in a picture theatre, "a bit of high life" in the Canadian Rockies, bird lovers, motorists, skiers, skaters, and others are lured to Canada by the interesting productions of the Canadian Government motion picture bureau. And there is abundant evidence, too, that trade follows the film as it follows the flag. Canadian pictures are used in the West Indies to promote Canadian trade, while in the States of Canada the products of the Canadian and likewise made known to the consuming public.

The gospel of Canada as a country to live in, as a paradise for holiday seekers, hunters and anglers, and a producer of the finest fruits of the earth as well as manufactured articles which are second to none, is preached throughout the world, but the home market is not neglected. In 200 Canadian theatres, including 22 of the leading picture houses of the

## We can give you the biggest allowance on your old radio!

### The DE FOREST CROSLLEY RENOWN

\$225<sup>00</sup> COMPLETE

AC receiver utilizing radio's finest standard circuit—the 8-tube Hazeltine Neutrodyne; push-pull audio, using two UX 171A tubes; the remarkable, new Inductor Dynamic Speaker, which gives exceptional volume and rich, natural tone; single control; phonograph jack; illuminated dial; superb walnut cabinet in two-tone black and grey with bird's eye maple inlays. The De Forest Crosley Renown is radio's outstanding value.

NOW is the time to turn in your out-of-date radio set on one of the new De Forest Crosley Renown models. For right now you can get the biggest allowance on your old radio—due to a special two-weeks' arrangement we have made with De Forest Crosley.

### Enjoy Radio at Its Best NOW

#### Save Money on Your New Radio

You've decided to buy a new radio this year, anyway. Don't put up with mediocre radio reception any longer. Don't let the depreciation on your old set mount up. Why not let us give you a liberal beginning-of-season trade-in price on it now—and introduce you to radio reception such as you have never enjoyed before?

### Accept the De Forest Crosley Challenge

The Largest Radio Manufacturers in the British Empire and the resources of 5,000 radio engineers stand back of De Forest Crosley Radios. De Forest Crosley challenges comparison with any radio or phonograph you can hear and at any price. Accept this challenge by permitting us to demonstrate the De Forest Crosley Renown.

ONLY \$150<sup>00</sup> DOWN

For two weeks only we are prepared to give you extraordinarily easy terms on the purchase of a 1930 De Forest Crosley Renown model—\$15 down and the balance spread over a period of thirteen months. This is only possible because of a special arrangement with De Forest Crosley. Take advantage of it. Let us give you a demonstration and full details right away.

## McIntosh Bros.

Toronto district, and as far as Montreal, the films of the Dominion Government are regularly shown. Under the direction of F. C. Badgley, the bureau is concentrating this year in the production of a few outstanding films and is co-operating with the Ontario Government and other provincial governments in producing films for educational and non-theatrical purposes. "We have a million feet of film working every day in the United States," said Mr. Badgley, "and have fifty agencies in that country from which we receive reports of every showing, with particular as to the character of the audience, estimated attendance and reception. In the non-theatrical field we exhibit films to between 12 and 15 million people in the United States annually."

## No More Piles

Pile sufferers can only get quick, safe and lasting relief by removing the cause—bad blood circulation in the lower bowel. Cutting and salves can't do this—an internal remedy must be used. Dr. Leonard's Hem-Roid, a harmless tablet, succeeds because it moves this blood congestion and strengthens the affected parts. Hem-Roid has a wonderful record for quick and lasting relief to pile sufferers. It will do the same for you or money back. J. S. McKewen and druggists everywhere sell Hem-Roid with this guarantee.

## QUICKSAND RESCUE

Saved After Nine Hour Struggle When Buried To His Neck

Camden, Tenn., Sept. 4.—E. A. Fry, 23 year old Camden pharmacist, was alive today due to the efforts of several hundred men who fought a nine-hour battle in relays against a quicksand bed in the Tennessee hills yesterday. He was one of a fishing party which decided to explore Bangs Cave thirty miles from here.

When the apparently doomed youth sank to shoulders deep, part of his would-be rescuers went for help while the others stayed and carried on the battle. The alarm brought a crowd of 3,000 to the cave mouth, from which volunteers took the place of workers exhausted by their efforts inside the cave. Finally Fry was pulled forth by a rope.

The pharmacist was taken out in a serious condition.

Scented shoe polish is latest chemical achievement.

New airport is planned for Bucyrus, Ohio.

Canadian Pacific operates very convenient service to all points in these districts.

Nearest Agent of the Canadian Pacific will be glad to furnish literature and full information.

### TODAY'S THOUGHT

"The Ten Commandments comprise us God a set of rules to govern man's conduct as any league or society can evolve."

JOHN R. VOORHIS.

### SHOULD EDUCATE DRIVER'S LEFT ARM

Complaints are being heard on the street and in the press regarding the carelessness with which some motorists use the left arm signal. Properly employed, it is a means of indicating to the driver behind the exact intentions of the motorist ahead. Pointing straight to the left indicates an intended left turn. A motion forward indicates to the man behind that he can pass to the left as a right hand turn is intended. The palm extended open means an intention to stop.

Each driver, however, seems to have his own ideas as to the proper means of indicating his intentions to those behind. Many drivers simply allow a hand to dangle limply out of the window, expecting that by some super-form of divination those following will understand what is meant.

The left arm signal should be a means of avoiding accidents. But when carelessly used it causes confusion and may actually cause accidents.

### WORLD TOO WEARY TO THINK OF WAR

This alleged war between Russia and China cannot be as serious as it sounds. When a "heavy engagement" can only produce thirty casualties a small riot at a softball game looks deadly by comparison.

That the Soviet believes in noise is borne out by recent occurrences in Queen's Park while the Chinese love of firecrackers is traditional.

Nor does it look as if the conflagration would spread. The great powers are too busy scrapping over the reparations from the last war to bother about a new one.

The world is war weary. It is ready at any moment to sign another peace pact and it is trying to bolster up its faith in the League of Nations.

### CAN WOMEN IN POLITICS KEEP CHARM?

Miss Margaret Bondfield, British minister of labor, while on holiday in Cornwall, slipped on the rocks and broke her ankle. The news is flashed around the world and is read with sympathy in all parts of the Empire, for "Our Maggie," as her Northampton constituents affectionately call her, is popular. Yet this capable little lady—the first woman member of any British cabinet—once found it hard to earn a living wage. As an apprentice in a little dry-goods store, it is said that she received only \$125 a year and "lived in."

Even later on, when she had gained eminence in the Labor movement, she was paid no more than ten dollars a week. Now her salary, as minister of labor, is \$25,000 a year, and she is ever in the "news." It is a romantic story of intellectual triumph and unbounded energy and zeal.

Miss Bondfield is not the type of "intellectual" that one might conjure up in imagination—the woman who sacrifices the gentler qualities of ambition; she is the reverse of this. Mr. Hamilton Fyfe, writing of her, in *Overseas*, says: She is almost the only woman in British politics who pos-

sesses that elusive and winning quality—charm. People who hear her speak in public, people who meet her privately, people who see her at a conference or business discussion, all agree in their estimate of her. They all say: "What a charming woman!"

Miss Bondfield is the tenth in a family of eleven children, brought up in an English country cottage and self-taught. She herself, however, deprecates the suggestion that she paid more attention to study than to the enjoyment of life. "While I admit that books always had a fascination for me," she has written, "I protest that I was no bookworm, but a very ordinary child. It is this love of the outdoors which explains her vigor of mind and conditions her outlook on the public problems she is called upon to deal with."

She has consistently and successfully labored for the amelioration of conditions among working girls, and been instrumental in getting many of the graver abuses removed. To those she has thus assisted she is known as "Saint Maggie." Few politicians have ever attained the distinction of such a title as this. Miss Bondfield is, in fact, unique in many respects.

**WHY NOT KEEP THE HOME MARKETS?**  
 Hon. James Macdonald told the Exhibition guests of how export trade helps the domestic business. And it is interesting to learn that \$600,000,000 of exported manufactures gives work to 200,000 Canadian workers. But business like charity should begin at home. And Mr. Macdonald would be better employed telling us what is being done to save the home market for Canadian industries.

Just at present U. S. is shipping into the Canadian market \$900,000,000 of her products.

Now, a little arithmetic should show that if \$600,000,000 of exports gives employment to 200,000 men a home market for \$900,000,000 of Canadian products would provide work for many thousands more.

And if those many thousand jobs were added to those Canada already has there should be jobs in Canada for those Canadians now employed in the United States.

Why doesn't Mr. Macdonald be honest enough to admit that a little properly applied protection would turn the trick.

### OTHER MEN'S THOUGHTS

Automobiles are manufactured that will travel as fast as 100 miles per hour on a level highway. That ought to be fast enough. The manufacturers might now turn their attention to bump and bumpers that will absorb the shock when two cars meet head-on, and to safety devices for the protection of passengers when the car leaves the highway. Now that speed has been achieved, we might pay some attention to safety.—Farmers' Advocate.

Wheat growers are jubilant. The price of wheat is soaring; many farmers who had a very dark outlook are now expecting a prosperous harvest. And why? Because... the wheat crop is below normal. Bad weather conditions have cut down the expected yield. Hence prices are going up, industry strives for the greatest possible production. Agriculture is compelled to point the other way. A time of plenty is apt to be a time of hardship. A time of dearth is apt to mean plenty. Right there is a "farm problem" worthy of a good deal of attention.—Vancouver Sun.

### PASSING YEARS From The Intelligencer Of This Day 30 Years Ago

Mr. F. G. Lockett has gone east on a business trip.

Chief Newton has returned home from a pleasure trip to Toronto.

Mr. D. M. Waters has been attending the Toronto Fair for the past few days.

Mr. W. H. Biggar and family have returned home after a pleasant sojourn at Murray Bay.

Mr. W. C. Huff of the 76th Lewis Company, left today for a visit to the Toronto Exhibition.

Mr. and Mrs. Chas. Wallis, Moira Street, are attending the Toronto Fair. From there they will go to Niagara Falls to visit their son, Harry.

Mr. E. F. Dickens is at the Toronto Fair.

Messrs C. H. and A. G. Vernilyea, returned home last evening from Toronto.

### HAVE YOU HEARD THESE?

"I want some golf balls for a gentleman, please."

"Certainly, madam. What sort does he like?"

"Well, the only time I saw him play he used a small white ball. But I can not say I gathered the impression that he exactly liked it."

"Last night" said the young man, in a mysterious tone, "I woke up with the strange impression that my watch was gone. I got up and looked."

"And was it?" asked the interested listener.

"No—but it was going!"

Tramp: Yes, lady, it was awful. I heard the chug-chug of the engine, and smelt the petrol. I sprang, but was too late. The machine passed over me.

Lady (giving him a shilling): And did the motor hurt you?

Tramp: Motor, ma'am? It was an aeroplane.

"Why does Mary always cuddle next to the driver?"

"She's working for her father."

"Where's the connection?"

"You see, he's in the undertaking business."

### THAT BODY OF YOURS

By James W. Barton, M.D.

### FIGHTING AN ILLNESS

During the flu epidemic in 1918, a very sick soldier was removed from his home to a base hospital.

The civilian physician felt that he should have more care than it was possible to get at home as he was unable to secure a nurse of any kind.

When he arrived at the hospital, a careful examination showed a very serious pneumonia.

He was very weak and ill but when the doctor got through his examination, he said: "Why, Doc, I guess it's all over. I know what I'm up against."

The doctor knew the patient to be the amateur heavy weight boxing champion of the entire district so he said: "You're sick all right, real sick, but is that the way you quit or give up when you are in a bout. Do you say to yourself, 'This fellow can beat me so I might as well quit now.'"

The sick boxer took one look into the doctor's eyes and said: "Say I never quit in my life, I've won many fights, lost a number and been knocked out, but never quit. In fact I won some fights by not quitting even when I've been getting a licking. I just kept going and finally won out."

"Well," said the doctor, "you are up against a hard proposition in this flu and pneumonia, but if you don't quit you may win out again."

The patient became intensely interested in the fight for his life, as he was as seriously ill as any case in the hospital, and he finally won out, and got better.

Why do I tell this?

First because no matter what the illness, it is the heart that must carry you through. You may be born with a strong heart, with good reserve power. It should stand you in good stead.

However, the only way a good heart can be kept strong, and a weak heart strengthened is by exercise. And walking is a most simple and effective way. Slow running or road work is what boxers, footballers, and other athletes use to strengthen heart and lungs.

My second reason is that if you will let your youngster play games he not only strengthens his heart, but he learns to keep going when he would like to quit, learns to take defeat, learns to "keep going." This may as in above case, be the deciding factor in an illness.

### COMES DEATH!

Too soon, too soon comes Death to show.

We love more deeply than we know! The rain, that fell upon the height Too gently to be called delight.

Within the dark vale reappears As a wild cat's paw of tears; And love in life should strive to see Sometimes what love in death should be.

COVENTRY PATMORE

### INFRA-RED RAYS NOW ARE AIDING SCIENCE

Boston, Mass., Sept. 5.—Infra-red rays, the "invisible light" with which the camera peers far into impenetrable fog, now brings to view living objects that hitherto escaped detection by the microscope. Use of these rays in medical photography was described to the thirteenth International Physiology Congress at Harvard Medical School by Ivan Bertrand and L. Justin-Besanson of Paris. Infra-red is a longer wave-length than red, the most lengthy visible ray. It is an interesting step between light and heat. The Frenchmen exclude all visible light from the photographic plate which is specially sensitized to the infra-red emanations. They said that because of the extra strength these how little they know.

Boys whose playmates tease them as being "crazy" when their legs fall to jerk at a blow on the reflex at the knee may some day know the scientific reason for the failure. Prof. Genchi Kato of Keio University, Tokyo, an authority on nerves, reported a theory to explain why a strong nerve impulse sometimes results in a weak reaction in a muscle, while a weak stimulus gives a strong muscular response. The theory is that the successive signals of the strong impulse tend to overrun and blot out each other.

They know the least who know not because of the extra strength these how little they know.

### ROBERT BORDEN SEES NO REASON FOR RACIAL RIFT

Says All Pioneer People  
Can Aid In Common  
Welfare

#### CANADA'S PAST

Address Before Canadian  
Bar Association Heard  
With Interest

Quebec, September 7.—While there must be divergence of institutions and customs in Canada, Sir Robert Borden told the members of the Canadian Bar Association here yesterday afternoon, there is no reason why all Canadians should not co-operate for the national welfare, realizing at all times that pioneer races will not always be distinctive, but that in their origins, they have something to contribute to the common wealth.

"In all that has ensued in the last three-quarters of a century, and all that may ensue," Sir Robert added, "you as members of the Canadian Bar Association, must take an abiding interest. The pioneer history of each race is the common history of both. You can do much to arouse a deeper interest in the dramatic story of our national evolution, and in our essential national unity."

Sir Robert's comment came at the close of an address in which he sought, out of some of the stirring but little known pages of Canada's history, to draw some incidents which would arouse Canadian students to the value of Canada's past as a fertile field for study.

#### Sir R. Borden's Address

Sir Robert Borden spoke as follows: The brief and rather discursive remarks which I propose to offer are an duty honored by the designation of an "address."

Let me emphasize our deep regret for the untimely illness of our president. I have enjoyed the intimate friendship of Mr. Nesbitt during many years and I pay warm tribute to the earnestness with which, whether at the Bar or upon the Bench, he has always striven to uphold the dignity and safeguard the honor of our profession. It is my strong hope and conviction that within a few months he will be restored to his normal health and strength.

Many of the happiest years of my life were spent in the active practice of our profession, but for more than a quarter of a century I have followed other paths. This I do not propose to speak to you upon any subject directly connected with law. In that regard and in this presence, I am to receive and not to impart.

### BOWLING RINKS DEFEATED MADOC

Belleville Rinks Hung Up

Fixture

Belleville is fortunate in possessing two of the finest Men's Bowling rinks in Hastings County. They have succeeded in winning practically every game played so far in the League and last night annexed another victory from the Madoc bowlers on the Belleville green. There remains but one more scheduled game to be played between Deseronto and Stirling, and this will take place on Tuesday night in this city. The Belleville rink is far ahead of its opponents and the result of this game will not affect their standing.

Following are the names of the four rinks which played last night and their scores:

Belleville	Madoc
O. F. Woodley	D. C. Moore
A. R. Symons	G. C. Moon
L. E. McLean	J. Watson
T. Hurley	W. C. Connors
Skip 17	Skip 7
R. W. Scott	D. Naylor
M. Dunsford	L. Ashley
A. N. Sulman	A. Cochrane
C. N. Ashley	S. Ashley
Skip 20	Skip 7

### PRISONER RELEASED FROM WELLS BOTTOM

Iowa, Sept. 7.—Wilkins Brist, imprisoned for 42 hours in a caved in well here, was released at 6:07 a.m. today. He cited for want as he was brought on a cot to the surface of the shaft which workers had started yesterday morning.

Latest Portrait Of Eminent Judiciary

A new portrait of the Rt. Hon. Sir William Mulock in his judicial robes as the chief justice of Ontario, which has been hung at Osgoode Hall, Toronto. This latest painting of our chief justice is by Curtis Williamson, R.C.A.

### GIRL KILLED IN VICTORIA CLUB FALL FROM BIKE CAPTURE RELAY

Jean McIntyre Of Keene  
Victim Of Peculiar  
Accident

Peterboro, Sept. 7.—Jean McIntyre, 12-year-old daughter of Mrs. Jenny McIntyre, who resides on a farm about two and a half miles from the village of Keene on the Keene road, died last night at 10 o'clock as a result of a fracture of skull which she sustained when she was thrown from her bicycle Tuesday afternoon.

The accident occurred near the base of Pine Hill which is a half mile from the McIntyre home. The little girl was returning home after her first day of school in the fall term and, although she had ridden a bicycle often before, it was the first time she had ever used one in going to school. It is thought probable that on nearing the bottom of the hill she was travelling at a high speed and when she struck the soft sand which is to be found at that point, was thrown over the handle bars.

### SENSATION STIRS ONTARIO VILLAGE

Lawyer Is Alleged To Be  
Implicated In Blackmail  
Case

Alexandria, Ont., Sept. 7.—The arrest of a prominent lawyer, two youths and the father of one of the latter, on charges of extortion and compounding a felony has caused a sensation in this small Glangerry Centre.

The arrested are—Lawrence Proulx, 18; Leonard Kemp, 18; Thomas Kemp, father of Leonard Kemp; and Orlan Sauve, lawyer of Alexandria.

The first three are alleged to have secured from Peter Ferguson, postmaster of the town, the sum of \$2,400 by means of extortion while Sauve is charged with compounding the felony.

### TRAFFIC HELD UP BY SNOW STORM

Denver, Colo., Sept. 7.—With no relief in sight and snow falling here in other rocky mountain regions, the threat of winter today assumed a degree of certainty temperatures ranged from 24 to 39 degrees.

The earliest snow in 28 years at Lander, Wyoming, disrupted power and communication lines and demoralized traffic. Fourteen inches of snow was reported in the Fox Park district of southern Wyoming.

and is a striking likeness of the subject. The picture is hung in the corridor just outside the appeal court room where the chief justice presides over the first appellate division of the supreme court of Ontario.

### Local Runners Compete In Events At Picton Fair

Victoria athletic club have to thank Cliff Barber for their win in yesterday's relay race which took place at the Picton Fair Grounds. Over one hundred yards behind the leading runner when he received the baton at the commencement of the final half mile, Barber cut out a terrific pace which won him the race. The runner who preceded him on the start of the final lap, passed him on the home stretch and finished with a considerable lead.

The track at the Picton Fair Grounds was in anything but the best of condition for running races so that it was a case of "survival of the fittest. This makes Cliff Barber's performance all the more outstanding as under the conditions his task of overcoming such a handicap looked all but impossible.

The start of the relay provided an interesting battle between three runners representing Victoria, Belleville and Picton. The first two runners, who were the home team, were Jack Marshall and Jack Persia. The third runner, who was the away team, was Jack Persia. The race was a hard race and increased the advantage for the local runners. Charles Short, running in third place, likewise added to the lead which the two previous runners had gained. Running the final half, Jack Marshall was away at a fast clip and it looked like a sure win for the home team. But it was at this stage that Barber stepped in to cross up the "wires" with the fore-mentioned result.

Five teams entered the event, there being two from Trenton, one from Kingston, Belleville and Victoria Club. The finish was in the following order, 1st, Victoria Club, 2nd, Trenton, 3rd, Belleville, 4th, Kingston, 5th, Trenton.

### WHEAT PROFITS WILL OFFSET SMALL YIELD

Winnipeg, Sept. 7.—The prairie wheat crop will total 269,077,693 bushels according to the Manitoba Free Press crop estimates published today. While the wheat yield will be little more than one half of 1928 crop, says the report, the financial returns will be a considerable extent offset the loss in bushels.

### THE WEATHER

Moderate northeast winds, mostly cloudy and cool tonight and Sunday, probably few light scattered showers.

### RONALD CONLEY IS DROWNED IN OLD BOAT-HOUSE

Fell In Water While Playing  
With Young  
Companion

#### VISITING HERE

C. Birch, Harriet St., Dove  
In Water In Attempted  
Rescue

Ronald Conley, 4-year-old son of Mr. and Mrs. Elmer Conley, of Rochester, N.Y., was drowned about ten o'clock this morning in a bathhouse adjacent to the Belleville Harbour, although Constable Isard worked over him for almost half an hour, all efforts to revive him were unavailing. Dr. Boyce, after viewing the remains and the scene of the accident, decided that an inquest was unnecessary.

Ronald and little Betty Assestine, three-year-old daughter of Mr. and Mrs. Bert Assestine, South Front St., were playing in a deserted bathhouse along the waterfront just opposite the Assestine home, when the boy in some unaccountable manner fell in. How long Betty stayed in the bathhouse before running for help cannot be ascertained, but it must have been ten minutes at least before help arrived.

C. Birch, Harriet Street, 35 years old, an employee of the Anderson Coal Company was one of the first on the scene, and he immediately dove into the water in an effort to locate the body. His efforts were unsuccessful, but Mr. John Kerr, a fisherman, soon arrived on the scene with a pike pole with which he succeeded in bringing the remains to the surface. Artificial respiration was continued by Dr. Isard and at once applied by Constable Isard and soon afterwards, after half an hour's work the child was pronounced dead.

Mrs. Conley who is a sister of Mrs. Bert Assestine, with whom she was visiting, has been in Belleville since Friday, Aug. 30th and has intended returning to her home in Rochester next week. The funeral will be held in Belleville, according to relatives.

Mr. and Mrs. Conley formerly resided in Kingston but have been living in Rochester for the past two years.

### THREE BURNED TO DEATH WHEN PLANE CRASHED

Pilot And Passengers Die  
Instantly In  
Smash

Simla, India, Sept. 7.—The England to India mail plane crashed today at Jack Persia killing three persons and injuring two. The machine, the passenger's bodies and mail were all buried under the wreckage.

The three killed were Capt. A. E. Woodbridge, pilot; Mr. Bell, of London, passenger; and an Assistant Mechanic named Court. The two injured were wireless operator Bourn and Machanic Amor. Both are expected to recover.

London, Sept. 7.—The Imperial Airways, confirming the complete destruction of the India mail plane at Jack Persia, said pilot, Capt. A. E. Woodbridge had been killed. No other loss of life was mentioned the statement saying "Others sustained burns but it was not believed they were serious."

### ISSUES SOARED UPWARD TODAY

New York, Sept. 7.—Heavy week end profit taking in some of the industrial leaders brought about some irregularity in today's first session of the market, but the general trend was upward with the public utility issues again in the forefront of the advance. While traders generally were pleased at the sharp rally, yesterday, there was a belief in some quarters that the recovery had been in rapid influencing conservative traders to reduce their commitments.

### MAY VISIT STIRLING

The Honorable G. Howard Ferguson, premier of the province of Ontario, will make a visit to Hastings County, in all probability, early next month. The Board of Education at Stirling has invited the Premier to be present to officiate at the Commencement exercises that are to be held in the village the first part of October. A letter of invitation has been sent to Mr. Ferguson by the Board and the Stirling Board has been practically assured that Mr. Ferguson will be in attendance.

### WINNIPEG GRAIN

Winnipeg, Sept. 7.—Wheat Oct. 7-8 to 3-8 lower at 152 1/2 to 153. November 1-2 lower at 154. Dec. 7-8 lower at 153 1/2. May 1-3-4 to 3-4 lower at 158 3-4 to 159 1-2.

Oats Oct. unchanged at 69. Dec. unchanged at 69 1-2. May unchanged at 1-8 higher at 72 3-4 to 73 7-8.

### COMING EVENTS

Ladies Auxiliary Canadian Legion General Meeting Monday, Sept. 9th, at 8 o'clock.

E. L. Batchelor, Secretary.

You must see Charles Farrell and Janet Gaynor in the symphony of Melody "Street Angel", at Belle Staring Monday.

Bridge St. Sunday School Fall season opens Sunday, Sept. 8th, at 2:45 p.m. Teachers and pupils are especially requested to attend the opening session.

### FIRES IN RENFREW ARE UNDER CONTROL

Renfrew, Ont., Sept. 7.—A fire which began burning with great rapidity in the cut over lumber lands close to White Lake was believed under control today, after the rain last night and the dropping of the wind, aided the fire-fighters in bringing the blaze within bounds where there is less danger of spreading.

### CITY HALL REST ROOM RENOVATED

Ald. French Says Place  
Will Be In Charge Of  
Caretaker

The men's rest-room in the city hall has been completely renovated through the efforts of Ald. J. H. French, who has been in charge of the work. The room, which was formerly a storage room, has been painted in a light gray color and new fixtures have been installed. Every old fixture in the room has been removed and the latest modern improvements installed.

Ald. French, chairman of the Market and City Property Committee, stated to the Intelligencer this morning that the rest-room will be put in charge of a permanent caretaker and will be kept in a state of readiness for use at all times. "We intend to keep this place neat and clean," he stated. The rest-room will be closed up shortly after eleven o'clock each evening, after the movie theatres have closed.

### MILD DISORDERS CAUSE TROUBLE

Police Authorities Continue  
Round-Up Of Alleged  
Perpetrators

Jerusalem, Sept. 7.—An open admission has been made by persons in touch with the situation in Palestine that although the British government has matters firmly in hand extended the period of unrest requiring the large forces of troops may be expected. Although the country has grown noticeably more peaceable the last two days there were continued reports of minor disorders and clashes between the British troops and Arabs, and between the Arabs and Jews. The authorities continued their round-up of those deemed responsible for the recent clashes.

### CREW RESCUED WHEN VESSEL TOOK FIRE

Baltimore, Md., Sept. 7.—Burned to the water, the tugboat, three miles off Chesapeake head, the trawler Nova Fir, engaged in a government fish collecting service, sank early today. Capt. M. J. and his crew of five escaped in the ship's boats an hour after the fire broke out in the engine room.

### PASSENGER IN TAXI IS KILLED

Brookville, Sept. 7.—Charles Sawyer, an employee of Ontario Amusement, Limited, now executing a street paving contract here, was fatally injured at about 11:20 o'clock last night when the taxi cab in which he was a passenger was struck a glancing blow by an unidentified American automobile travelling west on Provincial Highway No. 2 about two miles east of Prescott and sent into the air. Edwin Horton, 271 Park Street, Brookville, driver of the taxicab, which was owned by Harold Charlton, Brookville, received minor cuts and bruises and is to testify at the inquest which will be opened in Prescott today.

### BRITISH FLIER SHATTERS SPEED RECORD AND ENGLAND RETAINS CUP IN FAMOUS SCHNEIDER RACE

#### INFANTILE PARALYSIS SPREADS IN OTTAWA

Ottawa, Ont., Sept. 7.—The alarming increase which has occurred in infantile paralysis started to spread in the capital late in July was recorded yesterday when ten new patients were admitted to the hospital. Since July 28th, 65 cases of the disease have been registered at the Civic Health office. Two deaths have occurred during the last month.

### MUCH BUSINESS AWAITS RETURN OF MINISTERS

Chas. Dunning Greatly Im-  
pressed With Trent Canal  
System

Ottawa, September 7.—It can be definitely stated that Sir Henry Thornton, president of the Canadian National Railways, has received no offer of invitation from the British Government to go over to assist in the rehabilitation of the British railroads, although that if he did receive one he would not accept it.

Hon. Charles A. Dunning, Minister of Railways and Canals, who returned to the city today from an inspection of the Trent Valley Canal, accompanied by Lieut.-Col. A. E. Dunning, chief engineer of the department, and W. V. Cope, controller, stated that it was news to him that any move of Sir Henry to England was contemplated or even discussed.

Next Tuesday, Sir Henry and Right Hon. J. H. Thomas, Minister of Labor in the British Government, will confer with Mr. Dunning on matters of mutual interest, but it is understood that the most that could possibly develop would be that Sir Henry might go over to England for a few weeks to act in an advisory capacity to the British government there, which, it is reported, is giving consideration to some plan for nationalization of the British roads.

It was Mr. Thomas who was largely instrumental in securing for the Dominion Government the services of Sir Henry as president of the Canadian National Railways. It is understood that not even Mr. Thomas has approached the Government or Sir Henry with a view to the latter's going to England for a short time.

Sir Henry's contract with the Dominion Government has been awaiting for some months, but it is understood the contract will be extended in a short time. It is probable that the previous term of three years will be extended to five and it is possible that Sir Henry's annual salary will be increased to \$170,000. This matter, however, has not yet been finally decided.

### H. R. D. Waghorn Flashes Through Space At 329 Miles An Hour

#### A GREAT EVENT Over A Million Persons Witness International Struggle

Ryde, September 7.—Flying Officer R. L. R. Atherley, who was announced to have set a new world's speed record of 329 miles per hour in lap of the Schneider Cup today, lost his record immediately to his brother officer, Waghorn, when he was disqualified.

Ryde, England, Sept. 7.—Flying Officer R. L. R. Atherley, of the British Schneider Cup team and a favorite in the race, broke the world speed record of his comrade Waghorn by completing his fourth lap on the solvent course in 332.40 miles per hour.

His time was 1.39 miles an hour bet- ter than mark Waghorn had set in the first other mark but he had yet to equal Waghorn's average for the Schneider trophy.

### SIX INJURED IN HIGHWAY CRASH

Windsor, Ont., Sept. 7.—Six persons were injured, one perhaps fatally in a traffic smash on the River Front road near Amherstburg last night.

Miss Kay Wells 29, St. Thomas is in the hospital probably with a fractured skull in addition to a broken jaw and other injuries. Fred Meadows, 40, of Windsor is in the same hospital suffering from fractured bones and laceration; Frank Ellis 25, Windsor, received a fractured arm and other injuries and his sister Constance 21, suffered a fractured leg.

The cars driven by Meadows and Ellis came together after it is believed the Ellis car had been sideswiped by a car carrying an Illinois license.

### "LINDY" TO ASSIST IN HUNT FOR PLANE

St. Louis, Mo., Sept. 7.—Col. Charles A. Lindbergh took off here today in a Lockheed Vega plane at 5:30 a.m. Central Standard Time for Winthrup, Arizona, to aid in search for the missing sky liner "City of San Francisco." He was accompanied by his wife.

**TODAY'S THOUGHT**

No padlocks, bolts, or bars can secure a maiden so well as her own virtue.

CERVANTES

**LOWERING DEATH-RATE**

People are beginning to live too long according to some of the medical and health authorities in Britain. One doctor declares that an average life length of a hundred years would be attained in a comparatively brief period. That means, of course, that the old age pension scheme, which was designed for people of seventy years, or in some places sixty-five years, would swamp the country. If people are going to live to a hundred and demand support for thirty or thirty-five years, a great change will have to be made socially to provide for the leisure of the patriarchs.

Dr. William G. Savage, county medical officer for Somerset, and a recognized authority, declares that "the science of healthy living is steadily making the three-score and ten of the Psalmist an out of date statement." Fifty years ago the death rate of England and Wales was 214. Last year it was 11.6 or nearly half. A death rate as low as ten, which keeps down year by year to ten, means that on an average, everybody lives to be a hundred years old.

Mr. William Arbuthnot Lane, president of the New Health society states: "Such a promise seems at first thought to be impossible of achievement in the reasonably near future, but I can visualize a time, not far distant, when hundreds of thousands instead of at present, only a few hundreds of people, will live to the great age of 100 years. The few centenarians of today are enshrined in mind and body, but I believe that millions of future centenarians will be as vigorous in every way as people today of 60."

The trouble in the past, he continued, was that people in the past failed to take care of their "works," and allowed the machinery of their bodies to wear out long before they were really old. Human bodies are like motor cars. They depend on the care taken of them. When proper care is taken of them, he said, "we shall soon have them living beyond the hundred-year mark, as the simple living Julius do."

The younger generation are beginning to take note of these facts and to look after their diet as their elders did not know how to do. In 1920 the number of deaths of people over 65 was 45 per cent., but in 1927 the number of deaths of people over 65 had risen to 56 per cent. Thus the deaths each year are shifting into the later periods of life. Each year fewer people die under 45, and since 1920 more than half the deaths have been of people over 65.

The insurance people find that the life expectancy grows longer and longer. As ninety per cent. of all profits goes to policy holders, the bonuses are bound to grow larger and larger.

The rules of health are simple. Drink nothing but milk or water or fruit juice. Eat no animal products except butter and cheese, and live on fruit and vegetables, cereals, nuts, whole wheat bread for choice. Dress as lightly as comfort requires. Breathe deeply and live in the open air or with open windows. There is no need to fear disease under such conditions. The body can protect itself without any other protection, and artificial means are unnecessary. Over-work is the only thing that can undermine a body so treated.

**TRANSCERENCE OF THOUGHTS**

Mr. Joseph Dunninger, the mind-reader, is certainly an aggressive individual. Having used the radio as a means for broadcasting thought, he has turned to the talking screen as another means for propaganda for telepathy. In a theatre he announces that a large number of people successfully "got" the name of a man he had previously thought about through the "talking." A few weeks ago it will be recalled, he "broadcast" through the WJZ network of the National Broadcasting company three thoughts, the name of an American president, a number with three figures and a simple geometric figure. What the subjects he concentrated upon was not announced until some time later, but we now learn they were Abraham Lincoln, the number 397, and a small house with four windows and one door, a crude chimney and a simple triangular roof. He received, he states, 1,000 letters from listeners and found that 40 per cent clearly received the thought of Abraham Lincoln, fewer saw the correct number, but "an amazing proportion" caught the thought of the small house. One of the interesting results of the experiment and one not unexpected by those familiar with the literature of psychic research, was the fact that many listeners "got" the three figures reversed. It would require more data than Mr. Dunninger has given us to draw accurate conclusions from the results of the experiment. The factor of chance, or lucky guesses, cannot be ignored. Suppose ten districts of the United States were asked to name a president, would it be remarkable if they said "Abraham Lincoln"? The success of this part of the experiment may be discounted. But that "an amazing number," whatever that may mean, should have "got" the picture of a small house from a "geometrical figure" is more interesting. This test was too difficult for us to ascribe its success altogether to chance. That there are people who have telepathic powers is well known to investigators, and where people are closely associated the simultaneous thinking of a subject is frequently remarked. We are sure that small boys who have been up to mischief would, if they knew anything about this subject, have no doubt that their mothers had telepathic powers. But as we expected, Mr. Dunninger's experiments have so far thrown no new light upon the mystery of thought transference.

**HAVE YOU HEARD THESE?**

He had been married about a year and had taken to spending his evenings down town with the boys. One night his conscience troubled him, and he thought it he would go home and get her to come down town and meet him and have dinner with him. So he called her up.

"Hello, kid," he began. "Say, slip on some clothes and run down and meet me on the quiet. We'll have a good dinner, and then we'll get a machine and go out and enter a little red point around. How about it?"

"I'll be delighted to join you, Jack," was the reply. "But why not come up to the house and get me? There's nobody home!"

As the husband's name is Tom, he spends his evenings at home now. And his wife wears a queer smile, when he isn't looking at her.

"Have you a match?" asked the absent-minded flapper when the doctor stuck a clinical thermometer in her mouth.

Dora had suddenly encountered her old friend Della on returning from a short holiday.

After discussing this latter topic she seized her friend's arm.

"Della, is it true—I heard you had given up Reggie."

"Yes," replied the other, "quite true. I have. He's so dreadfully mean you know."

"Mean?"

"Yes. The other day I told him how much I adored flowers, and he went out and brought me back a packet of seeds and told me to grow some for myself."

**FARMER DIES FROM INJURIES**

Straford, Sept. 6.—Robert Baird aged 64, of Wilmet township, near New Hamburg, died in the General Hospital this morning as the result of injuries received on August 28, when he fell from a hay now at his farm home, landing on his head on the ground, 20 feet below. He suffered a fractured spine.

**THE RED UNRAVELED ROSE**

Lovely in form, each perfect petal taking  
Its proper place within thy rubied cup.  
With dew upon thy golden stamens  
Nectar on which Olympian gods might sup.

Drenched in rich carmine! To my nostrils stealing  
Perfume—intoxicating—Nature's  
Overcoming every sense and every feeling!  
Beauteous adornment of the Loved One's bower.

Red of the heart, whose passion love discloses,  
Gold of intrinsic worth, by all acclaimed;  
Green leaves of wisdom—O thou Queen of Roses,  
Richly to thee belongs undying fame!

Well may thy praise be twined with ancient glory  
In painting, sculpture, poetry and prose.  
For all our past and all our future story  
Glow with thy richness; peerless royal rose!

ETHEL SEYMOUR,  
in Victoria Daily Colonist.

Mrs. Sandford has returned home from St. Catharines where she has been visiting friends.

**THAT BODY OF YOURS**

By James W. Bar on, M.D.

**DECIDING ABOUT TONSILS**

The summer holidays are over and you may be starting your youngster off to school for the first time.

In most schools now there is an examination of the children by a doctor or nurse.

It is quite possible that you will get a note from the school informing you that your youngster's tonsils are not in a healthy condition and advising that you see your family doctor or a throat specialist about it.

Now large smooth round tonsils unless they are obstructing the breathing, are not usually removed.

It is the ragged unhealthy looking type that is the cause of trouble, and should be removed.

Your first thought should not be to get annoyed at the school authorities for trying to tell you what to do with your youngster, but to remember that these authorities are trying to protect your child from future illness, and the other children in the school from developing sore throats or tonsillitis from contact with your child.

Nor should you be alarmed and rush to a throat specialist and request that he remove the child's tonsils forthwith.

You should consult your family doctor first, and be guided by him as to what should be done.

However, if the school authorities and your family doctor both advise the removal of the tonsils you would not be doing right by the child if you fail to have them removed.

The tonsils are useful organs. They filter outpoisons and kill off offending organisms and so a child is safer with them than without them if they are healthy.

If they are not healthy what may happen?

Frequent sore throats, abscesses from cool, liability to various infections, Dr. A. D. Kaiser, Rochester, N. Y., states that 425 children who had acute rheumatism.

First attacks occurred twice as frequently in children whose tonsils were present as in those whose tonsils had been removed.

Now rheumatism is the cause of the majority of cases of heart disease and that is just the chance you are taking if you do not have diseased tonsils removed.

I know that it is often a hard matter to decide what to do, but I'm trying to place these facts before you in an effort to help you with your decision.

Very Rev. John Julius Hannah, who has been dean of Chichester, Eng., since 1902, has resigned. He had a distinguished career, having held several important ecclesiastical positions.

**TAKES FIRST FLIGHT AT ONE YEAR OLD**

Winnipeg, Man. (By C.P.)—Hugh, year-old son of Michael de Bileque, instructor of the Winnipeg Flying Club, has a rival for the title of Canada's youngest aviator. Hugh celebrated his first birthday by taking a flight from Sevenoaks field with his father and mother.

Nela Brown, baby daughter of Roy Brown, pilot of Western Canada, when it is to be known that she flew from the Pas to Cranberry, Poraage before she was six weeks old, and had made three flights before her first birthday. She also has made the journey to England and back—but not by air.

## THE BULLETIN BOARD

Mainly About People You Know

### STRANGE INSECT FOUND

A strange species of insect was captured by a local school boy yesterday in the form of what is known as the "praying mantis". The creature is not unlike a grasshopper but is much larger. The praying mantis is peculiar to this section of the country and was first imported into New York State from Europe from a foreign land to combat various types of parasites. A similar insect was found in Taurion Township a short time ago.

### VALUABLE HORSES LOST

Harry Hayden, of Wellington, lost two valuable horses recently, the deaths being attributed to meningitis. Dr. Smith of Wellington, who examined the animals, informed the owner that meningitis was the cause of death.

### KILLED IN CRASH

Wellington was received by relatives at Wellington on Sunday night, that Mrs. Dr. B. J. Titus of Oklahoma, was killed in an auto accident. Mrs. Titus was well-known in Wellington and Prince Edward County.

### BIRTH NOTICE

McCAW—Born on September 2nd, 1929, to Mr. and Mrs. George McCaw, 27 Wallbridge Street, a son, (Teddy Norman).

### DEATH NOTICE

McCAW—Died on September 5th, Teddy Norman, infant son of Mr. and Mrs. George McCaw, aged 3 days old. He was sick from birth.

### PERSONALS

VISITORS WHO COME AND GO.

Mr. and Mrs. Thomas Hopkins, 178 Station Street, have returned home after visiting friends in Rochester and Buffalo.

Mrs. C. R. Crookes and her sister, Mrs. Mary Stewart, of Toronto, are leaving on steamer Doric for Belfast, Ireland.

Mr. and Mrs. E. H. McFarlane and Mr. and Mrs. Burke of Rochester, N.Y., who have been visiting here, have returned home.

Mr. and Mrs. William McNight, of Flinton, and Mr. and Mrs. Frank Gould, of Sulphide, were visitors in the city today.

Mr. Max Denmark, wife and daughter, of Cleveland, Ohio, are visiting Mrs. M. Denmark and Jack at 11 Cedar Street. Max is trumpet with Ed. Janssens Hotel Cleveland Orchestra in Cleveland, Ohio, and will be a guest musician with the Harmony Kings Orchestra at Wong's Cafe next dining room tonight.

Mrs. Ansen Woodcock, of Bancroft, was a visitor at the home of his brother, Mr. Robert Grear, of this city, week.

Miss Rhea Galina, of Trenton, is taking a business course at the O. B. C. CREW.

Mr. and Mrs. Morley Anderson of Detroit are guests of Mr. and Mrs. D. L. Ackerman, Chatham Street, and renewing old acquaintances in Prince Edward.

### DEATHS & FUNERALS

MRS. CHARLOTTE JACKSON

Mrs. Charlotte Jackson, widow of the late Joseph Jackson, of Beattie, Sask., passed away on Wednesday morning, September 4th, 1929, in Belleville General Hospital, following an acute illness of short duration. She was well and favorably known in this vicinity, being a daughter of the late Adam and Catherine Hall of Latta, Ontario, and the past twenty-five years the deceased has made her home in Saskatchewan. Six months ago Mrs. Jackson came east to visit the home of her childhood after an absence of fourteen years. She was a member of the Presbyterian Church, now the United Church. She leaves to mourn her death an only child, Mrs. Robert Benedict, of Saskatchewan, whose relatives and friends regret that she was unable to be present during the illness and death of her mother, one sister, Mrs. James McCrea, Latta, five brothers, George, of Tweed, Walter of Latta, Alex. of Vernon, B. C., James W. and Charles M. of Belleville. The body was taken to the home of her brother, Mr. Walter Hall. Service was held in the United Church, Thurston, on Friday afternoon at 2:30, conducted by Rev. E. Farnsworth, a life long friend of the departed. The pall bearers, nephews of the deceased, were: Clarence Hall, Adam Hall, Almond Hall, Roy Hall, Murray Hall and Harry McCrea, of Saskatchewan. The numerous floral tributes which bore testimony to the esteem in which she was held were as follows:

Pillow—Robert and Rolena Benedict, Sask.

Brown Wheel—Sister and Brothers. Wreaths—Mr. and Mrs. Norman J. Anderson, Sask.; Avonhill United Farmers Club, Sask.

Sheafs—Mrs. Ella Hall and Mr. and Mrs. Clarence Hall, Latta; Mr. and Mrs. Harry McCrea; Mr. and Mrs. Adam Hall and Mr. Margaret Hodgson, Belleville; Mr. and Mrs. Almond Hall and Olive; Mr. and Mrs. Wilbur Elliott and boys; Mr. and Mrs. Gerald Swan, Coburnville; Rev. and Mrs. W. R. Tanton, Coburn; Mr. and Mrs. Harry Lott and Hazel and Clarence Hall, Belleville; Mr. and Mrs. W. J. Hall, Belleville; Mr. and Mrs. G. W. Henderson, Foxboro; Mrs. Alice James, N. Dakota, U.S.A.; Plainfield Women's Institute; Avonhill Welfare Club, Sask.

Sprays—Mrs. Jane Rose, Belleville; Mrs. John Sherman, Latta.

**SOFT BALL TONIGHT**

The Trenton Capitol girls' softball team will play an exhibition game here tonight on the American lawn at five-thirty with the Glaco girls. The Capitol team has played in Belleville before and is decidedly popular here with the fans as it includes on its lineup a number of heavy hitters and smart fielders.

**VOTE FOR PERU**

Geneva, Sept. 7.—The Latin American delegates to the League of Nations assembly today voted in caucus unanimously to support Peru for a seat on council vacated with the expiration of Chile's term.

A frightened nine year old Brooklyn boy, deserted by his parents, who had been in custody by the Child Welfare Society yesterday at New York on a charge of homicide for the burning to death of his playmate, Rita Garcone, age six.

Premier Howard Ferguson Addressed Big Dinner At Sault

(By Sam Curry)

Editors on the northern tour had the unique experience of enjoying a Finnish bath while guests at Howard Ferguson's camp on the Michigami River. A Finnish bath has the effect of producing a sensation not unlike that experienced in a Turkish bath. The Finns take a keen delight in their daily wash before retiring. It is strangely invigorating after a brisk rub, and some of the party who have been more than fifty summers, boasted that real bloom of youth after emerging from the shack.

In a word, it is a log cabin, housing a big stone furnace in which a constant fire is burning. A pot of water graces the top of the furnace and when sufficient heat is obtained, the water is thrown out by the steam which generates steam. The victims lie in the berths while the small room clouds with vapor. It is exceedingly hot and heads of perspiration break forth. The Finns in piratical break the novice with cold change sprinkles the novice with cold water and when the operation is completed, he drenches a pal of cold water over the forms in the "bunks". When a rough towel is applied to the skin one feels as though emerging from the "Pond of Youth".

Twelve members of the party had made application for the canoe trip and eighteen went along. Hans made preparations for the dozen and now what to do with the rest of them was what to do with the problem. Those retiring the press to their dismay, that every berth was occupied, there were no quarters and we were facing a night in the Algoma bush, not a very inviting situation to the average newspaperman.

Led by the effervescent Col. C. R. McCullough, of the Hamilton Spectator, the left-overs treated the slumberers at the camp to a number of vocal selections amid a volley of verbal epithets hurled from the interior of the tent, occupied by our more fortunate fellows. The situation was now becoming quite amusing to us and here is how Col. McCullough, one of the finest men I ever had the privilege of meeting, explains it in his log of the trip:

"This resourceful 'editorial' chose a wagon box, filled it with hay, employed an ancient tarpaulin for sheet and coverlet, set their baggage bags for pillows and, at the last moment, covered all with an odorous horse blanket. The interior should have kept far aloof the unseen but surely present sand-fly. He burns as you rub as you swear. We left our perfectly good wagon-home for him and his trek led to the shore and lay in the sand beside the burnt-out, campfire. Not a word was uttered by the 'editorial' of the lowlands portended rheumatism and kindred ills. Back to the Finnish bath-house for us. Reaching there, we discovered Major Bridges, the best scout ever, of the Algoma Steel Corporation, in possession of the innermost and hottest portion of the built-up. We were willing to leave him his thermal couch—the bench in the lean-to for us. There we slept, not sweetly, but soundly for a couple of hours on the hardest plank that had ever been invented, then gathered a little group of the penmen, proceeded to the afore said beach, built a rousing fire, smoked our pipes and formed the 'First Communist Society of Pine Lake' and in expressive terms shut the gates of membership against the patriots who had found 'room in the inn'."

His explanation of the matter was the U.S.A. and C.P.R. outdoor writer of distinction, whose language to this writer when he attempted to extract from the vicinity of the foregoing a blanket or something else with which to defend him against the coolness of the night, was even more picturesque.

He has his famous articles in the Saturday Evening Post, Outing or aught else."

**Parties Joined at Hawk Junction**

One of the ladies at the camp whose birthday it was, was awake to a painful melody inflicted by some of the self-styled soloists. Hans and his good wife then served an appetizing breakfast and we were off on the next leg of the journey. Back to the waiting boats for a brief fish and swim at Sault. Lake Superior. At Stony Lake dam we had dinner and Whitaker, of the Explorer at Brantford, the devoted follower of Isaac Walton, provided the crowd with a fish dinner taken from the waters of Whitefish Lake. Through a mass of rivers and lakes we paddled until we reached Mile 155 on the Algoma Central where another welcome awaited us. It was "Mr. Han's" headquarters. Tables were laid beneath the birch trees and what a feast! What a feast! It was for a King. Finnish and English dishes had been prepared by an expert chef and it appeared as though the full contents of the proverbial horn of plenty had been placed at our disposal.

A grand re-union took place at Hawk Junction, where we met the remainder of the party who had been entertained at Nichipicola. The little hotel was the scene of such a dance as never before. Next morning, as we

passed the Finnish Camp by rail, our hosts had arranged a beautiful floral design in the yard. "Come Again!" it was really touching as the special pulled away toward Sault Ste Marie with farewells being said.

The Agawa Canyon

Here was where "Jim" Curran had his inn. "Wait until you have a peep at Agawa Canyon and the Montreal River Valley, he observed. A number of Algoma Central and Steel Company officials joined the party at Hawk Junction and acted as guides to the Sault. Every conceivable point of vantage on the train was utilized by the eager crowd. On the tender in the observation car and even in the cab of the engine they were perched.

Presently we entered the Agawa Canyon. It was all that Mr. Curran boasted and more! World-wide travelers were inspired with awe and wonder as they gazed on the rugged rocky hills. Stops were made at the picturesque spots where kodaks clicked with rapidity. The Montreal River was another of the beauty spots with its rolling, tumbling falls and rapids.

The Agawa Canyon is really a delightful holiday resort and publicity is the one means of educating tourists to the advantages for sight-seeing. Fishing and boating offered here. Homeward-bound! We neared the Sault, that beautiful City of the Locks, where our hosts met us and we were billeted at their homes.

The Country Club was the scene of the final luncheon, when distinguished guests, including our own "Howie" Ferguson addressed the writers and the assembled guests. It was a fitting conclusion to a wonderful trip and its success was a tribute to the enterprise of the people of Sault Ste. Marie. Some of the party returned immediately by Canadian Pacific steamer to Port McNicholl, while others remained with friends at the Sault.

**SIGN OPTIONAL CLAUSE**

Geneva, Sept. 7.—Following the example of the Canadian Indian delegation to the assembly of the League of Nations today announced its intention to sign the optional clause in the constitution of the permanent court of International Justice.

## Just For The Feminine Reader

### ENCOURAGEMENT IS STIMULUS TO CHILD

The encouragement you give your child and the tone of voice which you speak to him are very important. Some child experts made a test recently to detect fatigue. They found that they could tell how tired a child was by the way he traced a line. When he began to weary, the tracing would be less accurate. They discovered that if they praised him, the quality of his tracing improved noticeably. If they scolded him or discouraged him, it dropped decidedly. This was not accidental.

Every time you praise a child, you give him something. His shoulders will square, his pride will rise, his energy will increase. Every time you scold him, you take something away from him. His muscular and nervous energy droops accordingly and his inferiority complex asserts itself. If you expect nice things of people, you get them. Give a dog a bad name and hang him. Speak encouragingly to a child and you impart cheer and energy. Speak discouragingly and you make him flabby. Wonder if it works the same way with a husband?

## Miss Hard-Boiled" BY JANE DIXON

Heaven or hell?  
Which was it to be for Eric Stafford?

### CHAPTER 33

Early in the week following the Louis XVI tele was given on the tablets of Fashion's history as more elaborate than the most lavish that distilling the reign of perished French king, at Versailles, Raquel and Greta again breakfasting in the garden.

"A message for Mademoiselle," said the man in the velvet coat, placing an envelope on the table beside Raquel. "It's from Eric," she said, opening it more eagerly than was her wont. "Great!" said Greta. "Is he bringing you a bucket of moss from the castle?"

Raquel went on studying the note. "It's rather—unlike him," she said. "Don't tell me he's ducked."

"Don't be silly, Greta. He'll be here tomorrow."

"Well, treat him rough. Tell him about the bathtub."

Raquel pressed orange juice from a crystal glass.

"He is—worth while," she said.

MOST people rely on Aspirin to make short work of their headaches, but did you know it's just as effective in the worst pains from neuritis or neuritis? Rheumatic pains, too. Don't suffer from Aspirin can bring such complete comfort without delay, and without harm; it does not affect the heart. In every package of Aspirin you will find proven directions with which everyone should be familiar, for they can spare much needless suffering.

**ASPIRIN**  
Aspirin is a Trademark Registered in Canada

right directions.  
"Do not be to Lady Stafford, after all," thought Raquel. The lily lifted a haughty smile.

"What must you say is disagreeable," she said, coldly. "I'd advise your planning into it and having it done with."

Stafford braced himself for the task. "I saw the paper," he said. "He was very stiff. He'd heard about us."

"Yes?" A show of indifference.

"Yes. Someone took him the news, I had hoped to get to him first. He—he disapproves."

The lily tossed slightly on its stem. "You see, he had other plans for me," Stafford hurried on. "There's a young woman in England—our families have been very close for generations—our parents rather imagined we'd make a go of it. Fine girl, Cynthia. One of the best. Great pal. Great sport. I thought myself we might try it together—until I met you. Can't go it. Don't love her. You must know that, how it is with me."

Raquel watched a bee emerge from the heart of a rose. So laden with honey it found difficulty in carrying the load.

(To Be Continued.)

## SOME HELPFUL HINTS FOR BUSY HOUSEWIVES

### EDGING THE RUG

When the edges of rugs wear out do not wait until they are beyond repair and the edge must perhaps be cut off. Some rugs look well when bound and often a fringe will conceal the damage. These can be put on more satisfactorily with the sewing machine than by hand.

If you prefer a salvage somewhat like that on Oriental rugs, lay two or three quite heavy cords along the edge and darn these to the rug with over- and under stitches set very closely so the cords are entirely covered and a flat edge is formed.

If the edge is badly worn or pulled out it should first be reinforced by whipping braid to the under side or, better, by putting over the edge will make it sufficiently firm.

Use a strong needle with a large eye to sew the work and a neutral color or black wool will be the best material.

When a milk pudding gets burnt just remove the scorched layer, add some milk and a little butter and re-bake the mixture in a slow oven.

Save those paper strips that come on bolts of ribbon. When stitching the chiffon or georgette gown, or any thin fabric, place this paper over the back of the goods, directly under the goods, to prevent puckering. The paper can readily be pulled away.

PROSPECTING ACTIVITY IN WEST

Some idea of the amount of prospecting being done in Manitoba and northern Saskatchewan may be obtained from the number of claims staked and recorded during the past year. In 1928 there were 7,335 mineral claims recorded in the two provinces, and 2,119 in the Cold Lake district, and 2,119 in the Winnipeg district. There are at present over 20,000 mineral claims recorded in Manitoba and northern Saskatchewan.

Let me today do something that shall take  
A little sadness from the world's  
vast store.

Of joy's too scanty sum a little more  
Let me tonight look back across the  
span  
Twist down and dark, and to my  
conscience say—  
Because of some good act to best or  
mar—  
"The world is better that I lived  
today."

ELLA WHEELER WILCOX

## THE WAY TO A MAN'S HEART

### Crown Roast of Lamb With Mint Jelly

Mint enhances the deliciousness of lamb. After roasting the lamb in the usual way surround it with small individual servings of mint jelly. Garnish the dish at the top of the roast with watercress and they add greatly to its attractiveness.

### Plain Jelly Omelet

Beat together yolks and whites of three eggs until slightly frothy, season with salt and pepper, and add three tablespoons hot water. Mix one tablespoon butter in hot frying pan, turn in egg mixture and stir in centre with a fork. As it cooks, lift edges with spatula and tilt pan so mixture comes in contact with hot pan. When it has set, cross centre and spread out side with jam or jelly. Fold and serve on hot platter.

### Noodle Charlotte

(with jelly)

One and a half cups noodles (batter, thin wide) two tablespoons butter, two eggs, two tablespoons water.

Cook noodles in boiling salted water ten minutes. Drain, and add butter. Thoroughly beat eggs and water and add to noodles. Place in buttered baking dish and bake in hot oven 400 degrees, 20 minutes. Top is quite brown. Serve with any prepared jelly. This makes a splendid luncheon dish. Served with chicken or lamb, it takes the place of potatoes.

organization of known varieties, but have, in many instances, arisen from seed of unknown parentage. For instance, the famous McIntosh Red, by its devotees, proclaimed the first apple in the world, has descended from a tree found growing on a farm belonging to a John McIntosh, situated near Toronto, Ont., in the year 1765. It is thought that the tree grew from a seed of the Fanfare or Snow Apple, but its actual parentage is unknown.

## APPLE INDUSTRY SHOWS GROWTH

### Prospects Indicate A Yield Of 3,599,955 Barrels This Year

Toronto, Ont.—(By The Canadian Press).—The Canadian commercial apple crop prospect indicates a yield of 3,599,955 barrels as compared with 3,235,970 barrels in 1928, or 11 per cent of last year and 126 per cent of the five year average of 2,168,310 barrels.

Behind this apparently dry statement, issued by the Dominion department of agriculture, Earl Branch, in collaboration with the Dominion Bureau of Statistics, lies an interesting story of the growth of the apple industry from the Seventeenth Century to the present, from a year of perhaps half a barrel yearly to 3,599,955 barrels this year and from an industry that was hardly regarded as a very material factor in Canada's exportation figures.

The apple, consumed with equal gusto in city and farm, is not indigenous to the North American continent. Its native home is in Europe, where in the wild and cultivate state it has existed since mankind commenced to till the soil.

Early in the seventeenth century the settlers of Quebec and Nova Scotia, in addition to introducing seeds of vegetables and cereals essential to the pioneer, included apple seeds, a few trees and scions of favorite European varieties, and thus laid the foundation of the present industry in the small home stead clearings of an undeveloped and heavily wooded country. Later years saw the introduction of apple trees into the Canada west of these early days, now the province of Ontario.

With the general development of the country, orchards increased but lack of transportation, bad roads and long hauls prevented any local distribution, and it was not until the introduction of canals, railways and steamships that the development of the apple took place.

The apple, from a very small beginning, which in the pre-Confederation days was produced entirely for local distribution, has today with the aid of modern domestic use and as a medium of trade, has today with the aid of storage facilities, transportation and refrigeration, developed into a crop of economic importance distributed to all parts of Canada, and during last season, Canadian apples were exported to 46 other countries.

The cultivated varieties of the present day are not the result of cross pollination of known varieties, but have, in many instances, arisen from seed of unknown parentage. For instance, the famous McIntosh Red, by its devotees, proclaimed the first apple in the world, has descended from a tree found growing on a farm belonging to a John McIntosh, situated near Toronto, Ont., in the year 1765. It is thought that the tree grew from a seed of the Fanfare or Snow Apple, but its actual parentage is unknown.

Nature has been very lavish and in the production of varieties of apples suitable for consumption, and while the apple is of a perishable nature, yet this fact is counterbalanced by a multitude of varieties of varying keeping capacity. There are early summer varieties such as Red Astrachan and Yellow Transparent, fully ripe and short keeping; followed by Duchesne, Westfield, McIntosh and Jonathan, fruit of firmer texture and of increasing keeping qualities. Then for later consumption there is the Baldwin, Wagener, Northern Spy, Greening, Stark, Ben Davis and Winesap varieties which are the first in texture and of much longer keeping qualities.

The acreage devoted to commercial production at the present time is approximately two hundred thousand acres, distributed chiefly in Nova Scotia, Ontario and British Columbia, with smaller acreages in Quebec and New Brunswick. In Prince Edward Island the production of apples has not developed except for an occasional orchard while in the prairie provinces beginning only has been made with certain early varieties.

The importance of transportation in the marketing of the crop is evidenced by the fact that more than 20,000 rail-ways cars are needed annually to distribute the crop, while approximately \$3,000,000 is paid to the railway for transportation of the cars and another \$1,000,000 to steamship companies.

This promises to be a bumper year for the apple crop. All provinces report an unusually heavy yield although there has been considerable dropping due to the hot, dry weather. The fruit is reported to be sizing well.

Nova Scotia estimates that 1,587,820 barrels will be marketed within the next month; Quebec has 132,300 barrels nearly ready; Prince Edward Island will contribute approximately 22,000; Ontario, 749,135; while British Columbia for many years a leader in the industry, reports 3,235,109 boxes.

British Columbia's output of hand-picked apples is especially prepared, in the majority of cases, for export. They are usually shipped in fancy boxes instead of the barrels used in the past.

The Ontario Department of Agriculture is authority for the statement that thousands upon thousands of apple trees planted years ago, which have been too young to bear fruit, are now reaching maturity, and within a few years Ontario's output of the famous "Reds" will be greatly increased.

## APPOINTED JUDGE

Boston, Mass. (By Canadian Press).—John M. Gibbs, who was born in St. John N.B., has been appointed Judge of the Massachusetts Superior Court. He is a Harvard graduate and for a time served as Judge of the Waltham District Court.

## J. B. BOYCE

DISTRIBUTOR HUDSON—ESSEX

**Indigestion**  
Immediate  
Relief!

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude salts. Use The best help is Phillips' Milk of Magnesia. For the 30 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless—any drugstore.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions, so efficient.

## DO YOU KNOW?

Under Edward VI, a beggar was branded and became the slave for two years of anyone who gave information against him. Escape was punishable by death.

In Helloland the Sabbath begins on Saturday evening at six o'clock and extends until the same hour on the next day. In former times no vessel was allowed to leave port between these hours.

One short blast from a liner's whistle when she meets another liner means that she is taking the starboard course; two blasts that she is taking her course to port; three that she is going full speed astern.

**Early Christian Martyrs**  
Annually in Tunis a religious service is held in memory of the early Christian martyrs, Vibia Perpetua and Felicitas. A most picturesque feature in the celebration is a procession to the suburban passages attached to the ancient arena of Carthage, the very place where, in the third century, the two martyrs were delivered to the wild beasts.

**A Detested Plant**  
No bird, beast, or creeping thing will touch a castor-oil plant. It seems to be a rank poison to all the animal world. Even a goat will starve before biting off a leaf, and a horse will sniff at it and turn up his upper lip as though it had the most detestable odour on the face of the earth. Army worms and the locusts will pass it by, though they may eat every other green thing in sight, and there is no surer way to drive moles away from a lawn than to plant a few castor beans here and there. Even the tobacco worm will refuse to be fed on its leaves. There is hardly another instance in natural history of a plant being so universally detested by the animal world.

## Let Me Tell You

Before scalding milk bottles or bowls rinse them with cold water or wash out the abdomen. Heat merely hardens this.

**A Cake Hint**  
Sometimes a plain sponge or rice cake sinks in the middle. Cut the centre completely out and fill it with either tinned fruit or stewed fresh fruit. Top it with whipped cream and serve it as a sweet. The cut-out part can be used for trifle.

## Poems Old And New

### CRADLE SONG

Sleep, sleep, beauty bright,  
Dreaming in the joys of night;  
Sleep, sleep, in thy sleep  
Little sorrows sit and weep.

Sweet babe, in thy face  
Soft smiles I can trace,  
Secret joys and secret smiles,  
Little pretty infant wiles.

As thy softest limbs I feel  
Smiles as of the morning steal,  
Over thy cheek, and o'er thy breast  
Where thy little heart doth rest.

O the cunning wiles that creep  
In thy little heart asleep!  
Then the dreadful night shall break  
WILLIAM BLAKE

### MINIVER CHEEVEY

Miniver Cheevey, child of scorn,  
Grew lean while he assailed the seasons;  
He wept that he was ever born,  
And he had reasons.

Miniver sighed for what was not,  
And dreamed; and rested from his labours;  
He dreamed of Thebes and Camelot,  
And Priam's neighbours.

Never shall peas long before they  
are to be cooked, or they become hard,  
and when they are no longer quite  
young serve them in the form of a  
puree or steam them in a jar with a  
tight-fitting lid, adding a very little  
sugar, a sprig of mint, salt and a little  
sugar.

Mildew is very destructive to gar-  
ments or food. Try this remedy. Get  
some quicklime, and put a good trayful  
on the floor or shelf which seems  
the most damp. The lime will be found  
to absorb the moisture and also purify  
the air. When the lime has be-  
come damp and sticky it should be  
taken away, and in a day or two a  
fresh trayful put in the closet.

**To Clean a Mirror**  
When the mirror has been used  
for greasy food, such as bacon,  
the easiest way to clean it is to put a  
crust of bread, previously  
dried in the oven, through the mach-

Miniver loved the Medici,  
Albeit he had never seen one;  
He would have aimed incessantly  
Could he have been one.

Miniver scorned the gold he sought,  
But sore annoyed was he without  
it.  
Miniver thought, and thought, and  
thought,  
And thought about the days.

Miniver loved the life of old  
When swords were bright and steeds  
were prancing;  
The vision of a warrior bold  
Would set him dancing.

Miniver mourned the ripe renown  
That made so many a name so  
fragrant;  
He mourned Romance, now on the  
town,  
And Art, a vagrant.

Miniver cursed the commonplace  
And eyed a khaki suit with loathing;  
He missed the mediæval grace  
Of iron clothing.

Miniver Cheevey, born too late,  
Scratched his head and kept on  
thinking,  
Miniver coughed, and called it fate,  
And kept on drinking.

This effectively removes the  
grease.

## News of the Movies

### REGENT THEATRE

Whichever there's a good roaring  
fight Tom Santschi can usually be  
found in the thick of it, for there is  
no actor on the screen today who has  
fought his way through so many real-  
istic celluloid battles. Naturally Direc-  
tor Duke Worne assigned him to the  
"heavy" role in "Isle of Lost Men,"  
where as the brutal and unscrupulous  
king or the "Vulcan" he has plenty of  
opportunity to demonstrate the power  
behind a blow from his good right  
arm. It is one of the most sinister  
though interesting characterizations  
he has ever portrayed. This Rayart  
picture is holding the screen at the  
Regent Theatre, Monday, Tuesday and  
Wednesday.

There are

**Ham Slice Baked in Milk**  
Rub surface of meat with prepared  
mustard, sprinkle with brown sugar,  
add milk to almost cover, and bake  
one hour or until meat is tender.

**Ham Slice With Peanut Butter**  
Rub surface of meat with peanut  
butter. Stick half a dozen cloves  
around the edges of the meat, add  
milk to almost cover, and bake one  
hour or until tender.

**Spice Roll**  
3 Eggs, three quarters cup sugar,  
one quarter cup water, one cup cake  
flour, one teaspoon baking powder,  
one quarter teaspoon salt, one tea-  
spoon cinnamon, one quarter teaspoon  
soda, one quarter teaspoon allspice,  
two tablespoons melted shortening,  
cinnamon jelly.

Beat the yolks of the eggs until  
thick, add sugar gradually, beating  
constantly. Add cold water. Fold in  
the flour mixed and sifted with the  
baking powder, salt and spice. Add  
the melted shortening and fold in  
stiffly beaten egg whites. Turn into  
a shallow pan lined with waxed paper  
and bake in a moderately hot oven.  
Turn on to a damp cloth, cut into  
the crisp edges, spread with jelly and  
roll. Sprinkle with powdered sugar  
when cool.

**Cocoanut Bread**  
One third cup shortening, half cup  
sugar, half cup molasses, two eggs,  
two cups cake flour, quarter teaspoon  
salt, one teaspoon soda, one teaspoon  
baking powder, one teaspoon ginger,  
half cup boiling water, three quarter  
cup cocoanut.

Cream the shortening and sugar,  
add molasses and beaten eggs. Mix  
and sift remaining dry ingredients  
and add alternately with the hot

## IS THERE A BABY IN YOUR HOME?

Is there a baby or young children in  
your home? If there is you should not  
be without a box of Baby's Own Tablets.  
Coldhead ailments come quick-  
ly and means should always be at  
hand to promptly fight them. Baby's  
Own Tablets are the ideal home reme-  
dy. They regulate the bowels, ease  
the stomach, banish constipation  
and indigestion; break up colds and  
simple fevers—in fact they relieve all  
the minor ills of little ones. Concerning  
them Mrs. Maise Cabotte, Kamakia,  
Que., writes: "Baby's Own Tablets are  
the best remedy in the world for little  
ones. My baby suffered terribly from  
indigestion and vomiting, but the Tablets  
soon set her right and now she is  
in perfect health." The Tablets are  
sold by medicine dealers or by mail at  
25 cents a box from The Dr. Williams  
Medicine Co., Brockville, Ont.

## CARE OF THE HAIR

In certain of its constituents, the hair  
must suffer; the dull, dry, "staring"  
brittle kinds being found in those not  
"up to the mark." If the oil glands  
are not in a healthy condition, dis-  
ease may appear and thinness or bald-  
ness may ensue.

Any general disease that lowers the  
vitality of the body may be a cause,  
as such as anaemia, constipation, or  
digestive troubles. Local causes may be  
neglect of the scalp, wearing tight,  
badly ventilated hats, as these press  
the blood vessels so that the hair is  
deprived of some of its nourishment  
and various hair dressings may ac-  
count for it. It may appear at any  
time of life, and the longer it has  
been present the more difficult it is  
to cure.

The wet or oily form is very appar-  
ent; the hair becomes greasy that  
drops of oil may be seen on the shaft,  
and the hair always seems dirty on  
account of the dust it attracts. The  
glistening appearance of the bald  
head is due to this variety. Scurf  
hardly needs any description, but in  
some heads it is more profuse than

Before any cure can be expected  
the general health must be attended  
to. In commencing, massaging is an  
excellent means of ensuring a healthy  
scalp and never neglect using the  
brush freely. Many people are so  
afraid of contracting disease that they  
will not use the same towel as others,  
yet they have not the slightest hesi-  
tation in borrowing a hair brush, or  
having their hair dressed in a bar-  
ber's shop and brushed with a brush  
that has been used for many others.  
Most of the diseases of hair are due  
to microbes, and this fact should be  
borne in mind before using a hair  
brush that has been used for anybody  
else.

**Care of the Hair**  
Washing the hair frequently is bad  
for the hair, as is the daily applica-  
tion of water to make it set—a custom  
many men observe. Far better use an  
only prepared hair lotion, which  
prevents the hair from becoming brittle,  
though to those addicted to the  
habit of not wearing a hat dust might  
adhere, and make a washing necessary.

## GROWING BIGGER STOCKING BILLS

Worst of the Dress Problems  
Writes Reporter Who Investigates

London—What is Great Britain's  
silk stocking bill each year? Experts  
estimate that the women of England  
Scotland and Wales buy, wear and  
discard about a thousand million pairs  
of stockings, deal or artificial silk vary-  
ing from 25 cents to \$1 according to  
texture and workmanship.

Each year fashion demands that the  
stocking bill of the individual woman  
shall grow larger; each month she is  
called on to spend an increasing per-  
centage of her dress allowance on fin-  
er gauges hose that has less durabil-  
ity and prospect of a long life in its  
make.

The silk stocking craze has not yet  
reached its apex—women will wear  
finer and slinkier hose, stockings that  
look too much like cobwebs to have  
been made by human hands.

A fashionable stocking shop a  
reporter recently saw the greatest tri-  
umph that has been achieved in wom-  
an's history—the 100-gauge stocking  
so fine that it had been worked by  
one hundred needles.

"The woman who dresses really  
well" said the assistant, "wears more  
than fifty pairs a year. A certain  
number of them are of extremely fine  
gauge, and cost about \$4.50 the pair.  
Others are fifty and fifty-five gauge,  
which are about \$2.50 the pair."

"It is impossible for these fine  
stockings to be durable. Some women  
wear them only once or twice.

Women who have to be more care-  
ful students of economy confessed that  
they wear about two dozen pairs of  
stockings a year, or an average of one  
new pair a fortnight.

"I have three or four good pairs at  
about \$2.50 each, which I keep for  
special occasions" volunteered a City  
stenographer "and the rest of the do-  
zen I buy for about \$2 a pair and keep  
them for second best. My other do-  
zen are made of hard-wearing dur-  
able artificial silk, which I wear to work  
in all winds and weathers, and buy  
for about \$1.00 a pair."

All women were certain of the same  
thing—silk stockings will either  
they walk along the hard paths of life  
or ride in motor-cars all day—are  
growing longer and longer.

water. Add the cocoanut. Bake in a  
loaf pan in a moderate oven. Serve hot  
with orange whipped cream.

**Orange Whipped Cream**  
One teaspoon gelatine, one table-  
spoon cold water, one half cup orange  
juice, one cup of one orange, one  
cup heavy cream, one half cup pow-  
dered sugar.

Soften the gelatine in cold water  
and dissolve over hot water. Add to  
the orange juice and rind. Let this  
stand until it begins to harden then  
fold it into the sweetened whipped cream.

## FALL FAIR DATES

Madoc—October 1 and 2.  
Marmora—September 18 and 19.  
Shannonville—September 21.

Newwood—October 8 and 9.  
Campbellford—Sept. 26 and 27.

## SINICAL SADIE SEES

THE LATEST COLLEGE MOTTO  
Never tight—and never tender.

Never try to make a fool of a man;  
let nature take its course.  
Have you heard of the Scotsman  
who told his boy to catch his hair  
before it bounced to save the rubbers?

A man entered a shop owned by a  
Jew, and remarked that he was  
travelling for "Jewish" what a man!  
"What on earth are those," asked  
the shopkeeper in bewilderment.  
"Well, in other words, sir, I repre-  
sent a firm of cash-register manu-  
facturers."

**SIR ALAN COBBHAM**  
We have had our heroes  
Since the world began:  
Richard Coeur de Lion—  
Golly, what a man!  
Next, there is the Black Prince,  
Who becomes the rage;  
Later on Prince Rupert  
Dominates the stage.  
Then the Young Pretender  
Thrills us to the core;  
Wellington and Nelson,  
And a dozen more  
Some say we shall never  
Ere their like shall come.  
What price Alan Cobham  
In his aeroplane?  
BILL DAWKES

"There is nothing that gives more  
courage than to see the irony of things."

JOHN GALSWORTHY

**GEORGE BERNARD SHAW**  
answering the secretary of a Catho-  
lic society, who wished to know if  
it were all right for priests to pray for  
the dramatist's conversion, said:  
"Of the people I care for me, and  
I've never been any the worse for it.  
The only valid argument against the  
practice of prayer is that God knows  
His own business without prompting."

## TALKIES

Are the producers of film pictures  
unable to get good original stories  
or are they merely economizing by  
dishing up the old? We hear that  
Buster Keaton for instance, is re-  
making "The Saphrodite" as an all-  
talkie. This comedy was one of Buster  
first and was made nine years  
ago! Of course there must be many  
old favorite public would not  
come as talkies. We be glad to hear  
Sir John Martin-Harvey in "The  
Only Way," when it comes our way.  
For instance, everyone can think of  
a few old favorites which would be  
"Supers" as all-talkies.

On the other hand, let us hope  
the silent pictures will not die. When  
one listens to the usual voice dished  
up to us so far, I for one, register a  
vote for the "talkie."

## MAN, 52, CUTTING THIRD TEETH

Hamilton, Ont., Sept. 6.—Thomas  
Collins, 52, is cutting his third set of  
teeth. For some time he has been  
wearing false teeth and when his gums  
became sore, he went to a dentist. The  
dentist investigated and made the un-  
usual discovery.

## BEAVERS RESPONSIBLE FOR DEATH OF FISH

Port Arthur, Sept. 6.—Activities of  
the beaver are found to have been  
responsible for the deaths of thousands  
of fine brown trout in Gribbell's Creek,  
one of the best-known fishing streams  
of this vicinity.

The stream has been closed to the  
public for two seasons to permit fur-  
ther propagation of the fish, but last  
week it was noted a drying up, which  
was then thought to have been due to  
the unusual drought. Left fish by thou-  
sands to perish on the rocks of the  
stream bed. Investigation, however,  
proved that the drying up was caused  
by a beaver dam in an isolated spot.  
The dam has been torn out by the  
game warden's department.

## FROST NO MENACE TO THE WHEAT CROP

Edmonton, Alta., Sept. 6.—Frost has  
been reported at several points in the  
Peace River country. It will have no  
effect on the wheat, however, which is  
100 per cent cut and ready for thresh-  
ing. Oats have been slightly touched  
in certain areas, but loss will be negli-  
gible.

## WILL BURY COIN

Ottawa, Ont., Sept. 6.—A specimen  
of Canadian coinage will likely be bur-  
ied with the foundation stone of the  
new League of Nations Building which  
is to be laid during the session of the  
Assembly in Geneva this month. A  
copy of a circular communication ask-  
ing that all state members of the  
League bring with them to the assem-  
bly specimens of their national coinage  
for this purpose, has been received  
by the Dominion government.

## Banish that Backache!

Get prompt relief from that nagging  
backache by rubbing it vigorously  
with Absorbine, Jr. This famous  
liniment soothes the circulation and  
banishes the pain or ache.  
Each succeeding treatment of  
Absorbine, Jr., will reduce the frequency  
of the attacks and take that annoying  
stiffness out of your back.  
Though a powerful antiseptic liniment,  
Absorbine, Jr., is quite harmless,  
pleasant to use, stainless and greaseless.  
\$1.25—at your druggist.

**Relieve the pain  
Reduce the swelling  
Absorbine Jr.**  
THE ANTISEPTIC LINIMENT

**Dr. Williams' PINK PILLS**  
"A HOUSEHOLD NAME IN 40 COUNTRIES"

## Custom beauty, sleeve-valve power

IN THE COMPLETE WILLYS-KNIGHT LINE

... From the Low-Priced "70-B" to the Luxurious New Great Six

The beauty and style of the new Willys-Knight, the power, smoothness and economy of the patented double sleeve-valve engine, are now available in two lines of ultra-modern motor cars—the popular low-priced "70-B" and the distinctively beautiful Great Six.

The brilliant success of the new-style Willys-Knight "70-B" proves its value as the largest, smartest and most powerful Knight-engine car ever offered at such a low price.

The new Willys-Knight Great Six is distinguished by an individuality that reveals itself in a higher order of design, luxury and performance. Some of the car's many advanced mechanical features are: Bijur one-shot lubrication system, heavier seven-bearing crankshaft, extra strong and rigid frame, full internal four-wheel brakes, manual heat control and automatic radiator shutters.

"Finger Tip Control"

An outstanding feature of all Willys-Knights. One button in the centre of the steering wheel controls all functions of starting the motor, operating the lights, sounding the horn. Simple design, easy operation. No wires in steering post.

New Style

**TAKEN** - FROM PRIVATE VERANDAH, cigarette case—toricase shell inlaid with gold. Will give reward for any information leading to recovery of same. Phone 496. 84dt

**LOST** - The consumer, it was found, craved early fruit, and, of course, the way to get the very earliest fruit was to select the earliest variety and to grow it as far south as possible. The public is not satisfied with fruit in the regular season any longer, and want assurance about the time they used to be content with Ontario saw berries. So successful were the southerners in diagnosing public or rather consumer whims, that the harvest apple varieties as commercial propositions have been moving steadily northward and the early varieties have now come into their own for commercial use.

Alfred E. McCordie, aged 68, president of the Illinois Car and Equipment Company, died at Chicago Sunday. He was a native of Jura, Lambton County, Ontario.

**A Sure Relief For Women's Disorders**  
Orange Lily is a certain relief for all disorders of women. It is applied locally and is absorbed into the suffering tissue. The dead matter in the conical region is expelled giving immediate mental and physical relief, the blood vessels and nerves are toned and strengthened and the circulation is rendered normal. As this treatment is based on strictly scientific principles and acts to normal, it cannot help but be of great benefit in all forms of the actual location or the disease, it cannot help but be of great benefit in all forms of female trouble, including delayed and falling of the womb, etc. Price \$2.00 per box, which is sufficient for one month's treatment. A Trial Treatment, enough for 10 days, worth 75c, will be sent to any suffering woman who will send me her address.  
Incise ten cents and address Mrs. Lydia W. Ladd, Windsor, Ont., Dept. 2.

**PLAYWRIGHT IS DEAD**  
Provincetown, Mass., Sept. 6 - Jack Green, 60, playwright, actor and writer of short stories died here today after a long illness. He was a native of Melbourne, Australia, and resided in New York for many years. A widow survives.

## USED CARS

**Many Miles for Little Money**  
You buy miles when you buy an automobile - more miles for the money when you buy a good used car from a reliable automobile dealer. Here are a few examples of the big value that is obtainable at low cost here.

1928 - Pontiac Sedan. First-class in blue, black and gold. Mileage less than 6000. Upstairs in first class condition. Spare tire not yet used. Car formerly owned by Belleville resident. Very careful driver.  
1928 - Dodge Sedan. Finished in blue, black, green and gold. Motor and upholstery in first class condition. 10000 miles of service yet to be taken from present tires.  
24-47 - McLaughlin Sedan and new tires. Duesen, famous McLaughlin blue with gold stripe motor and upholstery in excellent fine shape. Good for fun or family use.  
1925 - Ford Coach. Motor and upholstery in very good condition. Also tires. Thousand of miles cheap transportation in this car.

**McLAUGHLIN Motor Car Co. Limited**

NEXT BELLE THEATRE

## USED CARS

**FOREST FIRE FIGHTING**  
Forest fires in Canada are, to an increasing extent, being fought by special designed apparatus. Light gasoline fire-pumps have been put into use which will deliver a forceful stream of water through half a mile of hose. Fighting the fires at night is also greatly expedited by the use of lamps similar to those used by miners, which can be attached to the worker's cap and so enable him to keep on working during the hours of darkness, at the very time when his work will have the greatest effect.

**VOTER'S LIST NOTICE**  
Clerks notice of First Posting of Voters Lists 1929 Municipality of Sidney, County of Hastings.  
Notice is hereby given that I have completed with section 9 of the Voter's Lists Act and that I have posted up at my office at Wallbridge on the 26th day of August, 1929, the list of all persons entitled to vote in the said Municipality for members of parliament or as the case may be at Municipal elections, and that such list remains there for inspection. And I hereby call upon all voters to take immediate proceedings to correct any errors or omissions in the list, and to sign the list, the last day for appeal being the 16th day of Sept., 1929.  
Dated this 28 day of August, 1929.  
W. H. NOBES,  
a30 s 7 Clerk of Sidney.

**Zutoo Tablets**  
Do Three Things  
-stop Headache in 20 minutes  
-break up a Cold over night  
-stop Monthly pains of women.  
There is one thing they will not do - they won't hurt you.

## FARMERS ATTENTION

Have you thought about WIND-STORM INSURANCE to cover your Buildings?  
We sell it, and you will be surprised that the rates are so low.  
Call at our office, or give us a ring on the phone and have the matter explained to you. It will be worth your while.

Auburn Automobile Company

Front View Cord Front Drive Four Door Brougham

Cord Front Drive Sedan

Unit Power Plant  
Cord Front Drive

Auburn's newest product the Cord Front-Drive, a car which "pulls" instead of "pushing." Engine, transmission and differential are in one unit, greatly increasing power efficiency. Unsprung weight of car reduced several hundred pounds, adding to riding ease and comfort. The sedan shown above stands only 61 inches high, but headroom equals that of rear-drive cars 10 inches higher. Cars now on display at Auburn dealers' showrooms.

**TO CAPTURE CROWS**  
Edmonton, Alta., Sept. 6. — With a view to capturing 500 crows to be used in an effort to determine the effect of light on the migratory habits of certain birds Professor William Rowan, of the Zoology Department of the University of Alberta, has gone to To-field and expects to occupy about a month in getting this number of birds. They will not injure the legs of the crows, will be set up on the tops of fence posts and other spots where crows are wont to roost. A sum of money is being offered for the crows and requestants will be made to the traps.

**CHINESE COUPLE FACING CHARGES**  
Shanghai, Sept. 6. — Deported from the United States after a revelation of an opium plot of huge proportions, Ying Kuo, former Chinese Vice Consul at San Francisco and his young wife were taken into custody by the Chinese authorities here today upon their arrival from San Francisco. They will await trial at Nanking.

## 1914 DODGE CAR IS STILL SERVING

Has Been Giving Dependable Service For 15 Years

How long is "long life" in a motor car? The characteristic dependability of Dodge Brothers cars has been given additional prestige by the discovery of a 1914 model whose mileage has been lost somewhere above the 300,000 mile mark. The motor number is 166 and for thirteen years this veteran car has been the proudest possession of Bill McCordie, a copper prospector who lives in a tar covered shack, isolated in the high mountains of northeastern Nevada.

McCordie's house and garden are surrounded by peaks nearly 10,000 ft. high. There is nothing like a boulevard in this country. Over rocky hills, across gulches and up difficult dugways, McCordie patrols his domain in his faithful car, which he declares still runs like a top. "Bill" bought it second hand in 1916 and since that time the car has taken him where ever he wished to go. Yet the repairs bills in this period have totaled only \$91. In 1921 he spent \$70 and this spring he invested \$21 more for the welfare of this old car and Bill's business.

Since the last repair, Bill makes some steep grades on high gear where much younger cars are forced into low gear to surmount the rugged roads that were once only prospectors' trails over the Nevada mountains. The top of his car has long since vanished but the rain and sun never hurt Bill as long as the engine is in good order. "Bill's" car is a little sheltered cove with steep bluffs surrounding it. A half acre garden spot not only supplies food for him but brings him several hundred dollars every summer when the fine vegetables are marketed in Contract, a nearby town.

All about this protected spot, stretch the high bare mountains that Bill believes rich in copper ore. One holding makes him a potential million-

aire and he doesn't prospect any more having plenty to do looking after his own claims and that of friends. With his car he covers the entire territory—roads or no roads.

Not even the gold rush days of the Klondike or Goldfield lured Bill away from his home where he has lived since 1896. Consequently he is the patriarch of all the prospectors in that region just as the Dodge car is the patriarch of cars in lands where rough roads and steep grades eliminate the weak ones.

Bill's fellow worker is a younger brother Hank. Both are bachelors and depend on the faithful Dodge car for access to the outside world and their own world—the secluded mountains about their home.

## GOOD CLEANING FOR LESS MONEY

With the Fall season at hand and cooler weather not so very far away, the thoughts of a great many people will turn naturally to the question of Fall Wear and if those garments of yours require cleaning, that overcoat or suit or anything else, don't forget that Spragues, cleaners and dyers are in a position to do the work for you properly and at a saving price.

Spragues now famous dollar cleaning has become immensely popular with everyone who likes to secure good cleaning at economical prices. They French Clean and press any gent's suit or overcoat, ladies' suit, gown, long coat or dress (accordion, knife and fine pleating only excepted) for just one dollar. Have them do your next cleaning job, and see just what kind of work Sprague's turn out. A phone call to 393 will do the trick.

Corbyville called at her parents, Mr. and Mrs. W. Wilson.

**COOK'S REGULATING COMPOUND**  
A safe, reliable regulating medicine for all cases of indigestion, flatulence, or constipation. It is a natural product of the human system, and is therefore perfectly safe. ## INDUSTRIAL GAME ENDS IN TIE 4-4

Alemite And Corbyville Play Till Darkness Calls Halt

Darkness called a stop to the last night's game between the Claco Club of Corbyville and the Alemite of Belleville, with the score tied 4 to 4. At that, the game which was late in starting, should have been called at the end of the fifth, instead of an innings later.

Excitement galore was packed into the six innings of baseball and a goodly crowd turned out to watch "Hoot" Gibson, last year's idol of Belleville fans, pitch. For the first few innings he was none too steady, two triples and an homer being nicked off his delivery, but in the last three innings he tightened down and showed the form which won the Ontario championship for Belleville last year. With proper handling "Hoot" is still one of the best pitchers in Ontario, and with a good team behind him he would be hard to beat.

Ralph they opposed Gibson on the mound, and he turned in a fair exhibition of baseball pitching, and got good support in the bargain. The Alemite started out well, scoring a run in both the first and second innings, but were blanked in the third and fourth, while the Claco boys got one in each. In the fifth, Corbyville came out with two runs, and looked like winners, as darkness began to settle over the landscape, but the Alemite kept plugging away and by taking advantage of all the breaks, they managed to tie it up with a run in the fifth, and one in the sixth. Alemite were all set to finish out the seventh inning and win the game, but umpire in chief Josh Maracle, decided that as he could not see the ball, it was too dark to play any more, and therefore he called the game.

game for some little time and the fans are assured a good fast exhibition. The Claco Girls, who are to play the Frontenacs for the Leybourne Trophy, believe in keeping in practice and hence are arranging a few exhibition games.

As the days are getting much shorter the game will have to commence at five-thirty and it is doubtful if even then the game will be over before it is dark. In two weeks' time if the Claco-Frontenac management wish to play on the Armouries Lawn, they will have to hustle up and get the games over with.

As both the girls belonging to the Claco and Frontenacs are through work at five o'clock there is no reason why these games should not be played next week at 5:30. This is early enough to get in nine innings and would give the fans the opportunity of seeing an outside game which is more popular than the inside playing.

In any case it does not seem quite fair to make the girls play inside where they are not accustomed to the floor, after playing outside all summer. Some of the girls have never played inside and would therefore find themselves handicapped to a certain extent.

The Kiwanis Square Girls, of Kingston, have added one more triumph to their long list of wins by defeating Brockville Sol-Nomads, Wednesday night. The score was 13-9. M. Powell pitched the first part of the game and was relieved by T. Gow, who held the opposition hitless in four innings.

The Brockville girls were handicapped by the absence of their first baseman, who is one of their best players. A Mates, who held down second base, was their star player, and is certainly one of the snappiest players in Eastern Ontario.

### The Girl and The Game By Anita

Tonight at five-thirty there will be a softball game on the Armouries Lawn between the Trenton Capitols and the Claco Girls. This is the first

The return game will be played in Kingston today. If the Kiwanis Girls succeed in making it two straight wins they will meet the Ottawa Girls in the final round next week.

On the other hand, the Brockville "Asses" may step in and take the second encounter which will mean a third game on neutral grounds. This they intend to do and how good their intentions are remains to be seen.

## CANADIAN DEPARTMENT STORES LIMITED

### Monday! Fall Opening of Furnishings For the Home!

The exodus from summer cottages is well under way, and so the C. D. S. is appropriately offering "furnishings for the home," on Monday. New fall curtains and draperies—recently arrived, invite your inspection and approval.

#### Sateen

allover designs—in rose, blue and gold. Suitable for curtains, cushions, etc. 36 inches wide.

Sold by all druggists, or mailed in plain box on receipt of price. New pamphlet mailed free. THE WOOD MEDICINE CO., TORONTO, ONT.

SMITH'S COSTLY MISTAKE

Kingston, Sept. 7.—A village smith at Lansdowne plunged a red hot iron into a bucket of water, as he thought it was gasoline, and Mr. MacDonald, the owner, found his shop soon in a blaze. The volunteer fire brigade subdued the flames.

# Sold behind the Wheel

Ask about the GMAC Deferred Payment Plan

UNTIL you have driven it, you can possess only a superficial knowledge of Chevrolet. Only behind the wheel, can you learn the whole amazing truth. There you will actually experience the advantages of a smooth, six-cylinder, valve-in-head engine, the superiority of design, and staunch construction which make Body by Fisher an emblem of distinction on some of the world's smartest and costliest cars. You will be astonished at the performance, luxury, and quality now available, for the first time, in the price range of a four. And you will realize then, as never before, why over a million Chevrolet Six owners have been "sold behind the wheel" . . . why they would never again be satisfied with anything less than Chevrolet gives them . . . and why Chevrolet is literally one of the most sensational values ever offered the motor car buyer. Come in and take your trial ride today. Get behind the wheel . . . and sell yourself the car you want to own.

## What does 1/3 of your coal bill amount to?

IF three tons of coal cost \$45.00 and one is wasted in heating your house, it makes the other two cost \$22.50 per ton. Coal at \$22.50 certainly makes a man scratch his head. Yet ninety per cent of the home owners of Canada are paying this price. They are literally losing five tons of coal every winter.

That's why modern Canadian homes are being built with TEN/TEST Insulating Building Board. By insulating your home with TEN/TEST you not only prevent the heat es-

caping, but you also shut out cold, dampness and draughts. TEN/TEST Insulation cuts your fuel bills at least one third, and keeps your home warm in winter, cool in summer and quiet all year round. You may use TEN/TEST as sheathing under brick, stucco or shingles, or as a base for plaster. TEN/TEST is the only solid building board, obtainable in practically any thickness up to 2". It is made to meet every building condition.

Write for FREE booklet "TEN/TEST and the Most Wonderful Adventure in the World."

## GERMANY FAVORS SUPPRESSION OF WAR Bancroft Man Given 6 Months on Charge of Arson -- Inquest is Held

### NO PURCHASER FOR BANK BLOCK

Standard Bank Property  
Ideally Situated On Prom-  
inent Corner

### FINISH ALTERATIONS

Rumor Says Toronto Mailing  
House Seeking Premises  
Here

At present there is no prospective  
buyer for the Canadian Bank of Com-  
merce building, Standard Bank branch,  
which is situated at the corner of  
Bridge and Front Streets. E. V. Ilsey,  
manager of the Campbell Street  
branch, stated to the Intelligencer this  
morning. Until alterations have been  
completed on the up-town office and  
the Standard building has been defi-  
nitely abandoned by the Bank of  
Commerce staff, no sale will be made.

Another bank will endeavour to lo-  
cate in this city as soon as the two  
branches have been amalgamated. The  
Canadian Bank of Commerce, however,  
will not sell their Standard building to  
any other banking concern, it is safe  
to assume. Some time ago officials of  
a Canadian bank were in the city,  
looking over prospective sites, but it  
could not be ascertained which insti-  
tution they were representing. There  
are at least two banks which have  
branches scattered throughout Ontario,  
the Bank of Toronto and the Bank of  
Nova Scotia, which have not located  
here. Then there is the new Barclay's  
an English company which intends to  
expand through western Canada. At  
least, and the Banque Canadienne Na-  
tionale. The last named, however, is  
usually only located in French-speaking  
sections.

On September 11th the Commerce  
staff will move to the Standard branch  
temporarily, as alterations to the  
Campbell Street branch will have been  
started by then. In the opinion of Mr.  
Ilsey, the alterations should not take  
any great length of time for comple-  
tion.

It has been rumored that a large  
Toronto mail order house is contem-  
plating the opening branch in Belleville,  
and it is stated that efforts have been  
made to purchase the building which  
is locally situated at the "four corners."

### MOTORIST HAD NARROW ESCAPE

V. Freeman, Cedar Street,  
Crashed, A Projecting  
Plank

Having stopped his truck just over  
the sidewalk after backing out of  
Boyer's garage last evening about eight  
o'clock, E. G. Duffus of Hamilton, was  
startled to hear a crash and feel a  
stiff jolt, as a car driven by V. Fre-  
eman, 92 Cedar Street, crashed into  
a heavy plank which projected over  
the end of the truck. Although the  
windshield of the Freeman car was  
smashed, little other damage was done  
and the costs were settled amicably  
between the two parties.

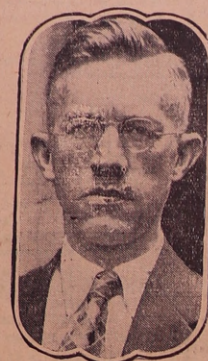

Freeman was driving south on Front  
Street and apparently failed to see  
the plank which hung out over the  
end of the truck. When struck by the  
car, the plank broke, otherwise it is  
thought likely that Freeman would  
have been badly injured. As it was,  
he received only a few minor scratches  
from flying glass.

### SPEEDING DRIVER CAUSES DEATHS

(Canadian Press)  
Benton Harbor, Mich., Sept. 9.—Six  
persons were killed and nearly a score  
injured yesterday when a motor bus,  
speeding to make up an hour lost time  
slidwheeled a heavy truck and trailer  
five miles east of here and was ripped  
open. The witness said the bus was  
going fifty miles an hour, and that  
the truck speeding in the opposite di-  
rection was travelling more than half  
that fast.

**THE WEATHER**  
Fresh to strong east to south east  
winds, occasional rain this afternoon  
tonight and Tuesday, probably local  
thunderstorms.

### PROBING COAL DEPOSITS IN NORTH COUNTRY

Lignite Field Is Discovered

LEFT, W. S. Dyer, representative of  
the department of mines and T. F.  
Sutherland, deputy minister of mines,  
who are to proceed to Blacksmith Ra-

ids to investigate reports of rich find  
in lignite coal beds there. Mr. Dyer  
is a former Belleville boy.

### FINAL DEATH TOLL IN FINNISH DISASTER REACHES 82 PERSONS

#### WALDRON COMMISSION PROBE AT LONDON

London, Ont., Sept. 9.—Waldron  
Commission probing the activities of  
the Amalgamated Builders Councils in  
London, opened the session here this  
morning. Four witnesses are to be  
examined today and 25 more are on  
the list.

### STEPS TAKEN TO PROTECT JEWS

Local President Of Sons Of  
Jacob Is Tendered  
Reply

Pleas of Canadian Jewish Associa-  
tions to Premier King urging him to  
do anything in his power to protect  
the Jews in Palestine has met with  
immediate response from Ottawa. In  
a letter addressed to L. Kroch, Presi-  
dent, Sons of Jacob, which is the  
name for the local congregation and its  
new synagogue, the secretary to the  
Premier states that every consid-  
eration will be shown to the request  
from this city. The letter follows:—  
L. Kroch, Esq.,  
Belleville.

Dear Sir:—  
Re Palestine Disorders  
I am directed by the Prime Min-  
ister to acknowledge your night letter  
gram of the 5th of September.  
I am to assure you that your rep-  
resentation will receive every consid-  
eration and that your telegram has been  
placed in the hands of the Under Sec-  
retary of State for External Affairs for  
such action as may be necessary.  
Yours faithfully,  
(Sig'd) Harry Baldwin  
(Secretary).

### BIGGER POPULATION IN THE QUEEN CITY

Toronto, Sept. 9.—The population of  
Toronto this year showed increase of  
20,742 as compared with 1928 figures,  
1929, 609,370. 1928, 588,628, being  
made public today by Assessment Commis-  
sioner Farley.

### First Public Hanging in Canada Witnessed at Local Court House

Although it was stated by a Toronto  
evening newspaper recently that the  
first woman to be hanged in Canada  
went to her death by a gallows for her  
crime of murder forty years ago in the West,  
this statement has been disproved  
and it is claimed that Belleville has  
the honour, or dishonor, of hanging  
the first woman.  
It was seventy-odd years ago that a  
brutal murder was committed in the  
county of Hastings by the Elwoods  
couple. These people were alleged to  
have murdered a hired hand employed  
by them and paid the penalty for their  
crime on the scaffold. There are few

### Thirty-Two Bodies Of School Children Have Been Found

(Canadian Press)  
Helsingfors, Finland, Sept. 9.—  
The police today set a tentative to-  
tal of 82 persons, mostly school child-  
ren, drowned Saturday when the Fin-  
nish steamer Kuru went down in a  
storm just outside the harbor at Tam-  
merfors. More than twenty were  
saved. It seemed the ship with about  
one hundred passengers and a crew  
of twelve aboard left the harbor for a  
short trip in the midst of the storm.  
Leaving the harbor it ran into a  
large wave.

The latest figures in the steamship  
disaster raises the dead to about one  
hundred. Thirty-two bodies have  
been recovered and about twenty  
were saved.

### FIVE KILLED IN CROSSING CRASH

Buffalo Interurban Car  
Struck Vehicle Killing  
Occupants

Buffalo, N.Y., Sept. 9.—A collision  
of an Interurban car of the Buffalo  
& Erie Tractor Co. and a truck on a  
crossing one mile east of Angola last  
night brought death to five persons  
and injuries to two others.

The victims aboard the truck were  
Jack Brown, 50, driver, his son aged  
twelve, Stanley Zienbe 35, and Adam  
Claber, 47, all of Evans, N.Y., and an  
unidentified man.  
H. B. Cook, motorman of interur-  
ban told the police he blew the whistle  
when approaching the crossing but  
that the driver of the truck paid no  
heed and apparently did not hear the  
warning.

Buffalo, N.Y.—The deaths of five  
persons in the trolley-truck crash near  
Angola yesterday brought the number  
of motoring fatalities in the Buffalo  
district over the week-end to twelve.  
Twenty-five others were injured, three  
perhaps fatally.

### DRUNKEN DRIVER FACING CHARGE

Henry Likey Held Respon-  
sible For Motor Accident  
At Bancroft

### GIVEN 6 MONTHS

Leonard Tilley Is Found  
Guilty Of Setting Fire  
To Barn

Henry Likey, of Bancroft, appeared  
this afternoon before Magistrate Cas-  
ement at Bancroft to answer a charge  
of being intoxicated in charge of a car.  
This charge arose out of an automobile  
accident on Saturday afternoon at the  
north end of the village of Bancroft  
when Likey driving his car, crashed  
into the rear of a horse-drawn vehicle  
containing four persons, all of whom  
were more or less injured and cut up.  
Miss H. Sinclair, school teacher at  
Monteagle, suffered only, while Mr.  
and Mrs. L. Mountney, of Bancroft,  
suffered from cuts and shock. Magis-  
trate Casement had not delivered judg-  
ment on the man at Press time today.  
Leonard Tilley, of Bancroft, pleaded  
guilty to a charge of arson, and was  
sentenced to serve six months determi-  
nate and two years less one day in-  
determinate in the Ontario Reforma-  
tory. He admitted setting fire to the  
barn of David Field, his father-in-law,  
who lives in McClure Township. Til-  
ley had been living apart from his  
wife, and family trouble is alleged to  
have been the reason for his rash act.  
He is said to be feeble-minded.

### PROBE DEATH OF BANCROFT MAN

Joseph Yateman, Chief Wit-  
ness, Appears In Court  
On Crutches

The inquest into the death of Thomas  
McAllister, young Bancroft man who  
was killed in a highway accident ten  
days ago, was resumed this afternoon  
at Bancroft, but no verdict had been  
reached up until three o'clock this  
afternoon. Joseph Yateman, the  
companion of McAllister at the time  
of his death, was the first witness  
called, he appearing in the court-  
room walking on crutches, due to an  
injury he received when he was  
struck by Ronald Maxwell's car.  
Maxwell is out on bail of \$15,000,  
and is represented by the firm of  
Porter, Payne & Arnott, Mr. Richard  
Arnott appearing on his behalf this  
afternoon. B. C. Donnan, County  
Crown Attorney represented the  
Crown, and T. J. Elliott, of Peterbor-  
ough, represented the dead youth's  
father. Provincial Constable Gray  
of Bancroft, is conducting the in-  
vestigation.

### STEAMER SINKING IN MID ATLANTIC

Halifax, N.S., Sept. 9.—The three  
master schooner Santa Quira was re-  
ported abandoned and sinking in lat-  
itude 43 north longitude 60 west, by  
the steamer Glenace according to a  
radio message from Cape Race re-  
ceived here today. The position given  
is east of Nova Scotia and far out in  
the Atlantic.

### INFANTILE PARALYSIS CASES INCREASING

Ottawa, Ont., Sept. 9.—The total  
number of infantile paralysis cases  
here neared the 75 mark when two  
new patients were admitted to the hos-  
pital on Sunday. A special mass was  
solemnized in all Roman Catholic  
churches yesterday for the general  
health of children of the Diocese.

Mr. Joe Imlah  
General Chairman of Kiwanis Carnival  
Committee who predicts a greater Car-  
nival success than ever next week.

### CREW, PASSENGERS OF "HUMDALL" SAFE

London, Sept. 9.—Exchange Tele-  
graph despatches today from Copen-  
hagen said forty passengers and a crew  
of thirty, the entire complement of the  
Swedish steamer "Humdall" reached  
shore safely in ships boats after the  
boat struck a rock Sunday night, north  
east of Stockholm.

### MISSING PLANE FOUND WITH ALL ON BOARD DEAD

"City Of San Francisco"  
Crashed Into Mountain  
Is Belief

Survivors Camp, on the Slopes of  
Mount Taylor, N. M., Sept. 9.—The  
first ground party to reach the burned  
wreckage of the transcontinental  
air transport monoplane City of San  
Francisco, returned here at 11:50 p.m.  
today with definite knowledge that  
the seven men and one woman aboard  
the air liner were killed when the ship  
struck the sides of this mountain last  
Tuesday and their bodies burned in  
an explosion which followed.

The bodies were not moved and will  
not be touched, pending the arrival of  
the coroner and an official staff of in-  
vestigators who, it was believed would  
arrive today.

But through an opening, which once  
had been a window, a wrist watch on  
the arm of one of the pilots was vis-  
ible. It was scorched, but it disclosed  
that the hands had stopped at 11:01  
o'clock. The hour indicated was be-  
lieved to have been the hour of the  
crash. The plane last was sighted  
shortly before going over Grants, New  
Mexico, a few miles from the base of  
this 10,000 foot peak. The time evi-  
dently carried by the pilot was that  
of his home office in Los Angeles.  
Pacific Coast Time which would place  
the time of the wreck at one minute  
after noon by mountain time which is  
used here.

### TRENTON MAN IS ARRESTED HERE

William Carter Forced  
Traffic Officer To Seek  
Protection

Driving south on Station street  
about ten o'clock Saturday night, on  
the left hand side of the road, Wil-  
liam Carter, of Trenton, forced Traf-  
fic Officer Rose to jump the curb  
with his motorcycle or be run down  
and incidentally landed himself in  
jail. The Traffic officer immediately  
knew Carter, and he was arrested  
down the road arrested him and took  
him to the Police Station where he  
was charged with being intoxicated  
in charge of a motor vehicle.

Dr. Cronk was called to ascertain  
the man's condition, and his evi-  
dence will be heard in Police Court  
in the near future. In the car at  
the time of Carter's arrest were  
twelve empty beer bottles.

### ARABS SELL POISON FRUIT TO HEBREWS

Jerusalem, Sept. 9.—Instances of  
an alleged sale of poisoned fruit to the  
Jews by the Arabs have been reported  
to the police here and one Arab mer-  
chant has been arrested in Jaffa on  
this charge.

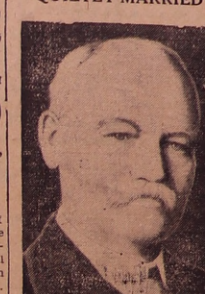

### PLANE CRASHED

Dochester, N.Y., Sept. 9.—Kenneth  
Lambert, 22, Hornell, Commercial pi-  
lot, was killed when his plane crashed  
on a farm near Spencerport, where  
he became lost in a fog.

No one could be blamed for taking a  
dip in the lake yesterday since it was  
a warm sunny day, but the activities  
of some persons unknown spoiled the  
day for S. E. Teasley, of Trenton, and  
others who were enjoying a swim at  
Waller's Bay yesterday. Not content  
with stealing all his money while he  
emulated some of the Marathon swim-  
mers, thieves also walked off with his  
trousers, adding insult to injury.  
Mr. Teasley left his clothes in his  
car while he had a dip, thirty dollars  
in cash being in the trousers pocket,  
and when he returned the clothes and

### GERMAN DELEGATE TO LEAGUE OF NATIONS COMMENDS BRITAIN AND FRANCE FOR THEIR ATTITUDES

#### QUIETLY MARRIED

Samuel J. Moore  
president of Bank of Nova Scotia,  
whose marriage to Miss Martha Lane  
of Barrie took place quietly September  
7th, at Norfolk, W. Va.

Says Suppressing Cause Of  
War Is One Answer To  
Problem

#### CREATE NEW TIES

Laboring People Will Be  
Benefitted By Briand's  
Proposal

Geneva, Sept. 9. (By George Ham-  
leton, Canadian Press Staff Corres-  
pondent)—Germany today took the  
stand for arbitration and disarmament  
before the assembly of the  
League of Nations. Dr. Gustav  
Stresemann, German Foreign Min-  
ister, described the British and  
French signatories of the optional  
clause in the statutes of the world  
court as "victorious progress of the  
idea of arbitration".

Turning to the reference by Fran-  
cer Briand of France to gaps in the  
work of the League, in which M.  
Briand had asked what the League  
would do, if some member went be-  
yond the covenant and declared  
war, the German delegate said, "You  
cannot defeat war, with war. You  
can defeat it only by suppressing the  
cause of war."

Dr. Stresemann made clear, how-  
ever, his support was contingent  
upon such organization being in no  
manner directed against the United  
States of America. He declared his  
belief that confederation should be  
economic in character and not Politi-  
cal.

Sign Optional Clause  
Geneva, Sept. 9.—Vice President Scia-  
la of Italy, announced to the League  
of Nations amid cheers that he had  
signed the optional clause of the  
world court statute this morning, in  
the name of his government.

Geneva, Sept. 9.—Hon. Arthur  
Henderson, the British foreign sec-  
retary, in a brief talk manifested con-  
fidence in M. Briand's project for  
the organization of European states, and  
said he thought the Laboring people  
would profit by some of the details which  
would have to be worked out.

Geneva, Sept. 9.—A conference  
of the leaders of European states meet-  
ing after luncheon under the chairman-  
ship of Premier Briand of France, this  
afternoon decided that it was wise to  
create ties of solidarity among them  
selves such as might be described as  
the European confederation or the  
"United States of Europe."

### OLD BELLEVILLE BOY A VISITOR

Mr. Edward A. Lloyd Has  
Made Good In  
Chicago

Mr. and Mrs. Edward W. Lloyd and  
Mr. and Mrs. E. A. Edkins, of Chic-  
ago, were visitors in the city over the  
week end enroute to Quebec City to  
attend Convention of the National  
Electric Light Executives of the U. S.  
A. Mr. Lloyd is a former Belleville  
boy. He is a grandson of the late Mr.  
Edward Smeaton, one of the founders  
of the Walker Foundry Co. Mr.  
Lloyd is a Vice-President of the Com-  
monwealth-Edison Co. of Chicago,  
one of the largest electric lights firms  
in the world. He is a president of  
the National Electric Light Associa-  
tion of the U.S.A. Mr. Edkins is Director  
of the Electric Shops of Chicago. Dur-  
ing their stay in Belleville they stop-  
ped at the home of Mrs. F. S. Dea-  
con, sister of Mrs. E. A. Edkins.

### SECONDD CLINE ON WALL STREET

New York, Sept. 9.—The stock market  
ran into a secondary reaction today  
after several unsuccessful attempts had  
been made to rally the general list by  
bringing forward the new leaders. In  
the absence of any adverse news de-  
velopments, the decline was regarded  
as further correction of the top heavy  
speculative position. Trading was  
fairly heavy volume, with the selling  
pressure particularly acute against  
several of the high grade railroad,  
steel and public utility shares.

## THE BULLETIN BOARD

Mainly About People You Know

**WILL RETURN TONIGHT**  
Major R. D. Panton and Mr. C. A. Payne will return this evening from Quebec City where they have been attending the 14th annual meeting of the Canadian Bar Association. Colonel Panton had the honor of being elected Registrar for the coming year.

**CALLED TO BARRIE**  
Ex-Mayor Morley P. Duff, Chief Clerk of the Belleville division of the Canadian National Railways has been called suddenly to Barrie, Ontario. Mrs. Duff's mother, Mrs. Thomas Duff, passed away in North Bay on Saturday and interment will be made at her former home in Barrie.

**BOARD TO MEET**  
For the first time in over two months the Board of Education will hold another meeting on the third Friday of this month. In previous years the Board met every month during the summer holidays, but considerable difficulty was experienced in raising a quorum this year and as there was not much business to be transacted it was decided not to hold another meeting, unless absolutely necessary, until the schools re-opened.

**POPULAR SPOT**  
Wong's new upstairs Dining Room is proving a popular spot and has been attracting large crowds. The Harmony King's 5 piece orchestra, playing for dancing each evening from 9:30 to 12:30 provides first class music for the dancers and an excellent floor makes dancing a pleasure at the new cabaret. No cover charge is made and dancing is free in the new dining room. At noon at five until seven regular meals are served upstairs in the comfortable and attractive new surroundings. The regular fifty cent rate being in effect daily except Sunday when the special thirty-five cent chicken dinner is served. If you haven't yet tried Wong's new dining room do so soon. You'll like the place and the courteous service offered.

### DEATH NOTICE

McCaFFREY—Died in Cannifton, Sept. 9th, 1929. Emily Jane Peck, beloved wife of Patrick McCaFFREY in her 74th year.  
Funeral will take place from the residence of her daughter, Mrs. Delmer Elgin, Cannifton, on Wed., Sept. 11th, service at one p.m. thence to Fuller Church. Interment Thomasburg Cemetery.

**TOO LATE TO CLASSIFY**  
**BOYS WANTED—FOUR BOYS**  
wanted for two hour's work on Wed. afternoon. Apply Editorial Dept. Intelligencer.

**TO LET—SIX ROOM HOUSE**, 217 Dufferin Ave., conveniences, possession Oct. 1st. Apply E. C. Sprague, phone 393. s9-1td

**LOST—ON SUNDAY BETWEEN** Belleville and Marmora, Seiberling spare tire 24 x 4.50 rim and Whippet cover. Reward Traffic Officer Vriak. s9-2td

**FOR SALE—2 NEW BUNGALOWS** on William St., south of Bridge St. All modern conveniences, hardwood floors. Phone 1213. s10-6td

**GO TO GANANOQUE**  
A team from the Belleville golf club will go to Gananoque on Wednesday afternoon of this week to play the east end club in an exhibition match. The local players will go along and keen competition should result.

### DEATHS & FUNERALS

**MRS. EMILY JANE McCaFFREY**  
Mrs. Emily Jane McCaFFREY, wife of Patrick McCaFFREY, of Cannifton, passed away this morning. The deceased was born in Fuller and was in her 74th year. She is survived by her husband, one son, William, and three daughters, Mrs. H. Howard, Detroit; Mrs. J. Haggerty, Chicago; and Mrs. D. Sligh, Cannifton; two sisters, Mrs. M. Gray, Toronto, and Mrs. John Barnum, Toronto, and two brothers, George Peck Thurlow and Isaac Peck, of Detroit.

**MRS. SARBA HERBERT**  
The funeral took place on Saturday afternoon of Mrs. Sarba Herbert, from the Belleville Funeral parlour where services were conducted at two-thirty o'clock by the Rev. J. S. McMullen. Interment took place in Symons cemetery. The bearers were all nephews of the deceased.

**NELSON DAVIS**  
Word has been received by Andrew Davis, Chatterton, from Tipton, Pennsylvania, of the death of his brother, Nelson Davis. Mr. Davis was a former resident of Sider's township, and the remains will be brought to this city for interment in the family plot, Belleville Cemetery. Funeral notice will appear later.

**MRS. THOMAS DUFF**  
Barrie, Sept. 9.—Mrs. Miriam (Dick) Duff, wife of the late Thomas Duff, died at the home of her son, Walter N. Duff, North Bay, on Saturday. Mrs. Duff was a native of Newton, Robinson, and both she and her husband belonged to pioneer South Simcoe families. The greater part of her life was spent in Barrie, where she took an active interest in Collier Street Church. Mrs. Duff, who was in her 88th year had been in ill health for several months. She is survived by three children: Morley P., chief clerk of the C. N. R. and ex-mayor of Belleville; Walter N., divisional chief clerk C.N.R., North Bay, and former mayor of Barrie; and Miss Margaret Duff, of this city. Mrs. L. Jernyn, Alexandra boulevard, is a sister of the deceased. The funeral will take place this afternoon at Barrie.

### POLICE COURT

H. Vivian, Front Street, appeared before Magistrate Russell this morning to answer a charge of keeping liquor for sale, and had his case enlarged for one week. Police on searching his quarters on Saturday, afternoon found several cases of ale and part of a bottle of liquor, and the "keeping for sale" charge followed. Mr. A. B. Collins defended Vivian.

Kathleen Henson, Woodstock, and Donald G. Wallace, Ingersoll, have been awarded scholarships of 2 years' free tuition at the University of Western Ontario, London.

## TODAY'S MARKET

**Foreign Exchange**  
New York, Sept. 9.—Foreign exchange, demand rates, Great Britain 84 1/2-16, Canada dollar 5-8 discount.

**Chicago Grain**  
Chicago, Sept. 9.—Influenced by Liverpool quotations lower than due and by rains in eastern Australia, the wheat market here showed an early downward trend today. Fairly general moisture throughout the west and south west parts of the corn belt had an influence also, promoting downward turns in prices. Starting half off to a quarter up, Chicago wheat later declined all around, but then rallied somewhat. Corn opened unchanged to 1/8 cents lower and subsequently underwent a general setback. Oats were firm.

**Chicago Grain**  
Chicago, Sept. 9.—Wheat Sept. 134 Dec. 141 7-8. Corn Sept. 103 3-8, Dec. 101 1-8. Oats Sept. 52 Dec. 55.

**Toronto Livestock**  
Receipts 10,625, trade slow. Heavy beef steers 9 to 10. Butcher steers good to choice 925 to 10. Butcher cows medium six to seven. Hogs select to choice 15 to 16.50. Hogs select nil. Good ewe lambs 11.

**Winnipeg Grain**  
Winnipeg, Sept. 9.—Wheat, Oct. 1-8 lower to unchanged at 153 to 154 1-8. Nov. 1-8 lower at 153 1-8. Dec. 1-2 lower to unchanged at 154 to 154 1-2. May 1-8 lower at 160 to 160 1-8. Oats, Oct. unchanged to 69 3-4 Dec. unchanged at 70. May unchanged to 1-4 higher at 73 to 73 1-4.

## PERSONALS

VISITORS WHO COME AND GO.

Miss Frances Wims has returned home from a two week's vacation in Quebec City.

Mr. and Mrs. J. Delaney, of Mayfield, N.Y., arrived in Belleville yesterday where they will visit Mr. and Mrs. G. P. Cole, Coleman St.

Miss Evelyn MacLaurin, of Toronto, is spending her vacation at the home of her father, Mr. P. C. MacLaurin, Dundas St.

Mr. Harry Wilder, of Detroit, is visiting in the city.

Mr. and Mrs. Geo. Darrah, Mr. and Mrs. Earl Darrah and Mrs. Teaney are on a motor trip to Toronto Niagara Falls and Buffalo.

Miss Madge McHugh, of 32 Olive St., is spending a short vacation in Toronto and Galt.

Mr. and Mrs. C. Cancelli and daughter Miss Mary, of Port Hope, spent the week end in this city visiting relatives.

Miss Loretta Curry of the Alernis staff, left the city yesterday for New York where she will spend a two week's vacation.

Miss Vera Brown was the guest of friends in Brockville over the week-end.

Mr. W. H. Luffman, Dundas Street, left recently for Goodwater, Sask., for a visit at the home of his son, Fred.

Mr. and Mrs. Joseph Oakes and son, Milne Oakes, of Sault Ste. Marie, who have been visiting here for the past week left today for Niagara Falls.

Mr. J. Weymark and Mrs. J. Seeny, returned from a short holiday trip to Toronto, last night.

Mrs. Jas. Casey (nee Grace Pitney), of Toronto, is spending a few days at the home of Miss Merle Luffman, Dundas Street.

The formal military openings take place tomorrow and following days at Mr. Harman's 42 1/2 Bridge Street, upstairs, opposite Post Office.

### JOHNSON—EDGEcombe

Miss Bernice Edgecombe, Belleville, daughter of Mr. John S. Edgecombe and the late Mrs. Edgecombe, of Hamilton, was on Saturday afternoon, Sept. 7th, joined in matrimony to Mr. Ormond Lorne Johnson, son of Mr. and Mrs. William Johnson, of Trenton. The marriage took place at Canterbury Hall with Rev. Mr. Haywood, of the Church of England, Trenton, officiating.

The bride was smartly gowned in a navy tailored suit with brown fox scarf and beige shoes and stockings. She carried an arm bouquet of red roses. The attendants were Mr. and Mrs. Lloyd, of Belleville.

Mr. and Mrs. Johnson will take up residence in Trenton shortly.

### RUTAN — GIBBS

Christ Church was this morning, at eleven o'clock, the scene of a charming autumn wedding, when Miss Phyllis E. Gibbs, daughter of Mr. and Mrs. John Gibbs, 315 Pinnacle Street, became the bride of Mr. Whitford A. Rutan, son of Mr. William Rutan and the late Mrs. Rutan, also of this city. Rev. C. E. Clarke, officiated.

The bride was given in marriage by her father and made a pretty picture in her frock of periwinkle blue georgette, large mohair hat to match and shoes and hose. In a corresponding shade she carried a bridal bouquet of American Beauty roses.

Miss Evelyn Cooke, daughter of Mr. and Mrs. C. W. Cooke, Bridge Street West, attended the bride. She was attired in a pretty frock of sand laces, with hat and shoes to match and carried tiger lilies and fern. Mr. John Gibbs, brother of the bride attended the groom.

Immediately after the ceremony, which was attended by immediate relatives and friends of the couple only, the party repaired to the home of the bride's parents where a wedding breakfast was served.

The groom's gift to the attendants were: to the bridesmaid, a gold compact and to the groomsmen, a gold cigarette lighter.

Mr. and Mrs. Rutan left this afternoon by motor for a honeymoon trip to Ottawa and points west. Upon their return they will reside in Belleville.

The bride, who was an employee of the American Optical Company, received many beautiful gifts from her fellow workers, among them being an English dinner set.

## COL. W. N. PONTON REGISTRAR OF BAR ASSOCIATION

Hon. R. B. Bennett, Conservative Leader Named President

Quebec, September 7.—Hon. R. B. Bennett, Leader of the Opposition in the House of Commons, was elected president of the Canadian Bar Association at the close of the 14th annual meeting here Saturday morning. Mr. Bennett accepted the office reluctantly, as he informed the members, because of the responsibilities he has assumed as leader of the Conservative party in Canada. When he first refused to accept the nomination the office was offered to Eugene Lafleur, K.C., of Montreal, dean of the legal profession in Canada, but for personal reasons Mr. Lafleur was unable to accept. Mr. Bennett succeeds the Hon. Wallace Nesbitt, K.C., of Toronto.

Louis St. Laurent, K.C., of Quebec, Balmaceda General of the Bar of the province, was elected Dominion vice-president, succeeding Mr. Bennett. Provincial vice-presidents were elected as follows: Ontario, Hon. N. W. Rowell, K.C., Toronto; Quebec, George H. Montgomery, K.C. Montreal; Prince Edward Island, Judge Inman, Charlottetown; Saskatchewan, G. H. Barr, K.C., Winnipeg; Nova Scotia, W. C. Macdonald, K.C., Halifax; New Brunswick, Chief Justice Sir Douglas Hazen, K.C.M.G., St. John; British Columbia,

## DISCUSS MEANS TO RAISE FUNDS

The Ladies' Aid of the Tabernacle Church held a meeting at the home of Mrs. Penn, 303 Foster Avenue, on Thursday afternoon to re-organize their summer vacation, and plan for the winter's work.

After singing hymn 275, the president led in a responsive scripture reading entitled "The I am's of Christ" and this was followed by the Lord's Prayer repeated in unison. The reports of secretary, treasurer and various committees were received and adopted. A letter from the chairman of the church finance committee voicing appreciation of the work the Ladies' Aid, was read by the secretary.

It was decided to hold a church supper in the near future. After further discussion re ways and means of raising money, the following interesting programme was given:—

A vocal solo with harp accompaniment by Mrs. J. S. McMullen; a reading entitled "You can have both," Mrs. A. H. Fisher; piano solo, Miss Bessie Barlow; vocal solo, Mrs. Donaldson.

The meeting was closed with the singing of hymn 20 followed by prayer by Mrs. McMullen.

### LAVE DER

#### CHARLOTTE RUSSE

To the woman who plans her menu with as close an eye to color as she does the decorations the latest version of an old-time favorite should appeal. For it is lavender and cream concoction decorated with candied violets and a fluff of whipped cream.

Bottled grapejuice, rich in medicinal quantities as well as food value, is the dominant note in this lavender character ruse.

One teaspoon gelatine, one-fourth cup of grapejuice, one-half cup of sugar, one-half cup of hot grapejuice, one egg white, stiffly beaten, one tablespoon lemon juice, one dozen ladyfingers. Time in refrigerator, one or more hours.

Decorations: A few candied violets and whipped cream. When time is limited, the Charlotte Russe may be served as soon as the gelatine hardens. Otherwise, the mellowing period may extend several hours, even overnight.

Measure the gelatine into the small bowl and pour in the fourth cup of cold grapejuice. While the gelatine is softening, prepare the lemon juice, and measure the other ingredients.

Heat the half-cup of grapejuice and dissolve the softened gelatine therein. Add the sugar and lemon juice, mix well and let it stand until cold and beginning to congeal. After the mixture has cooled the process may be hastened by placing the liquid in the icebox.

When the mixture is thickening, turn the egg white in a bowl and beat until stiff. Then add the thickening grapejuice, a little at a time. Set the bowl in a pan of crushed ice or water and beat until the grape jelly will hold its shape.

Divide the ladyfingers and line the sherbet glasses with the halves, rounded side out. Pour the thickened jelly into the glasses and chill at least one hour. Before serving, decorate with the whipped cream and a few candied violets.

### SOME HELPFUL HINTS FOR BUSY HOUSEWIVES

If you will rub butter into the skins of potatoes before baking, the potatoes will remain soft and meaty even though well baked.

When serving a vegetable dinner, have a rich dessert containing eggs and milk, but with a hearty meat dinner serve a light pudding or fruit.

You can freshen old, dry lemons and make them soft and juicy by putting them in a pan of hot water and keeping it at an even temperature, without boiling, for about two hours.

To bake kippers place them in a greased baking dish. Open each kipper and lay inside slices of onion, lumps of butter, salt, pepper. Fold kippers together, spread with butter, and bake slowly until tender.

### ALFRED DICKIE DEAD

Halifax, N.S., Sept. 8.—Alfred Dickie, 69, well known in the Maritime Provinces as a business man, particularly in connection with lumber, died here last night after a year's illness. On two occasions he unsuccessfully contested the constituency of Cumberland.

### THE WAY TO A MAN'S HEART

#### Peach Cream

To two cups of sliced peaches, add three-quarters of a cup of sugar and let stand for half an hour. Drain the mixture in a wire sieve and be sure that the peaches are free of juice. Whip very stiff one cup of heavy sweet cream and fold it into one-half cup of marshmallow cream. Stir in the peaches and chill thoroughly. Serve piled in stemmed sherbet glasses.

#### Peach Butter Pudding

Half fill a shallow pan (enamel or glassware) with peaches quartered and placed with the round side down. Dot with butter and pour over them a cup of either white or brown sugar, white for daintiness, brown for a thick caramel syrup. Make a batter of the following ingredients and pour it over the peaches.

2 Tablespoons sugar; 1 teaspoon salt; 3 tablespoons baking powder; 1-2 cups flour; 1 cup sweet milk; 2 tablespoons melted butter.

Sift the dry ingredients together, add the milk and butter and stir lightly together. Set in a moderate oven (350 degrees), and bake one hour. If the crust formed and browned before an hour is up, test as usual and remove from oven if the batter is done. Serve with plain or whipped cream.

#### Peach Macaroni Pudding

Put a layer of crumbled macaroni in a buttered baking dish. Add a layer of sliced peaches and sprinkle them with powdered sugar and a dash of strained honey. Alternate macaroni, peaches, sugar and honey until the dish is almost full. Pour one-half a cup of cream over the mixture and bake in a slow oven thirty-five or forty minutes. Serve either hot or cold, with whipped cream that has been flavored with honey.

Ham has appeared now in practically every guise! Apples, sweet potatoes and oranges are its more familiar baking companions. Peaches introduce a new element into the picture.

#### Peaches and Ham

Ten peach halves, two slices of ham, one and a half-inch thick; one cup brown sugar; one-eighth teaspoon cinnamon; dash nutmeg.

Place the ham in a flat baking dish and sprinkle with the brown sugar mixed with spices. Add half a cup of water and bake, covered in a moderate oven. Bakes about forty minutes, and then add the peach halves, baste with the ham juice and bake for ten or fifteen minutes until the peaches are heated through.

### INSECT CONTROL IN CANADA

The economy of insect control work is well illustrated in the case of bark beetles in yellow pine. These insects threatened the forests of yellow pine in British Columbia with complete destruction about six years ago. The Dominion and Provincial Departments of Agriculture co-operated in control work, and destroyed more than 50,000 beetle-infested trees. The cost of these operations amounted to \$100,000, and the yellow pine stands which were saved from total destruction are worth \$6,000,000.

Fall down her cellar steps in Port Burwell injured Mrs. James Williams severely and caused unconsciousness for several hours.

## Miss Hard-Boiled" BY JANE DIXON

### CHAPTER 55

When Alphonse Courbet, studying his collection of jades—conceded to be the finest in current, annual art—heard the tinkle of a telephone on his night desk, he sensed impending change.

It must be, "He had scarcely slept since his return from New York weeks ago. Raquel Rojas—"le le noir"—now about to be transferred from his own exotic garden into an English country-side—Raquel was lost to him.

Always he had been able to get that which he desired. If it eluded him for a while, he waited. In the end, he won. He was, for example, dissatisfied of marriage. He had never married. Yet he had known many beautiful women.

The treasurers of art he coveted had come eventually into his hand. These were the passion of his soul. Women were but a passing fancy. He loved beauty in all its forms. Women were but one expression of beauty. A beautiful note that died down quickly into a hollow echo of itself. When beauty died, the medium through which it had been expressed held no more interest for him.

There was Pauline, in New York. Once she was a wild rose, fresh and tender and flushed. How quickly she had faded. She had become a nuisance—a whining, whimpering, fawning creature that sickened him.

"Raquel," he said, and hurried to answer the tinkling bell. "In her I have found eternity of beauty. I would hunger for her always, even though she came to be the living image of the one she calls her specter, the incredible Bosart."

Raquel was grateful that Alphonse showed neither surprise nor resistance to her request that she be allowed to go on to Deauville immediately.

"The car will come for you before eight," he said. "Have only the things for your immediate needs packed. I will send an entirely new selection to your hotel in Deauville. And for Miss Greta, too. The chauffeur will receive full instructions."

"But you—" wistfully—"I thought you were going too, for a holiday."

The veins on his long, tapering hands stood out like blue welts. His brow was damp. The cords of his throat worked.

She wanted him. She needed him. He had not schemed, agonized, for

When the sister Parisian, Raquel, for the street was autumn, she calls her face beneath a close-fitting little turban, similar to that which appears on the right above. It is from Raquel's Aust and fashioning of black felt with cut out design. On the left is a cozy fall coat of beige wool, showing the deep fur cuffs, which are characterized by the coats this season. The design is by J. P. P. Photographs are by Henri Manuel of Paris.

## SINCLAIR'S

flowers in his grimy hands.

Raquel signaled the chauffeur to stop the car. She took a handful of francs from her bag—without regard to denomination—and held them to her. He stood, stupefied for a moment, at the fortune that had befallen him. Then, with a shrill cry of joy, he started pell-mell toward a thatched cottage down a lane.

"Joe!" murmured Raquel. "Now he will not ride on a fat sleek pony with a groom at his head."

"What's that about grooms?" asked Greta.

"Nothing. I was just thinking about a little boy I once knew."

They lunched in the ancient Inn of William the Conqueror, with its old-fashioned garden of sweet herbs and its great kitchen of shining brasses.

At the last moment Greta came out of the kitchen with a large copper kettle, which she exhibited proudly to Raquel, already waiting in the car.

"It's stunning," said Raquel, "but what are you going to do with it?"

"What care?" purred Greta, swinging the kettle so that its sides caught the light of the sun. "The main thing is that I got it. I practically had to bid, though. My these frogs are tough eggs to open."

"Do you mean it's a gift?" Raquel asked incredulously.

"Sa-ay, dearie, you don't think I'm cutting paper dolls yet, or moping around buying brass kettles. This bimbo had tears in his eyes when he ceased to struggle. He's the big noise in this joint. Major Doughmore."

Raquel knew she should remonstrate with this naughty, greedy Greta. She could not. The laughter would come, despite her effort to suppress it.

In Deauville they found a suite had been engaged for them at the Hotel Normandie.

Raquel liked the place at once. It was gay. Bright globes of scarlet geraniums and patches of purple petunias rimmed the window-ledge. The quaint timbered building. One lunched and dined on a broad open veranda level with the garden.

"Gosh!" said Greta, "get a load of

that ocean. We gotta get some sea-going bathing-suits, dearie. I'll simply froth at the mouth if I have to sit under an umbrella and look pretty for the pappas."

"We'll go for a dip early tomorrow before the beach is crowded."

"Wait a minute, dearie. Hold me a thing. I think I see a bimbo I know. Back in the old home town. Whoopie. I find 'em, no matter where they hide."

### WHAT'S NEW

(From A Woman's Standpoint)

Three-piece suits in light woolen or trick is the favorite choice of gossamer at Deauville.

The Duke and Duchess of York have left Glamis Castle, Forfar, for Birkhall, Balmoral, where they will entertain shooting parties.

Many of the newest Paris frocks for evening wear have the clinging "Princess" corsage—some with quaint little shirtings at the waist or hips and at the back.

Among the postwar women millionaires in France there are quite a number who made their wealth from the most arduous kind of manual labor, farming, pig raising, metal dealing and even rag picking.

Handbags with inlaid wood decorations are novel sport or motor accessories being shown in Paris, where the sacks are envelope form, with flap or front side formed by the wooden inlay, on felt or tweed backs.

Peak Forest Church, in Derbyshire, one of the few churches where marriages can be solemnized without the reading of banns, has now been invaded with wasps, and local bridegrooms are anxiously weighing the advantage against the disadvantage.

Black and navy blue continue, will always continue, to be extremely important in the really smart wardrobe—but we can thank our modern artists for liberating us from a slavish dependence upon them, and giving us the joy of riotous, exuberant color.

Lord Ypres, who is shortly going to America to hold an exhibition of his pictures, and his wife, Lady Ypres, live in a beautiful old house in the grounds of Marmion Court, built in the reign of William III.

One of the most satisfactory dresses for any girl's collegiate wardrobe is a black velvet—pile vivette, panne, or transparent, it matters not which, as all are in good fashion standing. For such a dress may be donned for almost any afternoon occasion, and no matter how much it is abused, it returns from a steaming looking fresh and new.

Bright color tweek in the autumn shades of red, brown, blue and plum is prominent in this jacket suit which younger women have found to be one of the most important items of their wardrobes, and one clever model has a hip length jacket cut with the saddle shoulder, a frontal flared skirt with a hip yoke and zipper fastenings at the blouse neck, the jacket pockets and the skirt yoke to form the sole decoration.

2,000 TROUT FOR FRONTENAC  
Kingston, Sept. 6.—The fish and game department of Ontario has offered to place 2,000 brown trout in one of the lakes in Frontenac county. The department has two men making a survey of the county for the purpose of selecting a lake for the receiving of the trout.

## SKIRTS NOW ARE MUCH TOO SHORT

Paris Priests Say "Better To Perspire On Earth Than To Roast In Hell"

Paris, Sept. 9.—There is a new set of stories of the taciturn and sometimes humorous devices adopted by parish priests who are scandalized by the fashions exhibited in their country churches by Parisiennes on holidays, but hesitate to enforce the episcopal injunction that the entry to their church should be refused to women who are too lightly clothed. Some have put up notices which adopt the formula invented recently by the cure of Mendon—of which church, it will be remembered, Rabelais was once the incumbent. "If you are too hot," it runs, "remember that it is better to perspire a little on earth than to roast in hell." At Villeneuve-Saint-Georges the cure has from another device. It is to assume that brides whose dresses are cut low in the neck and short in the arm are forced by limited means to adopt this fashion, and he keeps in the vestry a dainty little white knitted fichu, which he insists upon their wearing before he will marry them.

# HOOVER IS SAID TO VIEW TARIFF AS MINOR ISSUE

President Paying More Attention To Naval Pact

IS ENTHUSIASTIC

Bill Identical With Senate Note Is Likely To Pass

Washington, September 7.—President Hoover is credited with saying that reducing armaments is more important than increasing tariff duties. In this connection he is also quoted as saying that he is at the present time concentrating on the forthcoming Anglo-American agreement for the limitation of naval armaments, and cannot stop to help Congress out of the mess into which it has precipitated itself on the tariff bill. It is unlikely that the President went any further. Whatever he said was certainly not intended for a direct quotation but was merely intended to furnish the correspondents with what Mr. Hoover is fond of calling "background." However, many have annotated and extended these observations. They have given the impression that the President takes a detached view of the tariff situation; that he is not particularly whether any changes are made in the tariff or not, and that he regards the tariff as a "minor issue."

This may or may not be true. If it truly reflects the President's state of mind, it furnishes convincing proof that there is a popular reaction against the proposed tariff legislation. There are politicians more astute but none more humble than Mr. Hoover. If he finds the current or the wind against him he does not tack or maneuver, but turns his boat promptly around and sails away in the opposite direction. No public man was more enthusiastic for the League of Nations than was Mr. Hoover ten years ago, but he dropped it like a hot potato when he found that the tide of popular opinion was flowing in the other direction. No man, until a few weeks ago, was a more sturdy protectionist. He forced the tariff issue to the front in the presidential campaign, although his opponents were eager to take the issue out of politics by accepting the present Fordney-McCumber tariff act. He promised, if elected, to call an extra session of Congress to deal with the tariff as well as with farm relief legislation. True he spoke of a "restricted revision" in his message to Congress, but there would be no Congress at Washington today, and no tariff bill before it, had not Mr. Hoover himself taken the initiative.

## GLACIER PARK, BRITISH COLUMBIA

Glacier national park, British Columbia, derives its name from the magnificent Illecillewaet glacier which is the chief centre of interest within its boundaries. This glacier falls from the Illecillewaet snowfield which is ten square miles in extent. From the crest of the snowfield to the base of the glacier there is a drop of 3,600 feet.

## INDIAN CELEBRATION AT CAPE BRETON

Halifax, N.S.—The 300th anniversary celebration of the Indian Mission at Cape Breton was held at Chapel Island recently. Delegates from various sections of the Island were in attendance at the celebration which lasted for five days.

During the five days special sermons were given by Rev. L. J. McDonald, Missionary to the Mic Macs of the Maritime Provinces.

Sports of various kinds were held each afternoon including running events, tug-of-war, and baseball games with evenings from the different reservations.

The evenings were taken up with sing-songs and war dances.

## A GREAT BOOK

No book in recent years has been so much acclaimed as "All Quiet on the Western Front." In the "Evening Standard" (London, England) Arnold Bennett, himself one of the world's leading novelists of the present day, writes frankly and sincerely:—

"It is unlikely that any picture of the Great War can be comprehensive without here and there being coarse. Nor can I agree that modern German fiction is coarser than modern English fiction, though it may be more outspoken. Take "All Quiet on the Western Front." In it are printed in full about half of the famous nine unprintable "Anglo-Saxon monosyllables" referred to in one of Sinclair Lewis's novels. In it also is one of the most outspoken sexual scenes to be found in any modern novel. But nobody with any sense of critical responsibility has protested. Neither have the police intervened, nor has the Morality Council, nor has any police magistrate launched his twopenny thunders against its obscenity. To do so would have been absurd, for the author of his German coarseness has created real beauty. As factual reporting "All Quiet on the Western Front" cannot be beaten, and as intensely readable propaganda for the League of Nations, it almost stands alone."

And here is the way "All Quiet on the Western Front" appears to a Canadian Reviewer. From the Evening Telegram, Toronto:—

"To say that this is a book on the Great War is correct but entirely misleading. It is different from any other War Book ever published. Although it is written by a German soldier it is devoid of propaganda. It does not seek to make out that the Fatherland is a victim of allied plotting, jealousy or greed. No attempt is made to exonerate Germany, no effort is made to justify or censure anybody or anything, but the gripping force in language so simple that it cannot be misunderstood, he tells the common soldier's story with a brutal candour that appeals while it fascinates. He makes the readers see war in all its stark horror. He paints a word picture of its body and soul destroying forces. He tells the story which the soldiers who went through it, the ordeal and survived will rarely tell even to their most intimate friends. They feel that it will not be understood and it is too painful to recall even after a lapse of years."

The book is referred to as a war

## Your Kids Need Sugar

It supplies body fuel for the energy that keeps them going and growing. No need to stuff or get fat and lazy.

Use WRIGLEY'S chewing sweets for sugar and flavor, and see how ruddily the boys and girls respond.

It's the new science of health-building. Try WRIGLEY'S yourself and stay thin.

Fourth WRIGLEY Marathon, C. N. E. Aug. 23 & 28

novel. But it is not fiction. It is a great human document. In places the language is extremely vulgar and occasionally obscene. It is deplorable that these obscenities are considered necessary in order to preserve the fidelity of the story. They will offend sensitive readers. Words are used that are never uttered in polite society. With proper expurgation, however, in order to adapt the text for immature minds it could be taught in the schools. If every man and woman over eighteen years of age in the civilized world could read the book it would be a more potent force to prevent wars than all the talk of the League of Nations. At least such is the opinion of some competent critics.

## NEW PUBLICATION OF LEAGUE OF NATIONS

Ottawa, Sept.—The first number of the Educational Survey, a publication issued under the auspices of the League of Nations Committee on Intellectual co-operation has just reached the Dominion. Its purpose is to review periodically the work done in different countries to make known the aims and organization of the League and to develop the spirit of international cooperation. This work, which is attracting the attention of educationalists all over the world was initiated some years ago by a resolution of the Assembly. It is planned to publish the Educational Survey twice yearly if possible. The first number contains an article on an enquiry into the effect of war films on the minds of young people tending to show that realistic war films have distinctly pacifist effect.

With the rapid increase of automobiles on the road, France is beginning to face an accident problem approaching that of the United States. Tabulations made this summer show that since July 13 there have been 426 deaths and 1035 injured.

## EMPIRE UNITY NOT A QUESTION FOR POLITICIANS

Statesman Advised On Attitude Desirable On "Canadian Status"

Quebec, Sept.—"Let us take the whole question of Empire and of Commonwealth out of the mire of party controversy," Professor W. P. M. Kennedy, of the faculty of law of Toronto University advised the Canadian Bar Association today in a striking address on "Theories of law and the constitutional law of the British Empire." "It will be in the future as it has always been in the past, the political unforgivable sin against the Holy Ghost when either Empire loyalty or Dominion loyalty or both are based by every political charlatan. The Empire—each Dominion party triumph, and ought to be dearer to us than any political office," he said.

Professor Kennedy's remarks on the attitude that statesmen of his country should take on the question of Canadian status were made in a brilliant peroration to an address in which he traced from feudal times the development of the present day theory of empire. He traced the progress of political freedom from the law of the feudal monarch to the establishment of the common law; touched upon the changes brought about in the relation of kings to parliament and of parliament to the people and, in the light of developments in Canada and the United States in the late 18th and early and middle 19th centuries, reached the present theory of the commonwealth added.

"Today," he said, "we think of the modern state as a legal society guarding and inspiring beneficial social interests. No one seriously follows John Austin, and sovereignty is as dead as Queen Anne. Municipal law is everywhere reflecting newer juristic theories. The individual and his rights, the abstract reasonable man of the common law, are giving place to the community and its needs. Indeed the man who is ceaselessly adding about talking about his rights is rapidly being classed among dangerous public nuisances, while we have only to study the modern developments in the law courts to see how the sense of society is permeating judicial decisions."

## LEGISLATION FOR BRITISH EMBALMERS

Montreal, Que.—Legislation similar to that recently passed in Ontario requiring undertakers to pass a qualifying examination before practicing, may be sought by a party on British Undertakers now touring Canada and the United States and comparing American methods with their own. The party, consisting of ten members of the British Undertakers Association, headed by J. R. Hurry, Secretary, arrived Monday at Quebec and after spending a day here will proceed this afternoon to Ottawa by Canadian National Railways. They will visit Toronto, which they will reach Thursday evening, Niagara Falls, and a number of other Canadian points before going to the United States and the annual Convention of National Funeral Directors Association at Atlantic City.

## "CHALLENGER OF STEAM"

Photographs show: Top, left, Mayor Houde of Montreal, with Conductor Ben Robinson and Engineer William Spence, both veterans of Canadian National service; right, Pilot Engineer Spence receiving train orders for the south-bound train; bottom: The International Limited as Locomotive 5000 hauled the train from Montreal to Toronto.—Canadian National Railways photograph.

Railroad motive power development took another important step forward when oil electric locomotive No. 5000 of the Canadian National Railways made its inaugural run between Montreal and Toronto, hauling a section of the famous "International Limited," crack all-steel train which operates between Montreal, Toronto, Detroit and Chicago. The new motive power unit emerged with honors from the grilling

test, hauling the heavy train at high speed over the 340 miles of line and in some places attaining a speed in excess of eighty miles per hour. Experts who were aboard the train expressed the opinion that eventually this type of motive power will supersede the steam locomotive.

Locomotive 5000, which is 94 feet in length, and weighs 310 tons fully equipped, develops 3000 horse power. It consists of two

units, each powered with an oil engine generator, which, in turn, delivers power to the electric propulsion motors which operate the train.

Canadian National engineers have discovered that with this engine seven times the power is secured from unit of heat generated by fuel oil as against heat generated in a steam locomotive by use of coal.

## Channel Buoys

What would modern navigation do without the channel buoys—these floating markers that keep ships off the shoals? In a very real sense, the advertisements in this paper are channel buoys, placed for your protection—for the safeguarding of the family expenditures.

These advertisements are the signed statements of reputable firms who seek your patronage on the single basis of giving value for every dollar spent. They are honest statements, the only kind an advertiser can use and remain an advertiser.

People who get the most for their dollar in the market-places are those who keep an eye on the channel buoys. Day by day, they follow the advertisements to learn what and where to buy to the best advantage. Make this a habit. Study the advertisements in the interest of shrewder buying.

The advertisers in this paper have charted the channels of buying for you. Keep to the course.

**PIGS OFF PASTURE SHOW BEST PROFIT**

"We find in years of normal price that the pigs sold off pasture in September or early October show the greatest profit over feed cost," writes R. D. Sinclair of the annual husbandry department of the University of Alberta. "For that reason a fairly liberal grain feeding is to be recommended during the pasture season. Late farrowed pigs, however, will not be ready for market at the close of the pasture season and for such pigs a finishing period in the dry lot will be necessary. Oats, barley, feed wheat and rye may be the feeds available for finishing pigs. Oats is a relatively inefficient finishing feed, barley is a good one; good feed wheat gave excellent results in our 1928 finishing experiment; rye is not liked by pigs but may be utilized when mixed with equal parts of barley and oats."

**COMMON COW CHAMP FOR ACTUAL SERVICE**

From far-away Australia comes a reminder of one of the elementary facts in agricultural economics. "The cow," says T. J. "Queensland Agricultural Journal," "really forms the foundation of the farming industry. Not only does she supply the world with all the milk products such as butter, cheese, milk and cream, but almost all her flesh can be eaten, and beef is the staple meat of most countries. Her hide is used for making leather, and her hair for making wool. When everything else is removed her bones are ground into fertilizer. No other animal serves mankind in so many ways."

## COLLEGIATE CHATTER

School has opened! In fact, it opened last Tuesday and for the most part it opened with alacrity for after all it is good to come back to a regular day's work, isn't it? Although we may feel now that the year will be just a long time of monotonous days, it will really not seem a very long time. There are so many holidays during the first part of the year and so much warning regarding the approaching examinations in the spring that the year slips quickly away.

With such a start as we had last Tuesday, we, as a student body, ought to finish this year with flying colours. At the reopening of the school Mr. Wright, Mr. Weir of the Bank of Montreal, and Mr. MacLaurin, addressed the students, each presenting facts where by our work this year may be more efficient. Mr. Weir stressed the fact that we are more highly favoured than some students in having such a beautiful building to work in and urged us to make proper use of it and take every precaution to keep our furniture and equipment in perfect condition.

Last year, if you remember, school started much later than it should have. The rooms, including the gymnasium and the auditorium were by no means fully equipped. There were no seats in the auditorium at the time and through the opening of school the students were forced to stand. The laboratories were not even equipped for working in and it was some time before the Chemistry students were able to perform the necessary experiments.

This year school started on time. All the class rooms are fully equipped by the proper apparatus and the auditorium is complete. The laboratories have been fitted up with the best of equipment. In fact the only thing which the school lacks to make it sound like the up-to-date school is the noise of lockers banging. The lockers have not been given out yet this year and the silence in the halls is even distressing. However, the keys are to be distributed soon. Then things will be as usual.

In his remark at the re-opening of the school Mr. MacLaurin stated that Miss Hitchon had the highest percentage of passes and the students are proud of the fact that she had 41 "firsts" in Middle School Canadian History and only one failure in Upper School Modern History. We think the latter is almost a record.

Keep in mind that our annual Field Day will soon be held as it usually is in the latter part of September or the first of October. Make plans to enter as many sports as possible. It is certainly worth while.

There has been great difficulty in arranging the Fifth form table so that each student may have all the subjects he wants and not be interfering with anyone else. To this end there have been two sessions of Fifth form students held and the matter isn't straightened out even yet.

**Promoted**  
H. C. P. CRESSWELL  
Superintendent, Department of Colonization and Development, Canadian Pacific Railway, Montreal. Who has been appointed Assistant European Colonization Manager of the Department headquarters at London, England.

## KARNIVAL CITY IN THE MAKING

Armouries A Hive Of Activity In Preparation For Big Event

Kiwanis' Carnival time is fast approaching and the Armouries this week is a hive of activity and this vast auditorium is being whirled into shape for the 1929 exhibition of the Kiwanis Carnival - an event that is eagerly looked forward to by all citizens of Belleville. While the carnival actually only lasts for two weeks, it takes a whole week to prepare for this staging of it, and this week the Kiwanis will spend most of their spare time with the hammer and saw to build up this carnival city ready for occupancy next Monday evening, when the curtain rises on the first show.

Mr. Joe Inan, chairman of the Carnival Committee this year is quite optimistic regarding this year's show - and on being interviewed this morning he predicts the greatest success yet for next week's show. Many entertaining events of outstanding merit have been arranged for the week - and these will be advertised later. The Fashion Show is always the leading attraction and this year besides many novelty stage and lighting effects, the Fashion Show committee have arranged to augment this part of the programme with the personal appearance each evening of Little Jackie Ray, Canada's Wonder Child, direct from Jack Arthur's Fashion Revue at the Uptown Theatre, Toronto. Jackie is only five years old, but sings and dances like a real professional grown-up.

## MORTGAGE SALE

UNDER AND BY VIRTUE OF the Power of Sale contained in certain mortgages which will be produced at the time of the Sale, there will be offered for sale by Public Auction on Tuesday the 1st day of October, 1929, at the hour of one o'clock at the Court House in the City of Belleville, the following property:

In the City of Belleville in the County of Hastings and Province of Ontario containing by measurement one quarter of an acre be the same more or less being the East half of Lot Number Fifteen (15) on the East side of Pinnacle Street and on the south side of Dundas Street in the said City of Belleville.

Upon the above property is a double house. Terms of Sale: Property will be offered subject to reserve bid. Terms - 20% per cent cash at the time of sale and the balance without interest in thirty days. Standing conditions of sale of the court. For further particulars and conditions of sale apply to George O. Tice, Auctioneer, 33 Bridge St. W., Belleville, Ont.

O'Flynn and O'Flynn, Standard Bank Bldg., Belleville, Ont. Solicitors for the Mortgage. Dated at Belleville this 7th day of September, 1929. s9 16 23 30

A near fatality occurred when Jean, young daughter of Mr. and Mrs. William Fleck, near Mooretown, fell from the roller and in front of some while she was driving her father's team in the field.

## News of the Movies

**REGENT THEATRE**  
If you have become bored with some of the screen fare offered about town during the next three days, for "Tale of Lost Men" is a melodrama of the South Seas with action galore and then some. It is an excellent story enacted by a great cast. The murderous skipper of the "Vul-

can" sets the hero adrift in a small boat with salt food and salt water for rations. Exhausted the youth is washed up on an island and found by a white girl stolen as a child and brought up in native fashion by Malay Pete a villainous trader. Meantime the Vulcan reaches the same port and the girl is sold to the Captain, who takes her aboard. But the hero also returns to the ship unknown to the crew to locate a valuable chart which had been taken from him. The action moves at a terrific pace aboard the schooner with plenty of hand to hand battles, thrilling stunts and some nuth provoking antics before the dramatic climax. Allen Connor is the hero, with Patsy O'Leary playing opposite. Tom Santsch is the heavy or one of them James Marcus, Jules Cowles, and Sailor Sharkey all make a devilish crew. Duke Wome, directed it for Trem Carr Productions and Ravart is releasing.

## WALKERVILLE WINS

Last Year's Runners-Up  
Making Strong Bid For  
Ontario Title

With anywhere near an even break from now on, the Belleville Nationals will go right through to the finals against Walkerville again for the Ontario Championship. Walkerville won from Guelph in the first game by an 18 to 3 score, and all indications point to that team again being the one to beat for the laurels.

Apparently Gatecliff, the star second sacker of the Walkerville Chicks, has departed for other climes, for his name does not appear on the roster of the Border Cities team. All the others are back again, however, and if Belleville and the Chicks meet again the fur is sure to fly, for the latter team will be out for revenge against their rivals of 1928, and the Nationals will be in there fighting to hold the advantage which they won last year.

Most reports to the contrary, the Belleville team this year is if not better just as good as last year. Their hitting is steeper, and while in spots the pitching has been ragged, lately it has improved wonderfully, and Alex Weir, Utrinski and Jack Shea can be depended upon to fool more than a few of the opposition batters. Gibson will be missed, but he certainly is not throwing as good ball this year, as he was last, and clearly shows that his catcher had a lot to do with his string of victories. Last week at Point Ann he was touched off for sixteen hits and was hauled out of the mound by the Comment Men, which is something strange to hear of the redoubtable "Hoot". With "Peeny" Mills behind the plate, Alex Weir and Utrinski will be two hard pitchers to beat, with Jack Shea ready to go in any time he is needed.

Belleville's infield is rated as the best in amateur ball, although some Toronto critics will undoubtedly tell you different. In Scott, Blakely and V. Weir, at third, short and second respectively, there are few peers in Canadian Amateur ball, Blakely especially being a fielding star. He has had more than one offer to jump to the "big time" but has decided to stay amateur at least until he has finished his college course.

Harry Mills at first base has showed his mettle times without number, and were it not for him, more than one throw would go as an "overthrow" which the ordinary first sacker would never get. Peeny Mills, behind the plate, is the steadiest man on the field trying all the time, and never giving up. He has been playing ball for Belleville for so long now that the fans are taking his playing as an ordinary matter of course, but when they see the four balls he pulls into his big mitt and then the apparently easy ones that many other catchers in the Central League won't come near getting, they should begin to realize that here in Belleville we have the peer of backstoppers.

The outfield, made up of Murney Green, in left field, Sonny Green in center, and Bennett in right, is steady and fairly fast of foot. When Alex Weir is not pitching, he plays center field, and E. Green goes to right, there by enabling the team to have the advantage of Weir's hitting power, which has been tremendous this year.

## Sportograms

There has been little enough ball played in Belleville for the past two weeks, and the fans are waiting impatiently for the first game of the play-offs with Deloro here Wednesday. A record turn-out is expected even though the Nationals are favoured to win in two straight games.

Alex Weir, the good young right hander, will probably be given the pitching assignment in the first game, and he should come through with a win, if his speed ball has the same zip as usual. But with the fielding team behind a pitcher such as Belleville boasts, even fair pitching often brings home a win, and Belleville has been getting better than fair pitching all year.

"Toey" They, stellar pitcher for the Snellers, took up his residence at Corbyville on Friday last, and started work at that plant this morning. He will finish out the season with the Snellers, but as the Deloro plant is expected to close down next year, many of the other regulars will likely migrate to Belleville, Point Ann or Corbyville, where they seem to be taking a great interest in baseball lately.

"Toey" They is a cousin of Ralph They, southpaw pitcher for Corbyville, who came here from Trenton.

"Hoot" Gibson, of last year's Nationals, this year playing with St. George's of Toronto, and by special permission of the C. O. B. A. A. with the Aleutian team in the Industrial League, has not been doing any too well lately. Point Ann knocking for sixteen hits the other night, and a triple and a homer as well as several safeties being garnered off his delivery by Corbyville on Friday night. Gibson does not seem to have the same zip on the ball as he had last year, but one reason for this is undoubtedly the fact that he has not pitched enough this year. Give him two games a week and the support he had last year and he would again be the leading pitcher of Ontario.

We suppose there is no harm in wondering where the Deloro franchise will go next year. Sporting gossip has it that Corbyville, Point Ann or the Aleutian might try to purchase it, and run a second Senior ball team in the city, but whether this would be made to pay or not is the big problem. At least it

## CLARENCE ROSS WINS MONTREAL SWIM BY 2 LAPS

Evelyn Armstrong Takes  
First Money For Women,  
Coming In Sixth

Churning the water like an automaton, 59 strokes to the minute, Clarence A. Ross, of Brooklyn, N.Y., yesterday strode his way to victory over a field of 53 internationally known swimmers in the first annual Usher's Green Stripe Marathon staged over a triangular course at Point aux Tombes, opposite the Montreal airport. Before a carefree, colorful, holiday crowd that numbered close to 10,000 people, Ross covered the 18-lap nine-mile course in the close to record breaking time of two hours 37 minutes and 42 seconds, two laps ahead of Marvin Nelson, of Port Dodge, Iowa the runner up.

The youthful Nelson, who has just reached his seventeenth birthday, finished in two hours and 55 minutes, leading Lyall Hubbard, of Toledo, Ohio, who took third place by over half a lap. Fourth position went to Morris Hume, of Seattle, Wash., in 3:02:00, while fifth place was won by William Stadio, Jr., of New York City, in 3:11:00.

Leading the women entrants in the race, Miss Evelyn Fern Armstrong, of Detroit, Mich., climbed out of the water in sixth place, six minutes behind Sadlo. Seventh place went to Eadore Sponder, the Canadian lad from Port Colborne, Ont., while eighth place was won by Mrs. Ruth Towne, of Col. Bill Erickson, of New York, was ninth, and Miss Jewell Chestwood, of Toronto, took tenth place. Rosalie Delorme, who finished in sixteenth place was the first local swimmer to cross the finish line.

## Ross Swims Own Race

Ross swam his own race from start to finish and crossed the finish line still swimming with the steady, grinding pace with which he had started, new world record for three miles at Toronto Saturday, took an early lead which he gradually increased over the nine-mile route to finish a good two laps ahead of the field. Ross climbed out of the water to his convoy boat without assistance and to the roar of thousands of voices from the crowd that packed every available point of observation on shore.

After the first two laps, the race developed into a battle for second place that was not decided until the last mile and a half of the grind. Starting the sixteenth lap, young Marvin Nelson won the consolation three-mile race at the Toronto Exhibition Friday, forged in a slight lead, which he increased to half a lap before the finish to snatch the runner-up position from the crowd of men and women swimmers that had pressed

close to his heels from the start of the race.

The battle between Miss Armstrong and Mrs. Towne for premier honors among the women was another high spot of the thrilling marathon. Starting out at an even clip, the two women kept together for the greater part of the race, and it was not until the last half-mile that Miss Armstrong battled her way into a slight lead that she increased to her quarter-mile margin of victory.

London, Ont., Sept. — Dr. William McEwan and his wife celebrated their 50th wedding anniversary recently at their home in Watford. Dr. McEwan is a native of Stirlingshire, Scotland, and was born 81 years ago. He was six years old when he came to Canada and she was two years of age when she came. Dr. McEwan, who is a veterinary surgeon, began life as a printer's apprentice on the Galt Reporter. He has been Mayor of Watford three times, Reeve twice, and a member of the Municipal Council for 15 years. Both are in good health.

## PART OF ANGLICAN SERVICE IN LATIN

London, Sept. — It may surprise some good Anglicans to learn that at least one of the Occasional Forms of Service of the Church of England is still conducted in Latin.

This was used the other day at the opening of the Convocation of Convocation of Canterbury. The service was held at St. Paul's Cathedral and followed the Order which is always used at the opening of Convocation immediately following a General Election.

The processional psalms, the Litany Anthem and Benediction were all sung in Latin and the Dean of St. Paul's delivered his sermon in the same tongue. The holding of this service goes back to the earliest days of Parliamentary history.

## SHELTER DONATIONS

Mrs. Lorne Brickman, Rednersville—tomatoes, apples.  
Mrs. Elliott, Rednersville—cabbage and apples.

Mrs. Earl Bills, Rednersville—apples, tomatoes.  
Mr. Gilmore, Rednersville—cabbages.  
Mrs. Percy Crouter, Rednersville—apples.  
Alice T. Harris, Matron.

Certain people become cowboys through environment, and others through conviction, but the young people of Canadian and United States cities are going in for that vocation as a happy, healthy, summer recreation. They go to the Dude Ranches in the Alberta foothills, and in increasing numbers each year. They ride the mountain trails, and they learn to rope and the calves; they hunt out tonight, wear chaps and beaded deerskin vests, and in time they become thoroughly acquainted with the mysteries of the diamond hitch, and the art of milking wild cows—real wild ones, of the Bow River, near Banff, Alberta, and is operated by Mrs. W. A. Brewster, known to the whole countryside and to hundreds of people in cities from coast to coast as "Mrs. Bill". She runs the ranch and is the guide, mentor, friend and confident of tenderfoot, innumerable. They come from New York, and

Entrants in the three-mile consolation swim at the C.N.E., who took the water on Sept. 6, at Toronto. The contest was open to all professional women swimmers not invited to enter the invitation swim. The photographs show some of the more well-known women swimmers who competed: (1) Geraldine (Jerry) Widmer, one of the Seattle sisters, who was fourth; (2) Jane Thoms, Terre Haute, Ind., the winner; (3) Olive Gatter-

## News Of Quinte District

### FRANKFORD

Mr. and Mrs. Jas. Coyle, of Colborne spent a few days last week with Mr. and Mrs. Ed. Prentice the latter's sister.

Mr. and Mrs. J. Casement, Jr., have moved to Glen Miller. Mr. Casement is going to be employed at the mill there.

Mrs. J. Bowen and Miss Margaret have returned home after spending the summer months in New York City with Mr. M. Bowen.

Mrs. W. C. Oles and little son, Walter, of Peterboro, are visiting at the home of her mother, Mrs. W. E. Windover.

Mr. J. B. Ford spent a few days this week in Toronto on business.

Mrs. and Miss Earl, of Brookville are visiting at the home of their daughter, Mrs. A. Ferguson.

Miss Lella Brown, of Dunnville, who has been visiting her aunt, Mrs. Wm. Simpson, returned home this week.

Mr. Harold Lowery who is holidaying in Vancouver, had the good luck of landing a salmon weighing over 50 lbs.

Miss I. Potter has been spending a few days at the home of Mr. N. Reid.

Mr. J. Shannon and family have moved to Trenton. Mr. Shannon will be employed at the Paper Mill there.

Mr. Jas. MacMillen, sister and husband, returned to Dunkirk, N. Y., after spending two weeks with friends.

Mr. S. Williams spent a few days in Toronto and attended the Exhibition.

We are very glad to learn Mrs. G. E. Sine able to be moved to her own home. We wish her a speedy recovery.

The Glory of Autumn is reflected in Fabrics for Fall

## Presenting on Tuesday New Fall Fabrics

Fabrics for Fall are lovely. Tuesday, they are debutantes of the Autumn season, and you are invited to their court. Shimmering velvets, fine crepes—novelties striking in design and weave greet you from tall draped stands, and from the counter. Come Tuesday, and pay homage. Select while they are new and crisp—while their colors remain complete. Here are a few outstanding favorites.

### Velvets Sway the Day and Night-time Mode

#### Chiffon Velvets

The tremendous velvet effect is pronounced in chiffon velvets. The pile is clipped very close and is wonderfully soft and delicate to the touch. 35 inches wide, and priced—Yard ..... **4.95**

#### Co'ors

Chocolate, black, national brandy wine, fuchsia and De Lyon blue.

#### Transparent Velvets

Transparent velvets have their loyal followers. Always a big favorite for afternoon wear, it occupies a strategic position in the quest for Fashion's favor. 35 inches wide—and priced, pf ..... **5.95**

Black only.

### Introducing - San Sebastian Crepes With Many Unusual Designs Created by Mallinson

Softly finished these new arrivals offer many unusual patterns, created by Mallinson, as only Mallinson can. Their beauty is enhanced by soft, subtle colorings that blend wonderfully with the bright dash here and there, for variety. Patterns show odd pailley effects—figure, or old fashioned people with quaint costumes—or are smartly bordered. Six exclusive designs and tones to select from—about 38 inches wide. Very moderate in price. For such fabrics—Yard ..... **5.95**

### Velveteens -- of Fine English Manufacture

With a luxuriously soft, thick pile—made in England especially for us—they offer much in value at this price. 27" wide—fine cotton velveteen that very smartly resembles its sister chiffon and transparent velvets. Colors are navy, pantala, brown, brandy wine, lucerne blue, and black. Priced—Yard ..... **1.00**

### Fancy Crepes That Hold High Place for Fall Wear

Of good weight—the weave fine and close—ensuring you of a splendid service—and adapting itself wonderfully to the new style of frocks, for 40 inches wide—nearly patterned, with small patterns—for either children or grownups. A big range of shades—Yard ..... **2.25**

## WAGES HIGHER, SURVEY SHOWS

### Many European Countries Have Raised Their Scale Of Pay

That money wages in Europe have greatly increased since the war is fully brought out in a new survey of world wages by the International Labor office of the League of Nations, according to the Washington correspondent of the office. These are the first statistics of their kind showing changes in the general level of wages within each country. They include statistics which are representative of the general changes of wages as a whole or for a group of important industries. They show actual money rates and compare the present rates with the rates in existence before the war. They give the rates of both skilled and unskilled workers.

Some interesting high spots in wage rate low, the hourly rate having been 50

developments are most clearly brought out.

Before the war the skilled worker in Germany was getting 68 pfennigs (about 17 cents) per hour; today he gets 108 pfennigs (27 cents), or an increase of nearly sixty per cent. over the pre-war level. The unskilled worker has increased his wages from 41 to 81 pfennigs (10 to 20 cents, respectively) per hour, that is, doubling his wages. By comparison, the trade union worker in the United States has increased his hourly rate from 45 cents to nearly \$1.20, representing an increase of 2 3/5 times the pre-war level. Workers in Canada have increased their wages by nearly ninety per cent. over the pre-war level, based upon hourly rates. The increases of the British worker have varied from seventy to over ninety per cent. according to one considers hourly rates or weekly earnings, the latter showing the larger increase.

#### Wages Increased

Danish workers have increased their wages by nearly 2 3/5 times the pre-war level, an increase practically identical with that of the American wage earner. Actual earnings in Denmark last year, the hourly rate having been 50

ore (13 cents) per hour, as against 130 ore (35 cents) at the present time.

The French worker was paid on the average of 0.46 francs (9 cents) per hour before the war; today he receives something like 3.45 francs (13 cents). France today is about 1.97 francs (8 cents) per hour for women workers in the center. The daily rates are about 16.06 francs (64 cents).

Hourly earnings in Sweden have increased to nearly three times the pre-war level. Before the war the Swedish worker received 0.40 crowns (11 cents) per hour; today he is being paid 1.08 crowns (28 cents).

Daily money earnings of skilled and semi-skilled workers in Switzerland in 1927 were 12.56 francs (\$2.51) as against 6.97 francs (\$2.21) before the war, representing an increase of over 107 per cent. Unskilled workers and women workers have fared about the same.

For the manufacturing industries in the United States as a whole, hourly money earnings have gone from 24.5 cents per hour for pre war years up to 58.2 cents in the first quarter of 1929, representing an increase of 138 per cent. There have been correspond

ing changes in weekly rates, ranging from \$12.54 pre-war to \$28.85 in 1929, an increase of 130 per cent.

### GENERAL GARDEN IS IN ORDER BY NOW

September is an important month in the garden, second only to May. Those perennials which bloom earlier ago, will now be getting ready to start their fall growth. This is the month to move, introduce or replant most of them, although the work can also be carried out in the early spring. Iris and peony roots are bought now, while delphiniums, phlox and later blooming perennials are best put in a little later. In starting a new perennial bed, it is very important to prepare the soil well in advance. This means deep digging, the provision of some sort of drainage in very heavy soil, and the working in of well-rotted manure. Iris should be planted very shallow, only partially covering the fleshy part of the roots. The tops of the peony roots should not be buried more than an inch or two below the surface, as deep planted peonies will not bloom. Shrubs can also go in at this time. Those flowers, such as the straw-flowers and Chinese lanterns, which were planted to provide winter bouquets, will need attention now. Select well-developed buds that are just beginning to open, cut with long stems and hang upside down in some dark warm place to dry out.

### INHERITS ESTATE

Portland, Me. (By Canadian Press)—Although he left no will, the estate of Fenwick L. Leonard will go to Ellen M. Brickley, who left her home in St. John, N.B. to care for Leonard after the death of his wife in 1923. The property consists of two tenement houses, the furnishings and \$10,000 in cash. Supreme Court Justice Stephens, in making this decision held that the woman "was occupying the position of relative, friend and housekeeper combined."

Ziolo Rodriguez, flashy Cuban boulevardier recently convicted for the brutal murder four months ago of 64 year old Mrs. Edith Munn and last week sentenced to die in the garrote chair, yesterday morning stopped his attorneys from filing an appeal of the case, saying he preferred death to life servitude.

## Why Farmers Prefer Endowment Insurance

HAVING insured farmers for nearly sixty years, we do not know of any group of men to whom life insurance has been more beneficial. Our experience has been that the average farmer lives out the term of his policy, and profits personally from his thrift.

The most popular policy with farmers is the Endowment Policy. It is generally bought for the amount of any mortgage that stands against property, so that funds to pay off the mortgage will be available at maturity; or in the event of premature death.

Every farmer who is physically fit should own life insurance, and if he buys a Confederation Life policy we can and will arrange for premiums to be paid at convenient times.

Write for a pamphlet entitled "Wm. Matheson Was a Farmer." It tells of his experience with a Confederation Life Policy guaranteeing Total Disability Benefits. Address:

## Beauty Invades Delivery Car Field

Studebaker in announcing its new line of custom-designed delivery cars as an addition to its present delivery car line has accomplished three noteworthy things; combined truck and passenger car style; made it possible for the buyer to secure such units at popular prices and also made it possible for the buyer to secure delivery units which possess advertising value as well as utility value.

The above photograph shows a deluxe panel delivery unit on the three-quarter ton chassis.

### DRIVER OF CAR IS RE-ARRESTED AFTER INQUEST

Ronald Maxwell Will Appear At Fall Assizes Here

#### APPEARED HERE

Is Accused of Responsibility For The Death Of T. McAllister

Ronald Maxwell, of Bancroft, alleged driver of the car which killed Thomas McAllister, also of Bancroft, two weeks ago, was re-arrested by Provincial Police immediately after the inquest into McAllister's death, which was held at Bancroft yesterday. He was brought to Belleville this morning and appeared before the authorities, and was released on bail of \$10,000. He will be charged with manslaughter, and will be tried at the Fall Assizes in Belleville.

Maxwell was driving south towards Bancroft on the night of the accident, and McAllister and a friend, Joseph Yateham had driven partly off the road to repair a tire. Another car, travelling north, stopped and pulled behind the McAllister car, letting the rear light shine on the tire which was being repaired, but neglecting to turn the headlights off. Maxwell says he was blinded by the headlights, and could not see anyone behind their car, with the consequence that he struck both men, McAllister succumbing to a little later, and Yateham recovering.

The inquest was held yesterday afternoon at Bancroft. Maxwell had been out on bail of \$10,000 up until that time. He was represented by the firm of Porter, Payne, and Arnott, of Belleville and B. C. Donnan, Crown Attorney, conducted the examination. Provincial Constable Percy Gray of Bancroft conducted the investigation.

### VICE-REGAL PARTY TO PAY SHORT VISIT TO BELLEVILLE NEXT WEEK

Mayor Greenleaf Notified Of Plans Made By The Governor-General

His Excellency Viscount Willingdon, Viscountess Willingdon and the official vice-regal party will pay a short visit to Belleville on Monday, September 16th. Their stay here will be brief, but tentative plans have been laid for a civic reception.

This was the information conveyed in a communication to His Worship Mayor Greenleaf from the secretary of the Governor-General, on Monday, September 9th. The Governor-General, to notify you that he proposes to visit Belleville on Monday, September 16th. He will arrive by special train at 5:30 p.m. daylight saving time, and will leave at 7 p.m. daylight saving time. He will be accompanied by H.R. D. Waghorn, Viscountess Willingdon, and three or four members of the staff, whose names will be forwarded to you later. Among those accompanying the vice-regal party will be, Captain R. T. W. Plender, A.D.C., and Captain R. J. S. Streetfield, A.D.C.

The communication was signed by Secretary E. C. Miville. Since this is the first visit of the King's representative in some years, it is to be hoped that every cooperation will be given by the Mayor, Greenleaf, the City Council, and other civic bodies in their attempt to arrange a suitable reception for such an occasion. Citizens are urged to watch the press for further announcement in connection with the event.

### TOT'S REMAINS INTERRED HERE

Funeral Of Little Drowning Victim Well-Attended Yesterday

The funeral of the late little Ronald Conley, son of Mr. and Mrs. Elmer Conley, of Rochester, N. Y., who met a tragic end when he was drowned in a boat house on South Front Street on Saturday morning, was held yesterday afternoon. A large number of people, friends of the parents, attended the obsequies of the lad.

The funeral which was conducted by the Rev. Fr. Kinlan, took place from the residence of Mr. Bert Asseline, Front Street. The bearers were all friends and included Don Boulter, Jim Trautman, A. Lynch and J. Weir. The remains were laid to rest in St. James Cemetery.

Weird Tale Of Sea Connected With Disappearance Of J. Smith

#### WELL-KNOWN HERE

Echoes Of Sinking Of The "George A. Marsh" Heard In Court

Special To The Intelligencer  
Oklahoma City, Okla., Sept. 10.—Climaxing a series of the Great Lakes, filled with adventures of naufragus, shipwreck and dual personalities, C. C. Christison, the County Judge today held that a recluse known as J. Smith who died February 23rd, 1927, at Harrah, also was Capt. John Wesley Smith, thought to have sunk with his ship on Lake Ontario, Aug. 8th, 1927.

As the result of Judge Christison's decision, the two children of Captain Smith, Mrs. Margaret MacLellan and Horace Smith, Toronto, Canada, will share equally an estate of \$13,443 left by the Smiths who died at Harrah.

Although Porter H. Morgan, attorney for the heirs introduced an affidavit from Mrs. MacLellan's husband, Neil MacLellan, a sailor on her father's ship, the "George A. Marsh," to the effect that Captain Smith was not on board when the boat went down, Judge Christison indicated that his decision was based on two statements of the Harrah Smiths. Shortly before he died, Smith, a dealer in hides and furs, had an altercation with another man near Harrah. Borrowing a surname, Ben Wilson, he told the latter of his daughter, Margaret in Belleville, Ontario. He also mentioned the fact, according to Wilson, that he was a member of Moira Lodge No. 11, of the Masonic order in Belleville.

Again shortly before his death, Smith is said to have mentioned his daughter again; Wilson said, Wilson was one of his closest friends.

Married Captain's Daughter  
One of the two survivors of the ship wreck, MacLellan, later married his former captain's daughter. According to her affidavit, MacLellan joined the crew of the "George A. Marsh" late in the shipping season of 1916. The ship docked at Belleville, then Captain Smith's home, for the winter, he said.

Leaving his home in January 1917, Captain Smith spent considerable time in the United States before returning to Belleville in April, MacLellan said. MacLellan then was called away by the illness of his mother and did not rejoin the ship until July 26, 1917. Sailing to Oswego, N.Y., for a cargo of coal, Captain Smith learned that he was being sought for smuggling aliens into the United States, according to the affidavit. Three captains had sailed with the ship so Captain Smith placed a Capt. Cousins in charge and told him to sail to the Big Sodus, on the Canadian side, for a load of coal, the ship having been unable to get a cargo in Oswego.

Captain Smith later was to join his crew, MacLellan said, on the morning of August 7, however, the ship foundered and sank—about three miles off Nine Mile point. The crew and officers and the families of MacLellan, then married to his first wife, and Captain Smith's went down.

Two Of Crew Saved  
Only MacLellan and a member of the crew, now said to be insane were saved.

Although he claimed to have received a letter from Captain Smith in 1921, MacLellan said that he never knew the man.

### FOREST FIRE TAKES BIG TOLL OF TIMBER

Vancouver, B.C., Sept. 10.—The toll of two hundred men finally has halted the forest fire in Merrill and the Ring logging area on Nanaimo River but not before two million feet of felled and benched timber, two donkey engines and two thousand gallons of gasoline had been destroyed.

### SEEK CONTROL OF INSECT PEST

Work Of Local Entomological Branch Explained To Kiwanis

Kiwanians at their regular weekly luncheon this afternoon had as their guest and speaker, Mr. A. B. Baird, of the Entomological Branch of the Department of Agriculture, who explained the work of this branch of the Department of Agriculture, Mr. Baird and his associates have been conducting extensive research work here.

The work of combating the ravages of injurious insects, as outlined by the speaker, is one of tremendous importance in Canada today. We have in this country at least a half million known species of insects, a great many of which are injurious and combine to inflict damages on field, garden and forest crops aggregating millions of dollars annually. Included in their number are both native species and foreign species, many of the latter having been introduced years ago and never successfully exterminated. The Corn Borer for example, which has carried on its ravages extensively in our own country, is one of the objects of their attack. Quite recently, was introduced some twenty years ago from America and has been responsible for extremely heavy losses to farmers all over the continent since that time.

Aim at "Balance"  
Occasionally these insects attack wood, sections of field or forest and completely ruin the object of their attack; a few years ago the spruce budworm in Quebec destroyed millions of dollars worth of trees; insects such as these present an additional problem for coming as they do from foreign countries, they have usually no parasitic enemies which might in turn destroy them.

The Government therefore has established the Entomological Branch of the Department of Agriculture to control these insects, and this work is done chiefly by establishing a balance between the destructive insect and its enemies—other parasitic enemies which in turn devour the trouble-makers. This is known as the biological method.

### YOUNG SWIMMER ROYALLY FETED

Port Colborne, Sept. 10.—Isador Sponder, 17-year-old local swimmer, who startled the world by finishing fourth in the recent Wrigley swimming marathon, was royally feted here last night.

The town council sponsored a grand reception in Rosary Hall, at which the lad was the recipient of several gifts and following this there was a banquet in his honor in the Star Hotel.

Mayor J. R. Tuck presided and offered congratulations to the boy and presented him with a wrist watch. Several hundred local people were on hand.

#### News at a Glance

##### MAN FALLS DEAD

Renfrew, Ont., Sept. 10.—Armand Mondon, Montreal, employed here for several months, fell dead Saturday night in his boarding house. Heart disease was given as the cause. He was 32 years of age. His wife survives.

##### DROWNED IN RIVER

Montreal, Que., Sept. 10.—William Macaveau, 32 of Saguenay, was drowned while swimming in the Riviere des Prairies when seized with cramps, yesterday.

London, Ont., Sept. 10.—Kenneth Lambie, 22, Cornell, pilot at the Commercial Airport here, was killed today when his plane crashed on a farm ten miles from here.

### INVITE READERS TO BIG DINNER

Five Thousand Ontario Conservatives Will Attend Banquet

Toronto, Sept. 10.—While W. H. Ireland, M.P.P., chief whip in the legislature, is busily engaged at the Royal York on the plans for the big Ferguson banquet on September 19th, the Provincial Conservative organization with throughout the province.

These preparations are the preliminary of an early election is agreed by Conservative officials almost without exception, but the date of the election still remains a guess, with any of the last four days of next month as the favorite choices.

Mr. Ireland, who will preside today at a meeting of the banquet committee of M.P.P.'s, announced last night that an invitation to attend the big dinner was being extended to Hon. R. B. Bennett, federal Conservative leader, and his sister. Mr. Bennett, however, will not likely be a speaker as the present plan is to have Mr. Ferguson deliver the only speech of the evening.

Invitations also will be extended, it is understood, to prominent business and financial men throughout the province. Many of the Ontario members of the House of Commons and the senate are expected to attend.

More than 5,000 men and women will desire to attend the banquet, it is estimated, and Mr. Ireland has asked the hotel management to give accommodation for the affair. Reservations are pouring in by wire and mail. With the dinner still a week away, Mr. Ireland has requests for nearly 2,000 tickets.

### JOSEPH SHORTT NAMED SUPT. OF SUNDAY SCHOOL

Local Y.M.C.A. Secretary Has Had Wide Experience In Church Work

Mr. Joseph Shortt, general secretary of the Belleville Y.M.C.A., was unanimously elected at the Annual Meeting of the Bridge St. Church Sunday School officers, as the man to act as Superintendent of the School for the next year, it was announced today.

Mr. Shortt has accepted the position and will commence his new duties next Sunday.

Mr. Shortt is exceptionally well-qualified for this position, having had a great deal of experience in Toronto Sunday Schools before coming to Belleville. It was his work in these various schools which first brought him to the attention of the Y.M.C.A. officials, and was directed due to his church work that he became connected with the Y.M.C.A. in Toronto, leaving the newspaper business to become general secretary at West End Y.M.C.A. Toronto.

For fourteen years Mr. Shortt was superintendent of the Clinton St. Methodist Sunday School, Toronto, and was for two years superintendent of the West United Church before coming to Belleville. For three years he was president of the Toronto Methodist Sunday School Union, which was made up of 3,800 teachers and pupils in Toronto. Mr. Shortt is fully competent to handle the affairs of Bridge St. Sunday School, and that school is sure to benefit through his efforts.

### FIRST RAIN IN THREE WEEKS OF LITTLE BENEFIT TO FARMERS OF QUINTE DISTRICT; CROPS SUFFER

BUYERS CIRCUSES  
John Ringling Now Controls Chief American Shows

New York, N.Y., Sept. 10.—John Ringling, noted circus owner, last night announced purchase of five circuses, Sells, Flora's, Hagenbeck Wallace Animal show, Sparks, John Robinson's and the A. G. Barnes wild animal show. The transaction was completed last month.

Farmers Dispose Of Stock Due To Lack Of Pasturage

#### WELCOME RELIEF

Weatherman's Announcement Of Rains Received With Interest

This morning's sharp, sudden and all-too-brief downpour was of little use to the farmers. The Intelligencer was informed by several of them to day. It is too late in the season for rain to be of any great boon, the only thing that it will benefit will be the pasturage. At that, a good two days' rain is needed following the long draught.

Prince Edward County received little rain today. According to A. M. Stinson, of R. R. No. 3 Concession, a prominent farmer in that district there was little or no rain at all to day. "It was so light over here, as far as I can make out throughout the county that it was scarcely felt," Mr. Stinson told the Intelligencer this morning. "A high wind followed and it only sprinkled for a very few minutes before seven o'clock this morning."

The late backwash is about the only crop that would benefit from a "good rain," was Mr. Stinson's opinion. "With regard to the potato, there is little or no hope for them. I have dug practically all mine and even if it rained hard it would not help the potato crop."

Produce marketers on the Market Square this morning looked hopeful when it started to rain early in the morning, but their hopes were soon squashed after a sharp down pour lasting about five minutes. "It was a good thing," said the buyers, "but it was not enough to do the crops any good. Wheat, oats and other crops have all been taken for the most part and only some late grain is left. "If we had two or three days of good hard rain," he stated, "it might do some good in the county."

Pasturage  
The farmers to some extent. While mowing in Prince Edward County on Sunday last, it was ascertained that many farmers were selling some of their stock, pasturage is so scarce.

High Wind  
Shortly after twelve o'clock noon, high winds sprang up. "The wind in Trenton is very high," Chief Bain said this morning, "but so far it has not done any damage."

### FIRE MENACING THURLOW DEPOT

Village Of Point Anne Is Threatened By Bush Fire

Fire which broke out in some unknown manner early this afternoon threatened to destroy Thurlow Station and several homes in the vicinity of Point Anne today, and help sent from Belleville just at Pre's time are still fighting to save the buildings from the destructive flames. The high wind of the afternoon has made the fire-fighters' work doubly hard, and although no buildings have yet burned, there is every possibility that some property damage will be suffered.

At three o'clock this afternoon, the fire had invaded the Canada Cement Company farm just north of the plant and the huge plant itself is only a quarter of a mile from the nearest flames. The Front Road schoolhouse and a store owned by Noble Brown right on the highway, were in the most dangerous position this afternoon, but the fire of men was on hand to defend this property. Several tanks of water were dispatched from Belleville via C.N.R. to help fight the fire at Thurlow Station.

### NAPANESE MAN IS HELD BY POLICE

Leslie Bentley Is Taken Into Custody On Serious Count

Toronto, Sept. 10.—Traced here from Napanee where he is alleged to have passed worthless cheques, Leslie Bentley, no permanent address, was taken into custody last night by Detective-Sergeant Arthur Levitt and Detective William McAllister. He is being returned to Napanee today for trial.

Bentley was arrested after an all-day search by the detectives, who finally became potential partners in a garage and in search of a mechanic to effect the fugitive's apprehension. Bentley, in a telephone conversation with the pseudo automobile dealer, pleaded to be allowed an audience with them last evening and was rewarded by a warm welcome when he walked into the arms of the sleuths.

### UPWARD TREND FORCED TO STOP

Bullish Enthusiasm Given Chilling Effect By Brokers' Borrowings

New York Sept. 10.—The stock market alternately blew hot and cold today as opposing speculative forces struggled for control of the price movement but the latter generally was under pressure despite wild bullish demonstrations in few high priced specialties. Fear of mid month credit pinch and renewal of Federal reserve pressure to force reduction in brokers borrowings had chilling effect on bullish enthusiasm.

Call money renewed unchanged at eight percent but advanced to nine by early afternoon, due to heavy out of town withdrawals.

GIFT OF THE NATION  
London.—The Chancellor of the Exchequer has received from an anonymous donor the sum of \$100 to help reduce the National Debt.

### RAISE \$3,000 FOR PALESTINE RELIEF

Windsor, Ont., Sept. 10.—Borden Jews last night subscribed \$3,000 cash for relief of their compatriots in Palestine and 21 young men from 3 women enlisted in the Jewish Legion ready for war service. Another \$2,000 was promised.

### BRANTFORD MAN LOST IN WILDS

Brantford, Sept. 10.—Word was received by Andrew Bishop, city 87, that his father, Peter Bishop, aged 87, and well known in this district and in Grey County around Listowel, has been lost in the wilds of British Columbia and has not been heard from or seen since August 21. It was again all hope of finding him had been abandoned, although every effort has been made to ascertain his whereabouts.

### THE WEATHER

Lower Lakes and Georgian Bay—Wednesday—Fresh northwest winds, fair and cool.

## TODAY'S THOUGHT

"Optimism makes a man of thirty-five buy a new suit of clothes and two pairs of trousers."  
—Lord Dewar.

## RADIO CACOPHONY

We wonder just what the ingredient is in man's mentality that makes him turn the radio controls to full volume and then open wide the windows and doors for all the world to hear. If the intent is to make the neighbors envious of his set, it doesn't achieve its purpose. The fellow next door may only have a one-tube cigar box that can't get anything but tiny squeaks and static but he'd rather listen to it than to his neighbor's straight eight that has all the latest doo-hickies and thumgummys. And when radio set owners in block or district knuckle down to real competition of a summer evening each trying to drown out the others, radio ceases to be entertainment and becomes instead a nuisance to be exterminated. The thanks of a great army of distracted householders will go out to those citizens who have made specific complaints to the police, and it is interesting to know that there is a civic by-law which adequately covers the situation and to be told that prosecutions will follow if the police warnings go unheeded. Radio is a remarkable entertainment medium, offering a program of such variety that it is possible of evening to extract from the ether music, song or story to fit one's mood of the moment. It is a pity that the fruits of the science are being abused. Everybody knows of homes in which the radio loud speaker pours out a veritable onлет of sound from morning until midnight—a good 90 per cent of which output receives not the slightest bit of attention from members of the household. Housewives tune in on the recipe and household hints of a morning but when those give way to stock market reports a service in which the majority of them have not the slightest interest, the set isn't silenced, as it should be. Hours are spent at the upstairs workroom, but the good housewife does not toll harder than the box of coils and gadgets in the living room which grinds out everything from grand opera to Easy Lessons in French. And so it goes, right through the morning, afternoon and evening, night—and morning again. It is a system that is hard on the receiving sets, but harder on the dispositions of the neighbors and has caused more community unpleasantness already, we think, than all the line-fence disputes in history. Let's try being temperate instead of temper disturbing—and give the other fellow a break.

## GETTING BACK TO STUDY

Now that the vacation is over, students are faced with the problem of getting back into the habit of work. Not all of them of course, for some devoted their energies during the summer months to employment of some kind. Still even they are faced with the task of fitting themselves into the old habits of study. But if they would only recognize that they cannot simply drift back into their old habits, but must make a real effort at the beginning, the best part of their difficulties would disappear. When we are faced with something new, something which has in it the spice of adventure, it is not so hard to try but when we have to pick up an old routine then it is not so easy to tackle it. Now how is this habit of work to be regained? We can find the answer if we ask what

it is that spurs us on to do anything at all. This spur is the desire or the aspiration to achieve. When a boy faces the pitcher he is aroused to do his utmost, to throw his whole attention and energy into what he is doing by the thought that he is going to make a home run. He has an aim, an objective, and this objective is so strongly fixed in his imagination that it is not so hard for him to try. If he didn't try we may be sure that he would not get to the first base. And this is true of every line of effort. There is a difference between the boy or girl with the bat and the boy or girl who will ultimately gain a marked success in life and this difference consists in just this: The boy with the bat only looks forward a few minutes; the boy who is to be a great success looks forward many years. When the latter begins to feel fed up with work, he brings to his mind the achievement he is aiming at. That keeps him up. He forgets about the tedium of what he is doing and thinks about what he is going to accomplish. So his work ceases to be a grudge, it becomes pleasant, it becomes easy, simply because he puts more effort into it, and he puts more effort into it because he has a vision, a vision of what he is going to be, but he must be careful that he does not become merely a dreamer. He must not say, "I wish I could do so-and-so." He must say, "I will do it, and I am starting right now." So the boy and girl getting back to school work will soon find it easy if they will say to themselves, and mean it, "I am going to pass with honors and I am starting to do it right now."

corrected at this time, and thus save the child from present embarrassment and to an even greater extent in the future.

I believe that you'll agree that this examination is worth much to your child and children, and that any refusal to co-operate, on the part of the parents is because they haven't looked into the matter thoroughly.

## MARKS HER 90TH BIRTHDAY AMID FAMILY RE-UNION

A happy little party of about sixty gathered at the home of Geo. Anderson, Hawley, to do honor to his mother, Mrs. Thomas Anderson, who celebrated her ninety birthday, Sept. 3rd. Friends from Odessa, Newbury, Picton, Belleville and Napanee were there extending to her congratulatory greetings. The magnificent and small gifts as a token of love. Mrs. Anderson was honored much by having her two sisters, Mrs. Fraleek from Odessa and Mrs. Chambers, of Napanee, also four brothers, Geo. Parks, of Picton; Ozel, Archie and Thomas Parks, of Napanee, all of whom were over seventy years of age. Her only children, three sons, their wives and her granddaughter, Jean, were present. At high noon a beautiful dinner was served. The mammoth birthday cake so prettily decorated and presented by her daughter-in-law, Mrs. Geo. Anderson, was cut to serve the many guests by Dr. Stratton, of Napanee. After dinner the happy party entertained themselves by playing games on the spacious lawn. A telephone and piano music, choruses and solos all were cheerfully rendered. Two solos were old time songs sung by her two brothers, George and Archie. The guests were invited to call themselves to order and listen to an address read by her eldest son, P. M. Anderson.

## THAT BODY OF YOURS

By James W. Bar-on, M.D.

### LET YOUR CHILD BE EXAMINED

Your youngster is starting to school for the first time.

You have tried your best to test him or her in every possible way, and when you perhaps receive a request from the school authorities for permission to remove some of the youngster's clothing in order that heart, lungs, and spine may be examined, you become indignant.

You feel that such a procedure may be necessary for some children but not for yours, because of your watchful care. Now what about it?

It is possible of course that your youngster will come through such an examination without any recommendations from the physician and nurse, but what do the records show?

That your youngster who has always been able to see the pictures in a book or on the screen may have deficient eyesight because when placed fifteen or twenty feet from the blackboard he cannot see the standard size letters distinctly.

Perhaps as the nurse or doctor speak to him in a measured tone he doesn't hear distinctly and yet most of the other youngsters have no difficulty in hearing.

This may be due to an after result of some childhood ailment, or to enlarged tonsils.

When the youngster is weighed he may be found lighter or heavier than the average child of his height and age. This may be due to underfeeding and excessive play, or to overfeeding and laziness.

Examination of the spine may show a curve sideways or too far forwards at small of the back thus giving a protruding abdomen. Proper posture is a part of the training which all school teachers now try to teach their pupils.

Perhaps you have been under the impression that your youngster's heart was not strong and you have forbidden him to play. The examination shows that it is not only safe for the child to play, but that his heart, and lungs also, need strengthening, and of course play is the proper method to attain this strength.

The examination of nose and throat and the condition of the teeth and the shape of the mouth, very often present conditions that can be easily

corrected at this time, and thus save the child from present embarrassment and to an even greater extent in the future.

We wish you to please accept this little gift (purse of gold) as a token of the high esteem in which we hold you, the one we love who has ever been so faithful, kind and true to us.

Signed by your sons.  
P. M. Anderson.

## MANUSCRIPTS ARE PRESENTED TO NAVY

London, Sept.—Sir Leicester Harmsworth, who a few years back made a gift to Canada of valuable manuscripts in memory of his brother Lord Northcliffe, has now presented to H.M.S. Victory a collection of documents associated with the history of the ship. The collection includes the manuscript journal of R. E. Robert, who served as a midshipman in the Victory at Trafalgar, and the naval signal book formerly in possession of Mr. John Scott Purner, secretary to Lord Nelson, who was killed in the battle.

The gift has been made by Sir Leicester and Lady Harmsworth as an expression of gratitude for the recovery of the King, and has been gratefully received by the Board of Admiralty on behalf of H.M.S. Victory.

The hatless lad brings out man's humanity to the hat-check girl.

## OLD CHURCH TO BE RENOVATED

Sacred Edifice In Cheshire Dates Back About Eight Centuries

Cheshire, Eng. (By Canadian Press).—In connection with the appeal for funds towards the renovation of this ancient black and white timber church of Warburton, Cheshire, the Earl of Stanford opened Dunham Massey Hall and grounds to visitors one afternoon recently, a charge of one shilling being made to enter the grounds and a charge of two shillings to view the Hall, the Earl's beautiful residence. Domesday Book mentions "Wareburg-tune" and there was perched a taxon church here, and probably on its present site. In the reign of Henry II. Northwiche White Canons settled at Warburton, and the date of the timber church in the church has been placed by some in the twelfth century, while the would make it coeval with their arrival. Other authorities place the date of the present oldest part of the church about two centuries later. However, that may be a church of much the same date as the present one. The spot for at least 700 or 800 years. The whole was probably originally of timber as the north side walls, but the south and west end were rebuilt in Lymn sandstone in 1645. The chancel was built in the first place an independent addition in the same timber style as the nave, and about 1711, when the brick tower was built, the east end was extended in brickwork. The "Little Chancel" on the south side, built entirely of Lymn sandstone, was added in the seventeenth century.

The low-pitched roof of the nave is of a wide span and supported by strong pillars of oak, on three of which are stages' horn hat pegs and on another a plain hour-glass stand. The seals on the south side were removed in 1895 on account of dry-rot, and the two main pillars and the front were at the same time cleaned from the paint with which they had been thickly overlaid. The pulpit and oak communion table are acopian, and the front-cover is dated 1895 and the bell 1576. Though the earliest date in the records is 1611, entries were not regularly made until 1634.

## SIX IN ONE FAMILY WILL BE DOCTORS

London, Sept.—Of the six children of Councillor J. T. Hallen, Mayor of Lewisham, the borough covering a large slice of Southeastern London, six have qualified for the medical profession. His five sons are all doctors and his daughter, Miss Eileen Hallen, has just become qualified. All the sons served with the

## THE BULLETIN BOARD

### Mainly About People You Know

#### O. S. D. OPENING

The Ontario School for the Deaf will open its regular classes once again tomorrow, under the acting superintendent, Mr. J. H. Campbell. The new superintendent has so far been named to succeed the late Dr. Coughlin, the intelligence was not expected to be approximately three hundred and fifty students are expected to attend.

#### NEW DINING ROOM POPULAR

With the opening of the Fall season this month, dancers will find a new centre for their activities, the new cabaret recently opened by Wong's Cafe. An attractive upstairs dining room has been thrown open to the public, and the Harmony Kings Orchestra is dispensing excellent music for the patrons of this popular spot. A first class dance floor makes an irresistible appeal to all, and Wong's new upstairs, dining room is fast gaining an enviable reputation as the place to "dine and dance." Regular meals are served in the dining room at the regular fifty cent rate daily, and no cover charge is made upstairs. A large staff of experienced, courteous waiters assures perfect service at all hours and a visit to the new dining room will convince you that it's the place to go and take your party.

#### FOLLIES AT CAPITOL

Undoubtedly the biggest musical hit of the season is presented to Capitol Theatre patrons this first half of the week in the all-singing, all-dancing, all dancing screen success "Fox Movie Tones Follies of 1929" is presented to local screen fans.

Headed by that popular, peppy favorite, Sue Carol and well-known Dave Lee, a smart musical comedy cast of two hundred dancin' and sang their way into popularity with the packed house which greeted the first showings yesterday. Gorgeous stage settings, songs that keep one's feet stepping, such as "Breakaway," "Walking with Susie," "Big City Blues," and many others are put over in real style with unique stage effects. The new musical will continue to score a big hit with yesterday's audience, and it is safe to say that never has there been shown here on either stage or screen a musical show produced on as lavish a scale nor one with a bigger appeal.

Follies of 29 will be shown at the Capitol again today and Wednesday.

#### MISCELLANEOUS SHOWER

Last night was the scene of a quiet miscellaneous shower in honor of Mrs. Robert James McLean (nee Annie E. Mason), when the staff of St. J. Fisher's office, gathered at the bride's home, Front street, together with several intimate friends to wish her many years of happy wedded life. The bride was the recipient of many lovely gifts, which showed the esteem in which she was held among her friends. The evening was spent in cards and games. Refreshments were served, after which the party broke up in the wee sma' hours of the morning.

## A SCARCITY OF U. C. MINISTERS

### Cures Suggested to Try And Alleviate This Condition In Canada

Rev. Dr. E. H. Oliver, of St. Andrew's College, Saskatoon, says there is a scarcity of ministers in the United Church of Canada. The Principal reckons that 90 graduates per year are required to keep even with the present ministerial strength but fears that scarcely more than 65 are being graduated and ordained annually.

There are several angles from which laymen can approach such a situation. For instance the baptism of adult sons of one family at Central United Church, Stratford, Ont., on a recent Sunday suggests one way of remedying any shortage. One for the ministry from a family of eight would not have been considered a bad proportion in the old days in Scotland.

The religious nurture of eight lads will require the best that the Sunday Schools can afford. The Border Cities' Star, of Windsor, Ontario, has an editorial on the influence of the motor car on afternoon attendance at Sunday Schools and suggests that school be held on Sunday mornings to counteract any decline in attendance.

Possibly the best training of Sunday School teachers will stimulate the production of suitable candidates for the ministry and, in this connection, lay opinion commends the United Churches of Manitoba for obtaining at Cedar Lake a site for another school. The teachers are trained for Sunday School work and inspired to find a life vocation in this ministry.

### Sons Follow Fathers

If example counts for much, the tendency of the sons of ministers to enter the ministry should cause young men from the homes of the laity to consider the satisfactions which the ministerial career may afford. Much is heard of the petty hardships of the manse, and so it is interesting that in Toronto Conference this year 10% of the clergy were retained were the sons of ministers and one of them, the fifth in line from father to son to enter the ministry.

In the Bay of Quinte Conference a father and his son both entered the United Church's ministry at the same time. Rev. W. P. Fletcher, of Oshawa, and his son, Rev. W. G. Fletcher, both coming from the Christian Church while the tendency a few years ago was for the United Church to let its men go into other and less crowded communions. It would appear that in this respect the tide has turned.

Recently a Baptist minister and a Hungarian Reformed minister were among applicants sympathetically heard for admission to The United Church's work.

Looking toward the other end of the ministerial career, Dr. David Christie of Winnipeg, is striking. On his retirement, after 20 years in the charge, the congregation undertook to contribute \$1,200 per annum toward his livelihood while in retirement and instructed the managers to receive gifts toward the same. Rev. W. P. Fletcher, of Oshawa, and his son, Rev. W. G. Fletcher, both coming from the Christian Church while the tendency a few years ago was for the United Church to let its men go into other and less crowded communions. It would appear that in this respect the tide has turned.

### DEATHS & FUNERALS

MRS. PHOEBE ANN WEESE  
Mrs. Phoebe Ann Kimball, wife of Randall Weese, passed away today at her home in Albany. She leaves to mourn her loss her husband, two daughters, Sarah, of Ulica, N.Y., and Carrie of Los Angeles. The deceased was seventy-one years of age.

### SEEK CONTROL

(Continued From Page One)  
method of control and is being successfully applied. The study of these insect parasites is the chief work of the local branch. Right now the local branch is working with the Corn Borer. The operation of the grower is keeping his premises as clean as possible of the balance of the field crop not gathered and in addition three parasites of the corn borer have so far been established here and are doing their work of gradually establishing a "balance" between the borer and its enemies.

This biological control is permanent, whereas the chemical cure, that of spraying is but a temporary cure at best.

### Karnival Next Week

Chairman Joe Inlath today outlined plans for the Carnival and an army of Kiwanians with banners and saws will start tomorrow evening preparing the grounds for the big event which commences next Monday evening. Many first class attractions have been booked and Belleville Kiwanis is working hard to present an even better Carnival than in previous years.

Two new members were introduced today to the Club, Messrs. George Forin and George Tio.

## CREW OF TEN LOST LIVES ABOARD BOAT

Kharadlav, Ussr., Sept. 10.—Ten members of the crew of the Soviet oil tanker Kharadlav, with their families numbering, it was believed thirty persons, lost their lives today at Norky ten miles down the Volga when the steamer exploded.

## TODAY'S MARKET

## POSED AS LOCAL PHYSICIANS IN OBTAINING FUNDS

### Pseudo-Brothers Taken To Toronto After Serving Sentences

Toronto, Sept. 10.—Nine more charges of fraud were laid by Toronto police yesterday against two prisoners known locally as George and H. E. Graham, pseudo brothers who were returned to this city 10 days after serving a jail sentence in Montreal.

The two men, police say, operated here last February. H. E. Graham, 28, had been a B. C. prisoner and had made a practice of duping in Toronto bank branches a cheque for \$100, drawn on a non-existent account in a Belleville bank and made payable to his "brother," who passed as a university student.

With the cheque for \$100 to his credit here, the younger man would purchase by cheque various articles from retailers here before the Belleville bank could notify local banks that the cheques were worthless.

The T. Eaton Company, the Robert Simpson Company, Hollingsworth's, Limited, and the Dominion Automobile company were all victimized to a total of about \$1,500. "Through an automobile 'purchased' here, Detective-Sergeant Harold Waterhouse and Detective Joseph I. Ewing traced two men to Montreal several months ago, only to find that Montreal police had laid charges against the pair. On release, they were re-arrested and brought back to Toronto by Detectives Waterhouse and Ewing.

## TOO LATE TO CLASSIFY

WANTED—BARBER. APPLY 384 Front St.

ment. A big trek was taking place north of the Battle River. New country was being opened north and east of Prince Albert and the tragic fact was that where the Church used to be first on the ground, such was not the case now. A survey showed that in southern Saskatchewan 22 of the United Church were required at once.

## YOUTH RELATES POIGNANT STORY OF SUFFERINGS

### Michel Courtois Remained Two Months In Quebec Woods

### Roots, Berries And Fish Bones Furnished Meagre Livelihood

Roberval, Que., September 10.—How thirteen-year-old Michel Courtois remained for nearly two months beside the body of his brother, Rene, nineteen years of age, found dead last week in the woods, and how the two of them had wandered for miles, famished and helpless, after their scant provision of food had run out, was described here at the inquest into the death of Rene Courtois, found dead in the woods of northern Quebec after having been missing since August 1928, and buried by the search party under the spot where he lay.

"Take away that food; I'll faint," maybe I'll die!" gasped the exhausted youngster when the search party offered him a bit of food.

"Holy-eye," bearing all the marks of misery enduring during the tragic odyssey, young Michel told a poignant story of misadventure to the coroner's jury.

Roots, berries and fish bones furnished slender means of livelihood for a time. They were four hundred and fifty miles from Roberval, the nearest outpost of civilization and they could find no camps.

Having but two matches, Michel kept a fire burning in a pall for two months. When the search party found him the fire was still smouldering. At last, on or about July 10, Rene could go no further. He died with a prayer that his young brother might be saved. The prayer was answered, high into death, the lad was found several days ago, beside the skeleton body of his brother, delirious from his sufferings, the boy could only stare inappreciably at his saviours. Then he managed to say:

"It's papa who's found me!"

"Your papa is all right," an Indian assured him.

"At first he refused to eat, but patient coaxing induced him to take a little food. He laughed hysterically and sobbed bitterly by turns, and told the search party that it was not true and that he only dreamed he saw them."

### Is a Physical Wreck

Although Michel is completely restored, young Michel is a physical wreck. He will remain under strict medical supervision and treatment for some months, it is thought.

The two boys were taken to the bush last year by their father, David Courtois, a trapper, who left them with fifty pounds of flour, some meat and had a beaver, while he undertook a side hunting trip. The boys wandered from camp, when their father returned they were missing. At first the father thought that they had taken the home trail for Roberval and went back himself finding his mistake. He raised the alarm and search parties went out.

### INFANTILE PARALYSIS REACH HIGH MARK

Ottawa, Ont., Sept. 10.—With two more cases of infantile paralysis admitted to the Isolation Hospital last night the total number of cases reported since the disease first started to spread late in July, was raised to the high mark of 75.

## CARD OF THANKS

The family of the late Samuel Caskey wish to thank their friends for floral tributes and kindness shown them in the recent sad bereavement of a loving father.

## NOTICE

The Next Regular Meeting of Court Moir, No. 3, Independent Order of Foresters, will be held on Wednesday, September 11th. The holiday season is now over and we hope all members will be present, as there will be special business to transact.

## BIRTH NOTICE

READ—Born at Belleville General Hospital, Saturday, Sept. 7th, 1929 to Mr. and Mrs. Carl Read, a daughter.

HUFFMAN—To Mr. and Mrs. D. V. Huffman, Grover Street, a son.

The father who helps his youngsters with their homework is also back at the same old desk.

## PERSONALS

### VISITORS WHO COME AND GO

Mr. J. Huleman, of Mariora, and two daughters, Genevieve and Annie, spent four days in Toronto and attended the C. N. E.

Mr. Wallace Plager who has been with Arnold's Meat Market for some time, is leaving for Port Hope for a few weeks prior to going to St. Catharines where he has been transferred to their branch in that city.

Mr. Lionel S. Jackson arrived in the city yesterday from Bermuda to attend Ontario Business College.

Mr. F. Marbey and daughter Grace are spending a week's vacation at Pappeneau Lake.

Mr. and Mrs. Milton Dilling and Mr. and Mrs. Chas. Lloyd have returned from a pleasant motor trip to Quebec City.

Mrs. Harry Day, 18 Everett street, is visiting friends in Oshawa.

Mrs. J. A. Laidlaw, of Vancouver, B. C., is the guest of her mother, Mrs. Kelso, George St.

Mrs. A. H. McConnell and daughter, Marion, of this city, have been visiting the former's mother, Mrs. Hart, of Murray.

Mrs. A. H. Wallbridge, of Vancouver, B. C., is visiting her mother, Mrs. Kelso, George St.

Miss Mary Mason, of Montreal, was a recent visitor at the home of her parents, this city.

Mr. and Mrs. J. A. Charlton (nee Georgina Ruttan) have returned from a honeymoon through the States, and will be at home to their friends, one hundred and seven Station Street, after September the fifteenth.

The formal millinery openings take place tomorrow and following days at Mrs. Harman's 42½ Bridge Street, upstairs, opposite Post Office.

Sept. 9-31d.

## WEDDINGS

### PURDY-HALEY

Two well-known Trenton young people were united in marriage at Drayton United Church, on Monday, September 2nd, when Bessie Haley, daughter of Mrs. Rhoda Haley, of Ottawa, was married to Albert Edward Purdy, son of Mr. and Mrs. L. F. Purdy, Queen St., Trenton. The ceremony was performed by Rev. Mr. Vipond.

The bride wore a gown of white velvet and bridal veil of lace arranged in cap effect and caught with orange blossoms. Her bridesmaids were her two sisters, Miss Alice Haley of Ottawa and Mrs. Eastman, of Drayton, and the groom was supported by Mr. Harold Butler, of Cobourg.

After the ceremony, a reception was held at the home of the bride's sister, Mrs. Eastman, with Mrs. Haley and Mrs. Purdy receiving. Mr. and Mrs. Purdy left later on a motor trip to the States, and upon their return will reside in Belleville.

Among the out-of-town guests were Mr. and Mrs. L. F. Purdy, and Miss Helen Purdy, of Trenton, and Edith Graham, of Trenton.

Both bride and groom have many friends in Trenton. Mrs. Purdy was for two years on the Dufferin School teaching staff there, and Mr. Purdy was engaged in Simmons' Drug Store for several years. He is now interested with his father in the milling business in this city.

### SANKEY-GODFREY

Miss Isabel Godfrey, daughter of John Milton Godfrey, K.C., and Mrs. Godfrey, and Major Richard H. Sankey son of Mrs. Sankey and the late Major Villiers Sankey, Toronto, were married on Saturday at the country home of the bride's parents, "Arden," Credit River, J. C. Bodine of Brampton officiated. The ceremony was held out of doors and the effect obtained by the costumes was medieval. The bride's train was led by four singers in quaint costumes, with lace caps in their heads. They were followed by the bride's attendants, Miss Patricia Godfrey, her sister, as maid of honour, and Mrs. John Sibbold, matron of honour. Their gowns were golden chiffon velvet, and they too wore Juliet caps in medieval style. The four junior bridesmaids were Misses Phyllis Lee, Beatrice Norworthy and Mary and Peggy Oxley. They were in pale yellow tulle, and all the attendants carried arm bouquets of variegated nasturtiums. The bride was given in marriage by her father, and she wore a nosegay as gown of embroidered silk. The groom wore a white tulle suit and a white tulle waistcoat and a white tulle waistcoat and a white tulle waistcoat.

The bride was given in marriage by her father, and she wore a nosegay as gown of embroidered silk. The groom wore a white tulle suit and a white tulle waistcoat and a white tulle waistcoat.

## REGENT

TODAY AND WED.

## STYLE SHOW AT KIWANIS SHOW THE BIGGEST YET

### Merchants Laying Plans For Display At Annual Karnival

The feminine public are anxiously awaiting the first Authentic Revue of the new autumn styles to be presented at the Kiwanis Show and the Big Edition. This co-operative style show by Belleville merchants is now entering its fifth year and it plans now under way are carried out to the city. The show should far surpass any previous efforts. The merchants who are cooperating in this show are sparing no expense nor effort in their endeavor to gather together the very latest word in the style notes for Autumn and their buyers have been scouring the Fashion Markets toward this end. This year when the curtain rises on the first night the public will face one of the most beautiful stage settings ever attempted in Belleville and with addition of novel lighting features and spot lights the style show should be a real feast of beauty and entertainment.

Major R. H. Sankey is a son of Mrs. Villiers Sankey, formerly Miss Ponton, of this city.

## FAMILY

(Continued From Page One)

revealed the information to his wife because of the captain's order. The letter was mailed from Oklahoma City, he said.

"I had various reasons for allowing Captain Smith to go down with the ship, but I did not disclose that he was not on the vessel," MacLellan's affidavit read.

"I had his request when he left Oswego, I was in constant fear of some kind of investigation or the presence of our wives and seven children who were on board and lost, I did not know what would become of this allegation of smuggling, nor did I want anything to be connected with Captain Smith's name, much less did I want the allegation known to my present wife, the deceased Captain's daughter," he continued.

### Remarks of Judge

"I do not attach much credence to these affidavits," said Judge Christie "referring to the one from MacLellan to persons who knew Captain Smith at Belleville. It is too easy to get dates and events mixed if one tries to remember back too far."

"It has been 12 years since Captain Smith disappeared from the ship. In that time, memories probably have become confused. It is not likely, though, that there should be two J. Smiths from Belleville, Ontario, who would come to Harrah and live like this man," he continued.

"When he mentioned his children and his lodge, and the names he gave check out alright, I think that he must have been the same man who was known to those folk up there," Judge Christie declared.

The estate was administered by Ben F. Miles, Harrah banker, who called attention to the fact that J. Smith made a deposit in his bank on Aug. 8, 1917. Miles told the Judge that the only reason he had insisted on substantial proof that the two Smiths were the same was to safeguard his position as administrator the estate would have gone to state if Judge Christie had ruled out the claims of Mrs. MacLellan and her brother.

## Just For The Feminine Reader

### GAUNTLET GLOVES FOR EVENING WEAR

Fashion demands long gauntlet gloves for evening, probably because long gloves are so in character with the formality of the new languishing gowns, short-waisted and trailing of skirt, and the woman who is fashion-conscious will undoubtedly desire the comfort of these new gloves, even if it be belittled. There is a small measure of solace in the fact that they need not be always in white, the once standard and dignified shade for evening. Now, as long as they match the slippers in tone and aid them in enhancing the beauty of the gown, these new gauntlet gloves may be in color all the way from the sombre black suede in which Maggy Rouff showed them, to the brilliant red gloves that Worth used to brighten his white evening gowns. Now that Paris has turned her attention to dislodging the simple pull-on glove from its coveted position on the correct glove for street wear, it would seem that its days are numbered. The idea of the pull-on glove per-

ists, but it is now lengthened in some cases nearly to the elbow or may flare into a monaquette cuff intended to drape up the plain sleeve. This gauntlet cuff naturally provides opportunity for all sorts of original increased designs in contrasting leathers and signs as well as bracelet effects in applied metal or leather. Where the glove remains true to the pull-on type or three clasps down the inside of the wrist designed to give a more slender wrist line.

Plat forms almost fabric-like in their character are used very generally by Paris for intricate incrustations on this season's new hats. The fur sets off the incrustated design to even better advantage, and has done the reversible advantage, whose brilliant solid side may contrast in texture with its sober felt side, but hardly affords the pronounced color and texture contrast of fur on felt. This liking for a touch of fur on the new hats finds another expression in the use of ermine tails as trimming for the more formal hats.

MAKE BETTER HOME MADE BREAD

### WHAT'S NEW (From A Woman's Standpoint)

Premier is featuring an empire model in black panne satin and crepe net.

382 applications for patents were filed by women in England last year.

Paris reports that white gowns, crystal jewelry and red finger nails and heels are the last cry in evening fashions.

The latest definition is: "A husband is a man who comes home two hours late and wonders why in thunder his wife hasn't got back."

Many prominent New York people now own whippet and greyhound kennels and, after the fashion of race horse owners, they ship their dogs about the country to various meets.

One of the most distinct features of the recent London season's entertainments was the craze for breakfast dishes at supper, and Mrs. Reginald Coke, whose Russian ballet party in Chelsea last winter was a success, gave a "whoopie" at which a concertina orchestra played and breakfast food exclusively was served at 10.30 o'clock on tables spread with jade-green cloths.

One of the newest skirt models seen at the Belmont opening was that with the skirt developed with an over-skirt that is the full length of the skirt and pooped over the back only, while usually it is cut in one with a short peplum in front, or else it ties at front like an apron turned around.

A Tanager correspondent writes: "At tea at the British Sports Club 91 Scouts of six nationalities and three religions ate 750 cakes and, immediately after, with only one mile's march between, sat down undisturbed to another similar light repast as guests of the French Boy Scouts."

A great many of the new small toques have tiny roses at the back in the cache-peigne style and some berets also with brims, are ornamented with a "paving" of tiny blossoms forming a band on the right side of the forehead, and sometimes, for one who wears a flower is worn behind the ear of a hat!

New shoes recognize the importance of fall colorings in a versatile shade called blue fox, a very soft caramel-brown, which has the quality of taking on the predominant cast of the season, and there are both purple and blue lights in this color, so that when worn with almost any of the new fall fabric tones, the shoes blend to perfection.

It's folly to suffer long from neuritis, neuralgia, or headaches when relief is swift and sure, thanks to Aspirin. For 28 years the medical profession has recommended it. It does not affect the heart. Take it for colds, rheumatism, sciatica, lumbago, Gargle it for a sore throat or tonsillitis. Proven directions for its many uses, in every package. Every drug store today has genuine Aspirin which is readily identified by the name on the box and the Bayer cross on every tablet.

"I can't give them up," she said at last. "This house, servants, fascinating clothes, going places, doing things, away in some dusty corner. Waiting I'd grow sullen and ugly. Hidden for him to come home, dusty and tired. To a dusty little house in a dusty little street. Dust! I've had enough of it, I tell you. I shook it off. I've been hard, cruel, contemptible. Because I could not endure the dust. It chokes me. It makes me want to—kill."

Greta was alarmed by the storm of passion this talk of dust aroused.

"Take it easy, dearie," she said soothingly. "Nobody's throwing any goiter dust around this place. I thought you'd come out of that talpin you went into over a title. It's the bunko, bubble me."

"I'd have to give up everything. Even the clothes I wear. They belong to Alphonse. He'd make someone else make Mrs. Dexter, as he made me—and you, Greta."

"Thanks for the stewed apples," said Greta. "I'm not so hot on the beauty stuff, at that, but I have a way, dearie, I have a way."

"I'm leaving for Deauville early tomorrow morning," said Raquel, rising to a sudden decision. "Will you come along?"

(To be Continued.)

Rumors of a fortune to come should stimulate the hope of any member of the Blue family who finds himself without a red.

## THE WAY TO A MAN'S HEART

Ex-plant Al Forno

This delicious recipe is from an Italian cook-book:

Two medium eggplant  
Fourth cup melted butter  
Slice salt beef—minced  
Half teaspoon salt  
Fourth teaspoon paprika  
Two tablespoons grated Parmesan cheese  
Half cup buttered bread crumbs.

These amounts will serve four as a half eggplant to each person is a nice portion. The top will be browned nicely and the salt pork, eggplant, butter and Parmesan cheese will mingle in a tantalizing way. This may be the principal dish at luncheon or a vegetable plate dinner; the ingredients make for heartiness, as you can see. Chop fine the salt beef and add a tablespoon of salt; put in the eggplant, cover and let cook five minutes. Take from the water, cool a minute and slice in two lengthwise. Turn off the gas and light the oven.

With a stout spoon scoop out the pulp from the four halves, being careful not to break the skins. Put the pulp into the mixing bowl and add a slice of onion, a slice of celery, a slice of salt pork and crisp in a small frying pan. Take from fire and add the butter and pour into the eggplant pulp, mashing it to a paste. Season with salt and paprika—taste as you go along, for you might not want all the salt called for. Then stir in the grated cheese. Taste again and if you like, rub a garlic around the bowl or squeeze a few drops of onion juice in the mixture. Heat the bread crumbs in the frying pan with a little butter.

Fill into the skins, pressing them into shape; arrange in a baking pan, sprinkle over the butter crumbs and bake in a quick oven. At serving garnish with watercress or bits of parsley.

## SOME HELPFUL HINTS FOR BUSY HOUSEWIVES

To Keep Stove Clean

A clean, polished stove can be a delight to the eye, whether 1929 white or colored enamel gas stove, or an 1899 model coal range. To get full usefulness from this piece of kitchen equipment, especially if it burns gas, it needs to be cleaned regularly.

If a stove becomes splashed with grease, remove the grease at once with warm, soapy water, for the longer the grease is allowed to stay on the more difficult they are to take off. If the gas burners get clogged up the stove's efficiency is immediately impaired. They can be washed or even boiled in sudsy water. Dry them thoroughly, preferably by lighting the gas as soon as they have been reattached. The tray under the burner catches what ever boils over. It is easy to wash it daily after the dishes are done. The broiling pan and rack should be oiled regularly. It is a great temptation to forget them but they will be much harder to clean if you wait until the grease on them hardens. Warm soapy water applied immediately will save hard labor later on.

If the stove is enameled in white, or a color, or has door of that material, it should be wiped off every day. A black stove can be kept gleaming by an occasional application of polish.

## DAME FASHION'S LATEST CAPRICE

### Finger Nails Tinted A Color To Match The Gown

The latest eccentricity of fashion in Paris concerns woman's finger-nails. For some time past artists have vied with one another in suggesting the mode which caused women to stain their finger-nails to a deep red tint. Their appeals to woman's sense of self beauty have apparently gone unheeded, for the latest idea is to have finger-nails tinted to match the color of the gown which is being worn. For this purpose a woman has a bottle of a special varnish and little boxes of powder sprinkled on the varnished finger-nails gives them the desired tint, which may be mauve, green, blue, orange or crimson. These colors are, of course, washed off when the robe is changed. Another little eccentricity of fashion which has just been introduced is worthy of note. It is generally admitted now that most women smoke and also use a lip-stick. The effect of the lip-stick is sometimes spoiled by the cigarette, so the French tobacco Regie has introduced a special brand of cigarettes for women. With each packet twenty Madame receives a little lip-stick. It may be assumed that in this case a state department carrying gallantry a little too far.

## VETERAN DIES

Boston, Mass. (By Canadian Press)—Death has taken the veteran armorer of the Quebec State Army. He was Warren L. Meek, 66 years old and a native of St. John, N.B.

Meek came to this country at the age of five. He succeeded his father in the soap business. He was a veteran of the Spanish War, serving as Top Sergeant of Battery H. He joined the National Guard in 1915 and was the oldest veteran of the Guard at the time of death. He served as armorer for the past 38 years.

## SINCLAIR'S

## RECALLS BYGONE DAYS IN WEST

Lady Steele Tells Of Life In R.N.W.M.P. Barracks In MacLeod

Montreal, Que. (By Canadian Press)—Memories ranging from incidents of life around the barracks of the Northwest Mounted Police at MacLeod, Alberta, to the aftermath of the South African War when she was in Pretoria, with her husband, Brig-Gen. Sir Samuel Steele of Mount Police fame, and who commanded the Strathcona Horse in South Africa, were recalled by Lady Steele in an interview here.

Lady Steele was married to the then Major Steele in 1890, having met him while on a visit to the barracks at MacLeod. Mrs. Macdonnell, wife of Inspector A.R. Macdonnell of the Mounted Police who persuaded Sitting Bull to betake himself across the border and stay there by offering to ration him with bullets.

Indian chiefs "dropping in" for a cup of tea at the barracks were frequent occurrences, Lady Steele recalled. She told of Calf Shirt, a trapper-some Indian with a penchant for carrying around rattlesnakes inside his shirt, who used to call on Mrs. Macdonnell for the occasional cup of tea. One day, on answering his knock at the back door, Mrs. Macdonnell was met by the fearsome spectacle of Calf Shirt's pet, several rattles, sitting up around their owner, just by way of a little joke.

"Calf Shirt," she said severely, "you have got to put your nasty snakes away or you're not tea!"

MacLeod was notable for high winds that blew for days on end, and Lady Steele recalled the ludicrous spectacle of the barracks square with chickens digging themselves in and holding on, being swept away. An unwary passer-by was quite likely to have a terrified fowl blown into the face.

Many celebrated Indian chiefs were among those who had a partiality for tea, among them Red Crow, Chief of the Blue Feet. He, with two others, was brought to Montreal for a visit after the Rebellion, in which they had aided the white men, by the celebrated missionary Father Lacombe, to whom a memorial was recently erected at St. Albert, near Edmonton.

MacLeod was the largest Mounted Police Station set among Indian reserves and close to the boundary for its protection. The "Mounties" had to be in a constant state of readiness to turn out at a moment's notice. So high was their state of organization that an entire division could move within half an hour of being summoned, ready to be away on duty for a month or more.

An incident mentioned by Lady Steele concerned a drive of eighty miles undertaken by some of the force to fetch a physician, her own brother, Dr. Harwood, to attend one of her small daughters who was taken ill.

There were many jolly times in the life of the Mounted Police. The men had a quadrille club, and dances were attended by officers and their wives and the families of ranchers who would make as much as a day's journey for festivities at MacLeod. Among the local people was the original of "The Virginian". An event described in the book, the mixing of the babies, actually happened in MacLeod, Lady Steele said. Concerts mustered notable talent, and among those who attended there were Father Lacombe, Sir Frederick Haultain, Dr. (later Senator) de Voeber and Judge Charles Wood.

## SWEDEN HAS BIG STOCK OF BISONS

Stockholm, Sept. — Sweden now has the largest stock of bisons, or European buffaloes in the world and it is expected that this rare animal will continue to increase in number, although it was previously threatened with extinction. The bisons were originally imported to Sweden and have since been carefully kept and tended in a special preserve at Englebärg, in the province of Westmanland.

Similar work is being carried on with the beavers, which owing to indiscriminate shooting had practically disappeared in Sweden not long ago. Since eight years, attempts have been made to increase the beaver stock and there are now about twenty prosperous beaver colonies. The number of these animals is constantly growing, thanks to strict protection and care. German hares and pheasants have also been imported and are thriving.

excellently in Sweden.

Similar protection is being given through rigid game laws and supervision to other big game of Swedish origin, especially to the moose and the bear. The first mentioned is protected from hunters throughout the entire year with the exception of a couple of weeks in the early autumn and is therefore multiplying rapidly. The bear, "the king of the northern forest" is also safe from killers and reports from the government domains in the north show that there is a fair number of bears roaming the "Swedish Alps." The animal is quite popular as it is ordinarily not dangerous but has the reputation for being rather harmless and good humored unless it is attacked or wounded.

Many other species of wild animals also enjoy the same protection such as for instance the eagle and the swan. These legal protective measures are heavily endorsed by public opinion, since the average Swede is traditionally fond of animals of all kinds.

## TRACKS BLOWN UP

Shanghai, Sept. 9.—A Harbin despatch said a passenger train of the Chinese Eastern Railway was blown up Saturday, the tracks having been mined with high explosives. Two persons were killed and three injured.

## Who is Your Skinny Friend, Ethel?

Tell him to take McCoy's Cod Liver Extract Tablets for a couple of months and get enough of the good healthy flesh on his bones to look like a real man.

Tell him, it's the only way to take those grave-like hollows from his cheeks and neck.

Tell him that thousands of thin, puny, peaked, scrawny men all over America have improved this physical health and appearance and bless the day they first heard of these wonderful sugar-coated tablets so full of weight producing and health building essentials.

Ask for McCoy's Cod Liver Extract Tablets. Doyle's Drug Store and every drug store sell them—60 tablets—60 cents—economy size \$1.00. Almost any thin man or woman can put on five pounds of healthy flesh in 30 days or your money will be refunded.

One woman put on 15 pounds in six weeks. Children grow robust and strong—feeble old people feel younger in a few weeks.

EVERY EVENING NEXT WEEK AT THE ARMOURIES

## TO UNDERTAKE PRIMITIVE LIFE

New York Writer To Enter Wilds With Pair Of Spectacles

New York, September 9.—After ten years of sedentary occupation gathering material for Literary Digest articles Burt M. McConnell, of 231 West Twenty-Fourth Street, is leaving for "some where" in New Brunswick tomorrow to be a Hermit and what he calls "primitive man" until Thanksgiving.

From the depths of one of the biggest arm chairs in the Explorers' Club, Mr. McConnell outlined his plans today. He will go into a wilderness, the exact whereabouts he declines to reveal with nothing but a pair of spectacles and plenty of hope and confidence. His experiment, he explained, is to prove to the average middle-aged American businessman that to get back to cave-man stage is healthy and feasible.

Mr. McConnell's only physical weakness besides weak eyes is tender feet and his first intention is to fabricate a pair of cedar bark sandals. He will then look about for suitable foliage and bark to make himself some raincoat and to cover his body. The black flies, he thinks, have vanished at this time of the year, and he fears neither wolves, bears, snakes nor any other dangerous animals.

"With a spear," he said, "no man need have any fears. I shall then make a bow and arrow and I shall shoot duck, geese, moose and deer. I don't like berries."

"I believe," he added, "that prehistoric man smoked, so I shall make myself a pipe. Of course, I don't know what I shall substitute for tobacco."

## UNABATED HEAT IN THE BRITISH ISLES

London, Sept. 9.—Unusual heat which has scorched the British Isles for the last few days continues today unabated. A temperature of 88 degrees was recorded over a large part of England Sunday, driving thousands from town to country and seashore.

## SHELL HEAPS SHOW ANCIENT HISTORY

St. John, N.B. (By Canadian Press)—The story of prehistoric man as he had his being in New Brunswick and Nova Scotia thousands of years before this country was discovered by Europeans is to be found in numerous shell heaps scattered along the shores of the province, according to H. J. Boeckelman, of the Florida Natural History Museum Society, who is spending some time in Eastern Canada making a special study of these shells. The ancient Maritimers, it seems, had a particular predilection for the ancestors of our present clams and oysters, and in the moldering heaps of shell that mark the locality of their feasting are to be found stones, bones, and other articles indicating the nature and habits of the natives who inhabited this country long before its discovery by Columbus or his Norse predecessors.

In Northern Africa, shell heaps have been found dating back 25,000 years; in Denmark, 10,000 years, and in Great Britain over 5000 years. All the way up the Atlantic coast, from Florida, Mr. Boeckelman says, traces of shell heaps have been found in great numbers, and those engaged in research work have ascertained that these heaps exist along the coast to Greenland, and in Iceland, as well as British Columbia, the north of France. The Chinese coast is also rich in these mounds.

Football season will not really start until the college cheer-leaders hold their first shoutout.

## GIRLS FETED BY MOIRA FRIENDS

At the home of Mr. and Mrs. W. T. Wannamaker, of Moira, a very pleasant evening was spent on Friday Aug. 30th, when about one hundred of the friends of Missa Merle and Letha Wannamaker came together to bid them a farewell before leaving for Kingston, to take up the nursing profession.

About nine thirty o'clock Mr. Fred Elliott called the company to order and seated the two girls in the middle of the parlor. Miss Laura Robson read the address while Misses Hazel Elliott and Nellie Fleming presented them each with a beautiful pearl on amber set. Afterwards the girls in a few well chosen words, thanked the people for their kindness and also said they were looking forward to some day when they may be able in some measure to reciprocate for this token of their love.

To make the occasion of more interest, two ministering brethren, Mr. Geo. Penner, of Oakland and Mr. Geo. Calverly of Orillia, were there and each spoke at length of the girls' good conduct and what a great blessing they could be in the Christian life of the patient; they were nursing. After singing a hymn selected by Mr. Benner, Mr. Calverly led in prayer. A lunch was served by the ladies.

About midnight all left for their respective homes, after wishing the girls every happiness and success in their new sphere of life. Below is the address which was read: Aug. 30, 1929

Dear Merle and Letha,

We, your many friends, on learning that you are soon to leave us,

have gathered here to spend an evening with you.

We feel that we cannot let you go without telling you how we shall miss you. In both communities you have shown your willingness to help in all social gatherings and it is with keen regret that we see you leave us.

We realize, however, that this is a selfish feeling and that our loss is your gain. You are going out into a larger sphere of activity, and we know that you will always keep the ideal of service before you. Of course, we are looking forward to seeing you again when your days of training are over, and we hope that you will carry with you always our best wishes for success in your chosen career.

We ask you now to accept this slight token of our esteem.

Signed on behalf of your Moira and Bethel friends,

Hazel Elliott  
Nellie Fleming  
Edna Ketcheson  
Laura Robson

## RUM-RUNNERS FIGHT WITH COASTGUARDS

Detroit, Mich., Sept. 9.—Rum-runners and coastguardsmen met in the Huron River early today and engaged in a pistol battle, leaving the Government forces in possession of two boats loaded with 550 cases of liquor. No casualties were reported.

## HELD FOR RANSOM

Athens, Greece, Sept. 9.—Five bandits yesterday captured seventy excursionists near Terikala and are holding them for it is said a four million drachma ransom. (About \$25,000) among them was Senator Hadjigakis.

## DAMS BROKEN

Wellington, New Zealand, Sept. 9.—River Karamas today broke through a dam formed by an earthquake last June in gorges Karamas and caused considerable damage to farm property. No lives were lost.

## FRIENDS HONOR ROSLIN BRIDES

Daughters Of Mr. and Mrs. Wellington Fitchett Made Recipients

A very pleasant event took place at the home of Mr. and Mrs. Wellington Fitchett, Roslin, on Monday evening, Sept. 2nd, when the neighbours and friends gathered to shower their two charming daughters, Mrs. T. Emmons and Mrs. Henry Morton, brides of a few days.

The many gifts, which were placed on wagons decorated in pink and white and drawn in to the brides by the two little flower girls, nieces of the brides, Misses Beattie and Jean Howes, the brides in their wedding dresses and the tiny flower girls in blue making a very pretty picture.

During the course of the evening the Presbyterian Church, Roslin, of which these two girls have been valuable members, took the occasion to present each with a piece of cut glass, the following speech being read by Miss Elsie Duncan, while the presentations were made by Miss S. Montgomery and Mrs. Donald Leslie on behalf of the church.

"We of your church who are gathered here tonight feel we could not let this happy occasion go by without some expressions of appreciation of your faithful attendance at church and Sunday School and your work as teacher and organist, have made a strong appeal to our affections for you. We ask you to accept these gifts as a small token of our appreciation and high esteem and wish for you the Master's best blessings on your future happiness and success."

A number of speeches were also given by the friends and neighbours in which they all spoke of the high esteem in which both brides are held in the community. Refreshments brought to a close a

very pleasant evening, all wishing the brides much happiness and every success in their future life.

## THREE BURNED TO DEATH

## WE BELIEVE IN THE BAY OF QUINTE DISTRICT.

Whether you be living in Ontario or in any other of the Provinces of our Fair Dominion, you will find in the daily papers, plenty of evidence supporting the fact that if any District or province prospers, it must receive the whole-hearted support of the members of that community. In Eastern or Western Canada, it matters not where you look, campaigns boosting home-manufactured and home-grown products, and the necessity of the people of that District buying them, are to be seen on every side.

The Bay of Quinte District is no exception. Blessed with unusual fertility of fields and an unusual variety of manufactures, our District is indeed worthy of every bit of support that residents can give it. When you purchase Quinte-grown or Quinte-made goods, you help turn the wheels of farm or industry in your own District and thus do your part in making it prosperous. Only by this support will it achieve the development due it, and it will grow accordingly.

The merchants on this page are Boosters for the Bay of Quinte District. They know its possibilities and realize that with the help of the people, business and industry here will develop, and the Bay of Quinte District will take its rightful place among the leading Districts of Canada.

**PILGRIMAGE MADE TO ELLEN TERRY'S TOMB**

London, Sept. — Many who knew Ellen Terry when she was young and many remembered her in the play which she had performed, made a pilgrimage of homage the other day to the Church of St. Paul's, Covent Garden, the actor's church where the great actress so often worshipped, for a service of shrineship of the silver casket containing her ashes.

In a niche in the south wall of the church near the altar, the casket now rests on specially quarried stone, protected by beautifully ornamented copperwork, designed by Paul Cooper with the inscription: "Ellen Terry, actress, born 1846, died 1928."

The simple service was conducted by the Rev. Hart-Davis, the rector. Sir John Martin-Harvey read the lesson "Let us now praise famous men." Miss Edith Craig, Dame Ellen Terry's only daughter, withdrew the curtain from the memorial, and the rector said, "To the greater glory of God, and in thankful remembrance of His Servant, Ellen, I dedicate this memorial."

When the service ended the congregation filed past the memorial carrying branches of rosemary that the gardener at the small Hythe cottage where Ellen Terry lived, had brought to the church.

Last of all came Freddie Hayes' Elizabeth T. Barlow A.T.C.M. is resuming her classes in Piano and Theory. Phone 622-W.

**S. M. ANGLIN** Teacher of Singing —will be at the Albert College Conservatory of Music, Front St., Tuesday, Friday and Saturday after noons, Phone 1684.

## POPULAR LOCAL INSURANCE MAN GETS PROMOTION

The Central Ontario Agency of the North American Life Ins. Co. at Peterborough for their first annual gathering on Friday September 6th. The Central Ontario Agency is a consolidation of the Ontario, Belleville and Peterborough districts under the management of D. V. Ketcheson, who will shortly take up his residence in Peterborough.

The meeting was addressed by A. McCamus, Supervisor of Agencies and O. B. Shortly, manager of the Group Department both from the head office in Toronto.

The agency is under the new arrangement is expected to be one of the leading agencies in Canada taking in as it does some of the wealthiest counties in Ontario, from Ontario County on the west to Lennox and Addington on the east. D. V. Ketcheson, the branch manager has been one of the leading producers of the company and is well qualified to undertake the organization work of the branch.

A banquet was held at the Empress Hotel on the evening of the 4th, Mr. Shortly addressed the gathering on the subject of "Success."

Those present included: G. L. Nolan, District Manager at Oshawa. W. R. Emerson, Oshawa. C. VanEss, of Oshawa. C. A. Smith, of Lindsay. D. C. MacRostie, of Frankford. E. E. Ketcheson, of Frankford. O. B. Palmer, of Picton. H. M. Payne, Belleville. W. Harvey, Belleville. C. P. Rouhan, Campbellford. C. Hry, Campbellford. J. McLaren, Peterborough. Nagle Phelan, Peterborough; Edmon McConnell, Picton.

len Terry's "Call-boy" now a man of forty-three, who started with Sir Henry Irving when only eight years old and who remembers the famous days at the Lyceum when Ellen Terry and Henry Irving made theatrical history.

**CLAIM CATS SHOULD BE TAXED AS WELL**

Toronto, Ont., Sept. — A Niavina, Ont., correspondent of the press suggests that cats should be taxed and destroyed as the law decrees shall be done with dogs.

"Wherever one goes in the country, one runs across stray cats. Some probably left by loving owners at the end of a summer outing, some dropped by the road by equally loving owners who find apartments not convenient for pets, and some come from barns overflowing with large families of kittens. Many of these cats prefer the call of the wild to the call of a mistress.

"These domestic cats (never really tame) are becoming a very great menace throughout the country and in many places conservation societies are including them in their list of pests

and asking for their destruction. This is true in the cities, and villages also, especially in the case of bird lovers. A season may be shadowed by the tragedy in your trees or shrubs; a nest of birds may become a cat breakfast before you can make a rescue.

**AUCTION SALE**  
 Entire household effects, buggy, cutter, harness, of Mrs. Nancy A. Way, village of Canifon, on Friday, Sept. 13th at 1 o'clock. No reserve. Phone 433 Geo. O. Tice, s10-3td Auctioneer.

Members of the C.P.R. executive committee recently inspected second great oil-burning locomotive at Windsor station, Montreal. The photograph shows from left to right, Sir Charles Gordon, president of Bank of Montreal; Grant Hall, first vice-president of C.P.R.; E. W. Beatty, chair-

man and president of C.P.R., and Sir Robert Holt, president of the Royal Bank of Canada. The locomotive is for use over heavy grades of the Rock Island, and is of the twenty such type recently released.—Photograph by C. P.R.

**THE STRAIN ON COUNTRY HOMES**

Human Contact Is Needed To Make Life Worth Living

What has given country life its chief charm and was indeed the main source of its strength was the integrity and solidarity of the home of the household farmer. The age which produced the type was a great period in Canadian history. These household communities, bound by a time which held the family together and gave it in fluence in the neighborhood, have almost disappeared for under the spell of the city and the lure of cheap land elsewhere many family units have been broken. Individuals, instead of families, migrate, leaving behind them a remnant of a family. The most efficient and the most ambitious, as well as the restless and discontented, hear the call first, and in the old homestead, is left a broken family unit. If the children left behind do not marry, or if they feel themselves tied, by duty to aged parents, to a place they have ceased to love, there is nothing but tragedy.

Before the Canadian senate commission the Hon. A. C. Bell, referring to the province of Nova Scotia, had this to say: "In many parts you will find nearly every house occupied by an elderly couple, or by a bachelor brother and maiden sister."

Testimony from Ontario was given by E. C. Drury, of ten families on contiguous lots in a mile and a quarter, of which only three consisted of a father and mother under 45 years of age, and a family of children. During the winter of 1928, in Manitoba, investigation revealed the fact that in an area of 140 sections 23-3-4 were owned and operated by 16 families, by bachelor farmers, of whom 30 were past the age of 40 years.

The strain on the country home is increased by reason of the isolation consequent upon depopulation. In a community where every other house is vacant, or where there are great stretches such as, for instance, the ten 100-acre lots adjoining one another in Garrafrua, without human habitation, life takes on some of the qualities of residence in a graveyard. Such devices as rural mail delivery, the telephone, the radio, and the automobile have helped to break down this isolation, but no invention can take the place of actual human contacts.

Modern industrial conditions on the farm have resulted in new methods of farming, and that in turn has brought into existence a new class of country dweller. As land rises in value, tenancy is coming to be more and more a factor in country life. In the central part of Manitoba a district was reported recently in which there were 40 farms, 10 of which were occupied by tenants. Now and again a tenant is brought to the community so that he actually shares its life, but in recent years when the business of agriculture has been carried on with difficulty, successful grafting has become increasingly infrequent. Continued years of tenant farming results in soil robbed of its fertility, poisoned by weeds, and in buildings, out of repair, often unsanitary, where wholesome home life is next to impossible.

Scientists say deep sleep is a bad sign, which is very comforting to most of us after recent hot nights.

## SPORTING SECTION

## DELORO HERE TOMORROW

## SPORTING SECTION

## NATIONALS COCKED AND PRIMED FOR FIRST CHAMPIONSHIP GAME

Alex Weir Likely To Be Given The Pitching Assignment

## WOODS FOR DELORO

Good Workout Held At Fair Grounds Last Evening

The Nationals swing into action again tomorrow after a lay-off of ten days and whether or not it is rest has some 7:40 a.m. road work will not be known until after the game. Ten days is a long time for a team to go without a game, but exhibition battles have been hard to arrange and the fans certainly do not support the team in these games like they do in the league battles so nothing else could be done.

On the season's showing the Nationals are strong favorites to cop the Central League pennant in two straight games from the Senators, although stranger things have been known to happen than that Deloro should win this is the last season in senior baseball for Deloro and they are out to wind up their act with a championship of some sort, but it seems hardly likely that they will put Belleville away.

If Woods or they are throwing in their usual form, however, the Nationals batters are not going to fatten their averages a great deal, even though they will likely pull out with a win.

Although it is not yet definitely decided, Belleville fans can be prepared to see Alex Weir ascend the mound for the first game in the league play-offs. Alex has been pitching fine ball all year, and if he can tame the Senators in the first game, Uronski, who always throws his best game at Deloro, should have little trouble in getting by at Deloro. The rest of the team will be the same as in the last few games with Scott, Blakey and V. Weir at third, short and second, Peckham in left, the plate, and Harry Mills behind Green, E. Green and either Bennett or Uronski will play in the field. Manager Walter Gierow is confident that he has another team of Ontario Champions this year, and the fans should be out tomorrow afternoon and show their appreciation of the Nationals' efforts to bring fame to Belleville again in 1929, such as they did in 1928.

## HEAT WAVE STILL CONTINUES

London, September 10.—The unusual heat wave, which has scorched the British Isles for the last few days, continued today unabated. A temperature of 88 degrees Fahrenheit was recorded over a large part of England Sunday, driving thousands from town to country and seashore.

## CANADA'S NEWEST FLEET

**The Biggest Ships out of MONTREAL**

CANADIAN PACIFIC'S four new C. Duchesne—of Bedford, Athol, Richmond and York—have set new cabin-ship standards in size, speed, design, 20,000 gross tons each... the biggest ships out of Montreal... yet sharing with the ever-popular "Mont" and "M" cabin ships the intimate, Canadian atmosphere which recommends this type of travel to many of the Dominion's veteran travellers. Several cabin sailings each week, from Montreal and Quebec to Great Britain, Ireland and the Continent. Better secure accommodation early! See your local agent or J. B. MACKAY, General Agent, Canadian Pacific Bldg., Toronto.

## GIRL KILLED DURING HARVEST

Edmonton, Alta., Sept. 9.—Struck by the motor driven by his 15-year-old brother and her brain pierced by one of the sickle guards on the machine, Millie Dull, aged 8, was instantly killed on her father's farm in the Leduc district near here.

## "The World's Mine Oyster," Said Falstaff

JAPANESE DANCING GIRL

"Why, then the world's mine oyster, which I with sword will open," said a famous character of Shakespeare, but the modern version relates to going around the world in a big and comfortable steamship with no sword to open the oyster. These are days of peace and world travelers now planning their tours will be interested to know that one globe-girdling liner will call at ports hitherto omitted from her itinerary—ports rarely touched by cruising steamers. The "Empress of Australia," a 21,350 gross ton vessel, long a favorite with globe-trotters, will sail from New York December 1, 1929, on the seventh annual Canadian Pacific World

Cruise. Besides making her regular visits to the highlights of the Mediterranean to India, Japan, China, Hawaii and other fascinating places, her itinerary this time has been extended to include Athens in Greece, Palanang and Bangkok in Siam, with further calls at Keelung for Taikook, in Formosa. She will be gone 117 days, visiting 81 ports and places in 24 countries.

Athens is really three towns in one—the twisted lanes of the Athens that was little more than a Turkish village before the Greek War of Independence, the broad straight streets of the modern capital and the interesting ruins clustering round the Acropolis representing "the Glory that was Greece." The Parthenon, one of the most interesting ruins here, was chief among the buildings with which Pericles adorned the Acropolis about 500 B.C.

Bangkok, the capital of Siam, was originally built on floating

pontoons or piles on the river's edge, but nowadays well-planned roads and streets radiate from the city in all directions, beautiful Buddhist temples are scattered all over the town, and the Royal Palace is one of the show places of Bangkok.

Keelung, the chief port of the island of Formosa, is a hive of industry. Formosa is half the size of Ireland and is governed by the Japanese. In its northern fastnesses, still largely unexplored, lived the headhunters. The Japanese campaign of subjugation, however, has all but wiped out these barbarous people. The seat of government at Formosa is Taihoku. Here fleets of junks, manned by coolies, transport the visitors around the town, one of the chief attractions of which is the Governor-General's garden, where the world's most beautiful tropical plants bloom in exotic profusion.

## OFFER LEGION HALL TO BOXERS

## Fast Boxing Tournaments To Be Staged Here During Winter Months

Plans are proceeding for the Canadian Legion Boxing Show which will be staged here during the latter part of September or the first week in October. A number of new boxers will

make their initial appearance before a Belleville audience and since the hall has been offered gratis for boxing purposes several of the artists of the pasted ring have already started to get in shape for the campaign which will be continued throughout the winter months. The Legion are hoping to make the approaching competitions even better than those last Spring and besides the silver trophies, individual prizes will be offered.

All entries will be sent to Mr. J. Shepherd at the Canadian Legion and competitors will receive any information required by calling at the Legion headquarters. The Seward will instruct them as to weights, rules, etc.

Gloves, towels and other training requirements will be furnished at the Legion for those boxers who are just learning the game. The committee in charge of the boxing is composed of Messrs. Semaine, Keys, Hinton, Johnson, Hatfield and Robinson, all men who have had great experience in the field art. The support of the general public is necessary in the success of these bouts and boxers are urged to get in touch with the committee at once in order that they may lay plans for the opening engagement.

Rugby football players are now getting together in order to leave each other flat.

## The Girl and The Game

By Anita

(By Anita)

Martha Norrhus, the fair-haired, smiling girl who won the Women's Wrigley swim, in addition to being a star in aquatic sports, takes an interest in football as well. Although not a player herself she is a frequent watcher of the games at Sunnyside and last week pitched the first ball of the Parkdale-Supremes playoff game.

This shows her to be a real sport as Miss Norrhus is kept pretty busy these days, what with reporters, photographers and invitations to many social functions. Accompanied by Ruth Tower and Evelyn Armstrong, she was an interested spectator of the game.

On Saturday afternoon, the good old Cricket Field at Kingston was the scene of a battle royal between the Kiwanis Girls and the Brockville Soldiers. The result is not yet known but it will be in tomorrow's column.

This was the second game in the Kingston-Brockville series with the Kiwanis Girls possessing the advantage of one win. If they took Saturday's game they will meet Ottawa in the finals.

Brockville poses a pretty fair team and should have given them lots of opposition. May Powell, who has been off the pitching staff for the last month due to a dislocated shoulder is getting into the game again, and likely pitched on Saturday.

Everybody is anxious to know when the City League play-offs take place between the Frontenacs and Claco girls. We are sorry to report that this matter has not yet been decided and if the managements don't get busy it will be impossible to play these games out-of-doors.

There has been talk of playing the games inside the Armouries but the teams are not in favour of this and judging by some of the fans' comments the latter are also opposed to this scheme. After all it has been an outdoor league and it does not seem quite fair to the girls to make them play inside for the championship.

If the games were started at 5:30 there would not be any difficulty in completing the nine innings. Both the teams with the exception of one player can be on the field at that time, and it should not be hard for the one player to get off for half an hour.

One of the girls could be played Wednesday afternoon when everyone could be present. If the games are not played outside they will have to be postponed for three weeks as the Kiwanis Carnival will take up the inside of the Armouries during this period.

So come on you girls and do some

## Here and There

Canadian Pacific steamer Minnedosa recently brought over to Canada two fine stallions belonging to the Prince of Wales, "Aldebaran" an Arab, and "Cruader", a High River, Alberta. The two horses broke their journey at the Toronto Exhibition, and later were carried across the Dominion by Canadian Pacific Express. Special accommodation was provided for them on the Minnedosa.

Mr. Churchill looked very funny working on one of his father's threshing machines, said the Hon. George Rodney, aged ten, who with his younger brother John recently travelled to England to take up schooling. Winston Churchill is a cousin of Lord Portcarrington who operates a ranch at Fort Saskatchewan, Alberta.

The fourth game refuge has been established in New Brunswick by the provincial government at Beauséjour, consisting of 43 square miles located in Carleton and York counties. This makes a total in all of about 640 square miles of territory set aside in the province as game sanctuaries since 1919.

Hon. J. L. Perron, Quebec minister of agriculture, has announced the loan of two-thirds of the purchase price of pure-bred sheep, without interest charges, to Quebec farmers. He aims to place 25,000 pure-bred sheep throughout the province to bring in a yearly revenue of \$250,000.

A yield of 3,599,995 barrels of apples is expected in Canada this year, as compared with 3,235,970 in 1928. Compared with the five-year average of 2,983,311 barrels, this is an increase of 20%, making it a bumper crop.

Homestead entries in the four western provinces continue to run well ahead of last year. For the half year they total 7,129, as compared with 5,705 in the same six months period of 1928. Alberta topped the list with 4,062 filings; Saskatchewan followed with 2,811; British Columbia recorded 371 and Manitoba 325.

Sixty-three wells are being drilled in the Turner Valley, 30 miles south-west of Calgary, 23 are just about to be started and 23 are producing crude naphtha or crude oil—a total of 112 wells. Mr. Winston Churchill, on his recent trip across the Dominion by Canadian Pacific paid a special visit to the Turner Valley accompanied by Mayor Osborne of Calgary.

Selection is announced of John W. Dufoe, Editor of the Winnipeg Free Press, to act as a commissioner on the part of the United States on the International Commission under the Treaty for the Advancement of Peace between the United States and Germany. Mr. Dufoe was selected for this post by the United States Government acting through Hon. William Phillips, United States Minister to Canada. The International Commission now being set up by the United States and Germany is to have five members, of which Mr. Dufoe is the first to be named. All disputes between the United States and Germany, after ordinary diplomatic proceedings have failed, are to be referred to the Commission.

thing about the matter. It should not be difficult to arrange the games if the affair is given a little thought.

## News Of Quinte District

### HUNTINGDON COUNCIL

Huntingdon Township Council met all members present.

Minutes of last meeting read and on motion Scales-Dunn was adopted. Council went into Committee of the whole on By-laws to appoint a Tax Collector for 1930. Mr. Scales was appointed under By-law No. 537 which was given its 1st, 2nd and 3rd reading and signed, sealed and numbered.

Hagerman-Ash that following accounts be paid: Arthur Lemmon, 1 sheep killed, \$15.00; 1 sheep injured, \$5.00; Leonard Keene, vaulter, \$2.00; Ed. Benson for Plow and shovels under Machinery By-law, \$25.00; West 1st Inspector \$20.50; Repairing Bridge on Con. 7, lot 4, \$12.50; Township work by Ed. Benson, \$33.00; Clerk part salary, \$75.00; Councilman's salary, \$17.50.

Ash-Hagerman that Council adjourn to meet again on Monday, Oct. 7th at 10 o'clock a.m. Carried.

S. J. Kilpatrick, Clerk.

### BAYSIDE

Miss Louise Rush, a former Bayside girl who was teaching in Toronto, and who spent her vacation in Scotland last year, has now exchanged her position as teacher, with a Scottish instructor for one year.

Lawyer Cameron and wife, also Mr. and Mrs. Cuthan and family of Cleveland, Ohio, paid a visit to Mrs. Cameron's brother, Mr. Casey Ketcheson and other friends this week.

The Ladies Aid met at Mrs. Sandcock's this month.

Ernest Jeffery of Cobourg, spent Sunday at his mother's, also Mr. and Mrs. Will Jeffery and Mrs. Hogle.

Mrs. Vandervoort is visiting her son, Sandford, and enjoying being at church on Sunday and meeting several old friends.

Mr. and Mrs. Bert Hall and son's family attended the Toronto Ex.

Invitations are out for the wedding on the 14th of our former teachers, Miss Grillo to Mr. Ash, of Peterboro.

All the school children are invited to be at Alken's Church for the ceremony. Miss Grillo was a great favorite here and we are all to lose her, but many good wishes will follow her to her new home.

Miss Lutton, of Peterboro, is the new teacher at Bayside, she will make her home with Mrs. Percy Bolton.

Miss Davis, of Ottawa, has been engaged by the Quinte View School.

Donald Rush has accepted a position at the Capitol Theatre at Belleville.

There are so many bush fires this dry weather, the people on this street have hardly been able to breathe; the smoke is so bad.

### SIXTH CON. SIDNEY

Mr. and Mrs. George Bush and Betty, of Detroit, spent a couple of weeks in August camping at the river and visiting their relatives here.

A kitchen supper was held at the home of Mr. and Mrs. Joshua Richardson on Monday night of last week in honor of their daughter, Mrs. David Lamb. She received many nice presents.

Mr. and Mrs. Thompson, of Stirling, visited at the home of Mr. and Mrs. Clarence recently.

Mr. and Mrs. Ernest Burkitt visited Mr. and Mrs. Alex Bush on Wednesday.

The Sept. meeting of the R. V. W. I. was held at the home of Mrs. Hiram Rosebush on Thursday.

Mrs. Dan Shearer and Virginia are spending a couple of weeks in Toronto visiting relatives.

Our school opened on Tuesday with Miss Morgan, West Huntingdon as teacher.

### SPRINGBROOK

Several from here attended the camp meeting at Ivanhoe on Sunday.

Mr. and Mrs. John Murray and child, and Campbellford, had dinner at Mr. and Mrs. M. Fitzgerald's on Sunday.

Mr. Morley Mason, Peterboro, spent the week end at his home here.

Mr. and Mrs. Alfred Clare, Stirling, Mr. E. Post and Mr. Jack Quinn, Detroit, were Sunday visitors at Mr. Wesley Heath's.

Mr. and Mrs. Percy Bateman and family spent Sunday at Mr. Fred Penn's.

**When a Child is FEVERISH, CROSS, UPSET**

Colic, gas, sour belching, frequent vomiting, feverishness, in babies and children, generally show food is souring in the little digestive tract.

When these symptoms appear, give Baby a teaspoonful of Phillips' Milk of Magnesia. Add it to the first bottle of food in the morning. Older children should be given a tablespoonful in glass of water. This will comfort the child—make his stomach and bowels easy. In five minutes he is comfortable, happy. It will sweep the bowels

free of all sour, indigestible food. It opens the bowels in constipation, eases the children's ailments. Children take it readily because it is palatable, pleasant-tasting.

Learn its many uses for mother and child. Write for the interesting book, "Useful Information." Address The Chas. H. Phillips Chemical Co., Windsor, Ont. It will be sent FREE.

In buying, be sure to get genuine Phillips' Milk of Magnesia. Doctors have prescribed it for over 50 years.

## HE SUFFERED FOR TEN YEARS

Then ALL-BRAN Brought Relief in 2 Months—Doctor Recommended It

Constipation is dreaded not only for its own insidious self, but because of the many serious conditions and diseases it causes. Mr. Lind was a sufferer—but read how he found relief.

"For the past 10 years I have suffered from piles. At times I have been unable to work. I have tried suppositories, ointments, etc., but to no avail.

"Two months ago my grocer called my attention to Kellogg's ALL-BRAN. I began taking it regularly. Immediately the pain and annoyance from the piles was relieved. I found that it gave nature a fair chance to effect a cure."

—Wm. J. Lind, R. 2, Box 17, Appleton, Wis.

Don't neglect constipation. At any time its poisons may take terrible toll from your health and well-being. Protect yourself. Eat Kellogg's ALL-BRAN regularly—two tablespoonfuls daily, or in chronic cases, with every meal.

ALL-BRAN brings sure, natural relief. It is what doctors call a bulk food. It sweeps the intestine clean and stimulates normal action.

Ready-to-eat with milk or cream. Also try the recipes on the package. Results guaranteed. Doctors recommend it because it is 100% bran. Made by Kellogg's Grain Company. Served in hotels, restaurants, and dining cars. Sold by all grocers.

**Kellogg's ALL-BRAN**

## GOTHAM WRITER REFUSED PERMIT

Department of Lands and Mines Denies Scribe's Request

Fredericton, N.B., September 10.—Burt W. McConnell, of New York, of the editorial staff of The Literary Digest, who is contemplating entering the woods of Northern New Brunswick in the garb of Adam and maintaining himself there for a period of three months, has been given no permit to enter the forests of this province. Such permit must be issued by the Department of Lands and Mines for any person to have the legal right to travel in forest lands.

What effect this will have on the plans of Mr. McConnell is not yet known. His departure from New York was expected today.

The department issued the following statement this afternoon: "Special permits, which have been requested by Burt W. McConnell, of the editorial staff of The Literary Digest, New York, to carry out an experiment of going into the New Brunswick woods without food, clothing or weapons and there endeavoring to eke out an existence for three months, have been declined. And Mr. McConnell was so notified some days ago."

McConnell, in his negotiations with the Department of Lands and Mines, had the recommendation of William Carman Roberts, also of the editorial staff of The Literary Digest, and of other well-known men of New York. His announced intention was to come to Fredericton and thence go to Plaster Rock, Victoria county, from which place, on the Tobique River, he would make his way into the forests to carry out the experiment.

many of his letters. He was a strange character and perhaps the queerest thing about him is that he seems almost to have despised his own music. "An artist should control over emotion," he said, "and not vice versa under himself." Personally as a pianist and interpreter of Beethoven, I feel the same. I do not calm that I shall get into the skin of the composer, but I shall get my bet o' give as vivid an impression as I can of the mind of the man as I understand him, through my great love and reverence for his music.

"The gramophone was despised at first," Mr. Hambourg continued, and now it is realized that it has brought the love of the most beautiful music into the room. The sound film goes a step further and adds a human interest, and it will help to foster the love of the best which people will always take if you give it to them. A Beethoven film will, of course, send people to the concert hall where there is the authentic personal touch between the artist and the audience."

Mark Hambourg, who is a native of Russia, and a naturalized Englishman, is well known in Canada. He made his first tour in the Dominion in 1918. He also lived in Toronto for a number of years.

### AMERICAN LEGION RELOCATED

Montevideo Uruguay, September 10.—The Munson liner American Legion, which grounded on a mud bank here a few days ago, sailed this morning for New York. Temporary repairs were made to her damaged bow.

### GOLF CHAMPION KILLED

Paris, September 10.—Pierre Manguet, 23, French amateur golf champion, was shot today when his automobile, screeched from the road and overturned near Pontivy, a few miles west of Paris.

## EXPORT APPLE TRADE LARGER

Ontario Fruit Growers In Position To Benefit From Exports

Prospects for a heavier apple crop in Ontario this season add emphasis to the export market as a profitable outlet for surplus fruit. In the Eastern Ontario apple sections, where the bulk of the export fruit originates, it is true that the crop is not expected to be much heavier than the light yield of 1928; but as the fruit is considerably

thinner, there should be more saleable apples and growers will be more interested in export possibilities than they were a year ago. Furthermore, a United States apple crop of normal size is in the prospect this season. As the United States is the principal customer of the Ontario apple market, the fact that there is not likely to be any glutting of that market with U.S. apples is encouraging. Although the Nova Scotia apple crop is heavy and is largely shipped overseas, this fact is not disturbing from the Ontario viewpoint, as Ontario apples invariably command a premium over the Maritime product in Britain. This is with-out doubt due to the acceptance of Government inspection of all apples exported from this Province, a practice not followed in Nova Scotia.

Ontario apple shippers will also have the advantage of the services of an overseas sales representative at London. The permanent appointment of Andrew Fulton, formerly Chief of the Markets Division of the Fruit Branch, Ottawa, to this position was recently announced by Premier Ferguson. This service to Ontario shippers is in no sense an experiment, as Mr. Fulton is following a trail blazed by Mr. Somers, who inaugurated this service two years ago and whose direct contact with the British market has been of very definite value to members of the Ontario Fruit Growers Association, which is behind this move to expand markets and to improve market conditions. It is stated that during the term of Mr. Somers' service in London, Ontario apple shippers have been saved on an average \$100 a car through procuring better selling terms, outside of this matter of better prices received for the fruit. There is undoubtedly an unusual opportunity for intensive development work in this use consuming market in Britain, which to prove permanently successful must go hand in hand with improvement in quality and pack on this side.

Shippers who are interested in the export market and the sales service will find full information available from P. W. Hodgetts, Sec. of the Ontario Fruit Growers Assoc., Parliament Buildings, Toronto. Mr. Fulton and Mr. Somers are at present visiting all of the important apple sections of the Province to establish contact with any interested growers or shippers.—The Ontario Fruit Growers Association, Parliament Buildings.

## COLBORNE VENTURE CREATING INTEREST

Toronto—(Canadian Press)—No theatrical enterprise has created more interest in Canada than the new historical venture of Maurice Corbourn, achieving the longest literary ever undertaken on this continent by a British organization.

On his return to England in the Spring, Colbourne was greeted by his friend, Shaw who professed to be very much surprised that his plays had been so well received, but wouldn't Shaw have had some cruel things to say if Canadian audiences hadn't swarmed to his plays as they did? However, this season will see another most interesting repertoire including "Arms and the Man," "The Philanderer," "The Doctor's Dilemma," "Man and Superman" and "John Bull's Other Island"—the hit of last season.

The presence in the company of such old favorites as Barry Jones, who has been across Canada several times; Constance Pelletier, Phillis Oughland, Louis Pyott, Peter Spagnoli, Lambert Larking and John Counsell, will be most acceptable to theatregoers, while the addition of Margaret Rawlings, the clever young British actress, as well as Gabriel Toynce, Claude Haviland-Burke, Douglas Vigors, and Emsie Vernon, will bring new interest.

Novelly will be provided for by the presentation of "Man and Superman" in full, in the larger centres for this will entail a procedure similar to that employed by the producers of "Strange Interlude," with the performance commencing at 5 o'clock in the afternoon, and resuming at 8.30 after an hour's interlude for dinner.

## N. B. HORSES WILL RACE IN MAINE

Houlton, Me. (By Canadian Press)—New Brunswick racing stables have entered horses for the first night horse racing programme ever to be staged in New England; at the 18th Annual Houlton Fair, Aug. 27 to 29 inclusive. The local power company has co-operated with fair officials in lighting

Reg. 25c and 29c—19c! Of good quality rubber, trimmed with frill of contrasting color—and around pocket. Rose, blue, and green. A limited quantity on sale—**19c**

Each

—Main Floor—Right.

## Advertising is a reference book that is never out of date

There is a dictionary so large that it took more than thirty years to compile and publish. This great book seeks to give the truth about all words and their uses. Today, only the last volume, devoted to words beginning with "Z" is strictly up to date.

Consider the advertising in this paper. It describes commodities for your use, as a dictionary describes words. It tells how they will save you time, increase your comfort, give you the advantages of modern living. Yet none of it is out of date by as much as a year.

Advertising is news, as much as the headlines on the front page. Very often, indeed, it is news of more significance to you, and has more bearing on your life today, tomorrow. Read these advertisements with confidence. They are the daily reference book on the things you need.

Advertisements keep you abreast of the times.

Read them.

## HEAVY DAMAGE FROM FOREST FIRES

### Complete Arrangements Made For Reception To Vice-Regal Party

#### OFFICIAL WELCOME FOR GOVERNOR GENERAL AND PARTY AT GROUNDS OF LOCAL COLLEGIATE INSTITUTE

#### TRUCK OVERTURNS LABORERS KILLED

Canadian Press  
Mount Forest, Ont., Sept. 12.—Della Maw, Innesville, Ontario, was killed and three other laborers were taken to the hospital last night after a truck in which they were returning to their sleeping quarters at a day's work overturned. The injured were A. Geocobill, G. Donati and Harry Marri, all of Toronto.

#### TENDERS THANKS FOR COURTESIES EXTENDED HERE

#### Miss Florence Wickes Departing For New Fields

Miss E. F. Wickes, field secretary of the Mission To Sailors on Inland Waters Society in Eastern Ontario prior to her departure for other fields, called at the Intelligencer office today to convey her thanks through the medium of the press to the Belleville citizens for their co-operation and kindness shown to her during her two weeks stay in this city.

In former years the work being done by Miss Wickes was well known under the supervision of the late Mrs. Mary G. Hawley.

In the future there will be no local representative of the society in Belleville and Miss Wickes will pay periodic visits to this city for the purpose of keeping up the fine mission. Her present visit was the first and she had had considerable difficulty in picking up the thread of the work. The splendid help given by the Belleville pastors and others who have made the continuance of the work possible is greatly appreciated by her for this reason. Miss Wickes is a native of North Hastings and for this reason takes more than the usual interest in this district.

#### RELATIONS WITH RUSSIA RESUMED

#### Arrange Meeting Between Soviet And British Representatives

(Canadian Press)  
London, Sept. 12.—Great Britain today took new steps toward resuming commercial and diplomatic relations with Soviet Russia. The British Government sent to the Norwegian Government for transmission to the Russian Government a note expressing the view that the time had come when it would be desirable to resume the conversations interrupted several months ago by the departure of the Soviet plenipotentiary Dvorkovskiy.

It is thought possible a meeting may be arranged between Rt. Hon. Arthur Henderson, the British Foreign Secretary, and a representative of the Soviet Government while Mr. Henderson is at Geneva.

#### THE WEATHER

Moderate winds, becoming unsettled with few local thundershowers.

#### VESSEL MISSING IN UPPER LAKE

(Canadian Press)  
Chicago, Sept. 12.—The gravel carrier Andate, with a crew of twenty-eight, was nearly two days overdue in Chicago from Grand Haven, Michigan today. A check of the ports on both sides of Lake Michigan into which the vessel may have been forced by storms brought no information. An aeroplane flew over the lake late yesterday and 35 miles out sighted a craft which was thought to be the Andate, but there is no doubt it was the missing vessel.

#### Mayor Greenleaf Announces Plans Complete For Reception

#### ARRIVES AT 4.39 p.m. Tour Of City Will Be Made By The Vice-Regal Party

Mayor Greenleaf today announced plans for the entertainment on Monday afternoon next of His Excellency Lord Willington Governor General of Canada and party at the city.

The special train bearing His Excellency and party will arrive at the North Station at 4.39 p.m. Included in the party will be Lady Willington, Capt. R. T. W. Parnes A.D.C., Capt. E. J. Streetfield A.D.C. and His Excellency's Secretary Mr. E. C. Miville.

The party will be met at the station by His Worship Mayor Greenleaf and Aldermen, together with their ladies; the chief Magistrate will present a key to the city to the distinguished visitor, and the party will then proceed along Station Street to Front, down Front Street to Bridge, East on Bridge to Church and along Church to the Collegiate Institute Campus.

On the spacious campus of Belleville's fine new Collegiate Institute, building will have been assembled the boys and girls of all schools in the city, including public, separate and high school pupils, and students of the Ontario School for the Deaf, the Girl Guides and Boy Scouts of the city will also be present while the Cadets will form a guard of honor for His Excellency as he proceeds to the terrace of the main entrance of the Collegiate, to the accompaniment of singing by an immense chorus of children and music supplied by the Argyll Light Infantry Band.

At the Collegiate entrance the Mayor will deliver to His Excellency and party the official welcome, and the response will be made by a member of the party. The general reception and presentation will follow, the ceremonies being interspersed with music and singing by the massed chorus and A.L.I. band.

A tour of the city will then be made by His Excellency and party and the various points of interest seen including the Hospital, Home for the Aged, Albert College, School for the Deaf and other institutions. His Excellency will then return to his train for dinner.

Will Open Carnival  
At eight o'clock Kiwanis will be honored in having His Excellency Viscount Willington officially open the Annual Kiwanis Carnival in the Armories. At that time he will be made an Honorary member of the Belleville Kiwanis Club.

#### GIRL ABDUCTOR PLEADED GUILTY

#### Frederick Kane Remanded For Sentence Until September 20th

Brookville, Ont., Sept. 12.—A pitiful story of ill treatment was told in police court here today by Betty Perry of Toronto, who will be ten years old this month, testifying against Frederick Kane, also of Toronto who pleaded guilty to a charge of a serious offense against her while camping with her at Black Rapids, near Lyndhurst, Leeds County during July. She said he had attacked her and then lashed her with a belt because he feared that she had told others near the camp of his treatment of her. Kane was remanded for sentence until Sept. 20th.

#### WORKER IS KNOCKED FROM BICYCLE TODAY

Robert Stanley, 38 Johnson St., was the victim of an automobile accident at noon today at the corner of Coleman and West Bridge streets, when he was knocked to the pavement by a car driven by James White, of Chicago. Stanley was not injured to any great extent, although Dr. Cronk of the Belleville Ambulance was called. He was removed to his home and although not able to go to his work at the Springer Lock Works this afternoon, feels that he will be fully recovered by tomorrow.

Wreckage Of Giant Air Transport

The photograph reproduced here shows wreckage of the air transport, which eight persons lost their lives when it crashed against the side of Mt. Taylor. This photograph was rushed to Los Angeles by P. and A. Photos, thence transmitted via A.T. and T. telephone wires to Cleveland.

#### COBOURG MAYOR IS NOMINATED

#### Cabinet Minister Intimates Definite Plan For Campaign

Peterburg, Sept. 12.—Mayor Fred J. McArthur, native of Toronto, but for 18 years a resident of Cobourg and mayor of that town for three years, was yesterday nominated by the Conservatives of Northumberland in convention at Warkworth, as the government candidate in the next provincial election. Mayor McArthur, who was the defeated Conservative candidate in the 1926 campaign, was successful against two other aspirants, Dr. Hancock of Cobourg and Harry Phillips of Brighton. Three other nominees declined to allow their names to go before the convention.

The meeting was featured by two important statements from Hon. Wm. Finlayson, minister of lands and forests who was the principal speaker.

Mr. Finlayson intimated that a six weeks campaign could be expected and declared emphatically that the liquor question would not be an issue in the campaign.

The real issue, he declared, would be the improvement of rural conditions in the province, the extension of the good roads system into more remote districts and the bringing of hydro power and light to more farmers. Having passed the peak in the matter of good road construction in the older parts of the province, the government was now in a position to extend the blessing of good roads and better transportation facilities to sections that have hitherto been neglected. Similarly it proposed rural hydro extensions of importance.

The Ferguson government, Mr. Finlayson asserted had to its credit a record of beneficial legislation on behalf of Ontario. "We are prepared to go further," declared the minister, after he had enumerated the workmen's compensation act, mothers' allowances and old age pensions as some of the humanitarian measures for which the Conservative government was responsible.

MERCURY DROPPING  
Springfield, Mass., Sept. 12.—Closely following the period of much heat and high humidity, the mercury dropped to a minimum of thirty degrees hereabouts today and frost was reported at Brimfield.

#### PREMIER RESIGNS CABINET POSTS

(Canadian Press)  
Rome, Sept. 12.—Benito Mussolini, the Italian dictator, today relinquished seven of the eight cabinet posts he holds in the Italian Fascist government. He remains Premier and Minister of Interior.

The Royal Decrees announcing the action also contained notice of replacement of two other ministers, those of Public Instruction and of National Economic. The new ministers will take oath before King on Monday.

#### ELECTION OCT 31st

London Free Press Predicts Election Next Month

London, Ont., Sept. 12.—The London Free Press today announced Thursday, Oct. 31, as the date of the forthcoming Provincial election in Ontario. Nomination day will be Oct. 7. The Free Press says, and adds that Premier Ferguson will likely make the official announcement, next Tuesday.

#### FAMOUS PLAYERS PLAN ELABORATE THEATRE HERE

#### Mr. Geo. Forhan Former Belleville Boy Named Manager

Coinciding with the recent visit to Belleville of C. A. Robson, Eastern Division Theatre Manager for Famous Players Canadian Corporation, comes the announcement that J. H. McCarthy, pioneer motion picture theatre owner and manager of Belleville has sold his theatrical interests to Famous Players Canadian Corporation and plans a well equipped rest from business activities.

With the acquiring of the Belle Theatre, Famous Players will close that theatre on September 15th and will immediately start an extensive overhauling and renovating of that theatre. It is planned to spend a sum in excess of \$40,000.00 to entirely redecorate and refurbish the Belle. Plans call for the interior to be entirely redecorated with all new crystal electric fixtures to be installed. The mezzanine floor will be completely furnished with all new and modern furniture; the floors will be entirely covered with the finest grade of Saxony carpeting. The latest and most efficient heating system will also be installed.

The exterior appearance of the Belle will undergo a complete change with an elaborate and ornate marquee; practicing the main entrance, and a huge Neon sign will emblazon its attractive.

(Continued on Page 3)

#### INVITE SAILORS TO BIG REGATTA

#### Interesting Dinghy Races Promised On Bay Of Quinte Course

It is expected that dinghy sailors from the Royal Canadian Yacht Club, Toronto, as well as some sailors from the Kingston Yacht Club, will come to Belleville on Saturday next to attend a regatta that it is held at the Bay of Quinte Yacht Club.

It is not yet known definitely whether the eastern and western clubs will accept the invitation that has been extended by the Bay of Quinte Yacht Club at Mr. Angus Mowatt, secretary of the local association, has received no reply.

Both these clubs have visited Belleville in the past, and some interesting races have been held off the clubhouse.

#### COMING EVENTS

The well baby clinic will be held tomorrow afternoon in the City Hall from 2.30 to 4.30. s11-1td

Dinner Dance at Bay of Quinte Country Club, Friday, Sept. 13, 7-10. Bon Ton Orchestra, \$1.00. Please make reservations at once. s12-2td

#### POPULAR CHURCH WORKER PASSES

#### Mrs. Letitia McCauley Long Identified With Religious Activities

For thirty-three years associated with her husband, the late Rev. Samuel McCauley, in many churches in Methodist Church work in the Bay of Quinte district, Mrs. Letitia McCauley, seventy-six years of age, and prominently associated with Bridge Street United Church, passed away yesterday.

Mrs. McCauley, who was well-known in Belleville through her church work, was a daughter of the late Mr. and Mrs. William Anderson, of Prince Edward County. She was born there, but has resided in Belleville for the past twenty-five years.

She is survived by one son, Dr. W. A. McCauley, in charge of the Copper Cliff Mining Hospital; one daughter, Miss Ina McCauley, on the staff of the London Technical High School; one sister, Mrs. (Rev.) Steele, of Toronto; and one brother, George W. Anderson, of Lunnigan, Saskatchewan. The funeral services will take place on Friday afternoon, from her late home, 136 Dundas Street.

#### MANUFACTURING IS ADVANCING

#### Canadian Chamber Of Commerce Delegates Heard Fine Speech

(Canadian Press)  
Calgary, Alta., Sept. 12.—A country with little or no manufacturing cannot occupy an important material position in the world today under modern conditions. The essentials for access to materials, for defence, for control for supplies of food, fuel, clothing, for transportation and for financial independence are so vital that no country can afford to be without them. R. J. Hutings, Calgary, told the Convention of Canadian Chamber of Commerce here today, speaking on the "Part of Manufacturing in Canadian Economic Partnership." Manufacturing has been developing steadily in Canada during the past half century, he said.

#### CHEQUE ARTISTS APPEAR FRIDAY

J. Wallace Lasher, the alleged cheque artist who was arrested in Trenton a few weeks ago, appeared before County Court Judge Deroche this afternoon and was remanded for one day. He will appear with his three accomplices tomorrow afternoon in Trenton before Magistrate O'Rourke. B. C. Connolly will handle the prosecution of the cases but it is not yet known who is acting for the accused man. Since his incarceration in the Hastings County Jail, several persons who have been victimized by cheque artists have looked him over to see whether or not they could identify him. Their findings will, of course, be kept secret until the trial.

#### DOUKHOBORS ARE THROWN IN JAIL

(Canadian Press)  
Winnipeg, Man., Sept. 12.—Two hundred Doukhobors languished in confinement today as the outcome of nude parades in Saskatchewan and British Columbia during the past fortnight. Ninety-six were arrested last night at Cendra Suk, following a nude display outside the nearby town of Mikado, while 104 were confined in Oakalla Jail at Vancouver, B.C., after the trial at Nelson for nude parade at South Slokan.

#### NORTHBROOK RESIDENTS FORCED TO FLEE AS FOREST FIRES SWEEP ACROSS NORTH HASTINGS AREAS

#### Barn and Entire Season's Crops Destroyed At Remington

#### NO FATALITIES Blaze Said To Be Within Ten Miles Of Madoc Village

Fifty men are battling sternly against heavy odds, fighting raging forest fires between Queensbury and Flinton today. There is no sign of checking the fire so far, the Intelligencer was told by Mr. Fred Ham, a storekeeper at Queensbury. "It's rain and heavy rain, that is needed," he said.

Every able-bodied man in the district is out fighting the fire today. Northbrook, a tiny village, is still threatened by the inferno and is hemmed in on three sides by the flames. The fire has crept up to the outskirts of the town this morning. Buildings along the Flinton road are being gutted by the unchecked forest blaze and although every possible means has been taken to stem the flames that are by now licking up the district at a truly terrifying rate of speed.

Added to the fire menace today were the high winds that sprang up overnight and a feeling of foreboding pervaded the entire northern section of the county of Lennox and Addington. Sparks from lit flames are being carried far and wide and additional fires are threatened to the south.

So far there have been no fatalities in the north country from forest fires, although children in the Northbrook school-house had a narrow escape from death when the building in which they were studying was burned to the ground on Tuesday afternoon.

If rain does not come shortly, it is doubtful if Northbrook will be saved. At present there is but one exit from the town, along the south road.

#### Barn Destroyed

A barn and the entire season's crops owned by William Keefe, of Remington, were totally destroyed yesterday afternoon when sparks from a threshing machine ignited a fine new barn erected a short time ago by Mr. Keefe.

Although every effort was made to save the contents of the building, it was all to no avail as everything was so dry the interior of the barn was a raging inferno within a few minutes. All stock in the structure were saved. Although the Intelligencer was not able to locate Mr. Keefe, owing to faulty telephone connections, it is reliably known that the barn and its contents were fully insured.

Burning in an area some ten square miles across near the Allan Settlement in Madoc Township, the forest blaze is now within ten miles of the town of Madoc, twenty-five miles from Belleville. Fire-fighters despair of saving a great deal of the timber limits and in some cases have abandoned the section which is burning so that they can protect the life and property of settlers and farmers in the bush.

For the past few days all able-bodied men have been plowing the fields around the Allan Settlement to stop the spread of the flames and to save the village, and so far their efforts have been successful. In Riverview Township there are three different fires which are raging practically unchecked, owing to the fact that there are so few men in the district to fight them.

#### LATEST METHOD OF MAKING GASOLINE

(Canadian Press)  
Minneapolis, Minn., Sept. 12.—A new way of making gasoline and oil by switching an electrical current through "wild gas" that "creeps" from oil wells, instead of fire and heat as heretofore used in manufacture was exhibited to city United States Chemical Society today.

#### UNITED CHURCH LAYMEN PROPOSE FINE PROGRAM

#### R. J. Graham Will Be General Chairman Of Affair

The Laymen's Conference of the United Church will be held in Albert College, Saturday, September 14 and Sunday September 15. The program is as follows:

Saturday, 12 noon—Lunch. 2:00-5:00 p.m.—Chairman, Mr. A. C. Denike. Rev. W. T. Gunn, D.D., Moderator of the United Church of Canada, will conduct Devotional exercises. Rev. C. E. Rogers, of Pease River and Rev. Peter Bryce, D.D., Secretary of the Missionary and Maintenance Fund will speak. There will be an open discussion.

Sunday morning, 9:30 to 10:30—Rev. Daniel G. Ridwell will give an illustrated rhapsody (colored slides and moving pictures) "The Homeland of Our New Canadians."

8:00 to 9:30 p.m.—Chairman, Mr. H. W. Ashman. The Conference will be addressed by W. H. Goodwin, of Montreal. Mr. W. T. Rogers, of Brockville, Principal C. Bishop, of Belleville and others, who will interpret the work of the Church as they have observed it as members of the various General Boards of the Church. Question and Discussion period will follow.

9:30 p.m.—Evening Devotions led by Mr. W. H. Goodwin, of Montreal.

Sunday  
The opening session will be from 9:00 a.m. to 10:30 a.m. when well-

#### GOVERNMENT TO BE DISSOLVED

Canberra, Australia, Sept. 12.—With the Australian general election reported fixed for October nineteenth, or possibly twelve, Premier Stanley M. Bruce announced in the House of Representatives today that the government would accept the dissolution of the government. The government's defeat in the committee stage of the arbitration abolition bill which had been passed by a small majority on the second reading.

## MINISTER OF HIGHWAYS PRAISES TWEED PEOPLE ON ERECTION OF BEAUTIFUL NEW COMMUNITY HALL

W. E. Tummon And J. F. Hill Spoke Briefly At Function

(By Staff Reporter)  
When the Honorable George S. Henry, Minister of Highways and Public Works, cut the yellow ribbon that ran across the front door, Tweed, in the village. As many aquatic new dances and community and recreation were scheduled for the afternoon.

The hall was officially opened yesterday afternoon. Before a notable gathering including W. E. Tummon, M.P., James Hill, M.P.P., A. B. Collins, president of the Belleville Chamber of Commerce and S. B. Rollins, Reeve of Tweed. Mr. Henry made one of the finest and most interesting speeches ever to be heard in the village. As many aquatic new dances and community and recreation were scheduled for the afternoon.

room, Mr. Henry's and the other speakers' addresses were brief.

"You and I perhaps," said Mr. Henry, "will have a fine opportunity of enjoying this hall as long as the boys and girls so I am pleased to see these boys and girls present in such great numbers. This building and park have been developed under the Agricultural Department. I am acting in the capacity of the Minister of Agriculture at present."

That Ontario has roads that may compare favourably with any in the world was stressed by Mr. Henry. "For the last few years," he said, "I have been studying the road situation in Ontario. We are an ambitious people in this province. We are not satisfied with anything but the best. Consequently, I work overtime to meet the demands of the people of the province in regard to roads. Our road system stands out as unique for a people of 3,000,000 population. We have accomplished much."

"We had a young engineer come to us a year ago from Australia. He had been sent out on a year's travel to study road development. Of that time he was to spend six months in the province of Ontario."

"We have," he continued, "development of no mean order. As traffic demands are being met year by year, I have been thinking of developing a road network to the main highway. Within a year or so Peterborough and Tweed will be joined up by this highway. We will also go east of Tweed. I have the endorsement of the Prime Minister himself for this statement."

"We are doing the best that we can for the people of Ontario having in mind the high standards we are asked to live up to. Much of the future development of the province is in the hands of the rural peoples of the province."

Mr. Henry referred briefly to the system of grants for community halls in the province. "Each community," he said, "has the power to develop along certain lines. It is a pleasure for me to be here to officially open the community hall and dance hall today."

The Minister quoted statistics to show just how much the government was helping the various communities to develop community halls. There have been, since 1920, eighty-seven halls built. The amount of grants by the government amount to \$135,987.09. There are possibly fifteen halls and fields in the course of construction. There are four on which grants will likely be paid before the end of the fiscal year.

The Honorable Henry was introduced by James Hill M.P.P. Mr. Hill congratulated the Board of Trade, the Reeve and the members of the council on erecting such a fine hall. "You are working for a good cause," he stated, "when you build these fine things in Tweed, such as a skating rink park and etc. Let us have a slogan—'Let's talk it over!'"

The chairman of the proceedings yesterday was Wilbur Gordon, chairman of the Tweed Board of Trade. Mr. Gordon explained that the community hall was not merely for dancing but could be used in the winter time for games and meetings. He gave credit to many prominent citizens of the village of Tweed who were instrumental in helping to build the hall. He complimented the council highly.

"There is," he said, "nothing finer in Ontario than Snow Lake. We have one of the most beautiful places in the province. May I say that we are looking forward to a highway? A highway that will include Tweed in its itinerary?"

W. E. Tummon M.P., was another speaker. Like those who went before him, Mr. Tummon was brief. He congratulated, especially the teachers and pupils of the Tweed schools for their truly excellent musical programme that they put on for the occasion. "We have splendid schools and a splendid staff of teachers in Tweed," he said. "We should feel grateful to the Board of Trade and council and all those who have assisted in making possible this hall. There is one way in which we may express our thanks. There is an atmosphere that can be created by the boys and girls and men and women who come here. The greatest appreciation that we can show can be created by a clean and wholesome atmosphere in the pavilion and in the park."

Mr. Tummon moved a vote of thanks to Mr. Henry for coming to Tweed, which was heartily responded by S. B.

Hon. Ulick Colborne-Vivian, grandson of Lord Seaton, who has come from England especially to unveil a tablet at the Upper Canada College, Toronto, centenary celebration marking the original site of the college.

Rollins. A. B. Collins, president of the Belleville Chamber of Commerce and S. B. Rollins also spoke briefly. Mr. Collins organized the Tweed Board of Trade and has taken an interest in it since its inception. He conveyed to the Tweed residents the felicitations and congratulations of the City of Belleville on the completion of their fine new hall. Mr. Collins wants a good road from Tweed to Belleville, a good highway. "There was no portion of the province that stood more solidly behind Great Britain in her time of need than did Eastern Hastings," said Mr. Collins. Holding romantic connections with his home town, he reminisced to some extent. "You are to be congratulated on your fine new hall."

S. B. Rollins spoke extremely briefly. He seconded the vote of thanks to Mr. Henry and stated that he welcomed the many visitors to Tweed for the occasion.

Splendid aquatic events and a dance climaxed a great day. The water sports attracted hundreds and a well-balanced programme was provided. The first races were for boys twelve and under—1. H. Leale 2. J. Cornely. Girls twelve and under—1. B. Wheeler; 2. E. Long.

Boys 16 and under—1. W. Leale; 2. H. Leale and C. Moon (tied). Girls 16 and under—1. M. Hindle; 2. M. Lucas.

Men's 50 Yard Swim—1. G. Quinn; 2. S. Marshall. Boys' Long Swim—1. S. Arbou; 2. H. Leale; 3. F. Ballard; 4. W. Leale; 5. C. Moon.

Girls' Long Swim—1. L. Stewart; 2. M. Hindle; 3. M. Lucas 4. E. Long. Duck Race—1. S. Marshall; 2. E. Long.

Outboard Skiff Race—1. J. Breen; 2. T. Whelan.

Men's Tandem Canoe—1. M. Patterson and M. Sayers; 2. R. Leeworthy and M. Gorham.

School Kiddies' Diving Contest—1. Beverly Wheeler; 2. Isabel Sills. Diving Contest (Open)—1. Harry Leal; 2. W. Leale.

Single Oared Punt Race—1. John Orr; 2. D. Boyd. Four Oared Skiff Race—1. B. Hansford and R. Leeworthy; 2. J. Orr and E. Thompson.

Canoe Race—1. G. Quinn; 2. L. Newton. Crab Race—1. L. Newton; 2. G. Quinn.

In and Out Race—1. R. Leeworthy; 2. G. Irwin. Tilting Contest—1. L. Newton and E. Long; 2. M. Clarke and G. Quinn.

Dancing commenced about nine o'clock and did not finish until the small hours of the morning. Never before has a dance at Tweed had such patronage. The floor was jammed all night long and many were disappointed who could not get into the hall. Later in the evening the prize were distributed to the winners of the afternoon aquatic events. Tommy Mason's Kingston orchestra furnished the music.

Delisse Masse, 19 years old, was drowned Sunday afternoon in what is known as the Indian Hole in the Grand River, off Birkett's dam, at Brantford.

## M'GILL RECEIVES TWO STUDENTS FROM THE COAST

Montreal Sept. 12 (By Canadian Press).—The exchange of students between universities has been in effect this year, for the first time, and McGill University is receiving two students from the University of British Columbia in connection with the student exchange movement. McGill, however, is not sending any students to any other university this year, according to the registrar of the local university, Dr. J. A. Nicholson.

The arrangement for the exchange of students among the Canadian universities provides that there shall not be any exchange between universities of the same province. There are four divisions, University of British Columbia; University of Alberta, Saskatchewan and Manitoba; Universities of Ontario and Quebec; and the universities of the Maritime provinces, and no exchange is supposed to be made within any of these divisions.

The period of exchange is for one year and the applicants must be at least third year students. No tuition fee is charged as the exchange student is regarded as having won a scholarship entitling him to free tuition. The idea of the exchange is to make it possible for a certain number of students to study for a year at some other university that offers special courses in subjects in which they are chiefly interested and also enable the students to gain experience under different conditions and different professors, besides enabling them to see more of Canada than if they remained in their own universities throughout their course.

### SECOND OF SIDNEY

Mr. and Mrs. M. Weiman have returned home from Toronto Exhibition. Mr. and Mrs. Clayton Herman, Mr. and Mrs. Wilfred May, Mr. and Mrs. Lorne Sharpe and Hilda were Friday evening guests of Mr. and Mrs. Geo. May.

Mr. and Mrs. Frank Bedell spent the weekend at Toronto Exhibition. Mr. and Mrs. Albert Lucas were Friday evening guests of Mr. and Mrs. Geo. May.

Mrs. Jack Clazie and baby John, of Windsor, spent the week end visiting her parents, Mr. and Mrs. Geo. May.

### PAID OFFICIAL VISIT

Brookville, September 12.—As district Governor of Rotary International, John Nelson, of Montreal, yesterday paid an official visit to the local club, reviewing the activities of that organization and being the speaker at the weekly luncheon.

With 1,367,000 bushels, all wheat, leaving the port of Port William-Port Arthur today, the outward grain movement is slightly improved.

### THE BEST TURN-OUT

Mrs. S. B. Hageman, 117 West Bridge Street, of this city, had the distinction of winning the W. H. Ireland Cup at Frankford Fair yesterday afternoon for the best ladies' turnout.

### PRESENTED WITH SURPRISE

Rev. Mr. Lyons, St. Thomas' Church, on behalf of St. Paul's congregation, presented Rev. A. L. Geen with a surprise at last Tuesday evening's service. In presenting it he referred to the many occasions on which Mr. Geen had willingly given his services. Mr. Geen made a very suitable reply thanking St. Paul's people and assuring them of his willingness to serve at any time in the furtherance of the interests of the church. A very pleasant hour was afterwards spent at the home of Mr. Samuel Henn, South John Street, the Ladies' Guild and St. Paul's offering refreshments. Mr. Lyons took occasion to urge all to take a deeper interest in the work of the church for the coming year.

Purchase your Fur Coat now—there is every possibility of a marked advance later in the season on our present prices.

The Hyman Fur Co. Ltd.,  
110 & 12, Belleville, Ont.

### PAVING AT CORBYVILLE

Practically all the paving equipment of the Standard Paving Company which was at Deseronto for most of the summer has arrived at Corbyville where several miles of paving will be laid. The stretch which will be finished this Fall is from Corbyville to Honeyville Corners, on the Tweed Road. It will be a big improvement when completed. While the work is going on Tweed traffic will be diverted along the fifth or sixth concession road to the Madoc Road into Belleville.

## FAMOUS PLAYERS

(Continued from Page 1)  
best for a great distance up and down Front Street.  
While these extensive renovations to the Belle are being made, the Northern Electric Company's engineers and sound technicians will be installing the most modern and up-to-date sound and talking picture equipment. This new feature of the re-glittered Belle will alone cost well over \$20,000.00 to install, and is identical of that which is installed in the Tivoli and Uptown Theatres, Toronto, and the Palace and Capitol Theatres of Montreal.

**The Latest "Talkies"**  
Talking picture patrons of Belleville will be assured of the latest and biggest of the picture spectacles when the Belle re-opens on Saturday, September 28th, with such pictures as Noah's Ark, Broadway Melody, Madame X, Twin Beds, Cock-Eyed World, and all of the latest Clara Bow, John Gilbert and William Haines talking pictures.

With the acquisition of the Belle Theatre, Famous Players Canadian Corporation's chain of theatres extends its entire breadth of the Dominion and includes 147 of their amusement palaces to approximately 200 theatres.

Realizing the importance of establishing a modern theatre that befits the public patronage of Belleville, Famous Players will spare no expense in bringing to this city the ultimate in theatre comfort, relaxation and entertainment.

They have selected an old time Belleville boy as managing director, George Forhan, who will be gladly welcomed back among his many friends.

Famous Players Canadian Corporation is now one hundred per cent Canadian owned and controlled by Canadian, numbering among its Board of Directors such prominent men as Sir Herbert Holt, Hon. W. D. Ross, I. W. Killam, J. P. Bickell of the McIntyre-Pearson Mines, W. J. Sheppard of the Royal Bank of Canada and N. L. Nathanson, managing director and guiding genius of Famous Players Canadian Corp., who, together with his immediate associates, T. J. Bragg, comptroller and Arthur Cohen, secretary-treasurer, have been responsible in making the organization such a dominant factor in the amusement and theatrical circles of the Dominion.

## UNITED CHURCH

(Continued From Page One)  
known laymen will speak on "The Religion of the Local Church" to the General Work of the Church at Home and Abroad." Chairman, Mr. T. C. Smith.  
11:00 a.m.—Worship in the Belleville United Church, conducted by the Moderator, Rev. W. T. Gunn, D.D., and others.

The closing session will be held from 3:00 p.m. to 4:30 p.m. in Bridge Street United Church.

Chairman, Mr. R. J. Graham, of Belleville.

Devotions led by Rev. E. N. Baker, D.D.  
Addresses by Rev. John W. Richards, Netram of India, and Mr. J. H. Gundy. Mr. Popoff, formerly of Sona cathedral, Bulgaria, and others will sing during the Conference.

cession to Hon. Jacob Nicol, who has resigned the portfolio to accept a seat in the Legislative Council.

## GOVERNOR-GENERAL WILL OPEN KIWANIS KARNIVAL MONDAY NIGHT

Mayor Succeeds In Efforts To Have Vice-Regal Party Attend

Following is a copy of a telegram received yesterday by Mayor Greenleaf and vice-chairman of the Kiwanis Carnival committee: H. W. Greenleaf, Belleville.

"Your Excellencies will be pleased to open Kiwanis Carnival, eight o'clock Standard Time on Monday next. They will return to their train after the official reception until time to open Carnival."

(Sgd.) E. C. Mieveille, Sec., to Governor General.

Ever since it has been known that the Governor-General intended to visit Belleville on Monday next, Sept. 16th Mayor Greenleaf who is also sub-chairman of the Kiwanis Carnival has been trying to arrange for their Excellencies to open the Carnival at eight o'clock on Monday evening. It was not until late yesterday afternoon that Mayor Greenleaf's efforts were rewarded by the receipt of the above. His Excellency and Lady Willingdon are intensely interested in the work of the Victorian Order of Nurses and when they were advised of the efforts of the local Kiwanis Club toward furthering this work in Belleville they decided to lend their help by officially opening the Kiwanis Carnival. Mayor Greenleaf is to be congratulated on his arrangements, especially as it will not interfere with the official reception which will take place previous to the Kiwanis Carnival either at the city hall or the Collegiate auditorium. Arrangements have not been completed for the affair.

## PERSONALS

VISITORS WHO COME AND GO.

VERA M. MORREY A.D.C.M. Teacher of Piano and Theory. 42 Myers St. Phone 1673-F. 510-31d

Miss Ethel Harrison and Miss Cora Davis of New York, Mr. Homer Harrison of Milwaukee and Dr. Malcolm Rose of New York were the guests of Colonel and Mrs. Ponton at Sidney Cottage on Monday and Tuesday of this week.

Miss Helen Harvey, R.N., has returned to Toronto after spending some time in this city in field work.

Miss E. F. Wickes, Field Secretary of the Red Cross, is visiting in Belleville for the past two weeks.

## WEDDINGS

### FOSTER-BLAKEY

A pretty Autumn wedding was solemnized at three o'clock yesterday afternoon at Bethel United Church, Tweed, when Luella Pearl, only daughter of Mr. and Mrs. Frederick Blakey of Hungerford was united in marriage to Mr. Newton A. Foster of Kingston, third son of Mr. and Mrs. J. H. Foster of Tweed.

The church was beautifully decorated for the occasion and the Rev. J. W. Platt officiated.  
The bride wore a dainty gown of whiteorgette with pleated trimmings and her long curls were caught with orange blossoms. She carried a bouquet of pink roses and baby's breath. Mr. Frank Foster, brother of the groom was groomsmen and the ushers were Mr. Harold Foster, brother of the groom and Mr. Percy Blakey, cousin of the bride. Mrs. M. E. Kincaid, organist, played the wedding music and during the signing of the register Mrs. Harry Grier of Tweed sang "I love you Truly." After the ceremony a reception was held at the home of the bride's parents, when dinner was served to about eighty guests. Later the bride and groom left by motor for Toronto and Niagara Falls, the bride travelling in a gown of rose beige satin faced crepe with hat of brown velvet and felt and shoes and bag to match. She wore the groom's gift, a red fur coat.

The groom who is at present a member of the Whig-Standard Staff was formerly an employee of the Intelligence.

## KINGSTON PAIR PAY DEARLY FOR FUN

Lawrence Moore and Edgar Batten of Kingston, were arrested last night on the Trent Highway near Riley's Dance Hall by Provincial Constable Silverstar as they were taking a drink of liquor in their car, and this morning in Police Court before Justices of the Peace John Newton and H. F. Ketcheson they pleaded guilty to breaking the Liquor Control Act. Moore pleaded guilty to consuming and was fined fifty dollars and costs while Batten paid one hundred dollars and costs for having liquor illegally.

## DEATHS & FUNERALS

**MRS. SAMUEL NESBITT**  
Toronto, Sept. 12.—Following a brief illness the death occurred at St. Michael's hospital on Monday evening of Eleanor Morris Babbie, wife of Samuel G. M. Nesbitt of Brighton, former member for Northumberland in the legislature. She was the daughter of the late Edgar Babbie of Brighton. Besides her husband, one son, Edwin of Brighton, and three daughters, Mrs. Fred Marshall, Brighton; Mrs. Robert Jones of Gormie and Mrs. A. S. Miller of Hamilton, and one sister, Miss M. V. Babbie of the Toronto Normal School staff. The funeral takes place this afternoon from St. Paul's Church, Brighton.

## BRIGHT OUTLOOK FOR FAR WEST

Crop Conditions Not So Bad Says Sir Henry Thornton

Montreal. "There is a silver lining to the cloud in so far as the situation in Western Canada is concerned," stated Sir Henry W. Thornton, chairman and president of the Canadian National Railways, on returning to his office in the system headquarters recently after a tour to the Pacific Coast.

"While it is true the West is not harvesting such a voluminous crop as in average years, and it is also true that some farmers and some districts are hard hit, it must be remembered that there are districts and farmers in the East who have harvested better crops than they anticipated a short time ago, and who are reaping the benefit of higher prices from their held over grain from last year, and also higher prices for the grain which they have produced in 1929."

"The West has gone ahead and is going ahead, building up on a basis of sound progress and one going from the East cannot fail to be impressed with the same development which is taking place on all sides."

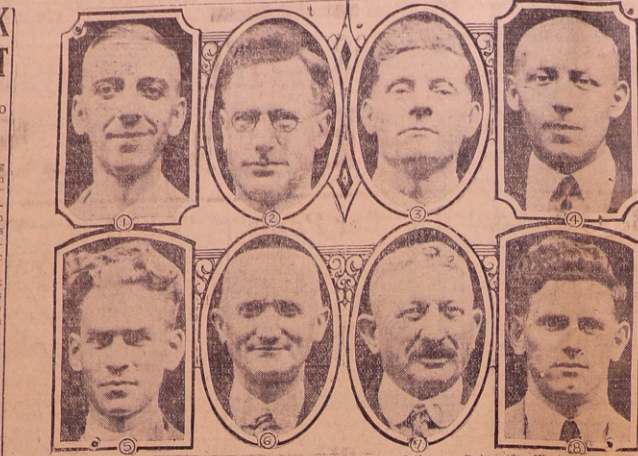

"On the Pacific Coast in particular, the development of trade with the Orient is being closely followed, and there is also a keen realization of the fact that Canada is sharing and will share to a greater degree in the further development of that trade," Sir Henry said, concluding with the statement that he had inspected the properties on the system in each of the provinces visited and had found things in good condition everywhere with the officers and employees keenly on the alert to provide the best of service to its patrons.

## SCHOOL OF COMMERCE IS WANTED IN THE PROVINCE OF MANITOBA

Prof. R. R. Thompson of McGill Suggests New School

Winnipeg, Sept. 12. (By Canadian Press).—A school of commerce is an absolute necessity in Manitoba, if the province is to progress industrially, according to Prof. R. R. Thompson, head of the faculty of accountancy at McGill University, Montreal, and president of the Canadian Society of Cost Accountants. Prof. Thompson was to have addressed the Winnipeg chapter of the accountancy society in connection with a recent tour of the West, but owing to an injury suffered at Banff in an accident, he was unable to be present, and a paper which he had prepared on "Education for Commerce" was read in his absence.

Prof. Thompson claimed that with the industrial wealth of Manitoba greatly exceeding that of agriculture in the province, the University of Manitoba should realize that it was necessary to have a school of commerce. This was an absolute necessity, if the province was to progress industrially, Prof. Thompson declared. He deplored the fact that the University of Manitoba had no such school. Such a school, he said, would be valuable to the industrial world of Manitoba as it would give to the province trained men with sound knowledge of the fundamental principles of finance as well as cultural subjects generally. "Manitoba," he said, "is getting away from the pioneering stage of agriculture and is becoming industrialized."

New York, Sept. 12.—Foreign exchange easier, demand rates, Great Britain 4.84 3-16, Canadian dollar, 21-32 of one per cent discount.

## DISMISS MARRIED WOMEN EMPLOYEES

Melbourne, Australia. (By Canadian Press).—A large factory operating here and employing a large number of women has dismissed all its married women employees and will not engage any others in future, according to F. J. Riley, secretary of the Manufacturing Grocers' Union. Other firms are considering similar action.

"The original practice of the firm when shortening hands was to retain those longest in the service," said Mr. Riley. "Some of the married women had been working for many years and they were retained while single women were dismissed. This caused wide spread dissatisfaction and the company then decided to weed out all married women and to engage in future only single women."

"In the manufacturing grocer industry," added Mr. Riley, "the proportion of married women is the lowest of the industries employing women. The rate is less than three per cent. In other industries the rate is 13 per cent."

The question of employment of married women in factories is causing wide discussion in Australia at present.

## BAYSIDE

Mrs. Marion Haigh and a girl friend, of Toronto, spent a few days last week at the cottage at Roy Anderson's.

Mr. A. E. Phillips and Mrs. P. Phillips, also Mrs. S. Maines spent the tea hour Sunday at Mr. and Mrs. L. Foster at Wellington.

## Editors Take 40-mile Canoe Trip

(1) Lumber Camp at Pine Lake—(2) A. H. Alloway, Oshawa Times, captures fine Northern Pike—(3) Luncheon served in the open at Honey Dam—(4) A view of the Michipicoten River.

Eighteen newspapermen recently took a forty-mile trip over Lake Manitowick, Dog Lake and the Michipicoten River by Hudson Bay canoes from Mississauga on the main line of the Canadian Pacific Railway to mile 155 on the Algoma Central. They travelled special train to Franz and the trip was under the guidance of a party of Indians.

got together by Major David M. Stuart, Hudson's Bay factor at Mississauga. For many of the editors it was their first experience of portaging but all came through in great shape and at Pine Lake they sat down to a lumber camp meal, later being introduced to the steamed bath customary where Indians are employed in lumbering. These consist of water poured over heated stones followed by a dash of cold water from a pail, a novel sensation to the party. All along the route they enjoyed magnificent scenery and some very good fishing. The trip was organized by J. W. Curran, editor, Sault Daily Star, with a view to showing the beauties of the North Country to newspapermen, an aim in which he was entirely successful.

## CANADIAN ACES THRILL CROWDS

Four Fliers From Camp Borden Entertaining With Stunts

Toronto, Ont., Sept. 12 (By Canadian Press)—Four Musketeers of the Air, is the title accorded a small group of Canadian aviators who are rapidly demonstrating to the world that while Canadian air force may not be the largest, it is very nearly, if not the best at its own particular game.

The Musketeers are Squadron Leader C. McEwen, M.C., Flight Lieutenant David A. Harding, famous rugby player, Pilot Officer E. McNab, and Pilot Officer E. A. McGowan, all four being stationed at Camp Borden, and flying the Canadian army's Siskin pursuit planes.

At various exhibitions, both here and in the United States, the Musketeers have thrilled thousands with their antics. At Cleveland, Ohio, recently, they stole the thunder from many perhaps more famous flyers who had performed there, and their performance was regarded as one of the most remarkable ever seen in the United States.

Camp Borden features individual stunts as a finishing part of a novice flyer's education. It is a means of obtaining perfection in the control of an aeroplane, and while formation flying is also taught and practiced the individual practice of putting an aeroplane through its paces is more strongly endorsed.

One of the Musketeer's favorite stunt is a very spectacular one. The planes, starting in formation at around 3,000 feet, suddenly nose down. At terrific speed, with motors wide open, they spread out, fan-shaped, and suddenly zoom up. At the peak of the climb, with the motors nearly stopped, the planes gradually fall over backwards, and fly for some distance upside down.

Miss Grace Christine McCartney, daughter of Mr. and Mrs. S. C. McCartney of Ottawa, and Mr. John Douglas Hanlan son of the late Mr. Edward Hanlan, champion Canadian oarsman, and Mrs. Hanlan of Toronto, whose marriage will be an interesting event of September 17 in St. John's Presbyterian church, Toronto.

To the old question often asked by the non-flyer: "What happens when the engine stops?" the Musketeers have a ready answer. It is "nothing." They are specialists in landing with the motor cut out entirely, or "dead-stick." They keep the plane on a gliding angle which brings it safely to earth, even though the motor has been stopped for some time. The secret, the four say, lies in having sufficient altitude to make a long glide possible.

Before each exhibition, the flyers discuss the day's plans. Just when and where to turn, how high to go, where to meet and all the thousand and one other little details incident to events of this kind are thrashed over. Then, when the time comes, four nonchalant young men who may have been sitting casually beneath the wings of their speedy Siskins, adjust goggles and parachutes, strap on parachutes, and climb into their

planes. It all looks so easy at the start, and it isn't until the four silvery little planes are twisting and cavoring in the sky that it becomes realized that behind the seeming carelessness lies hours and hours of training.

Technically, the performances given by the Musketeers are marvels of accurate and careful flying. Their schedule, as tacked up in each of the four cockpits prior to the stunts, is as follows:—

"Dive from 3,000 feet; limb to 3,000 spin from open formation; loop in line; roll at 45 degrees; follow the leader; close dive, fan out; individual stunting, 10 minutes; reform, close dive and return."

"That's all there is to it," say the Musketeers. The technical side of it can be read, and may not mean much to the average person who is not a flyer. But once seen, the schedule above is something that will not be forgotten.

Squadron Leader McEwen is a wartime pilot, and is credited with having destroyed more than thirty enemy aircraft.

## KIWANIS KARNIVAL NEWS

All ready for a great opening of the Kiwanis Carnival when the Governor General and Lady Willingdon will officially declare the carnival open at 8:00 o'clock, Monday evening. They will be present personally to do this gracious act.

A special loud speaker amplifier will be installed in the Armouries on Monday, so that every person in the audience will be able to hear the address by the Governor General on his official opening speech, and they will also be able to more fully enjoy the programmes each evening.

A great crowd of Kiwanians gathered at the Armouries last evening with their hammers and saws and great progress was made toward erecting the style show stage and other parts of the Carnival City.

Who is the most popular girl in Belleville. This problem will be solved next week at the Carnival.

The contest will start on the opening night and close the last night when the girl receiving the most votes will be crowned "Miss Belleville."

Two votes will be given for every admission ticket, and one vote for every 10 cents spent at the Carnival.

Mrs. J. S. M. Anderson, wife of Dr. J. S. M. Anderson, new premier of Saskatchewan. Mrs. Anderson was formerly Miss Mary Redgwick of Gren-

## THE CANADIAN DEPARTMENT STORES LIMITED

### Paint-Varnish-Enamels

Three Big  
Days-In  
Special

69c Sale!

Friday - Saturday - Monday

Just as the Fall renovating time approaches, comes this big 3-day sale of Paints-Varnishes and Enamels. Finishes for inside or out to withstand the ravages of winter. The value is great—the quantity limited—shop on Friday—Early!

#### Varnish

For use on floors, in-  
terior work, and  
furniture. Dries hard with  
a high gloss, in four hours.  
Will not mar or turn white  
Quart 69c

#### Varnish Stain

Just the thing for refin-  
ishing floors, woodwork or  
furniture. It flows easily  
and dries very hard with a  
high gloss and without show-  
ing brush marks. Colors are  
light oak, dark oak and  
mahogany. Qt. 69c

#### Floor Paint

Inside floor paint, in gold  
or brown, medium yellow  
and slate—a hard drying,  
glossy finish for inside  
floors, summer cottages, etc.  
—Quart 69c

#### Floor Wax

1 lb. floor wax for hard  
wood floors, linoleum, etc.,  
with quart bottle best qual-  
ity turpentine. The two 69c

#### Porch

#### Floor Paint

A glossy, hard drying floor paint, for  
porch or veranda floors, etc., will give a  
hard, glossy, durable finish, that  
is easy to clean. —Quart 69c  
The colors are medium grey, and battleship  
grey.

#### House Paint

Splendid Paint for use either inside or  
outside—for houses, garages, interior decorat-  
ing. You may use it with the utmost con-  
fidence, as it is made and vouches for by one  
of the most responsible paint makers in Can-  
ada. The colors are: Inside gloss white, out-  
side gloss white, cream, brown, shutter green  
and French grey.  
Quart 69c

#### Gloss White Enamel

This may be easily applied to shabby  
furniture or woodwork with satisfactory re-  
sults. It dries very hard with glossy finish  
that will be easy to keep clean.  
Quart 69c

### THE CONFEDERATION OFFERS PLEASANT TRAVEL TO THE WEST

You'll enjoy your Western trip via  
"The Confederation". The high stand-  
ard of service, the modern equipment,  
the famous cuisine will make your  
journey long remembered.  
"The Confederation" leaves Tor-  
onto every evening at 9:00 p.m. for  
Vancouver, stopping en route at Win-  
nipeg, Brandon, Regina, Saskatoon,  
Edmonton and Jasper. It is equipped  
with Compartment—Observation—Li-  
brary Car (Radio)—Valet Service,  
Standard Sleeping Cars, Tourist Sleep-  
ing Cars and Dining Car.  
Full information, reservations, etc.,  
from any Agent of Canadian National  
Railways. s12 & 17

### Pile Sufferers

You can only get quick, safe and  
lasting relief by removing the cause—  
congestion of blood in the lower bowels.  
Nothing but an internal remedy can  
do this—that's why cutting and salves  
fail. Dr. Leonard's Hem-Roid, a  
harmless tablet, is guaranteed to quick-  
ly and safely banish any form of Pile  
disease or money back. J. S. Mc-  
Keown and druggists everywhere sell  
it with this guarantee.

### CROFTON

A number from here attended Picton  
fair.

Mrs. Colonel Adams, Picton, visited  
with Mrs. Captain Bongard on Thurs-  
day.

Mr. and Mrs. Willis Caughey, On-  
wego, called on Mr. and Mrs. Simon  
Caughey on Friday.

Mrs. W. Caughey has gone to Syra-  
cuse to spend a few months with her  
daughter.

Mr. and Mrs. D. S. Sobie, New  
Carlow, took dinner with Mr. and Mrs.  
Adolph Kuno on Saturday.

Mr. and Mrs. A. Weisman and two  
sons, Lambert and Arnold, New Carlow  
spent the week-end with Mr. and Mrs.  
Adolph Kuno.

Mrs. Emma Ainsworth and daughter  
Mildred, Toronto and Mr. and Mrs.  
Basil Ainsworth, Belleville, visited with  
Mr. and Mrs. S. J. Munro on Sunday.

Mrs. B. Morris and daughter Eva  
and son Irvin spent Sunday with Mr.  
and Mrs. Angus Ryckman.

Mr. and Mrs. Blake Jones called on  
the former sister Mrs. Clayton Mon-  
ro who is ill on Sunday afternoon.

Mr. F. Munster of Mountain View  
is our teacher for the coming year.  
Miss Nellie Bongard who spent a  
month in Rochester has returned to  
the home of her grandparents, Cap-  
tain and Mrs. Bongard.

Mr. and Mrs. Claire VanSkiver  
were guests on Sunday of Mr. and  
Mrs. John Chisholm near Belleville.

### CHARGE MADE AT MEETING

New York, September 12.—A charge  
that Police Magistrate Andrew W.  
Macreary who died several weeks ago  
supposedly of a heart attack, was se-  
verely beaten the same day for declin-  
ing to pay \$30,000 for reappointment,  
was made at a political rally last night  
about the navy.

### CONGRESSMAN DIES IN FIRE

Battle Lake, Minn., Sept. 12.—O. J.  
Kvaloy, 60-year-old congressman from  
the seventh Minnesota district, was  
killed when his summer cottage near  
Ottawa Lake, north of here, was  
destroyed by fire.

### News of the Movies

**REGENT THEATRE**  
With one of the best casts ever as-  
sembled in a Universal Western Fea-  
ture, "Great Wins" will open at the  
Regent Theatre today.

In the starring role will be Ted  
Wells, considered the screen's great-  
est thrill rider. He appears to unusual  
advantage in "Grit Wins", in a role  
that calls for more than the usual  
amount of excellent horsemanship and  
daredevil stunts.

Supporting Wells in the featured  
lead is Kathleen Collins, a young ac-  
tress of rare beauty and talent. Miss  
Collins, whose screen career dates back  
five years ago when she won a nation-  
wide beauty contest, is considered by  
many to be one of the most beautiful  
actresses in motion pictures.

### BELLE THEATRE

Karl Dane and George K. Arthur,  
that riotous film comedy team, sailed  
into the Belle Theatre today under the  
Metro-Goldwyn-Mayer flag, bearing  
a cargo of laughs and hilarious enter-  
tainment, the reason being that they  
are at their best in their new farce-  
comedy, "All at Sea."

Just about the time we begin to  
think there is nothing new under the  
moon, picture sun, a company turns  
out a fun riot like this new co-starr-  
ing comedy and upsets all traditions  
and turns audiences inside out with  
guffaws and roars.

If you remember Dane and Arthur  
in "Rockies", one of the most enjoy-  
able of their previous productions, you  
will be glad to know that Byron Mor-  
gan, who wrote the scenario for that  
army picture, is the author of this one  
about the navy.

Alf Goulding, the director, has done  
full justice to the gags and situations  
and the plot, of course, abounds in  
them. The result is an entertainment  
for laughing purposes only, though  
there are a goodly number of thrills in  
it too. These include a big gun tar-  
get practice, a riot in a theatre, a pa-  
n in a navy ball and a spectacular ex-  
plosion in an arena which affords  
Dane and Arthur a chance to make  
some heroic rescues.

### AUCTION SALES

## NATIONALS WON HECTIC STRUGGLE AFTER SPOTTING DELORO 5 RUNS

Five Errors in First Innings Places Weir In Bad Hole

## HEAVY HITTING

Utronki Slated To Pitch Next Game In Deloro On Wednesday

Well, if there weren't enough thrills packed into yesterday's game with Deloro for the average fan, its going to be hard to give him any more. Everything worked out all right in the end and Belleville won the game by the score of 8 to 7, but anything could have happened yesterday and Deloro certainly failed in the pinch, for they will never again have the same opportunity to get the jump on the Nationals.

Five errors and three hits in the first innings gave Deloro five of their seven runs, but they failed to hold the advantage and with two Deloro errors and two hits the Nationals came right back at the Smelters with four runs. And had it not been for poor base-running the score would have been tied in the first innings. The Nationals showed the effects of their long lay-off and showed it not only in the field but on the bases and at bat. Some of the plays they pulled were unquestionably of the type known as "boners" but as they finally won the game, nobody was heard to kick.

It was the kind of a game that the crowd likes. There was plenty of hitting, Deloro getting nine, and Belleville twelve, but the Nationals had seven errors to Deloro's two. After the first inning the teams played a more sane kind of game, but those errors seemed to creep in every now and then to give the fans more heart failure. Although the Nationals stole bases on Boudreau almost at will they seemed to have forgotten all about the art of sliding and on two different occasions runners were tagged out at second after they had over-run the base. Right runners pilfered sacks on Boudreau, but he still persisted in tossing the ball to second and his persistence was rewarded on two different occasions.

Belleville now has the jump on Deloro, and the second game, which will be played in Deloro next Wednesday will undoubtedly be a tighter game all through. The Smelters have their backs to the wall and had they played even fair ball yesterday they would have defeated the Nationals who had one of their worst "off" days in years. Five errors in one innings looks bad but it is the first time this year that they have had that many in a whole game, so it is to be expected that they would make a few once in a while.

Vern Weir was one of the few steady rocks in the infield all afternoon, he taking the care of nine chances in the field without mishap. Harry Blakely at short accepted three chances and made an error on the fourth. Harry Mills at first had nine fielding chances and made one error, while Bob Scott at third had two errors out of five chances. Bob certainly made up for any little deficiencies in the field when he whanged out a three base hit to start off the fourth innings when Belleville was still one run down. Vern Weir immediately followed him with a single tying the score. Alex Weir, Murney Green and Peeny Mills completed the list of those making errors, but they made up for them by their work at the bat.

It was no mystery to the Belleville team and the way he drifted the ball over simply invited disaster for his team. He was pulled in the fourth after Belleville had tied the score, and Inky Woods went in to do the hurrying. Woods had all kinds of zip on the ball and only two runs were scored off his delivery the rest of the afternoon. It's going to be some job to beat him in Deloro. Vern Weir, Utronki, Bob Scott and Peeny Mills were the leading hitters, although Blakely and Sonny Green came through with two timely hits as well. Utronki was injected into the pastime as a pinch hitter for Bennett in the fifth and he cracked out a single which brought Blakely home. The next time up he was walked, so he bettered his average considerably. Vern Weir batted five times, actually, but only three times officially, the first

two times up being successful in drawing a walk, and the next two times he cracked out singles. Peeny Mills only hit of the game was in the first innings when he doubled with two men on base and later scored. His hit started the Nationals on the long road upwards to his and his later sacrificed V. Weir around with a nice punt.

Blakely had two hits out of four times up. A. Weir had one out of three. H. Mills had one out of five times up and so on down the line. Enough weird baseball was packed into the affair to satisfy the most particular customer and from the rear in the stand we take it everyone was satisfied.

Deloro started right off on the right foot when Wood singled, Buck was safe on Scott's error and Wood was safe at third on Scott's error. G. Scott was safe on Blakely's error, two runs scoring, but Quinn was out to Scott. Elliott singled, scoring G. Scott. Brown was safe on A. Weir's error and another run came in. Boudreau hit safely and went to second on W. Mills error, the fifth and last run coming over the plate. Hughes struck out and they flew out to Scott.

In the Belleville half, Scott and Weir were walked, H. Mills struck out and W. Mills doubled to score both. Blakely was out. A. Weir walked, M. Green was safe on an error by Elliott. E. Green singled, scoring two runs and Bennett was out.

Deloro came back with one in the third, as did Belleville as well as in the 4th, 5th and 6th while Deloro got one in the 7th. From the first innings on it was a see-saw battle, with first one team having the advantage and then the other, but the Nationals finally came out on top, although the Smelters gave them a big scare.

## STORE MAGNATE ACQUIRES HERD

F. P. Loblaw, President Of Chain Groceries Buys Cows

The foundation for a most promising new herd of purebred Holstein cattle has just been laid, in the purchase of several good cows and heifers of Ormsby-Peach-Abberker strains by J. E. McCague, Manager of Stevenson Farms, Alliston, Ont., owned and operated by Mr. T. P. Loblaw, President of the well-known chain of groceries bearing his name. Stevenson Farms consist of five hundred acres and are particularly well suited for dairy farming. New buildings now in the course of construction will provide accommodation for quite a large herd. In the first selection made by Mr. McCague, several individuals of exceptional good breeding were taken from well known herds in Oxford County, Messrs. Haley & Lee, Springfield; Jas. Jackson, Norwich; M. McDowell, Oxford Centre and G. R. Row, Currie's Crossing, contributing to the number. These include a daughter of Sir Sylvia Developp a XX sire with 17 qualified daughters in the R.O.P. with records running up to 9,445 lbs. of milk and 920 lbs. butter

George A. MacLean who has been nominated Liberal candidate in Federal riding of East Simcoe, Ontario.

## FRONTENACS WON FROM CIACOS BY A CLOSE MARGIN

First Game For City Honors Was Very Keenly Contested

Frontenac girls and their Clac rivals for City League, honours met last night in their first game of the play-offs. Instead of a nine innings fixture which everyone expected, excepting as it turned out the Frontenac team, the game ended at the seventh to the surprise of the Claco players and all the fans. The game was written up as being a nine innings fixture and everyone understood that a play-off game went to that length as is clearly stated in softball regulations. The score at the end of the seventh was 10-10 for the Frontenacs. The officials themselves seemed to be shaky in their opinion as to whether the game should have been 7 innings or nine and as a result a meeting of the committee is called for Saturday night at 8 o'clock.

To proceed with the game, the whole affair was close from the beginning to end with the Clacos leading until the sixth when the Frontenacs scored one run to tie them 6-6. In the fifth they gathered four more runs but the green clad ladies not to be outdone came back with six counters to again take the lead. In the sixth the Frontenacs forced a lead for the first time, gathering three runs to give them a lead of one over their opponents. In the seventh the Clacos who scored in practically every inning of the game succeeded in making four more runs, but the Frontenacs started to hit well in the seventh and overtook their rivals. Audrey Wilkins knocked one over the fence with two men on and brought in three runs, which gave her team a one run lead. Manager Murney then announced that the game was over and the umpires being appealed to seemed undecided whether the game should be nine innings or seven. It should have been clearly stated before the game started, and both teams should have understood, if the ruling which says that all play-off games are to be nine innings, was changed.

Home runs seemed to be the rule of the night, for both teams managed to gather a good quota. For the Frontenacs Mary Adams hit two over the fence and Audrey Wilkins one. For the Clacos, Vera Ivey and E. Loadman were the heavy hitters with one home each. L. Rushworth and C. Cruji for the latter team reached first-base four out of six times, and five out of five times to bat respectively which are both good averages. For the Frontenacs, Mary Adams had a perfect average with four safeties, as did Helen Smith.

The fielding of both teams was good with few errors and both teams were hitting well as is indicated by the close score. Bessie Doolittle, pitcher for the Clacos, was none too steady during the last part of the game but pitched nice ball for the first four innings. Edna Smith, for the Frontenacs, walked few men but her slow balls were heavily hit by her opponents.

The game by innings:  
Frontenacs ..... 1 1 1 3 4 3 5-18  
Clacos ..... 2 2 1 1 6 0 4-16  
Umpires—Collings, plate; Woodley, bases.

Line-up—  
Frontenacs—M. Adams, E. Cook, G. Knott, A. Wilkins, K. Howie, H. Smith, E. Smith, N. Bly, I. Thompson.  
Clacos—L. Rushworth, A. Gains, A. Kelleher, V. Ivey, C. Cruji, B. Doolittle, M. Carmichael, E. Loadman, N. Saylor.

With an average test of 3.79% fat at four years of age; a daughter of Pioneer Sir Gift Ormsby, another XX sire, he is son of King Pontiac Ormsby Pieterje, one of whose daughters, Pioneer Pontiac Toilette, made a high ly creditable yearly record at two years of age with 24,072 lbs. milk and 997.50 lbs. butter, along with several others up to 16,137 lbs. milk and 632.50 lbs. butter; daughter of Maple Hill Jack with 8 tested daughters, among them a 4-year-old with a seven day R.O.M. of 550 lbs. milk and 26.06 lbs. butter to her credit. Another picked up by Mr. McCague is a granddaughter of Sir Sylvia Pontiac Paul, with a two year old daughter in the R.O.P., her record totalling 12,765 lbs. milk and 606.35 lbs. butter with an average test of 3.80%.

Type, breeding and production figure rather prominently in the newly founded herd which goes to Simcoe County where developing is now regarded by many farmers as a safe and profitable line of farming to follow, owing to the good market always available for milk in the leading centres which surround it.

Following the report that John Stanley, deckhand on one of the boats passing through the canal, had been missing since early morning, dragging operations were carried out in lock 22 of the Welland canal at Thorold Sunday without success.

## PLEADS RETENTION OF NAVAL ARMAMENT

Sydney, Australia. (By Canadian Press)—A striking plea for a continuance of strong naval armament in the South Pacific as a means of Empire defense, was uttered here by Rear-Admiral Evans, one of the most popular heads of the Australian navy has ever had.

"We are living in an age of rapid advances in scientific accomplishment," said Rear-Admiral Evans. "but because of the insistence on economy the navy is not always able to keep pace. The fleet lags behind to a certain extent and we have to accept it. Some of us waste our time in vain imagining about capital ships that will fly or submerge, air forces that will revolutionize everything, gas that will render great cities like Sydney cities of the dead, and tanks that will completely exterminate the infantryman and the machine-gunner and the general staff. But you all know in your hearts that these are but dreams."

"The most vital concern of all nations is their sea-borne trade, and this particularly applies to our Empire, which cannot exist as an economic entity without its sea communications. The security of these sea communications depends upon the cruisers, and consequently all maritime nations are thinking in terms of cruisers. Australia is thinking of cruisers, New Zealand is thinking of cruisers and discussion among great powers is mostly in terms of cruisers—and very much in the terms of 10,000-ton cruisers and long-range eight inch guns."

"Having got our cruisers and thus contributed our share to Imperial defense, what concerns us here is how to make the best use of the material at hand. The answer is largely in terms of personnel—by properly educating that personnel to think public spiritedly and from the viewpoint of cooperation with the land and air forces of the Commonwealth and of the Empire. There is a great deal more in Australian naval training than in the mere preparation for war. Australian training is making the best of its manhood and it is inculcating the best qualities of citizenship into a large body of virile officers and men, and broadening the horizon of

their thoughts, and fostering the adventure spirit that has made the Empire what it is."

**1.13**  
price .....  
—Basement.

## FRANKFORD AGRICULTURAL FAIR FEATURED INTERESTING EXHIBITS

### Absence Of Horse-Racing A Disappointment To Many Patrons

(By Staff Reporter)

Frankford Fair came to an end yesterday. The weather was not of the finest and perhaps helped to some extent in making the attendance at this fair comparatively small in comparison with the record of former years.

The fair commenced on Tuesday although to the general public there was not much of any great interest since the day was occupied in preparing for the more important features yesterday.

Yesterday dawned and the skies were leaden. Truly it was not a day on which most people would choose to spend a holiday. Perhaps the nature of the day had something to do with the poor attendance. The agricultural grounds did not look to be anywhere near as attractive as in former years. There was a sprinkling of booths in a miniature midway. Very few of the boothmen did much business. The weight guessers did about the best of them all, and that best could not be said to feather his pockets very much. Very few even tried their hand at the usually popular bell ringing contraption. Much enjoyment was given, however, by the Frankford band who brought reminiscences to mind of other fairs, by the music which they played.

In the opinion of the writer the reason why there was not such a big attendance was due to the absence of horse races during the fair. In past years Frankford has sported many fine races which have attracted the interest of the farmers for miles around. Many farmers entered their favorite horse-drawn in the races then.

In recent years the advent of the automobile into the life of the farmer has brought a lack of entries into horse racing. Floods in the earlier part of the year was given as a reason by the officials for there being no races run by them this year. It was in the spring that one part of the course was overflowed with water and the course was materially damaged. Ditches had to be dug across the track. These ditches made it impossible for the running of the track events for this year. Next year the officials of the Agricultural Society intend to have some very fine races.

In the late afternoon the livestock were judged. There were some very fine specimens of horses and cattle. Particular interest was created in the drawing match between heavy teams. The team of Mr. G. C. Stickle won the prize for this event.

Horsehoe pitching made its appearance for the first time at the fair and brought very keen competition. The Agricultural prize was won by J. Johnson.

In the rink there were many fine exhibits. In the floral display were many beautiful flowers, chief among which were ferns, plants, petunias, horse plants, gladioli and asters. All species of apples were there. Then there were exhibits of beets, parsnips, turnips, pumpkins, table carrots, mangels, sugar beets, peppers, celery, red and green cabbage, squash, marrow, tomatoes and potatoes. There were only four cheeses shown.

Landscapes, water colours, pastels, and photography featured the Fine

### Arts section.

The women of the community seemed to have been very busy in piping to make the fair a success. There was a great quantity of clothes, fancywork and other work, executed by the nimble fingers of the ladies, on view for all to admire. Then there were the products of the cuisine resting on a long row — tasty tit-bits, sampling pies, cakes, bread and others too numerous to mention. Butter and eggs also played a part in the showing.

A fine exhibit was that of the sheaves of wheat and oats.

A ball game between the township of Sidney and the township of Murray was played in the afternoon but no one seemed to know the definite score. An argument between a player on one of the teams and an onlooker caused a flicker of amusement amongst the spectators, who appeared to be more interested in the battle of verbiage than in the game itself.

When the fair was coming to an end the sun shot its rays through the skies. It would have been appreciated considerably earlier in the day. The McLaughlin Buick Company of this city had several cars on display under the supervision of Mr. C. J. Mikel.

In the evening a barn dance was held. The following are those who won prizes at the fair: Clifford Perry; Frank Carr, William James, Arley Masters, Hubert Pinnigan, Frank Terry, William Wilbourne, Joe Cassen, W. J. Lawson, J. P. Trampour, L. E. Bryant, N. Simmons, W. A. McCall, W. A. Martin, W. H. Heath, R. J. Garbutt, Geo. Ketcheson, C. E. Van Allen, C. H. Curtis, C. B. Myers, Jas. Fox, E. H. Potter, Robt. Fry, Earl Bonister, S. L. Fennell, J. Hinchcliffe, M. Bird, Blake Terry, Jack Rose, G. Weaver, C. Stricken, C. Badgley, C. H. Ketcheson, G. Hearns, Fred Terry, T. H. Ketcheson, S. Nicolson, J. V. Sockles, R. Fox, Fred Malloy, G. C. Stickle, S. Badgley.

Besides the above prize winners who are members of Frankford Agricultural Society, the names printed below are also members: W. Wallis, D. R. Ketcheson, G. Bowman, W. E. Scott, James Johnson, Charles Conley, Mrs. S. A. Lockwood, Master E. Perry, E. Gifford, Fred Spence, Alec Hood, G. Ketcheson, Ross Nicholson, C. W. Leo, Bert Bush, M. McLaren, W. Snider, W. A. Ketcheson, R. Embury, C. M. Hendricks, C. P. Rose, John McLaren, H. J. Medell, S. P. Hageman, George Pollard, V. Heath, G. Arnott, R. Turley, J. B. Ford, R. Smar, M. Benedict, M. Maybe, L. G. Sine, P. W. White, A. L. Potts, G. H. Chard, Cecil Palmer, F. Grant, D. Rose and D. Carrigan.

Board of Directors for 1928: C. Fox, T. H. Ketcheson, G. C. Stickle, W. E. Scott, C. H. Ketcheson, F. Terry, L. Badgley, J. V. Lochlin, G. A. Hearn, Geo. Pollard, Jr., J. D. Larkin, F. R. Malloy, G. Bowman, G. Arnott, R. McPherson, E. Bonister.

Lady Directors: Mrs. R. McMurtter, Mrs. N. Simmons, Mrs. F. Terry, Mrs. Fred Malloy, Mrs. Geo. Nicholson, Mrs. C. B. Stickle, President — S. Nicolson; 1st Vice-President — D. R. Ketcheson; 2nd Vice-President — W. Wallis; Secretary — L. G. Sine; Treasurer — G. P. Grant.

Committees To Assist Exhibitors And Judges: Speed Tests — C. H. Ketcheson. Class 1 — F. Terry, Charles Fox. Dairy Cattle — L. P. Badgley. Fat Cattle — W. Scott. Class 5 — G. A. Hearn. Class 6 — D. R. Ketcheson. Class 7 — W. W. Allis. Class 8 — Mrs. F. Malloy. Class 9 — F. R. Malloy. Class 10 — Mrs. McMurtter, S. Nicolson.

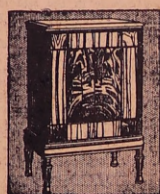

Class 11 — Mrs. G. C. Stickle. Class 12 — Mrs. G. Nicolson. Class 13 — Mrs. F. Terry, C. H. Ketcheson. Class 14 — Mrs. N. Simmons. Grand Stand — T. Ketcheson.

Jean Pafou is adding a caplet to his new silhouette and it is displayed in two panels hanging from the shoulders at the back.

## The New and Improved Electrola with Micro-Synchronous Victor Radio

NEVER before has music from a radio matched so perfectly the marvelous reproduction of the new V.E. Orthophonic records. Never before have you heard a complete radio-record playing instrument that gives you at the mere turn of a tiny knob, music from the air or records — music from each so beautiful it is difficult to tell which you are getting. All this in one charming cabinet.

Startling clarity — warmth — richness — tone color — they are all a part of this great instrument.

—An invention that crystallizes in one supreme cabinet Victor's thirty years of musical experience — Victor's world famous craftsmanship —

Victor's engineering leadership. An invention that bears the famous mark "His Master's Voice," known the world over.

—An instrument easy to tune and operate — incorporating many exclusive features; a simplified full vision station selector . . . a marvelous new Victor electro-dynamic reproducer . . . two new type R.C.A. power Radiotrons 245. New power, new volume.

—But now for the big news! The price of this wonderful instrument is only \$375 — complete with tubes . . . And only \$255 for the new Victor Radio alone in its own beautiful cabinet — on convenient payments, at all Victor Dealers.

### Features of VICTOR'S Greatest Instrument

- 1 A remarkable new and improved Electrola that reproduces V.E. Orthophonic Records with thrilling new power — depth — color.
- 2 Micro-synchronous balance: every element in micro-exact resonance at any frequency. Selective and sensitive to a super-degree.
- 3 Improved radio-circuit developed by Victor — unprecedented fidelity.
- 4 Two new Radiotrons 245 in the circuit; increased volume—no distortion. Quality over the entire scale.
- 5 Exclusive super-automatic full vision station selector as illustrated.
- 6 Three distinct units — all scientifically shielded. Quickly removable for inspection.
- 7 Marvelous new all-Victor electro-dynamic speaker — re-creates music from the air or record — beautifully! — True trebles — true bass notes.
- 8 Exquisitely designed compact Victor cabinets in walnut.
- 9 Trademarked "His Master's Voice." The world's most famous guarantee in three words and a picture.

### MINK FARM PROVES PROFITABLE VENTURE

Smithers, B.C. (By Canadian Press)—Farming was without compensation for O. C. Lawson, of Telkwa, so long as he did as his neighbours and merely pulled stumps and planted vegetables. The only real cash he received

was after he had made the rounds of his trap lines in winter. After he had sold his fur catch he had enough to grubstake him through the spring and summer on his farm. He called himself a farmer but the revenue came from fur.

What worried Lawson most was the uncertainty of the fur catch. It was

even more uncertain than his crops. So he set to thinking and evolved a plan to grow fur as he grew crops. He became a fur farmer, choosing mink as his main line. He fenced in an inclosure and established his breeding stock—one pair of mink.

That was six years ago. In August of this year Mr. Lawson accepted one Mr. Lawson thinks that more people

order alone for ten pairs of mink involving several thousand dollars. Other orders are being received almost daily, and it is doubtful if any line of industry in the Bulkley Valley has developed so rapidly as this one. With a ready market for the superior grade of fur to be raised in this district, Mist landing.

should go in for fur farming.

### RECOVERS IRISH BODY

## Just For The Feminine Reader

### A GOOD DINNER

**WORTH LOT OF PRAISE**  
"The woman who, out of scanty materials and under conditions, produces a good dinner, has as much right to her full portion of praise and appreciation as the woman who gets into the semi-finals at Wimbledon. But does she get it? She does not," writes Susan Ertz in the Daily Chronicle.

"One of the bitterest things about housework, the care of children or any common daily task, is the fact that the performers so rarely get thanked or rewarded for putting the best there is in them into it."  
"Some day, when even the busiest and most hard-pressed woman has a little more leisure and a little more money for the graces of life and living is looked upon as an art rather than a sordid struggle, more admiration and praise will be accorded to the woman who excels in it than now falls to her lot."

"No woman who was aware of the dignity of her own life, the importance and propriety of her own work in the world, would make a habit of waiting for hours in a queue in the rain in order to see a quite undesirable young actress in a daring dress and a compromising situation."

### Women Why Suffer Periodic Pain?

NILENE will relieve periodic pain, headaches, backaches, weakness, nausea, sleeplessness, irritability, and many other ailments from which few women are entirely free. A wonderful reconstructive Nerve Tonic.

NILENE can be obtained in either liquid or tablet form at \$1.00 per bottle or box.  
NILENE LABORATORIES, LIMITED

### THE WAY TO A MAN'S HEART

**Stuffed Potatoes**  
Scalloped Celery and Cabbage  
Cream Cheese and Nut Salad  
Baking Powder Biscuits  
Baked Tomatoes Coffee  
The time required for cooking this dinner is forty-five minutes, to one hour.

**Stuffed Potatoes**  
2 Large, smooth potatoes.  
1 Tablespoon grated cheese.  
Butter.  
Salt.  
Paprika.

Wash and bake the potatoes from forty-five minutes to one hour. When done, split and fill each with the cheese, butter, salt and paprika.

**Scalloped Celery and Cabbage**  
1 Cup dried celery.  
1 Cup chopped cabbage.  
1 Cup milk.  
2-3 Cup crumbs.  
Butter.  
Salt.

Put cabbage, crumbs and celery in alternate layers in greased baking dish, making each layer a little. Finish with crumbs on top, pour milk over whole, dot with butter and bake forty-five minutes to one hour. Left over cooked cabbage and celery may be used in which case bake only thirty minutes.

**Baked Tomatoes**  
2 Large, ripe tomatoes.  
1-4 Cup bread crumbs.  
1 Medium onion chopped fine.  
1-4 Teaspoon sage.  
Salt.  
Pepper.  
Melted Butter.

Cut the top and part of centre from two large, ripe tomatoes. Fill each with a stuffing made by mixing the bread crumbs, onion, sage, salt, pepper and melted butter enough to hold all together. Place on buttered pie plate or baking dish and bake twenty to thirty minutes.

In his new play "The Middle Watch" in which Major Tom Hay Beth has collaborated with Commander Stephen King-Hall, an admirer's terse description of the modern girl is: "Flat chest, no hips, no hair, no stays!"

## DELANEY

### Sport Coats

Shared Lamb, Shared Goat, Raccoon and Mink, all to be the Fall's attractive garment.

A deposit will hold any garment of your choice until wanted.

### EXCLUSIVE FURRIER

Phone 797  
17 Campbell St.

### SOME HELPFUL HINTS FOR BUSY HOUSEWIVES

Toast whole wheat bread, butter it and spread with anchovy paste—it will make an appetizing sandwich.

If you have no strainer use embroidery hoops and put the cheese cloth between the hoops to form a bag.

New calico, prints and muslin curtains are extremely hard to wash owing to the line in them, but if you give them a night's soaking in warm water in which two or three handfuls of salt have been dissolved the line is freed and the task consequently lightened.

Put a couple of cloves into the vegetable soup—it will make a pleasing change in the flavor.

Rub egg-stained silverware or other badly tarnished metal with salt before washing and use ammonia in the wash water.

## Miss Hard-Boiled" BY JANE DIXON

### CHAPTER 57

"There's one thing about you, dear," Greta said, cranking the corner of her blue eyes. "One never lacks for excitement when barging in your company."

It was the morning following Raquel's escape from drowning, and the two exponents of the art of Alphonse were breakfasting late in their suite overlooking the Normandie garden.

"But Greta, I was too far out," Raquel insisted.

"What difference does that make," Greta demanded, "as long as you picked yourself such a handsome life-saver?"

Raquel smiled enigmatically. "He ruined a perfectly good bathing-suit, though. Tore the back right out of it. Had to wrap you up in beachrobe to keep you from looking like a Follies-bare back, and very little front at that."

"Must return the robe," said Raquel.

"Uh-huh. And you can thank him, you know. We're lunching with him, you know. I accepted for you."

"Don't but me. I tell you he's a wow. You can't wear the tall hat with a bimbo who's dragged you out of the ocean."

"I suppose not. And I must thank him—even if he did rescue me needlessly. I was all right until he clutched me in the back."

"Oh gosh—you would spoil a perfectly swell costume!"

Greta noticed that, even for a reigning beauty Raquel spent an unusually long time over her toilette.

"Which would you advise, Greta," she asked, her manner a mouthful of pleaded silk and frail chiffon, "the boise rose, or this gray?"

"The gray. It'll make you look pale and interesting. And that chiffon coat with the gray fox collar. It'll give her the right touch of paleness to your face."

"What did you say his name is?" Raquel knew, but she wished to hear the name again.

"Gerald Parker. Nice moniker, what? They call him Jerry, for short."

"Who's they?" quickly.

"Oh, the mob around here. My boy friends is a pal of his—the one who the Long Island Set who staked me at the Casino. He's coming to luncheon with us. His name is Bryce Watrous. Can you bear it?"

"Greta—" reprovingly.

"Hey! Do you think I'm going to be a glass of cold water at a party? I got a man, don't I?"

"The two men were waiting for them when they went down for luncheon."

"He's bored," was the thought that flashed through Raquel's mind when she was introduced, with Greta's usual informality, to Gerald Parker. "I'm glad he's fair. I like fair men. They seem easier to read. He's courteous, but his mind is elsewhere. He doesn't even see me."

The thought nettled her. She was accustomed to instant surrender.

However, they were a jolly foursome at the table. Impossible to be otherwise with Greta setting up a constant barrage of her inimitable chatter.

Raquel realized with a start that she was using little subterfuges to prolong the luncheon.

"It's Gerald Parker's eyes," she told herself. "I've never seen such a gray gray. Like a dark mountainside with a gray mist over it. He's really only moderately good-looking, except for his eyes. And moderately young. I should say."

"You are stopping in Deauville some time?" he asked her with his lips. His eyes let her know the answer was a matter of indifference to him.

"Yes," she said. "And you?"

"I don't know. One has to stop some place. I was thinking of pulling out shortly."

She almost said: "Please don't." She caught herself just in time.

### THE HOLLYHOCKS

I know a little shadowy lane where all the afternoon  
The birds and bees and butterflies keep the sad world in tune;  
And at the end, where great trees meet in converse overhead,  
There is a cottage, shingled-eaved, with old vines proudly spread,  
And near its little Dutch stone walk, bordered with pink and phlox,  
Like soldiers in the sun they stand, the royal hollyhocks.

They guard their little battlement in rank and row of pride,  
Yet not to every friendly guest who comes to step inside;  
They lean with greetings chivalrous when through the gate I pass,  
And beckon as if asking me to run across the grass.  
A row of old-time gentlemen in ruffles and bright stocks,  
I see them standing there, the brave and stalwart hollyhocks.

Prim are their rows and prim their days, old fashioned is their name  
Yet who would lose their courteous nod, nor their pink and scarlet flames?  
Take all the roses of the world, the lilies of the land,  
But give me this old-fashioned spot and its old-fashioned band,  
I love the old-time pinks, sweet peas, and simple four o'clocks,  
But best of all I love the tall and stately hollyhock!  
CHARLES HANSON TOWNE

## EASTERN LEGEND IS TOLD IN RUGS

### Ancient Symbols Found In Examples Unspoiled By Long Centuries

Amid the prosaic hurly of a modern city the gorgeous East may yet make her message of romance and age old story heard, and bring into the home something of her charm, color and tradition. For in an Oriental rug is written a drama whose actors played their roles on life's stage centuries ago and were immortalized by a native weaver in his own inspired way. Just as a great picture is not painted in a day, nor a novel written overnight, so the weaving of a fine Oriental rug rich in symbolism, woven in the finest wools within the weaver's power to obtain, may have taken years to make and have occupied the hours of his highest inspiration. Nothing remains of the weaver, not even his name, and the story in his rug, or the religious significance commemorated, are as new and inspiring as the day the rug

Lapin is very smart on suits and used properly, Lapin conveys an effect rather luxurious but not at all ostentatious and when fashioned into great coats and dresses is making a big difference in the sale of leather bags, today's tweed ensembles, which formerly always called for leather bags, today are matched with bags of the same material.

Some long-sleeved dinner dresses of lace are being shown, and a few lace-trimmed or afternoon models, while lace petticoats and culottes accompany several evening gowns.

New York reports that colored wedding gowns are again in vogue and a few years back rose pink cast a romantic halo about the bridal procession; this season an ivory dress enough to be a light yellow is the favored shade—and even greens have been used.

In a desperate effort to preserve a fleeting moment of exclusiveness for their original models, the Paris couturiers adopt a cold shoulder manner toward buyers who show more readiness to inspect than to purchase and buyer after buyer returning from the fall openings at the fashion capital say that it is a common practice for the great dressmaking houses to black list buyers who do not purchase at least one model.

Such romance is to be found in the Montreal shops, where the very architecture strikes an arresting note that carries the passerby in imagination to the Orient. Within, the effect is heightened, and where the rugs hanging on the walls, too precious in many cases for floor coverings, stimulate the artistic sense and inspire the visitor to read the stories and revel in the beautiful colorings in those ranged in folded rags. Here is an ideal setting for viewing Oriental rugs, and the service may spend an absorbing hour learning the stories so patiently woven into the lovely texture by the crafts men of the East.

The fine Oriental rug derives its chief charm from the fact that its making was a labor of love and pride in his craft on the part of the weaver. Probably the artist, several centuries ago, never dreamed of a commercial aspect of his work and was content to work simply for the joy and satisfaction of producing a perfect thing.

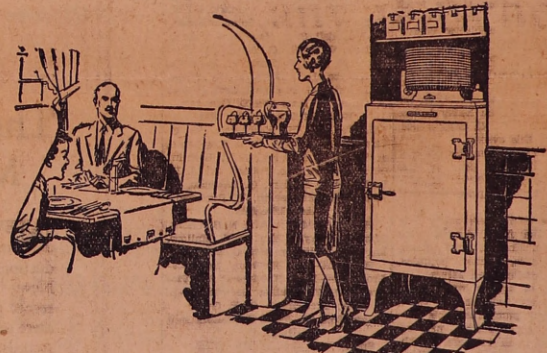

This firm has grown—so steadily that it now has branches spread across the continent, and the local store was opened only a little more than a year ago. It is staffed by natives of the countries from which the rugs come, men who know their rugs thoroughly and can explain the significance of the symbols and designs that reflect the mind of the East.

For the service of patrons, the management employs an Oriental weaver skilled in repairing injuries to beautiful rugs. On his loom he weaves in the broken pattern so skillfully that the damage cannot be detected.

## It will fit any Kitchen

## GENERAL ELECTRIC Refrigerator

There's no longer any need to say "I'd love to have an electric refrigerator but there's no place for it in my small kitchen."

Some one of the General Electric models will fit into the kitchen or hall space you have available. These refrigerators, because of their simple compact mechanism, placed up on top, out of the way, require less floor space than other refrigerators yet have even greater food storage area.

They are different from all other refrigerators, actually "years ahead" in design. They are entirely automatic—remarkably quiet and they never need to be

oiled. Among the 250,000 users of General Electric Refrigerators, not one of them has spent a dollar for service or repairs.

Each General Electric Refrigerator keeps food temperature always well below the danger line of 50 degrees. Its easily accessible temperature control governs the speed of freezing ice cubes or frozen desserts.

Telephone now for our new illustrated booklet. Come in when you can and let us show you the new all-steel models which will not warp. You can buy on deferred payments.

## 15 MILLION FOR BLEAK LABRADOR

Newfoundland, Would Keep Three Mile Stretch Of Territory

St. John, Nfld., (By Canadian Press)—Fifteen million dollars was the sum Hon. W. S. Monroe, then Premier of Newfoundland, was prepared to recommend to his government in 1925 as acceptable for the transference of sovereign rights in the Labrador territory, except for a three-mile strip along the coast, to the Dominion of Canada. This sum was named by Premier Monroe in a letter—"without prejudice to the dispute respecting the territory in question and strictly confidential"—addressed to Premier Taschereau of Quebec, prior to the Privy Council's establishment of Newfoundland's claim to a slice of the mainland many times greater in area than the narrow strip which, according to Canadian contention, was all that Newfoundland could lay claim to.

The opposition put before Premier Taschereau would have reserved to Newfoundland, an area three miles wide inland from high water mark, excepting a width of three quarters of a mile on both sides of streams, on which Newfoundland's rights would

be restricted to the requirements of the fishery. The Government of Canada would be required to respect the existing legal rights of all persons to any portion of the territory according to Newfoundland law.

The letter in which these terms of settlement were put forward was dated March 4, 1925, while negotiations for the territory were still in progress, and before the Privy Council's decision in favor of Newfoundland had enhanced the value of the colony's claims. In a previous communication, of February 10, Premier Monroe had remarked that he understood from Mr. Doherty that Ottawa would not be satisfied with an arrangement which did not permit of Canada's jurisdiction extend to the coast. If the territory belonged to himself, under those conditions, he would ask thirty million dollars.

The letters follow:—  
Prime Minister, Office,  
St. John's, Nfld.,  
February 10th, 1925.

Hon. L. A. Taschereau,  
Prime Minister, Quebec,  
Quebec, Canada.

Dear Sir:—I have your letter of the 30th January and note that you consider the question referred to in my letter of the 13th January could eventually be settled satisfactorily if we were fairly close together on the price which might be eventually paid. As I understand it you are desirous that we should deal with any leasehold interests and offer you a property free of encumbrances. I also understand from Judge Doherty that Ottawa would not be satisfied with any arrangement that made a dividing line and Canada's jurisdiction must go to the coast.

I think you will remember that when you asked me in Montreal to name a price I told you that if the property belonged to me personally I would ask thirty million dollars.

It is of course more or less a "pig in the bag" for we, none of us, know the true value of the area. My colleagues in the Government however, feel that unless the price was a big one we would not be justified in putting a proposition before the Legislature that would involve the concession of the Sovereignty of the coast to Canada.

Yours faithfully,  
W. S. MONROE,  
Prime Minister.

Office of Prime Minister,  
St. John's, Nfld.,  
March 4th, 1925.

Hon. L. A. Taschereau,  
Premier and Attorney General,  
Quebec, P.Q., Canada.

(Without prejudice to the dispute respecting the territory in question and strictly confidential.)

Dear Sir:—In further reference to the correspondence and conversations between us, myself and members of the Government who recently visited Canada are prepared to recommend to Council a proposition on the lines hereunder.

The Government of Canada to pay to the Government of Newfoundland fifteen million dollars for all the latter's rights, title and interest whatsoever to the territory known as Labrador save and except that the Government of Newfoundland shall reserve and have exclusive rights to the use and employment of a three mile reservation inland from high water mark excepting three quarters of a mile width on each side of all streams, but Newfoundland fisheries to have the right to cut timber for fishery requirements and purposes upon this three quarters of a mile.

2. In pursuance of the above the Newfoundland Government or any department thereof undertake during negotiations to do no new administrative act, nor collect nor receive any payment or dues except what may be tendered by way of back rentals in respect of the above mentioned territory or any portion thereof, without the permission of the Government of Canada.

3. Also the Government of Newfoundland from the date of the confirmation of the present agreement by the Legislature of Newfoundland undertake to do any acts (permissible by

## PARTLY FROZEN WHEN CAUGHT IN SEVERE BLIZZARD

This Occurred In Australia Where It Is Winter In Canada's Summer

Melbourne, Australia, Sept. 12. (By Canadian Press)—Caught in a blizzard that covered the ground with a mantle of snow two feet deep, two brothers, Albert and William Mills, aged respectively 17 and 14 years, wandered for four days among the foothills of the Australian Alps in the Mitta Mitta district before they found their way back to their camp. Owing to the intense cold and their plodding hour after hour through snow and water, the boys' feet began to show signs of frostbite, but with great fortitude they kept on walking. It took

4. It being understood that the Government of Canada shall respect the existing legal rights of all persons to any portions of the said territory in accordance with the laws of Newfoundland as they now exist.

Should it be necessary to bring the matter before the Legislature I might mention that our session will probably close early next month.

Yours faithfully,  
W. S. MONROE,  
Prime Minister.

them almost a day to cover a mile on the last stage of their struggle to reach safety.

They are now in the Melbourne hospital suffering from frostbitten feet. Those of the younger boy are the more severely affected and it is thought possible that he may lose one or more of his toes.

The boys, who had been staying with an uncle at Lightning Creek, in the Tallaigata district, travelled on horseback to a spot known as Wombat Creek, 12 miles from Lightning Creek, where they pitched their camp for a holiday, spent in shooting and walking over the hills. After a few days snow began to fall, and, afraid of being snowed-in the boys decided to return to their uncle's place. Their horses, however had wandered off and could not be found. They set out on foot for a point six miles from the camp, where they were to have been picked up by a friend in his motor car. Nightfall came and found them "bushed." The blizzard had ceased, but it was followed by a thick hill fog which blotted out everything. Cold and weary the boys gave up hope of continuing the journey and sought into the shelter of a hollow tree.

Three more days of wandering and suffering from hunger, cold and exposure were spent by the boys in search of a camp, where they finally found though it was deserted and contained no food. They were found the fourth day by a friend who was to have picked them up in his motor car their first day out from the camp.

### TODAY'S THOUGHT

"Science, like art, is one of the noblest of the toys that preserve the childhood of the world."  
G. K. CHESTERTON

### QUESTION FOR MR. THOMAS

The exact details of the plan of Hon. J. H. Thomas for increasing Canadian purchases in Great Britain so as to make more work and reduce unemployment remain a mystery round which that gentleman continues to play in the various addresses that he has been delivering in this country. Mr. Thomas tells us that he is a "commercial traveller" trying to sell British products to us, and hints that his proposals have been sympathetically received by the Canadian Government, but excuses himself from going further on the ground that his first report must be made to his own Parliament.

Taking into consideration our visitors' encouragement to produce all we can, this paper has already expressed its doubt as to the possibility of increasing our imports of those British products that would contribute most effectively to minimizing unemployment in the Old Country; we have our own boot and shoe trade, our own textile industry, our own shipyards and so on. And even if it be assumed, for purposes of argument, that the importation of goods that we do not ourselves produce can be materially expanded in favor of Great Britain and at the expense of foreign countries from which they are at present being imported, the question still remains as to just how this may be accomplished and how long it will take? Everyone knows that it is a slow and difficult business to divert trade from established channels and the British manufacturer has not hitherto shown any great disposition to adapt himself to the requirements of the Canadian consumer.

But above all, Canada is interested in expanding her own export trade, and any plan that Mr. Thomas has in mind, to be successful, must necessarily include provision for reciprocal treatment, and this brings us face to face with the public declaration of that gentleman's colleague, Hon. Philip Snowden—made while in Opposition, it is true, that he is determined to do away with preferences as least to the extent of freeing the British breakfast table from taxation. Now the record of Mr. Snowden suggests that he is a man who means what he says and who does not hesitate to implement his utterances by action. Therefore, the possibility cannot be ignored that the Canadian producer of foodstuffs will be shut out of the British market by the elimination of preferences just as thoroughly as he is shut out of the American market by prohibitive tariff rates. And this being the case, it is in order to ask Mr. Thomas the straight question how he, as a commercial traveller, expects to sell British goods in Canada when his associate business has announced his intention of making no distinction for the future between Canadian and foreign food products. The reply, if any, that the British Minister of Employment has to make to this question will be awaited with interest by all Canadians.—Quebec Chronicle-Telegraph.

### FIREPROOF MATCHES

Matches and cigarettes undoubtedly are the heaviest contributors to the world's staggering fire loss, but they are not of themselves fire hazards. It is when they are combined with hu-

man carelessness that they get in their worst liks. Recently, the interesting announcement was made by the United States bureau of standards that its scientists had invented and perfected self-extinguishing cigarettes and fireproof matches and had reasonable hope that these would be successfully marketed and would play a notable part in the reduction of fire loss. Nearly all brands of cigarettes will burn themselves out to white ash without forced draft, and compared with cigars, they were found to be a 40 to 1 fire hazard. It has been estimated that the carelessness of smokers has caused an annual fire loss of approximately \$90,000,000 in the United States and, in ratio to population, it may be presumed that the cost to Canada has been about the same. The experiments conducted by the United States bureau of standards have been treated by some wise-crackers asers as a matter to joke about but it is anything but that. The public, it is recognized, must be protected from itself. If it will persist in throwing away lighted matches and glowing cigarette ends, then the manufacturers of matches and cigarettes that will extinguish themselves will be a highly valuable contribution to this age of progress. It was too much to hope for of course, that smokers could be educated en masse into being careful—that they could be prevailed upon, for instance, to exercise the precautions taken by veteran bush and range men, who break every used match in two before tossing it away. The basic idea involved in this, of course, is that as pressure must be exerted at both ends to break a match, it is first necessary to extinguish the lucifer before applying the pressure.

### TWEED'S NEW HALL

The progressiveness of the people of the village of Tweed is to be admired and the beautiful new Community Hall and dance pavilion, which was formally opened yesterday, will stand for years as a memorial to their integrity. Tweed is fortunate in the fact that the Reeve's chair is graced by a live wide-awake man in the person of Warden Sam Rollins. Mr. Rollins is readily aware of the needs of the community and he was one of the leading spirits in laying the plans for the new structure which enhances the shore of beautiful Lake Stocco. Mr. Rollins is one of the veterans in the point of municipal service and has served with distinction to himself and the village, as Warden of the County of Hastings last year. He has, associated with him, a splendid group of men in the town council, while citizens have lent every assistance in the building of the hall.

A notable figure in public life in Hon. George S. Henry, consented to officiate at the opening ceremonies, and in his first visit to Tweed, he was agreeably surprised at the progressiveness of this thriving town. Mr. Henry made an announcement of vital importance to Tweed's future, when he stated that the new King's Highway, which it is proposed will run from Peterboro to Ottawa, will run directly through the village.

Mr. Henry struck a new note when he recommended that all villages should at least make an effort toward the erection of some form of community hall, where local talent has an opportunity to exercise itself. Tweed is to be congratulated on another forward step.

If the section of the Canadian National between Port Arthur and Port Frances is such a poor road, why is most of the wheat brought from the west to the head of the lakes by that route?—Port Arthur News-Chronicle.

### PASSING YEARS

From The Intelligencer Of This Day 30 Years Ago

Mr. and Mrs. Lacombe left this morning for St. Thomas to visit friends.

Mrs. Geo. Crang, has returned home after visiting friends in Kingston.

Mr. Lockett of the firm of Haines & Lockett, is visiting in Kingston.

Mrs. Cunningham, of Kingston, is in the city the guest of her sister, Mrs. (Rev.) Galbraith.

Mr. M. D. Ward, dentist, who is at present at Gravenhurst, is we regret to say, not improving in health.

Mrs. George A. Kingston, of Toronto who has been visiting relatives here, for some time, returned home today.

Mrs. William Church, of St. Paul, is in the city after an absence of eleven years.

Mr. Thos. F. Hawkins, late of O. B. C., has secured a position on the staff of Collier's Weekly, New York City.

Mr. C. P. McTavish, who has been seriously ill at his home in Toronto, is recovered so far as to be able to resume his duties for the New York Life, in this district.

### HAVE YOU HEARD THESE?

"Ah, my boy, I owe a great deal to one woman."  
"Your mother?"  
"No, my landlady."—Exchange.

"Sir, would you give five dollars to bury a saxophone player?"  
"Here's thirty dollars; bury six of 'em."—Our Paper.

For a vacancy in Toronto fire brigade, 200 applications have been received. There seems to be no lack of young men who want to go to blazes.

Mabel: Tom tells me that when he comes home he is going to marry the sweetest girl in the world.  
Vera: What a mean trick! After being engaged to marry you!

Little Willie's favorite uncle had arrived.  
"Hello, old chap!" said Uncle. And how do you like school?"  
"I like it best closed," was Willie's reply.

### \$69,779,000 FOR AUSTRALIAN WOOL

Melbourne, Australia. (By Canadian Press)—Wool from Australia's 1928-1929 clip is worth \$69,779,000 for the 950,000,000 pound total. These figures show a slight increase in previous estimates and are a record for Australia. According to the government report there are now 106,115,000 head of sheep in the Commonwealth, which is the highest total since 1891, when the record figure of 106,421,069 was reached.

The wool clip for the current year, amounting to 424,108 tons exceeds the previous record of production in 1926-27 by 11,508 tons.

### GREETINGS

Let us sing of birthdays,  
Natal days of cheer,  
What a happy circumstance,  
Brings but one each year,  
Everybody, everywhere,  
Some day has a birthday  
Whether far or near,  
And this is yours, my dear.

Every day brings gladness,  
Every day brings tears,  
But we grow more understanding  
With the passing years.  
Each one brings us nearer  
The time when we shall sleep.  
So let us laugh and love together,  
Soon enough we'll weep.

L. W. NEWCOMBE.

## THAT BODY OF YOURS

By James W. Barton, M.D.

### THE WASHWOMAN OF THE BLOOD

As you know the washwoman in the home or at the laundry, endeavors to get the clothes as clean as possible and to the degree that she gets them cleaned, we classify her as good, fair or poor.

Now as mentioned before the washwoman of the body, that washes your blood clean, is the liver, and so your liver can be classified as good, fair, or poor.

One of the expressions that you hear frequently is "sluggish liver." This means that the individual has a liver that is a little "slow" with its work so that the blood does not get washed of its "impurities" as rapidly as it should.

This would be called a "fair" liver. One of the natural impurities that is in the blood due to the work the cells are doing all the time, is lactic acid. If the liver is doing its work properly it will not allow the amount of lactic acid in the blood to get too high. If it allows the lactic acid or other impurities to increase too much it would be classed as only a "fair" or even "poor" liver.

A poor liver is where it is doing such poor work that it becomes inflamed as

also does its appendage the gall bladder, and so the skin becomes jaundiced and often gall stones are found in the gall bladder. Now where there are no symptoms of jaundice, no pain from gall bladder. Now where there are no doctor suspects that the liver is to blame for your "tiredness" or lack of ambition, he can now make a very simple test and find out if the liver is really doing its work.

A specimen of blood as withdrawn from the vein in the forearm in the morning before breakfast and after half an hour's rest.

Into the same vein of the other forearm a solution of lactic acid is injected, taking about one minute of time to get all into the vein. Specimens are then withdrawn from the other arm immediately after the injection is completed and after intervals of five and fifteen minutes. The amount of lactic in these specimens is then learned.

If the liver is doing its work properly it immediately withdraws from the blood the small amount of lactic acid that was injected and so the amount of lactic acid in the blood is really unchanged.

However, you are not likely to need

## CHEQUE ARTIST ADMITS GUILT

Canadian Press

Newcastle, N. B., Sept. 11.—C. D. Waggoner, President of the Bank of Telluride, wanted in connection with half a million dollar financial mystery transaction was arrested at a tourist resort eight miles north of here last night. He admitted his identity to newspapermen; he was just about ready to give himself up when arrested. Detectives have been searching in Canada for him.

## NATIONAL DEBT IS DECREASED

(Canadian Press)

Ottawa, Ont., Sept. 11.—An increase in the ordinary revenues of the Dominion amounting to \$12,039,960, increased

this or other liver test if you keep your liver active by bending exercises or deep breathing exercises. Over-eating of rich foods, fats particularly, interferes with the liver's ability to keep your blood pure.

ordinary expenditures totalling \$8,828,469, and a decrease in the net debt of Canada are shown in the monthly statement of the Department of Finance for five months ending the last day of August issued today.

The revenue amount to \$213,159,501 as against last year's \$201,118,541 and the debt is \$2,148,702,415, as compared with \$2,229,574,400 same time last year.

Typhoid fever has spread to such an extent in the nearby village of Gattineau Point during the last two weeks that, according to Dr. A. McMorris, sole physician there, the situation has reached an alarming point.

## LONG DROUGHT IN ONTARIO BROKEN Local Manager Walker Store is Transferred - Election Prospects

### ELECTION DATES A CONJECTURE

Officials Of Conservative Party Name Oct. 30th Or Nov. 4th

### LIBERALS GATHER

Preparations For Election Completed—Poll Clerks Named

Toronto, Sept. 13.—(Editorial) October 30 or November 4—these are the prospective dates for the expected provincial election which now are being mentioned by the authorities in the Conservative party.

Reports current yesterday that the date of the polling would be October 31 were declared inaccurate by officials consulted at the parliament buildings. These men, familiar with the elections act, pointed out that under that statute polling must take place on the "eleventh day after the day of nomination." With some amusement they directed attention to the calendar where it was seen at once that if the polling was on October 31, nominations would occur on October 20, and October 20 is a Sunday.

Officials of the party state that the election might be held on October 30 which would place the nominations on Saturday, October 19. They recall that in 1926 election the official nomination day was a Saturday. Others who do not believe that the government will go to the people quite as early, pick Monday, November 4, with official nominations on October 24.

Commander's Son To Marry

Edward J. Higgins, successor to the late General Booth as commander of the Salvation Army, has made application to F. V. John, assistant provincial secretary for permission to perform the wedding ceremony for his youngest son, Vernon Higgins, of Toronto, who is to marry Miss Grace Morris, Toronto, next month. The de-

### STORE MANAGER IS TRANSFERRED

James Murray Takes Charge Of Walker Store At Brockville

### WILL BE MISSED HERE

Was Prominent Kiwanian And An Active Church Worker

After acting as manager of the Walker Store here for four years, Mr. James Murray has been transferred to the store in Brockville. He will leave on Sunday evening of this week for the eastern town to take over his new duties on Monday.

Mr. Murray has built the Walker Store business up from the beginning opening the branch here four years ago until today it stands out as one of the finest ladies wear stores in Belleville or Eastern Ontario. Mr. Murray will be greatly missed, both by the store employees, to whom he has endeared himself, and by his many friends in the city.

### Prominent Kiwanian

Familiarly known to his fellow Kiwanians and his friends as "Jimmy" Mr. Murray has been a hard worker in Kiwanian activities and a prominent member of that organization. At present he is chairman of the Kiwanian Committee for the charge of all fashion showings at the Kiwanian Carnival next week, but unfortunately, he will not be here to take charge. He was also an active worker at Holy Trinity Street Church.

### Quintette Are Advised To Make Quick Retreat For Border

Toronto, Sept. 13.—Four men and one woman, alleged to be members of a gambling and run-running ring operating in Windsor and Detroit were arrested yesterday afternoon at Thorncliffe Race Track as suspected members of the "Purple Gang" of racketeers whose machine gun and bombing operations have created excitement in Chicago and Detroit.

### SNEAK THIEVES AT DESERONTO

Culprits Enter Homes By Breaking Windows Open

Deseronto, Sept. 13.—Within a period of two weeks Deseronto has been visited twice by a gang of sneak thieves and so far no clues have been obtained as to their identity. Some few nights ago the tobacco store and pool room of Mr. James Writton was entered and a considerable quantity of tobacco taken. On Tuesday evening or in the early hours of yesterday morning entrance was obtained into four prominent homes but fortunately very little was secured by the thief or thieves. The homes entered were Mr. Isaac Allum, Mr. J. A. Harding, Mr. George Harper and Mr. W. S. Eppes, these homes being situated in the block running from St. George to Green streets.

### CHICAGO EDITOR DEAD

Chicago, Sept. 13.—R. F. Robinson 49, editor of the Chicago Congo and formerly with the Winnipeg Tribune died today. He was born in Virginia.

### PREMIER TO SAIL FOR NEW YORK

London, September 13.—It was officially announced at No. 10 Downing street late this afternoon that the British Prime Minister, Ramsay MacDonald would sail for the United States on September 28. Announcement followed a conference between Mr. MacDonald and Ambassador Dawes.

### ABANDON HOPES FOR GRAVEL SHIP

Chicago, Sept. 13.—Hope was all but abandoned today for the missing Gravel ship Andaste and its crew of 28. Coastguardmen returned from a search for the vessel, three days over due from Grand Haven, Michigan, said that the Lake Michigan nor Michikan shore had given a single clue to the ship's fate. The boat was loaded with gravel. No Canadian were listed as part of the crew.

### WESTERN AIRWAYS AEROPLANE IS SUNK

Prince Albert, Sask., Sept. 13.—The thirty thousand dollar super-universal Ford tri-motor of the Western Canada Airways broke from its moorings in Churchill Bay last week and sank in the harbor when the pontoons filled with water after the rubber caps had been lifted. A message received here today said.

### OFFICIALS PROBE LIGNITE FIELD

Yield May Double Early Estimates—Drilling Operations Start

Toronto, Sept. 13.—At least as much coal as previously was estimated lies under the ground at Blacksmith Rapids, 90 miles north of Coburn in Ontario's newly-tested lignite fields, according to advices reaching the department of mines at the parliament buildings.

Officials of the department now say they believe there are 20,000,000 tons of potential fuel under the ground. These estimates, based on further drilling, also lead to the responsible state that the lignite-bearing area extends a full square mile in place of the half square mile formerly estimated.

### BORDEN REVIEWS CHIEF EVENTS

Canada's War-Time Premier Points To Dominion's Rights

Ottawa, Ont., Sept. 13.—The British Commonwealth of Nations stands today as a model of the League of Nations. To destroy its unity would be a crime against mankind. Rt. Hon. Sir Robert Borden, Canada's war time Minister stated at luncheon of the Canadian club here today.

### ARREST ALLEGED PETTY THIEVES

Harry Luffman And Willis Under Held By Provincial Police

Harry Luffman, of Roslin, and Willis Unger, of Bloomfield, were arrested at Bloomfield yesterday afternoon by Provincial Constables Smith and Hill, of Madoc Detachment, assisted by Provincial Constable Price Morris, of Picton. Both men were brought to Belleville where they will be charged with theft of grain from Wilfred Luffman, uncle of one of the accused men.

### DIES SUDDENLY AT HOME TODAY

Mrs. Matilda Sine, 22 1-2 Water street, dropped dead at her home this morning. She was suffering from heart trouble. Mrs. Sine was well known in Bridge Street Church since she took an active part in all its branches. She was sixty years of age, a relic of the late William Sine.

### COMING EVENTS

Dinner Dance at Bay of Quinte Country Club, Friday, Sept. 13, 7-10. Bon Ton Orchestra, \$1.00. Please make reservations at once. \$12-24

### OLD COMPANY'S LEHIGH HARD COAL SEMI-SOLVAY COKE

THE F. S. ANDERSON CO.  
Sole Distributors for Belleville

### FIVE WEEK'S DROUGHT BROKEN BY GENERAL DOWNPOUR TODAY

Sir Gilbert Clayton

High commissioner for Iraq, who died after collapsing following a polo game. Sir Gilbert was 54 years of age and had held several important military posts.

### ADMITS THEFT OF MOTOR CAR

Albert Elster Will Be Taken To Toronto To Face Charges

Arrested just east of Trenton yesterday afternoon about five o'clock on the Provincial Highway by Provincial Constables Silvester and Thompson, a man giving his name as Albert Elster, no permanent address, is in the County Jail awaiting trial on a charge of theft of a motor car, which will be held in Toronto.

### RAINS CURTAIL COLLEGE AFFAIR

Graduates Of Upper Canada College Gather From Far And Near

Toronto, Sept. 13.—Under clouded skies the three-day celebration marking the Centenary of Upper Canada College were started here today. The weather was far from ideal for the opening functions with occasional heavy showers curtailing the outdoor celebrations.

### YOUNGSTER IS SAVED FROM DROWNING

Peterboro, Sept. 13.—The Ottonabee River, which has claimed so many lives, was a victim by a heroic girl yesterday at noon, when Myrtle Tugby, cashier at the Metropolitan Store and daughter of Mr. and Mrs. Fred Tugby, Waterford street, plunged into the water at the foot of Dublin street and rescued a three-year-old boy as he was going down for the third time. The near-victim was Arthur Thomas Jr., son of Police Sergeant Arthur Thomas, College street.

### Fire In Northbrook And Rawdon Are Under Control

### SHORTAGE OF FEED Rain Will Help Farmers To Get The Land In Shape

Heavy rains today practically extinguished forest fires that have been raging in Hastings county for the past two or three days. Starting last night in the northern section of the county it has rained steadily all day today. The intelligencer was informed Men and women, weary from over fifty hours bitter fight with the raging holocaust near the little village of Northbrook, welcomed the rain which put an end to their battle with one of the worst fires that has struck Hastings county in some summers.

Northbrook village is safe, the intelligencer was told this afternoon. Fire-fighting efforts may now be reduced to a minimum as the rain is expected to finish off the forest fires without the aid of men. The only loss that was suffered in Northbrook was a school house and one dwelling destroyed.

The flames never reached Flinton, although if the rain had not fallen that point, as well as Northbrook, was seriously menaced. Yesterday afternoon Northbrook was hemmed in on three sides by flames—the danger has passed.

Flames, which raged yesterday two miles from Northbrook, were well under control today and were nearly extinguished. High winds yesterday drove the fires to the north of the village and several farms were threatened. The Crow Lake district, too, reports today that all danger from fire has passed.

### Drought Is Broken

Toronto, Sept. 13.—J. P. B. Liversay, General Manager of The Canadian Press—Rains last night and today are pretty general over Ontario and appear to have definitely broken the drought which has been the great drought of 1929. But a weeks' solid precipitation is required to restore parched lands and much crop is beyond repair.

When the rain will do, is to help farmers get on with their fall work and get land into shape for next spring's seeding. For much acreage intended for fall seeding to winter wheat must now go over to spring, because it was impossible to get seed into the ground except on favorably situated lands that had been well summer-flooded.

The drive yesterday afternoon into Ontario, from Hamilton, through Guelph to Owen Sound revealed a distressing picture. Much of the fodder crop is hardly worth cutting and the straw is everywhere short. There will be a great shortage of feed this winter and the Ontario farmer with a bunch of stock or dairy herd will have to dig deep in his pocket before the spring pastures are in shape for running cattle.

### UNITED STATES PAIR APPOINTED

New York, Sept. 13.—The New York Times says today that Jackson F. Reynolds, president of the First National Bank of New York and Mead Taylor, president of the First National Bank of Chicago, have been appointed as United States representatives on the subcommittee created by the Hague reparations conference under the Statute of the First International Settlements. Formal announcement of the appointment is withheld pending the full list of committee members representing all the nations is published.

## **TODAY'S THOUGHT**

"Youth today is pulling at the traces as never before, it is true, but it is also willing to pull a load."

HERBERT HOOVER

## **GROWTH OF WESTERN CITIES**

The western cities are growing in population and influence. Regina has just announced a decided increase in her numbers. Vancouver has now a population over 300,000. It is estimated that the city will attain a million by 1954, or in 25 years. It may even be better than that. If the Asiatic developments now in prospect take place.

We have no reason not to suppose that China and Russia will soon compose their differences; that Japan will continue to expand her trade with us; that India will be granted such measures of home rule as will assist her in developing a great foreign trade, a large part of which will undoubtedly come to Canada.

The expansion of Asia in civilized ways means everything to Vancouver and the west, and the proximity of Vancouver to the Asiatic ports gives that city an advantage which points it out as the coming Queen of the Pacific. Calgary, Edmonton, all the western cities are bound to share the advantages which will flow through Vancouver.

Judging the future of Canada from the past forty years there is nothing a young man who finds himself out of place in the east can do better than place himself in one of the promising cities of the west, and Vancouver for choice.

For those who have their life already far spent and who wish to dwell for a while in an earthly Paradise, there is Victoria. The beauty, the health, the leisurely quiet of that lovely place, could scarcely be excelled for any who desire a home for quiet study, or pleasant idling, or happy garden days to round off the full measure of life. Vancouver is always within reach if it were desired to plunge for a few hours into the roar and bustle of modern activity. But the short sea passage cuts one off from the far and fret and makes a place of peace wherein to cast an envious lot.

## **PLENTY OF SCOPE**

The world has been thrilled by the great flight of the Graf Zeppelin. For the first time in history a lighter-than-air machine has encircled the earth, in a remarkably short space of time. It is a new wonder, felt to be merely the beginning of fresh and even more remarkable exploits, now that the thing has been done and the way shown. A week or so ago the first air plane to fly across the English channel was placed on exhibition; it was only a quarter of a century ago that Blériot performed the feat, yet the machine in which he accomplished it, in comparison with the efficient passenger planes which now daily make the same trip, excited amusement in those who viewed it, so crude it seemed. He was the first, however—the pioneer, as Commander Eckener, of the Zeppelin, is the pioneer. Others follow and improve upon the performance; the mechanics and inventors learn from their experience and so as time goes on, records are continually bettered. There never was a time in the world's history when progress in knowledge and achievement was so swift and so impressive. Every year sees new and surprising novelties, not merely in respect to aeronautics, but

in every direction.

In the face of all this, one sometimes hears the complaint that all has been discovered and that little opportunity is left for the exercise of ingenuity and enterprise. It is a ridiculous statement, as a moment's thought would show. Young people particularly, should avoid the danger of falling into such reasoning. Youth never had the chance it has today for the display of exceptional talent. In spite of all that has been found out, it is still the fact that only a very, very little is known and that the possibilities of fresh discoveries are practically boundless. It is estimated that the world has been in existence for at least 2,000 million years, where as man has lived upon the earth for a mere 300,000 years. It is only within the last century or two of this period that the great discoveries which have revolutionized life have been made—the steam engine, electricity, the internal combustion engine. No one can say what new revelations are in store. Man, according to the reckonings of science is in his infancy; but he has no reason to feel ashamed of his progress. The point is, however, he is still young, not old, or even middle aged. Those who look around on modern marvels and view them as the end of knowledge, the ultimate limit of humanity's attainment, are looking through the wrong end of the telescope. We are but at the beginning, and young people are privileged to assist in such progress as has never before been dreamed of or thought possible.

## **OTHER MEN'S THOUGHTS**

Those who won \$315 for a \$2 bet on a horse at Montreal's Grand Circuit in Christmas shopping early, but they probably won't—Border Cities Star.

A single wire, say radio experts, makes the best aerial. And a single gossip, we say, makes the best head-caster—Kingston White-Standard.

In describing his driving ability he said his friend was one of the kind of drivers who would mist a chicken and hit a cow—Galt Reporter.

Nobody will be angry if the election is left over until next summer, except possibly Mr. Sinclair, who is all ready for it now—Owen Sound Sun-Times.

The west has been experiencing a cold wave, which in the case of the Gardiner government, has developed in a severe frost—Petrolia-Examiner.

The engagement of Frederick Garlick and Annie Mustard is announced at Amherstburg. That's mixing the seasoning—Petrolia Advertiser-Topic.

Experts with new stethoscopes can hear fruit fly larvae inside a grapefruit. Privacy is getting harder and harder to obtain—St. Catharine Standard.

## **PASSING YEARS** From The Intelligencer Of This Day 30 Years Ago

Mrs. Peter Graham, Moore Street, is lying at the point of death.

Mr. James Quinn has gone to Toronto, where he has secured a position.

Mrs. Meighan of Perth is visiting her daughter, Mrs. R. Templeton.

Major J. R. Orr, proprietor of the Madoc Review, was in the city today.

Mr. John Bell Jr.'s condition is, we are pleased to report, much improved today.

The Misses Matthews of Kingston were guests of their brother, Alfred on Saturday.

Mr. George Harris of Chicago is in the city visiting his brother, Mr. John Harris, Herchimer street.

Mr. W. J. Diamond has been selected as a judge in the flower department of the Prince Edward exhibition to be held at Pictou.

Mr. A. J. McDonald, contractor on the C. O. R. extension in the city stopping at 103 Coleman Street.

## **HAVE YOU HEARD THESE?**

Angry Parent: You promised you would live within your allowance and how weak you are.  
Son (sighing): No dad, the weakness is in the allowance.

Pienicker (to officer): What a calamity! My poems have been blown over the cliff.  
Officer: Well, suppose you can write 'em again, can't you?  
Oh, yes but my sandwiches were wrapped up in them—Humorist.

## **Nostroline**

Famous English Remedy for  
Head Colds  
Hay Fever  
Catarrh

**McKeown's**  
DRUG STORE

A connoisseur of painting saw in a second-hand dealer's shop the portrait of an admiral in full uniform. He offered the dealer \$50 for it, but the latter declined to sell it under \$175. As neither would give way the picture remained in the shop.

A short time afterwards the connoisseur saw the picture hanging in the dining-room of a house he happened to be visiting. "Hello! What have you got here?" he said to his host.

The latter replied that the portrait had been bequeathed to him, and added: "It is the portrait of one of ours."

"Was he, indeed?" commended the connoisseur. "A month ago he was within \$125 of becoming one of mine."

## **THAT BODY OF YOURS**

By James W. Bar, M.D.

## **SEVERE BURNS NOT NECESSARILY FATAL NOW**

I have spent many hours in accompanying a railroad surgeon in his rounds after an accident in which 27 victims were removed to his hospital. Noting one of the victims chatting with his relatives I was of the opinion that his case was not serious and that he would recover, and questioned the surgeon as to his chances.

The surgeon shook his head and said, "That poor fellow hasn't a chance there is too much of his body surface burned." Such proved to be the case.

How differently surgeons, physicians, and nurses feel about these serious burns, now that the tannic acid treatment has been shown to save these formerly fatal cases. In previous days the doctor carried tubes of carbol oil (unmixed oil and lime water) which was applied to simple burns. For more severe burns the continuous bath treatment was used which meant constant care with poor results very often.

The tannic acid treatment is very simple. Tannic acid in powdered form is carried in the doctor's bag, and is now on the shelves in the first aid department of many factories or other industrial institutions.

Any oil or grease on the burned surface must be removed before the tannic acid is applied. Sterile gauze or gauze bandage is laid over the burned spot or spots and this is soaked with 2½% solution of tannic acid.

Roughly, four teaspoonfuls of dry tannic acid to one glass of water makes a 2½% solution. The solution must be made fresh each time. Until such time as this tannic acid becomes a part of every factory and household equipment it is well to remember that strongly brewed tea may take the place of tannic acid.

This can be poured gently or sprayed on the burned surface. After the first application a film or coagulum begins to form and the severe pain disappears. So don't wait to go any distance to secure tannic acid if you have tea available. Remember that it should be real strong.

The treatment prevents shock, prevents poisoning, and lessens greatly the amount of scar tissue.

## **PROPAGANDA FOR A FUTURE WAR**

Publicity Agent Deliberately Set Out To Create International Distrust

All lovers of peace will hail with satisfaction President Hoover's declaration that he will not tolerate economic interference by great shipping corporations in international negotiations for naval disarmament. He condemned with unmeasured severity the publicity agent for several of the leading United States shipbuilding firms whose propaganda had helped to nullify the preliminary arms conferences at Geneva in 1927.

So eager was the unlimited funds behind him deliberately set out to create international distrust and hate between the United States and Great Britain. Camouflaging his diabolical intentions with appeals to American patriotism and the necessity for preparedness against a potentially stronger foe he initiated probably the most deliberate publicity for war that the world has ever seen. He received blood money amounting to \$57,000 from the shipping corporations and is now openly suing the same concerns for some \$250,000 which he claims as the balance due for his services.

The Council of the League of Nations is now in session at Geneva. Its preliminary meetings have been marked with the greatest enthusiasm and more practical progress towards outlawing war than at any time in its history. Henderson for Britain Brand for France and Stresemann for Germany have eloquently advocated a new consideration of the covenant to make war an impossibility. Hopes are high for satisfactory agreement between Britain and the United States for a big reduction in naval construction. But the intentions of the world's greatest statesmen may come to naught if such propaganda as that sponsored by Searer and his kind is allowed to continue.

It was stated by a former premier of France in 1922 that prior to the Great War many of the leading armament producers of the world were spending millions annually in propaganda in favor of war and naval and military preparedness. As we face once more the specter of a global conflict and have some of the great shipbuilding firms also become traffickers in human life and advocates of dividends on death? Is, so, surely it is the sacred duty of the press of this and every country in the world which is sincerely striving for peace to look for and exterminate the dangerous propaganda of greed and wholesale murder.

## **PETERBOROUGH BAY HAS DISAPPEARED**

Peterboro, Sept. 12.—Ray MacLaren, 17 year old son of Mr. and Mrs. J. A. MacLaren, 260 Antrim street, disappeared under strange circumstances at 11:20 a.m. Monday and has not been seen since. His parents are nearly frantic concerning his whereabouts and fear for his safety and the police have conducted an energetic search throughout the city without results.

## **JUDGING TEAMS OFF FOR PETERBORO FAIR**

Two teams from Prince Edward County left yesterday morning for Peterboro where they will take part in judging competitions under the auspices of the Department of Agriculture. The boys have a choice of judging in horses, beef or dairy cattle, sheep and swine, and can enter two classes, nutrition and one of either horse furnishings or clothing.

The ladies' team is made up of Misses Evelyn Montgomery, Mary Anderson, Freda Smith, Winifred Heferty, Vera Foster and Mary Kavanagh. The boys' team is F. Huff, F. Roblin, S. Black, L. McCartney, B. Ketchapaw, H. Gosselin, H. Stevenson, H. Bonter, E. Walbridge and H. Munroe. All these young people reside in the vicinity of Pictou.

## **GOLF**

Napanee golf club was soundly trounced by the local Belleville Golf Club when the visitors paid a visit to the eastern town Wednesday afternoon. Belleville trimmed the easterners by a score of 13½ to 4½. After the match the visitors were tendered a supper. Here's how the scores went:

Belleville	Napanee
A. H. Ketcheson	0 W. J. Wiggins
J. Legault	1 D. B. White
L. MacConnell	1 K. Ham
A. MacConnell	1 Dr. McLaughlin
Geo. Stokes	1 E. Hoffman
Ed. Worth	1 L. Douglas
A. P. Allen	1 Jack Allison
W. H. Reeves	0 E. McDonald
O. H. Scott	½ T. German
Joe Cather	1 J. W. Robinson
R. J. Boyes	1 Mr. Martin
L. G. McIntosh	½ A. Pringle
R. E. Orr	1 Dr. Galbraith
A. R. Cameron	½ W. Dobb
Jack Kerr	1 Mr. Pollard
W. J. Tyers	0 Archie Wilson
L. Train	1 Mr. Hueston
T. Webster	1 W. Wilson
13½	4½

## **EXECUTOR REMOVED**

Russel Carman is Removed As Executor Of Father's Estate

Toronto, Sept. 12.—The removal of Russel A. Carman as executor of the estate of his father, the late Thomas J. Carman, of Belleville, was sanctioned by an order made at Osgoode Hall today. The deceased died in April, 1926, and his estate was probate at \$140,567.

## **WESTERN MINER WAS MAULED BY BIG BEAR**

Vancouver, B.C., Sept. 12.—After a thousand mile air race to his death, H. C. Hughes, Superintendent of the Emerald Mine at Ootsa Lake, in North British Columbia, lies in the hospital here today, mangled by a bear last Thursday. Hughes was rushed with a hurt by plane to Vancouver for medical treatment.

It was the shock and poisoning that proved fatal in badly burned patients. Truly this has been a great discovery or mankind, preventing suffering and saving many lives.

## **EARLE & COOK CO.**

## **ABANDON HOPES FOR EXPLORERS**

On Board Soviet for Breaker Selov in Arctic, Sept. 12.—By wireless to Moscow—Any hope that the heroic explorer Rold Amundsen or the Alexander group carried away with the enveloping wrecked Italian dirigible Italia in 1926, must have taken refuge on the Russian island of Josefland was dispelled today by the Russian Scientific expedition of this icebreaker.

Prof. Schmidt, the Russian scientist and Geographer announced that no trace had been found in any of the

earliest settlement on the huge island of Herolt Norwegian, or his companions.

## **CELEBRATES BIRTHDAY**

## THE BULLETIN BOARD

Mainly About People You Know

### WELL BABY CLINIC

The regular well-baby clinic, under the auspices of the Victorian Order of Nurses will be held in the city hall this afternoon. The clinic will be held from 2:30 until 4:30 this afternoon.

### TEA ROOM OPENED

The Brownie Tea Rooms at 25 Chalmers Street, opposite the Y.M.C.A. are now open. Light inexpensive lunches served at all hours. Drop around and try it. s13-114

### DANCE AT COUNTRY CLUB

A dinner dance will be held at the Bay of Quinte Country Club tonight. It is expected that a large crowd will be in attendance as the season is drawing rapidly to a close. A local orchestra will be in attendance.

### SPECIAL DINNER

Sunday Special, Regular \$1.25 Chicken Dinner, for 75c, Sunnyside Lodge, 74 miles east of Belleville on Highway 24. Mrs. E. Purcell. s13-214

### JUDGING AT KINGSTON

Mr. Walter Reeves of this city who is regarded as one of the most competent men in judging dogs in Canada is officiating in that capacity at Kingston Fair this week. A huge crowd watched Mr. Reeves as he "gave the dogs the once over." The dog show is an innovation at the Kingston Fair and according to reports is extremely popular. Judging was completed last night and the two trophies were awarded. The Fair started on Tuesday and will be concluded tonight. The directors have been favored with fine weather and the Exhibition according to those who have attended is the best in years. Mr. Reeves recently returned from a tour of Fairs which included the Ottawa Central Exhibition, the Toronto Exhibition and several small autumn fairs in the Province of Quebec.

You must see the greatest heart story ever told, "Four Sons", at Regent starting Monday. A picture the whole family will enjoy. Regular prices.

### BIRTHS

LAPUM—Born at the Belleville General Hospital, Wednesday, Sept. 11, to Mr. and Mrs. J. V. Lapum, 151 Ann St., a son (Alfred John). s13-214

## SPECIAL BARBER WAS DETAINED

Millionaire Engaged Own Artist For Tonsorial Purposes

(Canadian Press)  
Sault Ste. Marie, Sept. 13.—Louis Arvo, New York barber, whom William F. Kenney, millionaire, had crossed the Atlantic to give him a haircut was refused permission to land in England today from the Levantine because he did not have a passport.

London, Sept. 13.—The New York barber of William F. Kenney, millionaire, contractor, after being detained by immigration authorities at Southampton, where he arrived aboard the Levantine today, has been given permission to land in England. It was stated in London this afternoon.

## CANADIAN LEAD WAS WIPED OUT

(Canadian Press)  
Ottawa, Ont., Sept. 13.—George S. Lyon, Toronto, and George S. Lyon, Garden City, N.J., respectively captains of the Canadian and United States' senior golf teams which met over the Royal Ottawa Club golf course here today for the Duke of Devonshire trophy, were the first pair to finish play. Lyons gave Canada a lead of two points by finishing with that advantage over his opponent.

The Canadians' lead wiped out when A. B. Jenks, Manchester, New Hampshire, defeated Dr. C. Chapin, Brantford, returned with a three point advantage to give the visitors one-point lead.

### FRIDAY THE 13th

Superstitious Ooze, Beware Of Black Cats And Imaginary Dangers

All ye citizens take warning! A dark and sinister doom is shadowing you today. Trouble will dog your every footstep and it will pay all and sundry to "think before they speak and watch before they leap." Take care in crossing streets in turning corners, even in your ordinary walk to or from the office. Misfortune awaits you and for fortune indeed will be the man or woman who escapes its clutches hand. Stay away from construction work lest you walk under a ladder, and whatever you do watch yourself at meal times for fear you will spit the salt. Woe to the luncheon hour! This happens! Girls guard your compact well lest they fall to the pavement while powdering your pretty noses. If the looking glass breaks, your doom will be seven years of hard luck and gone will be your hopes of a June wedding next year.

Watch your step when going home from the movies lest you meet with misfortune in hideous forms. Hurry from the damp, dark streets and do not tarry on the way. If after observing all these precautions you fall a victim to hard luck do not blame us. We have done our duty and warned you beforehand.

Today is Friday the 13th!

## FIVE WEEKS

(Continued from Page 1)  
inch. This is very small and will have practically no effect on the pastures or gardens. It is still very cloudy here and more rain may fall later in the day.

Rain in Western Ontario  
Guelph, Ont., Sept. 13.—Rain which fell steadily during the night and part of this morning proved tremendous value to farmers of this district. According to the report of the Ontario Agriculture College, the downpour was just what was needed to make the land suitable for fall plowing and to help along wheat and root crops which had been retarded by long period of drought.

Hamilton, Ont., Sept. 13.—Weather conditions in this district since last evening gave rise to hope that the drought has been really broken. All night and today there were light intermittent showers and heavily overcast skies.

### DIPHTHERIA BREAKS OUT IN TORONTO

Toronto, Sept. 13.—Sixty-four cases of diphtheria have been reported to the health department so far this month. Twenty-five were reported today for yesterday. Dr. Jackson, M.O.H., ascribed the number to periodical outbreaks of the disease, but said there was no epidemic.

### FORMER WAR LORD CONVICTED TODAY

Oita, Japan, Sept. 13.—Chang Tsung Chang, the former Japanese war lord, was convicted of accidental homicide in the district court here today in connection with the death of seventy of his troops. He is now in custody of the police and was fined 300 yen (about \$150).

### DIRIGIBLE LANDS

Lakehurst, N.J., Sept. 12.—The all metal dirigible Zmc 2 was landed at noon, completing the overnight trip from Detroit.

Mr. George Forhan

well-known local man who has been appointed manager of the newly acquired Famous Players theatre here which will re-open on Sept. 28th.

## CANADA HOLDING TREASURE KEYS

Editor Of Manitoba Free Press In Optimistic Mood

(Canadian Press)  
Calgary, Sept. 13.—Canada as the hub of the world, bound by its location on the globe to be on the main stream of traffic both by air and land, was pictured by J. W. Duff, editor-in-chief of the Manitoba Free Press when he spoke to the Canadian Chamber of Commerce today on the topic "Contribution of the Natural Resources to the Canadian economic partnership."

Not only did he foresee the Dominion holding a commanding position in world trade and ultimately in financial power, but he prophesied all the world would be dependent on Canada which held the key to the great mineral treasure house of North America.

### INTREPID AVIATOR SAFE AT WINNIPEG

Winnipeg, Man., Sept. 13.—Thinned and not a little weary, C. F. Mews, 21, year old pilot is safe in the city today. Last night he told of the rigors he experienced during the sixteen days he wandered over the boarder northland stretches after having landed near Kneke Lake with an empty gasoline tank.

### AUSTRALIAN GENERAL ELECTION OCT. 12th

Canberra, Australia (Can. Press Cable), Sept. 13.—Polling day in the Australian General election has been fixed for October 12. It was officially announced today. This Australia will have two general elections within a year. The last contest was November 17, 1928.

### GIVEN SIX MONTHS

Brantford, Ont., Sept. 13.—John Buligo who pleaded guilty to a charge of criminal negligence after his car hit a Detroit car, injuring two men, was today given six months in jail.

### BODY FOUND IN WELL

Windsor, Ont., Sept. 12.—The body of six-year-old Helen Toka, West Sandwich, who wandered away from home last night, was found today at the bottom of an unprotected well containing six feet of water.

### SUCCEEDS JUSTICE MOWAT

Ottawa, Ont., Sept. 12.—Charles Garrow, K.C., Toronto, has been appointed Judge of the Supreme Court of Ontario, filling the vacancy caused by the death of Justice Mowat, it was announced today.

### BEER BY THE GLASS

Grand Forks B.C., Sept. 13.—Citizens here yesterday voted in favor of beer by the glass. The vote was 317 for and 228 against.

### Meet FAT EMMA AND "PIE FACE"

IN PERSON at the

## PERSONALS

VISITORS WHO COME AND GO.

Mr. and Mrs. T. Ketcheson, 514 Clair Street, and Miss Beesie Clapadine of this city, were visitors in Kingston on Wednesday and attended the Kingston Fair.

Mrs. D. McCordan, Mrs. Gay Wilson and nephew, Mr. Harry Noble, of this city, attended the Kingston Fair this week.

Mr. Geo. T. Woodley has returned to the city after a short business trip in Toronto.

Mr. and Mrs. R. Smith and daughter, of this city, were visitors in Kingston on Wednesday, the guests of Mr. E. Dumlague, Glenora, this week.

Miss Marguerite McKinnon, West Bridge St., is confined to her home through illness.

Miss Gwen Huffman, of this city, is spending a few days with friends in Pictou.

Miss Freda Jenkins, nurse-in-training at the General Hospital is spending a holiday with her parents, Mr. and Mrs. R. Jenkins, Pictou.

Mr. and Mrs. Hutchison and daughter, of this city, have been visiting Mr. and Mrs. L. G. Harris, Catharine Street.

Mrs. S. G. Harris returned from Montreal, Quebec, Prince Edward Island and Newfoundland.

## WEDDINGS

### LEAMAN-WELLS

A pretty quiet autumn wedding took place Tuesday, September 10th at twelve o'clock at the home of Mr. and Mrs. T. S. Wells, Bloomfield, when their younger daughter, Olive Mabel, was united in marriage to Mr. Melborne Bradshaw Leaman, younger son of Mr. and Mrs. C. R. Leaman, of Detroit. Rev. S. M. Scott, pastor of St. Andrews' Presbyterian Church, officiated. The house was decorated throughout with palms, autumn flowers and smilax. The bride, who was given in marriage by her father, was charming in a gown of peach georgette, primrose style, with Venetian lace bertha and trimmings. She carried a spray of opelia roses and lily of the valley.

### HAMBLY-MARISSET

A very beautiful wedding was solemnized at the home of the bride's parents at Union Vale on Wednesday, Sept. 4, 1929, when Miss Lela Marisset, eldest daughter of Mr. and Mrs. J. H. Marisset, was the bride and Mr. Charles Everett Hambly, son of Mr. and Mrs. C. G. Hambly, of Green Point. The marriage ceremony was performed by the Rev. D. M. Smith of Northport, in the presence of a number of relatives and friends. The bride entered the parlor on the arm of her father, amid the strains of Lohengrin's Bridal March, played by Miss Tina Reynolds. The bride looked lovely in a gown of powder blue georgette with silk lace trimmings and carried a sheaf of gladioli. She was attended by her sister, Miss Ethel Marisset, who wore a periwinkle blue georgette gown with coral lace trimmings. The groom was attended by his cousin, Mr. Clinton Hambly, of Green Point. Gifts from the groom to the bride and bridesmaid were pearl necklaces; to the pianist, a costume jewelry; to the best man, a gold tie pin and collar clip. During the signing of the register the pianist played "Meditation." Following the ceremony a wedding dinner was served. The happy couple left immediately for a honeymoon trip, returning to Fort Howe, where they left amid showers of confetti for Toronto, Lake Simcoe and other points west. The bride travelled in rose beige flat crepe with shoes and stockings to match. On their return they will reside at Green Point.—Pictou Gazette.

CHICAGO GRAIN  
Chicago, Sept. 13.—Wheat, September 13th, December 13th 3-4. Corn, September 103 1-4. December 101 1-2. Oats, September 52 1-2. December 51 1-2.

WINNIPEG GRAIN  
Winnipeg, Sept. 13.—Wheat, Oct. 3-4 lower to 1-4 higher at 157 1-2 to 158 1-2. Dec. 1-8 lower to 1-8 higher at 158 1-2 to 159 1-2. May 1-4 lower to 1-4 higher at 163 3-4. Oats, Oct. 1-4 lower to 1-4 higher at 71. May unchanged at 74.

FOREIGN EXCHANGE  
New York, Sept. 13.—Foreign exchange irregular, demand rates, Great Britain 48 1-8. Canadian dollar 3-4 of one per cent discount.

CHICAGO GRAIN  
Chicago, Sept. 13.—Influenced by reports of rain in Argentina, wheat prices here averaged lower early today. A steady influence, however, was that for the first time of late decrease appeared in shipment of wheat from Argentina. Opening at 1-4 off to 1-8 up, wheat afterward showed some loss all around, but with rallies frequent. Corn, oats and provisions were relatively firm, corn starting 5-8 decline to 1-4 advance and later showed slight general gains.

## Just For The Feminine Reader

### SALADS NEEDED FOR CHILDREN'S HEALTH

This is the day of the salad. No woman will deny this and few well-set tables do not boast of at least one salad a day. It may be a vegetable salad, a fruit salad, or a combination of both. It may contain fish, meat, eggs, nuts, or a combination of two or three of these foods. Almost any woman can prepare a salad that will meet with the approval of grown-ups, but it is a far more difficult matter to meet with the approval of children. Lettuce, tomatoes, celery and other ingredients do not please most children as they do adults.

Still, the children need the min-

erals, salts and vitamins of salads. Until they have learned to eat the foods mentioned, see to it that they get salads made from ingredients that they will relish. Sliced oranges and peanuts or the same fruit with popcorn, might do for a start. Raisins and oranges served with sauce made from powdered sugar, orange juice and whipped cream, is something a little more "fancy". Mixtures of fruits of various kinds may be prepared and served on cold, crisp lettuce leaves. A tasty sauce poured over the whole will gradually induce the children to devour the flavored lettuce—and one more excellent food will thus have been added to their list of likes.

### THE WAY TO A MAN'S HEART

#### Flank Steak en Casserole

Three sliced onions.  
Two tablespoons drippings.  
One heaping tablespoon flour.  
One and one-half cups of water or stock.  
Salt, pepper.  
One cup diced carrots.

Three drops Worcestershire sauce, or more.

Tablespoon minced parsley.  
For a change, add your parboiled potatoes to the casserole and finish cooking them. A browned potato sometimes is just the right touch.

The cooking time is one to two hours, or until the flank steak is tender. Prepare the steak during your morning at home; cool and then reheat at the dinner hour. I like such a dish better re-heated; and ripening process allows the flavors to blend. So many meats are better the second day.

Cut the steak into serving portions. In the frying pan melt drippings and fry the onions for two minutes in it, remove onions to casserole. Sear the meat in the seasoned drippings and then remove the casserole. Add the flour to the drippings and brown; pour in the hot water or stock and stir until it thickens. Season with salt and pepper. Pour this liquid over the meat and onions; add the carrots and cover the casserole.

Back in the days when the iron clad hoofs of coach horses rang on cobbled streets Yardley's Old English Lavender Soap was cherished for its perfect purity and lovable fragrance.

Then, as now, lovely ladies used Yardley's to soften and refine hands and faces—and to add the sweetly clinging breath of lavender to enriched skins.

12 per box of 3 large cakes at all  
druggists and department stores. Prices  
uniform throughout Canada.

## Miss Hard-Boiled" BY JANE DIXON

The "dobe hut on the desert."  
Bryce Watrous thought they ought  
to make a day of it. Dinner after the  
polo game and later dancing and a  
turn at the tables in the Casino. Ra-  
quel was sure that Gerald Parker's  
assent was more polite than eager.

"Sorry," she said, and was im-  
patient that his lack of interest piqued  
her. "Some other time, perhaps."

"Then we'll make it tomorrow night  
if you're not engaged," said Watrous.  
"I'll do a little intensive playing to-  
night and see if I can't win back what  
Greta lost."

"If Mrs. Rojas will do us the honor?"  
Parker seconded. Her first refusal  
had sharpened his ardor.

A perversity in Raquel urged her to  
decline. She could not. With Ger-  
ald Parker's misty gray eyes asking  
her to say "yes."

So it was arranged that they would  
meet on the morrow.

"What the hallelujah did you lose to-  
water on that invite for?" Greta want-  
ed to know as soon as she was alone  
with Raquel.

"I thought your friend Mr. Parker  
was a bit bored," Raquel answered.  
"What did you want him to do—  
throw down his coat and let you walk  
on it?"

"No, but he seems like a man who  
has been pretty much spoiled by hav-  
ing his own way—with women."

"My mother's apron string! He  
doesn't give a kopeck about women."

Raquel had a queer feeling around  
her heart.

"How do you know?" she asked.

"I know the breed. As for being  
spoiled, I shouldn't be surprised. He's  
disgustingly rich. Wouldn't you know  
it—and that you'd pick him out for  
your life-saver?"

A message awaited them. Alphonse  
would not be down until a week later.  
He was on the track of a Corot, a real  
Corot. He would know in a week if  
it was genuine.

"What the deuce is a Corot?" de-  
manded Greta.

"A painting," said Raquel. "Corot  
is the name of an artist."

"Gosh!" Greta said. "You can get  
a hundred pictures in the Place du  
Terre any day at a dime a throw.  
And you can get a hundred artists too  
by just whistling."

Raquel was not listening. She was  
while ago she had been looking for-  
ward impatiently to the arrival of Al-  
phonse. She had even been consid-  
ering the possibility that she had not re-  
ceived word of his immediate depar-  
ture from Paris.

"Why was it that now she was glad  
that arrival had been postponed?"

### CHAPTER 55

"I have known Jerry Parker exactly  
seven days."

Greta, stretched at length on a  
cushion lounged to regard Raquel  
with quizzical eye.

"Gosh! dearie," she said. "don't  
breathe it; say it."

Raquel laughed. A low laugh, deep  
in her throat.

Looking back over the week that had  
just passed she was certain she had  
found more happiness than she had  
known in all the rest of her troubled  
life. Happiness and exquisite pain.

What was there about Jerry Parker  
that thrilled in her veins like a  
fever? That sang in her soul like  
the music that first time she went to  
the Opera in Paris?

He was no different than the men  
she had known. Not as handsome as  
Bertie Adams or even as Jack Farrell.  
Certainly he was without the grace-  
ful gallantry, the unfeeling thought-  
fulness, fineness, of Alphonse. Beauty  
awakened only mild interest, certainly  
no fine fever in him.

Yet there was something about him.  
The slow turn of his head when he  
looked at her. The set of his chin  
when he had reached a decision. The  
way his gray eyes smiled when his lips  
were grave. The touch of his hand on  
her arm. Firm, yet infinitely gentle.

## FLOWERS APPEAR ENHANCE MODE

Bright Effect Created To  
Add Lively Touches To  
Frocks

Artificial flowers, at least, of the  
expensive order, continue to be fas-  
hionable, especially the large, soft  
flowers in clusters. Peonies, for in-  
stance, in rich beige, ivory and gold  
shades are stylish. They are made  
of a soft silk with the petals cut on  
natural lines. Three shades of the  
same color appear to be the leading  
design for evening dresses. Peonies  
in cerise red, a rose and fuchsia,  
again are grouped for a shoulder or  
sleeve trimming.

Chiffon, with enough stiffening  
about the edges to give that "real"  
effect is also a favorite medium and  
the metallic cloths are being used in  
flowers with narrow petals, such as  
daisies and anemones. Velvet and  
silk, too, are often combined. When  
velvet alone is used in large flowers  
it is of the soft kind that gives the  
suede-like surface of the natural  
petals. Gladiolus are being used in  
various colors, including yellow and  
black, the flower parts made of a  
muslin, while the stems are of velvet  
in natural coloring. Giant poppies  
in natural red with the edges of the  
dress or a white dinner frock that  
requires some color.

No shipment of flowers from Paris  
is ever without a gardenia of some  
kind. The best ones are made of  
white muslin. Cluster are shown  
for evening wear, while the single  
flowers are good for an afternoon.

The starched velvet pond lilies in  
white and faint tints come in at-  
tractive new clusters of three blooms  
of varying sizes and colors. The cen-  
ters and inner sides of the petals are  
richly colored and this coloring  
shows through when the flowers are  
worn.

Roses of French ninnon are made  
with the petals rolled or lapping one  
over the other so that only the top  
edges and the yellow centres are vis-  
ible. The new colors are a tropical  
red, a peach and gold and the new  
brown and sunset shades for wear on  
the frocks of beige lace or chiffon.

For the sport suit there are flower  
clusters made of kid. Flat stems and  
leaves of black patent leather are the  
new features. The flowers come in  
different colors. One cluster of three  
flowers, one red, one white and one  
black, has red for the centre, white  
and black, and black for the centre  
of the red flower. Leaves are of the  
black patent leather. This same type  
of cluster is brought out in brown  
and beige tones, in blue, aged, red,  
white and black and green and pur-  
ple.

"It's a good thing I know you're off  
love, dearie," Greta said, balancing a  
silver brocade mule on bare toes. "or  
I'd say you're falling for Jerry."

"Yes, isn't it? Raquel's voice lacked  
conviction. "Otherwise I might suf-  
fer a fractured heart."

"Uh-huh. I don't think Jerry's fall-  
ing in love this season. There's one  
bumbo you didn't knock dizzy, dearie."

"He likes to play at love, though."

"Sure. It helps him kill time.  
Nine playboy!"

Raquel walked to her dressing-table.  
Dusted her face with powder. Dusted  
the powder off again. Her hand was  
trembling.

"Alphonse arrives tomorrow," she  
said.

"I hope he doesn't crab the party.  
We're having a wot of a time. I got  
three delicious evening bags stuffed full  
of francs, nice fat francs. Croquetiers  
weep when they see me coming."

"Do start dressing will you, Greta?  
We're to meet Jerry and Mr. Watrous  
in the place for aperitifs."

"Why Jerry and Mr. Watrous?  
Bryce is a good egg."

"Of course, he is. But I seem to

## CREPE BACK SATIN

\$1.95

A very special value in Crepe Back Satin, in all  
silk quality. This fine Satin is 38" wide, and is very  
low in price. In black, navy and brown. \$1.95

## SINCLAIRS

know Jerry better. Just as if I had  
known him always.

"Put on the Hearts and Flowers' re-  
cords, James," mocked Greta, dis-  
cussing herself lazily from the cus-  
hions.

They were motoring out of Beauville  
for dinner. There was a place nestled  
back in the hills, with a rustic garden,  
and food as only the rustic French can  
cook it.

The moon came up early, silencing  
the paths in the garden, on the top of  
a hill. Stardust sifted down upon  
their heads. There was the scented  
night-breath of flowers.

"A night for love—and lovers," said  
Jerry. He was strolling with Raquel  
down a silver-pebbled path toward an  
arbor.

"And beauty," she said, softly. Her  
heart stood still.

"I suppose so," he said. "Beauty  
is nature, at any rate. After all, no-  
thing is beautiful unless it is natural,  
simple."

"Unless, perhaps, a beautiful wo-  
man?"

"Even that," he said. "I came near  
falling in love myself once. It was a  
long time ago. While I was in college.  
The fellows said she—the girl—was  
homebody enough to stop the clock on  
chapel tower. I could never see it. I  
liked her simplicity."

Blue-white teeth gleaming through  
scarlet lips.

"That is—well—rather unusual, for

a man, isn't it?" Raquel tossed her  
head, around which the summer  
breeze blew her hair in a sable smoke  
cloud.

"I don't know," said Jerry. "At any  
rate, you need not consider me a  
fool. You have been—Beauty and  
simplicity."

She thought of the French maid,  
Jars and bottles and tubes and boxes.  
Dozens of them. Row upon row of  
cosmetics, cloaks, hats. Dainty under-  
things by the dozen. Shoes—a forest  
of them.

Nevertheless her heart beat a joyous  
roundelay.

They were under the arbor now.  
Pale puffs of sweetness that were roses.  
The heady perfume of honeysuckle.  
(To be Continued.)

## HELPED DURING MIDDLE AGE

Woman Praises Lydia E.  
Pinkham's Vegetable  
Compound

Sarnia, Ont.—"I am willing to  
answer letters from other women, to  
tell them the wonder-  
ful good Lydia E. Pinkham's Vege-  
table Compound did me. I cannot be  
thankful enough for the benefits I re-  
ceived during the  
Change of Life. I  
do housework and  
my troubles made  
me unfit to work.  
A friend advised  
me to try the Veg-  
etable Compound. I felt great relief at  
once, began to regain my appetite, and  
my nerves got better. I will recom-  
mend your medicine to all with trou-  
bles like I had."—Mrs. JOHN BENSON,  
162 N. Christina St., Sarnia, Ontario.

### SOME HELPFUL HINTS FOR BUSY HOUSEWIVES

Windows may be hard to raise—  
just a little hot lard between the  
window frame and casing and both  
on the roller and rope will make it  
easy to open.

You can get the black specks from  
the silver if you use a paste of pow-  
dered whiting and olive oil. Apply  
with a soft cloth, leave it on a while  
and polish with a piece of old silk.

To thoroughly clean the bed springs  
set them out in the yard on a sunny  
day and apply water with the hose.  
The sun and wind will dry them rap-  
idly.

If the glass stopper sticks firmly  
soak it in vinegar for a while or wrap  
around the neck of a bottle a cloth  
which has been wrung out of hot  
water; work the stopper gently and  
you will soon get it out.

## WAYWARD GIRLS LONDON HOSTEL

### Lady Dupplin Describes Care Given Discharged Women Prisoners

There is an interesting English woman philanthropist in Montreal for a few days—of little and distinguished connections, and who forms one of the strong connecting links between London's unfortunate women and those who care to help them. She is the Viscountess Dupplin, chairman of the London committee of the Parry Robson Hostel for discharged women prisoners and others. The hostel is a Roman Catholic institution run under the patronage of Cardinal Bourne, Archbishop of Westminster, but equal care is given to women of all denominations without any charge, and the hostel boasts that in nineteen years its doors have never been shut.

Lady Dupplin tells a gripping story of conditions in London, since she is no nominal board member, but an active worker. "Of the younger women discharged from jail we are able to reclaim about 300 out of 500," Lady Dupplin said. "Often the lone woman in town is arrested for some petty offence such as rowdiness with under-age comrades she has picked up on arriving in the big city, she explained. If she is sent to jail she loses her self-respect and becomes discouraged. It is the worst of hostel to shelter such women, since magistrates at the present day refrain from committing young women to jail on the first or second offence, and often remand them in care of the officials of the hostel."

No girl is discharged until suitable employment has been found for her, and a great number when thus given a fresh start make good at their employment.

It is not uncommon for some of the old offenders among the women to have served over 300 jail terms, Lady Dupplin said. These are often referred to in referring to their women who started in crime from just shame as a first jail sentence, after which they had been afraid to try to go back to their people or lead an honest life. Among these re-establishment is more difficult, Lady Dupplin stated. Even among these cases, however, the hostel has been able to make some accomplishment.

Stranded Girls Aided This is not the only phase of the hostel's activities, however. Some of their visitors are girls of good social standing who are stranded for financial or other reason, and again the hostel's aid is given with the principle that every woman in trouble shall be helped to recover by regaining her own self-respect.

Lady Dupplin paid tribute to the London police whose efforts for the innocent girls who come to London expecting to locate an aunt of whose address they are uncertain, are unlimited, and often enable the stranger to get properly located and avoid the dangers of being stranded in the city.

Montreal's churches, and especially the music at St. James' Cathedral, came in for much admiration from Lady Dupplin.

LOST—A SMALL BLACK PURSE between Warren's Garage and Hotel Quinte, containing \$25 and small change. Finder please leave at Intelligencer Office. Reward. s13-11d

While cleaning a gun in his second-hand store on Main street, Winnipeg, Adolph Sorkis, 52, accidentally shot himself. s13-11d

Lady Dupplin and her party, which includes her sister, Miss Lucie Harley, and her niece, Miss Mollie Gunning, of Vancouver, who is returning to England with Lady Dupplin to help her in her service work. Lady Dupplin and Miss Harley Bacon are grand daughters of the Lady Charlotte Hay, daughter of the fifth Earl of Oxford, to whom Byron dedicated "Child Harold."

Both Lady Dupplin and her sister are active in the League of Nations Society work and in politics, and interested in noting the work done on these lines in Canada. Viscountess Dupplin is the mother of the Earl of Kinnoull.

Josephine Dunn, who was last seen in "Excess Baggage" and "The Singing Fool," is the leading lady, playing the role of a heart-breaker who causes the two girls to stage a private war against her. A Gauding, who has served comedy successes to his credit, among them "Excuse Me" and "Don't," directed.

The film is replete with thrills as well as laughs, a sixteen-inch gun target practice and a spectacular aerial explosion furnishing hair-raising moments of suspense. There is also a thrilling and melodramatic fire, which calls out a mob of marine extras to quench it. During this sequence both Dane and Arthur make some spectacular rescues.

A PROPOSED BYLAW  
A by-law for closing the road leading from the south side of Oak Lake eastward across Lot No. 26, Con. 8, Sidney Township to the Foxboro-Sidney Highway.

Whereas owing to the depth of the cut at the place where this road joins the Provincial Highway obstructing the view in either direction and whereas the Sidney Township Council deem the approach to the Highway at this point to be a menace to the safety of the travelling public.

Therefore be it enacted and it is hereby enacted by the Municipal Council of the Corporation of the Township of Sidney that the said road be and is hereby closed and another road in a more suitable location be opened as a means of safeguarding the lives and property of those using these Highways it being understood that the old road reverts to the adjacent owners.

## COLLEGIATE CHATTER

The second Friday after school opens always seems to be the slowest in coming. The strain and excitement of the opening of school has just begun to tell on the students. The following week-ends will not be so long in arriving.

Next Monday it is expected that His Excellency Lord Willington, Governor General of Canada will arrive at the Collegiate Institute Grounds at about 4:45 o'clock where he will be officially welcomed by His Worship Mayor Greenleaf. His Excellency will then make a tour of the city beginning with the new Belleville Collegiate Institute along with the students of B. C. I. will be gathered students from all the public schools in the city including the separate school pupils, students from the Ontario School for the Deaf, the Girl Guides and Boy Scouts. The cadets will form a guard of honor for His Excellency.

For this occasion the cadets have been drilling for the past three or four days and are making a good showing indeed.

All the forms seem to be crowded this year and it may be necessary to alter the time table in order to remedy the difficulty.

We have Mr. Hunter back with us again to continue his organization of a Glee Club. The club was organized last spring and it is expected that the Glee Club will begin practice very soon. This year the Club is going to present various musical numbers at Lit. meetings and may put on a concert. The students are very pleased to have Mr. Hunter to lead in the singing at opening exercises and will be glad when they can listen to the Glee Club.

Rugby practice has begun again. Mr. Shields is making a good start on this year's team and hopes to have the best team in the district. The boys are very enthusiastic which helps a great deal in any enterprise.

Remember that Field Day is coming soon. The event will occur some time during the latter part of September probably Wednesday Sept 25th. Many of the boys are practising pole vaulting, high jump, broad jump, etc., even now.

## CLERGYMEN UNION

Melbourne, Australia, Sept. — A union of clergymen is being organized in Victoria as the outcome of recent transport trouble at Epping. The object of the new union will be to protect the clergy of all denominations from everything that makes against their work, and "to do all things ne-

much enjoyed by all. Mrs. Harry Murphy expressed thanks to all the members of her group who had helped during the three months she had been in charge. Mrs. Robertson, Mrs. Carl Clarke and Mrs. Murphy gave readings on the subject of pioneer days in Canada. The collection amounted to three dollars and four dollars in dues.

The meeting closed by singing "Blessed Assurance" and the Misses benediction. Lunch was served and a social time enjoyed. The thanks of the ladies was extended to Mrs. Barnett for her kind hospitality. The next meeting will be held at Mrs. Allen McDonald's the first Thursday in October.

## TABERNACLE W.M.S.

The September W.M.S. meeting of the Tabernacle United Church was held Thursday afternoon in the church parlour with Mrs. Horton the President, presiding. After the opening hymn and prayer, the various reports were read. Mrs. Horton and Mrs. Palmer were appointed delegates to the Belleville Section meeting to be held in Shannonville, October 1st. Miss E. P. Wickes, of Madoc, Field Secretary of the Salvo's Mission was present and gave a very interesting talk on the important branch of work. The programme included a solo by Miss Audrey Burgess, a member of the C.O. T.T., with Miss Marion McLean accompanist.

## THE HIGHLANDS OF ONTARIO ARE AT THEIR BEST IN SEPTEMBER

You'll like the hazy warmth of September days in the Highlands. You'll like the breath of pine and cedar that is heavy on the air. Everything you do will seem just right. All the Summer sports are in full swing—wonderful golf and tennis—boating—hiking—riding. You can't choose a better tonic than a few Autumn weeks in Ontario's Lakeland. There is excellent accommodation at any of the resort territories—Muskegon Lakes, Lake of Bays, Kawatha Lakes or Georgian Bay. Any Agent of Canadian National Railways will gladly help you make your choice, make reservations, etc.

Riveride this year has lost nearly \$40,000 assessment for taxation purposes as a result of the floods of last May when the Detroit river and Lake St. Clair overflowed their banks and inundated approximately 700 acres of low-lying lands, most of which are still under water.

For your New Radio Set try Heintzman Company, The Victor, The Rogers, The Majestic, and The New Fada. All New Sets direct from the factory.

S13-2td

## 100 YEARS OLD

Victoria, B.C. — Michael Pinnerly who came from Ireland to the United States in 1860 and a few years later moved to Vancouver Island where he lived for fifty years at Gordon Head celebrated his hundredth birthday on August 15 at Cowichan Bay. He is in excellent health both mentally and physically and still enjoys life in a quiet way.

## NOTED SPEAKERS OCCUPY PULPITS

The following speakers who are here in connection with the 100th Anniversary Conference being held on Saturday and Sunday at Albert College, will occupy city pulpits on Sunday morning next. Rev. W. T. Gunn, D.D., who is the moderator of the United Church and editor of the United Church Record and Missionary Review, will preach in Bridge St. United Church. Rev. C. E. Rogers of the Peace River District, the last Great West, will preach in Holloway St. United Church. Mr. W. H. Goodwin, from Montreal will speak in the John St. United Church. Rev. John W. Richards Netram of India, the son of a Hindu, with wide experience as an evangelist, the companion and interpreter of the famous Dr. Stanley Jones of India, will preach in Tabernacle United Church. These men have a living message for our times and it is expected that they will have a good hearing.

essential to increase efficiency." The union will aim to control the supply of clergymen and to raise funds for teaching men of all denominations.

## Increase Your Weight 5 Pounds 30 Days Or Money Back

where knows that McCoy's Cod Liver Extract Tablets contain just the proven essential ingredients that increase weight, create appetite, build up the power to resist disease and puts good solid flesh on skinny men and women. So now men and women who keep up with the times are taking McCoy's Cod Liver Extract Tablets—rich in health building strength creating flesh producers and as easy to take as candy. So why not start today? Why not fill out those deep holes in neck, cheeks and chest? # Gov.-Gen. to Open 5th Kiwanis Karnival Monday

## OUTSTANDING ATTRACTIONS ARE PROMISED FOR BIG 'K' KARNIVAL

Sec.-Treas. George Griffin Urges Citizens To Attend

By George H. Griffin  
(Sec.-Treas. Belleville Kiwanis Club)  
Twelve months have slipped by since we last prepared for our great Kiwanis Karnival in Belleville. During that period of time many changes have taken place in our fair city. Many good friends have passed on, others have stepped up to greater positions. In measuring the twelve months most of us either in or out of Kiwanis, would say it has been a pretty good year taking it all around.

Just what goes to make up a good year might be a subject for controversy, but when people have good health and prosperity they are most likely to look upon life with a smile. The Kiwanis Club feels that it might well smile and be optimistic for has it not accomplished many good things during the year? The members themselves have tried to measure up to their golden standard and by so doing have become closer friends with their fellow Kiwanians and with others with whom they are in daily business contact. In knowing each other better it is much easier to go out with Jack or Bill or Tom and do a real piece of community work than if they were doubtful about their co-workers doing his part. Therefore the successful service club is the one with a general membership getting the most out of it themselves and thus being enthused to the point of catching the real service spirit to try the less fortunate in and about this city.

Kiwanis has spent from two to three thousand dollars annually on charitable work and civic service such as the V. O. N. and the Y.M.C.A. and the Community Boys' Camp, the Ki-Y. Hockey League, the Ki-Y. Soft Ball League, etc., under such capable management as furnished by Joe Short, General Secretary of the Y.M.C.A., Mr. Ralph Morden, Mr. Dave Martin, Mr. Howard LaF., J. V. Davidson and other members of the Kiwanis Club who have given their personal effort to make it a success.

The finances in Kiwanis are handled in as systematic a method as any industrial concern and expenditures are even more carefully guarded. The Kiwanians pride themselves on the fact that every last cent raised for charitable purposes is placed in a separate account and is only paid out when duly approved by the Board of Directors. The operation of the Club is carried on by the members paying dues out of their own pockets for all expenses that have to do with the carrying on of the Club. This is the usual procedure in all Service Clubs so that every cent raised for service work and more too, goes for that purpose.

During the year Kiwanians have, through a new committee called "Vo-

GEO. H. GRIFFIN

luntary surplus is the net result. Each year the members of the Kiwanis Committee do their utmost to bring to the Belleville Karnival some outstanding people or attractions as many of our citizens are denied the privilege of getting very far from our own fair city and this year we feel highly honored to be permitted to announce that Their Excellency Viscount and Viscountess Wellington will graciously open our Karnival Monday evening, September 16th. This is indeed a signal honor and a privilege for the citizens to be present to do homage to our Governor General and at the same time attend our great Karnival.

The members of Kiwanis are trying to do a real piece of service work and with the splendid co-operation always given by the people of Belleville and adjacent towns and country we feel we have passed another milestone on the road of progress leading to greater accomplishments.

May we see you all at the Big Karnival September 16th to 21st. "Wear a smile, it's well worth while and come every night."

Kiwanis.  
GEORGE H. GRIFFIN,  
Sec. Treas.

## CHOICE PROGRAM EVERY EVENING

Victorian Order Nurses Is Financed By Local Club

By George A. Lee, President  
The Kiwanis Club is about to offer its fifth annual "Karnival" program. Previous four Karnivals have been outstanding successes, but this one has the earmarks of being a record breaker.

In the past we have spared no labor or expense in bringing in attractions to make it worth your while to attend each night. This year fortune has favored us in having the Karnival officially opened by no less a personage than the King's representative in Canada, our Sovereign-General, Lord Willington, accompanied by his gracious wife, Lady Willington.

Aside from your natural desire to witness the opening of our now famous annual Karnival, a real bumper crowd is expected to give our Royal Representatives a royal welcome at eight o'clock sharp Monday evening at the Amphitheatre.

The program will be changed each evening and will be one continual round of pleasure and amusement and don't forget that all the money received goes to Belleville charities, The Victorian Order or Nurses, Christmas baskets for poor families, help to underprivileged children, support to amateur athletics and other worthy causes.

On behalf of the members of Belleville Kiwanis who have honored me with the presidency this year, earnestly appeal to you to come the first

night, then I know you will enjoy yourselves so well that you will be back each night and bring your friends with you.

Yours for a week of gaiety and enjoyment,  
GEO. A. LEE,  
President.

## TRAPPER'S REMAINS FOUND AFTER FIRE

Great Falls, Mont., (By Canadian Press).—The skeleton of a trapper undisturbed perhaps for a half a century was uncovered by a forest fire in the Lewis and Clark crest, when the cart ridges in the dead man's gun were exploded by the heat.

Fire fighting crews heard the explosions, but were unable at the time to investigate because of the flames. After the fire was subdued the curious men returned to the spot where they heard the shots. They found the skeleton of a man who apparently had been killed by an animal, were he had made his camp. Beside him was a rifle, bearing the date 1873 and an old heavy iron skillet. A salt shaker, rusted almost away and two bottles of poison of a type used by trappers, also were found.

## FRENCH RACING IS IN BAD CONDITION

Paris, France, (By Canadian Press).—The sport of Kings in France is in a bad way. The attendance at race tracks is decreasing every week although the price of admission has been reduced. Owing to increased expenses of breeding and training and high taxation, French owners cannot make the pace, and the sport is rapidly getting into the hands of foreigners, five of whom were among the leading owners last year.

The betting machines at race tracks upon the receipts from which horse racing is largely dependent for its resources, suffer heavily from the competition of illegal betting. In 1928 the betting machines accounted for \$65,000,000, but it is estimated that clandestine bets amounted to at least \$200,000,000. As a remedy for this leakage it is proposed to license bookmakers as in England, and to permit betting machine offices in the principal cities.

## SUBMARINE UPHEAVAL

Sydney, Australia.—When the steamer Aelybryn was midway between Cape Maria van Dieman and Sydney recently she passed close to two submarine upheavals, according to her master, Captain James Stevenson, who said that without warning a great surge of water rose out of the sea and gradually drew to a height of about thirty feet before settling down again. He estimated that the width of the mass of water was between fifteen and twenty feet.

A quarter of an hour later a second upheaval occurred in the same way. No sensation was felt on board ship, but Captain Stevenson believes there must have been a terrific upheaval at the bottom of the sea.

## KIWANIS DOING A WORTHY WORK

Vice-Chairman And Mayor Greenleaf Sends His Message

(By Mayor Harry Greenleaf)  
Five years ago the Belleville Kiwanis Club held its first Karnival in the Armoures. The increasing popularity enjoyed by the Karnival each year is evidence that the Belleville citizens recognize the efforts of the Kiwanians as builders being worthy of their support. This could not otherwise for their efforts have been directed along worthy lines, such as the sponsoring of the Victorian Order of Nurses, the care and welfare of mothers and children at a critical period in their lives, the promotion of good clean and healthy sport and many other activities conducive to the development of both mind and body. The club is developing with the City, its members

HARRY GREENLEAF

are selected from amongst our leading citizens. They realize that a progressive Belleville means greater prosperity and happiness to all. Every member who gives his time and effort to the success of his Club's enterprises does so not only because of his loyalty to his club, but because too of his loyalty to his city. It has been the unselfish spirit exemplified by its members that has made the Club rank so high in the esteem of all Canadians irrespective of creed, of politics or of vocation. The spirit of Canadianism in the prevailing spirit of the Club, the requirements for club membership make it possible for professional and business men to meet regularly, exchange ideas and know each other better. The Kiwanis Karnival gives to the citizen an opportunity of participating financially in some of the work of the club and in doing so enjoy with Kiwanis members the sociability and the entertainments, the proceeds from which will be used for charitable purposes.

# Bigger and Better Karnival Than Ever This Year

## HIS EXCELLENCY MESSAGE FROM OPENS KARNIVAL GEN. CHAIRMAN

Ald. Russel Wotten Looks  
For Biggest Show In  
History

Expect To Shatter All At-  
tendance Records Next  
Week

On Monday evening at 8 o'clock the Governor General of Canada and Lady Willington will officially open the 5th annual Kiwanis Carnival in the Armories and the Carnival publicity wish on behalf of Kiwanis to express our sincere and loyal gratitude to their Excellencies for their very gracious and much appreciated action in consenting to officially open this 1929 Kiwanis Carnival. Kiwanis is not of Belleville nor of Canada but is International and knows no boundaries—real or imaginary, and this most important and noteworthy occasion cannot be construed otherwise than as a historic

F. R. WOTTEN

event in Kiwanis International. We bid their Excellencies welcome to Belleville and Kiwanis and can only hope their visit to this historic city will long live in their memories.

Kiwanis spends all the income from the Carnival in charity or other worthy civic enterprises. We always give you more than your money's worth and why not make it a habit next week and not only visit us on the grand opening on Monday evening but come out every night during the week.

Yours for a greater Kiwanis and greater Carnival for 1929.

F. R. WOTTEN,  
Chairman Publicity Committee.

A MESSAGE FROM JOE IMLAH  
General Chairman of the Kiwanis  
Carnival Committee

It is with confidence and pleasure that I commend to the people of Belleville and vicinity the 1929 edition of the Annual Kiwanis Carnival and Style Show. It takes time and hard work will make this Fifth Annual Carnival a success then next week's effort will not go unrewarded, for it has taken months of planning and during this week the entire personnel of our club membership has given unsparingly of their valuable time to have the Big Show all ready for the curtain raise on Monday night.

We, as a Kiwanis Club, are proud of our Carnival; it grows Bigger and Bigger every year—we also think it grows Better and Better—and this year we have spared no effort nor expense to have it surpass all former efforts. We have kept the price down to 15c admission and our slogan of "More than your money's worth," will be more than lived up to.

Let next week be Kiwanis Week—start on Monday night and keep the habit during the week. You'll have a great week's fun and the Kiwanis Charity Festival will be swelled by your attendance.

I thank you,  
JOE IMLAH,  
Chairman of Kiwanis Carnival Committee.

### MISTAKE KILLED HIM

Bombay, India. (By The Canadian Press).—Terrified at the mistaken idea that the electric wire with which his head accidentally came into contact whilst climbing a ladder in the Textile Mill, Bombay, was alive, Laxman Bala, a Hindu coolie employed in the mill, threw up his hands frantically, released his hold on the ladder, and fell backwards on to the ground from a height of 15 feet. Fellow workmen hurriedly summoned the police who removed him to the hospital at Parel, where he expired about three hours later.

Three C.N.R. employees were injured near Oshawa when a motor jigger, speeding at 35 miles an hour left the track, throwing its crew over an embankment.

## HUNDREDS VIEW MT. ST. ALBAN

Holds Especial Interest For Canadian Visitors To The U.S.A.

Washington, D.C.—(By Ken Clark, Canadian Press Staff Correspondent)—Hundreds of Canadians visiting here this summer have come to Mount Saint Alban to admire the great pile which will be the Washington Cathedral. They have perhaps felt the sentiment expressed in a recent address made by Vincent Massey, the Canadian Minister, at the annual meeting of the National Cathedral Association. He said: "To those of us who have nurtured in English tradition this corner of your capital makes a peculiar appeal. As it happens there is a special affinity between your cathedral church and that of the cloister in which I live because the latter bears the name which is so familiar in your cathedral close—that of St. Alban the proto-martyr of Britain. But apart from that, the quiet gardens, the gray walls with an occasional touch of Gothic sculpture and the clustered buildings in medieval style which are rising everywhere on this hillside, together with the

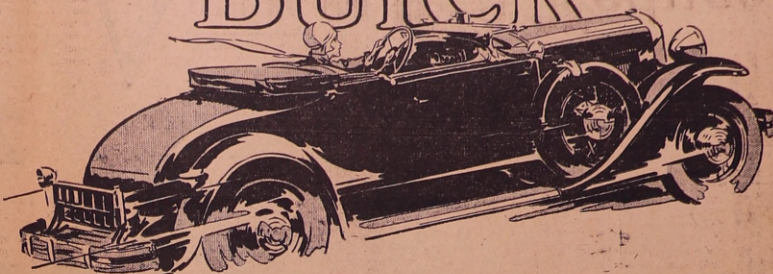

great edifice which crowns the whole—this suggests the atmosphere of the little island of the North Sea which we in Canada affectionately call the "Old Country."

The Cathedral is as yet only a beautiful fragment, an apse, three chapels and some choir walls. When it is finished it will be an immense and exquisite temple, ranking in size with the largest cathedrals of the world with a seating capacity of 7,500 and standing room for 27,000. Because of its location on the highest ground in Washington, the central tower, 282 feet in height, will rise 107 feet above the tip of the Washington Monument which is 551 feet high. Entering the Cathedral through the western portal the gaze of the visitor will be held by a vaulted vista of 500 feet through five bays of the nave and five bays of the choir to the sanctuary. A thousand sculptured bosses—the ornaments placed at the intersections of the ribs of the roof vaulting—will illustrate the story of Christianity.

First definite steps toward the building of the Cathedral were taken in 1861 and in 1882 Congress granted a charter to the Protestant Episcopal Cathedral Foundation empowering it to establish a cathedral and institutions of learning, "for the promotion of religion, education and charity." Yet some years will pass before the work will be completed. The whole project will cost \$28,000,000.

The Episcopal Church of the United States is now engaged in building four cathedrals, one in Washington, and others in San Francisco, Philadelphia and New York. In the course of this address, Mr. Massey made reference to this fact. He said: "There are people, of course, who regard a modern cathedral as an anachronism. They tell us that the age which expressed itself in the great buildings which sprang up in England and in France through the twelfth and thirteenth centuries has passed; that modern life is symbolized more accurately by structures of another sort, by the great bridges, the dams, the lofty buildings which are the triumph of the present day engineer. I remember a few years ago having some hours to spend in the city of Liverpool when I thought I could pass the time by visiting the new cathedral which is slowly taking form there under the genius Sir Giles Scott. I knew I would find a structure possessing great beauty but I felt it might be found to bear a rather artificial relationship to its community. I discovered to my surprise that my apprehensions were ill-founded. One had only to walk through the choir and chapels of this splendid building and see the people of all classes thronging it and to watch the simple folk from the country and the shawl-covered women from Liverpool, dropping their pennies into the boxes as a contribution to the completion of the fabric to realize that the Liverpool Cathedral is a genuine and natural and honest expression of the feeling and aspirations of the people of West Lancashire. It is going to be a people's cathedral. Here in the United States you, too, are building cathedrals."

# The 1930 McLAUGHLIN-BUICK

Power that says  
"follow the leader"  
to any car on the road

Outstanding among the many improvements in the new McLaughlin-Buick—improvements which combine with Buick's new low prices to make this car an unrivaled value—is the marked increase in power provided by the new McLaughlin-Buick valve-in-head engine.

This great new engine—representing the splendid climax of 26 years' concentration on one outstandingly efficient type—is bigger, sturdier, more highly refined than ever before. It develops 98 horsepower in the 124 and 132-inch Series, and 80½ horsepower in the 118-inch Series, thus assuring superabundant reserve for every motoring need.

This tremendous increase in power, together with innumerable refinements bearing on other phases of engine operation,

not only endow the new McLaughlin-Buick with unrivaled acceleration, hill ability and speed, but impart marvelous new flexibility, and velvet smoothness at any pace. Yet so thoroughly expert is McLaughlin-Buick engineering that this additional performance is achieved without any increase in fuel consumption.

See the new McLaughlin-Buick today! Compare the beauty of its new Bodies by Fisher. Test getaway, speed, power on hills, smoothness, flexibility! Then you, too, will acclaim McLaughlin-Buick the world's greatest motor car value.

Belleville, Ont.

IT'S BETTER BECAUSE IT'S CANADIAN

Buyers' Week, arranged by the Montreal Board of Trade, will stimulate the actual sale of goods by merchants and firms in the city. In addition, the exhibition will afford manufacturers an unprecedented opportunity to their sales throughout the East. It was stated, "The committees responsible for each event have arranged many attractions, both novel and educational, to emphasize the ideas they have created and the announcement about 'Produced in Canada' Week outlines some that the committees in charge have in mind and on which work has commenced."

A film is now being made for distribution to various theatres in Montreal which will show phases of Canadian industries. In addition, it will contain a human story to demonstrate how the individual, as well as the merchant and business concerns does his other share in the development of prosperity.

Gramophone records are being prepared to give voice to the importance of Canadian industry and the people who are engaged therein, but these will not be mere recitals of facts and figures—they will also contain entertaining features. Within the next week or two they will be sent out all

over the city to help create interest in the idea.

An elaborate window dressing contest has been arranged and city merchants will be invited to enter and give ocular proof of "Produced in Canada" merchandise. Three prizes will be an incentive to keen competition and a committee will judge the windows during the week.

In addition it is planned to arrange demonstrations at some central point—most probably at the Stadium where the exhibition is held—by the Ontario Research Bureau, the Industrial Research Bureau of the Dominion Government and also the bureau of the Pulp and Paper Association.

## CLOTHING FOR COLLEGE WEAR

"Every college wardrobe should include a top-coat in the tailored manner. There is nothing smarter for general wear and for travel, as either one or two piece frocks may be worn beneath it," writes Reia Cowles, in the October College Humor. Miss Cowles' department "Style for Sorority Row" endeavours to guide the wardrobes of college girls in the way in which they should grow and in addition, the Fashion Editor gives personal advice concerning the peculiar requirements of Eastern, Southern, Middle Western and Western campuses.

"For your afternoon and semi-formal frock don't overlook velvet. It's

going to be popular so far as indications are now. Velvet jacket suits, combined with egg-shell satin blouses, are lovely, but these of course are out of the question for the college girl unless for off campus wear.

"According to all rules and regulations of the fashion authorities, the beret should be dead, but it isn't! It is still going strong and if present indications are right it will continue to be good for some little time to come. Chanel is knitting them with matching

woolen scarfs! Satin ones are good for daylight dining and long sleeved dinner frocks. The velvet version is called the bere basque, and the angora beret is a darling. Fashionists have it that woolen knitted fabric has been shown (which sounds absolutely impossible) to accompany the wooden beads. College Humor Shopping Service and Styles For Sorority Row have recently been added to the magazine as a feature paralleling the articles on 'What the College Man is Wearing'.

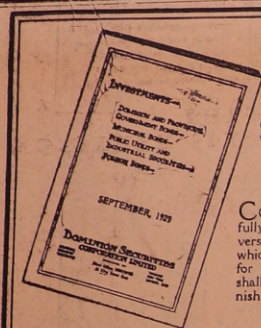

## Reduce the Acid

In sick stomachs—instantly

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour. Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

### OUR SEPTEMBER BOOKLET

CONTAINS a carefully selected and diversified list of securities which we recommend for investment. We shall be pleased to furnish copies on request.

WE maintain a complete investment service by mail and welcome an opportunity to demonstrate its convenience. Clients wishing to avail themselves of this service will receive the same benefits from the organization as if one of our representatives called in person. Our booklet "Investments" will assist you in choosing securities most suitable to your requirements.

YOU can check!

NO OTHER SIX AT THE PRICE HAS ALL THESE FEATURES

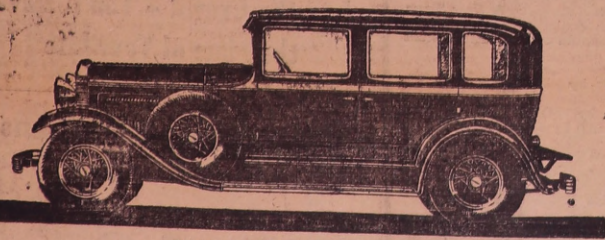

FROM a beauty standpoint the new Whippet Six De Luxe Sedan for 1930 is beyond question the most modern styled car in its price field. Its body is larger. Gracefully shaped windows at each side of the rear seat add to its comfort and attractiveness.

The Whippet is the only low-priced Six with ALL these important advantages: Seven-bearing crankshaft, full force-fed lubrication, "Finger-Tip Control", silent timing chain, extra long wheelbase, oversize balloon tires, shock absorbers, adjustable Timken bearings throughout pinion and differential, extra long connecting rods and Nelson-type aluminum alloy invar-strut pistons. The new Whippet Six also has more frame cross-members and a greater braking area than any of its competitors.

These are not empty claims, but definite facts that you can prove. Have your nearest dealer give you a demonstration.

## CANADIAN CRAFT, TARGET FOR U. S. FIRE

### Conservatives Rally In Support of Premier Howard Ferguson

#### DISARMAMENT IS CORNERSTONE OF UNIVERSAL PEACE

Lord Cecil's Proposal Is Seconded By German Delegation

#### AUSTRALIAN CRISIS

Canadian Representative Withholds Signature As Instructed

Geneva, Sept. 18.—Conflict of opinion appeared in the League of Nations Disarmament Committee today when the British delegation moved to reopen the question of considering training reserves in seeking the basis for general disarmament.

Lord Cecil presented the British proposal and was supported by the German delegation, but encountered the opposition from delegations of France, Italy and Japan.

Lord Cecil described the question of disarmament as the cornerstone of the edifice of world peace and insisted that the limitation of land forces, both personnel and material, especially material, was the most important part of this disarmament problem.

The debate was adjourned this afternoon until tomorrow without the vote being taken. It was understood that Lord Cecil and his colleagues hoped only to make Great Britain's change of attitude clear and to leave her hands free to press the consideration of limitation of military forces and stores.

Geneva, Sept. 18.—Signature of the optional clause of the World Court Statute accepting the compulsory jurisdiction of Great Britain, Peru, France, New Zealand, South Africa, India and Czechoslovakia, was formally made today in the Council Chamber of the League of Nations, where the ceremony was witnessed by a large gathering of the public.

The Australian representative, Senator Raoul Dandurand, explained his inability to sign at the same moment. Canada had agreed to sign but the instructions concerning the formula of reservation read by the other members of the British Commonwealth had not reached him, though he expected this in an hour.

The Australian delegate also stated he could not sign at the present stage, because of the government crisis in Australia.

#### STOCKS MOVING UPWARD TODAY

Call Money Renewed At Ten Per Cent. Under Heavy Trading

New York, Sept. 19.—The lowering of call money rates and favorable trade news provided the background for another advance in prices in today's stock market. A sprinkling of high priced specialties were whirled upward in spectacular fashion, while the general list moved up one to eight points under the leadership of the public utility stocks.

Call money recovered at 10 percent but the supply became so plentiful that the rate was dropped to nine and thence to eight, indicating the passing of the mid-month credit stringency.

#### LONDON SUFFERS FROM DRY SPELL

London, England, Sept. 19.—(C. P. Cable).—While not a drop of rain has fallen over parched London, other parts of the country have suffered disastrous thunderstorms. Two farm laborers at East Crinfield, Sussex, and a boy at Layton, Oxfordshire, were killed when lightning struck the trees under which they were sheltering. Many houses at Southwick were flooded and the electric system of Peterborough was damaged.

#### GOVERNMENT COUNSEL OFFERS EARNEST APOLOGY FOR HASTY WORDS AT LONDON INVESTIGATION

London, Ont., Sept. 19.—F. W. Griffiths, K. C., at the opening of today's session of the commission investigating the activities of the London branch of T. B. C., expressed regret for the hurried words uttered in the claim between himself and Commissioner Gordon Waldron yesterday. Commissioner Waldron referred to the incident but thought it well that it had been driven to closer examination of the act.

Jared Vining made representation to the commission about Fred Mitchell, of the Mitchell Supply Company, whom he asserted had done nothing to induce outside plumbers to come into guild. Mr. Vining also affirmed that it was customary for wholesalers to refrain from selling to the general public.

C. Russell Wright, during an examination said the members always paid fees of two per cent. to the local branch of the guild, but not to the Toronto office.

#### BISHOP PROBES BUILDING WORK

London, Ont., Sept. 19.—It was announced here today that Albert H. Murphy, local barrister, has been retained by His Lordship, Bishop McFall, of the Diocese of London, to make representations to Commissioner Waldron, asking for the pointing in connection with St. Peter's Seminary, St. Peter's Cathedral, and the Bishop's home, and possibly Brescia Hall. This work has been carried on over a period of years in connection with the big building program.

#### Capricious Watermelon Thieves Pay Heavily for Folly Before Magistrate

As usual, when the watermelon season rolls round, young folks get into trouble, and this year is no exception to those which have gone before. Elmer Watson and Lorne Wallace, Elmer Watson and Lorne Wallace, Campbellford youths, came a long way to get their quota, and then were disappointed, for they were caught in the act of John Albert Lott on the 6th concession of Sidney, and haled into court by the Provincial Police. This morning they received a six months suspended sentence but had to pay the costs of the court as well as damages to Mr. Lott.

#### MINE DEATH TOLL IS GROWING DAILY

Sarbrücken, Germany, Sept. 19.—The seriousness of the St. Charles coal mine disaster, reported three days ago as growing hourly, with a death list of 23 and 25 injured. The blast continues undiminished after three days fighting underground.

#### THE WEATHER

Light to moderate winds, fair and cool.  
Friday, moderate easterly winds, partly cloudy and cool followed by showers in southwestern counties.

#### GRETA MIKEL LEADS CONTEST

Popularity Contest At Kiwanis Carnival Interesting Feature

The "Most Popular Girl" contest, at the Kiwanis Carnival is one of the features. Two girls, at the top of the list, are running fairly close together and it may be anybody's prize before the Carnival is completed. Miss Greta Mikel, popular local girl, is running in first place with a majority of one hundred votes. She is being trailed by Miss Margaret Stewart, who has one hundred and sixty-four votes. Miss Ellen McLaurin, is third, and has fifty-nine votes while Miss C. S. Symons has thirty-eight votes. Miss Madeline Bell has thirty-eight votes for her credit also, and Miss Bernice Blaind sixteen votes. The remainder of the girls in the contest are all below six votes.

#### FERGUSON TO ANSWER LEADER LIBERAL PARTY

Eight Thousand Will Attend Big Affair In Toronto Tonight

#### BENNETT A VISITOR

Premier Will Address Supporters On Policies of Government

Toronto, Sept. 19.—Shifting the spotlight in the provincial election campaign will not be on Toronto tonight when Premier Ferguson will open his campaign at the banquet here, seated to be a large event held in the Dominion.

Last night W. E. N. Sinclair occupied the centre of the stage with his attack on the policies of the Conservative Government, delivered at the nominating convention at Elmhurst, Ontario. The Conservative policies, as outlined in the government manifesto were termed "vague promises" by the Liberal leader, who charged Premier Ferguson with evasion.

Tonight's Premier Ferguson is expected to make an important contribution to the government argument for re-election. The banquet will bring together all the members of the Cabinet with the exception of Hon. John S. Martin, Minister of Agriculture, who is in poor health. Hon. R. B. Bennett, the Dominion leader of the Conservative party, has accepted the invitation to attend. Eight thousand tickets have been sold and the dinner will be seated in two hotels, the speeches being carried to many dining rooms through the system of loud speakers. The radio hook-up will carry the Premier's speech throughout the province.

#### JOE WRIGHT IS KIWANIS' GUEST

Famous Canadian Sculler Is Feature Attraction At Carnival

Last night was a great night at the Carnival but tonight's another night, and it plans mature, the performance and the crowd should be another high spot in the 1929 edition of the Carnival.

It's a great place to spend an evening these cold nights, don't stay home and shiver but make your way to the armchairs where it is warm and comfortable and see the best show ever for the money.

Stinglitz will stage the Style Show tonight and as in other years, they will present a real style treat that you can not afford to miss. The hat and furs will be shown by Woodley. The dancing sextette of Belleville girls who charmed the audience last night will present a totally different program in conjunction with the Style Show.

(Please turn to Page Three)

Joe Wright Jr.

former holder of the Diamond Sculls who will be the guest of the Belleville Kiwanis Club at the Carnival tonight. "Joe" Wright is a football and a hockey player of repute. Wright is regarded as one of the world's premier oarsmen.

#### GOING OVER THE TOP

Kiwanis Officials Hope To Shatter Attendance This Year

It was announced today by Kiwanis officials that an increase in both attendance and receipts is noted over the opening nights last year. The total cash increase to date is in the neighborhood of \$462, while the attendance increase is 512. Kiwanis officials are hoping to shatter all attendance records this year.

#### SHARK HARBORS NO MALICE FOR HIS CONQUEROR

Ernst Vierkoetter Will Be Entrant In Next Swim

Ernst Vierkoetter is a real Canadian and proud of it. He so informed a group of listeners in a friendly chat after his appearance on the stage last night. Ernst plans to make his future swim in Toronto and he proposes to open a swimming school in the Queen City if he can find an opening. He admits that Toronto is not the most fertile spot in America to open a school for aspiring swimmers but the people of this metropolitan Canadian city appeal to him and there he will remain.

Ernst has been in Canada two years and he has reached the stage where he can express himself in English with facility and ease. He has not been inside a school room and merely through his associations with swimmers and trainers has been able to master the new language.

"Will you be in the next marathon swim?" asked the Intelligencer. "Do you work at your business?" was the singular reply. Ernst believes that Toronto will be ripe for another marathon in connection with the Exhibition next year.

What do you think of George Young? was the query put to the "Black Shark." Ernst was a trifle slow in replying to the question but finally countered with, "Well, he's a good swimmer." "Yes, he's a good swimmer, alright," was the supplementary remark supplied by Mr. Dunn, Vierkoetter's companion on the trip to Belleville.

#### "Keating The Best"

Ernst described the events leading up to the unsavory state of affairs at the conclusion of the last marathon when Eddie Keating, the winner, refused to accept Vierkoetter's hand and stated that the "shark" owed him an apology for a remark made at Lake George. "I could not understand the whole affair when I entered the National Yacht Club emergency hospital after the swim and found Keating would not speak to me," was the sincere statement of this twenty-eight-year-old swimming star. "I had not been told what Keating said and I felt much embarrassed and like a fool when I prepared my hand," Vierkoetter admitted that something was said by his former manager, Armand Virent, of Montreal, after the Lake George swim about Keating having been towed. He was vehement last night in declaring that he was not the author of the statement attributed to him by his conqueror. He was the best man in the last swim," said Vierkoetter.

Vierkoetter explained the training routine which preceded the swim and pointed out that it was only the strictest and rigid rules that prevailed in his camp. Barasche, his trainer, will be back next year providing William Wrigley sponsors another marathon. His wife, at first opposed to coming to Canada, is now contented and happy in her home, their three-year-old youngster is learning English and will shortly enter a private kindergarten for kiddies while Ernst himself is delighted with his new surroundings and the kindly Canadian.

#### LIGHTS LOWERED

Canadian Mariner Will Issue Protest To Ottawa Authorities

Miss Helen Grossman who is the only lady to be called to the bar on September 19.

#### LOCAL BOWLERS CAPTURE PRIZES

Fred Houston and C. J. Symons Won Scotch Doubles

The Scotch doubles tournament, run off at the local lawn-bowling club all day yesterday proved to be a complete success. Play started yesterday morning and was not completed until after midnight. It was slightly cool for the bowlers, but it was stated to the press today that never before has a more successful tournament been staged here.

C. J. Symons and F. Houston, representing Belleville, carried off first prize yesterday, which consisted of a beautiful pair of Jaeger blankets. They defeated McCullough and Scopia, of Cobourg, by a narrow margin. A peculiar fact about the games yesterday was the exceedingly good scores that resulted. Out of a possible thirty-two points, two teams, first and second, made a perfect score. Besides these three teams made thirty-one points and two twenty-nine points. All good scores.

McCullough and Scopia, of Cobourg, finished in second place. They were presented with a pair of hand-beaten brass candlesticks, a product of the Springer Lockworks.

Glover and Wiggins, of Campbellford, were third, with thirty-one points. They received as their prize a clock.

Delaney and Hooper, of Cobourg, were in fourth place. They also had thirty-one points. Sutton and Cutcliffe, of Norwood, were fifth, Morrison and Simons, of Tweed, fourth, twenty-nine points and Watson and Flooker, Cobourg, seventh.

Supper was served during the evening and the players returned to their various communities more than pleased with the tournament.

#### NEW METHOD OF STEALING COWS

"Racketeers" Operate With Amazing Speed In Western Village

A new idea, and one which would do credit to some of the Yankee "racketeers" is apparently being worked in this section, for the theft of three cows was reported this morning from the vicinity of Keene. All three were stolen last night, and by this time have probably been quietly slaughtered, according to the news of the incident.

It is understood that a large closed truck made its way through Keene last night, and stopping along the road where a herd of cows lay, two or three men loaded three of the animals into their truck and drove off. Nothing has been seen of the truck or cows since.

Provincial Police Headquarters should be notified if any person has seen or seen a truck carrying cattle, and it would be wise for farmers to place their cattle in fields not easily accessible from the road until such time as the thieves have been caught.

#### Without Lights

Washington, Sept. 19.—Coast guard headquarters announced today that coast guard patrol boat fired on the Canadian motorship Shawnee off Am Cans Light, off New York Harbor, on the night of Sept. 11, after vessel refused to stop.

The brief statement said the vessel was running without lights and appeared to be a United States craft. There was no name on the stern of the vessel to identify her, according to the coast guard, but as the vessel proceeded after her the officers refused to identify her the name Shawnee was made out on her bow.

Ottawa, Ont., Sept. 19.—As far as could be learned this morning, neither the department of external affairs nor the prime minister's office received any protest with respect to the Nova Scotia motor vessel Shawnee, which was fired upon by a United States vessel.

Washington, Sept. 19.—Later the coast guard announced that its records listed the Shawnee as a run-runner which had been watched by the coast guard vessel. It also said that after the patrol boat had stopped the Canadian motorship coast guard cutter Gresham had trailed her on her way north.

#### SINCLAIR FIRES OPENING VOLLEY

Liberal Leader Flails Ferguson For "Vague Promises"

Elmhurst, Sept. 19.—W. E. N. Sinclair, the Liberal leader, is waiting to see if Premier Ferguson will issue a real election manifesto, something more substantial than the "collection of fine sentences and vague promises" published Tuesday, he told a meeting of Liberals here yesterday. It was Mr. Sinclair's first public pronouncement on the government manifesto.

His own policy will announce in the course of three or four days in form of a manifesto, he said. He declared it would be constructive and concrete.

#### MAN FOUND DEAD

Toronto, Sept. 19.—O. McCormick, 59, Windsor, Ont., was found dead in his room in a local hotel last night. Inquest will be held.

#### FEAR FIRE BUG ON THE RAMPA

Stratford, Ont., Sept. 19.—The third barn fire within 48 hours, believed to be the work of a fire bug working in this city, early today caused the loss of \$1,000, when the Angus, destroyed a large barn at the rear of Fred Robinson's home, Milton street. He lost a valuable horse in the fire. The other two fires were early Tuesday when a valuable racing horse was lost, while the club-house of the Stratford Bowling Club was destroyed Friday in a \$2,000 fire.

## PLEASED WITH ALL ATTRACTIONS

Ernst Vierkoetter Demonstrated Strokes Which Have Brought Fortune

Kiwians entertained another large crowd at the third evening of the Karnival at the armories last night. Each succeeding presentation appears to excel its predecessor and last night's entertainment certainly pleased the large crowd in attendance. New features were introduced for the first time and the vaudeville acts were completely changed. The style show was of course, the chief centre of interest and Dame Fashion was certainly out in full array with the beautiful gowns from the J. A. McNab store.

The booths did a thriving business and hundreds of patrons visited the splendid and unique displays by Belleville merchants.

The chief attraction was Ernst Vierkoetter, the new Canadian citizen who has now adopted Toronto as his future home. Vierkoetter was the winner of the second Wigley Marathon and runner-up to Eddie Keating at the last derby. He has made a host of friends in Toronto and he made it decided hit with Belleville people last night.

**Admits Keating Best**  
Immediately on the conclusion of the style show, the "Black Shark," retired in a blue bathing suit, appeared on the stage. His face was wreathed in smiles and he was given a great ovation by the crowd. Ernst advanced to the microphone and gave a short address in which he thanked the Belleville people for the splendid reception given him. He speaks remarkably good English and every word was fully understood by the listeners. Keating is a great swimmer and is no best man in the last race. Vierkoetter said, "and he beat me fairly and squarely. I will be in the next auction swim whether it be staged in Toronto or elsewhere." Vierkoetter, big boned good-natured looking chap, told the crowd he liked Toronto and was glad to be a Canadian. He was the crowd's first demonstration of his famous crawl stroke and explained his methods of getting through the water at a surprising rate. He was introduced by the master of ceremonies, Chas. Hanna. The largest crowd of the present Karnival was in attendance and the officials announced that close to eight hundred people passed through the entrance last night.

The vaudeville acts were roundly applauded. The two colored boys who appeared before the footlights last night gave a smart exhibition of step-dancing. The dance by six pretty Belleville girls was the subject of much favorable comment as it was executed well-done and much credit is reflected on the teacher, Mrs. Johnston.

**Big Crowd at Dance**  
The dance hall was jammed from start to finish and the music supplied by Charlie Goyer's Bon Tons was really with the latest dance numbers. The approval of the young element.

Mr. Vierkoetter motored to the city accompanied by his wife and Mr. Yunn and his three-year-old daughter. The party returned directly after the show.

Another celebrity in the person of the famous Joe Wright, Junior, former holder of the diamond skulls, the premier rowing classic in the world, will be seen tonight.

Miss Rhys, Forin Street, was the lucky winner of the door prize last night.

## DRAMATIC FINISH TO HECTIC GAME

Frank Rathman Brings Honor, Glory and Profit To "Duffers"

ENDED STRUGGLE  
"Dubs" Defeated But Not Downcast—Paid For Defeat Cheerfully

Drama, intense almost hectic, marked the conclusion of the long projected match played yesterday afternoon between the "Dubs" and "Duffers" of the Bay of Quinte Country Club. All through the long afternoon the struggle was waged bitterly from green to green. As the shades of night closed over the scene of battle the weary warriors gathered under the shadow of the clubhouse to compare results and figure if possible who were the victors. There was considerable doubt as to the score but after every one of the forty odd players had made an attempt to figure it was a tie, each side being allotted 21 points.

Here came the drama. The deadlock must be broken as the vanquished had to pay for the dinner and both sides, the "Dubs" and "Duffers" under the direction of Oswald Porritt were claiming a moral, if not a physical, victory.

**The Last Struggle**  
Suddenly on the far horizon two forlorn stragglers were discerned in the gathering shades of night. A hasty counting of the players revealed that they were two short so the night-ridden stragglers must be stragglers from the combat. Instantly a heart-breaking intensification of the struggle was on to discover if possible who they were and who was winning as on this final result hung the issue of the whole day.

Slowly down the ninth fairway the figures approached, taking shot after shot in a last bitter struggle. As they came nearer they were recognized as Herb Morton and his trusty lieutenant Frank Rathman. Who was winning? The combatants, tight-lipped, refused to speak to the swarming gallery which surrounded them to watch the final strokes.

Then the bitter-sweet truth was revealed; bitter to the "Dubs" but sweet to the "Duffers". Rathman claimed to be three holes up and the score card after much auditing reported his contention. Victory rested on the banners of the "Duffers". The total score was kept secret but was generally supposed to be well above par.

The dinner which followed was a happy affair. A strange thing was that while the "Dubs" admitted finally that they were beaten as a team, not a single one of them seems to have lost his individual match, and so the score becomes more a mystery than ever. Herb Morton, three down, can hardly be blamed for the entire defeat, though his collapse brought on the final tragedy.

#### Nicol Thompson Here

Nicol Thompson of the Ancaster Golf Club, Hamilton, and who laid out the Country Club's new golf course this year, came down to play with the Belleville boys and to see for himself how his suggestions had been carried out. In a short talk after dinner he said the results exceeded what he had expected and that he felt he had had the pleasure during the afternoon of playing over one of the finest nine-hole courses in Canada. He promised to come down again and bring some of the Hamilton boys with him and also invited the Country Club players to go to Hamilton early in the Spring when he said they would see some real golfers and he thought have a good time.

#### DEATHS & FUNERALS

**HAMILTON COLLINS**  
Wellington, Sept. 19.—Mr. Hamilton Collins passed away at his home, Lake Shore, on Sunday, Sept. 18th at the age of 77 years. The funeral took place at his late residence on Tuesday, Sept. 17th. Interment was made in Glenwood Cemetery.

**JAMES McAVOY**  
The funeral of the late James McAvoy took place this morning from his late home, 14 Octavia Street, to St. Michael's Church where services were conducted by the Rev. Fr. Kilen, who also conducted the services at the graveside. Interment took place in St. Michael's Cemetery. The bearers were Mr. J. Milne, P. Feeney, D. McDonald, C. Collins and W. Britton.

#### ROBERT GEORGE MARTIN

Mr. Robert George Martin, 1st concession of Tyndinaga, passed away at his home this morning at an early hour. The deceased who was an old and respected citizen was 79 years of age, and has been ill for the past four weeks. He leaves to mourn his loss three brothers and two sisters, Miss Margaret Jane and William at home Mrs. Wm. Port and Mr. Randall Martin, 1st Concession of Tyndinaga, and Mr. John Martin, U.B.A.

**DELEGATES VISIT BIG PLANT**

#### SHARK

Continued from Page One  
stomphere.

A comparatively young man of twenty-eight, he believes that he is just now on the threshold of his swimming career and is looking around for new fields to cover. "Eddie Keating by that little remark at the close of the Exhibition swim, made me more friends than all my own swimming victories," Vierkoetter said, "and I would judge from the opinions expressed that he lost all the friends he had made, at least in Toronto." Mr. Dunn, his personal companion, Ernst and his wife, motored back to Toronto directly after the Karnival last night.

## Just For The Feminine Reader

### SOILED SHOES ARE EASILY CLEANED

Light shoes easily become soiled. These may sometimes be cleaned by washing with soap and water. Use a cloth and wring it as dry as possible to prevent getting the shoes unnecessarily wet. Rinse in cold water, with a cloth wrung thoroughly, and wipe dry. An oil dressing, after the water wash will help to keep the leather soft. Gasoline or dry cleaning preparation may be used on shoes, with discretion. This should never be done in a room where there is a fire, as gasoline and most dry-cleaning preparations are very explosive. It is best to work with them outdoors. If you are not able to clean light shoes successfully, you may have this done for a small sum at the shine parlor.

### HOW TO REDUCE THE ICE BILL

Some thought should be given to all inside as rapidly as possible and what one puts into the icebox. The twelfth but one opening of the door.

## Miss Hard-Boiled" BY JANE DIXON

"That's it. I can't even recall the tone of his voice clearly. And yet I've seen him, listening to him, been with him day in and day out for more than two years. He's done everything for me. Everything. But for him I'd be a grain of dust—in a desert. It's uncanny."

"He has no idea you might become Mrs. Jerry?"

"How could he? I had no idea of such a thing myself until a few hours ago."

"Umm, something tells me the old boy is going to stick pins into the nice pink balloon when he hears about it. He's bawny about you, dearie. I could shed a tear or two for him, at that. He's a good egg, even if he has had a few bad spots in his time."

"He's splendid," said Raquel, without stint. "I've honestly tried to care for him—that way. He's like a father."

"Well," said Greta, "Alphonse is not exactly what you could call a father. And if he is, you couldn't go through life with papa. So there's no use getting yourself in an uproar about it."

"I don't know quite what to do," Raquel confessed.

## THE WAY TO A MAN'S HEART

### FISH AND PEPPER SALAD

4 large green peppers  
1 cup cooked or canned fish  
1 dried cucumber  
½ cup mayonnaise  
Salt and pepper.

### WHAT'S NEW

(From A Woman's Standpoint)

Paris reports that one of the most important factors in the trend of fashions is the departure from black to a large extent in favor of the colors launched in other materials, and violet seems to be first in the color range, both the deep rich violet of day dress and a violet several tones lighter for evening, while light greens are second in numbers, strong yellow green renewed in vogue and very smart, as well as the jade of bluish green.

Although at present the V-shaped neckline is preferred for all types of blouses, the neckline which will be favoured this winter is the youthful close-fitting neckline usually accentuated by a Peter Pan collar, for this neckline is already being featured for the newest neckwear and it is believed that it will gain in importance for winter blouses.

From observations at the Riviera watering places, where the custom seemed to be to remain in one's bathing suit, supplemented by silk beach pyjamas, for the greater part of the day, a New York fashion authority who has just returned, deduces that sunburn will continue its reign through the summer months of 1930, for he explains the women really did not dress until about 10 o'clock at night.

In contradiction to the belief that following the popularity of capes in various forms last year, they would lose their appeal this season, they appear frequently in some of the smartest French models, and they are often short and match the trend dress which they accompany, while occasionally they are noted on the rough tweed sports coat, one model stressing a series of buttons down the centre back of the cape and repeated on the skirt of the coat.

### SOME HELPFUL HINTS FOR BUSY HOUSEWIVES

The careful housewife will wipe the jars containing canned fruits and vegetables before storing them on their shelves, and of course the papers on the shelves before setting the jars there. It is easier to replace soiled paper than to clean shelves.

When placing newly canned foods, jam and jellies on the shelves, always bring the old jars forward so these will be used first. By grouping the fruits and vegetables so those of the same kind are kept together it is always possible to tell at a glance what foods are on hand.

If the jars are kept in the cellar and there are no doors to the shelves, a discarded dark window shade fastened in the front will protect the contents of the jars against the light.

### Recipe for delicious uncooked Salad Dressing

2 eggs beaten until light.  
1 teaspoonful salt.  
1 teaspoonful mustard.  
1 can Eagle Brand Milk.  
1 cupful vinegar.

Beat the first four ingredients vigorously for a few minutes, add the vinegar, stir well and set aside for a few hours to thicken. This dressing will keep for weeks.

EAGLE BRAND in Coffee  
Replaces cream and sugar.  
Really delightful. Try it!

NAME \_\_\_\_\_

ADDRESS \_\_\_\_\_

Scoop seeds from peppers and let stand in cold water for thirty minutes. Mix cucumber and fish with mayonnaise, drain pepper shells and fill with mixture. Arrange on lettuce and serve with dressing.

### POTATOES MARYLAND

8 peeled new potatoes  
¼ cup grated or cream cheese  
½ teaspoon salt  
¼ teaspoon pepper or paprika  
2 cups milk.

Mix all the ingredients together smoothly and pour into a buttered baking dish. Bake in a moderate oven for half an hour, then uncover and brown. For this one should use the new, small potatoes which cook very quickly.

### STUFFED PORK TENDERLOINS WITH APPLE RINGS

Split the tenderloins crosswise through the centre and place in the opening rings a savory dressing composed of one cup of breadcrumbs, one teaspoon grated onion, one small peeled apple finely chopped, salt and paprika, and one-half teaspoon finely powdered sweet herbs. Sew up the vents. Place in a greased baking pan and bake in a moderate oven until tender, basting frequently with melted butter and hot water. A delightful change. For the apple rings wash and core four apples and cut them in half. Make a syrup of 1½ cups of sugar, one cup of water and a piece of stick cinnamon or a few cinnamon candies for flavor. Boil the apples in this syrup until they are tender and let them cool in the syrup. Serve these jellied rings around the chops.

## Kiwanis Karnival THURSDAY EVENING

You are cordially invited to attend our showing of Coats and Dresses at the Kiwanis Fashion Show, Thursday Evening. These Garments are from our own stock and we invite your closer examination of any garments in which you may be interested, in our store, Friday, or after.

## PRINCE OF WALES SCHOOL FAIR A REAL SUCCESS; EXHIBITS GOOD

Children of School Show Work At Annual Fair In Schoolhouse

Successful from every standpoint, the Prince of Wales School Community Fair lived up to every expectation yes-given by school talent last evening. For today. Never before had there been so many of the results of the judging

as many exhibits by the children and new before were they of a higher quality. Judging of exhibits took place in the morning, and various athletic events were run off in the afternoon. The day was closed with a concert.

**SNOW FELL AT OTTAWA**  
Ottawa, Ont., Sept. 18 - Snow fell  
here for about two minutes this morning  
and was accompanied by a strong  
breeze with the temperature hovering  
between 42 and 50 degrees.

**BUSINESS LINERS**  
After a thorough visit to twenty important  
cities of the Eastern United States  
Mr. G. M. James is convinced that  
there are very few equals and no  
superiors to the store of The James  
Texts, Belleville, in quality and variety  
of stock or in economy values. Do  
you realize that one of the best and  
largest stores of its kind on this continent  
is at 182 Front Street this city? Investigate  
and be convinced. S17 & 19

**NOTICE OF MEETING**  
A meeting will be held at the Conservative  
Club Rooms, 219 Front Street,  
Belleville, Ontario, on Tuesday, September  
the 24th, at 8 p.m. for the purpose  
of selecting delegates to attend a  
convention to be held at Trenton, to  
select a candidate to contest the riding  
of West Hastings in the interests  
of the Conservative Party at the forthcoming  
Provincial Elections.  
All supporters of the party in the  
city are requested to attend.  
On Wednesday evening, September  
the 25th instant, at 8 o'clock, the Ladies  
Conservative Association will meet  
for the same purpose.  
DATED this 17th day of September,  
1929.  
R. H. Ketcheson, C. A. Payne,  
S19 & 21 Secretary, President.

## FALL FASHIONS FRONTENACS ARE BY J. A. McNABB CO. DISTINCTIVE

Latest Parisian Modes Are Shown In Striking Designs

(By Clorinda Cruik)

Paris openings, we are sure, were indeed rivaled last evening when the ball game between the Frontenacs and Clacios. It was certainly a breezy night for an outdoor game and the players had to hustle around to keep them- selves warm. A fair number of fans were on hand to see the battle for the City Championship and were rewarded with a fine game from all points. Close, and interesting, with plenty of hitting and home runs, the game was a see-saw affair and the winner could not be guessed at until the last man out. The Frontenacs proved too good for the Clacios and carried off the honors by the close score of 17-15. At that it looked as if the 17-15-clad lasses were going to grab the game at the last when with two men down and two on bases a safe hit would have given them at least a tie if not a win. The game was called at the end of the eighth on account of darkness.

Mr. G. Chaplin, genial manager of the Belleville branch, stated to The Intelligencer representative yesterday that never before had his company assembled together a more elaborate and beautiful collection of clothing and that shown at the Fifth Avenue, London and New York, the latest to be seen in the Rue de la Paix, the Champs Elysees - and at the J. A. McNabb Company Limited, Belleville.

Mr. G. ## FRONTENACS ARE CITY CHAMPIONS

Clacios Made Great Effort But Were Nosed Out

How the girls shivered and how their knees shook at last night's softball game between the Frontenacs and Clacios. It was certainly a breezy night for an outdoor game and the players had to hustle around to keep them- selves warm. A fair number of fans were on hand to see the battle for the City Championship and were rewarded with a fine game from all points. Close, and interesting, with plenty of hitting and home runs, the game was a see-saw affair and the winner could not be guessed at until the last man out. The Frontenacs proved too good for the Clacios and carried off the honors by the close score of 17-15. At that it looked as if the 17-15-clad lasses were going to grab the game at the last when with two men down and two on bases a safe hit would have given them at least a tie if not a win. The game was called at the end of the eighth on account of darkness.

another half-dozen runs. The third innings gave the Frontenacs three more runs with none in the fourth and fifth. The Clacios gained none in the third but scored four in the fourth and two in the fifth. In the sixth and seventh, the Frontenacs staged another hitting spree and eight runs crossed the home plate. The Clacios could only collect three more in the eighth and the game was then called on account of darkness, with the score 17-15 for the Frontenacs.

Both teams played well and the Frontenacs particularly turned in some nice hitting. Several home runs were made and extra base hits were numerous. On the mound they used Edna Smith all through with the exception of one inning when Alice Tompkins was brought in the game. Both girls did well, especially Edna Smith who was very steady all through and issued few free passes. For the Clacios, Bessie Doolittle started but her control was shaky and she was replaced by Vera Ivey in the seventh, who pitched nice ball and contributed substantially to the hitting.

Umpires Colling, bases; Woodley, plate.

## WOODS PITCHED

Third and Final Game Will  
Be Played In Peterboro  
Saturday

(By Percy Coe—Staff Writer)

Before a raving mob of delirious fans, Belleville Nationals yesterday dropped the second game of the play-off for the Central League Championship by a score of 6 to 4 at Deloro and thereby made necessary a third game for the honours in that loop. The Nationals were never ahead after the first innings and although they straggled strongly in the ninth it came too late to do any good.

Without wishing to establish any alibi for the Belleville team it should be clearly understood that they were not outplayed, but outclassed, and in the third and final game, which will be played in Peterboro on Saturday, they should be able to take the Smelters' man's measure. Deloro played bang-up ball behind good pitching by their ace "Tink" Woods and on the day's play deserved the verdict, although two or three decisions by Umpire in Chief Alex Kay did not help their local cause any.

Vinny Uronski, the Rentown product, started on the mound for Belleville, but as usual, lacked control and was derailed in the third frame. Alex Weir replacing him, Alex threw a good game, and had it not been for errors which came at critical moments, would have won the game. The base running of the Nationals was not up to the mark either, and they showed the lack of games on several of their plays. The Nationals left for Rentown for a two days' visit on the two o'clock train this morning, and they should have plenty of ball underneath their belts when they return from this trip, on which they will play two games and perhaps three. Alex Weir will not make the trip, nor will Frank Bennett, but the rest of the team will make the journey to the home of Bob Scott and Vinny Uronski. They will return on Friday night in time to go to Peterboro for their game on Saturday afternoon.

The star of the game, without doubt, was George Scott of the Deloro team. He handled seven chances in the field without making an error. Several Belleville players of hits and as well came through with two hits which figured in the scoring. George is a brother of Bob Scott, the Belleville third sacker and ball playing seems to run in the family, as both are good. There is little love lost between the two boys on the diamond, however, and they like nothing better than to make a put out on each other.

Art Quinn, of Deloro, had three hits all of them singles, and generally made himself useful although he received a nasty bump and cut over the eye when he collided with Bob Scott, while trying to steal third. He is playing much better all round ball since he was moved from the catching department to second base. Murney

Green was the heaviest Belleville hitter, he coming through with two doubles which helped a lot in the scoring of Belleville's fair runs, two of which came in the ninth. In their last two games against Deloro the Nationals have not been able to do anything right, and only through extra heavy doubling did they win the first game in Belleville. Their fielding has taken down considerably, and the Belleville infield which all along has been noted for its slickness is practically shot, judging from the display of the last two games. Errors have come at critical times and if the Nationals expect to stay in the pennant race they will have to come out of it with a snap.

Usually the two most reliable men on the team, Harry Blakey and Harry Mills, yesterday made glaring errors both of which meant a lot to the Belleville cause. These things happen in all baseball games, but that just goes to show the kind of luck the Nationals have been running in. We firmly believe that they are a better team than Deloro, and a much better team, but to prove that they will have to get out and win on Saturday and win by a good substantial margin. Manager Bill Regan will likely send Rocky Woods right back again at the Nationals on Saturday, as they seem to have little or nothing when he is playing against Belleville. The law of averages is in Deloro's favour, but the Nationals are not great believers in that law, and expect to make the season's count with Deloro nine wins out of eleven games. It now stands at eight wins out of ten games.

Belleville started off on the right foot by getting one run in their half of the first innings, but Deloro came right back in the second and got two after Uronski had walked one man and allowed two singles. Belleville failed to score again until the sixth when they pushed another run across on two hits. In the ninth with the score 6 to 2, the Nationals came to life after two were out and scored two runs, but the game was over when Bob Scott hit to Quinn for a force-out at second. The Belleville fans, and there were plenty of them in the grand stand, were up on their toes and cheering for the first time they had had a chance all afternoon, but it was no use.

Belleville got eight hits off Woods' delivery all afternoon, and Deloro made ten of the combined delivery of Uronski and Weir. The Smelters made five hits off Uronski in two and two thirds innings, while Weir limited them to five for seven and a third innings. Woods was not particularly effective as the Nationals were not striking out, but they simply could not keep the ball away from the Deloro fielders. On the other hand, Deloro made most of their times at bat count either for walks or hits, and in all cases made the pitcher pitch a few balls to them before striking. And that is what wins ball games.

The Nationals again had an almost record afternoon for errors, they faking four to Deloro's two. Harry Blakey had two, Harry Mills one, and Bob Scott made the other. Special mention should be made of Sonny

Green in the field, for he nabbed off two bunters in centre field which would have gone for sure doubles or triples had they got away from him. Murney Green also came through with a nice catch near the left field foul line.

**First Innings**  
Belleville—Scott flied out to Buck in centre field, V. Weir struck out, H. Mills' doubled and went to third on a wild pitch by Woods. He scored when Boudeau, catching, let one go by to the batters. W. Mills walked and Blakey went out to Hughes.  
1 Run, 1 Hit, 1 Error.

**Second Innings**  
Deloro—Woods flied out to Scott, Buck walked, G. Scott struck, Quinn walked, filling the bases; Elliott singled, scoring Buck and Scott and Brown fouled out to W. Mills. Boudeau struck out.  
0 Runs, 0 Hits.

**Third Innings**  
Belleville—A Weir hit to G. Scott, who threw him out. M. Green did the same. E. Green singled, Uronski went out to G. Scott to Hughes.  
0 Runs, 0 Hits.

**Fourth Innings**  
Deloro—Hughes out, Blakey to H. Mills, W. Scott doubled, Woods out, V. Weir to H. Mills, Buck flied to E. Green.  
0 Runs, 1 Hit.

**Fifth Innings**  
Belleville—Scott, V. Weir and H. Mills went out in succession to G. Scott, Elliott and Woods, successively.  
0 Runs, 0 Hits.

**Sixth Innings**  
Deloro—G. Scott out to V. Weir, Quinn singled, Elliott singled, scoring Quinn. Elliott was caught off third by W. Brown hit to Alex Weir, who relieved Uronski and pitched to Brown as the first batter. Brown going to second. Boudeau flied out to M. Green.  
1 Run, 2 Hits.

**Seventh Innings**  
Belleville—W. Mills walked, Blakey smacked one at Quinn, who made the catch and a double play by getting W. Mills off first. A Weir doubled and was out when he overran second base.  
0 Runs, 1 Hit.

**Eighth Innings**  
Deloro—Hughes struck out, W. Scott safe on Blakey's error, Woods safe on Scott's error, Buck went out to H. Mills, Scott out to A. Weir.  
0 Runs, 0 Hits, 2 Errors.

**Ninth Innings**  
Belleville—M. Green out to W. Scott in right field, E. Green out to G. Scott and Uronki out, Quinn to Hughes.  
0 Runs, 0 Hits.

**Tenth Innings**  
Deloro—Quinn singled, Elliott out to E. Green, Brown doubled through short, scoring Quinn, Boudeau out, Scott to H. Mills, Hughes struck out.  
1 Run, 2 Hits.

**Final Innings**  
Belleville—Scott singled an error, second, V. Weir advanced him to third with a sacrifice fly and H. Mills went out, Quinn to Hughes, W. Mills came through with a single scoring Scott, and Blakey was out, Elliott to Hughes.  
1 Run, 2 Hits.

**Deloro**—W. Scott struck out, Woods they were flying out.

was hit, Buck safe on H. Mills' error, G. Scott singled and Buck and Woods scored. Quinn flied out to E. Green, Elliott struck out.

2 Runs, 1 Hit, 1 Error.  
**Seventh Innings**  
Belleville—A Weir grounded out to G. Scott, M. Green doubled, E. Green flied out to Buck in centre, Uronki walked, Scott grounded out to a pitcher.

0 Runs, 1 Hit.  
Deloro—Brown struck out, Boudeau safe on Blakey's error, Hughes out to Scott, W. Scott flied out to E. Green.  
0 Runs, 0 Hits, 1 Error.

**Eighth Innings**  
Belleville—V. Weir struck out, H. Mills flied out to G. Scott, W. Mills out, Quinn to Hughes.  
0 Runs, 0 Hits.

**Ninth Innings**  
Deloro—Woods cut, V. Weir to H. Mills, Buck singled, G. Scott flied out to centre field, Quinn singled and stole second, Elliott was out, Blakey to H. Mills.  
0 Runs, 2 Hits.

**Tenth Innings**  
Belleville—Blakey out to Woods to Hughes, A. Weir safe on Elliott's bad throw, M. Green doubled scoring A. Weir, E. Green flied to left field, M. Green going to third after the catch, Uronki singled, scoring M. Green, but Scott hit to Quinn who tossed to second for a forceout, and the game was over.

2 Runs, 2 Hits, 1 Error.

PREPARE SHOOTING  
MATCH FOR KING

London, Sept. 17.—King George has made such an excellent progress towards complete recovery of health that preparations are being made for a day's shooting for him if weather conditions continue fair.

Hugh McDermid, buffalo ranger of the Fort McMurray area, reports that the 10,000 herd of buffaloes are well and strong, contrary to rumours that they were dying out.

The Girl and  
The Game  
By Anita

Kiwanis Square Girls, of Kingston, have (according to the Kingston Press) amassed four titles this year and completed a uniquely successful softball season. The latest title they have laid claim to is the Eastern Ontario Championship, although they proceeded no further than defeating the Belleville Juniors after protesting on several of the latter's best players. Following is a clipping from the Kingston paper which may be of interest to Belleville fans.

According to the Kingston Whig-Standard:—  
"Kiwanis Square girls have apparently added another championship to their already imposing array of winnings for the season, in the taking of the Eastern Ontario Ladies Softball Association honours, for Ottawa, who were scheduled to meet them in the finals failed to play the game as called for, and the fourth championship of the season goes to the local girls.  
"Ottawa were ordered to play their first game with Kiwanis Square here on Saturday last, but announced that they could not play as their girls were out of practice. Considerable commotion was carried on, and Ottawa gave it to be understood that if they did not appear for the game, they would forfeit the series to Kiwanis Square. The team did not show up and no explanations were forthcoming so the Kiwanis Square team are now rightfully claiming the championship.  
"The record made by Kiwanis Square this season has been a truly remarkable one. They stepped out in a grand style, and then took the Abramsky Cup in the playoffs with Treasures and Supremes. This victory was followed up by another in the Capital Cup series, when they won one of the finest trophies ever offered for competition in Kingston.  
"The girls have played splendid ball, under the management of Bill Shaw, and have proven themselves a distinct credit to girls' softball in the city and district."

**DEPRIVED OF TITLE**  
Chicago, Sept. 17.—Mickey Walker's title as world's middleweight champion was vacated by the National Boxing Association because of his failure to defend his crown since June, 1928. N. B. A. demand that champions defend their titles at least once every six months.  
Coblenz, Germany, Sept. 17.—The trucks of the 39th Artillery Regiment began leaving and the first French soldiers also left the city today.

## Sportograms

Brilliant. That's just how cold it was yesterday in Deloro, and then some. But it was great foot-

ball weather, even though it was a little uncomfortable for baseball players and fans. The Nationals had a large crowd of rosters on hand at the Smelting town yesterday, and the team appreciates their support.

As usual, a few "Grandstand man agers" came along by the Belleville church about the eighth innings when the score was 6 to 2, and professed their advice on how to run the team to Manager Walter Gerow. They explained in no uncertain terms just where he had made his mistakes all through the pastime, and told him what they would have done in like circumstances, which would have probably sent the Nationals to an early grave. The players are satisfied with the management, and if some of these grandstanders even so much as suggested running a team, they would find it hard to get any players to manage. Walter Gerow piloted the Nationals to an Ontario Championship last year, and the team is not out of the running yet by any means, so the "grave-diggers" had better keep quiet for a few more days at least. Their continual yap yesterday afternoon, where he had made enough to make even a dog sick, so why wonder at us.

The third and final game will be played at Peterboro. So says our Mr. Elliott, the president of the Central League and the O.B.A.A. representative. Oh, yes, and Mr. Elliott happens to live in Deloro. Among other duties connected with baseball, Mr. Elliott sits on the bench with the Deloro team, and it is rumored that he Regan, the supposed manager, is in reality a mere figure head. And not much of a figure head at that. Mr. Elliott's Deloro team wanted to play in Peterboro, and Belleville wanted to flip a coin to play either in Deloro or Belleville, and as the two teams could not agree, it had to be left to the League Presy. Now can you guess the answer? Right, Oswald. Mr. Elliott decided that Peterboro should be the scene of the battle.

## PUBLIC NOTICE!

The Kiwanis Club of Belleville Hereby Notifies the Public

That there is absolutely no sense in staying at home tonight and shivering—nor is there any reason for lighting the fires—but the logical thing to do is come to the Karnival where it is warm and comfortable. Enjoy the best show for the money ever staged in Belleville—and go home to bed happy that you helped Kiwanis to help others.

Don't Shiver at Home Tonight. Keep Warm at the Karnival

## SINCLAIR'S

Will stage the  
Style Show  
Tonight

When the Mannequins step on the stage, tonight at 8 o'clock, they will present all that is new and artistic in styledom—as gathered together by Belleville's well known store—"Sinclair's"

Coats and Frocks from the foremost fashion artists, will be shown.

FURS AND HATS  
By Woodleys

VAUDEVILLE  
Again Tonight

## Mr. Joe Wright Jr.

Canada's Premier Oarsman—winner of the famous Diamond Sculls, in 1928—and real all round water sportsman, will be the guest of the Kiwanis Karnival tonight. Come and meet him!

The Charming Dancing Sextette will put on an entirely new programme tonight, at the Karnival.

Door Prize  
\$5.00 Gold Piece

You Can Vote  
Early and Often  
In the Popular  
Girl Contest

Whenever you spend a dime at the Karnival, ask for a vote—get an envelope—pick out who you think should win the Most Popular Girl Contest—and VOTE!  
2 Votes for admission and one vote for every 10c you spend at the Karnival.  
Contest Closes Saturday Night.

Pick Your Favorite  
and Boost Her

## OAK HALL

Boy's Blue Cheviot Suits

with Knickers These are remarkable value and range in large sizes only from \$1 to \$5. \$5.95

## ONLY A FEW CAN BE GOOD PILOTS

Many Are "Air-Minded"  
But Fail To Make The  
Grade

Washington, D.C. (By Canadian Press)—The United States has become air-minded, but government authorities have discovered that only a small percentage of aviation enthusiasts can be made successful pilots.

The aeronautics division of the Commerce Dept., which is in charge of civil aviation, has been receiving in the last few weeks a huge number of applications for student flyers' permits—approximately 600 a week. The number of applications in the first half of this year was placed by Clarence M. Young, recently appointed assistant secretary for aeronautics, at 14,850, compared with 10,097 in the preceding six months.

But this evidence of a desire by Americans to "take to the air" has not proved so productive of successful pilots, officials said, as only 15 per cent. of the student flyers qualify as pilots capable of handling commercial aeroplanes. A similar situation exists in the army and navy, in the army only 25 per cent. of the students qualified last year and in the navy a slightly higher proportion. Both services, however, except a larger percentage of successful pilots to result from training hereafter.

Despite a careful physical examination, study of the prospective student flyers' family background and inherited tendencies and psychological tests, neither the commerce department nor the two military services have found an infallible test of flying ability prior to actual tests in the air. "The inherent aptitude of flying only can be learned by actual flights," said one of the commerce aeronautics officials.

Other factors, however, keep down the percentage of successful pilots, the commerce authorities asserted. A major factor of discouragement to the prospective flyer is the high cost of a piloting course of instruction, and another is that students of ten lose their desire to fly, or their nerve, after air experience. A third obstacle to the increase in the number of pilots is becoming apparent in the tendency of many students to make a solo flight and then quit, satisfied with that experience. In the army and navy, the chief reason for failure of student flyers is due to actual inability to pilot aeroplanes. The entrants in the service flying schools generally have every physical qualification but during their training even those best qualified physically may disclose lack of the aptitude to fly.

### ABLE TO LOCATE PLANES AT NIGHT

Hermenville-Les-Reims, France, (By Canadian Press)—A French inventor claims to have solved the problem of detecting the approach of an aeroplane at night. A. Van Hollenbeck says his invention not only does that, but also locates it. It is accomplished, he says, by means of a mechanism formed of two parts, one raised 400 yards high by means of an observation balloon, and the other fixed to the ground.

The raised mechanism consists of a hollow, revolving drum, into one side of which is fixed a concave sound-reflector. Revolving at 100 turns a minute, this drum is synchronized with a revolving plate fixed to the mechanism on the ground, and as the sound-reflector is turned towards the approaching aeroplane the exact direction is indicated at each revolution.

Another mechanism whose working is a secret indicates the distance away of the aeroplane. The inventor claims that a plane can be detected 20 minutes before reaching a city and its height and direction so exactly known as to put it in time of war at the mercy of a few shots from an anti-aircraft gun.

### REPLY IS EXPECTED

Toronto, Sept. 18.—W. E. N. Sinclair, the Ontario Liberal leader, left this morning for Elmville, in the riding of Centre Simcoe, where he is expected to make a reply at the nomination meeting this afternoon, to the election manifesto issued by Premier Ferguson Monday.

Dorothy Mackaill, wearing an evening wrap trimmed with silver fox collar and cuffs, with pale blue silk pan velvet embossed.

### SWEDISH JUBILEE A SPLENDOROUS EVENT

Stockholm, Sweden, Sept. 18.—A warm public reception, old time splendour and solemnity characterized the St. Ansgarius jubilee, recently celebrated in Stockholm, commemorating the eleventh century anniversary of the first preaching of the Christian faith in Sweden. It was responded to by seven hundred Catholic pilgrims, including two Cardinals, who had travelled from various countries to Sweden to attend this remarkable church festival.

In 1829 Ansgarius, a monk from the monastery of Vorvey in Westphalia, was sent to Birka, the then Swedish capital to convert the heathen Swedes. He at first succeeded very well, being allowed to preach freely and even to baptize Hergier, the most prominent official of the capital, who built a Christian church at Birka. In spite of all the vicissitudes which afterwards Christianity had to endure in Sweden the seed planted by Ansgarius grew to all-embracing faith which finally conquered the Wodan and Valhall cult. In 1527 Sweden officially adopted the Lutheran faith.

In celebrating the introduction of the Christian faith, Sweden's Catholics and Lutherans joined hands, which is well illustrated by the fact that Dr. Nathan Soerblom, the Lutheran archbishop of Sweden as well as H.R. H. Crown Prince Gustaf Adolf sent cordial letters of greeting and sympathy to the cardinals, regretting that they were prevented from attending the jubilee celebration.

STAMP

### ENCOURAGE FISH AS A TABLE FOOD

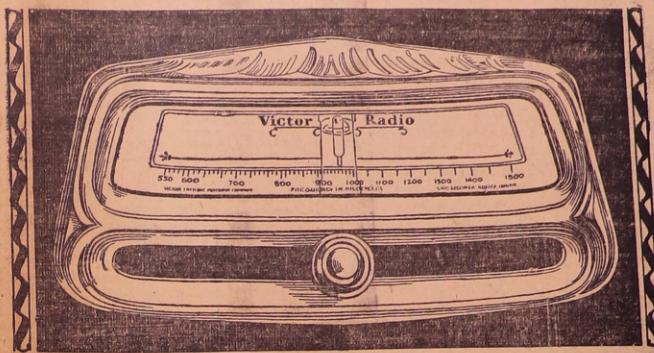

Victoria, B.C. (The Canadian Press)—As a means of building up the health of Western Canadian cattle, the British Columbia government is encouraging the use of fish meal as feed. The fish meal is manufactured from pilchards which are caught in millions off the west coast of Vancouver Island.

According to Hon. S. L. Howe, commissioner of fisheries, it has been shown that calves fed on a ration of fish meal had at the end of a year an average height of two and a half inches in excess of the standard and an average weight of 30 pounds in excess of the standard weight. He added that herds fed on a ration of fish meal are free from goitre and abortion, and that cases of bovine tuberculosis are relatively among cattle so fed.

### ARRIVE AT WASHINGTON

Washington, D.C., Sept. 18.—Col. Charles Lindbergh and his wife arrived at Bolling Field here this afternoon on a flight from Roosevelt Field, New York, en route to Miami.

# Micro-Synchronous

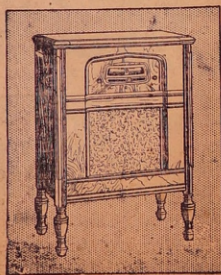

FULL VISION, SUPER-AUTOMATIC STATION SELECTOR: ALL STATIONS PLAINLY AND PERMANENTLY VISIBLE

### TODAY'S THOUGHT

"Public officials are too frequently criticized before their plans have received any serious study by their critics."  
—Grover C. Whalen, New York police commissioner.

### WHAT NEXT?

Over in the States a scientist has bobbed up who can make real diamonds out of sugar. The drawback there, of course, is that if people start making diamonds out of sugar the lovely things will become so common that nobody will want to wear them. It is that way with human nature. Whether it be a pretty woman, or a cocktail, or something equally alluring, the appeal is always in proportion to the difficulty of possession. Personally, we couldn't ever see much difference between a diamond and a good crystal, and we doubt if many others can; but just because crystals are fairly common and diamonds are not, people, especially women, want diamonds. They want something that few other people have.

That, however, is not what most intrigues us about this chap who can make diamonds. What interests us is the seemingly inexhaustible ingenuity of these scientists and chemists to do things. Where is it all going to end? The other day we read about a man who was going to make some useful thing—we forget what it was—by taking the bitter taste out of vinegar. The very next day we picked up our paper and saw where, in England, they are beginning to make bathing suits out of wood. Tomorrow, without a doubt, it will be something else. Next to newspapermen, chemists and scientists are the most industrious people we know.

A few years ago we read a book by an eminent scientist, Mr. J. B. S. Haldane. It was a good book, but when we came to a chapter in which he said that people would soon be taking food out of the air, we threw the book away. We thought the fellow was crazy.

Now we are not so sure. If these infernal scientists can make Arctic circle Eskimos dance to the wailing of a saxophone in New York, make people fly over oceans and continents, sail under the sea, and talk to people thousands of miles away, what invention can they not do? They used to talk about the industrial revolution. What we're witnessing now is a new world entirely. Here we are making paper out of straw; beautiful lingerie out of jackpines; lighting homes with gas from garbage, making diamonds out of sugar, snappy bathing suits out of wood, and doing a thousand other things.

And those scientists are only beginning. If they have been able to perform all these miracles during the past few years, what will they be doing, and what will everybody else be doing, a hundred years from now? The thought of it makes us wish we had just been born yesterday.—Ottawa Journal.

### THE FATEFUL PRESENT

Premier Ramsay MacDonald goes to the United States under far happier auspices than those which prevailed when President Wilson returned upon another occasion memorable in world history. The hopes of rational people in the two nations that there will be signed an agreement which will cement their mutual friendship have been considerably raised during the last few weeks. The allegation that propaganda for naval competition was inspired by the lust for money has

shaken the confidence of the public in the sincerity of the big navy advocates. But the agreement has not been signed yet, and we may be sure that the forces opposed to it are silently planning how this peace move can be frustrated. But we believe that both Premier MacDonald and President Hoover are alive to the necessity for prompt action, and that every effort will be strained towards reaching the final definite terms at the conference to be held early in October. If agreement is not reached there will be a danger that public opinion will forget the Shearer episode, and new causes for dissension sought for and discovered.

The Anglo-American naval agreement, while it will be a tremendous step forward to a new world outlook, with its promise of an international sky from which war clouds with their threat of devastating hurricanes and tornadoes have been swept, is only a step. The end will not have been reached. What the next developments will be depend upon the attitudes of France and Italy, and particularly Italy. Both countries have announced that they are prepared to enter the five-power naval conference to which the Anglo-American pact is a prelude, but what their attitude in that conference will be remains to be seen. It would appear, however, that the auguries are favorable. France initiated the Kellogg peace treaty, Italy was one of the first nations to signify its intention to adhere to it. Japan has hitherto adopted a reasonable attitude in international affairs. But a naval conference has in it many snags, and the highest skill in negotiation will be needed to pass them safely. There is this much in favor of its success, however: If the five-power naval agreement breaks down, then Britain and America will have to consider an agreement for mutual protection. We do not think that the three other powers are anxious to be excluded, and to prevent it they will be less fussy over details than they could otherwise be.

In the events of today there are great possibilities for human progress. The happiness of our children and of generations yet to come lies in the hands of men and women now upon the world scene. It appears to us, when we contemplate the passing panorama of world affairs, that we can discern in those events a force making for righteousness. Whether this force will be overcome by the powers of evil we shall all know in a few more years. But we are too prone to forget that the force which makes for righteousness works ever through human agencies. God speaks through His prophets.

### OTHER MEN'S THOUGHTS

The linotype who made the transposition, and set it up United Europe might not have been so far out of the way at that—Boston Evening Transcript.

You can in time get used to a noisy street car, but you never can to sleep with a howling dervish peddling fake extras under your window late at night.—J. R. Wolf, Milwaukee Journal.

Confession of an editor: "Some people have a little fairy in their home and others have a miss in their engine, but we've got a little made in our cellar."—Boyceville Press.

If there is no such thing as telepathy, how does the committee of ladies know the editor failed to shave this particular morning?—Vancouver Sun.

PASSING YEARS  
From The Intelligencer Of This Day 30 Years Ago

Mr. Henry Vandewater has returned home from a visit to his daughter in Syracuse.

Mr. and Mrs. J. Luscombe have returned after visiting relatives in St. Thomas and Toronto.

Mr. Redfern Brown left today for Hamilton to make arrangements for the interment of his mother.

Mrs. F. H. Koehrsperger, two children and maid, who have been visiting her sister, Mrs. C. J. Howell, returned to her home in Chicago today.

Mr. and Mrs. John Bell went to Toronto today for a short visit.

Rev. S. J. Shorey of Peterboro, well-known in this city, is ill.

Mrs. Cam Wallbridge and Miss Amy left for Toronto today.

Rev. W. J. Gilleland, rector of Emmanuel R. E. Church, is indisposed.

Mr. George Anderson who has been ill for the past week was able to be out today.

Chief Newton who has been in Cobourg the past two days returned to the city this morning.

Rev. Dr. Potts of Toronto was a visitor here today.

Mr. M. B. Morrison, M.P.P. for West Hastings and Mayor of Trenton was in town today.

Mr. Gilbert Parker is expected in Ottawa in a few days. He will receive honorary degrees at the Convocation of Trinity University.

Mr. W. H. Poy, late Lieutenant in R. M. 1st Royal Dragons, is in the city today, a guest at the Anglo-American.

Miss Jennie Prizell of Nanawau is visiting Mr. and Mrs. Jas. Warham, Moira St.

Dr. Sprague left today for Rossland, B.C.

### HAVE YOU HEARD THESE?

Willie: "Did Edison make the first talking machine, pa?"  
Pa: "No, son; God made the first one, but Edison made the first one that could be shut off."

Cop: Ah, driving under the influence of liquor, a'w you?  
Driver: Well, 'm leavin' to drive 'n's only way I can get nerve enough to try.

Ticket Agent: This ticket costs fifty dollars and allows you a three day hang-over in Montreal.  
Buyer: And how much if I don't get drunk?

Mr. Henpeck: Doctor, my wife's dislocated her jaw. If you're passing out our way sometime next week or the week after, you might drop in and see her.

### THE CHILD AND THE WATCH

He gave his child a watch to play with.  
I think to quell his constant clamor.  
A watch to tell the time of day with!  
The youngster hit it with a hammer.

The little wheels and springs went flying.  
And never again could they be righted.  
With such a sport, there's no denying  
The little fellow was delighted!

To pound that bright and glittering gay thing  
He raised the hammer high above it.  
Though 'twas a most expensive play-thing  
He didn't know the value of it.

That night the father muttered sadly:  
(I quote his comment to the letter)  
(Although he used my good watch badly)  
The little rascal knew no better."

God gives us all a life to play with  
And we misuse it, though we love it.  
But oh, too oft it's done away  
Before we've learned the value of it.

## THAT BODY OF YOURS

By James W. Barton, M.D.

### SHOES ARE IMPORTANT

I remember as a youngster accompanying an older brother to a shoemaker who "measured" his feet for a pair of shoes.

My brother thought he was taking measurements that were very tight and told him so.

The shoemaker calmly stated "I always make them very snug because they will gradually stretch and will then look and feel too large for you."

Now this seemed like good sense to me at the time, but I learned from the feet I saw during the examination of recruits for the war that "tight" shoes on children were the cause of much suffering and inefficiency.

As a matter of fact statistics show that in some districts as many as 40 of 50 per cent were rejected as class O men simply because of poor feet.

And the majority of these cases of "bad feet" could be traced to tight, ill fitting shoes in childhood.

When you think of baby's first pair of shoes, which someone as described as "like a paper bag," you are perhaps thankful that the shoes of grown ups are not so unshapely.

And yet the very purpose of those

Lieut. Francesco Gualtieri, Italian poet, dramatist, journalist and musician, is returning to Italy after spending four years in the Dominion. He intends to write a book about Canada and the Canadians, whom he admires much. He is a graduate of the University of Rome and was the founder of the Italian War Veterans' Association here.

roomy baby shoes is what you should keep in mind. That is that the feet should have room to "work" in. A boy or girl, man or woman, could not wear shoes of the baby type because, al-

though freedom for the action of the muscles of the foot and toes is necessary, so also is support for the weight of the body, which after all rests upon the feet.

Now it is not necessary in these days of well made footwear to have shoes made to order, unless the foot is unusually narrow or broad, or the instep unusually high or absolutely flat.

All that is necessary is to get a shoe that is long enough—longer than the foot with toes lying flat; and wide enough, wider than the width of the foot.

A short shoe bends the toes upward and the joint sometimes get so stiff-ankled—that the toes remain bent. This is called "hammy" toe. This caused rejection of many recruits.

A narrow shoe suggests the front arch—from side to side—so that the front ends of the foot bones rest on the ground instead of being "arched-up" nicely as in a normal foot.

Take care of your children's and your own feet by getting shoes that fit.

Wheat cutting is practically completed at Richard, Alta.

Macleod's rich grain growing district is showing up well this year.

### BOY PLAYED DEAD AS BEAR ATTACKED HIM

Revelstoke, B. C. — To see a huge bear close at hand is considered a little more than commonplace even in this Rocky Mountain country. To be chased by one is even more out of the ordinary, but to be pawed over by one while lying on the ground is an

ever rarer experience and yet that is precisely what befell Jack Eddy, 14, of Revelstoke, while he was playing with some chums on the Big Bend road.

The boy knew that bears were in the vicinity and had been told that if they encountered a troublesome one they should lie down and pretend to be dead.

But when a bear suddenly appeared around a corner in the road young Eddy's friends forgot their instructions and took to their heels. Eddy ran, too, but was considerably smaller than his companions and the bear quickly gained on him. When the boy realized that flight was useless he remembered the warning and dropped to the ground.

The bear approached, walked over the prostrate boy, sniffed him and turned him over with his paw. Finally with a disgusted grunt brum laumtered away, leaving the boy unharmed.

Wheat cutting is practically completed at Richard, Alta.

## MORE CLINICS FOR T. B. CURES

London (By The Canadian Press).—Recommendation, based on a three months' demonstration in a clinic at St. Erved, Collier, England, that similar stations be established on a nationwide scale, for treatment by artificial sunlight of rickets, certain forms of tuberculosis, rheumatism, skin and nervous diseases and anaemia, is contained in a recent joint report of the New Health Society and Sunlight League of Great Britain.

These organizations, comprising both medical and lay members and directors, declared that results of the demonstration were "astonishing" to laymen and brought about public appreciation of artificial sunlight treatment, the benefits of which have been known for years by the profession and lately confirmed following the development of the quartz mercury sun-lamp for the projection of ultra-violet rays.

The mining industry was selected because it was representative of Great Britain's industrial community and because there was evidence, in the mining districts, that the common ills there were those which would benefit from artificial sunlight treatment. Arrangements were made with the officials of the St. Erved Colliery and a clinic established at the pithead.

Three classes of persons were selected for treatment in the clinic. One hundred boys of similar type and age were assembled and complete health data was compiled. The second class comprised adult miners, especially those suffering from rheumatic diseases and the third section was made up of children of poor miners suffering from rickets, skin diseases and other child ailments.

At the end of three months the boys of the treatment group were weighed and measured. It was found that the average gain in weight for one group was four pounds, six and a fraction ounces and that the average increase in height per boy was 0.762 inches. For another group the average weight increase was two pounds, 10 and a fraction ounces and the average height increase was 0.50 inches.

## WOMAN NOTED FOR PRISON REFORM WORK

London, Ont., Sept. 18.—Dr. Caroline MacDonald, who has been visiting her mother, Mrs. Peter MacDonald in this city is noted for her work in prison reforms of social work and she acted as interpreter to Mr. Matsuo, the Japanese delegate to the recent International Labor Conference at York as style consultant.

## QUICK QUAKER OATS

Cooks in 2½ to 5 minutes

Best Balanced Breakfast

Geneva. Dr. MacDonald has spent a number of years in social work in Japan and has been specially interested in the working men and women. In an interview with the Free Press Dr. MacDonald told of her night school for factory girls in connection with her work in Japan.

It is difficult to induce factory girls to attend high school for five years at night. We feel therefore that it is an achievement that this year we shall have two or three to end up to for the state high school examinations by which they will receive the educational status of the ordinary high school day pupils.

The prison work introduced by Dr. MacDonald in Japan some years ago with the financial backing of a board

of Japanese citizens, continues. The problem of man or woman discharged from prison and unable to obtain employment, is growing as it seems to be in other countries as well. Her ambition is the establishment of some sort of state farm suitably directed at which the ex-prisoner can immediately obtain temporary employment for which he will be paid.

But it is not enough that we try to ameliorate existing conditions, though this must be done. Dr. MacDonald said. She felt that energies should be turned nationally and individually towards a prevention of conditions by which the same problems recur, generation after generation.

## BISLEY WINNER WAS KLONDYKE MARKSMAN

Vancouver, B.C. (By The Canadian Press).—The British Empire's champion rifleman, Lieut.-Col. R. M. Blair, of Vancouver, winner of the King's Prize and Grand Aggregate at Bisley this summer, first tested his skill in marksmanship in the Klondyke during the gold rush days.

"The Klondyke wasn't the typical hell-roaring gold camp of frontier days," said Colonel Blair. "There wasn't the gunplay up there that made other camps notorious; but those who had guns used them, and mostly in a very peaceable and useful way. Instead of shooting each other up, we used to rig up a target outside the bar rooms and then shoot for the drinks. It was one of our most popular sports."

That was merely the beginning of a notable career as marksmanship for Col. Blair, who has distinguished himself at a score of rifle meets.

Col. Blair told how anyone interested in rifle shooting would naturally be interested in the Bisley meet. "No other rifle shooting competition has so much color as Bisley," he said.

Rev. H. W. Avison, new pastor of High Park Ave. United Church, Toronto, who returns to Ontario after two successful pastorate at Regina and Calgary, lasting ten years in all. He studied at Toronto and Victoria universities and was well known as a preacher while in Western Canada.

"Truly, it is an interesting spectacle. Representatives attend from all parts of the Empire and one met many old friends and made new ones at this meet."

Canada's success at Bisley this year was due in large measure to the fitness of the men holding the rifles and to the ability of the team coaches, according to Col. Blair.

## PROPOSE TO ASSIST NATIONS ATTACKED

Geneva, Sept. 18.—A scheme for giving aid to any nation which is the victim of aggression was passed along to the league of nations committee of the arbitration and security today for the preparation of final draft. The text will then be submitted at a special conference or at the next league assembly.

**SEVERE INJURIES**  
Hamilton, Ont., Sept. 18.—Joseph Brunzako, 38, Caledonia, was brought here today with severe injuries to the chest after a rock at the Gyproc plant fell on him. His condition is serious. Work is soon to start on new Calgary post office.

Princess Marie, daughter of Grand Duke Cyril of Russia, who has taken a job in a Fifth Ave. shop in New York as style consultant.

## PEACEFUL COMMUNITIES

## 2,462 Telephone Companies

It is estimated that Canadians make more extensive use of the telephone than any people in the world. The number of conversations made in 1927 in the Dominion was 2,108,400,000, including 31,400,000 Long-Distance calls.

CANADA'S 2,462 telephone companies are doing a great national service in maintaining, through heat and cold, good weather and bad, an uninterrupted means of communication throughout the country; for nothing so contributes to harmony and nationalization of thought as the ability to communicate—a man with his neighbour—one nearby community with another, or even with distant parts of the world. The Northern Electric Company has been privileged to supply equipment for most of these companies.

**Northern Electric**

## WAILING WALL CLASH REASON

Famous Spot Stands Sixty Feet High Near Arab Temple

London, Eng., (By Canadian Press) — Crimson stains again color the wailing wall of Jerusalem, a sacrifice to the enduring faith of true believers measured out by wrathful Arabs. Foreheads to stone for countless generations, until the rough-hewn blocks have become smooth and shiny, the Jews lamented at this spot "for the majesty that is departed; for walls that are overthrown."

Centre point of the clash between the Jews and Arabs over rights of religious worship, the Wailing Wall marks the nucleus of fighting which has spread through the Jewish quarter.

For the Moslem, the rocky barrier, towering 60 feet, is a retaining wall enclosing the dome off the rock, Mohammedan shrine and most sacred spot in the city. For the Jew it is a buttress of Solomon's Temple, erected a thousand years before Christ, and therefore a sacred heritage. During long years of Mohammedan domination it was the nearest part of the sacred inclosure formed by backs of yards and Mograbin houses. Jews have gathered since the middle ages.

A desolate chant is repeated again and again as, on Friday afternoons and Saturdays, the Jews meet to wall for the glories of the past.

"Because of the palace that lies desolate," a self appointed leader re-

Eight new trade commissioners who will help to weld the ties of Canadian commerce in the four corners of the earth. This official picture, taken at Ottawa, shows (left to right) top row: G. A. Newman (Liverpool); A. J. Ting-

ley (Glasgow); W. P. Bull (New York); R. A. MacDonald (Shanghai); M. Belanger (Paris); H. L. E. Priestman (Auckland). Front row: H. W. Brighton (Rio de Janeiro); C. H. Payne (director Commercial Intelli-

gence Service); F. C. T. O'Hara (department minister of trade and commerce); H. W. Cheney (secretary C. I. S.); B. C. Butler (Batavia, and Java.

The famous blades of Damascus, ductile that he can wind it several times around his arm. It is of carbon steel, as recently as 10 years ago, some of the processes of hardening steel were carried on in gloomy and secluded basements. The official-smith even wore a high silk hat, muttered arabicisms and made pass with which he can shave, and yet so

tempered, says legend, by being run through the body of a slave, hold no secrets for modern swordsmiths. Steel is produced now that is harder than Damascus' and possibly more ductile.

Dr. W. S. Carnes, a mythologist of Canton, Ohio, has produced a sword with which he can shave, and yet so

The wall rises sheer as a cliff, fashioned of huge stone blocks, and between the unplastered crevices springs small sprigs of growing plants. Lower stones bear Hebrew inscriptions. The barrier is believed to have been part of the substructure of the Jewish temple itself. The original temple was built by King Solomon on the summit of Mount Moriah, where it is said Abraham made his preparations for the sacrifice of Isaac, on a flat rock which later became the threshing floor of Ornan, the Jebusite.

## GAY PARIS SETTLES DOWN FOR WINTER

Paris, France, (By Canadian Press) — As the summer slips away and autumn approaches, Paris is losing its appearance of a great playground and its remaining in aspect as the capital of the French nation. Even the hotel concierges are beginning to speak their own language. Not all the foreigners depart, of course, but several hundred thousand of them go home within a few weeks when the green leaves alter their color. That makes a big difference to the eye and ear attuned to the changing scenes and sounds of les grands boulevards.

Those Frenchmen who provide food, shelter and fun for visitors are counting up the profits, and not all of them are elated. The weather was remarkably good, but the harvest of dollars, pounds, pesteras and reichmarks was not so plentiful as those of the three previous summers. Many explanations are offered. Part of the tourists took turned to other lands than France. Not so many Americans crossed the ocean, and those who did, thousands to whom Paris is an old story, merely stopped off here for a little shopping or train-changing en route to other countries.

The English were also fewer. Belgium attracted more than one gambling loving Briton by lifting the ban on roulette, which is not permitted in French casinos. The tourist trade has become such a great factor in French economy that the government is continually being urged to aid in its growth. Hotel men have been complaining that France doesn't blow her

Why not drink the finest tea that is grown?

# "SALADA" TEA

'Fresh from the gardens'

born loudly enough, especially in the United States. The campaign of those who live by tourist expenditures is partly responsible for the decision of the French government to build a great skyscraper in New York to be called the "Palais de France."

## CANADIAN PRODUCTS APPRECIATED ABROAD

Before leaving Great Britain to study conditions in which farm products are raised in Canada five students of the Institute of Certified Grocers were addressed by Major MacLean of the Empire Marketing Board. Major MacLean credited Canada with giving the lead in the direction of encouraging food distributors to acquire first hand knowledge of the products of the Dominion. "Canada," he said,

"had everything to gain and nothing to lose by the people of Great Britain being better informed of the excellent conditions in which Canadian foodstuffs are produced and sent abroad."

Referring to Canadian apples Major MacLean told the students that they will probably be amazed at the vast extent of the Canadian orchards and the army of people engaged in spraying the trees, gathering the fruit and packing and sending it to some other country in ships specially fitted with refrigerator space to insure the fruit being placed on the English breakfast table in excellent condition.

## No More Piles

Pile sufferers can only get quick, safe and lasting relief by removing the cause—bad blood circulation in the lower bowel. Cutting and salves can't do this—an internal remedy must be used. Dr. Leonard's Hem-Roid, a harmless tablet, succeeds because it relieves this blood congestion and strengthens the affected parts. Hem-Roid has a wonderful record for quick, safe and lasting relief to pile sufferers. It will do the same for you or money back. J. S. McKeown and druggists everywhere sell Hem-Roid with this guarantee.

## PRODUCE STEEL TO SHAME DAMASCUS

Cleveland, O., (By Canadian Press) — Mystery and secrecy that for centuries shed romance over the art of steel hardening in America has almost entirely disappeared, according to W. H. Eisenman, secretary of the American Society for Steel Treating.

Dr. G. Gushue-Taylor, Presbyterian missionary at the Mackay Memorial Hospital, Takikou, Formosa, at present on furlough in Toronto, hopes to raise a fund of \$100,000 in Canada and the United States for the establishment of a leper colony on the island of Formosa.

## SMALL FIRE COST THE LIFE OF CHIEF Young Boy Suffers Broken Back In Shannonville Canning Factory

### DEATH TOLL IN CABARET FIRE MOUNTS RAPIDLY

Detroit Civic Departments  
Involved In Night Club  
Tragedy

#### NO FIRE ESCAPE

Owner of Club Being Held  
Pending Further In-  
vestigations

Detroit, Mich., Sept. 21.—The death list in the fire which early Friday swept the Study Club, a popular Detroit cabaret, mounted to nineteen to-day with doubts expressed for the recovery of thirteen of 37 still injured remaining in the hospital.

One of the injured Roland Lowe, Detroit, died early today. Eight of the injured have been discharged, while the majority of the others are reported in a "temporarily serious condition."

#### Place Responsibility

Detroit, Mich., Sept. 21.—The investigation of the fire which early Friday morning swept the Study Club cabaret and a bright spot in Detroit night life, resulting in the death of eighteen persons and the injury to 49 others to-day broadened to include four city departments in its scope.

Detroit, Mich., Sept. 21.—While Henry Garvin, detective inspector, tentatively placed the blame for the tragedy on the cloak room girl, who is said to have opened the front door when the flames were first discovered on the first floor of the club, County prosecutor James Chenot announced that his office not only would seek to place the criminal responsibility for the fire but would hold to account as well, the authorities who permitted place to operate.

#### Police Implicated

The department which will be affected in view of the prosecutor department were the recreation department, which granted a license for dancing, the police department which granted the restaurant license the building department which approved the permit for remodeling the place when it was opened last year, and the fire commission which permitted the building to open after its investigation was supposed to have proved the place safe.

Prosecutor Chenot said that Martin Cohen, owner of the club, who is being held pending investigation, admitted a fire escape to replace an old one torn down. No date has been set for the inquest of the dead. In the meantime a man and woman remain unidentified.

#### ROTARIANS VISIT TORONTO

Toronto, September 21.—A party of 130 Rotarians, N.Y., Rotarians and their wives arrived in Toronto by boat today for a two-day "good-will" visit to the Queen City. The visitors will be the guests of local Rotarians while in the city.

### COMING EVENTS

80th Anniversary Redemptive United Church Fowl Supper, served from 5 to 8 p.m., Wednesday, Sept. 25th. Program by Radio 404 of Belleville. Admission: Adults 50c, children 35c.

Ladies Auxiliary Canadian Legion general meeting Monday, Sept. 23rd, at 8 o'clock.

On Tuesday evening, Oct. 8th, in Bridge Street Church, John Deacon, Tenor soloist, will give a Concert Recital under the auspices of the Ladies of the Church. This will be a real treat.

At the Johnstone School of Dancing Mr. and Mrs. Albert Johnstone will resume their classes for children commencing Saturday, Sept. 28th at 2:30 p.m. Private classes may be arranged. Phone 750-W or 1546.

**COLORBONE FAIR**  
Wednesday, Sept. 24th, 1929. Midway-Special attractions—Good racing—Entertainment in Opera House—Evening of 26th. "The Dead of Night"—Program for lat. P. M. Brintnell, Secretary—Colorbone.

Print your baby in the Baby Show being held in Christ Church Parish Hall, on Tuesday afternoon, Sept. 24th, at 3 o'clock and find out. Handsome prizes to be presented to the winners. Admission 25c. Afternoon tea served to all. Sale of home-canning.

Fear of Nationalization Gone

Left, Hon. Geo. Colville, secretary of Institute of Chartered Accountants of England and Wales, who declared, "Industry in Britain is no longer feared by Labor government—fear of nationalization is gone." Right, Wm. Cash, formerly president of the institute, who is accompanying Mr. Colville on their return from New York after attending International Congress on Accounting.

## MOST SUCCESSFUL FAIR EVER HELD IN TWEED FINISHED YESTERDAY

Friday's Attendance Nearly  
5,000—Trotting Races  
Were Good

Nearly five thousand people from Tweed and the north county attended the Annual Tweed Fair yesterday afternoon. An excellent programme of races and entertainment was presented by the directors, and the 1929 exhibition was the most successful ever to be held in that village.

The exhibits were of an exceptionally high quality this year and of a great variety. The livestock particularly attracted considerable interest. Three races were the drawing card yesterday afternoon. Good purses had been put up for the events and the free-for-all class and the twenty most especially were in good time, the former race having an added purse of \$175 and the latter \$150.

Belleville was well represented at the Fair. Gerald Vance a prominent poultry fancier, of this city, took practically all the prizes in the poultry class. He won 50 firsts, 15 seconds, and 4 thirds, a record not equaled by any other exhibitor. McLaughlin Motors Limited of this city had an interesting display of cars at the Fair yesterday. Under the supervision of C. J. Mikel, a Buick, a Marquette and a Pontiac were shown.

The success of the Tweed Fair was due in no small measure to the following officers and directors:—  
Honorary President—John Stokes.  
President—H. A. Macdonald.  
First Vice-President—T. S. McGee.  
Second Vice-President—E. Maynes.  
Secretary—C. R. Brown.  
Treasurer—J. W. Kingston.  
Directors—Dr. Cowley, Geo. Brown, E. Dunsmuir, M. P. W. Craig, J. McGowan, M. Coulter, C. Bush, D. Fleming, W. H. Sayers, J. W. Kingston, John Quinn, D. H. Morrison, T. C. Graham, Geo. Stokes, S. B. Rollins, W. McCaw, P. Blairly.  
Lady Directors—Miss M. Johnston.

## SICK AND AGED ARE CHEERED BY FLORAL BOWERS SENT BY KIDDIES

Transformed into a bower of beauty, the lobby of the Regent Theatre presented a wonderful spectacle this morning when upwards of three hundred bouquets of flowers of every description took up every available inch of space. On the poor flower garden, how they must have suffered! If tomorrow or this afternoon you miss your favourite bloom you will know what has become of it and not be too hard on the young delinquents as the flowers will do much good and perhaps scatter a little sunshine into some sad life. Mr. George Foran, was busily engaged in transporting the huge cargo into a truck when the Intelligence representative visited him this morning and the flowers were quickly removed to the Belleville General Hospital and the Home for the Aged, where they will be distributed to the various patients.

Cash, formerly president of the institute, who is accompanying Mr. Colville on their return from New York after attending International Congress on Accounting.

The understanding is that the British Government was sounded out by the nations involved, and has found no objection to the original suggestion that London should be the scene of the conference.

Mr. Claudel, the ambassador of France, had a conversation with Secretary Stimson today in regard to the disarmament movement. It was only one of a series of similar conversations concerning various phases of the movement that have taken place between the Secretary of State and the French ambassador since informal diplomatic exchanges on the subject were initiated in London last June between Prime Minister MacDonald, the British Prime Minister and General Charles G. Dawes, the American ambassador.

## FALL PRODUCTS IN ABUNDANCE

Good Weather Sees City  
Market a Line of  
Activity

A variety of vegetables, poultry and butter was offered to patrons at the market this morning. Good weather brought out thrifty housewives and the vendors found it an easy matter to dispose of their attractive merchandise. Tomatoes are at their height and some good specimens were offered at a dollar the bushel. Cucumbers were plentiful and in great demand for pickling. They retailed at thirty cents the half bushel and 20c per dozen. Corn was the same as last week and sold for 20 cents the dozen. Eggs commanded 40 cents per dozen and apples were plentiful. St. Lawrence's brought \$1.00 per bushel and a few snows were offered at the same price. Butter was retailed at 40 cents the pound, potatoes 50 cents the peck. Melons were plentiful, both muskmelons and watermelons. Prices for the former were five, ten and fifteen cents, while the latter were offered from ten cents to fifty cents.

Miss A. Rayburn, Mrs. J. W. Kingston, Mrs. John Quinn, Mrs. Geo. Brown, Mrs. T. S. McGee, Mrs. J. L. Newton, Mrs. A. Blakely.  
Auditors—T. C. Graham, A. Yule.  
Please Turn To Page 7

## SICK AND AGED ARE CHEERED BY FLORAL BOWERS SENT BY KIDDIES

ers was this morning given free admission to the Regent Theatre, and what's more each received a large bag of candy kindly donated by Mr. Williams, general manager of the new Metropolitan Store. The picture which inspired enthusiasm judging from the sounds to be heard from the outside, was Ken Maynard in the Glorious Trail. Added to this a splendid edition of "Our Gang Comedy" added to the delight of the packed audience.

Among the beautiful bouquets donated was an especially attractive bouquet of delicate pink and red roses, arranged artistically and tied with a huge bow of pink tulle. This won first prize, and was donated by Miss Dorothy George of 177 Church Street. Other attractive bouquets were made up of Gladioli, roses in many varieties, Astern, Dahlias and all kinds of late Autumn blooms.

## CONFERENCE ON ARMS WILL BE HELD IN LONDON

Meeting Place Appears To  
Have Been Definitely  
Fixed

#### NO OBJECTIONS

Reports That Powers Wanted  
Other Location Without  
Further Foundation

Washington, September 21.—It now appears to have been definitely determined that the formal disarmament conference which the British Government is to call for some time in January will take place in London. Reports that the French Government desired it to be held in some country other than that of any of the participating powers had no foundation, as far as any representations on the subject by France are concerned. The understanding is that the British Government was sounded out by the nations involved, and has found no objection to the original suggestion that London should be the scene of the conference.

Mr. Claudel, the ambassador of France, had a conversation with Secretary Stimson today in regard to the disarmament movement. It was only one of a series of similar conversations concerning various phases of the movement that have taken place between the Secretary of State and the French ambassador since informal diplomatic exchanges on the subject were initiated in London last June between Prime Minister MacDonald, the British Prime Minister and General Charles G. Dawes, the American ambassador.

Reports that might be construed as indicating that President Hoover already has begun consideration of selecting those who will represent the United States at the disarmament conferences, President Hoover is entirely speculative. While it is true for granted that, in accordance with precedent, Secretary Stimson will head the American delegation to Belgium, will be included in the personnel of the delegation on account of his long association with disarmament conferences, President Hoover has not reached the point where he is prepared to give the matter any attention.

## KIWANIS CLOSE SHOW TONIGHT

Popular Girl Contest And  
Dance Excite Much  
Interest

The 1929 Kiwanis Carnival will come to a conclusion tonight with some feature attractions that should pack the Armories for the final show. This modelling Contest is attracting a lot of attention and the audience will be the final judges as to who wears it best. The coat is a new fall garment and would sell in the neighborhood of \$40. It ought to be a great contest and who ever secures the most applause will receive the coat free of any charge.

There will be no Fashion Show tonight, but the exhibits and the midway will be featured as usual. Following the programme, dancing will be indulged in upstairs until midnight, after which the Carnival will be closed for another year.

Excitement is quite keen as to who is going to win the popular girl contest. This contest will close at 8:15 sharp and at that time all votes must be in. They will then be tabulated and counted and the winner will be announced. Joe Imish, chairman of the Kiwanis Club, and Mr. Geo. Griffin, Secretary of the Kiwanis Club, will be the winners. When the winner is announced from the platform, he will be declared the most popular girl in Belleville and crowned Queen of the 1929 Carnival. She will receive a \$10.00 Gold piece.

The vaudeville and Johnstone's Dancing Sextet will also be on the stage. Johnny Lloyd of the new Bon Ton orchestra will render solo Banjo selections tonight.

It should be a great finish to a great week of fun, frolic and entertainment.

W. J. Brown

Late Chief of the Belleville Fire Department who died in the Hospital at 10:20 last night from injuries received while assisting to fight a fire at the Springer Lock Works. The Chief, aged 72, spent his entire life here and his death was a distinct shock to his friends.

## ELECTION BOARD IS APPOINTED

Body Will Revise Voters'  
Lists And Hear All  
Pleas

The Election Board of the City of Belleville and the County of Hastings has been appointed. The Intelligence was informed this morning by Magistrate Mikel. The Board is composed of Judge Wills, Judge Deroche, Magistrate Mikel, B. C. Donnan and John Kerr, Hastings County Court Clerk. This Board will revise the voters' list for the County and the City and hear the pleas of those desiring to be placed on the list.

## JACK DEACON TO RENDER CONCERT

Jack Deacon, a Belleville boy who has gained a splendid reputation in Canada as well as in the United States as a tenor soloist, will give a concert in Bridge Street Church here on October 8th, the Intelligence was informed today. Mr. Deacon was a member of "Roxby's Gang," New York and was heard at frequent intervals over the radio last winter. During the summer months he has been engaged in concert work at Banff and other Western Canada summer resorts. Mr. Deacon's many friends in Belleville will welcome him here for his first concert since his metropolitan debut.

#### PLANE OFF TO ALUTIAN IS

Seattle, Sept. 21.—The naval radio station at Bremerton, Washington, received a message last night stating the Russian plane, "Land of Soviets" on its world circling flight, was off Attu the most western island of Aleutian group, Alaska.

#### THE WEATHER

Fair and cooler.

## SUSPEND TERM ON AUTO DRIVER

Charged with wanton and furious driving and causing actual bodily harm, L. F. Mullen, this morning was found guilty and given six months suspended sentence by Magistrate W. C. Mikel in police court. The costs which Mullen must pay amount to \$60.00. It will be remembered some weeks ago that Mullen crashed into another car, owned and driven by Percy McTaggart. The accident occurred on the Macdon Road.

William Moberly faced the charge in police court, this morning of failing to return to the scene of an accident. He was fined an adjournment of one week and was allowed to go on bail.

## FIRE CHIEF BROWN, VETERAN HERO OF MANY FIRES, KILLED IN MINOR BLAZE AT SPRINGER LOCK PLANT

Thrown By Swerving Hose  
To Cement Floor Thirty  
Feet Below

#### AGED 72 YEARS

Died Two Hours After Accident—George Smith Had  
Narrow Escape

Falling thirty feet to a cement floor at the Springer Lock Company plant, while fighting a fire last evening, Chief Brown, of the Belleville Fire Department, sustained injuries from which he died about two hours later at the Belleville Hospital. Fireman George Smith, who was standing by the chief at the moment of the accident narrowly escaped a similar fate, but managed to climb to safety by clinging to the hose.

The fire was a comparatively minor affair, the total damage being only a few hundred dollars. The alarm was sounded at seven thirty o'clock, a stubborn smouldering flame having been discovered between the ceiling of the moulding room and the room of the building proper. The reels were quickly on the scene, located the trouble and under the Chief's direction, the fire-fighters mounted to the roof and chopped a hole in order to get at the flames.

**Fireman's Narrow Escape**  
The ceiling of the moulding room is of only thin beaverboard so planks were laid across the joint to enable the firemen to approach close to the blaze. Chief Brown and George Smith took a line of hose down through the cavity and were playing the water directly on the fire, when, apparently the heavy pressure of the water caused the nozzle to swerve sharply to one side. Both men were thrown from the supporting plank and the Chief crashed through the thin roofing to the floor below. Smith managed to grab the hose and drag himself back to safety.

When picked up by William Lynch and William Mattis, members of the department, the Chief was conscious, but suffering from severe pains in his back and internally. He was rushed to the Hospital in the ambulance and in a time of hours were entertained by the three physicians, Drs. McCreary, Robertson and Stobie were in constant attendance, but in spite of all that could be done, Chief Brown died at about ten-twenty.

A post-mortem examination revealed that he had suffered a fractured kidney which was the direct cause of death. There were also other serious internal injuries.

**Able Fire Fighter**  
Expressions of sympathy were offered from every quarter when the news of Chief Brown's passing was announced. Regarded as an able and efficient fire-fighter, he was one of the city's faithful servants. He was always prepared when duty called and never sent one of "his boys" where he would not go himself. Chief Brown has been associated with the department for forty years, having originally affiliated himself with the branch in the days of the old volunteer department. He was at one time engaged as a turner in the Tickell Furniture Factory here and was a valued employee. On the organization of the city department he became a "regular."

His ability and integrity won him early recognition and he was appointed captain of No. 1 Company and assistant to the late Chief Campbell.

On the night of March 1915, he was appointed to the position of Chief.

which part he has occupied with distinction to himself. Belleville's losses have been reduced to the minimum through Chief Brown's efficiency and his ready ability to cope with any serious situation.

During his regime as Chief, he has been called upon to handle some difficult situations, the worst of which was the conflagration at the Graham plant in 1917. In almost frigid weather Chief Brown remained with his men a whole day and part of one night in fighting one of the most stubborn fires in the history of the city. The fires at the Regent Theatre, Massey Hall at Albert College, and St. Michael's Academy have all occurred within the last twelve years and in each instance Chief Brown discharged his duties well and courageously. Seventy-two years of age, he was one of the oldest active fire chiefs in Ontario. The city has lost a kind and friendly disposition, he was a never-failing source of inspiration to the men who served under him, all of whom respected and admired him. A sterling tribute was paid the late chief by his fire lieutenant, William Lynch this morning, when he said: "The boys have lost one of their best fighters. The Chief was always ready to help and he always maintained the greatest respect for him."

The fire men were hung in crops this morning a fitting tribute to the memory of the departed Chief.

Chief Brown was a member of the Firemen's Association of the Dominion. He was a member of the Masonic Order and Eureka Lodge, A. F. & A. M. which supplies the funeral service. He was a member of St. Andrew's Presbyterian Church. His wife, residing on Octavia Street, and one sister, Mrs. George E. Madden, survive. His only son, Harry, who was a prominent hockey player in this city, died some years ago. Harry was a member of the championship team of 1903 and 1904 which brought honour to Belleville in their quest of the hockey laurels.

Chief Brown had many interesting anecdotes of early fire-fighting days in Belleville and he took a keen interest in relating these to his old friends whenever they chanced to gather in the fire hall. He witnessed a great transformation in the method of fighting fires and Belleville's equipment was distinctly limited when he first joined as a volunteer. The funeral will take place to Belleville Cemetery on Monday afternoon. Coroner Dr. Boyce has decided that an inquest is necessary and the hearing will be opened in Tickell's Undertaking parlours at three o'clock this afternoon.

## LAD CRITICALLY HURT IN FALL

Andrew Maracle Suffered  
Concussion At Shannonville  
Canning Factory

Andrew Maracle, fourteen year old son of Mr. and Mrs. Joseph Maracle, Shannonville, is lying in the Belleville General Hospital in a critical condition today as result of a peculiar accident at the Shannonville Canning Factory late yesterday afternoon. He sustained a fractured skull and severe concussion and a possible fracture of the skull.

Young Maracle who is employed at the Canning Factory was working on a scaffold when in some manner fell to the floor a distance of twelve or fifteen feet. He was picked up in an unconscious condition and rushed to the hospital where it was stated that his chances of recovery are doubtful.

### TODAY'S THOUGHT

In all the difficult callings, those  
in which sheer luck and low cunning  
are of least importance, and  
knowledge, power and experience  
of the greatest, man is far out of  
school at 60.  
—George Luks, (Red Book Maga-  
zine).

### THOSE HEADLIGHTS

The Hon. George S. Henry, Minister  
of Highways, might look to California  
for a solution of the difficulty made  
by glaring headlights on motor cars.  
In the Golden State every operator is  
supposed to have a card showing that  
his lights have been inspected at an  
approved service station. The inspec-  
tor is responsible for the proper focus  
of the bulbs and the installing of  
lights of not more than the legalized  
brilliance. If a car is equipped with a  
spot-lamp, it is clamped down in such  
fashion that the rays of light cannot  
be projected above a specified angle.  
In this way all cars are provided with  
equal lights. Hence, there is no possi-  
bility of one driver being blinded by  
meeting a car with stronger lights  
than those which he is using. In  
California lights are not dimmed.  
They do not have to be. And every-  
one has the benefit of ample lighting  
projection along the road in front and  
to the sides.

As Mr. Henry says, too many acci-  
dents are directly traceable to improp-  
er headlights. The alteration of the  
focus is another trouble with which  
to contend. The Minister is tackling  
an important job when he seeks to  
standardize the headlights of cars in  
all of Canada and United States.  
There is so much motor touring these  
days, that a law would have to be  
general if it is to work out effectively.  
The Minister raises a point that is  
often wondered by many when he asks  
why the motor companies cannot seem  
to find a remedy for the headlight  
menace. Mr. Henry has done a great  
deal of work towards making the high  
ways safe for travel. If he can solve  
this trouble about glaring headlights,  
he will have earned the praise of all  
motorists.—Border Cities Star.

### RECOGNIZING A PIONEER CONCERN

It is eminently fitting that the first  
shipment of wheat, albeit one of very  
small dimensions, which is to move  
through the new port of Churchill,  
the terminus of the Hudson's Bay  
Railway, should be taken out by the  
trading company of the same name  
and moved to the British market on  
one of its ships.

The shipment will be actually of  
only one ton, but it will be the first  
of the kind to leave Churchill since its  
designation as a railway terminal and  
the distinction of forwarding it has  
been entrusted to the Hudson's Bay  
Company in recognition of its extended  
and intimate contact with the re-  
gion and of the part which it has  
played in the development of Western  
and Northern Canada and their re-  
sources.

It is now a matter of almost 200  
years since Charles II. gave to his ne-  
phew, Prince Rupert, and seventeen  
other noblemen and gentlemen "the  
sole trade and commerce of all those  
seas, straits, bays, rivers, lakes, creeks  
and sound, in whatsoever latitude they  
shall be, that lie within the entrance  
of the strait commonly called Hudson  
Strait, together with all the land,  
countries and territories upon the coast  
and confines of the seas, bays,  
... aforesaid." The Prince and his as-  
sociates were called the Governor and  
Company of Adventurers of England

Trading into Hudson Bay, and this  
was the genesis of the Hudson's Bay  
Company, as it has since been popu-  
larly styled, which continues to this  
day to carry on business, with marked  
limitation of its powers, over the terri-  
tory indicated in its charter.

The Hudson's Bay Company was the  
first important organization to enter  
what is now Western and Northwest-  
ern Canada in the pursuit of trade,  
and for 200 years it continued to ex-  
ercise a dominant influence within  
that territory. It was not, indeed,  
until after the attainment of Confed-  
eration that it agreed, after prolonged  
negotiations and, upon payment of  
compensation, to surrender a large  
part of its lands in the West, and it  
still retains a large acreage which is  
being gradually disposed of. As a  
trading corporation, the company  
is still an important factor in the fur  
trade of the world, but for some time  
the bulk of its profits have been de-  
rived from the general trading into  
which it has entered in the more im-  
portant centres of the West.

What makes the selection of this  
company as the first to export grain  
through the port of Churchill the  
more appropriate is the fact that, in  
the days when its operations were very  
largely confined to fur-trading, it  
made use of the route since paralleled  
by the steel of the Hudson's Bay Rail-  
way to freight its goods into the Red  
River Settlement and the remainder  
of the prairie section and to carry  
the peltries received in exchange to  
the markets of the world. For this  
reason it maintained an important  
post at Churchill and other posts  
along the route, and it was thus the  
pioneer of the rich trade which, it is  
confidently expected, will flow through  
this newest of Canadian ports within  
a few years' time.

However greatly the business, done  
in the West and Northwest may de-  
velop, whatever the changes which will  
take place as the map is rolled north-  
ward and as enterprise and transpor-  
tation extend to parts which are now  
considered unpromising and isolated,  
the name of the Hudson's Bay Com-  
pany will be forever associated with  
the development of the vast region  
which lies to the west and the north-  
west of the Great Lakes. The Minister  
of Railways and Canals, the Hon. Mr.  
Dunning, has paid to its efforts a very  
real tribute in authorizing it to act  
as first commercial concern making  
use of the additional facilities which  
are being established at Churchill,  
once an outpost of the fur trade, for  
the handling of Canada's great grain  
surplus.—Brockville Recorder and  
Times.

### OTHER MEN'S THOUGHTS

The prize riddle today is how can a  
chicken cross the road.—Life.

No, dear Inquirer, the "make-up"  
man on a newspaper doesn't use  
rouge.—Chatham News.

Before a man can wake up and find  
himself famous he has to wake up  
and find himself.—Life.

The next problem will be what to do  
with the time we save every year  
through faster ships and planes.—Ex-  
change.

### PASSING YEARS From The Intelligencer Of This Day 30 Years Ago

Mr. D. E. K. Stewart, barrister, of  
Maddox, was in town today.

N. J. Dingham, Esq., District In-  
spector of Inland Revenue, is in the  
city.

Mrs. James Hodge has gone to visit  
her daughter in Rochester, N.Y.

Mrs. John Grant of Tweed, is visit-  
ing her sister, Miss Lucy Auld, Alex-  
ander St.

Ex-Alderman James A. Chisholm  
leaves tomorrow for Iowa to visit his  
son, Dr. R. Chisholm.

Mrs. (Rev.) M. E. Wilson is in the  
city visiting her sister, Mrs. Doxsee.

Mrs. T. Donnelly has gone to Roch-  
ester and Buffalo to visit his sons who  
are located in those cities.

Mrs. K. Langman and daughter  
Lillian, who have been visiting friends  
in Rochester, N.Y., have returned  
home.

### HAVE YOU HEARD THESE?

"You seem to hang around the  
courts a good deal since they began  
calling women for jury duty."  
"I like to hear women making ex-  
cuses."

"I see old man Bangs is taking up  
sail."

"Well, well, now isn't that too bad;  
and he used to be just as honest and  
straight as any man could be."

"I've been thinking, my son, of re-  
tiring next year and leaving my busi-  
ness to you."

"There's no hurry, is there dad?  
You go ahead and work a few more  
years and then we can retire to-  
gether."

Willie: "May I go and play with  
Tommy Wilks?"  
Mother: "Tommy Wilks has gone to  
the seaside with his father. Why not  
go and play with Jackie Smith?"

Willie: "I played with him yester-  
day and I don't expect we'll see him  
again."

Little David stood regarding his  
father intently as the latter read the  
evening paper.

"Father," he asked at last, "why  
have you so many gray hairs?"

"Because of you," answered the  
father irritably, "you cause me so  
much trouble and anxiety. You are  
lazy and careless."

"Oh, I see," answered David, "now  
I can understand why grandpa's hair  
is so white."

Building permits for the month of  
August in St. Catharines totalled  
\$123,250, bringing the total for the year

## THAT BODY OF YOURS

By James W. Bar-on, M.D.

GALL BLADDER PAIN IN DIFFER-  
ENT REGIONS

I spoke recently about one of the old  
medical writers calling the liver the  
"king of organs," owing to its impor-  
tance to the health of all the other  
organs and tissues of the body.

You are hearing so much about that  
little sac behind the liver—the gall  
bladder—which stores the bile,  
that someone is going to call it the  
"prince of organs."

When it begins to give trouble, due  
to formation of gall stones or inflam-  
mation of its lining, severe attacks of  
pain is the outstanding symptom.

### THE MANAGER RUNS AWAY

"Could you give me a job," said a sad  
faced man.

"Where never a face I'll see?  
For moderate pay I would like to stay  
Where nobody comes to me.

If you'll keep me shut, in a cell or a  
hut  
A happier man I'll be."

"It's a strange request that you  
make," said I.

"Are you asking it now in sport?  
Are you joking with me?" "Ah, no,"  
said he.

"I do nothing of the sort.  
From the world I'd hide, for last year  
I tried  
To manage a summer resort."

"From dawn to dusk, like a hunted  
thing.  
I was followed through the town.

"Instead of the red you are using, Ted,  
"Will you paint our woodbox brown?"  
Jay in and out, I heard them shout:  
"Will you take our shutters down?"

"I heard no sound but the human cry:  
"Will you fix our roof today?  
The drains don't drain, and a window  
pane  
Needs mending right away.

Our faucets leak, and our front doors  
squeak!  
Was my trunk put on the dray?"

"No peace had I by day or night,  
At meal time still they came,  
"The wood won't burn, and the knobs  
won't turn."

Now sick of the public game  
I would twiddle my thumbs where no-  
body comes  
And nobody knows my name."

As students we're taught that this  
pain was in the upper right part of  
the abdomen, and went over into the  
right shoulder.

Rescued men now tell us that in  
questioning patients they find that the  
pain while in this region in the ma-  
jority of cases, may be right in the  
centre of the upper part of the ab-  
domen, where you always think the  
stomach is situated. A number of  
cases reported the pain as lower down  
on the right side, in the region of the  
appendix.

Now it has been found that a great  
number of individuals have gall stones  
and have no symptoms. Nature seems  
able to do her work even with this  
bag. However, when some pain occurs  
in regions mentioned above, and this  
pain is severe, and sharp, it is well to  
keep the thought of gall stones or an  
inflamed bladder in mind.

In former days the physicians and  
surgeons had to go by symptoms only,  
but the use of the dye test now gives  
an accurate picture of the condition  
of the gall bladder in 95 to 98 per  
cent of the cases.

What is my thought?  
It has been found that whether you  
are young or old your chances or a  
successful operation in every way, de-  
pends on how long the condition has  
existed. The shorter the time you've  
had the trouble the better the result  
is likely to be.

If then you have sharp attacks of  
pain that you think of as severe "in-  
digestion," have considerable gas forma-  
tion, it would be wise to consult your  
doctor as to the possibility of some  
all bladder disturbance.

In the meantime, eating less fat  
and cutting down on fats and oil  
could be good sense on your part.

Elmira Signet has been sold to  
George Reeves of Sault Ste. Marie.

First case of infantile paralysis was  
discovered in St. Mary's.

# If everyone knew what OAKLAND owners know

even Oakland's  
own popularity  
records would be  
eclipsed!

THE enthusiasm of the Oakland  
owner grows with every mile he  
drives his car . . . with every month  
he owns it.

He learns what Oakland's 228 cu.  
inch six-cylinder engine means—  
surplus power on hills, in breath-  
taking speed, in spirited acceleration  
... how the G.M.R. cylinder head  
gives high-compression performance,  
even with ordinary gasoline . . . how  
the exclusive "rubber biscuit" engine  
mountings insulate the engine from  
the frame . . . how the harmonic  
balancer neutralizes torsional vibra-

tion . . . how Oakland's big, in-  
ternal-expanding four-wheel brakes  
provide absolute safety. And he learns  
the luxury, the ease and the staunch  
durability of Body by Fisher.

If everyone knew what Oakland  
owners know . . . of Oakland per-  
formance and Oakland comfort and  
Oakland dependability . . . everyone  
Oakland owners do,  
that there is no other car in Oak-  
land's price class that offers so much  
in quality or in value. Before you  
decide on a car . . . come in and find  
out the reasons for Oakland's un-  
deniable superiority.

### COMPARE THE PRICES

Two-Door Sedan . . . \$1,490  
Four-Door Sedan . . . 1,615  
Conv. Cabriolet 1,610  
Conv. Landau Sedan . . . \$1,785  
Four-Door Sedan . . . 1,490  
Sport Roadster 1,490  
Sport Roadster 1,490

All prices at factory, Oakland—Government taxes, license and transportation extra. The G.M.R. 228 cu. inch six-cylinder engine, harmonic balancer and bumper offer many advantages to buyers of Oakland cars.

## Just For The Feminine Reader

### BUCKLES ARE CHIC

#### ON HATS AND DRESSES

Buckles and brooches for use on dresses, hats, belts and bags are being brought out in shapes, sizes and metals to blend with the new autumn styles and color schemes. To wear with a brown ensemble suit that has a tuck-in blouse and one of the smart skirts, there is a wide suede belt finished with a huge buckle in bright yellow gold. It is almost square in shape and has a single prong going off at an angle. If one is to carry a brown handbag of other and smaller buckle to match either suede or calfskin, there is an which may be used as an ornament in one corner, or on the tab.

Large spiral effects furnish the design for the new evening gowns. They have a somewhat sprawling appearance which is attributed to the popularity of the bouffant bows and hip trimming. When so much silk is shirred together such a buckle is required to set off its fullness. These buckles come in a variety of colors and color combinations. Shapely buckles made to conform with the new low-cut backs are seen in white metal, black enamel and solid crystal effects. Most of them are large enough to be noticed, and often constitute the only item of trimming on the entire dress.

Buckles for the sweater and tweed suits come in tailored and sports treatments. Animals and birds and scenes from the various of sports are used in one form or another. White metal, bright yellow gold, silver and enamel are used.

### NOTE PAPER OF INDIVIDUAL CHARM

If you want your note paper monogrammed now in your school colors—or in the colors you have chosen for the hangings and furniture of your room—there is a new process of die-stamping on the market which makes this possible. The effect is very smart and distinctive, and is one of the season's novelties you girls like to know about.

Another interesting feature of this stamping is that the monogram on each sheet of note paper is different. The design of the lettering, of course, remains unchanged, and the same colors are used in the stamping, but the colors themselves vary in position on the letters, so that you can feel every note you write is just as different as the message it contains. Which is rather a nice thought, in an age when the older generation is given to complaining that we're becoming terrible standardized in all that we say, wear and do.

### WHAT'S NEW

(From A Woman's Standpoint)

Black is again to lead in smart wardrobes.

Side fullness is much emphasized in fall hats.

Many London hostesses are favoring turquoise blue ceilings.

Footwear is of greatest importance and colored shoes will be smart.

The tendency toward bolero effects in afternoon dresses is very marked this fall.

Twelve women are entered in the Women's Air Derby starting from Santa Monica and ending in Cleveland.

Skirt fullness at the bottom is now all ways present, but so cleverly handled and arranged that the slim silhouette is never lost.

Five women members of the Chicago Civic Opera Company are American-born. Miss Hattie Siles being the latest one signed.

At the recent wedding in London of the Hon. Marjory Maxwell and Major Lancelot Gibbs, the bride wore a medieval gown of parchment tinted and gold satin with a deep train of cream satin lined with gold and edged with pearls.

Golf and tennis frocks of yellow "Britanny" crepe are smart combined with basque brown.

Wear the same neckline from morning till night—then patches of white skin need never show, says a suntan expert.

Paris reports black satin in one-piece dresses and two-piece suits is having an enormous vogue, and the white satin bodice with black satin skirt is also pronounced.

Paris notes that light and dark greens are the favorite colors in prints and plain fabrics, while rose beige is most apparent in lace dresses and afternoon frocks of chiffon.

### SOME HELPFUL HINTS FOR BUSY HOUSEWIVES

Spinach is best when cooked soon after picking it. It should be kept in a cool, damp place. Use only the young, fresh leaves.

The curly-leaved variety is known as Savoy spinach then there are the prickly leaved or New England and the broad leaved, also known as French spinach.

Spinach is usually boiled and served with butter and seasoning and it is delicious if drained, then chopped fine and creamed. It is especially good with ham, bacon and tongue and form ed into a loaf it can be covered with slices of hard boiled egg; served on toast with a poached egg on top makes a tasty luncheon dish, and it is good served as a salad.

Hon. Herbert Greenfield, now agent general for Alberta to Great Britain, returning from trip up the Peace River says there is much a more contented spirit in the new district.

Karnival Visitors—drop over to Wong's Cafe after the Big Show and have a dance—a first class floor and the best of music by the Harmony Kings Orchestra awaits you.

## Miss Hard--Boiled" BY JANE DIXON

"I know. That's why another little wedding won't do us any harm. Put on your wedding gown. Mrs. Parker, and get ready to be double tied. We'll stop on the way and get the lilies. I want you to look exactly as you did that morning when the skipper kissed the bride."

"New York. Shining towers reaching to touch the golden glory of the sun."

Yesterday, at night, those towers were dark shadows reaching for the moon. Not yesterday. Two years of yesterday.

The hum of the city came to her like a muted melody. This was home. Homeland.

Raquel wondered if, on their way up town from that dim altar where, for the second time, she pledged herself to Jerry they would pass Chez Alphonse.

No. They were travelling another route. Jerry took care that they should. Nothing of her past was to intrude itself upon this perfect hour of their honeymoon.

Would there be a cable from Alphonse? Recriminations? Bitterness? No. That could not be. Alphonse had no way of knowing where they would be.

Her heart was heavy for the chalky little Frenchman.

A note, sent by cable from the ship the afternoon of the day she had written her new name into the ship's log. That was all she had left of herself to Alphonse.

She had wanted Jerry to look at the note before she sent it to the radio room. He would not.

"It is for your eyes, dear," he told her. "Your eyes and his."

So she spent an agonizing hour culling words that would convey, in the small measure of which words are capable, her misery of regret, of pain, that it must be as it was.

In the end, she found only a few of her jumbled phrases, her pattern of transmitted thought, would do.

"I was married today at sea and am going home. Why, I cannot explain without hurting you more than I have already done. You will remain in my heart always. If you should find it possible to see me again, to resume our precious friendship, I shall be happy beyond what you can ever know."

"Raquel Rojas Parker."

She knew Jerry was waiting for her on deck, restless and unhappy. What grinning devil of suspicion must be jabbing at him with their poisoned fangs!

The lavish fetes that had made her the Queen of Beauty in the Capital of Beauty. The constant presence of Alphonse by her side, guarding her, exhibiting her as if she were some rare jewel in a shop window. The house in Neuilly.

She knew they were but part of the harvest of her ruthless ambition that took much and gave nothing. But Jerry—did he know?

What had been, had been. She rang a bell and dispatched the message.

### CHAPTER 4

Raquel Rojas Parker hurried into a rickety day coach of the rickety train and selected a seat toward the rear of the car.

Ahead of her, a half dozen cattle-men in broad hats and bright-colored cotton blouses disposed themselves awkwardly on the worn red plush cushions. Two or three urban gentlemen, as one knew by the city cut of the clothes, had parked bulky cases and bags on racks and along the aisle—travelling salesmen, out to dispose of their wares.

One of the cattle-men, Raquel noticed, wore a blouse of a deep watermelon pink and a gay green silk neckerchief from which he had forgotten to remove the price tag. He eyed her covertly, and then took the seat almost opposite, a little to the fore. He would try out the devastating effect of his new "riggings."

Raquel turned to the window to conceal the smile she did not want him to see.

The train gave a lurch, creaked in all its joints. Then, with a great screeching of its aged steam-whistle, it got under way.

The train drew out of Phoenix, Arizona.

Raquel Rojas Parker was going home—back to Hermosa and the desert, with little thrills of mingled anticipation and apprehension trickling along her spine.

Lucy, her mother, had wanted her to come. How much only one who knew Lucy and read the pathos between the lines of her brief response to Raquel's first letter home, could guess.

Jerry thought that she should go. He would go with her.

Raquel found difficulty in persuading him it would be better for her to go alone, this first time.

She had no way of knowing conditions in the "dobe shack. They might be even worse than when she fled from them.

"I don't see how I am going to get on without you all that time," Jerry argued.

"You did well enough for the years before you had me," Raquel teased, perching on the arm of Jerry's chair, where she could not see that look of the hurt boy in his gray eyes.

He pulled her down upon his knees and held her hungrily. "The hunger for her seemed never to be appeased."

"I'll run every step of the way," she promised. "I think—it is best—I go alone."

He knew she was thinking of the "dobe shack. She did not want him to see it—not yet to face with her what might have happened there. Reluctantly he consented.

At the last moment she almost gave it up. Jerry was not feeling so well. Faint purplish rings traced a warning under the gray of his eyes. He was restless throughout the night slept fitfully. Often, when he tossed in a semi-consciousness of sleep, she would go to him, place her cool hand on his brow. It was hot—and damp.

She had persuaded him to consult a physician. He agreed because she was so insistent in the matter. The physician recommended a specialist. So it was arranged she should go alone, and report to Jerry immediately what had happened during her absence. She was to spare no expense to right things, as much as they could be righted.

"Don't be hard on your father, dear"

## SINCLAIRS

overcook the clams and prevent their having tender, delicate texture.

### Oyster Cutlets

25 oysters  
1 cupful of oyster liquor  
1 cupful of cream  
1-2 cupful of butter  
1-4 teaspoonful of nutmeg  
3-4 teaspoonful of salt  
A few grains of cayenne  
1 tablespoonful of minced parsley  
1 egg.

Tender creamy oysters with a spicy flavor offer a new combination. Summer the fresh oysters in the liquor only until the edges start to curl, then drain and chop very fine. Use the liquor with the cream in a white sauce, adding to the butter and flour cooked to a froth then stir in the seasonings and parsley and pour over the beaten egg mixed with the oysters. Chill until cold and thick, and just before using dip out by the tablespoonful, crumb and egg, and fry in deep fat at 380 F. until well browned.

She closed her eyes. When she opened them again—yes, what she saw was no ghost. That red-faced fellow with the faded blue-cap—the conductor who had let her ride to Phoenix on a night of high adventure more than two years ago.

She coughed down in her seat, and kept her face to the window until the conductor stopped at her seat. Then she turned and gave him the full gaze of her black eyes with the merry lips dancing in them.

"Jumpin' Jehoshaphat!" he gasped, pushing the cap back from his grumpy brow and scratching the back of his puzzled head with a blunt thumb and forefinger.

She broke into a laugh. "Then you remember me," she said. "Remember you?" he burst out. "Lady, I'd know you if it was a thousand years from now. Though you don't look the same."

His eyes took appraisal of the elegance of her traveling togs, of the great ruby that smoldered on the third finger of her left hand above a narrow platinum band set with rubies.

"I don't blame you," she laughed. "I've changed." She thought and so have you. His face was dry, seamed, in the daylight. His faded blue eyes were red where the tiny blood-vessels had burst. Dust. Heat. The desert.

"Well, well," he chuckled. "Glad to have you ridin' with me again."

"That's nice of you," she said. "That other was the most exciting ride I have ever had."

Her mind went back to other days. Ships at sea. A black car with onyx and silver. When she first came to New York and the driver took her into the Park. The Deauville road. No, she had not exaggerated. The night on this train that carried her away to ward the unknown—that ride surpassed all others.

(To Be Continued)

### THE WAY TO A MAN'S HEART

Clam Bisque  
1 dozen Hard Clams  
1 tablespoonful of Butter  
1 tablespoonful of flour  
1 quart of milk.

Clam Bisque, an appetizing rich, nutritious soup, is made with fresh clams. To open the thoroughly scrubbed shells, put the clams in a hot oven in a dripping pan, to catch the pint of juice that will drain out. Then remove the flesh, chop into pieces and add to the boiling liquor after it has been strained. Simmer fifteen minutes before adding to a white sauce, made of the butter, flour and milk. The only precaution is that you do not

INTERESTING  
QUOTATIONS

DISPUTE  
Dispute is like a man.  
SHAKESPEARE.  
(in "Macbeth")

There can be no disputing about  
tastes.

PROVERB.

Let us, at length, cease to dispute and  
learn to live.

DR. JOHNSON.

The itch of disputing will prove the  
scab of churches.

SIR HENRY WATTON.

A good cause needs not to be pa-  
troned by passion, but can sustain  
itself upon a temperate dispute.

BROWNE.

Have always been at daggers drawing.  
And one another clapper-clawing.

BUTLER.

The tree of knowledge blasted by dis-  
pute.

DENHAM.

Who shall decide when doctors dis-  
agree.

POPE.

Could we forbear dispute and practice  
love.

WALLER.

We should agree as angels do above.

COWPER.

I am monarch of all I survey.  
My right there is none to dispute;  
From the centre all round to the sea,  
I am lord of the fowl and the brute.

## Let Me Tell You

## After Cooking Fish

The odour of fish is disagreeable if  
allowed to remain in the pan after  
cooking fish. Allow the pan to stand  
filled with water to which has been  
added a couple of tablespoonsful of  
vinegar. A quicker way is to boil in  
the vinegar and water before washing  
the pan. No odour will then remain.

## The Larder Shelves

A very useful hint for keeping the  
larder and scullery shelves always  
fresh and clean is to place two or three  
layers of paper instead of the usual  
one. Then, as the top gets soiled, it  
can easily be torn away without mov-  
ing everything, so leaving the next lay-  
er clean and fresh, saving much time  
and labour.

## Poems Old And New

## AFTERMATH

Before our final severance,  
They shall be some exchange.  
A moment left to chance,  
Unfathomable.  
Perhaps this token  
Is one word.  
The syllable unspoken.  
Or thought.  
Lovely.  
As a flame tipped beacon  
Held aloft.  
Penetrant and soft,  
Whose light shall  
illuminate.  
As I explore,  
And stand in desperation,  
At each closed door  
Of futility or experience.

—Ruth Johnston.

## ALL SUMMER IN A DAY

All summer in a day—  
This will I give to thee.  
In those short hours  
Thou shalt have all the flowers

Of June and May;  
Bud, leaf and blossom,  
They shall unfold be  
To deck thy bosom.  
And where thou shalt incline  
Thy sun-wreathed hair  
There shall float crystalline  
Along the air  
Translucent butterflies whose trem-  
bling wings  
Grow swift and sure to wheel their  
little way.  
All summer in a day—  
Open thy door that's winter-locked,  
Sweetheart.  
Guard not thy store  
But be thou prodigal of what thou art.  
And let thy beauty flow  
Into the glow.  
Life's starry circle narrow to a ray—  
What matters after  
Time's antiche laughter?  
Thou shalt have had all summer in a  
day.

—Phyllis McGregor.

THE WAY TO A  
MAN'S HEART

## Nut Cake

Melt butter, size of 1 egg. Break  
2 eggs in cup; then fill cup with milk.  
Sift 3 times 1 cup flour, 1 cup sugar,  
1 teaspoon baking powder, pinch salt,  
lemon or vanilla. Beat well. When  
spread in pan sprinkle chopped wal-  
nuts over all.

## Cake Custard

Cover the bottom of a greased pie-  
dish with stale cake or biscuit crumbs.  
Spread a layer of stewed fruit or jam  
over this and pour on a custard made  
with two eggs and a pint of milk,  
sweetened and flavoured with vanilla.  
Bake in a very moderate oven until  
the custard is set. Serve hot or cold.

## Peppers Stuffed With Cheese

Cut off this slice from stem end of  
six peppers (green); remove seeds  
and pith. Parboil peppers 2 minutes,  
drain and fill with following ingredi-  
ents: 1-3 pound grated cheese, 1-2  
cups bread crumbs, 1 teaspoon grated  
onion, 2 tablespoons butter, salt, and  
pepper to taste. Place in greased  
baking dish, and bake about 20 min-  
utes in moderate oven.

## Tomato Sauce

Put the tomato in a brass pan,  
and stew till tender; rub through a  
sieve, and to every pound of juice add  
a pint of vinegar, half ounce of garlic,  
quarter ounce salt, half ounce Jamaica

Dry with warm towels or in the open  
air, never before a hot fire. Hair  
brushes should be washed by moving the  
bristles briskly in sud, rinsing, shaking  
and drying on the window sill or  
by the fire.

Always with  
Fish

Such a welcome change from  
ordinary fare. Fish is light,  
easily digested yet sustaining  
—but don't forget a little H.P.  
Sauce makes the meal still  
more appetising & delicious.

**HP  
SAUCE**

pepper, half ounce old black pepper,  
and a few cayenne pods. Boil for one  
hour, strain, and add Curry powder to  
taste. Bottle when cold. This is a  
good relish for cold meat and with the  
addition of melted butter is used with  
mutton chops and cutlets.

## Butter-Scotch Pie

1 Cup Sour Cream,  
1 Tablespoon Flour,  
Yolks 2 Eggs,  
1-8 Teaspoonful Salt,  
1 Tablespoonful Butter,  
1 Cupful Brown Sugar,  
1-4 Teaspoonful Vanilla.  
Mix the flour, sugar, salt, cream,  
eggs (slightly beaten), vanilla, and  
the melted butter. Pour into an un-  
baked crust and bake in a very hot  
oven for about 10 minutes; then de-  
crease heat to bake custard. Test with  
a knife, remembering that when the  
custard is cooked it will not adhere  
to the blade. Make meringue with egg  
whites and 2 tablespoonsful of sugar.

Potato crop is small and scarce in  
Kenora.

Glenagry North has very fine oat  
and barley crop.

Cables are being prepared for the  
new Blyth Telephone System.

Cornerstone of new Knox Presbyter-  
ian Church was laid at Bridgeburg.

## JUST IN PASSING

## IN TUNE

By David Hamilton  
She put a red hat on her head  
And gave her pearls a skilful twist,  
"I am in tune with God," she said,  
And hung a bangle on her wrist.

"Without a few frivolities  
He found His world was incomplete.  
So He put song-birds on the trees  
And scattered poppies through the  
wheat."

## ADVICE TO A LADY

Thomas Browne's poet and mu-  
sicellaneous writer of the seventeenth  
century. Addison decided him as "of  
facetious memory." I have copied a  
sample of his writing for you which  
annoyed me.

"Though the ill-natured world en-  
sures you for smoking, yet would I ad-  
vise you, madam, not to part with so  
innocent a diversion. In the first  
place, it is healthful; and as Gales  
rightly observes, is a sovereign remedy  
for the toothache, the constant percu-  
ssion of old ladies. Secondly, tobacco,  
though it be an healthful word, is a  
great help to Christian meditation,  
which is the reason, I suppose, that  
it recommends it to you persons, the  
generality of whom can no more write a  
sermon without a pipe in their mouths,  
than a concordance in their hands;  
besides, every pipe you break may  
serve to put you in mind upon what  
slender accidents man's life depends.

I knew a dissenting minister who on  
fast-day used to mortify upon a rump  
of beef, because it put him, as he said,  
in mind that all flesh was grass; but  
I am sure much more is to be learnt  
from tobacco. It may instruct you  
that riches, beauty, and all the glories  
of the world, vanish like a vapor.  
Thirdly, it is a pretty plaything.  
Fourthly, and lastly, it is fashionable—  
at least, 'tis in a fair way of becoming  
so."

## THE ART OF LETTER-WRITING

There appeared recently in "The  
Daily Mail" a letter deploring the in-  
ability of the present generation to con-  
struct a good business letter, in spite  
of education, says Mrs. Joseph Con-  
rad. One has to admit that this is the  
simple truth. Not only does it appear  
impossible for many people to write a  
consecutive plain statement of facts in  
a concise form, but the handwriting in  
numerous cases is illegible, or nearly  
so.

It is surely time that the art of  
writing a good letter became a part  
of the education of our modern youth.  
Sentences put together in a clumsy  
way, and in some cases contradicting  
the previous one, or written in an un-  
gracious manner, are not calculated to  
impress a recipient favourably.

There is also another exasperating  
habit many people have of forgetting  
the degree of friendship in which they  
stand towards their correspondents.  
Thus you are disconcerted to receive a  
letter signed "yours sincerely" when

you have been in the habit of receiving  
letters from that correspondent signed  
"yours affectionately."

To be a good letter writer is a rare  
accomplishment now. It would al-  
most seem that the present day rush  
has cramped our capabilities in this  
direction. Then, again, the telephone  
has made letters unnecessary, and is al-  
so probably responsible for a good  
many of the curt, almost rude, forms of  
address now so prevalent.

I have made some very good friends  
through the medium of letters; friends  
whose friendship has stood the wear  
and tear of many years, and who have  
survived to comfort and sustain almost  
as much as those friends one sees con-  
stantly. Without a doubt much of  
one's innermost nature can be revealed  
in a letter. One can charm or repel,  
can encourage or depress, without com-  
ing into personal contact with one's  
correspondent.

Returning to our starting point, we  
must hope that those in authority will  
perceive the need of special attention  
being given to this particular study—  
which might easily be taught in the  
form of an essay.

I recall these few lines of doggerel  
which appeared some years ago and  
which seem to prove that this lament-  
able lack of ability has been under dis-  
cussion before:

He read it; she refused him he shot  
himself and died—  
He had been alive now, and  
she his happy bride,  
If he had read the postscript, upon the  
other side.

DO YOU  
KNOW?

Sycamore is a very durable wood. A  
statue carved from it, now in the Mu-  
seum of Gizeh, Egypt, is reported sound  
and natural in appearance, although  
nearly six thousand years old.

Llanas are the chief freight-carriers  
in Central Peru. The usual load for an  
animal is about one hundred pounds.  
If you put upon his back more than  
he can easily carry, he kneels, and  
will not budge till the load is reduced.

## Where Borax Comes From

Practically the world's supply of  
borax is derived from the properties  
of "The Borax Consolidated Limited,"  
which owns mines and deposits of bo-  
rax salts in North and South America  
and Asia Minor. In addition to  
its household and medicinal value,  
borax is used as a flux in soldering  
metals and in the manufacture of  
glass, artificial gems, and various chem-  
icals.

## How July Got Its Name

Originally the fifth month of the  
Roman year, July was known as  
"Quintilis." In Alban's calendar it  
consisted of thirty-six days. Romulus  
reduced it to thirty-one, and Numa  
Pompilius to thirty, and there it re-  
mained until the advent of Julius  
Caesar, who restored it to thirty-one  
days. Because he fell on a personal in-  
terest in the month in which he was  
born. After the death of Caesar the  
name of the month was changed to  
July by Mark Antony, in honour of  
the name of Caesar-Julius.

## Rats' Sense of Hearing

Experiments by Dr. J. F. Sheppard,  
Professor of Psychology in the Uni-  
versity of Michigan, have lately been  
made on the acoustic sensibilities of  
rats.

He ascertained that these rodents  
placed in a maze with sound-proof  
floors had much difficulty in find-  
ing a way out. Under normal condi-  
tions the rats soon found an exit, but  
when the floor was covered with sound  
proof material they usually failed.

This suggests to the lay mind, says  
the scientific authority, what the  
scientist has known for a long time,  
namely, that far too much intelligence  
is attributed to the lower animals.  
The majority live almost entirely by  
scent, taste, hearing, or smell, and  
only in the very highest types is reason  
developed.

It may be asked how the rats found  
their way out by hearing. The maze  
was, of course, a series of caves, and  
the vibrations of the air outside no  
doubt came to them as the roar of  
the sea.

SINICAL SADIE  
SEES

In some Pacific islands fish is still  
used as currency.  
Inactive getting gum out of a slot  
machine!

Not a Good shot  
"Why do you divorce your hus-  
band, May?"  
"Why, my dear, I couldn't hit a  
barn door with a pistol in a hundred  
years."

Heard on the Radio  
"What are you looking at through  
that telescope?"  
"I'm looking at the Heaven."

An Astute chief being asked his  
opinion of wine, said he thought it a  
juice extracted from women's tongues  
and lion's hearts, for after he had  
drunk enough of it, he could talk for  
ever, and fight Satan.

To a Cough in Street at Midnight  
(By Elmer Wright)  
God rest you if you're dead;  
And bless and send you safely home  
to bed.

If you are only old,  
God cure your cold.  
Whether it be but a cold in the head  
Or the more bitter wind which binds  
the dead.

The crocodile as I have told,  
Does not possess a heart of gold;  
I wish to add a few remarks  
About the unkind ways of sharks:  
Creatures that in their daily dealings  
Show little trace of finer feelings.

Tumbling Mustard  
(By Malcolm Cowley)  
Born in a fence-corner,  
raised in a covey,  
wedded in Nebraska,  
partied on the Sound;

They call me Tumbling Mustard, "Hey  
Tumbling Mustard, what's your  
business, listen Budd, where are  
you bound?"

Monday in Omaha,  
Tuesday in Dakota,  
One day in Memphis,  
Three in Allentown;

Mud roads and stony roads, concrete  
roads and macadam, I'd; would never  
leave me if I would settle  
down.

Columbine and larkspur,  
peony and dahlia,  
cornflower, mayflower,  
each has its place;

I am the tumble-weed that rolls across  
the prairies, winds at the back  
of it, mountains in its far.

Tumble-weed, tumble-weed,  
riding his velocipede  
east side, west side,  
all around the moon;

Denver, San Francisco, Winnipeg and  
Dallas, may be if the gas holds  
out we'll get there soon.

A million busy women and girls  
know the easiest way to keep the hair  
in perfect condition is with Danderine.

The first application will show you  
how marvellously it removes excess  
oil from the hair, cleanses it; makes  
it so simple to use Danderine. All  
you do is put a little on your brush  
each time you arrange your hair. It  
consistently use of Danderine will  
solve the worst crust of dandruff,  
soothe the scalp; stimulate the  
growth of long, silky abundant hair.

Danderine isn't sticky or  
doesn't show. It makes the hair  
manage; holds it in place for  
"Set" your waves with it and see  
how much longer they stay in.

No one can deny the importance of  
having the hair arranged in the style  
best suited to the individual type.  
Much of the effect is lost, however,  
unless the hair is kept soft, abundant,  
lustrous.

Too Many  
USED CARS!

All Good — But Out They Go at Give Away Prices

1927  
Pontiac Landau Sedan

In first class condition throughout,  
motor especially quiet, upholstery good,  
tires excellent. New Duo, green, black  
and gold. A real family car. Formerly  
owned by city business man, who gave  
it up for a better one.  
Price.....\$650

If you do not require a Sedan—we  
have one.....

1927  
Pontiac Coach

Also formerly owned by a local busi-  
ness man who has given car every at-  
tention since purchase. The Pontiacs  
are two of the Best Used Cars in the  
country. They were bought from us  
and traded in for New Pontiac. Price.....\$575

1926 HUDSON SUPER-SIX COACH  
Formerly privately owned and given every attention. New Duo a  
pleasing blue and black with gold stripes. Tires good for 10,000 miles. This  
car is complete from radiator motor meter to large travelling trunk in rear. Price.....\$650

1925  
Star Coach

Motor, upholstery good—  
disc wheels, 5 good tires  
new duo, blue black with  
gold stripes. Price.....\$325

## 2-1923 STAR SEDANS

Both in first class condition  
throughout. 1 New Duo Blue Black  
1 Green and Black. Take  
your choice. Price.....\$175

We have also a few cheap Fords and 400 Chev. Tour,  
ings. Cars suitable for working purposes. Save the regular  
family car. Price.....\$25.00

## 15 INNINGS GAME

Belleville Came Through To  
Defeat Renfrew 12  
To 8 Yesterday

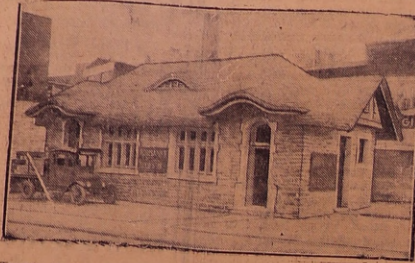

The Nationals, all cocked and primed for their battle this afternoon with Deloro for the Central League Championship and the right to meet the Toronto winners on Wednesday in the Ontario playoffs, left at nine-thirty o'clock for the Left Lock City, and every man jack was sure that they could take the measure of their Smell rivals.

Manager Walter Gerow announced that Alex Weir would do the hurling for the Belleville team and it is likely that Inky Woods will be sent right back to try and subdue the Nationals who were weakening badly in the last game at Deloro and had it not been for the fine support given him, he would never have lasted out the past time. The Nationals mean to make sure of it today, and once they drive him out, they should be easy meat for the slugging Quinte crew.

Although the Nationals had a hard game yesterday at Renfrew, when they won out 12 to 8 in 15 innings, all the players are in fine shape, and feel the better for their two days holiday. The Nationals now stand with their backs to the wall, and that is when they play their best baseball, so the Belleville supporters can be assured that they will see a good game, and if the Nationals go under, they will go

under fighting.

The winners of this afternoon's game will play the winners of the Toronto City group in Toronto on Wednesday afternoon, which will be either the Nationals or the Bell Telephone team. These two play off this afternoon, and the Native Sons have only to win to make themselves champions. If the Bell Telephone team wins, St. George's can also make their way into the playoffs, but the Sons are decided favourites to cop the bunting this afternoon.

In Toronto there stands the "service station" shown here, but it sells beer instead of gasoline. The place is modelled on the service station style, even to the var-colored shingle roof. But Sir Henry Drayton and his colleagues on the liquor control board, frown on the sign displayed, "Kormann's Retail Beer Shop," and will probably insist that it be changed.

They will not allow any other "stores" than the government stores, Kormann may call this place a "distributing depot" or something of that sort, but not a retail store. It is alleged that the latter name gives a mistaken impression. Beer may not be sold here by the bottle, which the word "retail store" might be taken to mean.

BADEN-POWELL TITLE GAZETTED  
London, Sept. 21.—The Baroncy recently conferred upon Lieut.-Colonel Sir Robert Baden-Powell, C. the Boy Scouts, has been officially gazetted under the title of Baron Baden-Powell of Gilwell, in County Essex.

## \$145,000 FOR PASSAGE OF ACT

Washington, September 21.—United States shipbuilders spent \$145,000 in seeking passage of the Jones-White Merchant Marine Act of 1920, Clinton L. Bardo, president of the New York Shipbuilding Corporation, testified today before a Senate investigating committee.

21 in every  
PACKAGE

## "BLENDS"

21 Cigarettes for 25c—There is one more cigarette in each package.

Easy Premiums—It is not necessary to match "Blends" Panels to secure any of the 100 premiums offered by MACDONALDS. You just "save them." Any 53 panel fronts of the packages, showing portion of the excise stamp, are equal to a complete set of MACDONALD'S card pictures.

Another Cash Reduction—If you prefer cash to premiums you can turn in 100 panel fronts, showing portion of excise stamp, and secure \$1.00 in cash. This reduces your price another cent per package.

21 for 25¢

Best Lady Driver—Mrs. S. P. Haggerman.

Best Heavy Draught—Arthur Alexander.

Best Farm Team—Arthur Alexander.

Best Three-Horse Team—Arthur Alexander.

## BABY SHOW

First, Margaret Jean Sherry, 1 year and 2 weeks; daughter of Mr. and Mrs. Arthur Sherry.

Second, Joseph Leon Clement, one year; son of Mr. and Mrs. Paul Clement.

## KIWANIS KARNIVAL NOTES

To night's the night!

Who will win the Hope Chest to

right. A winner will be disclosed when Mayor Grenleaf picks out the lucky number on the platform. Come and see who wins it—perhaps it's you!

The Popular Girl contest closes at 9:15 tonight. Ships and all ballots must be in at that time to count. They will then be finally counted and tabulated and the winner will be declared Queen of the 1920 Karnival, and presented with a \$10.00 gold piece.

The audience will have the opportunity tonight to decide who wears the luxurious new winter coat the best. This coat will be modelled by the contestants on the stage and the girl or lady who receives the most of the applause receives the coat, free of charge, as a present from the Kiwanis Club.

Good vaudeville will also feature tonight's programme.

Johnston's Dancing Sextet will be one of the feature attractions.

All the merchandise in the game booths must be sold tonight, so come expecting bargains.

Johnny Lloyd, banjo player of the New Bon Ton Orchestra, will delight the audience with solo selections tonight.

## OBSERVES 59TH ANNIVERSARY.

Rome, September 21.—With the Italian flag floating from schools, barracks and public buildings, and the city at large decorated Rome today celebrated the 59th anniversary of its capture by the troops of Victor Emmanuel II, thus ending the old temporal power of the Pope.

Just Ask Those  
Who Know

Anyone who uses Belleville City Gas for either cooking or heating, will be in a position to tell you of its advantages. Your city gas, manufactured in an up-to-date plant, is pure, clean, economical and satisfactory in every way.

Just ask any user—then try it for cooking and heating! It's better!

## News Of Quinte District

## FRANKFORD NEWS

ML. Dorcas Carter is spending a few days at home with her parents, Mr. and Mrs. T. W. Carter.

Mr. Walter Bowen returned on Wednesday to his boat after spending a few days at home.

Mrs. Ross Turley spent Thursday at Crowe Lake.

Mrs. S. Williams and little Miss Joan are holidaying with friends in the U. S. A.

Mr. and Mrs. Cecil Rowley spent Tuesday evening in Trenton.

Mr. and Mrs. Howard Courtney spent an evening this week at the home of Mr. N. Reid.

Mr. Ernest Carter accompanied by Mr. Carter, moved the Rev. Mr. Loft and family from Peterboro on Wednesday. Rev. Mr. Loft will be the minister at the Free Methodist Church. We welcome them to town.

On Wednesday evening a truck loaded with paper from the Canadian Paper Board had the misfortune of breaking through one of the small bridges on South Trent Street.

The Fall here was quite largely attended on Wednesday. The exhibits were the best for some years. Many were disappointed to learn that there were no race. Owing to the conditions of the track it made it impossible. Next year the races will be bigger and better than ever.

Mr. Tree, of Trenton, spent the dinner hour on Thursday with Mr. and Mrs. William Mitts.

Many about the town and surrounding territory were assembled on Friday at not being able to go to the Wooler Fair on account of the rain. School Fair and the remaining races were carried on in spite of the downpour and were much enjoyed by those present.

The much needed rain on Friday did much good through this district. But it came to fall for the potato crop and the farmers are very much in doubt if the crops will be very large and prices will be high throughout the district.

Mrs. Frank Whitten spent Sunday in Trenton with friends.

Mr. and Mrs. William Vinton, of Michigan, U. S. A., are spending a few days with Mr. and Mrs. J. S. Snider.

We were very sorry to learn Mrs. James Reid is on the sick list. We wish her a speedy recovery.

Mrs. William Mitts spent a day this week with her sister and family. Mrs. J. J. Doherty, near Stirling.

Many from town attended the dance at Robb's on Friday evening and spent a good time. Dancing every Friday evening. Good music. Bitty dancing.

Mr. and Mrs. D. C. MacRosty, and Miss Eleanor, of Trenton, spent the

week end with Mr. and Mrs. R. E. Kelchman.

Mr. and Mrs. Jack Casement, Glen Miller, spent the week end with the latter's parents. Mr. and Mrs. Barn Lockwood.

Many from town were busy on Saturday prepared for the opening of the duck hunting season on the 15th, but as it was the Sabbath, Monday morning found them then out bright and early.

Mr. and Mrs. P. O. Brin spent Sunday in Belleville with friends.

Mrs. Ruby Snider and Miss Olive Moyne are in Toronto.

Married—Emerson and Montgomery in Trenton, on August 31, 1929. Allen Rosella Emerson, of Frankford, to Reginald Montgomery, of Trenton, by the Rev. Mr. Heywood.

Mr. Chas. Bonifacio spent a few days with friends at Ingersoll.

Mr. Roy Freeman of Kingston, spent a day this week in town.

Mr. and Mrs. E. Burke spent Saturday evening the guests of Mr. and Mrs. C. Sine of the Sixth concession of Sidney.

Mr. and Mrs. William Rolland spent Sunday with Mr. and Mrs. Gerald Bush.

Mr. and Mrs. L. Hanna also Miss O. Ross spent an evening last week with Mr. and Mrs. George Wood.

Mr. and Mrs. F. Poler spent Sunday the guests of Mr. and Mrs. Harry Rose.

Mrs. H. W. Wolbourne is spending a few days with Mr. and Mrs. George Sine. We are pleased to report Mr. Sine on the gain.

Mr. and Mrs. D. D. Frost returned home from Grove Lake, where they have been camping for the past few months.

FASHION REVUE  
DEPICTS LATEST  
AUTUMN STYLESLuxurious Evening Wraps  
And Afternoon Frocks  
Were Exquisite

(By Gladys Craig.)

Costumes that from head to foot, are compositions in line, as carefully thought out by the style creators as an artist composes a picture, have arrived, and Kingston Carnival patrons had the privilege of viewing them last evening when the Canadian Department Stores staged their outstanding Fashion Revue of Fall and Winter modes and provided a brilliant closing to the 1929-30 spectacle.

From the great fashion houses, this home from Grove Lake, where they have been camping for the past few months.

Mrs. G. Pollard spent Thursday with her sister, Mrs. N. Preston.

Mr. and Mrs. Harry Blecker spent the week end with Mr. and Mrs. J. No. Blecker.

Mrs. L. Hanna spent Sunday with Mr. and Mrs. Smith, Osterhout.

Mr. E. Montgomery, of Rawdon, spent Sunday with Mr. and Mrs. Fred MacDonald.

Mrs. A. Rose spent Friday evening with Mrs. Alex. Hood.

Company gathered together and presented for the Belleville and surrounding public approval, exquisite apparel for all occasions, and their gorgeous assemblage of evening gowns and wraps were outstanding models of new. Luxurious materials of lovely rich tones, moire taffeta in a profusion of gaily flowered designs and panne velvet in all its exquisite richness, were used for evening models. For the afternoon frock transparent velvet in black and brown shades overruled it, opponents, and the skirts in every case showed the lower trend, the flare reigning supreme.

Evening wraps were luxurious accessories and emphasized the charm of each individual model. Richly brocade and transparent velvet fashioned these delightfully feminine articles and one was a stunning affair of soft White Rabbit worn with a white transparent velvet evening gown.

The Canadian Department Stores also presented the latest in headgear. Materials must be luxurious, decrees Lady Fashion, and accordingly, models appeared in velvet, scold and beaver while the ubiquitous felt assumed a finer texture than ever before. "The hat is the thing" read the second ruling to the forehead was revealed, the hat fits the back snugly and many boasted the jaunty little skirt at the back. The models worn were each and every one perfectly in tune with the flocks and reflected their colour and line to perfection.

Shirtings in rose tones is a thing of rare beauty and when developed into an exquisite evening gown with short cape in the same material, the smartly at the front, it is an entrancing affair. Worn by Miss Madeline Edl it delighted the audience and received great favour.

Another outstanding garment, worn by Miss Bell and which also won instant acclaim, was a soft tweed coat in novelty weave, lavishly adorned with Lynx fur at collar and cuffs. Her black afternoon frock showed the fitted hip-line to perfection, this season, with a large ardenia at the centre front.

Mrs. J. Kerr's three evening models showed true elegance. A white transparent velvet with wide flared skirt ending in a border of tulle, had for a ornament a scintillating Rhine-stone pine, and when worn with a White Rabbit evening wrap it created a startlingly beautiful effect. Another model was a tight, fitted bodice and skirt of tulle in light and dark Capucine shades which dipped at the side, created much favourable comment. Mrs. Kerr effectively modelled three-piece transparent velvet suit with blouse of small satin. Her coat of black brown Duvetyn was richly enhanced by a large shawl collar of brown fox.

A delightful little affair was seen when Miss Parks appeared in a novel suit of Moire in a dark brown shade. The smart skirt was flared and sported a yoke, while the blouse was developed in ivory crepe.

For evening frock was a rose taffeta creation with a beautiful bouffant skirt bordered with tulle. Her fawn velvet coat showed trimmings of Lynx and was flared at the sides.

Miss Holly was outstanding in a lavender crepe evening gown. Her French broadcloth coat developed in a brown shade was lavishly trimmed with Robin mole and showed a notched collar of large dimensions. An afternoon gown was developed in a flowered transparent velvet with black background and gold overtracings. Applique of lace edged the collar and cuffs.

Bright navy, a new colour this season, was shown in a crepe dress with flared skirt and worn with a coat of the same shade made the delightful ensemble worn by Miss Jamieson. The coat had collar and cuffs of soft mole.

For evening Miss Jamieson modelled a French handmade evening gown of Panné velvet in a rich rose shade. A flared skirt of great dimensions made the gown outstanding. Her afternoon frock of transparent velvet in a wine shade had two tiers in the centre front and a beautiful Rhinestone pin was the only adornment at the neckline.

Black Caracul gave used on a lovely coat developed in black broadcloth and slightly flared at the front.

A Lucien Simon model, hand-made and imported from Paris, was a high light in the collection of evening garments. Worn by Miss Georgina Wray it scored great success and was of Peach moire taffeta overtraced with gold. A new style feature was shown in the high neckline at front and low neckline at back. Beige broadcloth, richly adorned with Flank Squid reel showed the new tunic effect and was also worn by Miss Wray.

Miss Phyllis Arbuckle wore a picture of loveliness in her evening frock of flowered taffeta. Large roses on a peach background, the long waist skirt draped beautifully in the new fit-in effect, and with long full skirt and low at centre front, it enchanted the masculine as well as the more susceptible feminine part of the audience. An ensemble of Hunter's green had a small little frock of crepe with frilled collar and box pleating, while the coat was developed in the same shade of broadcloth and enhanced by a large collar of wolf.

Evening Wraps Brilliant

We feel that the Canadian Department Stores' display of evening apparel is worthy of special mention. Such beautiful coloring and striking styles have never before been displayed in such profusion by Belleville merchants. Wraps accompanied each garment and their resplendence was only rivalled when they were opened to disclose the brilliant evening gowns.

Wraps of White Rabbit, Panné Velvet, and Lame made up the striking

## THE CANADIAN DEPARTMENT STORES LIMITED

Prices Demonstrate Daily the Economy of Cash Buying and Selling.

Harvest Specials!

## When Baby is Well Muther is Happy

The happy mother is the one whose baby is well—it is the laughing, gurgling baby who always brings joy to the home. When baby is ill everyone in the home suffers—not only through worry over the little one but through loss of sleep—no one can find rest with a sick baby in the home. Thousands of mothers are happy mothers because they have found the way to keep their little ones well—or if sickness does come on suddenly, as it usually does with little ones, they have found the way to speedily bring the baby back to health again. Mrs. George Keck, Lindberg, Alta., is one of these mothers and she writes as follows:—"I am the happy mother of a seventeen-month-old baby girl. Baby is healthy and strong and sleeps well at night. I give her no other medicine but Baby's Own Tablets and she just loves them. I am never without the Tablets in the house."

Baby's Own Tablets are a mild but thorough laxative which regulate the bowels, sweeten the stomach and thus drive out constipation and indigestion and make the cutting of teeth easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

## Furs By Woodley's

Woodley's added another distinctive display to their week's exhibition and the coats and wraps offered for public approval were again worthy representatives of this well-known firm's large stock. Soft, luxurious squirrel, novelty cut mink, a clever model of caracul paws and Hudson seal were all beautiful models and made a striking picture when worn over the colorful evening gowns.

Grand Finale

Last night marked the closing of the successful 1929-30 Fashion Revue. This success was due not only to the merchants who displayed their attractive merchandise, but in a greater measure to those young ladies who modelled the garments so perfectly. Each performed in true professional style and the Kiwanis Carnival committee showed their appreciation at the close of last evening's show by presenting Mrs. J. Kerr, Misses Bell Jamieson, Ray, Parks, Arbuckle and Holly, each with a beautiful bouquet of roses and baby's breath.

The audience applauded, the girls smiled, the curtain fell and the Kiwanis Carnival Style Revue was over for another year.

Tobacco crop in Norfolk is being harvested.

Mrs. Gordon Hunter, of Toronto, is visiting relatives in town.

Miles of Smiles with CHRIS LEWIS

"I think it's mean of you not to pick out a bigger car, when you know how much I like to ride!"

Yeah, and I think it's mean of her not to pick out a bigger son-in-law when you know how she likes to fight."

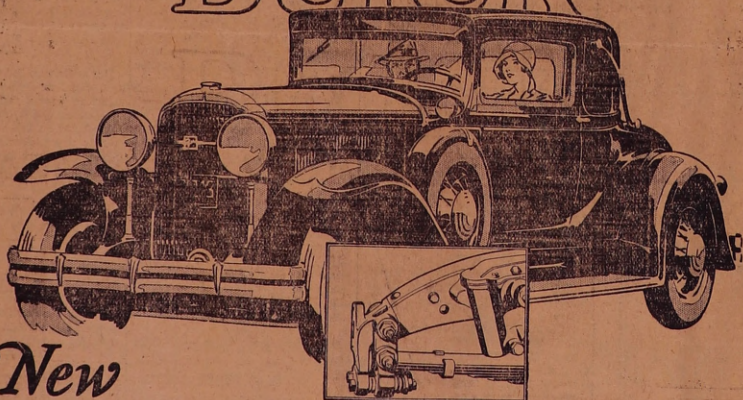

How does your car start? Does it get away smoothly at the first touch of the starter, or does it grind and buzz before turning over? We remedy faulty starters.

The 1930  
McLAUGHLIN  
-BUICKNew  
Road shock Eliminator  
... and New Steering Gear

make McLaughlin-Buick the easiest car in the world to drive!

Imagine being able to travel the roughest road with your hands resting lightly on the wheel! Think of having an automobile which you can drive all day at any speed with the greatest ease and comfort.

Such are the fine results of two matchless new quality features in the 1930 McLaughlin-Buick—two features which add to this car's appeal as the greatest dollar value of the day—a wonderful new frictionless steering gear, and the new McLaughlin-Buick steering shock eliminator!

The steering shock eliminator—built into the front of the frame on the steering gear side—absorbs jolts and

jars arising from road inequalities and thus prevents their transmission to the steering wheel and the driver's hands. The new McLaughlin-Buick steering gear, of the effective worm-and-roller type, moves with incomparable ease throughout its entire turning range, assuring instant, effortless response to the driver's every wish.

Drive this new McLaughlin-Buick. Head for the sort of road you ordinarily avoid as too rough for comfortable travel. Test these twin features of comfort which make the new McLaughlin-Buick the easiest steering automobile in the world.

### LEADERS OF THREE PARTIES GET IN ACTION AS CAMPAIGN WARMS

**Ignace Paderewski**  
famous Polish pianist, is resting well after hurried operation at Lausanne, Switzerland. M. Paderewski is expected to make a normal recovery.

### POPULAR BANKER IS LEAVING CITY

**Mr. Martin Dunsford Being  
Transferred To Toronto  
Head Office**

Mr. Martin Dunsford who, for the past six years has filled the position of accountant at the local branch of the Canadian Bank of Commerce, has received notice of his transfer to the head office of the Bank of Toronto. When the Standard Bank was amalgamated with the Bank of Commerce, Mr. Dunsford was named as accountant. Mr. Dunsford came to Belleville from Toronto, previous to which he served in Orangeville. He has been engaged in six Ontario branches.

Mr. Dunsford has become extremely popular since coming to Belleville and while his friends will regret to learn of his departure, they best wishes for success in his new field will be extended. He has been active in lawn bowling circles, in which sport he took keen interest.

Mr. and Mrs. Dunsford have both been active workers at St. Thomas' church, where they will be missed. The former expects to assume his duties at Toronto next week and his wife will join him there within a few weeks.

### CONTEST NARROWS Nations To Meet Either St. George's or Bell Telephone Next

Belleville Nationals will meet either the Bell Telephone team or the St. George's or Saturday, in Toronto, as Native 80s were eliminated by the Bell Telephone last night, by the score of 10-4. The "Bells" and St. George's will play off on Wednesday afternoon for the right to meet Belleville in the semi-finals and the winners of that series will play either Wakefield or St. Catharines.

### RECOVERED BODY IN DEEP WATER

Rockville, Sept. 24.—The body of Robert Hill, aged 25, originally of Westmoreland, England, and without known relatives in this country, was recovered last evening from the St. Lawrence into which he had evidently fallen while at work on the contract held by the Thunder Bay Harbour Improvement Co. for the construction of the government grain elevator below Prescott.

Body was working alone tightening nuts on a breakwater and was not missed for several hours. The body was recovered in 28 feet of water after dragging. County Crown Attorney M. M. Brown has ordered a post mortem examination.

**THE WEATHER**  
Light to moderate winds, fair and moderately warm today and most of Wednesday, probably followed by showers Wednesday night.

### Premier Ferguson Defends Action In Abolishing "Regulation 17"

#### SINCLAIR COMPLAINS

**Progressives Would Abolish  
Sale and Manufacture  
of Liquor**

Toronto, Sept. 24.—J. G. Lethbridge, leader of the Progressive Party, will deliver his first address of the provincial election campaign at Allan Craig today. The manifesto of his party was made public on Monday and Mr. Lethbridge is expected to bring forward further arguments in support of the policies outlined and upon which the party is seeking office in the election to be held October 30.

Prohibition of the sale and manufacture of intoxicating liquors the major plank in the Progressive platform and Mr. Lethbridge is expected to stress this aspect of his party's appeal.

Yesterday leaders of the Liberal and Conservative parties were in action. Premier Ferguson at Alliston, and W. E. N. Sinclair at Orono.

Premier Ferguson will open the Boy's Fair at Bowmanville today, and it is understood his speech will be non-political. Mr. Sinclair is scheduled to speak at Warkworth in Northumberland county.

#### Doing Great Work

Mr. Ferguson broke new ground in so far as the campaign is concerned when he defended the action of the Government in abolishing "Regulation 17" which provided for the use of English as the official language of instruction in the French schools of the province. The result has been, he said, that never before had there been such co-operation from French speaking citizens of the province. He thought the Government was doing a great work in maintaining the English language and spreading the Anglo-Saxon spirit.

He again discussed the Liquor Control Act and held it had improved conditions in the province. The Government was the servant of the people and it was up to the people to dismiss it. That, he said, was the right kind of plebiscite.

#### Questions Premier's Figures

Mr. Sinclair attacked the financial record of the Government and accused Premier Ferguson of misrepresenting the true condition of the province. Actual debt of the province was 393 million dollars, he said, and not sixty-million dollars as Premier Ferguson had stated during the campaign. He said the Liberal party was forcing issues in the campaign and setting the pace.

He accused the Government of being afraid to publish evidence before Public Accounts Committee at last session of legislature until after the election.

### GUIDES' COUNCIL WILL MEET HERE

On October 3rd next the entire Provincial Council of Girl Guides will meet in Ontario will be in Belleville. The Intelligencer was informed by Mrs. (Col.) W. N. Ponton, Commissioner for Lennox and Addington and Hastings Counties. The executive, which will be headed by Mrs. Ernest B. Smith, Provincial Commissioner, will be entertained at the Bay of Quinte Country Club at luncheon by the local Executive.

Tomorrow evening the first meeting of the season of the local Guides will be held in the Collegiate Auditorium. Two companies of Girl Guides have been consolidated into one, and two companies of Brownies will also meet. Mrs. Ponton and Mrs. Gertrude Nelson.

### 366 Doukhobors Crowd the Jails of British Columbia and Saskatchewan

Winnipeg, Sept. 24.—Total of 366 Doukhobor men, of the Sons of Freedom sect, self styled outcasts from Peter Verigin's Christian Community of universal brotherhood, detained today in British Columbia and Saskatchewan prisons. Six month sentences have been meted out to 160, but the remaining 206 are awaiting trial.

Information is being laid today against 200 awaiting trial at Nelson, B.C., tomorrow. This number, together with 39 minors, were arrested Saturday when they resisted arrest of the leaders of the party.

**Jack Gregory Finds His Sister**  
The photograph here shows Jack Gregory, Riverdale, Long Island, and nine-year-old sister in England. Mr. W. J. O'Grady, Toronto, who through an item in a daily paper, he located his sister, for whom he had forty years' separation. In 1889, Mr. Gregory had been looking for some time.

### SHOULD BRING IMMIGRANTS HERE WHILE YOUNG SAYS BRITISH M. P.

**Major Muirhead Guest of  
Mr. John Elliott On  
Way Home**

Returning from a trip through the Canadian West where he was a delegate with the Canadian Chamber of Commerce, Mr. John Elliott, manager of the Standard Bank Branch of the Bank of Commerce, brought with him as his guest Major A. J. Muirhead, M. P. for Wells, in the electoral division of Somerset, England. Major Muirhead, in a short interview, told The Intelligencer this afternoon that although conditions in Canada were much different to those of England, particularly in the farming line, in which he is much interested, he felt sure that British immigrants would find the whole, he well satisfied and would make successful Canadian farmers.

"It seems to me that one solution of the problem of British immigration to Canada would be to have them come to this country while they were still young. They would then grow up with the country and would not have to get out of the habits they had formed of farming in England, where conditions are so different. In the western provinces, from which I have just returned, the raising of grain is still young all that is done on the farms, while in England farmers do either fixed farming or dairying."

#### Miners Not Satisfied

Asked as to what he thought of the British miners coming to Canada last fall to harvest the Western grain, Major Muirhead asked another question: "What would happen if we took eight thousand western farmers and put them in the Welsh mines to dig coal for six weeks. Would they be dissatisfied?"

Mr. Elliott and Major Muirhead left early this afternoon for Prince Edward county where they will inspect various farms of that county as well as some of the cheese factories. Major Muirhead has been in Canada for four weeks and will likely remain for another month at least.

Commissioner for Belleville, will be present.

### TUMMON TO HELP

**Popular Member Has Been On  
Speaking Tour of The Maritimes**

E. W. Tummon, M.P., has been on a speaking tour of Nova Scotia in the interests of the Conservative party but is expected back in Tweed early next week to take part in the coming provincial election. He wired Mr. W. N. Ireland today that he had five meetings to address this week but would leave on Sunday morning next for home and promised to help in any way possible in the coming fight.

### PROVINCIALS' WORK MUCH APPRECIATED

Inspector Loughheed, of the Provincial Police, was in receipt of a letter from W. H. Crobie, District Forester stationed at Tweed, thanking the Inspector and his staff for the fine work which they did during the recent forest fires in this County. Mr. Crobie, a stable Carey of Nanawau who was stationed for two weeks in the district, and whose hard work and presence of mind did much to alleviate the fires.

#### PLAIN STILL ALOFT

Indianapolis, Ind., Sept. 24.—The endurance flight of Lieutenant Walter Peck and Lawrence Genao, in Indianapolis airplanes continued today and at 9 a.m. they had been aloft 105 hours.

### COMING EVENTS

Don't forget Miss Jessie B. Tuite's Recital, Collegiate Auditorium Thurs. evening, Sept. 26th. Assisted by Messrs. Anglin, Riggs and Bankier. Tickets 50c.

Wed. Sept. 25th, 8 p.m., Lecture Room, Armouries. Speaker Miss Marshall Saunders, authoress of "Beautiful Story." Season membership \$1.50. (full Joe). Season membership \$1.50. \$24-11d

W.C.T.U. Rummage Sale at City Hall, Saturday morning, Sept. 28, at 9.30. Donations called for Friday afternoon or left at home of Mrs. Hagerman, 117 W. Bridge St., Phone 881-W; Mrs. J. J. Godfrey 153 St. Phone 774-J; Mrs. Godfrey 153 St. Phone 774-J; and Mrs. Cole, 247 Coleman St., Phone 772.

**OLD COMPANY'S  
LEIGH HARD COAL  
SEMI-SOLVAY COKE  
THE F. S. ANDERSON CO.  
Sole Distributors for Belleville**

### POLITICAL EVENTS MOVE FASTER AS THE ELECTION DATE DRAWS CLOSER; CONVENTIONS IN ALL LOCAL RIDINGS BEING PLANNED FOR EARLY IN OCTOBER

### No Action Taken Yet to Fill Vacant Post of the Late Fire Chief Brown

Much speculation exists but no action has been taken yet to fill the place of the late Fire Chief Brown. Capt. William Lynch, who has been connected with the department for the last fifteen years, is acting chief and will likely be left to give the City Council an opportunity to thoroughly discuss this situation. Captain Lynch has handled the department on the rare occasions when the late Chief was absent at convention or on holidays.

On Thursday night the City Council meets in committee and Alderman Charles Hyde, chairman of the Fire and Light Committee, said that it was quite possible that the question of appointing a new Chief would be discussed, but he did not anticipate any action being taken. There have been no applications and the question of appointing an outside man or promoting a local man has not even been considered.

The council, Mr. Hyde said, are satisfied that the Fire Department is in good hands meanwhile and that a possible fire will be adequately handled. It is likely that serious consideration will be given to the matter of filling the vacancy and the Fire Chief's Association will be consulted before an appointment is made.

### Charles Hanna The Likely Liberal Choice To Oppose W. H. Ireland

#### NO ACCLAMATIONS

**Hot Fight Expected In  
Prince Edward—Colliver  
Is Confident**

Political events begin to move more rapidly. In West Hastings it is practically certain that the Conservative Convention called for October 2nd at 2.30 p.m. in Weller's Theatre, Trenton, will nominate W. H. Ireland, and he begins to look almost equally clear that his opponent will be Charles Hanna, ex-M.P.

Liberal leaders in the riding admit that Mr. Hanna is a likely choice and it is understood the only remaining difficulty is the matter of financing his campaign. The Liberal convention will be held in Belleville some day next week.

While Mr. Hanna has many friends throughout the district, a Liberal candidature in this riding is a foregone conclusion. It is admitted that Mr. Ireland has made an ideal representative supporting the strong government and the latest results of his efforts, the settlement of the Bay Bridge question, has made his reputation almost a certainty. Mr. Ireland stands high up in the councils of his party, holding the position of Chief Whip at Toronto, and is as close to Premier Ferguson practically as any of the Cabinet Ministers.

#### Dynes May Run

In East Hastings it is expected that James F. Hill will again be the choice of the Conservative party. His probable opponent is not so clear but there is some talk of H. K. Denyes, ex-M.P.P., entering the field under the Progressive banner. Denyes won the seat in the last election under the Drury regime.

East Hastings Liberals will meet at Plainfield on Oct. 9th.

North Hastings is politically quiet. Hon. "Bob" Cooke will doubtless be re-nominated and re-elected as a matter of course. At his last election, 1926, he faced a very nominal opposition of Rev. Mr. Sharpe, of Belleville, but there is no talk yet of a possible opponent for the general and popular Minister of Power.

Mr. Cooke duties on the Hydro Commission kept him pretty well in Toronto, but he is evidently not worrying. He is in the North riding the Conservative usually hold their convention just a few days prior to their official nomination and it is expected that this course will be followed for the present election.

#### Closer in Prince Edward

Across the Bay, the Conservatives expect a closer fight as Horace Colliver will likely be opposed by a prohibitionist and the riding is historically "dry". Elections in Prince Edward are usually won or lost by a few votes, but the Conservatives are well organized and Colliver is an extremely popular man throughout the country.

### CAR THIEF FELL INTO POLICE NET

Giving the name of John Dobson, but thought to have several other aliases, a man was arrested near Springville, Peterborough county, last night by Provincial Constable Thompson, was charged with the theft of a car. When the constable searched the car he found a driving permit in the name of Charles H. Johnson, Kingston, Ont., which is near Kingston. Inspector Loughheed, of Belleville, then communicated with Constable Chubbie at Kingston and found that the car had been reported stolen there on Sunday evening. Constable Chubbie today took the prisoner back to Kingston to stand trial. In the car at the time of the arrest was also a coloured ball from a gear shift lever which had been stolen along with an overcoat from E. Perrin, of Belleville, on the Port Hope-Peterborough highway.

### Sneak Thieves Got Little For Their Effort, But Caused Lot of Trouble

Stolen from a car owned by Fred Duff, of Peterborough, was the rear of the Crystal Hotel Sunday evening, although he locked the doors. He missed the box the first thing on Monday morning and reported his loss to the police. The papers, when found, were strewn along a small creek which runs under the culvert, the top of the box having been pried off by the thief or thieves, but, fortunately, the papers were recovered. They would have been of no use to anyone other than their owner.

### COLOURED FLOORS LEND NEW TOUCH TO ROOM ENSEMBLE

The interesting grain and mellow sheen of a fine wool floor may serve as the decorative starting point for the whole room. In a bedroom, for instance, the maple floor may be dyed a delicate orchid shade. The new transparent color stains. The unusual note the treatment of the sunny room revolves in a harmony of sunset hues and soft dove and blue. The newer developments in acid and water stains have made possible the most enchanting surfaces. Pastel green, silver

gray, royal blue and other lovely shades blend into the ensemble of bedroom or studio. Beech has much the same appearance as maple, but the grain and takes a deeper color tone when varnished or waxed. Birch with its smooth, white sapwood and pinkish heart, absorbs a fine, even stain. Paint is the finish par excellence for the softwoods—pine and spruce. The glare of a floor chamber can be softened by the cool tones of the blue, greens and grays.

## Miss Hard-Boiled" BY JANE DIXON

Lucy hurried toward the shack door. "And mother," Raquel added, stronger now that a way had opened out before her. "Get Pancho's things together. He must go with me. He must. I don't feel equal to going alone."

### CHAPTER 66

Raquel soon found, however, that getting Pancho out of Hermosa was not to be as easy as she planned.

"I can't do it," he growled when little Jose's message had dragged him, reluctantly, from Keno Pete's.

"But, father, I need you," Raquel insisted.

"Yes," he snarled, the hot tequila stirring the smoldering coals in his crackling flame. "And we've needed you too, these two years, your mother and me. We could not here, for all you cared."

She strove to hold the temper that rose within her. She was, in many ways, she knew, her father's daughter.

"I came as soon as I was in a position to do something real," she flared. "You owe it to yourself, to all of us, to get away from this."

"You're a fine one to tell me what I owe this family," he roared. "A pretty pickle you left us in when you threw down Bill Johnson. I've not paid him back yet—the money I borrowed from him. Never can pay him. Unless this deal I have on now works out the way I think it's going to."

"Deal?" Raquel asked.

She knew Pancho's "deals." They were made in the dark of the night in that shack with the barred windows and closed blinds. They were sealed by words from lips over caresses of tequila—with renegades, peons, men who were "wanted" by the authorities, ex-patriates with a price on their heads across the border. They were Pancho's partners in his dark "deals."

"I'll see you get the money to pay Johnson," she said.

"Oh you will, huh?" Pancho bellowed. "Since when did you get so generous? Rolling in wealth, and letting your own flesh and blood make the best of a bad bargain? Maybe you think I'm a quitter. A filthy deserter like some others I could mention."

"Take care," Raquel's voice was like a rapier—steel cold, blade-sharp. Oh heavens, if only Jerry were here!

"Don't put on your airs with me, my lady. I got my friends in this deal, and I'm going to stick by them. One little ride and Pancho Rojas won't have to worry. He'll be able to buy this dirty town and burn it up for a bonfire."

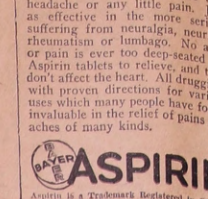

So that was it. Pancho and his gang were on the way of another one of these mysterious rides across the border. From a peg on the wall she took a cloak of her mother's—a scant black garment of cheap cloth. Making certain Pancho's back was toward her, she stole stealthily out of the shack. She was going to find Bill Johnson.

Running rather than walking—dusk had settled and she would not be observed—she reached the end of the dusty little lane. She slackened her pace only long enough to ask a man scuffling through the dust the direction of Bill Johnson's house, then followed the line of his pointing figure. She would know that house when she came to it.

The line led in a direction opposite to that where Johnson had planned to build the stone house by the river. Bill had changed his luck. Those honeymoon acres for Lily and then for her, Raquel, had brought him ill fortune.

By and by she paused before a square frame structure with a piazza running along three sides of it. An oil lamp, the ornate globe blackened with smoke, shone through an uncurtained window. She saw Anna bending over a thick white bundle she was holding in her arms. Anna's child, that was not quite right in its poor little head.

(To be Continued.)

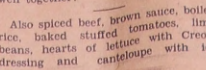

WHEN a cold or exposure brings aches and pains that penetrate to your very bones, there is always quick relief in Aspirin. It will make short work of that headache or any little pain just as effective in the more serious suffering from neuralgia, neuritis, rheumatism or lumbago. No ache or pain is ever too deep-seated for Aspirin tablets to relieve, and they don't affect the heart. All druggists with proven directions for various uses which many people have found invaluable in the relief of pains and aches of many kinds.

## SOME HELPFUL HINTS FOR BUSY HOUSEWIVES

Stuffed beef, brown sauce, boiled rice, baked stuffed tomatoes, lima beans, hearts of lettuce with Creole dressing and cantaloupe with ice cream.

## THE WAY TO A MAN'S HEART

### Old-Fashioned Apple Float

Two cups sliced new apples.  
One tablespoon water.  
Shimmer; time: ten to fifteen minutes.

One-half cup sugar.  
A pinch of salt.  
Two eggs, slightly beaten.

One-half cup sugar.  
One-fourth teaspoon salt.  
Two cups scalding milk.  
Cooking time: six to eight minutes.  
One-fourth teaspoon vanilla.

Fresh berries and sugar, sliced peaches, bananas, oranges and stewed canned or preserved fruits are also float flavorings. Scraped apple instead of apple sauce is liked by many people.

Wash and pare thinly several new apples; core and slice enough to fill two cups. Place the sliced apples in the saucepan with the tablespoon of water and let come to a boil; reduce the heat, cover and let simmer ten or fifteen minutes, when the apples should be tender. Beat the tender apples with the egg beater and add the sugar and dash of salt. When smooth and thick, divide among the eight custard cups or fill these half full of the apple sauce. Let cool.

The second part of the apple float is a boiled or custard. Heat the milk to the scalding point in the top of the double boiler, the water in the lower part being gently a-str. Beat the eggs slightly in the bowl with the sugar and salt and mix with a little of the scalding milk. Then combine with the rest of the milk and return the mixture to the double-boiler top. Let cook gently, stirring the white until the mixture coats the metal spoon, or from six to eight minutes.

Take from the heat, cool in the same container. Then pour over the apple sauce in the cups. Chill in the refrigerator at least an hour before serving. Sprinkle with cinnamon or nutmeg, or top with a bit of whipped cream and serve with tiny cup cakes or sponge fingers.

A bottle of oil of lavender is nice to have in the kitchen cabinet. Then when the smell of cooking permeates the house it may be removed by filling a basin with boiling hot water and pouring into it a few drops of lavender.

When you prepare fish to fry dip it in milk before rolling it in flour or meal—it will fry better and have a rich, brown color.

To remove grease from carpet, rub on spots a mixture of fuller's earth, oxgall and water then rinse out with clear water and rub as dry as possible with dry cloth.

## WHAT'S NEW

(From A Woman's Standpoint)

Many velvet berets are being worn by smart New Yorkers.

New York reports that suede is being featured for daytime footwear and dull kid and lizard are next, and deep green and purple are being stressed.

Jacket suits are quite as important this fall as they were last spring.

Black suede gloves are one of the smartest accessories of the moment in New York, and not a few have been worn with the tiny puffed-sleeved dresses that are reminiscent of the eighties—gay little beflowered silks boasting many frills and furbelows.

Chromium, the newest of all metals, has made a spectacular success and, used at first almost exclusively in the automobile industry, it has since been adopted widely for household hardware and is now being introduced for plating household appointments and table services.

Opera pumps have taken Paris by storm, and to the chic Parisian the sandal is a thing of the past, for the slipper of today may be elaborate in detail, but it is simple in cut, and the special shade for street this season is burnt copper kid, a lovely rich dark

brown that harmonizes with any street costume, while next in color popularity are black, closely followed by forest green.

Motion pictures are claiming the attention of the adventurous members of the Society of Woman Geographers, and after scaling high mountain peaks, hunting big game in Africa and living alone in isolated Indian villages, the women find their material in demand for films, as for instance, Marguerite Harrison, explorer and author, has embarked on a four-year tour of the world to prepare travelogues for a talking picture company.

## PAINTED WALLS OR WALLPAPER?

Lady Playfair Solves Decoration Problem For Homemakers

From Lady Playfair, wife of the distinguished actor-manager Sir Nigel Playfair and herself an authority on interior decoration comes this interesting advice:

As a rule the great problem of taking over a new house or flat is the decoration of the walls. Unfortunately, the majority of people are completely in the hands of their builders and decorators, who are as a class not disposed to encourage any new departures. They know that doors, skirting-boards and picture rails are designed by Providence for the reception of paint, especially white paint! Similarly, they have an equally strong conviction that walls should only be covered by wallpapers!

Within these limits, it is true, they allow their clients considerable latitude, but to move them from their established convictions needs not only constant argument, but a certain amount of intensive supervision.

This is not true of the big expensive firms or of the people who specialize in interior decoration, but for the vast majority of householders who go to local decorators the picture will be recognizable!

If they protest, they are told as a rule: "Yes, we could do it that way, but it would come dearer and take longer!" Such an ultimatum usually settles the matter.

Personally, I always like to use paint in preference to wallpaper. There is, I admit, nothing more charming than wallpaper when it is good, but it should be good enough to stand as a complete decoration by itself.

Pictures on a really fine decorative wallpaper always seem inappropriate, and few people are prepared to have rooms without pictures.

Paint, on the other hand, is an ideal medium for wall decoration. It is capable, if stippling and rag-rolling are used, of endless variations.

Dark rooms that would never be anything but gloomy, even if the brightest paper was put on the walls, can be made cheerful with paint.

For instance, in my own new house at Sandwich which I have just decorated we converted a large washhouse

into a sort of garden room and study for my husband, but it was rather dark and depressing. This I overcame completely by painting the walls in different colors.

Similar dark rooms could easily be changed in the same way. Possibly each wall might be painted in a slightly different tone of the same color, so that the darkest wall, by seeming to be more in the shadow than it really is, would throw the lighter walls into greater prominence by the contrast.

That is the great advantage of paint. You can get practically whatever effect and whatever shade you want.

Painted walls, also fit in admirably with modern schemes of decoration. They can be done to tone with or contrast with built-in furniture that is becoming increasingly popular, for its beauty and its sensible qualities.

One who has visited Lady Playfair's house adds: "How to combine modern ideas with a typical Queen Anne house has been one of Lady Playfair's problems."

## A Hotel in Diamonds

I like a story from the Arabian Nights in the description of the miniature model of the Royal York Hotel, shown at the Toronto Exhibition this fall. The model is valued at over \$500,000 and in its construction there were utilized more than 15,000 Ellis faultless quality diamonds. They were mounted on a framework composed of satin wood covered with the finest wax. The miniature was drawn true to scale and measured 15 inches high by 12 inches broad. Reflected from thousands of facets, the brilliant display of light, broken into all the colors of the spectrum, made this exhibit one of the most visited and most talked-of at the big Fall Fair.

## FOOD MILEAGE

Fuelling the household machine is an important item these days. After all, on the road of daily life, most of us have to get the last mile out of every dollar we spend.

High food mileage means careful buying... thoughtful selection of the foods that not only suit the tastes and physical needs of the family, but the pocketbook as well.

That's the value of advertising. Every day, here in your paper, are presented new and interesting food ideas. New ways of preparing old reliable favorites. New combinations of the foods the family needs... in ways they'll like.

Standard unvarying quality is the outstanding feature of advertised merchandise in general... and of food products in particular. Quite a factor in getting high food mileage!

Read the food advertising here in your daily paper...  
it will show you the way to higher food mileage.

MOTHERS  
now learn  
value of  
MAGNESIA

Because it is so helpful in keeping babies and children healthy and happy, every mother should know the value of Phillips' Milk of Magnesia. This harmless, almost tasteless preparation is most effective in relieving those symptoms of babies and children generally caused by souring food in the little digestive tract, such as souring, frequent vomiting, feverishness, colic. As a mild laxative, it acts gently, but certainly, to open the little bowels in constipation, colds, child's ailments.

A teaspoonful of Phillips' Milk of Magnesia does the work of half a pint of lime water in neutralizing acids, breaking hard curds, and preventing mother and child are fully explained in the interesting book "Useful Information." It will be sent you, FREE, Write The Chas. H. Phillips Chemical Co., Windsor, Ont.

In buying, be sure to get genuine Phillips' Milk of Magnesia. Doctors have prescribed it for over 50 years.

## POLICE PROBING LOCAL CAFE THEFT

### Hurricane Leaves Trail of Destruction Across Florida-Belle Opens

### IMPORTANT REAL ESTATE DEAL IS COMPLETED HERE

National System of Baking To Occupy New Premises

EFFECTIVE NOV. 1ST

Front Street Property Is Sold To Big Concern

Another important and interesting real estate transaction of Front Street property was made on Saturday last when the property at 304 Front Street at present occupied by George Thompson's Furniture Store and owned by Mrs. Florence Ketcheson, was sold to Mr. H. A. Heagle. The property has a frontage of approximately twenty-two feet and extends to the River. The price paid by the purchaser to the owner was \$14,000.00 and it is believed that the property was purchased for the National System of Baking, Limited, who intend to put in a new front and have the inside of the property tiled throughout with white tile.

George Thompson has carried on a furniture business at the present location for the past fourteen years, but must vacate by the coming November 1st. The notice came as a complete surprise to him and he has had no time as yet to secure new quarters.

The National System of Baking, Limited, have been advised to move into the building in which they are at present located was sold some time ago and will shortly be occupied by the Atlantic and Pacific Tea Company. The Thompson store will have to have considerable alterations made before the National Bakers move in which accounts for the notice the new owners were able to give.

### NAME NEW FIRE CHIEF TONIGHT

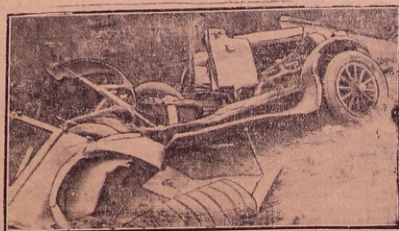

Four Local Applications Received For The Position

The City Council have two important items on the slate for tonight, and the session will no doubt be a busy one. No steps have been taken for the appointment of a Fire Chief to succeed the late Chief Brown, and this matter will be thoroughly discussed. It is known that four members of the Belleville Fire Department have filed applications, while it is believed that one or two have been received from outside. The city fathers have not as yet intimated their choice for a replacement.

The four local men who have tendered for the position are all well-known and have splendid records with the department. They are, Joshua Canning, William Lynch, Gerald Vance and W. Clarke. Mr. Canning joined the department as a volunteer in 1892, when the remuneration was \$4.16 a month. He served under the late Chief Campbell, as well as the late Chief Brown, and his record is one to be proud of.

Mr. Lynch is acting-Chief at the present time, and has always discharged his duties in a capable manner. The City Council will also deal with the question of the Canniford Road pavement and there may be some new developments in connection with the awarding of the contract.

**GREEK PATRIARCH DIES**  
Constantinople, Sept. 30.—Greek Patriarch Vasilios, Pope of the Eastern Christians, died today at the age of 79. He was the third to bear that name and was elevated to the patriarch in 1901.

Result of Crossing Crash

When it stalled upon a level crossing as a train approached, the wreckage of which is shown here, was struck by a C.N.R. train near Rose-

bank, Ont., and almost completely demolished. Five couples who were in it when it jammed in the ties had a narrow escape but got out in time.

### WALDRON SHOWS LITTLE CONCERN OVER PROPOSED SLANDER ACTION

Commissioner Threatens To Implicate O'Connor In A. B. C. Probe

Toronto, Sept. 30.—"I am quite content that plaintiff O'Connor has wholly misconceived his alleged rights," declared Gordon Waldron, K.C., commenting today on the \$25,000 slander action brought against him by W. F. O'Connor, K.C. Mr. Waldron's statement was made at the opening of his investigation into the activities of the amalgamated builders' council.

The action followed statements made by Mr. Waldron to O'Connor, who is acting as counsel for Louis Singer, K.C., commissioner of the A. B. C. during the present probe. Mr. Waldron stated today his utterances, while sitting as Royal Commissioner, were privileged and could not be made the basis for legal action. He assured all counsel and witnesses that they were equally immune from any action arising from their evidence in the inquiry.

Commissioner Waldron further reiterated he intended to report Mr. O'Connor as being a party and privy to the combine operated by the A. B. C.

### RALLY DAY HELD IN LOCAL CHURCHES

Yesterday was Rally Day at Belleville churches and an open session held at Holloway Street Church was splendidly attended by 165 members. The offering for the Missionary Main tenance Fund amounted to \$16.00. An excellent program was featured and those taking part were Misses Mildred Irish and Eva Colclough in vocal solos, and Misses Doris Thorn and Helen Turnbull in brief addresses on their "Impressions of Summer School" held at Oak Lake in August. The Sunday School superintendent, Mr. J. N. Hudgins was in charge.

### HEBREW NEW YEAR COMMENCES FRIDAY

The Hebrew New Year will commence on Friday next, at sundown. It will not be the year 1930 for them. It will be the year five thousand six hundred and ninety (5690), as they do not figure the passing years since the coming of Christ.

Appropriate services will be held from sun down on Friday until sundown on Sunday in the local synagogue, and the services will be conducted by Rabbi Gertzel. Jews from Madoc, Picton, Trenton and this city will celebrate during the two days.

### REWARD VALOR OF WM. J. LYNCH

Rescue of Young Jack Burnett Is Suitably Recognized

Announcement was made today that William J. Lynch, acting fire chief, had been granted a parchment certificate by the Board of Investigative governors of the Royal Canadian Humane Association, for saving the life of young Jack Burnett, Fort St. street, on July 21st of this year. It will be remembered that the young lad was playing in Victoria Park throwing sticks and stones into the matter when he fell off the wall. He was going down for the second time when Mr. Lynch dove in and rescued him.

The certificate granted by the Humane Society is one of the highest honors that can be bestowed upon a private citizen of Canada. Mr. Lynch's friends today are congratulating him upon his award.

Dancing at Riley's Tuesday and Saturday nights and Prologs only. Original's Orchestra. \$30, 00

Sole Distributors for Belleville

### NEW ICE ARENA WILL BE READY DECEMBER 1ST

Rink Will Have Maximum Seating Accommodation of 3500

#### WELL UNDER WAY

Ed Thomas Is Named Manager of Local Hockey Teams

For years past on the approach of winter the citizens of Belleville have deplored the lack of arena accommodation which would give the hockey players the city possesses a fair opportunity of getting in condition to go out and win the Ontario Championship and they have bewailed the prospect of the discomfort to be undergone while watching their team play.

This year the citizens are watching with intense interest the steady development under way on the south of the Market Square on the site of the new arena. There they observe a beehive of industry. Over sixty men are engaged mixing and pouring concrete, laying brick, etc. The concrete walls have been laid, the brick has reached the level of the windows and in two weeks the steel frame work will be in position. The contractors say the arena will be completed by the first day of December. An idea can now be secured of the size of the structure 126' wide and 240' long. The brick walls of million pressed brick are 20' high. The ice surface is 80' wide and 190' long and the arena has a seating accommodation of over 2000 and a maximum capacity of about 3500 people.

**\$70,000 Is Subscribed**  
The dream of many of our citizens is about to be realized due to the wonderful generosity of a former citizen and the directors working jointly have succeeded in increasing the amount subscribed till the company now has a subscribed capital of over \$70,000.00.

That Belleville has made progress in the past two years can be questioned and that Belleville will continue to progress and expand can not be doubted. Large corporations whose experts on business prospects know what they are doing, have chosen Belleville as a city with prospects of business expansion and the corporations with our own business men have shown they appreciate the benefit of proper facilities for sport and recreation when they have subscribed in substantial sums toward the new arena.

**Ed Thomas, Team Manager**  
The arena company was conceived and organized wholly with the object of providing for the pleasure and sport of the community, primarily for the children, but also for every citizen. It is hoped by the directors that the company will make a profit and judging from the operation of other rinks it will, but the object of the company is not in the first instance to make money.

It is the desire of the directors to have as many citizens of Belleville as possible have an interest in the arena. A good deal more money is required to install the ice plant and the directors are launching a campaign to raise the amount required. They call upon the citizen to get behind the arena company and if they do Belleville will have one of the finest arenas in Ontario and Mr. Ed Thomas who has agreed to manage the teams for the arena promises two first class teams. So give them your support and we will carry off two championships.

### BELIEVE FLIERS TRAPPED BY ICE

The attractive appearance of the theatre was commented on by those attending the opening. Both inside and out the building has been thoroughly renovated and the interior is far more pleasing playhouses in the smaller cities. The Belle have introduced the custom of singing "God Save the King" at the beginning of the show instead of at the end in order to be more general respect to this privilege to the king.

**Dominion Explorers' Pilot Feels No Apprehension For Party**  
Winnipeg, Sept. 30.—The Northwest's "in between" season, the dread of all pilots, is held as responsible for the disappearance of eight aerial explorers headed by Col. C. D. W. McAlpine, president of the Dominion Explorers' Club, who arrived here last night from Lac La Poudre, in Northern Saskatchewan.

Winnipeg, Sept. 30.—The Northwest's "in between" season, the dread of all pilots, is held as responsible for the disappearance of eight aerial explorers headed by Col. C. D. W. McAlpine, president of the Dominion Explorers' Club, who arrived here last night from Lac La Poudre, in Northern Saskatchewan.

Winnipeg, Sept. 30.—The Northwest's "in between" season, the dread of all pilots, is held as responsible for the disappearance of eight aerial explorers headed by Col. C. D. W. McAlpine, president of the Dominion Explorers' Club, who arrived here last night from Lac La Poudre, in Northern Saskatchewan.

### NURSE GRADUATED WITH HIGH HONORS

Miss Mary Webster, of this city, nurse-in-training at the Hotel Dieu Hospital in Kingston, graduated last week with flying colours and established an excellent record for a Belleville girl in hospital work. She was awarded a prize on Fire Prevention given by Chief Armstrong of Kingston, and prize on the History of Nursing. She also received a handsome clock, a travelling case, a book of poems and a Silver hypodermic set. Her many Belleville friends join the Intelligencer in congratulations on her splendid record.

### BELLE THEATRE OPENED WITH A CAPACITY HOUSE

Ald. Woodley Introduced Manager Forhan Who Made Short Address

Re-opening to capacity crowds in the afternoon and for both evening performances, the Belle Theatre caused much favourable comment both as to the attractiveness of the playhouse and the quality of the performance. The sound equipment is as near perfect as science can get it and the clearness and natural enunciation pleased the audience.

In the absence of Mayor Greenwood, Alderman W. Woodley, formally welcomed the Famous-Players Corporation to Belleville, wishing them every success in this city. He congratulated the company on the beauty of the new house of entertainment declaring that it was a credit to the city of Belleville.

Alderman Woodley introduced Mr. George Forhan, manager of the Belle Theatre as a former Belleville resident, well-known to the people of this city who are glad to welcome him back. Mr. Forhan briefly expressed the pleasure that he felt to be amongst his friends. He promised that his theatre would give the best movie entertainment procurable and his remarks were greeted with much applause.

**Best Pictures Only**  
Mr. C. Robinson, eastern division manager for the Famous Players Corporation, came from Toronto to attend the opening and made a short address before the feature picture was shown. He said that the Belle Theatre would bring excellent screen entertainment and that the company had gone to a great deal of expense in order to provide the right conditions for the showing of good pictures.

Mr. Robinson had only pleasant things to say and best wishes for his opposition in Belleville. He hoped, of course that the Belle Theatre would get a good share of the patronage, but he had no desire to take it all. "There is ample business for the theatres now sitting in Belleville," he emphatically declared and was greeted by hearty applause for his fair statement.

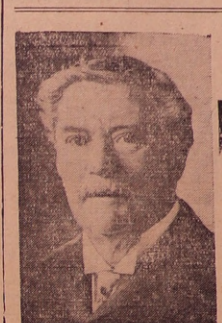

Congratulatory messages and flowers were received from other houses in the Famous Players chain and from other men in the picture business. One of the most attractive floral designs came from the Trent Theatre in Trenton in the shape of a large horseshoe, with wishes for the best of luck.

**Jack Denmark to Play**  
Improvement have been made to the famous Belle organ and it will be played at tonight's programme by Mr. Jack Denmark. In the rush of opening it was unfortunately not ready on Saturday evening, but Denmark will be at his old place tonight. The program will be used as a prelude to the programme and the shows as well as for special numbers.

The attractive appearance of the theatre was commented on by those attending the opening. Both inside and out the building has been thoroughly renovated and the interior is far more pleasing playhouses in the smaller cities. The Belle have introduced the custom of singing "God Save the King" at the beginning of the show instead of at the end in order to be more general respect to this privilege to the king.

said, "Is that Col. McAlpine and his party are frozen in on ice. There is no need for anxiety concerning their safety." If such is the case the planes would be unable to take off until far north lakes are entirely frozen over.

### ROBBERS ENTER GLOBE CAFE AND ESCAPE WITH PART OF RECEIPTS CONTAINED IN TILL; LEFT NO CLUE

James S. Williams

one of the most widely known men in Canadian Masonic circles, who died at Toronto in his 91st year. For many years he was proprietor of the Uxbridge Times and was a well known Canadian newspaperman.

### PARCHMENT IS PRESENTED TO CONGREGATION

Hebrews From Surrounding District Gathered For Ceremony

A colourful ceremony the equal of which has never been witnessed in Belleville, took place on Sunday afternoon from the residence of Mr. and Mrs. J. Samuels, Brock St., when a large number of Hebrews, from Madoc, Picton, Trenton and Belleville marched to the local synagogue, installing there a parchment of the Old Testament.

This parchment is nearly one hundred yards in length, and inscribed on it are all the chapters of the Old Testament, starting with the Book of Genesis, in Hebrew.

The parchment was presented to the synagogue by Mr. and Mrs. Samuels, who ordered it in Toronto at considerable expense. The parchment left their home at 2:30. Headed by Mr. Ben. Safe, who carried a large Canadian flag, the parade marched down Coleman Street, over the upper bridge, down Front street and on to Pinnacle where the synagogue is located. Behind Mr. Safe was the Salvation Army band, playing Jewish music for the occasion. Then, the band was followed by the young men and older men of the synagogue, while many cars, filled with women and children and decorated with blue and white triangles, the Jewish emblem, brought up the rear of the procession. The parchment was carried by four men under a canopy.

Upon arriving at the synagogue, the installation services were conducted by Rabbi Gertzel, of Kingston. After Rabbi Peterogorsky, of Kingston, after services were completed, the congregation gathered in the community hall in the basement, where refreshments were served and a musical programme enjoyed. Mr. Louis Kroch, President of the Sons of Jacob, thanked Mr. and Mrs. Samuels for their gift and expressed his appreciation for the services of the Salvation Army band.

### CHARITY DANCE TONIGHT

The Utopia Club will open their season tonight with a big Charity Dance and Euchre in the Moose Academy. The proceeds will be donated to the Victorian Order of Nurses. The officials of the Order of Nurses have arranged a first class programme and valuable prizes will be given away for the various novelty dances and euchre. A lovely box of chocolates, fifteen pounds in weight, will be given as a door prize. From early indications one of the largest crowds of the season will be on hand for this event.

Miss Gertrude Brown, of Tweed, was the week end guest of Miss Bernice Arbuckle, W. Bridge St.

### Culprits Left Bills of Large Denomination intact—Entered Window

#### POLICE PROBING

Louis Shin, Proprietor, Found Register Rifled This Morning

Sometime after two o'clock this morning a thief, or thieves, broke into the Globe Cafe and stole \$58.55 from the till. The mysterious note of the affair is the fact that they left another \$55, in notes of \$5 and \$10 denominations, intact.

Mr. Louis Shin, proprietor of the cafe, was utterly at loss to explain the working knowledge of the cafe that the sneak thief displayed. Entering through a window at the rear the robber entered cafe silently, picked the till up from its conspicuous place in front of the main window and carried it back to one office table. He then found the key, opened the till and took \$58.55 from it, and for some unexplained reason left the remainder of the cash in its place. The key was then placed back in the place from which it was taken.

When Mr. Shin opened up this morning the first thing that greeted his eyes was the till, prominently displayed upon one of the tables. The police were promptly called and Sergeant of Detectives Jack Trusatch was detailed to investigate. At press time he was still probing the theft but had obtained no clue that would lead to the arrest of the robber. Mr. Shin was quite confident today that the police would succeed in apprehending the thieves and that he would get most, if not all, of his money back. Although his cafe is protected by insurance against fire and other property damage, the insurance does not cover theft of moneys. It would appear that the job was the work of men well acquainted with the situation.

### GALE SWEEPING ACROSS FLORIDA

Hurricane Leaves Trail of Property Damage In Bahamas

The West Indian hurricane with estimated force of its intensity lowered by the revised reports of damage to the Bahamas, whirled northeastward across the Gulf of Mexico today and caused moderate gale winds to be felt as far as Tallahassee, Florida. The captain of a passenger liner, about 75 miles southeast of Pensacola, Fla., and warned that indications were that the disturbance would cross the coast line near that city this afternoon, according to reports of the weather bureau at Pensacola. The wind velocity of 53 miles an hour today, but the absence of communications prevented the transmission of news regarding the conditions of Apalachicola, fixed at the eastern terminus of the hurricane's advance yesterday.

The Miami Daily News announced the receipt of a wireless despatch from Nassau, the capital of Bahamas, saying that the property damage was wrought by the high winds of last week, lasting 48 hours, was not as severe as at first thought and that there were only six known deaths in Nassau instead of twenty-five in previous messages. Nassau utilities again were functioning normally, it was said.

### CONCERN IS FELT FOR ROYAL PRINCESS

Bremer, Scotland, Sept. 30.—The House of Princess Louise, the Princess Royal of Great Britain, and the eldest sister of the King is causing some concern. A bulletin issued from the Royal Lodge today, said, "The Princess Royal today had a slight gastric hemorrhage yesterday. Her Royal Highness passed a restless night but the condition of her heart causes some anxiety."

**THE WEATHER**  
Tuesday.—Will be strong north east winds, cloudy and quite cool, probably some rain in southern counties.

## TODAY'S THOUGHT

Faith makes the discords of the present the harmonies of the future.  
 —Robert Collyer.

## LABRADOR

Labrador, it is said, is now on the market for \$110,000,000. Whether it is worth that much may be doubted. Certainly the price is high, when compared with the sum asked by Newfoundland before the privy council awarded it, or rather a large slice of it to the island dominion. The negotiations at that time were conducted with Quebec, with Ottawa sitting in as an observer. At first \$30,000,000 was asked by Newfoundland in settlement of the dispute as to who owned the territory. Then an offer was made to sell the property except for a strip along the coast, three miles wide, for \$15,000. Both proposals were rejected by Mr. Taschereau. Quebec thought the compensation asked for was excessive. But now that all question of ownership has been settled, Newfoundland wants three times as much as her first offer. It is doubtful if Quebec will again enter into direct negotiation with Newfoundland, and there seems to be a doubt in Ottawa that M. de Champlain, who appears in the role of negotiator for Newfoundland, has official status. The great objection to the previous offers was that Newfoundland retained the coastline. If she still wants to keep it, we very much doubt if she and Canada will come to terms.

## WEATHER PROPHECY

The predictions of the venerable sage of Chatsworth, Mr. James B. Bowes, who prognosticates the weather months ahead, are interesting, but the federal government no doubt will be content to maintain its meteorological department and forecast from day to day, notwithstanding. Everybody remembers when Dr. Whitby's Almanac which combined synoptic, testimonials and weather forecasts in delightful intimacy, had its own special look in the kitchen. It was great fun when the almanac came to hand to see what weather was forecast for one's birthday, for the lodge picnic or the following Christmas, but not a great deal of reliance was placed in the 'guesses' for that is just what they were. The forecasting of the weather is a highly exacting science, involving sensitive equipment and impressively complicated mathematical computations. The lads in the meteorological department forecasting 'just twenty-four hours ahead' are not always right, but their batting average is remarkably high. For instance, the forecast for this district today was "scattered showers," and you may have noticed that heavily H2O was being scattered all over the place. The sage of Chatsworth bases his predictions on astronomical configurations, knowledge of which he acquired from his father, who was a weather prophet before him. Mr. Bowes claims that his prognostications are 85 per cent. correct and it is a fact that he is one prophet who is not without honor in his own community for the farmers of the township grieve by him and would hate to be given their choice of parting with their wives or Bowes' Annual Weather Bulletin. For the sake of the aged seer, who has a reputation to live up to, we hope he is consistently right and that he confounds the weather sharks with his accurate shots, but we hope, too, that Mr. Bowes will excuse us if we keep tongue in cheek.

## OTHER MEN'S THOUGHTS

Noah released a dove from the Ark in order that it might locate a parking place. But since then it hasn't been so easy — Border Cities Star.

A Boston man slapped his wife as she slept. Men are getting bolder and bolder — Norristown Times-Herald.

Ramsey MacDonald will arrive in New York on October 4 and we shall probably have to remain in ignorance as to what he has up his sleeve until after he has been risked for his ideas by the ship's news reporters. However, let us hope there are no returning movie stars or recently divorced millionaires on board his ship.

As in that event, he probably won't make the first page at all — George T. Brown, Richmond Times Dispatch.

10 YEARS AGO  
 Mr. A. Gullen, of the Post Office staff, is enjoying a holiday.

Mr. L. Hyman left today for Montreal where he will remain.  
 Mr. M. Easterbrook, of Tweed, will be in the city today.

Mr. A. Petrie has gone to Kingston to continue his studies at Queen's today.

Mrs. Prof. Green who has been here for some time, left today for New York.

Mrs. Kimmery and Mrs. Russell, of London, are in the city the guests of Miss L. Aull, Alexander St.

Mr. and Mrs. Henry Grass, Charles Street, have returned home after an extended visit to friends in Michigan.

Mr. J. D. Ford, of the Intelligencer, has returned home after a pleasant visit with friends in the country.

## HAVE YOU HEARD THESE?

The Customer: "Can you do my hair so it will stay down overnight?"

The Hairdresser: "Certainly, madam. We can give you a permanent wave that will stay in two days."

Little Susan: "Mrs. Browning, will you draw something for me?"

Visitor: "Why, my dear child, I can't draw!"

Little Susan: "Oh, you can; mother says you're a designing woman!"

The reporter came idly into the office. "Well," said the editor, "what did our eminent statesman have to say?"

"Nothing."

"Well, keep it down to a column."

"How are the plans of your new house getting on?"

"Splendid! My wife has finally laid out all the cupboards she wants, and now all the architect's got to do is to build the house round them!"

## Letters to the Editor

**SOURCE OF COMPENSATION BENEFITS**  
 To the Editor,

References have been made locally and not in a political sense to the Workmen's Compensation Fund of our province. Labor, Conservative and Liberal parties have agitated and have assisted towards the instituting and perfecting of this scheme in its quite beneficial merits and operation. Yet, while naturally each of the above groups may take some credit for the large expenditures connected with this department of our government system, it is not a fact that our various industries and manufacturers as part of their business cost put up these millions of money to be handled by the Board as a medium in trust investment and distribution to cover medical care, adjustment of claims, etc., at the minimum lowest possible expense?

Yours gratefully,  
 Observer.

**REVIEW OF THE TOYS**  
 Out from the dust of the years they come.

With many a tap on the little red drum,  
 Dancing, prancing, marching along.  
 To the lulling tune of a cradle song;  
 Spelling blocks of the A, B, C,  
 Tumbling over in eager glee,  
 A fire engine madly galloping by  
 On one last run, as the horses shy  
 At the thundering roar of the electric train.

As it circles the gleaming track again;  
 The little rag doll in her tattered clothes,  
 Proudly and gaily her head she throws  
 Back in disdain, as the teddy bear  
 Seeks to hug her against his fur.  
 While round and round in a perfect whirl,  
 A humming top spins in a colored swirl,  
 As the miniature dishes and tiny tin stove,  
 Battle approval of every move;  
 Far away in the distance there now comes a glare,  
 It's the cohorts off worry! The army of care!  
 With big frets and woes, deep fears  
 And tender joys,  
 This mature years bring to all grown-up folks,  
 They charged! And swept the dear toys off the floor,  
 Back into the stronghold of memory once more.  
 —Carl F. Bangert in International Poetry Magazine.

## IMMIGRATION IS GROWING FROM FAVORED LANDS

Rapid Increase Is Shown In British and Nordic Stocks

Ottawa, September 30 — A rapid increase in British immigration and a sharp decrease in immigration from southern European countries have been the outstanding features of the inflow of new population into Canada in recent months, and there appears to be every reason to believe that this tendency will become more pronounced in the next few years.

The general question of the character of the immigration movement into Canada has been brought to the fore in the past few days by the conference with all sources, proceeding in Ottawa between the Railway companies and Hon. Robt. Forke, Minister of Immigration, in regard to the renewal of the railway agreements. These agreements became effective in 1927 and were to run for three years, expiring on December 31, 1929. Hence the conferences, which were called to discuss the point of whether they should be renewed, and if so, upon what terms.

The Immigration Department has issued several statements, in the past two weeks dealing with the question in a general way, but the statistics which reveal the actual position in regard to the southern European, or non-preferred, immigration have not been published. These statistics are of great interest. In the fiscal year ended March 31, 1928, the total immigration from all sources was 151,597 and in 1929, 167,722. These totals were divided as follows: 1928: British 50,872; others 100,725. 1929: British 55,872; others 111,850. The fact is, however, that while the total from "other countries" increased slightly in 1929, the bulk of the movement was from the "preferred" countries of Northern Europe and here actually was a decrease in the inflow from the "non-preferred" countries.

However, the new tendency has become most pronounced in the first six months of the new fiscal year which will end next March 31. The statistics for this four month period — April 1 to July 31 — in comparison with the corresponding months of last year are as follows:—

	1928	1929
British	27,982	41,684
Others	46,341	38,388
United States	13,327	14,773

There was an increase of 50 per cent. in British immigrants, and a decrease of nearly 20 per cent. in European immigration. And the fact is that there was a slight increase from the "preferred" countries, and a very marked decrease from the "non preferred."

The change in the tendency in immigration is the result of an awakening of interest in Canada in the United Kingdom, coupled with the inauguration of a 750 flat ocean rate for British immigrants, and the action of the federal Department of Immigration in getting down the inflow of "non-preferred" immigrants under the railway agreements.

## MOTHER SAVES CHILD FROM A DEEP WELL

Waterloo, Sask., Sept. 30 — Mrs. Robert Hewlett was lowered to the water's edge of a twenty foot well by a hired hand, near here, yesterday and rescued her eighteen-months-old son from drowning. The youngster was brought unconscious to the surface, but was revived by artificial respiration.

## THAT BODY OF YOURS

By James N. Haron, M.D.

## LESS RHEUMATISM WHEN ACHING TEETH WERE REMOVED

In the early part of the war we were trusted to reject any recruit who did not have at least two grinding teeth one above the other on at least one side of his mouth.

This tendency was not a severe demand and yet the number rejected was astonishing.

A little later the wearing of dental plates was permitted and many were thus enabled to go.

Now why were so many rejected for not having sufficient grinders?

Because it is not so many years ago that when a tooth began to ache or give trouble it was removed and nothing more was thought about it.

In later years however, the value of teeth to the whole body became apparent.

The grinding or molar teeth break up the food, moisten it and give it a chance to mix with the saliva. This is the food's best chance to be further prepared in the stomach, so that when it reaches the small intestine it is readily put into a condition to be absorbed through the intestinal walls into the blood.

Now all this is very important of course. It usually means freedom from stomach ailments, from intestinal distress due to gas formation, and that the individual gets the full benefit from food eaten.

But there is just one thing that happens only too frequently and that is that in keeping these grinding teeth when they are infected, there is the danger from rheumatism and heart disease that more than offsets the benefits above mentioned from the use of the grinders or molar teeth.

When seconds count... wear a Techni-Quadron!

Doctors, technicians and professional men need a watch that tells time in seconds!  SEEDSMEN  
 172 Front St. Phone 233.

In England alone, among sixteen million insured persons, five and one half million weeks of working time were lost in one year due to rheumatism.

Now I am always advising dental care, and the examination of the teeth every six months by your dentist.

However, when you think of the above figures, and that most of this distress is due to bad teeth, and later to bad tonsils, it perhaps makes you wonder if the old system of pulling out every aching tooth did not have some merit to it.

The thought is of course that an X-ray of the teeth every two or three years, and the draining or removing

of infected teeth, will prevent most cases of rheumatism.

P. C. MacLAURIN,  
 Principal.

W. C. Springer, Chairman Vocational Committee.

## THE BULLETIN BOARD

Mainly About People You Know

**TO SPEAK AT Y'S MEN'S CLUB**  
Mr. Joseph Shortt, General Secretary of the Y.M.C.A. will be the chief speaker at the weekly luncheon to be held by the Y's Men's Club in the association building tonight. Mr. Shortt will give a brief resume of the activities of the Y.M.C.A. during the past year. Mr. George Pauley, a former President of the club will render a report of the Y's Men's Convention which was held at the Royal York, Toronto. Mr. Newton Thompson, of the local club who was named President of International Y's Men's Clubs at the big convention will be officially welcomed by the club members in the new capacity.

### INJURED IN ACCIDENT

Messrs. John Evans and Thomas Hetherington, of the staff of the local branch of the Montreal Bank were shaken up and sustained bruises when the motorcycle owned and piloted by Mr. Evans swerved and left the road while he was rounding a turn on the King's Highway near Deseronto on Saturday night. Both young men were thrown a short distance when the machine got beyond the control of the driver. Their wounds were dressed by a physician at Deseronto after which they proceeded to their homes. The machine was not badly damaged.

### REMOVAL NOTICE

Salama's Collecting and Investigating Agency will be pleased to meet their patrons at their new office 219 Front St. over Dickens Store—formerly occupied by F. M. Clarke.

## INTERNATIONAL PLOWING MATCH

AND FARM MACHINERY DEMONSTRATION  
will be held on Government Farms near the City of  
**KINGSTON, OCT. 15, 16, 17, 18**  
You're invited to attend and see in operation all types of Farm Machinery used in Canadian Homes and on Canadian Farms Study the workings of the various makes.

Admission Free

J. LOCKIE WILSON,  
Managing Director.

**ATTENDED TYPING CONTEST**  
Mr. R. H. McNeil, of the Shorthand Department of Ontario Business College, accompanied by Mr. P. H. Henry, assistant principal of that institution were in Toronto on Saturday attending the Typing Contest, which was held at the Hotel Hamilton. This is the first time that such an event has been held in Canada.

**BAND IN ATTENDANCE**  
The Army Light Infantry band will be in attendance at the Armouries this evening for the Canadian Legion Boxing Show. Many good bouts are on the card and the show promises to be among the best ever staged by the Canadian Legion here.

**CAPITOL THEATRE**  
A hundred per cent all talking show at the Capitol is offered patrons this first half of the week, along with a professional vaudeville act of merit. The all talking screen feature is "Behind That Curtain," Fox Movietone special which has scored real successes wherever it has been shown. Another feature is one hundred per cent talking comedy.

**THEATRE GUESTS**  
Men and women of the Home for the Aged will tomorrow afternoon be the guests of Manager Forhan at the Belle Theatre. Local Kiwanians, following their weekly lunch tomorrow will drive them to the theatre.

**LOOKING FOR BENEFICIARY**  
Friends in Boston, Mass., are endeavouring to locate Alexander J. MacLean, a son of John MacLean and Mary A. Gillis. It is found within the next two months will fall heir to a substantial sum of money. If not found within that time, however, he will lose all claim to it. He was born in Prince Edward Island about forty years ago, and lived for a time in Nova Scotia. If anyone of that name has been seen in this district the City Police will give any further information necessary.

**CAR THEFTS REPORTED**  
Three car thefts were reported over the week end. At Picton a Chevrolet Sedan was stolen, at Port Hope an Oakland was made off with and at Oshawa an Overland was taken. Police are of the opinion that the same person stole all three and is making his way westward.

**PETTY THEFTS**  
Several thefts were reported to the Police over the week end. On Saturday night a kit bag of tools was taken from Harry Twiddy's car, which was parked on Pinnacle St. near Victoria Ave. and Mr. J. B. Findlay's home at 338 Charles St. was also entered. The thief gained entrance to the house through a cellar window, stole eight dollars and went out by the front door. A man named Howard Peterson, no known address was arrested on Sunday night near Hill's blacksmith shop, which had been found broken in and this morning was remanded for one week, after being charged with breaking and entering. An electric drill was found outside the Hill Shop, but otherwise nothing was missing.

**POST OFFICE ENTERED.**  
This office broken into the Foxboro Post Office some time during Saturday night, but fortunately nothing of value was taken. The mail was ransacked but as far as is known, no letters are missing. The Post Office Store, which is connected with the Post Office, was not overlooked some silver being taken out of the cash register, and a quantity of groceries also being removed. The loss will not be heavy. Provincial Police are investigating.

**BAND CONCERT TONIGHT.**  
In aid of the Harvest Festival, the Belleville Salvation Army Band will hold a Band Concert in the S. A. Citadel this evening commencing at 8 o'clock. Jack Green, winner of the Gold Medal at the C.N.E. for Cornet players, will be in attendance and a fine programme will be put on.

**CLOSING QUOTATIONS**  
2.30 Quotations of Standard Stocks and Mining Exchange as supplied by Mowat & MacGillivray, 32 Bridge St.  
E. J. G. Osborne, Manager.

## PERSONALS

VISITORS WHO COME AND GO.

Mr. Boyo Drew, of the Belleville Motor, who was suddenly stricken with appendicitis a short time ago, has been operated upon and is resting quietly in the Belleville General Hospital.

Mrs. A. M. Brown, Shrewsbury, Ont., left for home today after visiting with her father at the home of her brother, J. Russell Harker, Dunbar Street.

Mr. and Mrs. Philip Carr, of Toronto, spent the week-end with his parents, Mr. and Mrs. Charles Carr, Front St., while passing through Belleville on their honeymoon.

Mr. Charles Kline, Front St., returned yesterday from Calgary, Alberta, where he spent the past two months.

Miss U. K. Brown, teacher in charge of the Commercial Department at the Belleville Collegiate Institute attended the International Typewriting contest held in Toronto on Saturday, Sept. 28.

Mr. E. J. S. Wallwork, of Toronto, spent the week end in this city on business.

Mrs. W. Green, Charles Street, is spending a short vacation visiting friends in Toronto and Hamilton.

Miss Jean Hayes, of Rosemore, left yesterday for Detroit City, after spending a pleasant vacation the guest of her parents.

Mr. and Mrs. Neale White, of Calgary, Alta., were the recent guests of her sister, Mrs. R. Payton, third of Sidney.

Mr. and Mrs. Neale White, of Calgary, Alta., were the recent guests of Mrs. B. Hall, Foster Ave.

Miss Grace Kennedy, who has been confined to her home on MacDonald Ave. for the past week through illness returned to work today.

Mrs. Frank Domenico is spending her vacation in Quebec and will visit St. Anne's de Beauséjour.

Mr. and Mrs. J. O. Herity, of this city, were the guests of Mr. and Mrs. George Kingston, Campbellford on Friday and Saturday last. Mr. Kingston is the proprietor and publisher of the Campbellford Herald.

## WEDDINGS

**COOMB—POST**  
A very pretty wedding was solemnized at Holloway St. Church on Saturday at high noon, when Mildred Elenor, daughter of Mr. and Mrs. George Coomb, of Port, Portland, Oregon, was united in marriage to Harvey George, son of Mr. and Mrs. George Coomb, of North Bay.

The ceremony was performed by Rev. L. S. Wight and the wedding music was played by Mr. A. Gordon. The bride was given in marriage by her grandfather, Mr. E. Ford, and looked charming in a gown of Delphinium blue georgette with beige felt hat. She carried a bouquet of Ophelia roses and baby's breath. Miss Myrtle Andrews, as bridesmaid, wore a gown of beige georgette and lace. She also carried a bouquet of Ophelia roses. The groom was attended by Mr. Robert Bourke.

Following the ceremony the wedding party retired to the Queen Hotel where a luncheon was served. Later the bride and groom left on a trip to Toronto and Ottawa. The bride travelled in a smart ensemble of russet brown canton crepe with hat and shoes to match. She wore the gift of the groom a beautiful red fox fur to complete her costume. The groom's gift to the bridesmaid was an evening purse and to the bridesmaid gold cuff links. On their return they will reside in Montreal.

Among the out of town guests were Mr. and Mrs. George Coomb, Miss V. Coomb, Mrs. E. Mornabell, Mrs. Brownless, all of North Bay, Mr. and Mrs. Casey Ketcheson, Trenton; Miss Grace Hudgins, Miss Maudie Post and Miss Sybil Slead, of Toronto.

Wreath—Mr. and Mrs. C. A. Pennington.  
Spray—Mr. and Mrs. Fred Walker, Willing Workers Bible Class, Norwich United Church, and Mrs. Geo. Gill, Mr. and Mrs. P. Longworth.

## DEATHS AND FUNERALS

**WILLIAM GOODFELLOW**  
William Goodfellow, 8th Concession of Tyendinaga, passed away at his home on Saturday afternoon last. He was born in Tyendinaga, in 1849, being in his eighty-first year. He had resided there all his life and was taken seriously ill about two weeks ago. He is survived by his widow, three sons, John A. William and George, all of Tyendinaga, and two sisters, Mrs. William Alfred and Mrs. James Colleen, both of Tyendinaga, and two brothers, John, of Thurlow, and James, of Sudbury. The deceased was a member of the Anglican Church at Roslin and a member of L.O.L. No. 255, Roslin.

**BETTY LORRAINE CARSON**  
Betty Lorraine Carson, infant daughter of Mr. and Mrs. Samuel Carson, 105 Cannifton Road, passed away yesterday. The infant was but six weeks old.

**MRS. VICTORIA A. HUFF**  
The funeral of the late Mrs. Victoria A. Huff took place from her late residence on Saturday afternoon at Huff's Island. Services were conducted by the Rev. Knox, of Roblin's Mills. The bearers were, Lou Wallace, John Hatfield, Tom Nightingale, Ross Ralman, W. Black and E. Wallace. Interment took place in Simond's Cemetery.

**MISS IDA MAY RUTAN**  
The death occurred early yesterday of the late Henry Rutan, daughter of the late Mr. and Mrs. Peter Rutan, at her residence, on Albert street. The deceased was born in Prince Edward County but had resided in Belleville practically all her life.

The deceased had presided over the home of the late Henry Rutan since the death of his wife, twenty-nine years ago. She is survived by a cousin Mrs. D. Crane Taylor, of this city, three sisters, Mrs. Doll Roblin and Mrs. Blamark Roblin, of Prince Edward County and Mrs. Mabel, of Syracuse, and four brothers, Earl, of Cincinnati, William and Edison, of Oswego and Ernest of Prince Edward County. The late Miss Rutan was a member of Bridge Street United Church.

**MRS. J. SIMMONS**  
Stockdale has lost one of her oldest citizens in the person of Mrs. Jeremiah Simmons who died suddenly at the home of her daughter, Mrs. (Rev.) J. M. Haith, Norwich, Ontario, Monday evening, Sept. 23. Mrs. Simmons whose maiden name was Cynthia M. Longwell was born in Sidney Township, Nov. 22nd, 1840, and lived her entire life in this vicinity until two years ago when she went to the home of her daughter.  
The funeral services were held in Frankford United Church on Wednesday, Sept. 25, conducted by Rev. W. Street, of Stockdale, assisted by Rev. A. S. Doggett, of Frankford. Mrs. Simmons leaves three daughters and one son to mourn her loss. Mrs. A. M. Chapman and Mrs. Alex. White, both of Toronto and Mrs. (Rev.) J. M. Haith, of Norwich, Ont., and Norman on the old homestead at Stockdale.  
Mrs. Simmons was one of the most highly-respected citizens of the community and had won a host of friends by her ability to look upon the bright side of life and by her keen sense of humor which she retained to the last.

## CARD OF THANKS

Mrs. J. Murphy and family wish to express their appreciation of the kindness and sympathy shown them during their recent sad bereavement.

SECTIONBELL TELEPHONE TEAM TIED SCORE IN NINTH AND  
WENT ON TO WIN IN TENTH INNINGS; NATIONALS  
LED ALL THE WAY AND HAD WONDERFUL PITCHING

Vinny Utronki Allowed Only 4 Hits, Pitching Best Game of Season—Harry Blakely Pulled Feature Play of Game—Belleville Bats Silent and Carleton Struck Out Eight—Return Game Here Wednesday—A. Scott Broke Up Game In Tenth With Long Double—Fielding of "Sonny" and Murney Green Sensational—5,000 Fans Witnessed the Pastime.

(By Perce Cole, Sports Writer)

Two runs to one for Bell Telephone was the score, folks, even though the telegraph operator at Conboy Park pitched differently, and sent the final score through to a breathless Belleville audience in front of The Intelligence that the final score was one to one for Belleville. And the cheering which was heard when this report came through was all wasted, for when the correct score was received a definite pall of gloom settled over the crowd which had waited in suspense all afternoon as they saw the Belleville Nationals take the lead in the fifth innings and hold it until the ninth. At least, they tell me that fans in Belleville were disappointed, but those lucky ones who saw the game were not. They knew that the Nationals gave all they had, and they also know that the return game here on Wednesday will be a real battle from the drop of the hat. If the Hello Boys win then, we will concede them then.

It was anybody's game right until Alex Scott, burlly third baseman for the Telephone squad, hoisted the longest hit of the day right to the left field bleachers, and Carleton, the Toronto pitcher, crossed the plate with the winning run, scoring from second base. And the tumult and the shouting which then arose from the leather lungs of some five thousand odd fans which thronged the abbreviated ball ground known as Conboy Park could have easily have been heard by the steel riveters working on a new sky-scraper three miles away. And undoubtedly it was.

Utronki's "let's game" All kinds of credit must go to Vinny Utronki, underarm slinger of the Nationals, who simply stood the Toronto champions on their heads for eight and two thirds innings. For mark you, friends, the tying run was scored with two men out in the ninth innings, and W. Sniderman, who walked, was on third base. Jennings, a pinch hitter, was the man responsible for the tying run scoring, for he came through with a timely single, the third Telephone team hit of the day, which brought Sniderman home from third. Jennings hit through the box, and Utronki had no chance in the world to field the ball. It was a heart breaker for the Nationals pitcher, but he settled right down and made Thompson, another pinch hitter, fly out to Bob Scott.

Utronki had only two strikeouts as compared to eight for Carleton, but one was on the mighty atom, "Pinky" Clarke, home run hitter extraordinary—over the short left field fence at Conboy Park—and with the exception of Scott's hit which broke up the game in the tenth, there was not one solid blow struck off his delivery all afternoon. His only fault was his control, for he walked six men and hit one, and the two Toronto runs were scored by players whom he had walked. He pitched a fine game, however, and deserved the verdict.

Carleton, the right hander who was hit hard and often, last year, by the Nationals in their first game with the Bell Telephone team again started the pastime, but this time went much better. He had eight strike outs, once retiring four men in a row by that method, and although he weakened at times, his support was glib edged, and three double plays pulled him out of the hole when a hit would have meant one run at least. He pitched two double plays, one of them being pulled off by Blakely and V. Weir, which was the prettiest play of the game. Worthy, Toronto right fielder, was safe on Bob Scott's hit, and Daley sacrificed him to second, and Carleton hit what looked to be a sure Texas Leaguer back of short. Blakely made the fans sit up and take notice, however, when he sprouted back, grabbed

## PILES GO QUICK

Piles are caused by congestion of blood in the lower bowel. Only an internal remedy can remove the cause. That's why salves and cutting fail. Dr. Leonard's Hem-Roid, a harmless tablet, succeeds, because it relieves this congestion and strengthens the affected parts. Hem-Roid has given quick, safe and lasting relief to thousands of Pile Sufferers. It will do the same for you or money back. J. S. McKeown, and druggists everywhere sell Hem-Roid with this guarantee.

BOUNTS TONIGHTGood Number of Fighters  
All Set For Third  
Tournament

Tonight's night, those folks fans who miss the boxing programme at the Armouries tonight will be missing one of the sport features of the season, for some real old time scraps are scheduled. The fights are due to start at 8.15 o'clock, and all arrangements have been completed.

Entries who will start, which have been received up to 5 o'clock on Saturday afternoon were as follows: J. Parks, D. Blackburn, Ben Malloy, Wildcat Panza, A. Cather, Scotty Adair, O. Semark and Freddy Leonard. F. Fair, R. Holmes, Red Harrigan, Bill Charlesworth, Phil Scott, T. Johns and H. Miller. There have been no entries received from Napanea, as the boxers in that town have had no place to train, their quarters having been taken by a new concern which is building there.

Mr. Charles Hanna, ex-M.P. will act as announcer, while the judges will be Mr. Hope McGinnis and J. McEwen. Timekeeper will be T. Jordan, while Dr. Morgan will be medical attendant. Mr. Bert Keyes, a former well-known fighter, will be referee. Any who have yet failed to get their struggle tickets can do so up until seven o'clock tonight at Ed. Thomas' store or Bill Cook's. All competitors must weigh in at seven o'clock at the Armouries, and Mr. J. Halford will supervise the weighing in. Joe Seamine, Robinson, Hinton and Johnson will give the fighters every assistance.

NO ANXIETY FELT  
FOR FRENCH FLIERS

Lebourget, France, Sept. 30.—While no report has been received since they passed over Cologne, Germany, early today, no anxiety is held for the safety of Dieudonne Coste and Maurice Bellonte, the French fliers who took off here yesterday headed for Siberia.

## TYPISTS TO COMPETE

Toronto, Sept. 30.—Seventy-five of the world's fastest typists contest the International Typewriting Competition here tonight and before tomorrow a new world's professional champion may be crowned.

## LINER ANTONIA IN COLLISION

London, Sept. 30.—The Cunard liner "Antonia" collided with a foreign cargo boat as she was docking to embark passengers for Quebec. The "Antonia" was slightly damaged. The cargo boat after heeling over righted herself.

## READY FOR LONG JAUNT

Seward, Alaska, Sept. 30.—The Russian plane "Land of the Soviets," which arrived here late yesterday, was being made ready today while a crew of four rested, in preparation for the take-off for Sitka, 193 miles distant, tomorrow.

any team in the province.

When the collegiate meets up with

Picton next Saturday one of the

sweetest little games of the season

will be played up. The high school

ers have great possibility. They

have a fast backfield with "Bill" Wil-

liams, Champagne, Murphy and Har-

old Mott, and with a little more prac-

tise will make things interesting for

any man's squad.

Mott and Williams appear to be

about the most slippery performers

on the team, although Mike Gillen is

good for yards nearly every time.

Gillen has the art of twisting down

nicely and is hard to hold when he

gets started.

Yull, for Albert, played a lovely

game on Saturday. But Jack will be

pushing dandelions the end of the

year if he doesn't stop hurdling.

Hurdling game yards, it's spectacular

but it's too dangerous for general

use.

A lad who is a coming star this

year, it would appear, is Louis Mar-

askus, for the high school. Maraskus

did not show up to well last sea-

son, but on Saturday, was good.

really good. When he gets warmed

up he is going to prove dangerous.

Another threat is Paul, ex-sub-quar-

ter for St. Thomas, runners-up for

the Dominion champions last year.

Pullen, playing for Albert, is one

sweet tackle and, added to that, he

can run like a flash.

Albert had better work those

fumbles out in practise after six

months have been five or six

months go wrong on Saturday last.

Don't know what the blame falls

on Parley Faulkner, the snap, or

whether the backfield got its sig-

nals mixed up. Whichever way it

goes, fumbles are fumbles, and have

lost many a game that was thought

secure.

If the collegiate would only turn

out about ninety per cent of its

five hundred odd students to cheer

the team along it would make a big

difference. There would seem to be

a deplorable lack of school spirit at

B.C.I. for the past few years. Get

out and cheer your team along!

A few tiny cheers at the right

time mean all the difference in the

world. You have a team to fight for

Support it, and you'll not be sorry.

EIGHT WERE KILLED  
IN MINE EXPLOSION

PotEAU, Okla., Sept. 30.—Eight men

Company, twelve miles north of here.

Two were killed outright, while the

other six died as result of a fire damp

explosion.

An earthquake was recorded

Ottawa, Ont., Sept. 30.—An earth-

evening shortly after six o'clock.

PLAY BY PLAY  
STORY OF GAME

First Inning

Belleville—R. Scott struck out. Weir

walked. Harry Mills was hit. "Peen-

ey" Mills singled to right, scoring

Scott. With Weir going to third. Blake-

ly hit into a double play. Sniderman

to Clarke to Cayley. 1 run, 1 hit.

Belleville—W. Sniderman batted to Blake-

ly. Jones walked. Murney Green

made a good running catch of

Clarke's long drive to left. H. Snider-

man called out on strikes.

Second Inning

Belleville—A. Weir tied to centre.

Alex Scott made a great step to throw

out Murney Green. Cayley made a

great catch of E. Green's line drive.

Belleville—W. Sniderman threw out by

Scott. "Vern" Weir made a great run-

ning catch of Cayley's pop fly.

Green took Worthy's fly.

Third Inning

Belleville—Mills singled to left.

Scott sacrificed. Carleton to Cayley.

V. Weir walked. H. Mills hit into

another double play. Clarke to Cay-

ley. 1 hit.

Belleville—Daley singled to left. R.

Scott sacrificed. A. Scott sacrificed Utronki

to H. Mills. On Jones' fielder's

choice Daley was thrown out at the

plate. Clarke walked. H. Sniderman

popped to Scott on error.

Fourth Inning

Belleville—"Peeney" Mills singled to

right. Blakely beat out a hit to sec-

ond. A. Weir struck out.

Green fled to Worthy, who doubled

Mills off second. 2 hits.

Belleville—W. Sniderman singled

through short. Cayley sacrificed U-

tronki to H. Mills. Worthy was hit in

the leg. Daley hit into the fourth

double play of the game, Blakely to

H. Mills. 1 hit.

Fifth Inning

Belleville—E. Green struck out.

Utronki struck out. Bob Scott drew a

walk. R. Scott stole second. V. Weir

fled to Jones.

Belleville—Utronki threw out Carleton.

A. Scott thrown out by Blakely. Jones

drew a walk. Clarke thrown out by

V. Weir.

Sixth Inning

Belleville—Mills put up a high

one to Clarke. "Peeney" Mills

bounced out to W. Sniderman.

Blakely fled to H. Sniderman.

Belleville—Harry Sniderman sent E.

Green deep in right for his fly. W.

Sniderman fled to V. Weir. Cayley

gave Murney Green a long fly.

Seventh Inning

Belleville—Alex Weir grounded to

Cayley. Green thrown out by Car-

leton. E. Green fled to Jones.

Belleville—Worthy sacrificed. Alex

made a bad throw to first. Daley sacri-

ficed him to second. Blakely made a

great running catch of Carleton's ap-

parent hit and doubled Worthy off

second.

Eighth Inning

Belleville—Utronki struck out. Bob

Scott was Carleton's sixth strike-out

victim. Vern Weir also struck out,

making it the side.

Belleville—Alex Scott fled to centre.

Jones walked for the third time.

Clarke struck out and Jones was

caught stealing second.

Ninth Inning

## Miss Hard-Boiled" BY JANE DIXON

Raquel was glad Jerry's mother had not imposed love into her bargain. As it was, she could promise truly that she would fulfill the trust this mother gave into her keeping. But love? That she could not promise. She did not have it to give—had never had it. The Potter had left Love out of the alembic of her making.

Pancho was as when they left him. Environment—what it could do to people—for or against them!

Raquel brushed Pancho's brow with the first kiss she could ever remember ever to have passed between them when she found him alert and full of graceful speeches upon their return. Pancho hid it very skillfully, but Raquel knew he was startled, as embarrassed, over the impulsive kiss as was she.

"I met a man from Spain the other day," he remarked, with evident zest for the subject. "He's here on some kind of diplomatic mission. Comes from Cadix. He was telling me about it. The Rojoses are of Cadix. It is the seat of the family, since before the Inquisition. He stopped short, as if his tongue had run away from him. And added with a quick glance at Raquel, 'I'd like to take Lucy'."

Raquel nodded. As if he had made the most casual remark possible.

"It would be interesting," she said. "I'd like nothing more. We could do it, eh, Jerry? After we come back from the Orient and rest up a bit."

"Why not?" Jerry shared her enthusiasm. "We ought to show them what this country can do by way of serenities."

"Serenities?" Raquel corrected, laughingly.

She was troubled about the trip to the Orient. Restless to be away. She needed the rest, the change—because of the fiddleness and the weak feeling she hadn't told anyone about. That bodily fatigue had taken much from her. She had grown soft, unused to

clash and to strain.

Jerry was still having his bad nights. The purple pools under his eyes were deeper, darker. His brow was damp and cold when she touched it to soothe his troubled tossing.

He insisted, however, that he had never felt so fit.

"That wise old owl of a specialist has forgotten all about me," he said. "He has given me up as a lost prospect."

Raquel knew better. Only that morning she had talked with the specialist. She did not like the way the famous man of science looked at her when he said she must be patient—that he would have a decision for her within a week.

"You don't think, Dr. Logan—it's nothing serious—that is, nothing really serious?" she asked, alarmed by the stern set of his lips.

"Not so far as I have been able to tell," he answered with an air of professional mystery she could not penetrate. "One never knows. There are two or three phases of this case that have puzzled me. The symptoms are not unusual. The thing of it is they do not react to the treatments prescribed. This proves I have been on the wrong track. I have not found the seat of the trouble."

"But surely—"

"I shall be better able to judge of the extent of your husband's indisposition when the report comes from the laboratory. That must be within a few days, at the most." With that he dismissed her.

Oh—if Jerry should—She squeezed trembling lids over her burning eyes. Drove away the little devil of fear that clutched and tore at her.

"Doctors are always like that," she assured herself. "They do it to give the impression they are earning their fees."

She remembered that Jerry had had a good night, the best for a week. And this morning he was so full of life and ebullient activity that she had shooed him out doors. He had gone off with Pancho for a spin up the Hudson to a country club where he had "a bundle of clubs on ice." He'd like to warm them up again. He might even challenge Pancho, who ought to swing a mean mashie, if shoulders were any measure of a golfer.

Pancho joined in the laugh at his expense.

"I'll go with you," he promised. "If you'll make it six-shooters."

"There speak the man from the great open spaces," Jerry chuckled. The apartment seemed unbearably empty when she returned to it. There was a letter from Greta.

"I was out stepping among the holly-tots last night," wrote the irrepressible one. "and who should I slap on the shoulder but Lord Eric & affore—in person. He was there with Lady Eric. He calls her Cynthia or something, but I don't mean maybe when I say Lady Eric. She's as cold as a landlord's heart, dearie. And the dear old bean simply reeks of the stables and the hounds. I mean Lady Eric. I think you pulled a dirty trick on her lordship. I bet he has to play on his Sweet Home on a hunting-horn. 'Alphonse plans to sail in a couple of weeks, and I'm a part of the show. He's doing as well as can be expected, thank you. I've got him all pepped up to a 'Bless you, my children' pitch, so don't you go and spoil the act. You

## CANADIAN TO BE CLASSIFICATION IN 1931 CENSUS

Ottawa Bureau Has Vexed Question Under Consideration

Ottawa, September 30.—The question which will be asked the people of Canada at the next general census are now under consideration by the Dominion Bureau of Statistics. The present plan is to take the census, beginning on June 1, 1931, and all the questionnaires to be used must be adopted by the Governor-in-Council. In view of the immense amount of printing and organization required, the initial plans are well under way.

The vexed question of whether people should be classed as Canadians or according to the nations from which their ancestors came, will not likely prove so troublesome in the case of the census, as it frequently has with other Dominion and provincial Governments' services. The name of every man, woman, boy and girl in Canada will be taken down. They will likely be listed as Canadians British subjects who are not Canadian-born and aliens.

Canadians will include all those born in Canada, all other British subjects who have lived in Canada long enough to acquire a domicile here, all persons naturalized, and their children. The time necessary for a British subject to acquire a domicile varies. It is only a short time for the purposes of voting but to acquire all the privileges, such as immunity from deportation, it takes five years.

A son or daughter born in a foreign land, but of Canadian parentage, becomes a Canadian unless electing to be a citizen of the nation of his or her birth.

The census will also find out the racial origin of each inhabitant. Canadians are of so many racial origins that, to get a complete picture of the Canadian people, this must be taken into consideration. Last year there were 310 Chinese children and 830 Japanese children born in Canada, all of whom are Canadians.

Foreigners are becoming naturalized Canadians at the rate of about 30 a day. Their certificates are issued by the Secretary of State's department. An unusual objection has been raised in the case of Ukrainians. Many of them want to be put down as Ukrainians in their naturalization papers, but under the law they are put down as Poles or Russians, depending upon whether they come from Poland or Russia.

In addition to the census of the humans the census of the horses and the cows and the sheep and the hens will be taken in an agricultural questionnaire. While the census of most of the other large industries of Canada are taken annually, the farming industry is taken only every ten years.

know that brass kettle I blasted on our way up from Beauville? I got it almost filled with used platinum cigarette cases and lighters and silver hip flasks and what not. The motto hung on the handle in "Take 'Em Before They Take You." How's Jerry? Doting as usual, I suppose."

Eric Stafford married! He had walked in the way of tradition. If she had

### Adult Amateur Dressmaking Contest Closes Oct. 8

This is the Final Week! Have You Entered?

The great Amateur Dressmaking Contest is approaching the close. Only one week left to make your entries for the big prizes—\$80 in local cash prizes, \$530 in Grand Cash Prizes. Three Silver Cups and other time to pit your needle ability against the efforts of other local contestants. All entries will be judged by competent dressmaking authorities. ENTER NOW!

## Dress Fabrics For Autumn!

Fall Piece Goods have caught the glory of the setting sun and glow with color—warm, rich and deep. Choose from a fascinating display!

### Smart Silk Crepes With Tweed Like Patterns

A soft, lustrous weave—all silk—with new interesting patterns—in tweedlike weaves—checks and stripes, of course. In the new tones of brown, sand, green, burgundy, grey etc.

38 inches wide. Priced—Yard **3.95**

### Galtona Crepes

Outstanding Values

—for the money. A serviceable weave—not heavy and loosely woven but fine, and satiny. Looks exceptionally well when made up. All silk—in a nice weight—tones of navy—lucerna blue, black, white, red, sand, peach, rose, etc. 38 inches wide

Galtona wide—Yard **1.85**

### Rayons

More and more are we realizing how smart these new rayons are—how well they may be adapted to present day mode of dress. The new ones, particularly fine of weave—in fact, very much resembling the crepes. Patterned with small, neat floral effects—in brown, powder, navy, green. A good width of 40 inches.

Yard **2.25**

### The New Tweed Coatings

Have a softness of a mist hovering over the water—of all wool—with new interesting patterns—in various mixed designs—merging into one another—and blending wonderfully. Brown or sand—an extra width of 54 inches. Yard **2.95**

### San Sebastian Crepes

55¢

Exclusive—no doubt about that, when designed by Mallin son—all silk. San Sebastian Crepes—flashing patterns and shades that are reminiscent of the land of Spain. Green, sand, red, and powder. 38 ins. wide. Price—

Yard **5.95**

### Wool Delaine

Yard 95¢

Neat, wee checks, etc.—a splendid lightweight fabric of all wool yarns that is lovely for blouses, the skirts, or for frocks for sport or street. A width of 29 inches. In green, black, navy, red, and powder. Very moderate in price

**95c**

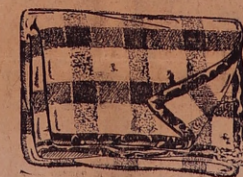

—Second Floor.

## Feature Prices on Table and Bed Linens!

### Blankets for Cool Autumn Nights

Soft, and cozy—snow white blankets that came whipped singly—choice of blue or pink borders. About 7 lbs. in weight. Size 68" x 86". Really wonderful value—Pair **7.95**

—Second Floor.

Principal,  
Collegiate Institute  
Belleville, Ont.

## RETURNS HOME AFTER ABSENCE

Miss Greta Lauder has done Much Travelling With Uncle

accepted Stafford! Why, then, she would never have had Jerry. This Jerry, who came to her now, eager and warm. His lips covering hers.

"Great morning," he said. "Even if your father does think golf should be played with teapots. And whom do you think we ran across?"

"Whom?" she asked catching his mood.

"Berlie Adams. He said he knew you, dear. He read about our marriage. His congratulations were well. I guess he meant business, all right. We've pooled against each other a couple of times. What he can't do with a pony!"

Raquel watched this husband of hers with flickering eyes.

How life crowded in. Stafford. Berlie Adams. Alphonse. It was like a merry-go-round. With her, safe in Jerry's arms, in the center of it.

"I have the word about the Orient," Jerry went on. "We happened to about a month."

CHAPTER 71.

Raquel, stepping from her car, entered a shop on Fifth Avenue. Her black eyes took no cognizance of the stream of fashion that flowed there. It was the first time she had been in Chez Alphonse since her return. No idle curiosity sent her to this foyer of her realized dreams. Her return was a pilgrimage.

"I'd like to see your hair," she told the elegant young woman with the copper hair who hurried forward to receive her.

"If you will step this way," the copper young woman paused.

"Something in black velvet," Raquel said, "with white paradise."

"Why, Mademoiselle Raquel!" The copper young woman exclaimed. She was a fluter of excitement.

"I'm not a ghost," Raquel said, almost as flustered as the copper young woman herself. "And I was only joking about the paradise. Just select whatever you think I would like. Some Reboux. I like Reboux."

The young woman was in such a state she forgot her mission—why she hurried in the direction of the screen at the front of the shop.

That screen, Madame Pauline. What had become of Madame Pauline? She dared not ask. Something inside her quivered and stopped. Madame

Edmonton, Alta. (By Canadian Press).—Away from Scotland almost a year, in which time she has traveled almost around the world with her celebrated uncle, Miss Greta Lauder, Sir Harry Lauder's niece and chaperone, was a visitor in Edmonton during her uncle's engagement.

A charming young woman with hazel eyes and a vivacious smile, she has met more celebrated people in all walks of life than on her world tour. Shortly before she left Scotland last year she had a delightful visit with the Duke and Duchess of York and the little Princess Elizabeth.

Miss Lauder's chief hobby is swimming, although she doesn't believe in championship events. She is fond of golf and fishing in which she and her uncle indulge a great deal, and she is passionately fond of motoring. At the opening of the season each year they go to London together and do the round of the shows.

"Lauderville," the Lauder home on the banks of the Clyde, one and a half hours' trip by boat and rail from Glasgow, is a white stone colonial mansion over 116 years old, but remodelled and fitted with the most up-to-date equipment, much of which I am afraid my uncle got from America."

Miss Lauder said, "You know women are not given so much consideration when it comes to household conveniences in the old country, and your devices in Canada are the last word I do insist, however, on keeping to the old country range. There is no stove that bakes so well."

Pauline was not there. She was out there, somewhere in the vast void. Even the hush of the flower Alphonse had plucked out and tossed aside was less than the dust. But the hummingbird hummed on.

(To be continued.)

## FRENCH NAVY WILL COST COUNTRY MORE

Paris, Sept. 30.—French navy will cost the taxpayers of the country approximately a hundred million dollars in 1930, just four million dollars more than 1929, if figures adopted by the finance committee of the Chamber of

Deputies are approved by parliament.

LEFT \$200 TO Y. M. C. A.

Kingston, September 30.—The local branch of the Y. M. C. A. has received a cheque for \$200. The donor was the late Mrs. Jean Padden, who in her will stated that the money be given to the Y. M. C. A.
